Chapter 1791: Flurry of Demons

Typical yin and yang weirdness, Li Yun just stepped on his backhand... Oh, Weibo didn't step on it, then the backhand is a shield, so I won't see this yin and yang weird ***** next time.

"Tsk tusk, 80% of the global mobile phone industry profits, Baiyun Technology really dares to dream."

"Hahaha, the first weakest in 2020. Zhi News is scheduled!"

"I personally announce that Baiyun Technology is the most bragging company in the world!"

"I declare your announcement valid!"

"Don't scold it, don't scold it. People have finally raised 300 billion yuan. The bubble has just blown. Are you going to burst?"

"Hehe, how much of the three hundred billion is blackwashing... understand everything."

"Understand NMB, Baiyun Technology is stupid than true, but Lao Tzu also wants to blow up the dog head of 'everyone knows beast'!"

"Everyone who understands understands [/doge]"

"..."

Completely flurry of demons.

Li Yun glanced at other blog posts again, what "Baiyun Technology is stinky and shameless", what "Buy fruits in ten years, and hammer in twenty years", "Hammers are already shaking", "Good news: Baiyun Technology is catching up with the beauty of the Premier League!" There is also "Baiyun Technology has opened overseas offices, and will accept all overseas mobile phone companies and fruit companies as tributes", and "Baiyun Technology has conquered the global mental hospital, and is about to capture the foolish village. The next target is the mentally retarded village. ".

at last.

#白云科技 awesome! #

#白云科技 Silly than! #

Two hot searches rushed to the top ten of the hot search list at the same time. The hot searches that are opposed to each other and have a wonderfully symmetrical relationship have attracted a large group of people eating melons. The number of posts on Weibo Tiebalangpu and other forums has skyrocketed, and the technology circle With laughter, everyone clapped their hands and said:

This cross talk is so nice!

"I'm Cao!"

Li Yun couldn't help but explode a word of foul language even if he was so restrained, so that Li Feng and the others looked over.

"younger brother....."

"Brother, what's the matter?"

"Husband~?"

The caring gazes of the women made Li Yun calm down quickly. Just as he was about to speak, the system prompt came.

"Ding, trigger the option event, please choose from the host:

Option 1: Make a face to the world and prove the strength of Baiyun Technology! Reward experience value +10 million, all attributes +5000, golden gift bag*3, and a random game item with big fire.

Option 2: Patience, reward experience value + 1 million, free attribute points + 2000, blue gift bag*5.

Option 3: Jumping and swearing, go to Weibo and go online with silly friends for three days and three nights! Reward evil value +100,000, rationality -50,000, gain passive skill: Chairman Zuan. "

Chairman Zuan?

Li Yun, who hasn't paid attention to internet buzzwords for a long time, has a dumbfounded look. Isn't this Xiaojiao's father, his father-in-law's name is the next game in the second district of Telecom?

Cough, low-key, low-key, if others know that Li Yun's father-in-law is Sunantian, he will be scolded by someone using a loudspeaker to scold him.

"Brother won't be angry and stupid?" Caiwei worriedly shook her brother's hand and said coquettishly: "My brother is not angry, it's a big deal, we won't start a company, and now my brother's money is enough for us~"

"...Little Caiwei, I'm fine."

Li Yun shook his head and decided to choose the second item.

Although Option 1 is the most rewarding, it is not his style to jump out in a hurry, and Li Yun decided to bear with him.

"Ding, the host makes a choice, rewards experience value + 1 million, free attribute points + 2000, blue gift bag * 5."

Li Yun smiled dryly and said: "Let them make jokes again. After the company officially announces the news, the faces of the netizens are not painful or not!"

It is foreseeable that the slapped faces will be idiot netizens and many people who eat melons. The more frustrated now, the more ruthless the slaps will be. Li Yun can't wait to see that scene.

Chapter 1792: Time to go to school

Come back the next morning.

Li Yun was awakened by the sound of opening the door, and then with a click, the light in the room turned on to illuminate everything in the dim room.

"Li... Yun...!"

Accompanied by the sound of low pressure, a beautiful and frosty girl's face appeared in front of Li Yun, staring at him with resentment and shame!

"Xiaoxue, what are you..." Li Yun bit his head and greeted this real girlfriend who had come to his house early in the morning.

"Why can't I come? If I don't come, I can see you and Fengfeng... No, sleeping with this fish-thief cat? This is her room at all? Can you explain why you are together? sleeping?"

Lianzhubao's question came from Li Yunzheng's girlfriend, and Li Yun was speechless and could only smile.

Although Fang Xue already knew that Li Yun had many confidantes around him, and even knew Li Feng's relationship with him, and even Li Feng specially taped her, but she personally caught and raped her in bed, she still made Fang Xue jealous and embarrassed. He used a small pink fist on Li Yun's body.

"Let you mess up! Let you steal, Li Yun, you are really necrotic...Woo, don't kiss me, you **** just kissed Fengfeng... well."

Hammer and hammer, and it's changed.

In the end, Fang Xue also became Li Feng's current appearance, blushing with embarrassment.

When Li Feng woke up lazily, she found her good friend Fang Xue, who was also lying on her bed.

The two women faced each other, surprised at first, and then shy.

After all, during this semester, the two girls are considered to be extremely good sisters. They usually "go out and go in pairs" together at school, and they often go shopping together on weekends, closer than their girlfriends.

But now?

One was too poor and had no clothes to wear, and one had it, but it was also very messy and messy.

"Little Baixue, where's my brother?" Li Feng was the first to come back to his senses, sat up and took the sheet to cover her, with her jade hand, she closed her messy hair, showing her feminine beauty.

"...Huh, who, who knows her!"

Originally, Fang Xue came to "catch the traitor" aggressively, but now she has become the weaker party and completely lost to Li Feng!

No, she Fang Xue is Li Yun's first girlfriend, she must save her face!

"Li Feng!"

Fang Xue looked at her girlfriend with a questioning tone, and said solemnly: "I really didn't expect you to be so bold, you would actually..."

"Come on less~!"

Li Feng smiled and clicked a little on the pure white forehead, then reached out and patted her arm covering her chest, and said charmingly: "Who has been pestering me to ask questions last night? Who is it? After I said I wanted to rest with my brother, I came here early the next day? Little Baixue, don't I know you yet?"

"Know, what do you know about me?" Fang Xue became more guilty.

"You guy..." Li Feng leaned close to her ear and said to her ear, "I like this very much, yeah, huh~~?"

The tone was soft, revealing an aura of enchantment, not at all the charm and sense of charm that an inexperienced girl could show, Fang Xue's beautiful face shrieked, completely blushing.

"What about this? I don't know what you are talking about!! Li Feng, get up, it's time to go to school!"

Fang Xue... jumped up like she was escaping, rushed to the bathroom and planned to wash her away, only to meet Li Yun again.

Then, Li Yun inevitably suffered another blow from Fang Xue's small fan fist, and later joined Li Feng, and the three were in a group.

Chapter 1793: More domineering president than domineering president

After half an hour, the three and the Caixia Caiwei sisters finally went to Zhicai Middle School together again.

—As for Xiao Yongning, who is still asleep now, it is conservatively estimated that Li Yun will only wake up when he comes back to cook at noon.

"I miss it."

Fang Xue's expression has completely recovered, she can't see the embarrassment and shyness in Li Yun's home, including Li Feng, and there is no trace of charming on her face. She is dressed in Zhicai's school uniform, with a graceful figure and gentle temperament. No different from a high school girl.

I have to say that girls are born actors.

Li Yun thought secretly.

"What do you miss?"

"Idiot, of course I miss my high school career!"

Fang Xue was very happy, with a bright smile, walking and jumping, and holding Li Yun's hand openly, quite provoking Li Feng.

It seems to be saying, look, I'm your brother's girlfriend, as for you~~, hum, you can only be his sister for the rest of your life!

Li Feng naturally saw the provocation of her girlfriends, but she smiled and said nothing.

After all, her brother has many girlfriends, but her sister has only one~!

"Xiaoxue, we haven't graduated from high school yet." Li Yun couldn't laugh or cry.

"You are really stupid to say you are stupid~"

Fang Xuejiao nodded Li Yun's cheek, "It's because we didn't graduate from high school, so we miss it. If we miss it again after graduation from high school, what's the use?"

So, taking advantage of the last ten days of high school career, we must make it through! By the way, Xiao Fengfeng, be optimistic about your badass brother, don't let him run around! "

"Yes~~~! I know Xiao Baixue~"

Li Yun laughed, Xiao Fengfeng, Xiao Baixue, the names between the two girlfriends are really interesting.

"I'm Cao? What did I see! I'm blind!"

In front of Zhicai High School, the students coming and going saw an amazing scene.

Fang Xue, the college flower who used to be the arrogant Queen of Frost, is now full of smiles, walking and jumping like a junior high school girl. The bright laughter is very contagious, and the school gate of Zhicai High School suddenly becomes like spring. Flowers bloom.

"Damn it, our colonel actually has a boyfriend, who the **** is it?!"

Everyone looked enviously and bitterly at the boy who was holding the small hand of Colonel Fang Xue, and their whole body was shocked by just one glance.

This boy...is too handsome!

No, strictly speaking, his facial features are only 8 points, which is not perfect.

However, the boyfriend of the college flower of Fang Xue's temperament is graceful and graceful, and his upright figure exudes a confident and energetic aura. The corners of his mouth are slightly raised, and he looks at his girlfriend gently and tenderly. The little girls in the middle school screamed again and again.

More domineering president than domineering president in TV series!

This sentence was a little slurred, and it can roughly explain the little girls' screaming performance after seeing Fang Xue's boyfriend.

"I, Cao...who is this handsome guy?" The boys were all envious and jealous. After seeing Fang Xue's boyfriend so handsome, they were only left with envy and jealousy.

"Wait, how did I hear that Xue Fang in our school has a boyfriend? Is this her brother?"

"Yes, I heard that Fang Xue's boyfriend is Li Yun."

"What's your name Li Yun! It's Brother Li, understand? Brother Li is the pride of our Zhicai Middle School!"

"Wait, don't you think this guy is a bit like...Li brother?"

"My Cao?"

The boys and girls onlookers gradually came back to their senses, looked and looked again, and finally confirmed.

"Brother Li is back to school!!!"

Chapter 1794: Brother Li is back to school

I don't know who yelled, so that everyone within a kilometer of a kilometer came to look over.

Outsiders may not know who Li Yun is, nor can he associate Baiyun Technology's chairman with a person who scored in the mock test with a senior high school student who is only 18 years old.

However, as a classmate of Li Yun, how can people in Zhicai Middle School not know what Li Ge has done?

Full score in the mock exam.

At the company's press conference, he played against global hackers and hacked into satellites, shocking the world's science and technology circles, and forcing a top hacker organization to disband to avoid Li Ge's investigation.

Finally, the Baiyun Technology developed by Li Ge changed in just six months and became a giant with a market value of tens of billions. I don't know how much the specific market value is. Anyway, it is more powerful than the local turtle company in Longyang County.

At the end, one more identity must be added:

Fang Da's boyfriend!

Every identity is like a legend, a legend in a high school, a big brother-level figure who can make the younger students talk about it for several years.

And these identities add up to create a unique honorific title:

Brother Li!

"Ah, it's really Brother Li!"

"I'm Cao, Brother Li has become handsome!"

"Senior Li is so handsome~~, please autograph~!"

A group of classmates in the same grade, as well as juniors and sisters from the first and second grades of high school, all rushed over, screaming and cheering, and their excited cheeks were red, more excited than seeing an idol.

Li Yun can't laugh or cry, he hasn't left the campus for less than half a month...a month, right? How come all of them seem to have not seen each other for many years.

"Okay, okay, everyone, be quiet!"

Li Yun had seen many big scenes a long time ago, and now it is naturally easy to deal with these high school students, and soon let them all calm down, looking at him with a pair of eyes that are thirsty for knowledge.

"Brother Li, does your company really have a market value of 50 billion?" a school girl asked curiously.

50 billion? This is the data two months ago!

Li Yun smiled slightly and said modestly: "It's almost like this, mainly..."

"Wow!"

Before he finished speaking, the surrounding students burst into cheers, as if their company had a market value of 50 billion.

"Brother Li, Brother Li, do many famous universities work for you now?"

"Senior Li~~~, people will be the front desk of your company after graduation, okay?"

"And, your female dinosaur still wants to be on stage?"

"What did you say!?"

"Brother Li Yun, please take the flight!"

"Woo, Brother Li is already a billionaire before graduation, so envious~"

A group of classmates surrounded him noisily, trying to get close to Li Yunduo, trying to get familiar with each other.

After all, many people are already in the third year of high school. Some people who don't go to college have stepped out of society with half their feet, and they also understand some ways of living in society. When you pull your face down to plead, you have to pull your face down.

Seeing this, Fang Xue behaved a little unnaturally.

The Fang family is actually very rich, but she seldom shows her financial resources in front of her classmates. After all, if a classmate asks for a job that day in the future, how should she answer?

If you know it, it's okay to give the other party a decent job.

But if the relationship is average, the ability of the other party is average, or the relationship between classmates is arrogant and domineering in her company, and the leader is not put in the eyes, what will happen then?

Therefore, Fang Xue has always been very low-key. Most of her classmates know that her family is rich, but they don't know how much money is.

Chapter 1795: Li Yun, it's nice to have you

"Hahaha." Li Yun smiled heartily: "Don't worry, you won't find a job... After all, when you go out to find a job, you only need to report to your high school and say that I am the famous chairman Li Yun. My classmates, I think the other party will definitely save face, after all, I must be very famous by then!"

"Puff~"

Everyone laughed aloud, and no longer bothered to make a good relationship with Brother Li.

Fang Xue blinked, but Li Yun's coping method was very clever.

With a light and fluttering Tai Chi exercise, Li Yun finally calmed down in his ears. He looked at the two girls, smiled at them, and walked into the school gate together.

Li Yun took a deep breath and returned to campus. It did give him the illusion of returning to his youth. It was obvious that he had not yet gone to college, or even the college entrance examination.

But the experience in a month is far more exciting than an ordinary person's life.

In the distance, the early senior high school students were holding English textbooks, standing in the corridor on the fourth floor reading aloud, even the arrival of Li Yun could not cause them to take a look at the final review state.

On the playground, some seniors from the first and second grades were taking a walk, preparing to do exercises; the canteen to the west came from the smell of millet porridge; further away was the dormitory building.

"Days like this... really aren't many."

Li Feng suddenly said with emotion, there were inexplicable and complicated colors in her eyes, and she had already made a decision.

"?" Li Yun looked at her elder sister strangely, why did she start to feel emotion?

"Nothing!" Li Feng pinned the hair that had been blown away with her slender fingers, and smiled at Li Yun and Fang Xue: "Let us work hard and strive to get the top three in the province in the college entrance examination, so that our alma mater Proud of us~!"

"Hmph, that's for sure!" Fang Xue said triumphantly like a little girl.

Li Yun shrugged, "I have no problem first, but don't forget, there are two masters in Zhonghai City, one of them is Gong Qingyu."

Fang Xue and Li Feng looked at each other, and both felt helpless.

Their talents cannot be said to be bad, at least they are among the top ten in Zhicai High School, and domestic colleges and universities outside Qingbei choose randomly.

But no matter how good their talents are, they are just ordinary geniuses. As for Gong Qingyu... it's just as strong as if it's open!

"There is also Master Saint." Fang Xue added, "She also wants to take the college entrance examination."

"Master Saint...Van Qingsheng?!" Li Feng was very surprised. She met the holy fairy once, and learned from Li Yun that she was extraordinary. She actually wanted to take the college entrance examination?

"Qing Sheng... ahem, her goal is 600 points."

"Hee hee~"

Fang Xue hid her mouth and snickered, knowing that it is probably impossible for the Saintess to get a high score. She took the college entrance examination purely for fun.

The three of them walked into the campus talking and laughing. Finally, Li Feng was called away by his classmates, saying that they were going to the office to move the test papers together.

Fang Xue is also in the same class as her, but unfortunately, she has always been a high-cold image, with fewer good classmates, far less popular than Li Feng.

"Go, see you at noon."

In front of the teaching building, Li Yun said goodbye to his girlfriend.

Fang Xue stood in front of him, staring at him with those big bright eyes for a long time, making Li Yun feel baffled, did she want to kiss goodbye?

"Hehe~, Li Yun, it's nice to have you!"

"...?"

"It's stupid, go to the classroom!"

Fang Xue pushed Li Yun and ran up to the teaching building with a smile, leaving only a beautiful image for Li Yun.

She is actually very happy and very happy. In high school, she can meet a boyfriend like Li Yun, someone who can accompany her for life, and she will go to university with Li Yun and spend many days together in the future.

Just thinking of this, Fang Xue already felt very happy, and his heart was filled with overflowing warmth.

Chapter 1796: Longyou

"So I still don't understand the girl's heart."

Li Yun shook his head and slowly walked towards Class 14 of Senior Three, which was located at the bottom of the teaching building, and was also the noisiest and least secure class.

Before Li Yun approached, he heard a noisy noise, which was completely different from other high school third grade classes. High school 14 class did not hear a trace of reading during the morning reading time.

As mentioned in the first chapter, the 34th class of senior high school belongs to the bad class of the bad class, and Li Yun's classmates have long since abandoned themselves.

Originally they could leave school after the high school entrance examination, but many people choose to take the college entrance examination. After all, the only time in their lives, even if the test scores 0, they still have to participate, right?

"Quiet, read me early!!!" Li Yun stood at the door and yelled inside.

Suddenly, the classroom was full of chickens and dogs, and everyone hurriedly sat neatly, bowing their heads to take textbooks.

Although they are about to graduate, the teacher's majesty can still deter them, who are not out of school.

"..."

"Puff ha ha ha ha!"

"...?"

Everyone raised their heads, and then dumbfounded. Who is this handsome guy at the door? !

"I'm Cao, it's Brother Li!!" Wang Houliang yelled, worthy of being a good friend of Li Yun's class for three years, and soon recognized him with a shocked + stunned expression, and finally screamed out. He gave Li Yun a hard punch.

"I*! I thought you were young...Uh no, I thought that Brother Li would not come to school anymore! Hehehe~!"

Li Yun shrugged and punched him back: "Why don't I come to school? This isn't the college entrance examination yet."

"Hehehe, that's not Boss Li. You are now the chairman, with a net worth of tens of billions, so busy!"

Everyone became active at this time, and one by one gathered around and asked questions.

Li Yun walked into the classroom with a smile and answered some of their questions casually.

Of course, none of the secrets are involved, and there is not much to say about the current state of Baiyun Technology.

After all, Baiyun Technology, which has raised 300 billion yuan, is a big company that ordinary people can only look up to. If the headquarters of Baiyun Technology is in Longyang County, it can easily double the GDP of Longyang County.

Three hundred billion is really too much for ordinary people.

Li Yun vaguely felt that he had grown into a giant dragon and could no longer lurch in the small water pool in Longyang County. Otherwise, he could overturn the small water pool with a single move.

Longqian Jiuyuan, Fengqi Wutong.

Many people who have grown from ordinary people to big people and rich people will also choose to leave their hometowns and settle in big cities, and they will definitely buy high-end villas, not only for enjoyment, but also for being with the same kind.

Otherwise, if you are surrounded by ordinary people, how can you get together?

"Sure enough, it's time to leave."

Li Yun understood why there are hidden sacred valleys and six demon gates: if the practitioners do not gather together, they must be lonely and die.

"Brother Li." Wang Houliang leaned over, flashed his phone in front of him, and said the same thing: "When you look at the hot searches on Weibo, it's all about your company, Brother Li!"

Many classmates also looked at him. His classmates were on the hot search, which gave them the excitement of being close to the big stars, but because they were classmates, they ignored the arrogance of Baiyun Technology in the news. All stand on Li Yun's side together!

After all, in reality, Li Yun is gentle and gentle, with a friendly attitude, and even more intelligent in his head. How can he be as stupid as Hot Search says?

It must be those stupid reporters and foreigners who made a mistake!

Chapter 1797: Homecoming

"I see."

Facing the classmates' concerned eyes, Li Yun smiled helplessly: "Wait..."

"Ding, trigger the option event, please choose from the host:

Option 1: Return to the hometown in splendor. Slap the world on the spot, proving the strength of Baiyun Technology! Reward: experience value +20 million, all attributes +5000, golden gift bag*5, a random science and technology project.

Option 2: Continue to endure, wait for the moment, and reward the blue gift bag*3.

Choice three: wave your hand impatiently to let the students get out, and reward the evil value +100. "

Seeing the system prompt, Li Yun was very surprised. The rewards are getting more and more generous. Will he be rewarded with a colorful gift bag if he waits a little longer?

"Wait?" Wang Houliang scratched his head, wondering what Li Ge wanted to say.

For him now, Li Yun is an unattainable existence, every word and deed has profound meaning, Li Ge said to wait, that is to wait.

Other students also feel this way.

Li Yun smiled and said: "Yes, just wait, when the whole network is popular, then hit them hard in the face, wouldn't it be better?"

"Hahaha, it's really cooler!"

Wang Houliang patted his chest and said with loyalty, "Brother Li, if you need us to do something, then just tell us directly. As your classmates of Brother Li, we will definitely help you out!"

All the students also quickly promised.

Li Yun couldn't laugh or cry, "Why do you become such a social man, monkey? You are still helping, without a second word. Where did you learn these words?"

"Hehehehe." The tall and thin Wang Houliang's eyes flashed with embarrassment, and he said with a smile: "This is not about graduating and going out to live in society... Besides, Brother Li, you are now well-developed, and we are your classmates. ..."

Wang Houliang scratched his head and touched his nose. He gritted his teeth and said cruelly: "Brother Li, I'll tell the truth! Of course we want to work with you, although it is impossible not to be a high-level executive. No matter what, but at least you have a job. You can live comfortably as a security guard in your company, right?"

The other group of classmates also nodded again and again.

Nonsense, a classmate who has been in the same class with you for three years suddenly turned into a turmoil and owned a company with a market value of tens of hundreds of billions. Your grades are not good. You can't go to university and you can only work in a factory.

At this time, would you not want to mix with him?

Working in a classmate's company is always like going to a factory along the coast and working as a two-shift assembly line employee, right?

Li Yun nodded, "Monkey, you are honest."

Wang Houliang's face was flushed, and it was the first time that he had done this kind of begging. but.

Brother Li is now a superb dragon, he may disappear at any time, and he won't be able to find it the next day. If he doesn't hurry up and express his intention to mix with Brother Li, there will be no chance in the future!

When the college entrance examination was over, Li went straight to Zhonghai City, and it would be even more difficult to invite him back.

"You all want to work?"

Li Yun glanced around and saw that all these classmates showed expectant eyes, and shook his head: "You, including the monkey, actually have some assets at home. It is not appropriate to go to our company to work as a security guard. Take care of your own house. The industry is better."

Everyone is a little disappointed. Of course, they don't want to work in security, but in other more profitable industries.

It's a pity that they don't have enough academic qualifications, and they can't do anything famous when they go to Li Ge's company.

Forcibly relying on relationships to enter Baiyun Technology, they are only going to eat free food, and they are embarrassed.

Chapter 1798: One person gains the Tao, the whole class ascends to heaven

"Let's do it." Li Yun took out his cell phone, "I'll find someone to see if he can give you some help. Well, it's in Longyang County."

Wang Hou Liang's eyes lit up!

Going to Zhonghai City would be very embarrassed to do him, but if he is in Longyang County...this is their place properly!

In the future, I will do a good job and build a business "empire" in Longyang County, specifically for Brother Li to return to his hometown from time to time to pick up the dust. This is great.

Longyang County, in a high-end bar.

"Hey, why doesn't the boss contact me? He obviously returned to Longyang County."

Dayou Zhu, who had been drinking all night, was drunk. After learning that his boss had returned to Zhicai Middle School, he couldn't help but worry about gains and losses. On the one hand, he was afraid that Li Yun would not contact him. The boss's medicine has not broken through the innate so far, so he has been scolded.

But no matter what, Zhu Dayou still wants to meet Li Yun and build some relationship!

Unfortunately, the boss didn't remember him at all, and didn't even make a phone call.

"Grass! I am too lucky. If I met the boss earlier, like that Qianhu, I would have developed a long time ago!"

Zhu Dayou slapped the table with annoyance, making the people next to him look in surprise. After seeing that it was him, he quickly turned his head.

Just kidding, this boss is the owner of the bar, and he controls many underground industries in Longyang County. He only raises 300 people by his thugs, who are distributed in the discos of various bars and are dedicated to maintaining order.

Looking at such a big man more, but it will anger him, and then be beaten and thrown out.

"Ling Ling!"

A pleasant phone ring rang, and Zhu Dayou was so drunk that he reached out and touched the belt, cursing, "Which **** called early in the morning. Fortunately, I haven't slept all night, otherwise I have to... Boss!!!"

The moment he saw the caller clearly, Zhu Dayou woke up from alcohol, his hands trembled, his eyes widened and he looked at the phone screen for a long time before he suddenly turned his head and shouted at the people in the bar:

"It's all the **** quiet for me, Lao Tzu... No, I want to talk to the boss and accept the boss's instructions. If the **** is noisy, Lao Tzu will skin him!"

The bar suddenly became quiet.

Although there are not many people in the bar in the early morning, there are also a lot of people who have fun all night long, but at this moment, they dare not scream because of Zhu Dayou's voice.

"Boss, what can you do with my little brother?" Zhu Dayou smiled flatteringly.

Everyone in the hotel was stunned. There are people in Longyang County who can make people like Zhu Dayu bow their heads! But definitely not much.

But they could not imagine who could make Dayou Zhu completely surrender and become the opponent's younger brother.

"Looking for a job? Of course you can!"

Zhu Dayou agreed, "Don't talk about a dozen people, even two or three hundred people, I can arrange them all! So boss, tonight, or tomorrow night, any day will do, you find a time, let my brother I invite you and your classmates to have a meal, everyone knows... OK? Oh, yes, tomorrow night, tomorrow afternoon, I will send someone to pick it up... Oh, yes, absolutely no problem! "

After the decision was made, Zhu Dayou's eyebrows were flying, and his tired face all night became ruddy in an instant. He stood up and waved his hand at the people around him: "Boss Zhu, I am happy today. All the people present are free!"

After speaking, ignoring the cheers of the crowd, Boss Zhu held his head high and walked away from the bar, and began to prepare for the banquet tomorrow evening.

Chapter 1799: Mistress Li

Wang Houliang and others listened to Li Yun saying that the big man was going to invite them to dinner, and they were all anxiously waiting for the arrival of tomorrow night.

They know that this is their first time to participate in dinner and business talks, and it is extremely important to the future.

Li Ge is at best to give them the lead, and what they can develop into depends on them.

"Don't be nervous. Tomorrow is a meal. How about it? Let's read it early."

Li Yun motioned for them to start reading, so he told Xiaoxue that he missed the atmosphere of high school.

Although there are still opportunities to study in college, they are basically in English, and there is no more ancient Chinese poems, nor the atmosphere of morning reading in high school.

"Ding, the host makes a choice and rewards the blue gift bag*3."

Amidst the sound of reading books, time came to noon.

Fang Xue followed Li Yun to his house for dinner, and saw Xiao Yongning by the way, and hugged her fiercely for a long time, including squeezing her face, rubbing, kissing, etc. The little princess almost cried before letting it go. she.

"Huh? Are you going to have dinner with someone tomorrow night?" Fang Xue heard about Li Yun at lunch and looked at him in surprise.

"Well, isn't it about going on a date with you tonight, so I postponed one night." Li Yun smiled.

"Forget it, do you remember me, huh~"

Colonel Fang was a little shy, but with a happy smile on her face, she said, "I want to go together too!"

"You want to go too?"

"Isn't that of course! I'm... but, anyway, I just want to go!"

She Fang Xue, but the mistress of the Li family in the future, Li Yun wants to introduce her classmates to find a job, of course she also has to help, and participate in Li Yun's affairs as much as possible, so that she can be a better helper!

Therefore, Fang Xue will go together tomorrow night.

Seeing the close interaction between her brother and sister-in-law, Cai Wei whispered: "I am envious."

As for what to envy, only her sister Caixia knows.

Li Feng is not involved in this, she can be with Li Yun every night, and let it be to Xiao Baixue at other times~.

Happy times always go by very quickly. In the evening, Li Yun and Fang Xue were dating in various places in Longyang County, and the next day passed in the blink of an eye.

"Brother Li, when shall we leave?"

"Brother Li, do you want me to prepare the car? There are about 30 classmates who went together, and almost the whole class went!" Except for some students who have a really bad relationship with Li Yun.

"Brother Li, do we want to wear some formal clothes? Hey, of course we are ready, all of them are suits and leather shoes...Oh, no, that's okay, just participate!"

"Brother Li, where did the other party invite us? But we are going to make a relationship. Should we have a treat?"

All day long, Li Yun was annoyed by questions from class 14 students.

Fortunately, the time came at five thirty in the afternoon, and Li Yun was relieved after school.

"Let's go, don't ask you bastards!"

Li Yun hurriedly stopped their problems, and his ears would become calluses if he didn't leave.

A group of people crowded him out of the classroom noisily. As for the few who did not follow, it was entirely because he was arrogant and domineering in Class 14 and offended Li Yun and the others too cruelly.

After Li Yun's strong rise, the original squad fighters, such as the little **** Zhang Dong, had no choice but to lay down and dare not let go of the bullshit.

Especially Zhang Dong, after being violently beaten by Li Yun, now he is so honest that he dare not look up at Li Yun again.

1800: Luxury car fleet

The classmates of Class 14 left the classroom and waited on the first floor of the teaching building. Not long after, they saw a slender and proud girl in a white dress walking down the stairs.

Halfway through the walk, the beautiful girl burst into a smile on her face, trot to come to Li Ge, holding his hand sweetly called: "Li Yun!"

This girl is naturally the school flower of Zhicai Middle School, Brother Li's girlfriend, Fang Xue!

The passing classmates looked at them with envy. The reputation of the golden boy and the girl will be circulated in Zhicai Middle School in the next few years and become a good story.

"Let's go."

Li Yun greeted everyone and led Fang Xue to the school gate.

As soon as they walked out of school, seven or eight women in high-end suits, ties, or professional skirts, with a beauty of at least 7 points, greeted them together.

They smiled professionally at Li Yun and asked respectfully: "Are you Mr. Li Yun, Ms. Fang Xue, and Wang Houliang from class 14?"

A group of students were stunned. Although they had seen such good-service professionals in hotels and hotels, they were all in specific places.

But now, the big man who was invited by Brother Li asked these people to come to the gate of the school and wait here specifically to welcome them!

Such a battle really opened their eyes.

"What did Dayou Zhu do? Don't you let him keep a low profile?"

Li Yun murmured and motioned to these people to lead the way.

Everyone followed and walked out for a while before they saw the real welcome team.

A smoky red carpet, two lines of welcoming people, at the end are more than 20 luxury cars, from Wang Houliang's eyes, each of these luxury cars is more than one million!

In other words, it would cost more than 100,000 to 200,000 just to invite these luxury cars. And if these luxury cars are all owned by that big man, it would be even more exaggerated!

"Hello Boss!!!" Standing at the forefront, there is no doubt that it is Zhu Dayou. He shouted with a smile on his face, and suddenly everyone shouted, and for a while, there was a sense of shock that shook the sky. ,

Especially the class 14 students who came with Li Yun, as well as other students who were curious and onlookers, were all shocked by this big battle.

"What's wrong, don't you let you be low-key?" Li Yun scolded, and Zhu Dayu quickly said: "Boss, I am very low-key. You see, I didn't put the car at the school gate, try not to disturb the students' review, hehe !"

The corner of Li Yun's mouth twitched, "If you dare to put it at the school gate, I will kick your car on the spot, what is it like!"

"Yes, yes, I won't dare to do it next time."

Zhu Dayou smiled, he knew that the boss didn't blame him.

After all, he gives face to the classmates who rent the boss, that is, to give face to the boss.

This means that when a person is developed, he must show off his hometown so that life can be fulfilled.

This sentence is the same on the boss.

The boss is developed, so naturally you have to show off in front of your classmates, so as to demonstrate the boss's momentum and status!

— Zhu Dayou once did this. He specially found a hundred cars and drove back to his hometown for the New Year, which shocked the whole village.

"Big Brother your car? This, this, this is too exaggerated!"

In fact, Wang Houliang and others were indeed shocked.

After learning that the twenty-odd luxury cars were all owned by Zhu Dayu, the students in Class 14 looked at each other from shock to each other, and finally fell silent and became more cautious.

Before, I just thought that Li Ge's tens of billions were a lot, but they couldn't imagine how many methods were.

But now?

Just one of Li Ge's men can put up a formation that is welcome by twenty luxury cars. From this side, it can be seen how scary Li Ge's fortune is now!
