

Godly Choice 201

Chapter 201: Pioneer fight against hacking

What Su Muxin sent him was a link to a post. Li Yun opened it and took a look, and he felt an aura of rain coming and someone making trouble.

"Pioneer fights this junk software, it is the real behind the hacking!"

The title of the post was like a mess. Li Yun took a look at the apartment building where he posted. The dead leaves have no roots, level 13 and they were posted in the dungeon game post bar with up to 5 million friends. There were many replies to the post. Up to tens of thousands.

Undoubtedly, as the author of Pioneer Strike, Li Yun is quite sure that he has not hacked his account behind his back, and it is impossible for anyone to hack Pioneer Strike and add the hacking virus.

This post either misunderstood something, or someone deliberately hacked him!

"The dead leaves have no roots: Let me talk about what happened first. I have been online at home. I listened to it. Friends recommended that this Pioneer is very good at combating anti-theft numbers. So I was curious to download and experiment.

Because I had never been hacked before, I just tried it and deleted Pioneer Strike immediately.

But the next weekend, when I got up and was about to review the picture, the result: [图][图][图]. "

In the picture, the seven or eight level 70 full-level game characters of the 'Liu Ye Wu Gen' poster have all returned to their original state, and their halo, equipment, and fashion have been stripped off.

The screenshots in the game showed that locked equipment appeared up and down all over the body, and the rest were wiped out by the person who hacked the account, and even the unlocked sky set was disassembled!

Not to mention other people, even Li Yun, who was wronged, felt a fire when he saw the accounts patronized by these hacked spam.

"I won't say how much I lost. I conservatively estimated it at 100,000 yuan. I am ready to call the police and take the trash author who pioneered the fight to court. He dared to steal my account and ruin my five-year dungeon gaming career. , I dare to sue him, never die!!"

The last sentence was extremely indignant, and many friends complained for him.

"Pioneer Strike is a piece of **** software. From its simple interface, you can see that I never use this kind of rubbish!"

"Distressed the landlord!"

"Distressed +1."

"Are you sure it's Pioneer Strike? I use it very well. Any virus in the Internet cafe will be cleared out. I also recommended it to the owner of the Internet cafe. Now the Internet cafes in the city have installed this software!"

"Why not? The landlord hasn't been hacked for three years, and once downloaded Pioneer Strikes, he will be recruited. Li Yun must have stolen the account!"

"Yes, I heard that Li Yun had a bad background. Although his grades are good and talent is high, but his family is poor, he might do hacking!"

Li Yun was annoyed, so he didn't need to look at it anymore, because he was all taken away by the rhythm.

Moreover, some people who spoke good words for Vanguard's attack were all deleted by the original poster. I don't know if Luo Ye Wugen is angry or deliberately hacked him.

"Ding, trigger the option event, please choose from the host:

Option 1: Find the man behind this post, and solve it perfectly, reward wisdom +500, spirit +300, justice value +100, several experience points, random access to master science skills, Wu Ke's loyalty will increase, and there is a probability Received a small part of Su Muxin's parents' approval.

Option 2: Find the black hand behind the scenes, call the police, reward experience value +50,000, justice value +30.

Option 3: Ignore, no reward. "

After reading the options given by the system, Li Yun smiled at the corner of his mouth.

Chapter 202: Four hot searches

The system deserves to be his most powerful plug-in. Triggering this event is equivalent to telling him that someone must be making trouble behind him!

Li Yun calmed down. Someone hacked him with a rhythm, but it was better to solve it, as long as he was caught out.

Conversely, if someone is hacked across the Internet, then it is in a difficult situation and cannot get out of it.

"Then, let's first investigate who this dead leaf without roots is, and with whom have you interacted with interest recently!"

Li Yun quickly determined the direction of the investigation.

The so-called unprofitable can not afford to be early, it is impossible for someone to black him for no reason, this dead leaves without roots must take advantage of it, and then made this rhythmic post.

But after Li Yun refreshed the post, he found an interesting reply.

"Don't believe this rubbish, I'm Cao, I'm the dead leaves without roots! This B has stolen my 13th-level Tieba account, don't believe him!"

The dead leaves without roots are not me?

Li Yun frowned slightly, stealing a level 13 account, is it to strengthen his persuasive power?

It seems to be the case. The credibility of what a level 13 bar friend said is completely different from what a level 5 bar friend said.

After refreshing it again, the reply was deleted, and it was forbidden to speak again.

But Li Yun had already saved the IP address of this bar friend and contacted him directly.

"Hello, I am the author of Pioneer Strike, are you really dead leaves without roots?"

"I'm Cao? Great God! I'm using your pioneer to fight, and I was too lazy to open the Internet cafe that day, and I was hacked. I was depressed! The dead leaves without roots are indeed me. If you don't believe me, I still have browser records, and It is also my mobile phone, but I can't get it back now. The mobile phone number is the previous one!"

"Okay, I see, don't worry, I will take care of this, and your account will come back!"

"I'm right, I'll transfer you 30,000 yuan, and I want you to do something for me."

"Huh?" The man was taken aback, "No, no, God, how can I ask for your money!"

"Don't worry about it, this little money is nothing, just do it..."

A smile appeared at the corner of Li Yun's mouth, and things went more smoothly than he thought.

After collecting the evidence, Li Yun went to Weibo and checked it. Sure enough, Pioneer cracked this software out of the game circle.

#吴珂婚纱小公司#

#749 分的天才高三生伤仲永#

#南天科技集团 19-year-old daughter, willful investment of one billion#

#Vant-guarding suspicion of self-pirate#

The four hot searches are all related to Li Yun.

This time it was really squally storms. The previous vanguard's crackdown on the suspected account hacking incident was only the fuse that caused this series of things!

"Who is behind the scenes? What is the purpose?"

Li Yun had a guess in his mind, and first clicked on the top ranking hot search and took a look.

"Recently, news broke that Wu Ke, the former CTO of Nantian Technology Group, chose to join a newly established small company less than two months after his resignation.

According to information, the chairman of the small company is a senior high school student, Li Yun.

He wrote a software pioneer attack that is said to work well, but is suspected of behind-the-scenes account hacking [link]

As a well-known technology expert at home and abroad, why did Wu Ke join a company of a senior high school student after resigning and not starting a business? All this is a mystery.

At present, Wu Ke only refutes the rumors of the hacking incident, without explaining the reason for joining. "

The corner of Li Yun's mouth twitched. How could this editor write as if Wu Ke had been coerced before joining, so he looked down on Li Yun like this?

There is no doubt that this Weibo underground is all ridiculing Wu Ke and Li Yun, thinking that Wu Ke's brain is broken, and only then joined Li Yun's small company!

Chapter 203: Hurt Zhongyong

Li Yun looked at this hot search again, which made people speechless.

"Recently, the name Li Yun has been frequently searched, including this time the Pioneer cracked down on suspected account theft, which caused me to eat a lot of melons.

In a curious mood, I roughly sorted out what this genius boy had done.

One: Writing a song, a song "Zhengjianghu" became popular all over the Internet, and even attracted the attention of directors Yi Shanshan and Zhang Ke. A song sold for 3 million.

Two: The mock test made full scores, which caused a lot of turmoil in the whole network, and was also suspected of cheating. Finally, with his excellent talent, he wrote a beautiful classical Chinese essay "Qing Ge Man Wu" to prove his innocence, and the final mock test score: 749 points!

Three: Write an anti-theft software with downloads up to 5 million+, Pioneer fights...

Above, I believe that no matter what it is, it is enough to be called a peerless genius on any person.

But if these three are concentrated on one person, then I have reason to doubt whether this genius has the power to transcend the limit and do well in all three aspects?

...

Finally, I want to use a high school text as a warning: Don't hurt Zhongyong! "

The injury Zhongyong refers to the talented child prodigy who wasted time in his childhood, did not study hard, and eventually became ordinary people in adulthood.

If it is normal, Li Yun admits that what he said makes sense.

However, at this point in time, a blog post that was wary of hurting Zhongyong suddenly broke out, giving Li Yun very reason to suspect that he was deliberately making trouble, and wanted everyone to fall into trouble and mock him!

"Haha, hurt Zhongyong? It's a pity that I have a system plug-in, so I am already a genius among geniuses!"

Li Yun smiled faintly and looked at the next hot search.

#南天科技集团 19-year-old daughter, willful investment of one billion#

Needless to say, this hot search is about Su Muxin, and the content inside is probably a mockery of Su Muxin's lack of eyesight, and he actually spent a billion to invest in a small software!

Li Yun was a little confused about this hot search, because it brought the hot search of Nantian Technology Group, making Li Yun wonder whether it was a competitor of Nantian Technology.

However, the market value of Nantian Technology Group is nearly 5 trillion, and the public relations department is the world's top. They have no reason to not notice this hot search.

This situation is probably the result of Su Muxin's father's indulgence.

The purpose, of course, is to put pressure on Li Yun, let him retreat when he is in trouble, can not bear public pressure, and thus give up contact with his daughter Su Muxin.

Li Yun had to express his admiration for Su Tengyun.

The business tycoon just gave a word, and did not target Li Yun, but he put him under a lot of pressure.

However, this little pressure to overwhelm him is pure wishful thinking!

Li Yun first called Wu Ke.

"I'm sorry, boss." Wu Ke's voice was a little tired. This was indeed the first time he walked from behind the scenes to the front of the stage.

Before he was a technician, now he is indeed a president who controls the overall situation. The two are completely different.

Therefore, he encountered these things just after the company opened, and he was also very busy.

"Boss, if you want me to say it, just find out the person behind you, our brothers go and fuck!" Qian Hu's fierce voice came on the phone. He has now gone to Zhonghai City, waiting for orders by Wu Ke's side. .

"Don't mess around," Li Yun scolded: "Starting a company is not a small gangster grabbing a place. You must pay attention to rules in everything. Don't worry, I already have a way. Wait for a good show!"

Chapter 204: Main program

Liu Yongqiang, a 33-year-old senior programmer, before coming to Baiyun Technology Co., Ltd. as the main program (main program developer), he was the team leader of Baowutong, a domestic shopping website, and led more than 30 people. Pay for security-related work.

Although he is only the team leader, any managerial position is very important in Baowutong, which is full of talents.

In the past, his subordinates in the company joked that if they were tired, the heavy-duty companies that went out were all project managers, and the annual salary started at one million.

But Liu Yongqiang did not do so.

He is now only a main programmer, with only three people under his hand, and all of them are fresh graduates, cheap programmers whose salary does not exceed RMB 6,000.

"My god, Yongqiang, are you crazy? Go to that kind of small company?"

"No way, I believe Wu Ke!" Liu Yongqiang replied with a shrug in the face of his friends' questions. Yes, after learning that Wu Ke had joined a small company, he took the initiative to contact and cut his salary by 50% to join!

As a well-known expert and professor in the computer field at home and abroad, Wu Ke, Liu Yongqiang is willing to spend this little price to get close to this big man, hoping to get some guidance from him.

But unexpectedly, Liu Yongqiang joined Baiyun Company, but was instructed by Wu Ke to make him and other programmers only need to make a beautiful user interface, no other programming is required!

As for Wu Ke's guidance, it is even more difficult to talk about-Wu Ke does not participate in programming at all, how to give directions?

"I'm Cao!"

At that time, Liu Yongqiang couldn't help but scold his mother in his heart, "I was a high-achieving student who graduated from Qingbei University. I also studied a master's degree in computer science at a foreign university. I have worked at Baowutong for nearly eight years. I am proficient in C/C++, Java, and understand various security protocols. Are you recruiting me to write the user interface?"

It's no wonder that his staff are three fresh graduates. The user interface is a low-level and simple thing, and a programmer who has trained for a month can write it!

"I'm Cao, what's even more cheating is that I was really stupid in this company and wrote the user interface for two weeks!"

After finishing all the user interface writing, Liu Yongqiang was depressed. He had no idea what the source code of this Pioneer Strike was. He just put a shell on the outside to make it more attractive.

"Damn, if there is no change, I will resign and leave!"

"After writing the user interface, I can be regarded as the most benevolent!"

Liu Yongqiang made up his mind and secretly wrote a resignation report, waiting for the right time to hand it in.

This company was not saved. It is estimated that Wu Ke used it to deceive investors. Liu Yongqiang has seen many of these leather bag companies and left after cheating.

Moreover, the Vanguard attack is still trapped in a whirlpool of public opinion, and it is estimated that even investment cannot be deceived.

"Boss!" Liu Yongqiang's men shouted, "Look at Weibo, our senior senior chairman responded!"

Responded?

Oh, it's too late now.

Liu Yongqiang disagrees. Pioneer Strike has fallen into the suspicion of hacking. Investors have lost confidence in this estimate. No matter how much you respond, it will be of no avail.

However, he was still curious to glance at the Weibo of the senior high school chairman.

The third-year chairman of the senior year is a joking name given to Li Yun privately by employees of Baiyun company. There is no doubt that these more than 20 employees, including art, program, and promotion, have no respect for the senior third-year chairman. .

They have never even seen the young chairman!

Chapter 205: Li Yun's response

want to respond to the hot search about me."

1. Vanguard will never steal account.
2. Thanks to Mr. Wu Ke for his willingness to join Baiyun Technology and serve as the president. In the future, Baiyun Technology will change the world and lead the Internet into a new era.
3. Thanks to investors Let me set a small goal. Within three months, Baiyun Technology's valuation will reach 10 billion, ensuring that the two investors will never lose a point. money!
4. By the way, I also set a goal for myself, the second mock test starting next week, the score is the first! "

Liu Yongqiang was stunned. This senior third-year chairman is really shocking and dying, and what he said is scary!

Looking at the comments below, all netizens were shocked.

"Brother, it's not that I said you, your pretense is too big! The earth can't accommodate it anymore, you are going to be awesome outside the galaxy!"

"Leading a new era? Why don't you say that you create a new world and create a new earth?!"

"You bull! Others' small goal is to make 100 million, your **** small goal is to make 10 billion?"

"Mock test scores...Do you really think you get full scores every time in your composition?"

"The hacking dog crawls!"n/ô/vel/b//in dot c//om

"Pioneer Strike is junk software, don't use it!"

Liu Yongqiang shook his head and gave a bitter smile. Sure enough, everyone no longer believed in Vanguard Strikes.

But after he refreshed, he saw Li Yun post a new Weibo.

"About the response to a post in the Dungeon Game Post Bar. [Link]"

After Liu Yongqiang clicked in to take a look, he was immediately dumbfounded.

It turned out that it was a video of a person. He stated that he was the owner of the account of 'Dead Leaf No Root', and accused the hacking dog of rhythm. He used Pioneer Strikes well, and he never encountered hacking!

Then, the real owner's material blue flag record was displayed, and you can see that they are all posts browsed by Dead Leaf and Root, and even the home address of Dead Leaf and Root is listed, indicating that this is a real-name complaint!

"I, Cao, the chairman is beautiful!"

Liu Yongqiang dared to conclude that this person is definitely the real owner of the dead leaf rootless account, otherwise he would not dare to record this video because he would definitely be found by the police later.

Moreover, he should be that young director who spent a lot of money to get him to stand up for video recording to quickly prove the innocence of Pioneer Strike.

Sure enough, shortly after the incident, there was news that the pirates were arrested and were being interrogated, and a black industry chain was also involved. Hacking + navy + a rhythmic gang was a heinous crime.

Seeing that a storm was resolved by Li Yun, Liu Yongqiang felt uneasy.

The third-year chairman of the senior year undoubtedly has the means. He speaks appropriately and makes people unable to find faults. He acts decisively and vigorously. When the pioneer strike is questioned, he will immediately take action to reverse the situation.

But unfortunately, wanting to value tens of billions of dollars on a small piece of software is tantamount to idiotic dreams!

"Stop your work for a while."

Wu Ke clapped his hands in spring breeze, motioned everyone to look over, and smiled: "The interface of Pioneer Strike is done well. I have also registered patents at home and abroad. Now is the time to release the source code for everyone to see. Our talented senior director Long, what is the level of the software written by hand!"

Everyone smiled awkwardly, but they didn't expect Wu Ke to know their name as the third year chairman in private.

Chapter 206: Ding, master painting

After Wu Ke registered the software patent, he provided the source code of the software to everyone, otherwise, it would be easy to be copied and stolen.

With a strong sense of curiosity, Liu Yongqiang, like everyone else, opened the source code of the software.

"..."

"can not read."

"seems very amazing?"

"My God, I don't understand what the chairman wrote!"

"What programming language is this? I haven't seen it before, but it's a new creation!"

"Although I can't understand it, but it feels so amazing!"

Several novice programmers sighed, but Liu Yongqiang was completely shocked!

"This, this...Is this a work of art?!"

Liu Yongqiang was unbelievable. The code written by Li Yun has a clear structure, beautiful algorithm, and concise strategy, but when combined, it is so wonderful. This section of program seems to be a piece of jewelry that exists in the world. Li Yun collected it and turned it into a string of pearl necklaces that attracted worldwide attention!

"Artwork? You can say that!" Wu Ke sighed and patted his shoulder. "When I first saw the boss's code, my expression was as shocked as you. It was the first time I knew about it after 30 years of programming. I can also write an artwork!"

Liu Yongqiang was trembling with excitement, and he admired the source code with all his heart.

If he can learn Li Yun's three tricks and two styles, he might rise five or six steps to reach a top level in China!

Wu Ke smiled and said, "How about it, now do you think our company has development prospects?"

Liu Yongqiang was a little ashamed, but he did not expect that Wu Ke had already seen his desire to leave the company.

"Yes, absolutely!" Liu Yongqiang said, "What is a ten billion valuation? Our boss is worth one hundred billion!"

He doesn't want to leave this company anymore, he won't go away if he is killed!

After reading the source code of Pioneer Strike, Liu Yongqiang has great confidence in Li Yun!

Several novice programmers were also excited, and even the entire company's twenty-odd people were excited.

"Hahaha, well, I'm relieved to see that you have such fighting spirit!!"

Wu Ke smiled with satisfaction: "The official release of Pioneer's attack two days later, the marketing department recently took the time to promote it, and strive to take advantage of this hot search to become a hit!"

Everyone suddenly promised, but it was unexpected that this hot search has become a great opportunity for Baiyun Technology Company!

"Wisdom +500, spirit +300, experience value 83,000, skills acquired: master painting skills, Wu Ke's loyalty has increased, and Su Muxin's parents' recognition has increased slightly."

Li Yun is still satisfied, his wisdom and spirit are the lowest, a balance is a good thing.

Soon after, Li Yun received a call from Wu Ke.

"The Vanguard Strike will be released in two days? So fast?"

"It's hot... it's okay, I'll go to Zhonghai City in two days."

Li Yun will naturally be there when his product is released.

It's ridiculous that Li Yun's Baiyun Technology Company has been established for two weeks, but he has never been there once. This time I went to meet his employees by the way.

The news that Baiyun Technology is about to officially release its products, together with Li Yun's Weibo response, quickly became the focus of the Internet. Many people expressed mockery at Li Yun's rants, thinking that in just three months, they wanted to reverse the company's valuation. Ten times is impossible!

After all, no one's money is blown by the wind.

No.156, Huangtingshan Villa, Zhonghai City, Yanjia.

"This **** bastard!"

Chapter 207: To Zhonghai City

Seeing that his strategy was easily resolved by Li Yun, it made him a lot more enthusiastic. Yan Jing was so angry that he gritted his teeth and slapped the table severely. With a bang, the tea cup jumped up and fell to the ground. There was a clanging sound, which sounded abnormally harsh.

"Didn't you say that the plan is perfect?!"

Yan Jingyi looked at the housekeeper standing beside him coldly, and became more annoyed in his heart.

Don't think the Yan family is already a top family with a level of 100 billion, but it is far from the real giants.

Among other things, at least ten families that are stronger than the Yan family can be found in Zhonghai City!

After all, the Yan family can only toss in Zhonghai City and several nearby provincial cities. Unlike the Su family, which owns the world's top technology companies, every move is the focus at home and abroad.

The Su family is the real nobleman!

Therefore, Yan Jingyi dreams of replacing the Su family and becoming a real giant!

"Young Master." The butler was a little embarrassed, and defended: "Although we did not succeed this time, we did not fail. We will come a few more times and we will surely crush that kid completely!"

"Humph!"

Yan Jingyi leaned back on the sofa, raised Erlang's legs, and motioned to the housekeeper to continue.

"They will develop the conference in two days."

The butler sold a pass, but Yan Jingyi directly said impatiently: "I know this, just tell the truth!"

"Yes, Master! What I want to say is that they will definitely demonstrate the function of Pioneer Strike at the press conference. At that time, we only need to hire some hackers..."

The housekeeper smiled triumphantly, "No matter how powerful he Wu Ke is, he can't stop so many hackers. Moreover, as long as we are willing to spend more money, we may not be able to invite some top hackers to engage them!"

"Okay!" Yan Jingyi's eyes lighted, he threw a card directly on the table, and said viciously: "I'll give you ten million, this time I must completely defeat that kid!"

Otherwise, just get out of my Yan's house! "After speaking, Yan Jingyi sneered at him, and went to the clubhouse to find a young model and a star to play with.

The rest is left to the housekeeper, a mere Li Yun, it is not worth his own hands.

Two days later, Li Yun came to Zhonghai City in a train.

He didn't bring anyone this time, and Fang Xue and Li Feng were in class, and neither of them could come.

After leaving the station, Li Yun raised his eyes and glanced at Zhonghai City in front of him.

Row upon row of high-rise buildings, wide and straight roads, brightly dressed pedestrians, high-spirited people, and an elite demeanor.

The atmosphere of Zhonghai City is completely different from that of Longyang County.

There are too many rich people here, drunk and squandered, enjoying life to the fullest.

But the poor here live like a dog in a village in the city for five hundred yuan and eat fast food for eight yuan.

This place is destined to be a paradise for strugglers. Countless people made their fortunes here, and countless people were depressed and had to retreat to their hometown.

But more people will flock to this internationally renowned city.

In a word, there are countless opportunities here, provided that you can grasp it!

"I will definitely get ahead in the future!"

Looking at the towering mountain-like mansions in the distance, Li Yun's eyes were firm, and he murmured these words.

"Pouch."

At this moment, a seductive woman laughed in Li Yun's ear, "Little handsome guy, I have a good ambition. The slave family likes your bold words~"

Li Yun was a little embarrassed, turned his head and looked over, after seeing it clearly, he showed a slightly surprised expression.

Chapter 208: Feng Chen woman Wan Qing concubine

The woman in front of her was about twenty-three or four years old. She wore a tight turtleneck sweater on her upper body, which perfectly reflected her perfect body and graceful slender neck.

Below is a pair of bright red striped trousers. The high waist design makes her slender legs and beautiful figure more prominent.

If you ignore her vulgar fiery red hair, this coquettish woman can make people shine.

However, the charm of her face, the expression of bashfulness and shame on her face, coupled with the vulgar lipstick on her lips, reduced the beauty of this coquettish woman by several levels.

From a beauty who harmed the country and the people, she turned into a lowly street girl—a street girl for three hundred yuan a night.

"Little handsome guy." The coquettish beauty cast him a wink, "Just came to Zhonghai City? Just like my sister, do you want to go with your sister? Just have a companion."

Li Yun smiled, this Zhonghai City is really open, street girls dare to come to the station to solicit passengers, it is simply incredible!

I was thinking of rejecting her, but I didn't expect the system to prompt at this moment.

"Ding, trigger the option event, please choose from the host:

Option 1: Accept the request of Concubine Wan Qing, reward Concubine Wan Qing with a degree of favorability -50, and a random gift bag*3.

Option 2: Reject, reward Concubine Wanqing's favorability degree +0.1, random green gift bag*3.

Option three: yelling and rewarding Concubine Wan Qing with a degree of favorability -0.1. "

Li Yun was stunned, is this a **** option?

Moreover, it was the first time he saw the system take the initiative to lower the favorability score, and it was the first time he knew that the favorability score had a decimal point!

"No, sister, go play by yourself." Li Yun shook his head amusedly. There is nothing good to choose from this option. He is still a boy. It is the first time to give this kind of street girl, a fool will do it.

However, the name of this **** the street is quite nice. Concubine Wan Qing, a beautiful concubine, is completely different from her temperament.

"Ding, the host has made a choice, and the reward (Faith Qing Consort +0.1, random green gift bag*3) has been distributed!"

Li Yun is speechless. The system rewards 0.1 favorability at a time. Is it necessary for him to trigger a thousand favorability events to reach 100?

"That's a pity." Concubine Wan Qing showed a full smile. For a moment, Li Yun actually felt an extraordinary, elegant and dignified temperament in her.

Unfortunately, the next moment, Concubine Wan Qing came to Li Yun's ear, and said in a dark tone: "My sister's work skills are very good, really don't you?"

The voice was soft and mellow, and it was as provocative as possible. The men who followed behind almost flowed out, and several pairs of colored, squinted eyes have been lingering on Concubine Wan Qing's body!

Li Yun smiled faintly, raised his foot and walked forward, and said, "You have good skills? Go to work if you have good skills. Although I am the boss, I probably don't need a 'talent' like you!"

"Brother is really funny talking!" Concubine Wan Qing smiled while covering her lipstick mouth, abandoning Li Yun, turning her head to look at the men behind her, and giving them another wink, "What about you? Would you like to try my sister's skills?"

"Willing!"

"Of course I do!"

"Beauty, let's go now, go wherever you say you want to go!"

The four astringent men kowtowed their heads like garlic, nodded frantically and agreed.

Chapter 209: In a van

Although Concubine Wan Qing's body is extremely dusty, her figure and appearance are very good. It is placed in the ranks of women on the street, and the starting price is 500 yuan a night.

"Okay, then come with my sister~"

Concubine Wan Qing's eyes flashed a cold light that no one could notice, but her face was smiling. Turning around and taking a brisk pace, Wan Qing concubine's waist twisted and walked forward. Several obsessive men hurriedly followed. The service of the front and the back of the horse, for fear that the flesh of the mouth would fly away.

The men around showed envious expressions, Concubine Wan Qing's figure is hot, even if it is shoes that have been used by thousands of people, they think it is worth it to have a good night and everything!

"Hehe, I have Fang Xue and Li Feng, and my lovely wife Yaoyao. These people know that I am afraid that they are not going to envy me."

Looking at the expressions of the men around, Li Yun felt quite refreshed. Fang Xue and Li Feng are both first-class beauties, and both of them have a very close relationship with him. They belong to an intimate relationship that can be eaten at any time. Just thinking of this, Li Yun felt an evil fire in his heart, wishing to do something with Fang Xue now.

However, Li Yun also knew that he couldn't be anxious. Before Xiaoxue's parents' approval, Li Yun's relationship with her only stayed in hugs and hugs, guarding the last line of defense, and chatting with Fang Xue alone. Li Yun just shook her little hand and was always well-behaved.

"Ding, trigger the option event, please choose from the host:

Option 1: Keep up with Concubine Wan Qing and help them defeat several men. Reward justice value +30, experience points +1 million, random gift bag*3, Concubine Wan Qing's favorability score 20.

Option 2: Ignore, no reward.

Choice 3: Direct action, beat those men violently, reward justice value +30, experience points +1 million, and concubine Wan Qing's favorability degree +0.1. "

Li Yun frowned, and this system somehow had been used to trigger selection events related to Concubine Wan Qing.

Forget it, there is still some time before the press conference, Li Yun will follow the past to see what's going on.

After all, it is estimated that this concubine Wan Qing has seen a lot of human affection, and she has been floating in the wind and dust for many years. It is difficult for her to improve her favorability. It is still considerable to increase by 20 points at once.

Although Li Yun didn't know the use of having a good relationship with a woman in the dust.

Concubine Wan Qing hired a taxi, reported a spot and got into the car. The four men behind her also found a taxi and followed far away.

"Hi boss!!"

"Hi boss!!"

Li Yun found Qian Hu. He and his horses lined up and saluted Li Yun respectfully.

The sturdy temperament of Qian Hu and a few of his subordinates caused the people near the station to look at him. They speculated about Li Yun's background and his appearance.

But after seeing a few people get into a van, everyone scolded their mothers.

"Grass, I thought it was so awesome, I didn't expect to drive a van!"

Qian Hu turned a deaf ear to these contemptuous voices, and stepped on the gas pedal in one go, his face still full of pride.

As he drove, he said to Li Yun flatly: "Boss, I bought this car for 200,000 yuan, and the dealer gave me a 20% discount. No money was wasted."

"Drive your car and follow the taxi in front of you." Li Yun smiled faintly. "Our company will grow up soon, and tens or millions of dollars will be nothing."

Chapter 210: witch

"Yes, what the boss said!" Qian Hu nodded and bowed, admiring Li Yun in his heart.

In less than a month, the boss has changed from a junior high school boy on the street to a billionaire rich. People like Xue Ji are simply unworthy to compare with the boss!

"Concentrate on driving your car." Li Yun said flatly: "I will not treat my followers badly, but if you want to become rich, you need to work hard, don't do anything else for me!"

A few people quickly agreed, and they increasingly felt that the boss had an awe-inspiring aura.

Li Yun didn't bother to deal with them anymore. Now Qian Hu and his team are security guards + cleaners + decoration handymen, and I don't know how long they can last.

The car went all the way, and followed Concubine Wan Qing to a secluded alley. Li Yun asked Qian Hu to stay here, and he followed alone.

"Beauty, this is where you work? A hair salon? Or a massage shop? Hey hey, brothers are fine!"

Several men are no strangers to this secluded place. Rather, they are very familiar with this place. They are so familiar with it.

Because they do this!

Commonly known as: Gui Gong.

"Beauty." A man showed his true face with a grinning smile on his face and quickly stepped forward, blocking the path of Concubine Wan Qing. "Beauty, don't go so fast!"

He stretched out his hand to touch Concubine Wan Qing's cheek, but was evaded lightly by her.

The man looked at Concubine Wan Qing's face again, and found that her temperament at the moment was like the sky-shaking magnitude, from a woman of the wind and dust to a demon girl who overwhelmed the world.

She just smiled like this, like a nine-tailed demon fox that charms all living beings, with a coquettish smile, just like a witch.

The man discovered that her neck wrapped in a tight turtleneck sweater was very beautiful, not as beautiful as an ordinary street girl, but like a big star seen on TV.

White, beautiful, and slender, the complexion is like white jade, glowing with crystal-clear jade.

"Good, so beautiful."

Concubine Wan Qing only exposed a small piece of skin on her neck, but she has lost her mind by bewildering the man opposite her, like a fool like a fool.

"Grass, Xiaoshanbao are you messing up? Haven't you seen a chicken?"

The other man became impatient and walked directly over and shouted, "Beauty, let me just tell you, where is work not a job? Our boss opened a massage shop and is short of technicians. You follow us. The salary is easy to say and the commission is deducted. Absolutely high, how?"

"Oh?" Concubine Wan Qing smiled, glanced at Li Yun's direction, stretched out her fingers around her hair, said casually: "What is the commission? What if I don't agree to go to your work?"

"No?" The man yin and yang took out a dagger strangely, and Concubine Wan Qing looked at the short dagger, which was less than **** long, and laughed again.

"Ha ha ha ha ha ha ha!"

"You, what are you laughing at?"

Several men were confused by Concubine Wan Qing's actions.

Concubine Wan Qing leaned forward and backward with a smile, wiped her eyes as if tears were bursting into laughter, and said: "I am a dignified elder of the evil sword sect, a master of the innate realm, known as the Fairy Flying Sword by the people of the rivers and lakes. I was also followed by a kid who didn't know the heights of the sky. Are you funny, isn't it?"

"Elder Sword Evil Sect?"

"Master of Innate Realm?"

"Fairy Flying Sword?"

The men looked at each other. They just wanted to find a few technicians for the massage shop and earn some hard money. How could they have heard of the secrets of these ancient martial arts?
