

Godly Choice 181

Chapter 181: Rolling (Part 1)

Thinking of this, Fang Xue took out her mobile phone and searched the Internet to find out what exactly Wu Ke came from.

"Wu Ke, male, 48 years old, graduated from Qingbei University and went to Hafnium University in M country to study and obtained a PhD in computer science."

"Currently, he is a professor of computer science at Qingbei University, a lifetime honorary professor of Hafnium University, and an honorary academician of the British Academy of Sciences in country Y."

"The head of the security department of the former Guoji Group."

"Former leader and senior vice president of the world-renowned search engine security working group."

"The former CTO of Nantian Group has now resigned."

Fang Xue was frightened by the series of fame.

One of these positions is worth tens of billions. Each position is the top priority of major Internet companies. The annual salary is as high as several billion, and it is not considered as a stock dividend.

It can be said that Wu Ke alone is enough to cover all the assets of the Shang family!

This shows how rich Nantian Technology Group is!

Such a business elite, a great technology, and a global celebrity sitting in front of her gave Fang Xue a dreamlike feeling, and it was her boyfriend, Li Yun, who brought all this!

"..."

Another fifteen minutes passed, everyone had finished their third cup of coffee, but Wu Ke still had no signs of breaking through Li Yun's defense.

Moreover, some sweat gradually oozes on his forehead, and his movements have become a little messy. It can be seen that he has exerted all his strength, but still can't make the next step!

"how is this possible!"

Su Mufengdi didn't know how many times he exclaimed, and his mind was greatly shocked.

A high school student in Li Yun district, an ordinary hacker his sister met on the Internet, made software that actually stumped the world's top security experts!

No one would believe it!

"Uncle Wu?" Su Muxin asked tentatively, "Do you want me to help you?"

In half an hour, Wu Ke has already failed. After all, as long as a piece of software wants to break, it can always find a way. Only if it is won within a certain period of time, it is considered a technical victory!

"Ugh!"

Wu Ke pushed her notebook with both hands, with a wry smile on her face, completely announcing her giving up.

"I lost! I underestimated the world."

Wu Ke looked at Li Yun with a very complicated expression, "Brother Li's software has the strongest defensive capabilities I have ever seen!"

"No matter what kind of attack, in front of your little brother, this software, you are like an unarmed person who has to face a city wall as high as 100 meters, unable to break through the defense at all!"

Wu Ke sighed, "It seems that I am really old, and the future belongs to your young people!"

Li Yun smiled, "Mr. Wu, you are too humble. At your current age, it may not be impossible to make a career!"

Wu Ke resigned from the position of CTO of Nantian Group, presumably because he wanted to start a company by himself and do his favorite business.

"You want to recruit me?"

But Wu Ke was wrong about what Li Yun meant. In other words, he was overwhelmed by Li Yun's software and wanted to join the company that Li Yun was about to start.

Li Yun said innocently: "I didn't mean it, but if you want to join Mr. Wu, I can't ask for it too!"

"Hahaha!"

Wu Ke smiled heartily, "Let's change it. You attack my computer and I will defend it. If you can break through it within five minutes, I will join your company. It is also for Muxin. Work for a few more years."

Chapter 182: Rolling (below)

"Huh?" Su Muxin looked at Wu Ke in surprise, "Uncle Wu really wants to join me and Brother Li Yun's company?!"

She knows the value of Wu Ke too well.

It can be said that as long as Wu Ke joins in, his name alone is enough to attract 10 billion investment!

Wu Ke is well-known, and many investment institutions are willing to trust his judgment. Ten billion investment is not an exaggeration.

"Don't be surprised first." Wu Ke smiled: "The premise I said is that Li Yun can break into my computer. Okay, let's not talk nonsense. Let's start?"

"Row."

Li Yun agreed.

Everyone looked at the battle with expectant eyes. Wu Ke had put his hands on the keyboard, ready to respond to Li Yun's attack at any time.

He can't break Li Yun's computer anymore. If Li Yun breaks again, he would be ashamed!

Fang Xue bit her blushing lips and looked at him, Li Yun made her unable to understand more and more. He became better faster than she expected.

"I started?" Li Yun looked at Wu Ke.

"Let's start, I have opened all defenses, just waiting for you to attack!"

Wu Ke said confidently, but in the next moment, his face turned into a deep horror.

"Ok...hehe, can you hear me?"

When Li Yun said this, everyone was stunned.

Su Muxin stared at Li Yun with her eyes widened, Su Mufeng muttered to herself blankly, and kept chanting 'how is it possible', 'how could it be so fast', 'it makes no sense, it's too fast! '.

Wu Ke gave a wry smile and said, "I lost again."

The crowd heard two voices.

One is heard from his throat, and the other is the sound from the external speaker of the laptop!

This also means that the microphone (microphone) of Wu Ke's notebook was turned on to repeat what everyone said.

And this person is undoubtedly Li Yun!

He intruded into Wu Ke's notebook in an instant, and controlled and turned on the notebook's microphone, thus declaring his victory!

"too fast!!"

Su Muxin didn't know what to say, she held Li Yun's arm tightly, looked at Li Yun unblinking, her eyes full of worship.

Being able to break Wu Ke's defenses in less than three seconds is enough to prove that Li Yun's computer technology is extremely superb, and he has reached a point where people look up to him!

"Ding, the host made a choice, and the rewards (experience value +50,000, wisdom +300, spirit +300, random purple gift bag*1, special item 'Xuanyuan Shield') have been issued!"

The corner of Li Yun's mouth twitched, showing a satisfied smile.

His current experience points have reached as many as 110,000. Although 10,000 experience can only add more than 100 attributes, it is not bad.

At least Li Yun can choose to pile his power to 5000 points, reaching a critical value for breakthrough!

"Okay." Wu Ke sighed, then looked at Li Yun in admiration, and said with emotion: "A hero is born a boy. With Li Yun, you have such extraordinary achievements at your current age. I can't imagine what you will do in the future. Great cause comes."

Hearing this, how could Li Yun still not understand?

"So," Li Yun stood up and reached out to him, "Mr. Wu, would you like to witness the arrival of a new era with me?"

The new era means that Li Yun believes in himself and can bring great changes to his world and create an era that belongs to him!

Such courage and pride made Fang Xue and Su Muxin proud of the two girls.

Chapter 184: Baiyun Technology

They are excited and proud that the person they like can be so good!

Fang Xue looked at Li Yun with dazzling eyes, this is her boyfriend, the man who will accompany her all his life in the future and protect her life!

"Extremely happy!"

Wu Ke stood up, smiled and shook hands with Li Yun, representing that he chose to join Li Yun's company and work for Li Yun.

"And me, me and me!"

Su Muxin stood up unwilling to show weakness, and shook hands with Li Yun, and with her two smooth, tender and white hands, she tightly grasped Li Yun's hands, rubbing hard, her pretty and lively face. Said grinningly:

"I invested a billion in brother Li Yun, and I also want to create a new era with brother Li Yun, hehe!"

Li Yun couldn't help but patted her head, Su Muxin, this girl should be a freshman, but still very naughty.

"Also, there is me!" Su Xue plucked up the courage, blushing and held her boyfriend's hand, "I also want to invest in Li Yun, Li Yun, let's start a business together, okay?"

Su Muxin suddenly looked at her in anger.

"Xiaoxue, I don't think you need to be involved."

"Huh?" Fang Xue was discouraged.

"Because," Li Yun touched her smooth and beautiful cheeks, and said indulgently, "My money is yours. It will be fine for you to be the wife of the chairman of our company in the future, what do you think?"

Fang Xue was ashamed. The previous discouragement turned into a deep affection. She was so touched by Li Yun's words that she couldn't help but tiptoed up and kissed him on his face. His face flushed with shame was very beautiful.

At this moment, Su Muxin was not angry, but sour. After eating at least three jars of vinegar, she yelled: "Brother Li Yun, I want to kiss too!"

Su Mufeng was taken aback, and quickly stopped his sister to prevent her from fooling around.

Wu Ke smiled and shook her head, "It's nice to be young."

The following matters were quickly discussed.

Li Yun developed technology, held 51% of the shares, and served as the chairman of the company.

Su Muxin invested 1 billion yuan, accounting for 30% of the shares

Wu Ke serves as the company's president, with no salary and 15% of the shares

Fang Xue also gave out 100 million, accounting for only 3% of the shares, and the remaining shares were retained.

The company name is Baiyun Technology Co., Ltd., and its headquarter is located in Zhonghai City, not in Longyang County.

"Huh?" Fang Xue looked at Li Yun in surprise, "Are you letting a little ***** to register the company for you? It's too..."

"Too frank and casual, as expected to be the boss who defeated my boss at the age of eighteen!"

Wu Ke laughed loudly and took Fang Xue's words.

Everyone laughed. After Li Yun defeated Wu Ke, he has become a peerless genius in everyone's eyes.

Genius, there are always some quirks that cannot be predicted by ordinary people.

I went to a nearby restaurant for a meal. In the afternoon they were going back to Zhonghai City, but Su Muxin clamored to go shopping with Li Yun's brother. In desperation, Su Mufeng could only accompany her.

During the process, Fang Xue and Su Muxin were jealous of each other, and Li Yun and Su Mufeng were both upset.

Saying goodbye to Li Yun and returning to Zhonghai City, sitting on a Lamborghini worth 50 million, Su Mufeng and his sister talked about each other.

"Sister, don't you really like Li Yun?"

"dislike."

"That's good."

Su Mufeng breathed a sigh of relief. Although Li Yun has been recognized by him, his own strength and future development prospects are very good, but he already has a girlfriend, and he can no longer be involved with his sister!

"I love Brother Li Yun!"

Chapter 185: Fang Huyu's surprise

It is said that men will go bad if they have money, but women are the same.

The wealthy families are mostly marriages of interest, often symbolic marriages, and then play their own roles. Outside, I don't know how many lovers there are lovers.

Su Tengyun was very angry, and roared: "That's also a matter between rich people. Your brother Li Yun just wanted to hug the left and the right before he even started?!"

"Brother Li Yun will get better in the morning!"

"I don't believe it. Even with Wu Ke's help, how much can he benefit from this software? I am afraid that he can't even make five times the profit!"

"Who said that? Wait, within half a year, our Baiyun Technology Company will be valued at 10 billion yuan, and within ten years, it will definitely exceed your rotten Nantian Group, huh!"

"Su Muxin, you are so good, then I won't oppose you, dare you bet with me?"

"What can't you dare? Wait, Brother Li Yun will surpass you sooner or later!"

The father and daughter bickered for joy. Su Mufeng was relieved. In fact, his father cared more about his daughter than anyone else, but he couldn't tell.

"Okay you two."

Su Muxin's mother came out to mediate, and strictly ordered: "Before your brother Li Yun has made a career, you are not allowed to have a relationship with him beyond that of your brother and sister, have you heard?"

Su Muxin pursed her mouth, "Mom, what's your career?"

"Within three years after graduating from university, his net worth reached 100 billion." Her mother's tone was flat, as if 100 billion was like a few yuan.

"Huh, it's not easy!"

Su Muxin stepped onto the second floor of the villa with a sulky look, "I'll talk to Brother Li Yun, he must have something to do!"

The remaining three smiled helplessly, and their daughter couldn't keep it when she was older.

—

On the other side, Fang Xue encountered the same situation as Su Muxin.

"What? You want one hundred million?"

Fang Huyu was so frightened that he looked at his daughter in disbelief.

One hundred million is not too much, but less is not too much.

Many listed companies, after deducting the salaries and bonuses of their personnel, make a profit of less than 100 million a year, and many of them are still losing money.

"Yes!" Fang Xue clenched her small fist, "I want to invest in Li Yun, it will definitely make money!"

"Naughty!"

Fang Huyu's face sank, and then he said a lot of truths, such as "business is not a child's play, don't trust others, even your boyfriend", "your task now is to study, don't go to the company" and so on. .

After Li Yun scored 749 points, Fang Huyu reluctantly admitted that he was Fang Xue's boyfriend, provided that Li Yun wanted to join his Fang family!

But Fang Xue swallowed all Fang Huyu's words with a single sentence.

"Li Yun received a one billion investment from Su Muxin!"

"Ten billion?" Fang Huyu said silently, "Who is Su Muxin? What exactly did you talk to Li Yun today?"

After listening to what Fang Xue had said, Fang Huyu fell silent completely.

He can be regarded as a person who has seen big winds and waves, and has talked about several tens of billions of projects, but if you want to talk with Wu Ke, an internationally renowned expert and professor who has served as an executive in a top Internet company, he has never experienced it.

Not to mention that Li Yun defeated Wu Ke in his best field, which is even more incredible!

"Oh, one hundred million is one hundred million!"

Fang Huyu took out a card to his daughter, and said with a complicated expression: "I can't take care of the future. I just hope Xiaoxue won't be hurt by this, and you can live happily in the future. Your mother and I will be satisfied!"

"Don't worry, Dad." Fang Xue said shyly: "Li Yun is a very good person and he is very fond of me. I will be his real wife in the future, and other women can only be little wives, hehe~"

"Does he really have another girlfriend?! No, I don't agree!"

"Hehe, it's a deal, I'll bring him home when I have time~"

Chapter 186: Ding, infinite pistol

When he returned home in the evening, Li Yun sent the source files of Pioneer Strike to Wu Ke, asking him to start the company and then recruit people to improve the user interface of the software.

When he was free, Li Yun was finally able to check his gains over the past few days.

"30 white gift bags, 7 green gift bags, 3 blue gift bags, and one purple gift bag*1."

Li Yun was tickled and decided to open the white bag first!

"Opening the treasure bag is like a strengthened weapon. You must use a cushion to open a good thing!"

The so-called cushion method is to first use up bad luck, such as failing seven times in a row, then the next time it is likely to be good luck!

So, **** it!

The first one, white light.

"Ding, get a tube of toothpicks."

The second one is also white light.

"Ding, get a kettle."

The third!

"Ding, get a bag of biscuits worth fifty yuan."

"Ding, get a box of fruit worth one hundred yuan."

"Ding, congratulations to the host, get a blue gift, a small Jidan!"

Li Yun couldn't laugh or cry, he still wanted to open a few more white items, and then open the purple gift bag.

After three more white lights, Li Yun chose to open the blue gift bag.

"Ding, congratulations to the host, get the purple item: advanced gun mastery."

Li Yun lifted his spirits. It was a good thing. With this skill, he knew all kinds of common pistols, sniper rifles, and submachine guns. The only question was where to get the pistol for self-defense!

Continue to open the white bag.

The next moment, the purple light lit up, and Li Yun was overjoyed.

"Ding, congratulations to the host, get the purple item: proficient in advanced tea art."

Cheating!

Li Yun's face turned black in an instant. Nima, he wanted this stuff to be used as a fart. He likes drinking tea, but he is not interested in making tea slowly, which is a waste of time.

Keep driving.

"Stool, chair, three catties of lobster, a full set of condiments, a piece of 100-year-old ginseng, a bucket of pure water worth 12 yuan..."

After opening ten white light items in a row, Li Yun's adrenal hormones soared and slowly turned his eyes to the purple gift bag.

The mats have all failed, so next, they will succeed!

"open!"

A colorful light lit up in front of his eyes, Li Yun opened his mouth wide in surprise, Nima really arrived!

None of the colorful gifts are weak!

Even the space ring is only gold, which shows how strong the color is!

"Ding, congratulations to the host, for getting a colored item: Fairy Bow-Silvin."

Me Cao?

Why did the myth suddenly rise?

Li Yun couldn't help but explode. The fairy bow is a magical weapon in Western legends. It has an incomparably powerful ability, and its power can be described as destroying the world!

Is he getting that strong?

Li Yun quickly checked the properties.

"Fairy Bow: Silver

Skills: increased attack power (passive, making the bullet equivalent to a sniper rifle bullet), destruction (passive, making the bullets fired by the weapon also have an effect on ghost enemies), deepening damage (passive, making the enemy's wounds more difficult to heal), speed Upgrade (passive, speed up the bullet).

Special effect: It can automatically recover bullets, one bullet per hour, and the upper limit is 16 bullets. "

Looking at the attributes of this fairy bow Silvin, Li Yun pondered for a long time.

It's a bow, but it's actually a pistol, a beautiful white and green pistol.

Chapter 187: Ding, the acquired realm

This Silvin cannot be said to be weak. After all, it can automatically recover bullets. Under the circumstances that it is difficult to obtain ammunition in modern society, it is simply a magical weapon.

And it can also have an effect on ghosts. With this gun, Li Yun dared to use the female ghost's red umbrella, and when he was backlashed by the female ghost, he would shoot and shoot the female ghost a few times!

But it cannot be said to be very strong. The power of the pistol is equivalent to the sniper rifle, which means that its upper limit is limited to this. It is very effective for the acquired realm, but it is not very effective for the innate realm. As long as the opponent runs Chi, the sniper rifle is also effective. Can't break the innocent body of the innate strong!

"Forget it, it's actually pretty good, at least I have the confidence to deal with evil monsters!"

After Li Yun noticed the weirdness of the spirit sucking stick, he had always been extremely wary of this thing, and now he still threw it in the space ring and did not dare to let it go.

Now that he has weapons that can kill ghosts, Li Yun's courage has increased again!

"Tomorrow night I will continue to go to Xueji's casino to find out, but first of all, I want to improve my own strength!"

A look of excitement flashed in Li Yun's eyes, adding all 110,000 experience to the attribute points!
boom!

When Li Yun's strength and physique both exceeded 5000, a powerful force surged out of his body, surging against his dantian surgingly.

The next moment, a warm current emerged from the pubic area, slowly flowing through the limbs and hundreds of skeletons, nourishing his meridians, strengthening his bones, meridians, skin, blood, etc., from top to bottom, from the inside to the outside. !

Li Yun estimated that his current strength was at least five times stronger than before. With one punch, the power of his fist was 10,000 catties!

The ordinary Houtian realm is five thousand jins of power, but Li Yun's strength, physique, agility and other attributes are all-rounded, and it is natural to have such a strong power.

"Cool!"

After entering the acquired realm and possessing acquired true energy, Li Yun only felt that the whole person was completely new, and the body tempering realm was completely a person of two worlds. This kind of wonderful feeling can only be understood by those who have experienced it.

"Host: Li Yun.

Constitution: 5000 points.

Strength: 5000 points.

Spirit: 4100.

Wisdom: 4100 points.

Agility: 4500 points.

Charm: 35.

Justice value: 2036.

General experience points: 0.

Skills: God-level cooking skills, God-level computer knowledge, advanced singing, conquest, advanced steel and iron bones, advanced diamond fingers, advanced wind-cutting swordsmanship, master-level subtle footwork, master-level sneak skills...

Sundries: women's panties, everything in daily life, biscuits, fruits, etc.

Items possessed: God-level skill pill, space ring, female ghost's red umbrella, six bullets, Xuanyuan shield drawing, fairy bow-Silvin. "

Li Yun couldn't laugh or cry when he looked at his debris. Fortunately, the inventory of the system is unlimited. Otherwise, these things might not even fit his 10-cubic meter space ring.

In addition to the above things, Li Yun also owns a small-sized base pill*7, a skin care and nourishing pill*3, a small-sized recovery pill*2, etc. These pills will be eaten by his confidantes when they are free to give their physique. Also improve some, can withstand the toss of Li Yun.

After all, the conquest skills are not a joke, they are extremely powerful at night.

With a long sigh of relief, Li Yun fell asleep comfortably.

Entering the Houtian realm, represents his strength to a new level, and has the qualifications to be with Xia Feiyao.

As for Fang Xue and Xiaojiao, Li Yun believes that he will be recognized by their parents in three years!

Chapter 188: Investigate again

The next night.

Li Yun dressed up in disguise, and Yi Rongcheng looked completely different from before, and even his height was shortened by a few centimeters with his bone shrinking technique-this kind of skill is included in the master-level sneak technique.

When he came to the village in the city, Li Yun found Guo Xun in a private house. He and some of his friends rented it here as a place to monitor Xue Ji.

"How is it? Is there any movement from the other party?" Li Yun asked.

Guo Xun has been monitoring this casino for several days and asked his friends to collect some information.

When Feihumen knew that one of his outer door elders had been knocked to death with a stick, and even the spirit sucking rod had been snatched away, he was extremely furious. He sent an inner door elder and several inner door deacons to investigate, but the investigation came to investigate. , The evidence points to Qinglei Valley.

Feihumen couldn't provoke Qingleigu, so he could only report the situation to Liemomen and let them deal with Qingleigu.

"It is certain that there is no such kind of spirit stick in the casino anymore."

The speaker was a capable-looking woman with short hair, Yang Jie, Li Yun called her Sister Yang, in her thirties, slightly older than Guo Xun, and I heard she was unmarried.

When Li Yun saw her for the first time, Sister Yang was holding Guo Xun excitedly, saying something like "I finally found you, and I will never leave you no matter what you become." .

It can be seen that Sister Yang likes Guo Xun very much, but Guo Xun already has a wife and children, and I don't know if Li Yun has the courage to open the harem.

"No one has gone crazy in the past few days." Guo Xun added, "I suspect that Feihumen is afraid of Qingleigu's return to the carbine, so I dare not put the spirit stick here anymore."

"I'm not good to say something," another young man at the scene looked at Li Yun, "Are you really sure that something strange happened with the so-called spirit stick? Could it be that someone died just a few days ago and someone went crazy??"

Li Yun shrugged, "Brother Hu, do you think more than a dozen people vomited blood because of gambling for three consecutive days, is it normal?"

Hu Fanbo chuckled, and said: "Flying Tiger Gate is like a frightened bird, so I don't dare to put the spirit stick here. Is it useful for us to stay here for surveillance?"

"I think it's useful." Li Yun said with a smile: "Don't the elders of Feihumen stay here? The casino is very suitable for sucking spirit sticks to absorb evil thoughts. They shouldn't give up here easily!"

"You are right. We will stay here until the people in Feihumen leave!"

Guo Xun felt that Sister Yang naturally obeyed, and Hu Fanbo had no choice but to continue to monitor.

There are surveillance devices in the room. The three of them have quietly placed a lot of hidden cameras in the casino, and every corner of the casino can be seen from here.

The elder's surname Zhang in Feihumen ranked sixth in the martial arts. At this moment, he was sitting in the hall like a golden sword with his eyes closed and rested. The surrounding gamblers were a little frightened and dared not approach him.

"I have a question." Li Yun said curiously, "Why didn't Feihumen place a spirit stick in Zhonghai City, and have to come to Longyang County? Zhonghai City also has many underground casinos?"

"Hehe, Zhonghai City has a palace family, one of the four big families in Jianghu, and there are many sects' residences there. Feihumen dared to make trouble there after eating the bear heart and the leopard!"

Li Yun took the opportunity to ask Hu Fanbo something to learn more about the affairs of the ancient warriors.

"what?"

Looking at the surveillance, Li Yun found an acquaintance.

Chapter 189: Goodbye Lushan

Li Yun's so-called acquaintance is Lu Shan who was defeated by him.

At this moment, Lu Shan followed a middle-aged man, who should be his father, and the two came to the casino lobby with a somewhat panic expression, chatting with the Sixth Elder in Feihumen.

"Do you know both of them?" Guo Xun asked.

Li Yun nodded, briefly talked about Xia Lushan, and specifically mentioned that Lu Shan's family opened a martial arts gym.

"Do you think he is related to Feihumen?" Guo Xun asked again.

"maybe."

Guo Xun installed monitoring equipment in the casino, but unfortunately, the casino was extremely noisy, and it was impossible to hear what Lu Shan and his son said to the Six Elders.

Lu Shan's father and the sixth elder became more excited as they talked, but the sixth elder didn't move. His indifferent expression knew that he was dominant. Lu Shan and his son could only follow his eyes.

After talking for a while, Li Yun watched Lu Shan and his son being sent away by the Sixth Elders.

"Ding, trigger the option event, please choose from the host:

Option 1: Follow up with Lushan and his son, investigate their true intentions to find the six elders of Feihumen, reward justice value +500, all attributes +400, experience +100,000, random blue gift bag*5.

Option 2: Ignore, let Lushan leave, no reward.

Option 3: Take action directly, teach Lushan, father and son, and the six elders, find out the truth, reward justice value +2000, all attributes +600, experience +150,000, random purple gift*1. "

Li Yun was taken aback. Judging from the system options, is there really something wrong with this road?

After thinking about it, option three is undoubtedly the most generous reward, but now the situation is unknown, it is too reckless to beat the opponent directly.

So Li Yun chooses one!

"You are here, I'm going to find out about Lu's situation!"

Li Yun left a word and hurried downstairs, Lu Shan chased him.

The sneaking skills naturally also included the concealed tracking skills. Li Yun didn't alarm anyone. With the foot power of the acquired realm, he followed Lu Shan all the way to the Lujia Martial Arts Hall.

"Dad, I still feel that what happened in the recent period is not a coincidence, but..."

"Shut up, why do you talk so much? Go in and talk about it!"

After Lu Shan and his son got out of the car, Li Yun, who was hiding in the dark, vaguely heard a brief conversation between the two. Just as he was puzzled, Lu Shan and his son had already entered the martial arts hall.

What happened recently?

Li Yun is absolutely certain that something bad must have happened here!

"Then, I'll dive in and take a look!"

The corner of Li Yun's mouth twitched, revealing a confident smile.

Master-level diving skills have played a huge role recently!

After going around the Lujia Martial Arts Hall, Li Yun found that it was quite big.

It occupies a large area and is enclosed in a quadrangular courtyard. Seven or eight buildings around it are all owned by this martial arts hall, including dormitories, canteens, bathrooms and so on.

There are two mighty stone lions at the front door of the martial arts hall. The plaque at the door is golden, and there are several beautiful official script fonts on it: Lujia Martial Arts Hall!

In terms of momentum, this martial arts hall is even more magnificent than many prefect yamen in ancient times!

"Little Five, where are you going? Come to play cards!"

"My **** cigarette is gone, I'm going to buy a pack of cigarettes, you guys play first!"

Just as Li Yun was thinking about how to get in, a young man walked out from the side entrance of the martial arts hall. He was 1.8 meters tall and his physique was much worse than Li Yun.

"Hey, just right."

Sleeping on the pillow, Li Yun smiled, not being too polite, and stood up and walked towards the young man.

Chapter 190: Sneak again

"Brother!" Li Yun stepped forward, pretending to be a livid expression, and said to the young man: "There is a drunk girl over there, who is so beautiful, I can't carry it alone, so I can help. ?"

"I'm Cao? Really, hahaha, I can't think of a corpse picking up when you buy a cigarette!"

The young man who came out of the martial arts hall to buy cigarettes was overjoyed and hurriedly followed Li Yun.

The so-called corpse picking refers to the fact that when a girl is drunk on the side of the road, she is taken away by a boy as a 'corpse' and goes to the hotel to open a room. This process is called corpse picking.

So as soon as the young man in the martial arts hall heard Li Yun's explanation, he immediately followed with a squint.

Then, Li Yun slapped him and asked him about his personal situation, and then knocked him out.

After a while, when Li Yun came out of an alley, his appearance had changed to the appearance of a young man.

"A ring with space is convenient, and easily accessible things can be accessed at any time!"

Li Yun was secretly refreshed, went to the canteen to buy a pack of cigarettes, and walked into the martial arts hall through the side door with an indifferent expression.

Compared with the previous battle with Lushan, Li Yun's strength has more than doubled tenfold, so he walked in openly, but didn't panic at all, walked around in the martial arts hall with an indifferent expression, and said hello when he saw people. Not worth it!

As long as he doesn't need to call the other party's name, Li Yun has no risk of exposure.

The martial arts hall is divided into a front yard and a back yard. The front yard is where martial arts practitioners practice and live, and the back yard is where the Lu family lives. The two are clearly separated. It can be seen that martial arts disciples rarely go inside.

"However, the headlights standing in the martial arts ground in the front yard are too bright, which is not conducive to my actions."

Li Yun stood in the corridor, throwing a few stones in his hand, reached out his hand, and slapped it on the lamp post.

Fortunately, no one around noticed.

Again.

"boom!"

Finally, the headlight was extinguished by Li Yun's stone, and the illumination of the entire martial arts hall instantly dropped more than five times.

"what's the situation?"

"What happened?"

More than 20 martial arts disciples poked their heads from the dormitory buildings on both sides, and saw this dark scene at a glance.

"The lights in the martial arts field are broken!"

"Grass, scared Lao Tzu, I thought it was a ghost coming!"

"Don't scare me, there are some evil sects in the martial arts hall recently."

"Quickly shut up, find someone to fix the light tomorrow, and let it go tonight, and no thief dared to enter our martial arts gym!"

Relying on strong listening skills, Li Yun heard the discussions of these martial arts disciples.

From the offense from the young man who was knocked out by him, something bad has indeed happened in this martial arts gym recently.

First of all, there have been more fights. The disciples often hit real fires during the duel exercises, which led to the fact that both sides did not know the severity of their attacks. Seven people were sent to the hospital for this reason.

Even during the fight, someone chopped off the opponent's arm with a knife.

Secondly, one person died here.

It's a bit dramatic to say that a chef and a cooking aunt had a fight, and the two of them couldn't get angry with each other, and they actually fought, and both were killed in the end.

At that time, more than one hundred martial arts disciples were eating. When they saw the two dead in the cafeteria, they were all frightened and sweated, and they all ran out in a swarm.

The martial arts hall also invited monks and Taoists to exorcise evil spirits.

"canteen.....?"

Li Yun frowned. Could it be that a spirit stick was placed in the cafeteria?

Every time a spirit stick appears, people will die. I am afraid that the people behind this terrifying conspiracy are not small!
