

## Godly Choice 2091

Chapter 2091: Butler is also a must

"External steward is similar to Zhou steward."

Xiao Mingzhu gestured to the 60-year-old gentleman and continued: "The external housekeeper is responsible for handling some of the host's communication issues, such as reception when someone comes to visit, return visits, banquet decisions, and some small investments and purchases. , You can even visit others on behalf of the host and discuss some things.

In general, the internal and external stewardship is still a very important profession, no less than managing a company with a market value of hundreds of millions.

And you need someone who is absolutely reliable and trustworthy! "

Li Yun was a little surprised, "I didn't expect that there are so many ways to get along with rich people."

"Rich people" such as Qu Shen and Xiao Mingzhu laughed and said nothing.

Li Feng couldn't help saying, "If Princess Yongning is here, she must know this."

"Oh?"

"The little princess told me that she learned a lot about managing the inner house."

"Zhai Dou? Hahaha, okay, I'll leave it to her for review in the future."

Li Yun has watched some plots of house fighting on TV. Often a big family wife like Princess Yongning is in charge of the house, and then a large group of children fight with concubines. A small matter can be played in four or five episodes. .

"Princess Yongning?" Xiao Mingzhu was slightly surprised, "It sounds like it was the title of a princess in the Tianqi period of the Ming Dynasty, called Zhu Shue."

Li Yun looked strange. When he first learned of the title of Princess Yongning, it was because the system gave him college-level history knowledge, but Xiao Mingzhu literally remembered this unremarkable princess title in history. !

Xiao Mingzhu smiled slightly and said: "The reason I can remember is very simple. Recently, I heard that a tomb of Princess Yongning has been discovered. No, it is called Yongning Princess City by the archaeological community. Once it is made public, it is definitely a historical heritage comparable to the Terracotta Warriors and Horses!"

"Of course it can't be called the tomb." Li Yun couldn't laugh or cry. "After all, Princess Yongning is not dead, how can it be called the tomb?"

"Not dead yet? What do you mean?! Didn't she die when she was 2 years old?"

Xiao Mingzhu asked immediately, and everyone looked over in surprise.

Li Yun shrugged, "It means literally. By the way, since Steward Zhou follows abroad, can you have a new steward recommend?"

Since a butler is a must, he should also hire one. Recommendations from others are better than finding them by themselves.

Qu Shen smiled without saying a word, only looked at his housekeeper with his eyes.

Zhou Qi's excitement became more and more obvious, and he took the initiative to stand up and bow to Li Yun slightly: "Mr. Li, I have a son who is married and has followed me to learn about housekeeping for many years. He has also entered UKBG for advanced studies. If you don't dislike it, I recommend him to work for you!"

He carefully observed Li Yun's look.

"Oh? Don't you want to go abroad? Your son will stay in the country?"

"Yes."

Zhou Qi replied again: "I have followed the master for many years, and will always follow him even when going abroad, but my eldest son will stay in the country, looking for a reliable master to follow for life, dedicating his loyalty, and realizing his own value. !"

Li Yun nodded, and Zhou Qi's family seemed to have become a professional housekeeper family.

"Yes." Li Yun smiled, "If I buy this house, Mr. Zhou, you can ask your son to come to me. After the interview, I think it's okay to let him be the housekeeper."

"Okay, Mr. Li!"

Chapter 2092: Different nouveau riche

Zhou Qi's face was obviously very excited, but his professionalism quickly restored his calm, and he replied respectfully.

"That's right." Li Yun asked casually while visiting the rooms here: "What is your general salary for housekeepers, gardeners, and maids? Together with the property fees, what is the approximate monthly cost?"

Looking at them, Li Yun smiled and said, "Forgive me, a nouveau riche, for having never experienced such a lavish house."

"Hahaha."

The expressions of Zhuang Siliu and Qu Fang were a little unnatural, and Li Feng's face was reddish, a little embarrassed, and she was still a little inferior.

Instead, Xiao Mingzhu joked: "According to the standard of 30 bodyguards and maid drivers, plus the property fee, it is about 1 million a month. But, this little money is not a problem for Li Yun at all. Look at me saying this sentence for at least 5 seconds, I think your Baiyun Technology has earned at least 10 million!"

Qu Fang couldn't help but said, "Not so much, right? Two million per second, 16 billion a day, and 480 billion in that month..."

Her expression froze, Xiao Mingzhu teased and said to her: "How about it? Do you think that 2 million per second is too little?"

Qu Fang smiled awkwardly, "Uh, my math teacher died early, sorry."

500 billion a month is simply impossible for other companies. Even the fruit company with the largest market value can only reach this number in revenue.

However, at the initial stage of Baiyun Technology, its market value has skyrocketed. Since the release of three black technologies, its market value has skyrocketed tenfold within a month!

200 billion becomes two trillion, which is equivalent to making 1.8 trillion in a month. The huge profits can no longer be used to illustrate the speed of Baiyun Technology's making money.

This is completely robbing global car companies, mobile phone manufacturers and battery-related industries!

Although Baiyun Technology has not yet been listed, and has never received a penny from the above three types of companies, the part of Baiyun Technology's soaring valuation is entirely due to their plummeting part.

So it can be said that they are robbed of their money!

Qu Shen looked at Li Yun with envious eyes: "If Mr. Li is a nouveau riche, it is also a nouveau riche who can break the rules of the industry, make the world turbulent, change the color of the world, and change the sun and the moon!"

Everyone exclaimed, and the eyes of the steward Zhou Qi became more fierce. If his son can follow such a master, his future achievements will definitely be in his father's IQ!

No, with Mr. Li Yun's current influence, as long as his son can become his steward, he will be immediately known by the world's top families, and countless invitations will fly here.

Villa 36 is still Villa 36, but its popularity will increase tenfold, one hundredfold!

"Mr. Qu, your flattery is really extraordinary."

Li Yun smiled, "The world is not moved because of me. There are things more powerful than me. In the future, the whole world will usher in a... bizarre era!"

"Oh?"

Both Qu Shen and Xiao Mingzhu were moved in their hearts, but they had never heard this statement in their status, but Li Yun might have learned some news from the upper echelons!

Unfortunately, he did not explain further.

Everyone can only continue to visit.

On the third floor, Li Yun saw an open-air bath. Looking across the huge French windows, he could see a small part of Zhonghai City in the distance. It smelled like an open-air bath of Tenshen Pavilion. Li Feng blushed when he saw it. .

She, Fang Xue, and Li Yun played in the open-air bath for a long, long time during those three days.

Chapter 2093: Luxury decoration

"This bath..."

Li Yun was also a little moved. He glanced around and saw a vertical refrigerator placed on the wall. Qu Fang opened it with a smile and let Li Yun watch the refrigerator. The refrigerator was full of fruits and drinks.

Qu Shen smiled: "Although it is an open-air bath, it can also be called an open-air swimming pool. It is good for a family to come here occasionally to take a bath. Compared with the outdoor swimming pool in the garden, it has a different taste."

"It's pretty good." Li Yun was very satisfied. When the time comes, let the little princess wear cute swimsuits, and his two twin sisters also wear swimsuits, plus Li Feng, the family swims and bathes here, without worrying about outsiders watching. Then, there is the warm and happy family.

It's better for a family to take a bath in a swimming pool in swimsuits than to take a bath unobstructed by the father and daughter in Sakura Country, right?

Li Feng's face became more ruddy, and he hurriedly walked to the floor-to-ceiling windows to pretend to see the scenery.

The younger brother still doesn't know that the twin sister likes him. If he knows, will this indoor outdoor swimming pool become the same as the Tenjin Pavilion back then? Let's mess around...

Li Feng found that after returning from a trip to Mount Taihuang, his mind was getting worse and worse... blame Li Yun, the bad guy!

"There is also a sauna room and a luxurious 7.1-channel private cinema on the third floor. They are all places where the family can relax and entertain. Do you want to go see it?" Qu Fang looked at Li Yun and asked.

"No, I'm quite satisfied!" Li Yun smiled, "Usually I might live in the city, which is relatively close, and I will come back for vacation on weekends. Generally speaking, the villa is enough to live in. If you intend to sell, sir, we can sign a preliminary contract now!"

Li Feng was looking forward to it. After seeing the house, she became more eager to move here.

The scenery of Huangting Mountain is beautiful. You can walk on the mountain in the morning, afternoon, and evening, especially with the little princess, so as not to sleep too much and cause bad health.

"I said, this room will be given to..."

"Haha, well!"

Li Yun interrupted Qu Shen and smiled at him: "I know what you mean, Mr. Qu, I'll just say it straight."

Qu Shen's face was not embarrassed, and he looked respectful.

His intention to send Li Yun's house is very obvious, anyone can tell at a glance, but Qu Shen just wants to send it!

If Li Yun accepts this gift, then in the human society of Huang Xuanguo, Li Yun will inevitably give him back, otherwise, the words spread out will be detrimental to his reputation.

Even if Li Yun refuses to accept it, Qu Shen's intent to please him has been achieved.

The reason is very simple. He and Li Yun are not relatives. Even if there is a business relationship, why should people cooperate with you?

Therefore, Qu Shen used the gift of the house to indirectly express his intention to cooperate with Baiyun Technology and to get closer to him.

"Although I am the chairman of Baiyun Technology, I am also an indirect holding company, however."

When Li Yun spoke, Zhuang Siliu, Qu Fang, and Xiao Mingzhu all acted as if they were listening attentively. There was no other reason. Baiyun Technology held the technology that could change the world, and every move attracted the attention of countless people!

Now, the chairman of Baiyun Technology has personally delivered a speech to analyze the structure, inside story and future development direction of Baiyun Technology. They naturally have to take a careful note to see if there is a chance to cooperate with it.

If Baiyun Technology is the pig on the wind, then they would rather become the leg hair on the pig and ride on this downwind pig!

"For various reasons, much of the voice is still in the country, and I am only responsible for collecting money."

Chapter 2094: consult

Li Yun smiled: "For example, battery technology and smart phone assistive technology cannot be easily licensed to foreign countries. It needs to be confirmed with the Foreign Exchange Department in exchange for some foreign technologies before the company can develop cooperation with foreign companies!

Can you understand these? "

"Yes, of course!"

Qu Shen's eyes were full of envy, and he said: "After the company grows, it is closely related to the fate of the country. Every move will cause unpredictable consequences. For this reason, foreign companies will refuse to cooperate with my country, and even get stuck on some key technologies. It's really hateful!"

Li Yun smiled and said nothing. This Qu Shen had already immigrated. Although the Chinese are also patriotic, it is always strange.

Of course, Li Yun is not accusing Qu Shen, everyone has the freedom of immigration, which is one of the basic rights of people.

"Oh." Qu Shen sighed, "I need to immigrate to Maple Leaf Country for business reasons, but I have often wondered if this is right."

"Especially after seeing Li Yun your Baiyun technology company has become stronger, the stock prices of foreign companies have plummeted, and the future situation is turbulent. Immigration is not necessarily a benefit!"

Qu Shen looked at Li Yun with scorching eyes, "Mr. Li, can you give me an opinion?"

The words that Li Yun said before the arrival of the new era gave him a sense of trembling.

Xiao Mingzhu also looked at Li Yun, wanting to know some "insiders."

With his current status, he must be deeply connected with the country, and he will inevitably know certain policies or development directions.

For big businessmen like Qu Shen and Xiao family, knowing the country's development direction is already a huge business opportunity!

"How can I have any opinion."

Li Yun laughed, disappointing everyone.

"But it's."

Li Yun turned around and said: "The future will be turbulent and the situation will change. An era that you can't even imagine will come."

An era that everyone is baffled and unimaginable? What is great is that black technologies are emerging in endlessly, nuclear fusion may be realized, and mankind has entered the era of unlimited energy.

Is there a more weird future era than this?

"I can't imagine what the future will look like." Li Yun smiled slightly, "What will happen to the fate of a small country? Is it to live alone and get a chance to survive, or to be destroyed by inexplicable horror and weird things? I'm not sure. I won't give Mr. Qu any advice on this, it's all on your own judgment!"

"Something scary and weird!?"

Everyone was startled, they only felt that what was in their hearts could be called inexplicable horror?

"Mr. Lee!"

Qu Shen eagerly wanted to know some inside information, but Li Yun waved his hand, indicating that he didn't need to ask.

It's very simple. It's useless to ask. Even if Li Yun tells about the resurrection of the monster, will he believe it? Besides, Li Yun himself is not sure what it will be like, or don't mislead others.

"Come on, let's go downstairs."

Li Yun walked downstairs leisurely, as if he had become the owner of Villa 36.

Qu Shen's face was bitter, and the more he felt that his immigration might be wrong.

"Mr. Li, if I am like this, I will stay in Zhonghai City for the time being. Don't worry, I will still give you this house. I will look at the situation before I decide whether to go abroad or not. What do you think?"

Li Yun was non-committal, "Don't give up the house, if you want to cooperate with my company, I can give you Wu Ke's phone number, oh no, I already have a secretary, you can contact her."

Chapter 2095: It's nice to have money

Qu Shen opened his mouth. He originally said that the purpose of giving away the house was this, but now when he knew from Li Yun's mouth that the world would change drastically, money suddenly became unimportant.

How to keep up with the trend of the times, keep up with the pace, and maintain the status of the Qu family is what he, the head of the Qu family, should do!

It is not the key to care about the gains and losses of one or two billion!

"Is there really a new era?" Qu Fang asked very directly, his eyes slightly sharp.

"Maybe... there will be."

Xiao Mingzhu, the richest daughter in Zhonghai City, sighed slightly and said: "Qu Fang, you should know what happened at the auction three months ago? There is also the Shiwangfu Street from the capital."

Xiao Mingzhu stared at Li Yun tightly, trying to find a change in his face.

Unfortunately, nothing was achieved.

"Don't panic too."

Li Yun chuckled, "I believe in the country, I believe in the world, and more importantly, I believe in the power of nuclear bombs!"

Xiao Mingzhu gave him a roll of eyes, and now she was able to let go a little bit in front of Li Yun, even though she had not yet reached the relationship of good friends.

Li Feng hid her mouth and snickered. She probably knew what Li Yun was selling. It should be related to the occurrence of many monsters in Taihuang Mountain.

Everyone went downstairs and chatted in the living room for a while before the time came to noon.

Sisters and brothers Li Yun experienced the feeling of having a meal at a large 6-meter-long dining table with servants waiting beside them. In summary, it is good to have money. Li Feng finally knew what it was like when the little princess Yongning talked with her and said that there were more than a dozen maids by her side during dinner.

During the dinner, Qu Shen wanted to ask some things several times, but every time Li Yun changed the subject.

Reluctantly, Qu Shen could only talk about Baiyun Technology with Li Yun and talk about what will happen to the world in the future.

Xiao Mingzhu was very interested in this. The questions were raised one after another, and Li Yun felt that he had benefited a lot from a wide range of thinking.

"Mobile phone smart software...will change the existing film and television special effects and bring new visual enjoyment?"

Zhuang Siliu's tone was full of surprise. She thought that the black technology released by Baiyun Technology would not affect her temporarily.

But as a result, once the special effects of film and television are changed, the way of making movies in the future will also change. Accordingly, her entertainment company must make adjustments for this, otherwise it will be the same as before when 3D film and television became popular in foreign countries, and the country will be forced to change!

"Probably."

Li Feng answered her sister and silenced Zhuang Siliu for a while, and she suddenly felt that the burden was heavy on her shoulders.

"Following the future, come on, cheers!"

Li Yun raised his cup. Everyone knew that he didn't want to talk about it anymore, so they could only clink the cup with him and drank it in one fell swoop.

Li Yun is also helpless, he is not a god, how can he predict what the future will become, so he simply ends this topic.

After eating, Li Yun and Qu Shen drafted a villa sales contract, and then sent a professional person to finalize it, and then went to the housing notary office to hand it over.

"Li Yun, your college entrance examination results are coming out soon, right?"

Qu Shen took the contract and said with a smile on his face: "I will move out of here within 15 days, so that your family can move to Zhonghai City after the college entrance examination is over. The champion + housewarming joy, double happiness!"

"Don't be so hurry." Li Yun smiled with satisfaction, "After all, we have to replace some furniture. By the way, Mr. Zhou, your son..."

"He is already waiting for your call from Mr. Li in the small living room!" Zhou Qi replied immediately.

Chapter 2096: Interview Butler (Part 1)

"Okay, I'm going to have a chat with him, I'm lost."

Li Yun stood up and walked to the small living room. Qu Fang looked at Li Feng and asked with a smile: "Student Li Feng, are you going to go around the villa? I'll take you there."

"Okay, sister, are you coming together too?"

Li Feng pulled her sister, and Zhuang Siliu might also live here in the future, after all, the two are so close.

As for Xiao Mingzhu, she had already left. She had to go to work in the company in the afternoon. Li Feng found it very difficult. After all, she had just finished the college entrance examination, and Xiao Mingzhu immediately started work and study.

"Hello."

While Li Feng's three daughters were playing around the villa, Li Yun came to the small living room and greeted Zhou's housekeeper's son who was sitting in a chair and waiting quietly.

"Hello, Mr. Li!"

This middle-aged man, dressed in a tuxedo and white gloves, dressed almost the same as the housekeeper Zhou, stood up before Li Yun said hello and respectfully treated him with a standard etiquette.

Li Yun watched him a few times. The first impression the middle-aged man gave him was very good. He did not take out his mobile phone or do other things while waiting. He just sat quietly in the living room and waited. That said, this rigorous attitude makes people feel very reliable.

"Let's just open the door to Jianshan." Li Yun smiled, "Are you going to apply for the new housekeeper position in this villa?"

"Yes, Mr. Li!"

"Mind to introduce yourself?"

Li Yun sat in front of him and listened to the gentleman's butler's speech, but he felt a bit like a personnel supervisor interviewing employees.

From his introduction, Li Yun learned that his name is Zhou Jian, he is married and has a daughter and one son, who are 4 years old and just over one year old. He has a happy family and his wife is an HR of a large company. He has stable income and no bad habits. .

These conditions seem to be unimportant, and few people investigate the family situation in ordinary jobs, but for the wealthy housekeeper, family stability is an important consideration.

After all, no rich man is willing to hire an unmarried man as a housekeeper, so as not to have an affair with the family members of the family, and the housekeeper becomes a son-in-law, presumably no rich man wants to see it.

"After my introduction, Mr. Li can directly ask if you have any questions." Zhou Jian replied respectfully, looking at the new owner of Villa 36 with a bit of admiration.

For Baiyun Technology's fame, he has long been known, and now he has the hope of becoming the first butler of this legendary chairman, Zhou Jian is naturally working hard and is ready to offer the loyalty of the butler at any time!

Once he becomes Li Yun's housekeeper, Zhou Jian and his father Zhou Qi are the relationship between the two families. Even if his father personally asks him something about Li Yun, he will remain tight-lipped.

This is the quality of a professional butler!

But to Zhou Jian's surprise, Li Yun did not mention the so-called loyalty.

"I have a few questions to ask you Mr. Zhou Jian." Li Yun smiled slightly, "First, what should I do to smoothly sign the sale and purchase contract with Qu Shen and make this villa officially belong to me." "

After a pause, Li Yun smiled and said, "This is also the prerequisite for everything, otherwise, even if I am willing to hire you, there will be no villa for you to manage."

Zhou Jian nodded, and just about to speak, Li Yun said again: "Second."

Zhou Jian's face changed slightly, and he threw out a few questions in one go, demanding that the housekeeper's memory and the ability to sort out and summarize the problems be taken to a higher level.

However, he still has the confidence to make a perfect answer!

Chapter 2097: Interview Butler (Part 2)

"Mr. Li, please tell me your question." Zhou Jian said respectfully.

"Well, my second question is," Li Yun stretched out two fingers, "If I buy the villa smoothly, and I want to move in here as soon as possible after the Qushen family moves, which furniture should be replaced? Some furniture can still be used, and the villa can be refurbished as much as possible."

Although this four-story villa with a total of tens of thousands of square meters cost tens of millions to renovate, a wealthy man at the level of Qu Shen usually leaves furniture behind when he sells his house and only takes away some of his collections.

Such as refrigerators, wardrobes, sofas, tables and chairs, lawn mowers, gates, garage security, etc., will be preserved.

"Third, after I move here, what advice can you give me so that my family can live in smoothly and comfortably."

After speaking, he paused for a few seconds to wait for him to remember before Li Yun said: "These three problems are what you will encounter before, after, and after moving. I think the housekeeper is the one who is responsible for solving these problems, right?"

"Yes, it is my duty to make the owner's stay more comfortable!"

"Well, you just pick some of the more important things and say, the rest of the details don't need to be detailed, you just have to know it in your heart."

Li Yun took a look at the time, "I will give you 5 minutes to write on paper, now you can start."

"Yes, Mr. Li!"

As a professional housekeeper, Zhou Jian naturally carried pen and paper with him. After a little thought, he worked hard and quickly listed out a list of suggestions.

Li Yun stood up, walked to the window, and answered the phone.

"Little Chili? Why don't you speak?" Li Yun smiled. The little girl didn't know what she was doing, and she didn't say anything when she called.

"Hehe, hehe hehe~~"

On the other end of the phone, Su Muxin secretly said, "Brother Li Yun, guess where I am now~~?"

The little girl's voice was crisp and sweet, with a bit of charming and faint joy, and it sounded particularly comfortable.

Li Yun raised his eyebrows, "Are you already in front of Villa 36?"

"Hey~~~? How did Brother Li Yun guess it?! It's amazing, and I guessed the unknown of Little Chili all at once. It's great, great~~"

"It's all right, it's numb to death."

Li Yun smiled and scolded: "You said before that the exam is over today. Isn't it easy to guess? If you are in front of the villa...Should I pick you up?"

"Hee hee, Brother Li Yun is so good, no need, I can come in by myself, how can I say I am also Su Tengyun's daughter, this is still some face!"

Li Yun couldn't help laughing as if she saw her arrogantly walking forward.

Little Chili gives people a very lively and cute feeling, similar to Jin Liuli and Qingzhu's little maid, except that Jin Liuli is a little bit savage and arrogant, sometimes a little unlovable.

Thinking of Jin Liuli, Li Yun was stunned. He hadn't contacted her for a while. Li Yun couldn't help thinking that when he parted with her last time, Jin Liuli kissed him on the lips, and then he looked like a shy little girl. The sheep ran away.

That kiss... should be the girl's first kiss.

"I find time to see her during the summer vacation, and I hope that the favorability score can exceed 100..."

"what?"

While Li Yun was thinking, Su Muxin's suspicious voice came over the phone.

"What's the matter?" Li Yun asked, "Did you see my sister? She should be playing with others in the villa now."

"No, I saw a strange person at the door."

Chapter 2098: Miss Su Family

"weirdo?"

"It's that brother Li Yun's father-in-law said to be careful with him, he is the kind of person who plays drugs!"

My father-in-law? Isn't it your dad?

Li Yun couldn't laugh or cry, "Playing with drugs? Isn't it Wang Xiangui?"

"Well, that's her."

Su Muxin bulged, Li Yun's brother is really bad, obviously she has "reminded" her father-in-law, he hasn't taken the topic yet!

Originally, she wanted to take the opportunity to take Li Yun home with her family to meet her family. After all, she had already taken a fancy to a cruise ship that went to sea. She was about to go abroad with Li Yun. When playing, she would definitely do it. Wearing all kinds of nice clothes to show him, she is quite confident of her figure.

When, when, when, the two of them are in the room with the door closed and locked, and they can play, play, play... on the big bed at any time.

"Woo, so ashamed~~"

Little Chili Su Muxin clutched her blushing face, ignoring Wang Xiangui, who was standing at the gate and sweating profusely, and stepped quickly into Villa 36.

The guard did not stop her. Those who work in Huangting Mountain still have this vision.

"Su Muxin?"

"Ah, sister Li Feng~"

Just after entering, Su Muxin bumped into Li Feng, and the two met once at the game press conference.

After thinking for a while, Su Muxin chose to walk over, took Li Feng's little hand and talked to her with a smile, and then joined the play team, not going to meet with Li Yun's brother for the time being.

It is more important to please his family~!

"Sister Li Feng, just call me Little Chili. Although I grew up older than you, Brother Li Yun is an elder brother, and Sister Li Feng is of course also an elder sister~!"

"Uh."

"Okay, okay, scream, call me Little Chili, or Sister Muxin? Hehe~"

"Okay, okay, sister Mu Xin."

Li Feng can only bite the bullet and call this lively, lovely, but extremely noble younger brother-in-law his younger sister. From this relationship, calling younger sister is quite appropriate.

Zhuang Siliu and Qu Fang on the side were shocked by her performance.

Although Su Muxin did not grow up in Huangting Mountain, because the Su family occasionally came to live in Zhonghai City, and Su Muxin came to Zhonghai University to study half a year ago, the two had met Su Muxin several times and knew she was that name. The daughter of Su Tengyun who shocked the world.

On a certain level, Su Tengyun's Nantian Technology is much better than Xiao Mingzhu's Wanyuan Real Estate!

Nantian Technology has investment companies in various industries around the world, and Wanyuan Real Estate can only shrink the country. This year, it has repeatedly tried to transform but failed. It can only continue to buy land, build shopping malls and build houses.

Although it can also make a lot of money, with the decline of real estate, the Xiao family has not been doing very well recently.

In other words, Su Muxin, the golden lady, is definitely the top group of people in Huang Xuanguo's front line. There are dazzling presences wherever they go, and they are the center of social celebrities, and they are flattered by many people.

But now...

This daughter of Su Daqing took a bite of her sister Li Feng, and she also called herself a little hot pepper, making her cute and cute.

Zhuang Siliu and Qu Fang even doubted whether there was a problem with the Su family's tutor. How did they teach such a stupid Baitian?

"Sister Li Feng, you, Sister Fang Xue, and Brother Li Yun recently went to Mount Taihuang for a tour? I heard that we encountered two very interesting and amazing things, right?"

"Uh, uh, it's a huge tiger and a very big tree."

"Wow, what is this? I really want to see it with my own eyes~"

Chapter 2099: Make money from foreigners

"If all goes well, you will be the housekeeper of Villa 36 in the future!"

After listening to Zhou Jian's list of suggestions, Li Yun was very satisfied, stood up and stretched out his hand to him, and said with a smile.

But Zhou Jian did not shake hands with him, but bowed respectfully: "Mr. Li, you will become my master of Zhou Jian. If there is no accident, I will offer you my loyalty for the rest of my life!"

It sounds like something else.

Li Yun looked weird. I heard that this was a principle followed by foreign housekeepers. If he didn't make a big mistake, almost no housekeeper would voluntarily resign, even if the master family he followed declined and the salary was low.

Of course, being expelled by the owner is another matter.

"You don't need to be so rigid, just manage the daily expenses of the villa." Li Yun said casually.

"Yes, sir!"

"....."never mind.

Li Yun shook his head. If you call the master, you can call the master. You can't call the boss, right? It is even more strange to call the master, he has no hobby of raising slaves.

Of course, the maid wearing a black and white maid dress, Li Yun would never refuse to come...cough cough.

"Let's go out."

"Yes!" Zhou Jian followed, one position behind Li Yun, and then whispered: "Master, you don't need to pay attention to me, you just need to order anything."

This is to suggest that the master does not need to say the previous sentence, go directly out, and he will naturally follow.

"...It's okay, I don't have so many bad rules."

Li Yun was quite speechless, and for a while, he was really not used to the rich life with a secretary around him at any time.

When he went outside, the old housekeeper Zhou Qi saw the front and back positions of his son following Mr. Li Yun, and immediately knew that he had successfully become the new housekeeper of this villa!

Excitement is inevitable, but the two of them did not show it. They are just stewards, and Li Yun and Qu Shen are the masters of this!

"Done talking?"

Qu Shen stood up from the sofa in the corner of the villa lobby, greeted him with a smile on his face, and said: "Li Yun, I have chatted with President Wu Ke through your secretary for a while. He intends to expand the influence of new lithium batteries abroad. , Is now looking for a reliable partner abroad."

Li Yun smiled and said, "And you happen to be Chinese, you can kill two birds with one stone?"

"Yes!"

Qu Shen, who had initially achieved his goal, was quite excited, "I am naturally willing to be Li Yun, your partner of Baiyun Technology, and everyone will make foreign money together!"

Li Yun laughed again and said nothing. The Chinese were also foreigners.

"Oh, I made the wrong choice at the beginning." Qu Shen shook his head and said, "I shouldn't be a Chinese. I just want to settle abroad and be an overseas Chinese. Unfortunately, overseas Chinese do not have foreign nationality. Investment in many fields abroad is restricted. In desperation, I can only choose to become a Chinese!"

Chinese, generally refers to overseas Chinese, non-Huang Xuan nationality.

Overseas Chinese refers to people who have settled overseas, but still have the nationality of Huang Xuanguo!

Li Yun knew that Qu Shen was justifying his choice, but he understood him a little bit, and nodded and said: "As long as there is a heart flowing with yellow|river water, Huang Xuan nationality is everywhere you go!"

Qu Shen's eyes lit up and agreed, "I think so too! When the business stabilizes, I will become an overseas Chinese again!"

Next, under the instruction of Li Yun and Qu Shen, Zhou Qi and Zhou Jian dealt with matters such as the handover of the house and the contract. The father and son are now in their own hands and are loyal to different people. This is also a big anecdote.

At least the maids and the maids looked at the "new" housekeeper expectantly, waiting for Li Yun to officially move in.

Chapter 2100: Little Pepper Su Muxin

"Brother Li Yun~~~!"

After talking about Qu Shen, Li Yun sat in the living room and chatted with him for a short time. Su Muxin's cheerful cry came from a distance, and then a beautiful figure rushed over and hugged him. Li Yun stood up.

"Woo~, Brother Li Yun, Little Pepper hasn't seen you for a long time~"

The girl's graceful and soft body clung to him, and Li Yun was moved and felt a little embarrassed. After all, Qu Shen was still watching, and also showed a weird expression.

"Li Yun, this Miss Su Family is yours...?"

"Fiancée~!"

Su Muxin answered first, happily put her arms around Li Yun's neck, daringly stood on tiptoe and kissed him, and said with a smile: "I am brother Li Yun's fiancée, and I am waiting to take brother Li Yun home to see my dad. Mom, then they will become a formal couple~~"

A happy smile on her face, with a hint of shyness, made this Su family daughter look glamorous.

Qu Shen was dumbfounded. It turned out that Li Yun was not a nouveau riche, but had a lot of contact with the Su family.

Could it be that Su Tengyun took the initiative to marry Li Yun for Baiyun Technology? ?

Sure enough, the chairman of Nantian Technology is not easy!

"Meet your parents? Mu Xin, will it be too soon?"

Li Yun was a little surprised. He just came to buy a house today, but in the end he was going to see Su Muxin's parents?

Although he didn't object, it was too sudden!

"I'm not happy, I have been talking with Li Yun for so long..." Su Muxin suddenly became shy, because she thought of the fact that she had been sending encrypted compressed packages to Li Yun during the chat in the past few months.

The compressed package is full of shameful photos, which she took in the room specially for Brother Li Yun alone!

"But I didn't bring a gift."

"It's okay, go and go, go now! Ah right."

Su Muxin took Li Yun's hand and wanted to leave, but suddenly remembered something, she turned her head and showed a standard lady smile to Qu Shen: "Mr. Qu, sorry, I have very important things to go with Li Yun now. If you do, you'll lose your company first."

"It's all right, Li Yun and I are almost finished talking about the business, and this villa is sure to be sold to your boyfriend. Just go to see your parents and I will send you out."

"Hehe, don't bother Mr. Qu."

Su Muxin was relieved to take Li Yun's hand and walked out. Li Yun couldn't laugh or cry: "Really going to see the parents? Are your parents at home? Also, my sister is still here."

"Today, my final exam is over. My parents are at home waiting for me to go back to celebrate. In addition, I have already told Sister Li Feng that she will play here first, and then go up and eat dinner with us. Everything is Arranged properly, let's go, let's go~~"

Su Muxin was triumphant, and Li Yun sighed. She was indeed the daughter of the Su family. She usually sells cute and stupid, but she becomes clean and tidy when she decides what to do.

"You have to let me say goodbye to others, right?"

Li Yun took the initiative to hold Little Pepper's silky hands, made her stop, and turned her head to say goodbye to Qu Shen.

In other words, it was hundreds of millions of dollars cheaper to sell his house, so he bought it for only one billion, and he had to be polite to others.

"Ding, the host made a choice of life, bought a big villa in Huangting Mountain, Zhonghai City, and initially moved to the peak of life, preparing for the marriage of Bai Fumei, reward: experience value +66.66 million, random gift bag \*100, additional reward: exorcism Great Front Flag (Golden Quality)."
