

## Godly Choice 2001

Chapter 2001: Unexpected tin can

At the moment when Li Yun raised the Leap Fire God Sword, it was about to fall, the system prompt came.

"Choice 1: Destroy with a sword, reward golden gift bag\*1, skill: kill and cut fruit.

Option 2: Give the little fox to devour it, reward the little fox's loyalty and favorability greatly, and there is a high probability of mutation.

Option 3: Open carefully to see what is inside, and reward the white gift bag\*1. "

Li Yun's sword stopped.

Sure enough, this divine fruit contained something that could enhance the monster's power, no wonder these monsters were attracted to it.

It's just that Li Yun's divine mind can't find out what's inside, and he can't even see through his spiritual vision. Li Yun can only feel that there is an uncomfortable power in the divine fruit. If there is no system prompt, he Really would cut this thing off with a single sword.

"What's the matter?" Fang Xue asked.

"Nothing, you stay away from me."

"Okay, husband, be careful too."

Fang Xue obediently stayed away from him with Li Feng. After that, Li Yun stopped hesitating and cut down with a sword, right on the side of this divine fruit.

Wow!

A bright red liquid with a strange \*\*\*\* smell was sprayed out, dyeing all the nearby grassland red.

The smell of blood permeated, and the little fox broke free from Fang Xue's embrace almost instantly, screamed, his body turned into a fiery red lightning and rushed into the bright red liquid.

Even want to rush into the fruit and swallow all the contents inside!

In the next second, the back of the little fox's neck was pinched by a big hand, and his four feet bounced back and forth, barking and barking, but he couldn't get rid of the shackles of the big hand.

"Little Meng!"

Li Yun patted its head with the Leap Fire God Sword, "If you mess up again, I will stew you into a pot of fox meat, do you understand?"

"Oh~~"

The little fox nodded pitifully. He couldn't understand it, so he saw the terrible expression of his master.

"Xiaoxue, tie it up."

"Then the divine fruit just now was a pearl?"

"Uh, this pearl is too weird!"

Gao Xiaoxiao and several people talked about it, and Li Feng turned his attention to Li Yun: "What do you think, brother?"

"Something makes sense."

Li Yun smiled slightly, did not deny her opinion, nor did he fully agree with it.

After all, his sister doesn't know something, and it's normal to not know.

In fact, Li Yun had already guessed the origin of this thing, and vaguely knew why there were so many monsters.

"Ding, the host makes a choice and rewards a white gift bag\*1."

Ignoring this reward message, Li Yun swung his sword to burn all the blood pits on the ground. After all, keeping them would create a lot of monsters, which would cause a lot of trouble.

Unexpectedly, the system prompt came again.

"Ding, trigger a special option event, please choose from the host:

Option 1: Consume seven golden gift bags and two colorful gift bags to absorb the special fruits made by the pine tree demon. The reward will be aura value of \*500,000, and a special medicine \*7 (after taking it, it can greatly improve a person's physique, so that An ordinary person breaks through at least to the acquired realm).

Option 2: Use the land to destroy the fruit directly, reward justice value +200,000, colorful gift bag\*1.

Option 3: Choose to close the hand, leave the fruit to the many monsters present, create greater chaos, reward evil value + 1 million, special skill: demonization, acquired skill: camouflage. "

Li Yun was taken aback. The system notification event this time was a bit difficult!

In particular, the demonization of skills allows him to possess a monster energy and cultivate, and then gradually become a monster, embarking on a strange path of cultivation.

It may even affect his entire life, no wonder the rewards are so generous.

It is a pity that Li Yun has no interest in becoming a monster. He lacks power now, but he can't drink poison to quench his thirst. Once there are more monsters in the future, ordinary people will know their existence, and the two sides will inevitably have various disputes.

Even the monster race in ancient legends may re-form and compete with humans for control of the earth!

"I choose, one!"

Li Yun resolutely read to the system silently.

He has stored gift bags for more than a month, nearly twenty golden bags, and five colorful ones. It doesn't matter if some are pitted by the system.

Li Yun is still quite greedy for 500,000 spiritual auras, he roughly calculates, a golden bag is about 50,000 auras, just this is not a loss.

And there is also a special pill, which is much stronger than the Zhuji Pill and Peiyuan Pill among the four pill that Li Yun obtained!

This sale is worth it!

"Ding, the host makes a special choice, ask the host to use the Lotus Immortal Mansion to absorb the demon blood."

Um?

Li Yun was a little surprised. This was the first time the system had taken the initiative to ask him to do something, rather than the system using that mysterious and powerful force to directly \*\*\*\* the blood away from the ground.

In addition, Li Yun finally knew the name of the blood-red liquid hidden in the jar:

Demon blood.

Chapter 2003: Demon is not a demon, fairy is not a fairy

Demon blood!

This red liquid that can make animals and plants mutate and become monsters is actually called monster blood!

It's very appropriate, but I don't know if it is a coincidence or is it intentional?

Li Yun lowered his eyes and took a deep breath. What happened tonight has solved many mysteries in his heart.

Reaching out his hand to take out the Lotus Immortal Mansion from the storage bag, Li Yun placed it in a pool of blood on the ground.

"what is this?"

Gao Xiaoxiao in the distance was very curious. She saw Mr. Li Yun take out a crystal-clear and extraordinary bead and put it in the blood-colored lake. The bead was floating in the air. Gao Xiaoxiao and the others were not surprised.

She has seen too many miraculous things tonight.

The Lotus Immortal Mansion flew along the pool of blood for a week, and the power contained in the blood on the ground was absorbed by it, the blood color faded, and the transparent liquid quickly penetrated into the soil and disappeared.

But Li Yun knew that this was the power of the system, and it was impossible for Lotus Immortal Mansion to actively attract this demon blood.

"Oh, oh..."

The power of the demon blood was absorbed by the master, and the little fox let out a weak cry, and looked at the mistress pitifully.

Fang Xue couldn't laugh or cry. She stretched out her hand and slapped its soft and smooth golden fox tail: "You little idiot, don't you know that those things are dirty? Dirty, not tasty, eat badly, and become ugly, do you understand? ?"

Fang Xue hates those strange monsters, and the little fox is determined not to eat too much to become like that!

"Woo~"

Fox Mengmeng reluctantly uttered a cry of "I understand", and the fox lay down softly, looking very funny.

The surrounding monsters also dispersed in a rush, fled into the forest and disappeared.

Li Yun didn't catch up, which didn't make much sense, because the next thing he had to face was far from the problem of dozens of monsters.

"Ding, the host makes a choice, consumes seven golden gift bags and two colorful gift bags, and gets rewards: aura value \*500,000 (has been placed in the Lotus Immortal Mansion), fairy pill\*7, additional: ancient monster blood\* 1 (Put it into the Lotus Immortal Mansion, the item cannot be stored in the space ring

Li Yun's spirits lifted up, and he actually got extra rewards!

In addition, he also obtained 7 Immortal Demon Pills, which can be called immortal pills, which are much taller than the name of Jidan Pill, Detox Pill, and Restoration Pill.

It also made Li Yun think of a kind of pill: Nine Turns Immortal Pill.

According to the legend, the elixir refined by Taishang Lao Jun can return the soul to its place and recreate the body. It is the most magical item Li Yun has ever obtained, and there is no one!

It's a pity that the two pills are almost bound and can only be taken by Song Xi's parents.

If Li Yun wanted to swallow it at that time, he didn't know if the system would give him a choice event, causing him to carry millions of evil values.

After checking the attributes of this fairy pill, Li Yun looked strange.

"The Fairy Pill

Special effect: Greatly enhance physical fitness, one of the primary elixir.

Explanation: Demon is not demon, immortal is not immortal, and human is not human. According to legend, in ancient times, this pill was called Ling Yao Pill, which was a pill made by aura and demon qi. After that, the demon clan became the protagonist of heaven and earth, professing himself to be an immortal, so there was an immortal demon pill. "

Putting aside the weird explanations of non, non, and non in the front, Li Yun can probably guess what it is referring to in the back:

Demon Court.

That is to say, the demon clan heaven established by the demon emperor Dijun commanding the ten thousand demons and in charge of the order of the three realms.

The monsters at that time could indeed be called immortals.

Chapter 2004: Liao Hua's treatment

"Forget it, I want to do so much, there is still a lot to do now."

Li Yun shook his head and left these ancient legends behind. He held the Lotus Immortal Mansion and asked Nie Xiaoqian who was inside. He learned that a small drop of golden-red weird blood suddenly appeared in the Immortal Mansion and was placed by Nie Xiaoqian. Next to the furnace, if there is any abnormality, she will directly throw the golden red blood into the furnace and burn it!

"Good job, I'll go in and chat with you tomorrow, Xiaoqian, go to bed early, sorry, did you bother you?" Li Yun sent her a thought.

"You don't need to apologize, son. Xiaoqian can do something for you."

"Uh...you don't have to be so cautious."

"Yes~"

Withdrawing from the communication with Nie Xiaoqian, Li Yun turned to look at Fang Xue and the others, and said, "Let's go back."

"Huh?" Gao Xiaoxiao was a little surprised, "Just, just go back? There are so many things here that haven't been investigated. Are you going back now..."

As she said, she quickly pointed to the charred giant pine tree demon, the tree demon's huge trunk collapsed to the ground, very eye-catching.

"Will this thing be a good thing? For example, the wood inside has mutated, maybe we should stay and wait for a while?"

Gao Xiaoxiao looked at Li Yun weakly, she did mean to stay here, this kind of opportunity was too rare.

As long as she does meritorious service, the station will definitely reward her. For such a precious picture this time, let alone being a regular reporter, it is not impossible to be a senior reporter directly.

Several people looked over, but Li Yun shook his head: "There is nothing to investigate. This dead tree demon is indeed a bit strange, but it is limited to this."

After a pause, Li Yun said again: "Forget it, I call someone now, they should be able to arrive soon, let them handle it here."

This means that during the time when people were called, Gao Xiaoxiao quickly finished shooting here.

"Then I'm walking around, hehe~, Xiao Fengfeng, come with me."

Fang Xue took Li Feng to go around. She was very interested in climbing up the big pine tree and taking selfies.

Li Feng hesitated: "Are there any dangers?"

"Don't worry, there is a little fox here~" Fang Xue showed the little fox in her arms, and gestured for her wristband: "There is this sword, and ordinary monsters can definitely deal with it, husband, right? "

".....almost."

As a result, Fang Xue took Li Feng happily around in the messy battlefield after the war, but the little fox took on the responsibility of the bodyguard with some joy.

Gao Xiaoxiao hurriedly took pictures of the surrounding things with the cameraman. As for Huang Changye, he could not broadcast the live broadcast. He could only secretly take pictures of the captain with his mobile phone, which may be used in the future.

Li Yun didn't care about him either. If there is only a photo but no video, others only think it is a picture.

"...I'm looking for Brother Liao."

Li Yun called and used to call. It is now more than two o'clock in the middle of the night. Fortunately, Liao Hua has a high enough position and important enough position, so there are several secretaries working around the clock who are responsible for contact.

"Yes!"

Seeing that it was Li Yun calling, the secretary's answer was very straightforward. Without any doubt, he brought the phone directly to Liao Hua's room and woke up Team Leader Liao.

The secretary has known for a long time, and was ordered by Team Leader Liao. If Li Yun calls, no matter when, wherever, and whatever he is doing, he will report it as soon as possible!

Chapter 2005: Disposal (on)

"Li Yun?" Liao Hua's voice was full of sleepiness. After all, two o'clock in the evening was when people were the most tired. It's fine to be awakened and not angry at this time.

"Brother Liao."

Li Yun didn't talk nonsense, and said directly: "You send some people to this...what mountain behind Huangxi Village on Taihuang Mountain. I don't know what mountain. In short, it is in the valley not far away. There is fire before it. Just ask people and you should understand."

"The fire is permeating?! Has it caused a forest fire!?"

Liao Hua was so frightened that his whole body was sober.

"no."

"No? Huh, that's okay."

"But a three-hundred-meter-high pine tree overturned countless flowers and plants."

"I'm Cao? Three hundred meters high?!"

Liao Hua was completely awake and knew what was going on without asking him. He quickly got up and put on his clothes, and asked: "What's the matter? Have plants been made into monsters by the people of the Six Demon Sects? It is 300 meters high. ....How big is this area? Will the plant monster move? How did you discover it? So the crisis of Taihuang Mountain has not been resolved yet!"

Li Yun: "...I can't answer you so many questions in one breath, so let me send you a video from the beginning to the end, shot by professionals, the effect is comparable to the blockbuster of M, absolutely wonderful!"

"Huh? You also brought a professional cameraman to shoot? Uh, you deserve to be Li Yun!"

"Fuck you, are you complimenting me or hurting me?"

Li Yun cursed with a smile, then turned to Gao Xiaoxiao and the cameraman who were still busy and shouted: "You two reporters come here, there is something you need to help."

The two hurried over. The cameraman wanted to say that he was not a reporter, but he dared not say it in front of Mr. Li Yun.

"...Send the video to others?"

After listening to Li Yun's request, Gao Xiaoxiao hesitated: "It's okay, it's okay. The camera can directly take out the memory card and send it from the laptop. We brought the computer and also have a wireless network card, but... will this be a problem? ?"

She is very worried. The content of the video filmed is not simple, and it will definitely cause an uproar if it goes out.

"Do not worry."

Li Yun thought for a while and said: "Even if we keep it secret, the monsters appearing are likely to be from all over the world, and they may soon be concealed."

Gao Xiaoxiao and the two were shocked, and Huang Changye on the side also appeared surprised.

It turns out that the monsters appear all over the world? They actually didn't know at all that if this big news spread out, it might cause global turmoil.

After all, this kind of thing that is close to the end of the world will definitely have many unstable elements starting to become active, and robbery, murder, and arson are no longer new.

"in addition."

Ignoring their response, Li Yun continued: "You can rest assured that Liao Hua is a member of the state, ministry, and commission. He specializes in handling these matters. You hand over the video to the leader and finally transfer it to him. "

Hearing this, Gao Xiaoxiao and the two talents finally felt relieved. The country really knew about these things and started to set up a special department to deal with it. So Mr. Li Yun is probably also a member of the mysterious department.

He may even be an important leader, no, no, he may not be a leader at such a young age, but he must be a very powerful master who enjoys various privileges.

"Master, great master!"

The cameraman gave Li Yun a thumbs up, his eyes full of admiration.

Li Yun didn't explain too much, smiled, and said, "Hurry up and get some more food and you will have to spend the night in the mountains tonight."

"Yes! Mr. Li Yun!"

Chapter 2006: Disposal (below)

After fifteen minutes, everything was done, and Li Yun led everyone on the return journey.

The people sent by Liao Hua haven't arrived yet, but Li Yun is not interested in waiting any longer. The things on the scene are really nothing but the huge charred wood. No one is here, and no monster can steal it.

So just go back.

"Hey husband." Fang Xue was still in excitement, pulling his hand and whispering, "I don't know if that pine tree can be transported back to make furniture. The texture must be great!"

"Aren't you afraid of it suddenly becoming a monster?" Li Yun couldn't laugh or cry.

"What are you afraid of? I have a little fox guarding me. If I dare to change, give him a paw, right, Xiaoxiaomeng?"

Fang Xue raised Mengmeng to the fox, and the weak little fox could only cooperate with a grunt, like a puppy dog tossed by an unscrupulous owner.

Back in Huangxi Village, Li Yun happened to hit the soldiers who were driving in armored vehicles. Their arrival caused a commotion in the village. Coupled with the fact that someone had seen the fire in the valley before, it made the village midnight. There was no peace. Many households turned on the lights and looked out to see what was going on.

"Mr. Li Yun!" A general dressed as a general saluted Li Yun, his eyes full of excitement and admiration.

According to the gossip circulated in the military secretly, the name of this Mr. Li Yun is already known to everyone, and he can be called a generational legend.

Unexpectedly, he was also fortunate enough to meet this legendary fairy master today!

"Well, you can count it."

Li Yun nodded casually, pointing to the valley in the distance, and said: "Walk along here, and soon you will see a valley with a big collapsed tree in it. What needs attention is, There are still dozens of monsters in the mountains and forests, but you have guns and cannons, and those monsters should have no reason to attack you."

"Dozens of monsters!?"

General Zhao was taken aback, and quickly said that he would be careful.

"Okay, call me again if you can't make it, let's go first."

Li Yun wanted to leave. General Zhao hesitated and looked at Huang Changye tentatively: "Mr. Li Yun, is it better to need a guide? I wonder if you guys are willing to assist us in our actions?"

Huang Changye hesitated and did not speak, but Gao Xiaoxiao nodded and took the initiative to stand up: "Hello, I am a reporter from \*\*\*\* TV station. I went to the valley with Mr. Li Yun before. If I need a guide, I can go with you! "

"I'll go with you too!"

The cameraman also said quickly.

The fool is no longer going, and following these soldiers to the valley is definitely considered meritorious service.

The TV station has an organization. After meritorious service, the speed of promotion can be described as amazing, and there are many benefits.

"Thank you two!"

General Zhao saluted to express his gratitude, and Li Yun nodded and said nothing.

"Tonight... is over?"

Li Feng watched General Zhao leading a group of soldiers and Gao Xiaoxiao towards the valley. They might have to be busy until morning to rest, but she and Li Yun left them alone and went straight back to sleep?

Li Feng had noticed before that General Zhao's position was very high, with two bars and four stars on his epaulettes, but such a person was still respectful to her brother, enough to show that the identity of the brother Liao whom Li Yun contacted just now was even more amazing. .

"ended!"

Li Yun stretched his waist and touched the head of the little fox in Fang Xueqian: "Let's go, let's go back to sleep."

"I think I'm too excited now, I definitely can't sleep."

"Then... go back to play games?"

"Go to hell~~! Big pervert!"

Chapter 2007: Take the sister to fly

In the end, Li Yun did not return to Huang Changye's VIP suite to live in.

Fang Xue and Li Feng, two good sisters, were too excited and said they could not sleep, so Li Yun simply put his arms around their waists, activated the flying ability of the high clouds, and led the two girls on the rocks towards the top of Mount Taihuang. Fly away.

"Wow, wow!!!"

Li Feng, who is as gentle as a big sister, can't help but scream in surprise after experiencing the feeling of flying in the sky with Li Yun's arms around her waist, her beautiful face is full of excitement, her hands are held tightly. Live brother.

"This is flying?"

Li Feng was very excited. Turning his head, Xue Xue said, "You jumped off the cliff last night and just flew away like this, didn't you?"

"Hehe, Xiao Fengfeng, you guessed it right~~"

Fang Xue hugged the little fox tightly and said with a smile, this little guy was a little frightened now, he closed the fox's eyes and did not dare to open it.

"Sister, do you like this?" Li Yun was very satisfied, being hugged tightly by the two women, the feeling of hugging left and right was a very refreshing experience every time, and I couldn't stop!

"I like it, I like it so much!"

Li Feng replied excitedly.

Soaring unfettered in the sky like a bird is the dream of mankind since ancient times. What's more, they are now in the Taihuang Mountain in the night. Li Yun hugs her and Xiao Baixue with a lighter foot, and the body flies into the sky lightly.

Dancing in the wind, fluttering like an immortal.

This kind of wonderful experience will never be forgotten by Li Feng.

The three of them flew straight up three kilometers and landed in front of the gate of Tianjie.

"what!"

As soon as Li Yun landed, there was an exclamation of someone next to him. Turning his head and looking over, it was actually a couple kissing and hugging on the stone steps in front of Tianjiemen. The woman just opened her eyes and saw Li Yun taking the two women from behind. The scene of falling from the sky shocked her to open her mouth wide, and she couldn't scream again, she could only stare at them.

Fang Xue's face was a little blushing, and she quickly broke free from Li Yun's hug, but Li Feng's movements seemed unhurried.

"Hi"

Li Yun greeted the couple who ran out of the hotel without sleeping in the middle of the night, "The two are very interested, oh yes, don't bother you, let's go first, you continue!"

Li Yun hurriedly took the two females and walked out several meters before the couple screamed 'ah'.

"Husband, what's the matter with him, they?"

"This...I don't know, why didn't I walk up the mountain road?"

"Are they ghosts? Just now, I saw them coming down from the sky..."

"Don't be scary, they all have shadows. Look carefully!"

With the street lights on Tianjie Mountain Road, the couple was relieved when they saw the shadows of Li Yun and three of them.

Fang Xue and Li Feng looked at each other, and both women laughed.

The experience tonight is really wonderful.

Especially Fang Xue, who experienced different excitement for two consecutive nights, almost didn't make her excited.

"Li, Mr. Li?!"

Back at the Shenqi Hotel, when the front desk saw Li Yun and the three people, his mouth opened wide in surprise.

It was already 3 o'clock in the middle of the night, and they came back from outside.

This made the front desk lady have to wonder if the three of them did something in the wild at Taihuang Mountain, and what battle happened that caused it to be so late...

"Yeah." Li Yun nodded, "You don't need to call someone, we just go up by ourselves, let's be busy with you."

"Oh, yes, yes!"

The front desk nodded quickly, but now it's 3 o'clock in the evening, so what else is it busy?

"Woo~~"

Chapter 2008: Back to hotel

The fox screamed, and the lady at the front desk looked at it subconsciously, her eyes suddenly widened.

"Uh... uh!?"

She looked at Fang Xue's embrace in horror, her fingers trembled and pointed there: "This, this, this..."

"Fox, my pet."

Fang Xue was triumphant, and then quickly asked, "Should you be able to bring pets in the hotel? It's very well-behaved and its body is very clean. Look at how beautiful the hair is on it! The big deal is that my husband should pay a little more for cleaning. fee."

"Yes, it's okay." The lady at the front desk didn't know what to say. The hobbies of the rich are so strange that they raise foxes.

But thinking of the news that there are people raising brown bears and tigers abroad, she is not so surprised.

After returning to the Tianshen Pavilion and closing the door, Li Feng breathed a sigh of relief: "I'm finally back."

Walking into this presidential suite, she actually felt a lot relaxed physically and mentally, and she felt tired all of a sudden.

Obviously she still lived in a very small two-bedroom and one-living house a year ago, but now after enjoying the luxurious presidential suite, Li Feng is not used to the living conditions of the Shanxia B&B.

I have to say that people fall quickly.

Fortunately, her brother is very good, and he will be able to give her plenty of material comfort in the future, so that she won't have to worry about money.

"Yeah, tired to death." Fang Xue also complained, making Li Yun dumbfounded: "I said you didn't move just now. It was me who worked all the time. Why are you tired?"

"It's just tired." Fang Xue bulged, but Li Feng gave Li Yun a coquettish eye, and said shyly: "Bad brother, I'll say this kind of humiliation as soon as I come back."

Colonel Fang didn't know what the last sentence meant until Li Yun smiled and came forward to hold their waists again.

"Big pervert, let go! Hee hee, don't hug me, ah ha ha, it really won't work tonight, I'm exhausted."

"Tomorrow night?"

"no!"

"That's better tonight, let's go, let's take a shower, then go to bed, and then again when we wake up, then...Xiaoxue, you know."

Fang Xue didn't want to understand!

But she also knew that in the next few days, there was nothing to stop this big \*\*\*\*\* ghost from doing anything to them. About tomorrow, after waking up, the next important thing would happen...

No, it's still not possible. She will go on a trip tomorrow afternoon. It is best if she is not free tomorrow night!

"Ah~~The bad guys let me go! Don't let the month exchange my...clothes, um."

The Colonel Fang, who was still thinking about it, screamed and was carried into the bathroom by Li Yun, holding one in each hand. Soon, things almost similar to last night continued to take place.

It's just that there is a little fox tonight, it screams and thumps in the bath, having fun.

Fang Xue and Li Feng were indeed tired enough. Li Yun played the game with them for less than half an hour before it ended. After the two women wiped their bodies, they fell heavily on the bed and fell asleep.

No words for a night.

Li Yun was enjoying the gentle beauty of the country. He fell asleep until ten in the morning. When he woke up, the two beauties beside him were still asleep, both wearing thin silk pajamas. The

graceful and beautiful figure was looming in the blanket, which made it hard to help. I thought of the scene of playing and playing with two big beauties in the bath last night...

"Ahem, I'll get up quickly!"

Li Yun jumped out of bed, lest he could not help but touch the two beauties in the morning.

Chapter 2009: A call with Van Qingsheng

Wearing a white pajamas, Li Yun came to the balcony with a glass of warm milk. With the scenery of Taihuang Mountain, Li Yun lay on a chair while drinking milk while playing on his mobile phone, enjoying a rare leisure.

First contacted the twin sisters at home, after confirming that they were all well, Li Yun chatted with Gong Qingyu and Hu Xiaomeng for a while, and then called Fan Qingsheng.

"Hello? Which villain is it?"

Unsurprisingly, it was still the little maid Qingzhu who answered the phone.

"It's Li Yun's good egg." Li Yun replied solemnly.

"Puff~~~~!"

Wearing an emerald green dress, Qingzhu looked petite and cute and couldn't help but smile and said, "Who said he was a good guy? You big bad guy... good guy, in order to see Master Saint derogating himself so much, really See you a long time!"

Li Yun was taken aback: "Qingzhu, would you actually use the phrase that you have seen for a long time?"

"Humph, what's this? It's just a mere network language, I just use it if I want~"

"good job!"

"Small, come here~"

Qingzhu's face was slightly red, and his heartbeat speeded up a bit, but his mouth was still proud: "Why are you calling? What are you looking for with Lord Saint? Really, you always come to trouble Lord Saint, you I don't know how to be grateful, it's horrible!"

Li Yun wanted to say, what happened to me talking to my girlfriend? Besides, I gave your Master Saint a heaven-defying treasure, on top of all your belongings in the Hidden Sacred Valley!

After thinking about it, Li Yun still replied: "I met dozens of monsters last night."

".....Snapped!"

Qingzhu hung up on the spot.

Li Yun couldn't laugh or cry, and hurriedly called back. Fortunately, the little maid was not really angry, so she quickly connected.

"What I said is true..."

"You really are a big head!"

"big liar!"

"Big color embryo!"

"Big \*\*\*\* full of lies!"

"..."

"Hey, are you the villain listening?" Qingzhu gasped.

"Huh? What did you say? I covered my ears and heard nothing."

"you you you!"

After playing with the little maid, Li Yun was in a good mood and changed into a serious tone, saying: "Xiao Qingzhu, what I said is true, you should believe me!"

"Who is Xiao Qingzhu."

The girl murmured, her face was red and she was ashamed.

After that, she half-trusted the phone to Master Saint.

"Dozens, monsters?" When Fan Qingsheng heard these words, he fell into strong suspicion.

But compared to Qingzhu, she was more willing to believe that Li Yun would not lie.

"Remember what I told you about the plane crash?"

"Um."

Sage Fanqing nodded slightly, if she was there, she would be able to rescue the hostages more easily.

Li Yun said: "At that time, I found an iron can full of blood in the wreckage of the plane crash. Later, at night, when I went there again, I saw dozens of animals swallowing blood. A mutated giant frog demon."

"what!"

Qingzhu exclaimed in surprise, "How can there be so many monsters in the outside world?"

Sage Fanqing frowned and said in her nice holy voice: "Li Yun, do you mean that there are things in the blood that can cause animals to mutate?"

"Correct!"

Li Yun took a deep breath, "I have initially investigated that kind of thing!"

"What is it called?" Qingzhu asked quickly.

"Demon blood!"

Chapter 2010: Me and you

There was a moment of silence between the two of them. After a while, Qingzhu widened his eyes and said in disbelief: "Demon blood? Are you sure it is monster blood? How could there be so much

monster blood... Did they absorb all the spirit energy to monsters to create such a thing? Too much demon blood?"

Li Yun shrugged, "So I want to ask you if there is such a way to produce so much monster blood in the Hidden Sacred Valley."

The last time the plane was hijacked for a week, God knows how much monster blood was thrown by the people of the Six Demon Gates with that plane, and how many monsters will be generated in the world because of this. This is the most terrifying.

"Why did the Saintess tell you? Humph~" Qingzhu snorted proudly, but then replied: "We don't have so many monsters, and it is impossible for ordinary monster blood to create dozens of monsters!"

Li Yun smiled, ordinary monster blood is impossible, but what if it is extraordinary?

The Hidden Sacred Valley and the Six Demon Gates have been passed down since ancient times, saying that there is no secret, fools don't believe them.

The Sage Fanqing seemed to be considering his words, and after a long time, he said softly: "I will go back and ask the Holy Master. This matter is not trivial."

Li Yun waited again, but didn't see her continue to speak, and couldn't help asking: "What happened then?" That's it?

"Recently," Fanqing Sheng paused, "I feel the aura of heaven and earth has increased, and the purpose of the six gates can already be guessed."

"Um."

Li Yun nodded.

The purpose of Concubine Wan Qing is also very simple. It is to make the world suitable for practitioners to practice. From the resonance runes and spirit sticks in Zhonghai City to the promotion of the feast of soul-removing, then they manipulate the Song and Yuan Dynasties, disrupt the rivers and lakes, and attract The warrior took refuge, followed by hijacking the plane to spread the monster blood and so on.

Everything is to fill the world with aura again!

It is for: Reiki recovery!

"From now on," Li Yun paused, "Qing Sheng, what do you want to do?"

The reason why he asked this is because in a sense, what the Six Dao Men do is actually in line with the etiquette of the practitioners. The Hidden Sacred Valley has no reason to oppose it, and Li Yun even suspects that someone will take the initiative to join in and act as a beast.

After all, if the aura between the heavens and the earth really recovers, then it will be a great blessing for the practitioners of the world, and even for ordinary humans, it will be harmful, but it will also be good!

"I... also, I don't know."

The words of the Sage Fanqing were very difficult to say, and there was a slight bitterness in his voice.

As the saint of the Hidden Sacred Valley, she could hardly do anything. She hadn't stopped the enemy's conspiracy for so long, and could not catch the tail of the six doors. Even now that the conspiracy of the six doors was exposed, she did not stop her. the power of.

She couldn't even call the people of Hidden Sacred Valley to do something.

Li Yun understood her feelings and comforted: "In fact, Qingsheng, you did a good job."

"..."

"real!"

Li Yun emphasized: "To fight against the six gates and the new era that may come in the future, not only can we rely on the hidden sacred valley, but also the efforts of the secular countries. Qingsheng, you can help them interpret the cultivation methods, cheats, and the principles of amulets. Wait, it is of great help to the worldly people."

"Really?" Fan Qingsheng spoke in this tone for the first time, making Qingzhu on the side extremely surprised.

"of course it's true!"

Li Yun smiled and said, "Sage Qing, think about it. In the future, if the whole world is truly spiritual and there are so many practitioners, then where do you think there are the most practitioners?"

"...Official."

"puff!"

Li Yun spouted a sip of tea, Saintess, why have you been out for so long, you still call the country an official government!

"I understand what I have to do!"

Sage Fanqing ignored Li Yun's "teaching", and said in a faintly happy tone: "Li Yun, I will help you!"

After that, she added: "Even if the people in the valley don't allow me to do this, I will help you!"

"what!"

Qingzhu was very surprised, Master Saint is going to...
