

Godly Choice 1811

Chapter 1811: His face was beaten and swollen (below)

In the science and technology section of the Longpu Sports Forum, such a post appeared on this day.

""Reasonable discussion, is it high for Baiyun Technology to charge 80% of the profits of foreign mobile phone companies?"

rt, I don't think so too much, at least leaving a way for foreign companies to live, at most 75%, right? "

First floor: One to say one, indeed. (Posted two days ago)

Second floor: That's for sure. Stupid companies dare to charge 80%. Foreign mobile phone companies will agree to it as long as they are not fools! (Posted two days ago)

Third floor: No way! In the eighth period, the National League Army destroyed the Old Summer Palace. I think it will receive at least 95%!

Fourth floor: the rise of domestic production!

Fifth floor: invincible! Baiyun Technology pays tribute globally, and the mobile phone industry all bows to their heads.

Sixth floor: Certainly not. Reason: Baiyun Technology now has a market value of 300 billion yuan, a fruit company has a market value of 20 trillion yuan, and an annual profit of 500 billion yuan. Baiyun Technology draws 400 billion yuan in profits every year, which is only 1.2 billion yuan in three years, which is not enough to buy a fruit company!

Seventh floor: LS, don't forget that Baiyun Technology requires patent fees, plus other brand-name mobile phones, within three years... Forget it, it's still not enough to buy a fruit company. What can I do?

Eighth floor: What are you afraid of? The invincible rise of domestic Baiyun Technology has caused the fruit company's share price to plummet by 20% a day. It does not take three years to acquire it within half a year!

Ninth floor: Good idea, this dream is okay.

...

1510 floor: laughed, this floor has a good yin and yang.

1511 Floor: Hahaha, climbing all the way is really fun, I personally announce that Baiyun Technology is the cross talk master of Longpu Forum.

1512 floor: God posted a reservation.

...

3511 Floor: [Network Disk Link] From Baiyun Technology's latest artificial intelligence software, I suggest you all take a look... Let alone, my face is swollen.

3512 floor: What software is 500M?

...

4500 floor: I'm stupid.

"My Cao!?"

"Baiyun Technology I'm sorry, I was wrong, I slap myself, slap, slap!"

"Is this true? Technology from Baiyun Technology?"

"Hahaha, the magic sticker is really a magic sticker!"

The post on the seven thousandth floor, the style of painting has changed sharply from behind the 3,500 floor, and countless people came to apologize with tears and reflect on their stupid behavior.

The style of the posts on the Longpu forum is rapidly flipping.

"Rational discussion, is global tribute feasible? »

"True and rational discussion, is 80% profit high? »

"Extremely Rational Discussion: Can Xiaoxiaoyu replace Gugou's Android and Fruit system? »

On Weibo, a hot search flew to the top of the hot search list at an unprecedented speed.

#给白云科技 apology#

And another hot search, #白云科技开手机智能时代#, also occupying the second place on the hot search list, which complements the previous Baiyun Technology's awesomeness. The top three hot searches are all Baiyun Technology!

"Opening the era of smartphones... Who would have thought that this sentence would have been rewritten 13 years after the release of the 4th generation of Fruit."

Lei Jun, President of Rice Group in Beijing, Haiding District, said with a wry smile to all the executives present.

A group of high-spirited executives with tens of billions of dollars and 30,000 employees in charge of the rice company, who should have been energetic, are now silent.

As long as you read the pre-test software released by Baiyun Technology, you are all shocked, and it is still difficult to recover.

"Let's talk about it, what will the rice company do in the future? How do you view the strong rise of Baiyun Technology!"

President Lei Jun knocked on the table with his fingers, motioning them to speak as soon as possible.

Chapter 1812: The era of smart phones (part 1)

Lei Jun can be sure that the world's science and technology circles will be turbulent because of a Weibo of Baiyun Technology. Now it is in the stage of racing against time. It is necessary to come up with corresponding countermeasures as soon as possible. Otherwise, Dagou Technology Group is likely to fail!

Daogu Technology, a domestic mobile phone brand, ranks among the top three, with a market value of trillions. It has a science and technology park and eight office buildings in the headquarters of Haiding District in Beijing, where nearly 10,000 employees work.

Another 10,000 employees are located in Huang Xuanguo and all over the world, and they are among the top ten mobile phone brands in the world.

But now, Lei Jun feels that his paddy technology group is surrounded by an invisible storm. In the face of this terrifying storm, the rice technology with a market value of trillions has nothing to fight back. Only by surrendering with both hands can we keep ourselves alive.

"I think!" Wei Bing, Vice President of Rice, said: "The first thing we do is to confirm what Baiyun Technology's technology is and whether it is worthy of our unconditional refuge. We must know that we have contracts with foreign companies, once they abandon them and turn to Baiyun Technology, you can't look back!"

This is a war without gunsmoke.

"I don't think it is necessary to discuss this." A well-known domestic and foreign information technology expert, the chief technology officer of Dagu Technology Group, shook his head helplessly: "Just talk about the boot animation of Baiyun Technology and Xiao Xiaoyu's personality settings. Thousands of different boot-up animations, lifelike expressions, and artificial intelligence with arbitrary personality settings are beyond the reach of ordinary technology.

AlphaGo, Giant Hard Xiaobing, etc., the artificial intelligence developed by these top companies is a child in front of Xiaoxiaoyu...No, those artificial intelligences are not smart at all, they are just simple big data! "

The crowd continued to remain silent, thinking about the meaning of the chief technology officer's words.

"That is to say... the era of smartphones will indeed come?" Lei Jun mentioned this concept again.

Smart phones nowadays, strictly speaking, refer to phones that "can install external programs."

Its opposite is non-smart phones, that is, 15 years ago, those who could not download software at all, could only use the mobile phones with factory settings.

The screens of mobile phones at that time were very small, and even video playback must use a specific format, 3GP, and it must be 320×240, which was extremely restricted.

But now, Baiyun Technology is going to return the concept of "smart phone" to the level of "smart"! Artificial intelligence phone!

"I think, yes!" The chief technology officer made his own judgment with a serious expression, but there was a trace of enthusiasm in his eyes: "The era of smart phones will be rewritten. No, this is not just the field of mobile phones. The era of intelligence is bound to come!"

All the executives talked a lot, and they all quickly made unanimous judgments:

Baiyun Technology will grow into the second fruit company, leading the global mobile phone industry!

A smile appeared on Lei Jun's face, which surprised everyone.

"This is a crisis and an opportunity." Lei Jun smiled: "We and Baiyun Technology are both Huang Xuanguo companies. I believe that since he cooperates with Zhongwei, he will definitely not refuse to cooperate with us. Who has Baiyun Technology? Chairman's phone number? I will call him personally!"

"Uh...no."

"Not at all? Strange, who is the chairman of Baiyun Technology?"

"I heard it was a senior high school student, and their staff called him the chairman of the high school student."

"What?? High school students??!"

Lei Jun was dumbfounded. A senior high school student stirred up the global mobile phone industry?

However, although shocked, he had to give an order.

"The company has suspended all research and development, and only maintains normal sales and purchases. Before the official cooperation with Baiyun Technology, the next generation of mobile phones will be stopped indefinitely!"

Chapter 1813: The era of smart phones (part 2)

A group of bosses in Longyang County witnessed a scene of a person disturbing the national situation.

After Li Gongzi made a phone call, Weibo, news websites, forums, circles of friends, etc., all places on the Internet were flooded with news from Baiyun Technology.

This group of bosses seemed to see a scene where the clouds in the sky were disturbed, the wind was surging, and the momentum was majestic.

Li Gongzi moved a little bit, causing the entire Huang Xuan country to be ups and downs, shocking countless people.

"Okay, wait to see tomorrow's news." Li Yun smiled satisfied, put the phone back in his pocket, "Let's continue eating."

Everyone was speechless and completely frightened.

They don't know what to say, how powerful Baiyun Technology is, they don't understand, but Li Yun's call made Weibo, forums, and circle of friends agitated. The entire network went from hacking him to apologizing crazily, and it only took half a short time. Hour.

This kind of terrible energy, compared with their bosses who claim to be worth tens of millions, is simply the difference between a loach and a giant dragon, and a firefly and Haoyue.

No wonder Li Gongzi didn't introduce himself at all, and he rarely talked about his business.

After all, the dragon never describes the vastness of the sky with the loach. Even if it is said, the loach rolling in the puddle is not understood at all, and it is useless to say it.

As for Li Yun's classmates who came to look for work, they are all silent now. They and Li Ge are completely people from two worlds.

"There will be news tomorrow?"

Only Fang Xue remained calm at the scene. After all, she had seen all kinds of miracles on her boyfriend, and even the Xianjia Dongfu had been in, let alone these small technologies.

"Of course." Li Yun raised his eyebrows and smiled: "I believe that the global mobile phone companies and even all the Internet companies are in meetings now. Tomorrow you will wait to see the cross talk show!"

"Ha ha!"

Everyone laughed. Whether it was true or false, the strength shown by Li Yun's company was already strong enough.

The banquet continued, and Li Yun quickly received the first call. Everyone hurriedly closed their mouths and did not dare to disturb him.

"Brother Xia? How do you put it... Xiao Xiaoyu is very strong. In the words of the official store, it can inject a booster into my country's mobile phone industry.

To put it jokingly, it is not impossible to buy a fruit company, hahaha...

How do diplomats answer questions from foreign journalists? It's okay, just say, let them come to Baiyun Technology to talk about business, just as I said, the patent fee + 80% of the profit, you can make concessions, provided that the country is friendly to Huang Xuanguo. "

The bosses trembled.

Who is this Brother Xia? Actually mentioned that diplomats answer questions like foreign journalists!

At least those leaders at or above the ministerial level in the capital?

Li Yun hung up the phone and continued to eat. Just after taking a bite, the call came again.

"Secretary Zhang...now the money is still enough, but the next project needs some financing, and we will talk about it when the time comes...allocate the land to Baiyun Technology as the headquarters? Uh, okay, I'm optimistic about this, hehe, trouble Secretary Zhang, I'll talk to Wu Ke later. Thank you Secretary Zhang for your concern."

The corner of Zhu Dayou's mouth twitched. This secretary shouldn't be Zhonghai City's...big leader, right?

Li Yun just hung up and another call came.

"Little Chili, why are you calling me now...your dad is looking for me? Uh, yes, your dad's Nantian Technology is one of the top three Internet companies in China. It's certainly good to be able to cooperate... Hahaha, well, I'm definitely cruel Slay your father-in-law with a stab!"

"Cough cough cough, Xiaoxue don't make trouble, your father is also my father-in-law, okay?"

For this meal tonight, Li Yun is destined to eat unsteadily.

Chapter 1814: Don't pretend to be garlic

Xiao Xiaoyu's influence is greater than Li Yun imagined.

"Where did you get this thing?!"

After returning home from the banquet, Li Yun received a very rare call from the balcony while holding the little princess Yongning watching the stars.

Concubine Wan Qing.

Since Li Yun gave her "Incarnation of the Demon", this demon girl hasn't appeared for a while. The Taoist Baihe who met last time, Li Yun wanted to call her to find out, but she kept shutting down for two consecutive days.

"What is it?" Li Yun lay on the chair holding the sweet little princess, and asked with a smile.

In fact, Yongning was already too sleepy, but he still held on and chatted with him for more than an hour, and only now fell asleep.

I have to say that under the clear night sky at the end of May, holding a soft little princess to watch the stars is a great enjoyment in life. This is life!

"Stop pretending to be garlic with me!"

Concubine Wan Qing's voice revealed a tingling odor, and she was also a little lazy. It seemed that the enchantress was also lying on the sofa and chatting with him on the phone.

"I don't know what you are talking about." Li Yun shrugged and asked with a smile: "Do you want to go to the fish-and-dragon-mixed vegetable market to buy food in person? Haha, six dishes. The saint of the magic door goes shopping for groceries like an aunt, and it's pretty beautiful when you think about it."

"Go to hell!!!"

Concubine Wan Qing was so angry that she gritted her silver teeth and scolded him a few times before humming and asking: "It's your Baiyun Technology company, what Xiaoyu released, where did you come from?"

She did exactly the same as Li Yun said, incarnate in retreat for the purpose of cultivating the demon.

But half an hour ago, she received a thousand-mile letter from Wan Faxian, asking her about Li Yun, especially the brand-new technology, where did it come from?

If possible, Wan Faxian also hopes that she will investigate and find out where Baiyun Technology obtained those technologies!

Concubine Wan Qing is still speculating until now whether Wan Faxian knew about her relationship with Li Yun, or did she call her only because she had been active in Zhonghai City before?

But no matter which kind, Wan Faxian's thousands of miles of letters give her a sense of urgency, which undoubtedly proves that even Wan Faxian, a powerful person who is deeply hidden in the six magic gates, is paying attention to changes in the outside world. Pay attention to Li Yun, will the two sides have a violent conflict one day?

"No matter what, I must cultivate the incarnation of the demon as soon as possible to save myself in the future turmoil!"

Concubine Wan Qing, who vaguely guessed the black hand plan behind the scenes, received the exercises given by Li Yun, and then went into seclusion and practiced. Call Li Yun.

—Wu Nengyu, the hacker who she kidnapped and took her as a technology consultant.

This is still a clever plan that Concubine Wan Qing came up with after learning about Li Yun's hacking skills.

"What do you care about this?"

What did Li Yun think of, "Is the six magic gates someone trying to deal with me? Hehe, that's right, artificial intelligence can create powerful drones. If your six magic gates really want to do things in the future, these flexible and intelligent unmanned The machine can pose a great threat to you!"

"...Are you too little opinionated?"

Concubine Wan Qing said directly contemptuously: "I can pierce a hundred drones with a single stroke of flying hairpin. I want to rely on this thing to deal with the powerhouse of the Void Returning Realm? Li Yun, should your mind be broken?"

"My mind is not bad, and the Return to Void Realm is not that strong."

Chapter 1815: Know how

Hearing Li Yun's "arrogant and arrogant" words, Concubine Wan Qing was about to scold him contemptuously. After all, half a year ago, this guy was still a weak scum she threatened with a hairpin, but suddenly thought of something. .

He has a magical pill in his hand and a top-level exercise like the incarnation of a demon. After half a year, he still doesn't know how far he has grown.

"...Have you fought with the Returning Void Realm?" After a little silence, Concubine Wan Qing asked.

"Mutual winners and losers."

Li Yun's tone was indifferent. The contest between him and Baihe Taoist was indeed a win and loss. Although Li Yun basically did not fight with him head-on, his ability to **** his magic weapon from under the eyes of the Void Returning Realm is enough to prove that Li Yun already has it. The capital to stand up straight in front of the Void Realm!

"Huh, don't believe it!"

Concubine Wan Qing said she didn't believe it, but her tone was surprised.

"I recently went to Mount A Duo and took a dip in the volcanic hot springs. It was comfortable." Li Yun said with a bragging smile. Every time I meet this demon girl, he basically suffers.

Li Yun is quite proud to make her look surprised now.

"Aduoshan? Humph, which little beauty must be with... Wait, Aduoshan!!"

Concubine Wan Qing raised her voice by an octave: "You killed the Spirit Fire Master!?"

"I didn't kill him."

"Who is that?"

"He hit me on the gun himself."

"...Go to hell!!"

Concubine Wan Qing smiled and cursed, but she was more surprised in her heart. The news of the incident of the Linghuo master was told to her by her maid, and she did not expect it to be the **** Li Yun.

"Then you have to be careful." Concubine Wan Qing's tone turned indifferent, and said with a hint of killing intent: "Master Linghuo is one of the few blacksmiths in my door who can refine the best magical weapons. You kill him. Now, our door will definitely investigate this matter, if you know that you did it..."

"How about you know?" Li Yun said lightly, "Isn't there any six-door conspiracy that I destroyed in Zhonghai City? Haven't you already regarded me as a thorn in your eyes, and you can't wait to get rid of me?"

"Don't be proud here!" Concubine Wan Qing continued to raise her voice, making Xiaoqing and Xiaolan who were waiting outside filled with doubts, wondering why the lady who was in retreat was angry again.

"What you did in Zhonghai City didn't affect the Six Daomen plan at all. You just picked up a little bit of bargain and killed a few wastes!"

"Where is Ten Thousand Faxian Dongfu?"

"Hehe, are you a fool?"

"..."

Li Yun suddenly laughed, and his voice turned soft: "Okay, Concubine Qing, I know the six doors are very strong, but you should not underestimate me, thank you for your concern, I will pay attention!"

A blush appeared on Concubine Wan Qing's face, and the blush grew bigger and bigger. In the end, the saint of the Six Demon Sect took a few deep breaths before suppressing the waves in her heart.

"Too lazy to care about your life and death... Don't even think about turning off the topic, where did you get that thing?"

"What? Xiaoxiaoyu?"

"Humph!"

Listening to the hum of the demon girl, she felt a little nice.

Li Yun smiled and said: "In fact, it's nothing, you just treat it as a gift from an ancient god, just like the pill in my hand and the incarnation of a demon given to you."

".....Go to hell!"

beep--!

Concubine Wan Qing directly hung up the call, and she was so angry that she threw her phone on the wall of the cave and scrapped it on the spot-yes, now she is cultivating in a secret cave, no outsider knows.

Chapter 1816: Xiao Mingzhu's mood

"A gift from the ancient gods? The ancient gods can still modern technology? You might as well say that those gods are aliens, that thing is alien technology! This bastard!"

Concubine Wan Qing vented, holding her chin on her mind, and suddenly laughed, her beautiful and innocent face was full of sincere smiles, smiles that even her four maids had never seen before.

"Hmph, you have offended six doors. If in the future, if the Lord personally takes care of you, don't you have to rely on me and hold my thigh for help?"

Thinking of the picture of Li Yun that ***** kneeling to herself for help, Concubine Wan Qing's smile became brighter.

After smiling, she continued to practice.

I don't know if it was an illusion. After talking to Li Yun, her cultivation speed suddenly accelerated a lot, and all her inner turmoil and irritability disappeared and she became extremely peaceful.

"The incarnation of the demon... hope not to let me down!"

...

Zhonghai City, No. 5, Huangtingshan Villa District.

Xiao Mingzhu, the daughter of the chairman of Wanyuan Real Estate Group and the daughter of the richest man in Zhonghai City, has a mixed feeling recently.

Even a few months ago, after she learned of those immortal existences, her heart was not as turbulent as it is now.

"Why can a man with a silly heart do such a thing!?"

Xiao Mingzhu really couldn't figure out why that beautiful girl around him, and met a dandy who loved one, could start a company that shocked the world.

"Baiyun Technology officially announced: The era of smart phones is really coming to us!"

"The Dow, the Nasdaq, and the S&P plunged by 20%, triggering five circuit breakers in one day, and global stockholders are in panic."

"Fruit companies have suffered the biggest decline since they went public, and their market value has evaporated by 3 trillion a day, which is about three thousand-degree companies and two rice technology.

"Country M accuses Baiyun Technology of being domineering and barbaric, damaging the interests of stockholders in Country M. Senator Naiden said that it will consider prohibiting all products related to Baiyun Technology from entering Country M."

At the end of the day, Xiao Mingzhu did nothing else in his free time, and kept reading the news, trying to find out the true intentions of Baiyun Technology from the turbulent technology circle news.

"BMW Volkswagen also reached a strategic cooperation with that Playboy company?"

After another piece of news that could be called explosive, Xiao Mingzhu's face was full of surprise again.

Although BMW and Volkswagen are companies in the same country, the two have always been in a competitive relationship, but now they have joined hands with Baiyun Technology to develop strategic cooperation.

However, this kind of news in today's turbulent day of global stock prices seems to be a little too difficult to overcome.

"Zhongwei has announced that it has reached a close partnership with Baiyun Technology. The two parties will conduct research and discussion on the next generation of artificial intelligence mobile phones, and strive to develop new artificial intelligence mobile phones within three months!"

Zhongwei Company is also here...

Xiao Mingzhu rubbed his temples, feeling that the world became more and more incredible.

First is the extraordinary person who practices magic, and then this kind of artificial intelligence and autonomous driving, which can be called black technology. What's next? Could it be the spears and cannons fighting the immortals?

"No, it's impossible, what am I thinking!"

Xiao Mingzhu patted her cheek and tried to cheer herself up. When she was about to go out, her father called.

"Dad? Is there anything to do with me?"

Xiao Mingzhu had a bad premonition inexplicably, sure enough.

"Good girl, do you know Li Yun? That is, the chairman of Baiyun Technology."

"Do you want to work with him too?!"

Xiao Mingzhu was so startled that he couldn't close his mouth from ear to ear, and had a slight change in his opinion of the playboy-Li Yun.

Chapter 1817: Unexpected visitor

Facts have proved that in terms of time, no matter how big things are, they can be smoothed out.

"Ding, the host makes a choice, fights on the face of the world, and proves the strength of Baiyun Technology! Reward experience value +20 million, all attributes +10000, colorful gift bag*1, additional reward: strong artificial intelligence."

Five days after Li Yun was rewarded by the system, that is, five days after introducing the job hunting to class 14 students, Li Yun has returned to peace.

No one in the company calls to bother him anymore, and news is gradually being replaced by other major events. As for Longyang County, there is no wave of trouble, and the lives of the people around him are the same.

Those who buy groceries continue to buy groceries, and the morning exercises continue to do morning exercises. It seems that what happened in Zhonghai City has nothing to do with them. As long as the price of groceries does not rise, the sky does not care.

But Li Yun knows that in some places, for some people, the smart driving technology he released will inevitably bring about changes.

For example, the share price of the fruit company has not improved at all. Another example is that global car companies are contacting Baiyun Technology, and the contract conditions are so rich that they are smoggy. For example, Xiao Mingzhu called him and took it from Li Yun. Relations, went directly to the headquarters of Baiyun Technology to avoid talks with Wu Ke, and successfully reached a cooperation.

and many more.

A series of things are proceeding step by step, and Li Yun is also preparing for the college entrance examination review step by step.

During the day, he and Fang Xue and Lifeng review together, or go to the library, or go to a certain shade of a tree, and enjoy the intimacy of the two women when there is no one.

Go home at noon to cook for the twin sister, and wake up the sleepy little princess by the way. Fang Xue usually comes to Li Yun's house to have a meal. Of course, Li Yun occasionally takes Yongning out for a meal, lest she has been sleeping. They all sleep stupidly.

During the evening break, Li Yun and Fang Xue go on a date together, in cinemas, parks, dessert shops, ice rinks, coffee shops, and even Internet cafes and game halls. After all, Li Yun took Fang Xue with him when they first dated. A big win in the game hall is a big win, and the boss is crying directly.

Most dates are for two people, but occasionally they join Li Feng, and Fang Xue seems to call her specifically.

But Li Yun couldn't hug left and right. When the two women were together, they held hands like good girlfriends, making Li Yun stare.

Fortunately, between him and Fang Xue and Li Feng, everything that should be done was done, and what should not be done was left until after the college entrance examination.

"Um?"

Only three days before the college entrance examination, that is, on the afternoon of June 3, Li Yun and the two girls walked out of the school gate. When they were about to say goodbye to Fang Xue, he noticed that a gaze was staring at him.

"Xiaoxue, Li Feng, you should go back first."

"what happened?"

"It's okay, you go first, I have something to do."

Fang Xue and Li Feng looked at each other, and couldn't figure out what Li Yun was going to do, so they could only do it.

After the two women left, Li Yun glanced at the figure standing on the side of the road not far away, and walked towards the path.

The passing classmates also looked at the figure curiously and thought that this person was very strange. He was wearing long-sleeved trousers, a sun hat, a mask on his face, and thick glasses on a hot day. There is nowhere to be exposed.

Except that she is very slim and she knows that she is a girl, she doesn't know anything else.

But this is even more strange. Why is a girl dressed up as shameless? And she is still a pretty girl!

Chapter 1818: Tang Anxi

Li Yun came to a remote corner with a complicated mood, and stood and waited for a long time, but he didn't see the person showing up.

"Come out."

"..."

There was silence.

"An Xi."

It wasn't until Li Yun called her name that the slender figure that was dressed up was cautious, and even cringed to walk out.

She lowered her head, clutched the corners of her long-sleeved clothes with both hands, as if confessing her mistake and apologizing.

When Li Yun looked at her, she found a faint breath of sorrow covering her body, just like her tragic life experience, it was very distressing.

"what happened?"

Li Yun stepped forward and stood in front of the girl who came suddenly, smiled and patted her on the shoulder: "I'm here without talking, don't you want to see me?"

"no!!"

The girl with a slender figure and pitiful temperament quickly denied, her voice fluctuated strongly. She raised her head and looked at Li Yun with excitement, but quickly bowed her head in fear, until Li Yun touched her mask and gently pulled it down, revealing the pear flower with rain, which was very pitiful. Face.

"very beautiful."

Li Yun smiled slightly and praised her, making the gloomy and sad girl burst into laughter, and a blush appeared on her pale face, "Really? Am I really beautiful?"

"Of course, it's more beautiful than last time!"

Li Yun admired sincerely, this is the truth, after Tang Anxi ate a few pills he gave her, she is indeed much more beautiful now.

Yes, the person in front of me in thick, solid clothes is Tang Anxi who has only two sides to Li Yun! Three months ago, when Li Yungang met Fan Qingsheng, he met her in a KTV. At that time, Tang Anxi was a ktv princess, whose stage name is Princess Anxi, benefited from her excellent looks and superb looks. The acting skills are very popular with ktv guests. Every time I go, I have to order her to accompany him for a drink. Princess Anxi's reputation is still very widespread.

After that, Li Yun met her again in the community. Because of various relationships, he gave her some pills to make her study hard and try to get into a good university.

As a result, on the eve of the college entrance examination, Tang Anxi came.

Compared with the last time, with the nourishment of the pill given by Li Yun, Tang Anxi had to work and earn money because of his miserable life experience. As a result, the rough skin became soft, smooth, firm and elastic again.

Tang Anxi now looks like a eldest lady with a good background. She can't tell that she actually grew up hungry and full, even when she was five or six years old, she had to pick up trash and sell it for money. Living expenses, when I was fifteen years old, I became a sales lady, and later became a princess ktv life experience.

"Me, me, me!!"

Tang Anxi looked at Li Yun tightly with excited eyes, and opened her small mouth specially painted with lip gloss. She was speechless for a while.

"Don't get excited, speak slowly."

"Well, I, I... Can I hold you for a while?" Tang Anxi finally said, with anxiety and longing in her eyes.

"sure."

Just after Li Yun finished speaking, the next moment, Tang Anxi's soft and slender body plunged into his husk, and hugged him tightly.

In the sound of whimpering and crying, tears wet Li Yun's chest clothes.

"I'm so happy...Finally, I finally see you..."

Feeling the trembling girl's delicate body, Li Yun's mood was extremely complicated. In the end, he chose to surround her slender waist with his hands and gave Tang Anxi a warm hug.

Chapter 1819: Emotional changes

Tang Anxi's favorability for him is 100 full.

Li Yun's feelings for her are very complicated.

At the beginning, Li Yun didn't look at the princess who accompanies the KTV in the slightest, only that she was a passerby, or a miserable girl who sacrificed her hue to make money and was greedy for pleasure.

It wasn't until she showed bravery and decisiveness that she dared to reach out into her pocket and take out a dagger when faced with the persecution of ktv guests, and fought desperately with the person who insulted her, that Li Yun's impression of her changed a little.

Later, Tang Anxi followed him away. While in the car, Tang Anxi calmly told Li Yun about her life experience, and the system also reminded Tang Anxi that his favorability for him reached a full 100. At that time, Li Yun The perception of her has changed a bit.

It can be inferred that because of the tragic experience in her previous life, Tang Anxi's native family hurt her too much, causing her to believe in no one or anything, and always wear a mask of white lotus.

It was not until he met Li Yun, after being rescued by him and receiving his care, that Tang Anxi released the frozen heart, and accepted Li Yun as a life she can rely on and can bring her warmth. man.

"Me, can I kiss you Li Yun?"

I don't know how long it took, Tang Anxi made further requests, some pale and gloomy faces were full of blush-gloomy, introverted, sensitive and suspicious, this is actually Tang Anxi's true character!

"Don't mess around."

Li Yun knocked her head helplessly, and Tang Anxi bit her lip, showing a pitiful expression to tempt him. The two red lips were especially seductive.

The result was another knock.

"Your acting skills are not valid for me!"

".....sorry."

Tang Anxi apologized honestly. She was used to showing a pitiful look in front of men, like a harmless white lotus, but in fact, the inside of the white lotus is black...

There was a moment of silence. The two were not strictly speaking close. Although Tang Anxi was eager to have more contact with Li Yun, she even escaped from the intense review and waited for several hours at the gate of Zhicai Middle School. Just to see Li Yun.

But she actually didn't want to meet Li Yun, but unexpectedly, Li Yun recognized her.

While this made Tang Anxi sweet in her heart, she also felt a little panic in her heart.

"Are you going to have a meal at home with me? You haven't finished your meal yet?"

After thinking for a while, Li Yun decided to invite her to the house.

It was not to introduce Li Feng and Fang Xue to meet her, and to let the two women accept her, but just to... feel sorry for her and ran all the way.

"Do not!"

Tang Anxi refused subconsciously. After meeting Li Yun's eyes, Tang Anxi quickly lowered his head to play with the corners of his clothes, revealing a sense of inferiority, gloom, sensitivity, and fragility.

"An Xi." Li Yun put his hand on her head and touched it lightly.

"I....."

Tang Anxi didn't wait for him to speak, she said, "I'm...not good enough now, will you wait for it later? When I get to university, I will try hard to integrate... Sorry, am I asking too much? "

Li Yun understood what she meant.

Tang Anxi still can't get rid of the identity of "Princess Anxi"-this does not mean that she has not resigned from ktv, but that Tang Anxi is still just a person living in the shadows of the past.

The original family brought her painful injuries, and she could not escape the influence of the past.

Fortunately, she is still young, and there is another very important opportunity for change:

College entrance examination.

Chapter 1820: Tang Anxi's changes

It is not an exaggeration to describe the importance of the college entrance examination with any exaggerated sentence.

This is the biggest counterattack opportunity for ordinary people in their entire lives. It took twelve years of hard study just for the two days of examinations.

If you are admitted to a well-known university, as long as you graduate successfully, you can almost conclude that you can spend your whole life easily, you can live comfortably, you can be superior to others, and engage in simple and profitable jobs.

For example, you can enter a top famous company with a starting salary of 16,000, 18 months of salary each year, year-end bonuses at the end of the year, stocks for three years and so on.

Those who come from these prestigious universities can reach the level of an annual salary of one million in five to ten years, easily take root in first-tier cities, get married and have children.

Second, if you are admitted to an ordinary university, then you have to work harder and strive to learn more about being a human being during the university. It is easier to find a job in the future, and you can also be a leader of a small company in the future and be a teacher in a township school. Wait.

If you can't even pass the college entrance examination, and you have no money at home and no background, then you can only hope for miracles in this life, otherwise there is a high probability that you will have to do physical work, decorate, open a shop, set up a stall, and build a site Shift work, vegetable planting, waiter, takeaway boy, taxi driver, etc.

It is true that there are some who successfully make a lot of money by opening a store and setting up a stall, but the probability is too low and too low!

"How is your review?"

Li Yun smiled slightly and did not take her words.

Tang Anxi is undoubtedly very eager to integrate into his life, but she is inferior and sensitive. With her current status, if she is known by the confidantes around Li Yun, although they will not despise it, Tang Anxi herself has lived. I can't stop myself.

"The third mock test, I—" Tang Anxi raised her head, her eyes gleaming: "I got 650 points in the test, the first grade! Two hundred points higher than the second!"

"...Hahaha, awesome!"

Li Yun laughed. It can be guessed that Tang Anxi's school is really not very good. It is estimated that only a hundred can enter the undergraduate course. This is due to the well-developed Zhonghai City and the high undergraduate rate.

He can also imagine that Tang Anxi's school will be ecstatic after seeing her grades. The teachers and leaders of the school will treat her as Baolai, just like Li Yun's current status in Zhicai Middle School. of.

——Principal Wang of Zhicai Middle School, now wishing to go to class 14 and make ten laps every day, the purpose is to ensure that Li Yun does not do anything before the college entrance examination, so that Li Yun can't go to the playground at all during his break.

"Hee hee~"

Tang Anxi's pale and gloomy face showed a heart-felt smile, and carefully took Li Yun's hand, and looked at him admiringly: "After I, I took the pill that you gave Li Yun, memory It has become very good, and the progress of review has been greatly accelerated. The knowledge points that used to take some time to memorize can now be remembered for a long, long time by just looking at it...Thank you, Li Yun!"

"Uh..." Tang Anxi blushed again, embarrassed, "I said so... Isn't it a bit out of perspective?"

She was cautiously testing Li Yun's feelings for her.

An affirmative answer means that Li Yun has seen her girlfriend...no, it's a lover, Xiaomi and other relationships.

Tang Anxi has been desperate since seeing Li Yun's confidante, the cold and celestial saint. She feels that she will never be Li Yun's true girlfriend in this life. The other side's beauty is ethereal and holy, and She also possesses incredible power, Tang Anxi will never be able to match her in her entire life.

Therefore, she can only retreat and become Li Yun's lover...
