

Godly Choice 2101

Chapter 2101: Ding, life choice reward

Li Yun and Su Muxin received the system prompt as soon as they walked out the door, which surprised him.

"It's actually a life choice!"

"It seems that buying a house is really a major event in life, so inferring that in the future, I will be rewarded with life choices when I go to college, get engaged, get married, have children, etc.?"

"But why didn't there be a house in Longyang County before? Isn't it up to the standard of reaching the pinnacle of life? Haha, no matter what, if there is a reward, it is earned!"

"Cool!"

Li Yun was extremely pleasantly surprised. There is no option prompt, and the reward given directly is like a sudden windfall, which makes people laugh from ear to ear.

Among them, the golden quality exorcism town house flag is the first array flag reward Li Yun has won!

—That Huangquan guide flag doesn't count. It is a trophy that Li Yun obtained from the six gates, not a system reward.

"Exorcism Town House Flag

Special effect: Unfold a formation.

Skills: Exorcising evil spirits, ecstasy, please God (1/1)

Description: Usually placed in the home, the formation is not broken, the house is peaceful. "

After reading the attributes and introduction of the array flag, Li Yun was more surprised.

Although the destructive power of this array flag is not as good as Huangquan guide flags, the victory is that it consumes less spiritual energy and has the ability to "please God".

Inviting the gods means to invite the gods, which means to summon and invite the gods and gods of the heavens to pray for blessings and indicate good and bad luck.

The people of Huang Xuan country usually paste two pieces of military commanders (mostly Guan Yu Zhang Fei, or Qin Qiong, Yu Chi Gong) red paper for the town house. They are called door gods, which is actually a kind of magical technique.

It's just that Li Yun is a little bit puzzled. Divine art needs to summon real gods, but do gods, gods and gods really exist? Can you invite them?

"Brother Li Yun, why are you in a daze?" Little Chili squeezed Li Yun's cheek with his little hands. Really, is Brother Li Yun so reluctant to see her parents?

"Ahem, I'm thinking about what gift to give to my parents."

Li Yun brazenly called Xiao Chili's parents as parents, but Su Muxin was surprised and shook her arms around Li Yun: "No need, really no need. Mom and Dad are both very talkative. Wait for Brother Li Yun... ..No, it's my husband~, just behave normally!"

"Husband, add a brother?" The girl's fragrant body made Li Yun very enjoyable.

"Hehe, do you like the title of exclusive little pepper? Or... Li Yun's husband brother?"

Li Yun couldn't laugh or cry, and nodded the girl's little nose, "Just call me Li Yun. Of course, it's better to just call my brother."

"Don't call me brother, so am I the same as your two younger sisters? Humph~ I don't want to."

Su Muxin stood up proudly and recognized Li Feng and Fang Xue as her sisters, but she didn't want to recognize Caiwei and Caixia. Those twins must be sisters!

The two talked and laughed and walked to the door, during which time Li Yun opened up 100 gift bags as a reward.

"Ding, the host gets 34 white gift bags, 26 green gift bags, 10 blue gift bags, and 21 purple gift bags among 100 random gift bags."

"Ding, congratulations to the host for getting 8 golden gift bags and 1 colorful gift bag!"

Li Yun's eyes lit up, and he was blinded by 8 golden bags and a colorful light!

It's worthy of a reward for life choices, too rich! Let him have enough bags again, so that he can save and open a wave!

Chapter 2102: Want to go to the holiday island

"Sister Li Feng!"

On the way out in the villa, Su Muxin waved her hand not far away and shouted: "My husband and I are going first. You will go to my house at five o'clock. It's a little bit on the mountain. Castle No. 6 combines Chinese and Western style Remember that~!"

Combination of Chinese and Western!

Li Yun laughed, turned his head and glanced in the distance, and saw that Li Feng was playing tennis with her sister Zhuang Siliu on the tennis court in the villa.

The two were having fun, and Zhuang Siliu, who had always been cold and glamorous, had a very happy smile on his beautiful face when he was playing with his sister.

"Okay, got it!" Li Fengchong waved the tennis racket here and shouted: "Brother, come on!"

"Uh, good."

"Hehe, let's go, Brother Li Yun, my parents are waiting in a hurry~"

Su Muxin shook Li Yun's arm happily, humming a song in her mouth, and her beautiful face was full of excitement and joy.

"Little Chili is very happy now?" Li Yun asked with a smile.

"Of course~"

Su Muxin took a peek at Li Feng in the distance, and then quickly printed her lip print on the face of "her brother", clutching her blush little mouth and snickered, like a little fox eating grapes: "I just finished the final exam, Li Yun's brother is moving to Huangting Mountain again, and I will have a university with me in the future, plus..."

Su Muxin's small face was covered with red clouds as if drunk, and she tweaked and said, "Then, after a few days, I will go with them, and what...swim."

"What are you swimming? Little Pepper, what do you want to say?"

"It's... the cruise ship~!"

Su Muxin bulged her cheeks, "Really, didn't you tell Brother Li Yun before? Let's go on a holiday island trip together in the summer vacation and take a cruise. I have all booked the ferry tickets!"

"Have you booked the ferry tickets?" Li Yun was stunned. "When is the departure time? How many tickets? Uh, I mean, the decision was too fast!"

Su Muxin stared at Li Yun for a long time before she laughed chuckles: "It hasn't been decided yet, but you can book a few tickets. See how many beauties Li Yun wants to take with him~"

When he said obviously sour words, tears overflowed from Xiao Jiao's eyes. Li Yun coaxed her a few times before Xiao Jiao broke into a smile and rubbed his arm to act coquettishly.

"You, you can take as many people as you want, but I don't mind it anyway." Su Muxin bit her lip and blushed, "As long as they don't mind me joining, that's fine."

Just as Li Yun wanted to speak, Su Muxin said first: "Brother Li Yun went to Taihuang Mountain with Fang Xue and Li Feng last week, right? You can also call them this time..."

"Mu Xin!"

Li Yun was very moved, and took her little hand. If the time and place were not suitable, Li Yun really wanted to take her first kiss.

Yes, he and Su Muxin have determined that they have been in a relationship for a long time, but they haven't dated, so naturally there is no chance of intimacy.

"Hehe~, Brother Li Yun wants to experience the four-person walk?"

Su Muxin bit her lip and laughed. The meaning of this sentence was self-evident, which made Li Yun's face blush.

"No," Su Muxin nodded Li Yun's forehead happily, and ran forward naughty, as happy as a bird, "At least... the first time that Little Pepper wanted to own Li Yun alone. What about brother~! Hee hee, idiot brother Li Yun, come on soon~"

Li Yun caught up with her, feeling full of emotions in his heart.

She originally wanted to dedicate herself, no wonder she wanted to take him to see his parents.

Although with Su Muxin's character, she can fall in love together even without seeing her parents, but she still wants to get the blessings from her elders, and then... give her completeness to Li Yun!

Chapter 2103: tacit agreement

Walking through the long garden aisle in front of the villa, Li Yun and Su Muxin held hands and walked out of the door of the villa. As soon as they took a step, Li Yun saw a familiar figure.

"Mr. Li, Li Yun!"

Sweaty Wang Xiangui hurriedly stepped forward, his face was embarrassed and ashamed, he reached out his hand and wiped the sweat from his forehead, trying to make a flattering expression.

Su Muxin was amazed, if she didn't know from her father that he was the poison king of Zhonghai, she would have thought that her boyfriend had bullied him viciously!

"!"

Li Yun waved his hand, indicating that he didn't need to say anything, and then Li Yun took Su Muxin away without any chance to give Wang Xiangui any chance.

This completely ignored scene made a group of bodyguards standing in the distance look upset, and they could not wait to pick up the submachine gun to shoot!

"Brother Li Yun?"

Su Muxin took his arm and looked at him curiously with big eyes.

"It's okay, leave him alone."

Li Yun shrugged, "That guy doesn't know how to write death words, his subordinates pointed at me with a submachine gun on the main road."

"Ah!?" Su Muxin was startled, "Brother Li Yun, are you all right? Are you hurt?"

"...It's okay, your brother Li Yun is amazing."

Li Yun replied helplessly, Su Muxin still didn't know the strength he possessed, and probably thought he was just an ordinary genius of innate realm.

I believe she will soon realize the power of his Li Yun!

"Hehe~, of course!"

Su Muxin is very proud, "Brother Li Yun, you defeated famous foreign hacker groups at a young age, and even Uncle Wu Ke worshipped them, and then you created a powerful company with a market value of trillions. Even my dad confessed to Brother Li Yun. Praise, of course great~!"

Li Yun laughed loudly, "My great place is not only here!"

Su Muxin's face blushed, and she groaned: "I hate it."

"? Where did you think of it?"

Li Yun looked at her in horror, this little pepper is really crazy about it, the idea in his mind is too bad, maybe even worse than Hu Xiaomeng!

"Huh~, who made the bad brother Li Yun always let me wear those clothes."

Su Muxin pursed her mouth and smiled shyly.

No one was around. The two of them walked up the tree-lined path of Huangting Mountain. The flowers on both sides of the road were in full bloom, and the flowers and shrubs were neatly trimmed. No wonder Little Chili talked about running before-I can get up in the morning in Huangting Mountain. Away from the hustle and bustle of the city, running in a place comparable to a national park is really a great pleasure.

"Mu Xin."

"Brother Li Yun!"

The two enjoyed a rare quiet time, then spoke at the same time, and then smiled at each other.

"You speak first." "Brother Li Yun speak first~"

When the two of them were at the same time, Li Yun helplessly squeezed Xiao Chili's face, and shook her little hand and said, "Actually, what I want to say is very simple. I just want to ask Mu Xin about you."

Li Yun paused and smiled slightly: "How did you like me in the first place?"

"Hehe, they are also about to ask Brother Li Yun this question."

Su Muxin hugged Li Yun's arm tightly, tilted her head to look at him, and said, "It's actually very simple. Brother Li Yun is so handsome..."

"No." Li Yun shook his head, "It was you who liked me first, and then you saw my photos."

"Oh? Is that so? I thought I was attracted by Li Yun's handsome appearance~"

Su Muxin was full of happiness, "However, Brother Li Yun is already very powerful. When the hacking software was launched at that time, my dad was surprised and wanted to recruit Brother Li Yun~!"

Chapter 2104: Wong Ting Hill Road

Su Muxin's nickname in the hacker circle is Little Chili, or to be precise, Red Chili.

Because of her background, she started to get in touch with computer knowledge at a very young age, and she also received guidance from top security experts. She has a great skill in the field of hackers, and she is not too small.

And because her father's Nantian Company is acting as an agent for a certain dungeon adventure game, Su Muxin hates the external link!

Therefore, after Li Yun launched the "Pioneer Strike" software to prevent and kill plug-ins, Su Muxin began to admire him infinitely. This is something that many security experts in Nantian Technology could not solve, but it was directly wiped out by a piece of software. All the plug-ins on the market!

Then, Su Muxin inquired about something shocking:

The author of Pioneer Strike is actually a senior high school student!

One year younger than her!

"So, a certain bright red pepper worships me very much?" Li Yun raised his eyebrows, feeling a little proud.

"Hee hee~"

Su Muxin blushed and didn't answer directly, she just hugged his arm and acted like a baby, saying what Brother Li Yun is the most handsome, Brother Li Yun is the most powerful, and so on.

The girl's body was soft against him, making Li Yun quite enjoyable, and she lowered her head and kissed her smooth forehead.

"Well, no~"

Su Muxin covered her small mouth and said with a chuckle: "My first kiss has been kept for many years. Brother Li Yun hasn't come to see him for so long. I can't hand it over unexplainably, at least I'll see you... hee hee ~"

The girl ran forward happily, leaving behind a string of laughter like silver bells.

Li Yun naturally chose to catch up. In Su Muxin's small scream, he held her slender waist and kissed her on the cheek fiercely from behind, and said in a vague tone:

"You have to meet your father-in-law and brother-in-law before you can kiss?"

"...Um~~"

Being hugged by him, Su Muxin's body was limp. Brother Li Yun's hug was more exciting than she had imagined countless times in the night, and it was even more blissful, making her feel like a soft candy about to melt away.

The two kissed for a while before Su Muxin blushed and pushed Li Yun away, "Hurry up, Brother Li Yun, parents are waiting anxiously, you, if you want to do anything, wait, wait... you can stay overnight tonight! "

The bold words made this little chili really turn into a bright red chili, and a little face was blushing with shame.

"Oh? Can't wait then? I thought I was going to travel again..."

"People wanted to give brother Li Yun benefits, but my husband didn't appreciate it at all and ignored you~ Humph."

Su Muxin ran forward happily, and the two of them walked up the mountain road of Huangting Mountain. About ten minutes later, they saw the No. 6 castle of the Su family.

Sure enough, it is a combination of Chinese and Western styles. A large mansion is located near the top of the mountain, where you can clearly overlook the beautiful scenery of Zhonghai City in the distance.

Li Yun glanced roughly, and Su's No. 6 castle was indeed much larger than No. 36, just like a mountain villa, with green grass on the ground, blooming flowers, and rockery pavilion. He even saw a small area behind the castle. Fruit forest.

"Ding, trigger the option event, please choose from the host:

Option 1: Go with Su Muxin to meet her parents, get her family's approval, reward experience value + 5 million, free attribute points + 2000, four medium-sized medicinal pills*4, golden gift bag*3, additional reward: to be determined. After the completion, it can be recognized by the Su family, which will be helpful to the globalization of Baiyun Technology in the future.

Option 2: Reject, wait until later, no reward.

Choice 3: Show your own strength, suppress with the wind of the king, make the Su family compelled to agree, reward: evil value 10,000, colorful gift bag*1. "

Chapter 2105: dowry

The system prompts the selection event, which is a free gift for Li Yun, and there is no option to entangle, choose the third...no, choose the first one and you're done.

Li Yun looked at the cheerful Su Muxin in front of him, dumbfounded. He really wanted to overwhelm the Su family with his strength. The scene must be very exciting.

The Su family, with a net worth of hundreds of billions, holds the top ten Nantian Technology in the world by market value, and can be conquered with strength. Apart from him, Li Yun, few in the world can do it.

"Let's go, Brother Li Yun, parents are waiting in the hall!"

Su Muxin took Li Yun by the hand and walked into the castle. There was already a small scooter waiting at the gate. The two of them sat in and drove through the garden in front of the castle to the main castle.

This is a building that combines Chinese and Western styles. The red glazed tiles are built into a spire. It looks a bit nondescript at first glance. But when you look closely, it has a unique beauty. It doesn't look like a real building, but like those in the fantasy world of the game. Castle!

"Is it pretty?" Su Muxin showed a reserved smile, "Brother Li Yun will marry me in the future, this is ours~"

"what?"

"dowry!"

Su Muxin was so proud, like a little princess, that she led Li Yun into the castle, her movements didn't look like a hot chili pepper at all, she was reserved like Princess Yongning.

dowry?

Li Yun suddenly realized that it was probably because the Su family was not from Zhonghai City. Su Muxin's hometown was in Zhendong City. So in the future, her brother Su Mufeng will inherit the family of Zhendong City, and Su Muxin will inherit the industry from Zhonghai City.

Including this multi-billion-dollar luxury castle on Huangting Mountain!

"Li Yun!"

Entering the magnificent hall, three people greeted him. One of them was Su Mufeng, who had met Li Yun, who was Su Muxin's older brother.

The other two middle-aged couples should be Su Muxin's father and mother, Su Tengyun and Chen Danting.

Li Yun smiled and stretched out his hand towards Su Mufeng, "What should I call you now? Brother-in-law, or...?"

"screw you!"

Su Mufeng punched Li Yun and scolded with a smile: "You really eat my sister? The last time I saw you there was... uh." Last time he went to Longyang County with his sister and saw Li Yun next to him. There is already a beautiful girl following, knowing about the beauty of this guy.

Li Yun smiled, and nodded to Su Tengyun, "Uncle, aunt, kid Li Yun, I have seen two elders!"

Chen Danting showed a gentle smile, with the temperament of a rich wife.

And Su Tengyun, the Confucian businessman, often appears in major news, and the super boss who has affected more than one billion people in Huang Xuanguo has a flat expression, no disgust, no closeness, a faint hum, with his eyes. Looking up and down at Li Yun without concealment.

"It looks pretty good, and the temperament is okay. It's not as arrogant as those who suddenly get rich. They insist on shortcomings, just..."

"What nonsense!"

Chen Danting took her husband's hand, and said in an anguish: "Li Yun is now a business man, and his achievements now are comparable to yours. In the future, he will definitely be even more powerful than you. Do you still have the face to criticize others?"

"Why can't I point fingers at him?" Su Tengyun said with a loud voice, staring at him, "The market value of the company I founded is three times his, and it is his elder, why can't I say it?"

"Okay, okay, knowing that your company is about to be overtaken by younger generations, the pressure is great."

"Who said that even if Baiyun Technology wants to surpass my Nantian Company, at least one or two years later!"

Chapter 2106: Just make money

Su Tengyun and his wife quarreled with each other, Li Yun couldn't laugh or cry.

He didn't expect that Su Tengyun, who was elegant and modest in the news and never angry, would also "quarrel" with his wife in private.

"Okay, you don't feel ashamed in front of Li Yun."

Chen Danting looked at Li Yun and showed the kind smile of a lady: "Here Li Yun, let's go to the living room and sit down together and have a good chat. My family has been talking about your company for a long time and wanted to invest several times. , They were all rejected by Zhonghai City."

Su Muxin proudly said: "I have already invested in your daughter. Naturally, dad, you can't invest anymore~! Hehe~"

Now Baiyun Technology has become Huang Xuanguo's top enterprise. Many things cannot be decided by Li Yun or Wu Ke. For example, in investment matters, a board of directors must be held every time they raise funds. People participate.

Of course, Li Yun still reserves many rights. For example, in cooperation with certain companies, Li Yun only needs a phone call to tell Wu Ke. In addition, he also has absolute rights on what products to release and where to study.

Only when it comes to transactions with foreign countries, the national interests need to be considered and consultations between various departments are required.

During the negotiation process, because of Li Yun's status, he also has a lot of right to speak, but most of the time Li Yun delegated the power to Wu Ke and let him talk.

"In a sense, I only use Baiyun Technology as a money-making tool, as long as I have money to make money!"

After everyone sat down, Li Yun briefly talked about the current situation of Baiyun Technology and made a summary.

There is no ambition to say this, but Li Yun has the system, and he carries a fairy mansion with countless elixirs in his hand. If he opens a red envelope, he will reward tens of billions. A mere Baiyun Technology is naturally not in his eyes.

"Making money tool?"

Su Tengyun shook his head with a sigh, "One of your money-making tools is disrupting the global automobile industry and the mobile phone industry. The announcement of the new lithium battery released has made everyone in many industries endanger themselves and sent people crazy. Zhonghai City will discuss cooperation with your company and strive to use the first batch of ultra-compressed lithium batteries!"

Ten times smaller in size and ten times more battery power. What is this concept?

The relevant practitioners can see the energy contained in this thing at a glance!

This is a huge force that can overturn all industries such as furniture, automobiles, military industry, medical care, education, and mobile phones!

The manifestation in business is that I can have none, but you absolutely can't have it!

This means that once a company in a certain industry obtains a new type of lithium battery, then this company has the ability to monopolize the market!

Therefore, as soon as the news of the new lithium battery was released, countless business elites have rushed to Baiyun Technology in Zhonghai City to prepare to take down the first batch of manufactured batteries.

Even if you can't get it, stop your competitors from getting it!

This is simply a life-and-death battle, Baiyun Technology, located in the center of the whirlpool, stays still, just open your pockets to collect money!

"Hahaha." Li Yun laughed and surprised Su Tengyun: "Is the new type of lithium battery fake?"

"Uh."

Li Yun touched his nose, "Lithium batteries are not fake, but it will be at least three months before the actual mass production. It's early. I don't know why those people are so anxious."

"Three months? It's still early?!" Su Mufeng looked at him exaggeratedly, "Three months is simply life and death per hour, let alone three months, even if you say that mass production is only a year, the subversion of the industry is also very exaggerated. !"

Chapter 2107: disclose

Su Muxin snickered while covering her mouth, Li Yun said embarrassingly: "I don't understand business matters. Personally, I think three months is a long time."

In the first half year, he has experienced too many things. Just fighting did not know how many times happened. The incidents encountered were more bizarre. The monsters and monsters popped out one by one. Even the little princess 400 years ago became his golden house. The things are enough to show how amazing the past six months have been.

Su Tengyun looked weird, "Several technologies that can change the world were made in less than half a year. Li Yun, I'm afraid you didn't develop these technologies yourself?"

As soon as the voice fell, everyone looked at Li Yun.

As long as you are not a fool, you can probably guess that the technology launched by Baiyun Technology is not self-developed, but is obtained from somewhere!

After all, anyone who has done research knows that the time required for a technology from the beginning of research to the actual launch of the market is often several years.

For example, the recent big fire 5G technology has been developed in the laboratory for ten years, and it is only now in commercial use.

Therefore, several technologies of Baiyun Technology cannot be developed by itself!

"That's Brother Li Yun's too!" Su Muxin took the initiative to speak for Li Yun, "No matter where it came from, it is now Brother Li Yun's thing, and it is also the technology of our Huang Xuanguo, right?"

Li Yun laughed and said: "When I decided to take out the technology, I knew that I couldn't hide it. However, I don't intend to explain the origin of these technologies. You can treat them as if they were obtained from the ancient fairy cave!"

Su Tengyun glanced at each other, this answer was in their expectation.

There is a high probability that Li Yun will not reveal the origin of the technology. This is his trump card. It is only the ancient immortal cave mansion, but it is stranger than the alien technology they expected.

"Could it be that our earth has actually experienced several civilized ages? It's just that they are all extinct?" Su Mufeng exclaimed his conjecture in awe.

There is an archaeological study that says that human beings have gone through five times of civilization on the earth. The most recent one was hundreds of thousands of years ago, and it was extinct about 10,000 years ago.

Only the pyramids and other wonderful buildings that cannot be explained by science are left for future generations to pay their respects.

Li Yun smiled without saying a word. Fortunately, there are six sects and hidden sacred valleys, and many incomprehensible things can be pushed to him.

Don't ask, ask is Xianshu, ask is Ancient Immortal Mansion!

"Then Li Yun..." Su Tengyun pondered for a moment, "Which direction will you develop in the future? Is it to release more technology and try to promote Huang Xuanguo to become the world's top power, or to let it go, play life."

"I don't have that much thrust." Li Yun spread his hands together.

Su Tengyun took a deep look at him and said confidently: "You have!"

"Uh."

Li Yun smiled bitterly, he just wanted to be lazy, let him put aside a group of beautiful, cute, big-chested girls and go to work hard to serve the country. Li Yun really does not have such a high level of consciousness!

"I'll talk about the future. But, uncle, you know what happened at the auction three months ago, don't you?"

When the topic changed, Li Yun asked Su Tengyun.

"Yes."

The chairman of Nantian Technology, Su Tengyun, a business giant with a wealth of hundreds of billions, frowned slightly: "But I don't know much. I only know that something beyond ordinary people's understanding has happened. Do you know Li Yun?"

"Hey, I," Li Yun pointed to himself, "I was one of the protagonists!"

"what!"

Chapter 2108: Everyone has an elixir

Several people were surprised, but Su Muxin got excited, and she came to hug Li Yun's arm and acted like a coquettish. She really wanted to hear about the heroic and handsome deeds of Li Yun's brother!

The intimate movements of the two made the three of Su Tengyun's family frown, and it was true that the women's college did not stay!

"I'll say it again without personal emotions. You can judge for yourself how to do it."

Li Yun recounted the original incident, and when he said that he had acted in the middle, he only narrated in a plain tone, without any boasting meaning.

The four members of the Su family heard their eyes widening and widening. The pill to restore youth instantly, and the thunder that crashed down, gave them a great shock. If it were not for Li Yun to sit in front of them, Su Tengyun would be sure I think this guy is lying to the little girl!

"Let's show you something."

After Li Yun finished speaking, without asking them to think too much, he directly evoked a mass of fierce flames and showed them in front of the Su family.

"what!"

The two maids who were standing not far away screamed in shock, staring at the flame in Li Yun's hand in horror.

Nearby, Su Tengyun calmed down instead, looking at the faint blue fireworks in the palm of the "pro-son-in-law" with sharp eyes, and sighed with emotion after he was sure that this was not a magic trick.

"How about it?"

Li Yun retracted the flame and smiled at them.

Then, the little pepper Su Muxin screamed and fell onto the sofa.

"Wow ah ah ah ah, so amazing, so amazing, so amazing, brother Li Yun, you are so amazing! What is this? Is it a spell? So the spell is so amazing! Oh, I really want to learn it, I really want to learn it. Brother Li Yun should also learn spells, okay? Otherwise, brother Li Yun, you can live for hundreds of years, and you will be old and degenerate before the age of fifty, so miserable~"

The girl's soft body was constantly rubbing against Li Yun's arms coquettishly. The tender voice and the soft body fragrance of the girl could turn the hard steel into softness.

"Ahem, okay, don't move!"

Li Yun hurriedly hugged the little pepper aside, and then rubbed it down to decide what chemical reaction would happen.

Then, Li Yun directly took out a few pills and gave four of the Su family four pills: a medium-sized pill for building foundation, a pill for detoxification, a pill for recovery, and a pill for skin care and beauty.

Action is more convincing than any words!

"Really an elixir?!"

Holding the pill, Su Muxin was so pleasantly surprised that she kissed Li Yun's cheek directly, and then she couldn't wait to eat it.

She is not greedy for the power of "Elixir", but believes in Brother Li Yun~.

At the entrance of the pill, Su Muxin felt a warm force rolling from the throat to the esophagus, reaching the stomach, and in a flash, it flowed all over the limbs, and she could not help but grunt, her forehead was very comfortable. It was almost covered with sweat, like running three kilometers.

"The monkey is anxious."

Li Yun couldn't laugh or cry and knocked on Su Muxin's small head, and explained: "These pills are just for conditioning your body and restoring your body to the healthiest state. By the way, it can make your skin white, tight, hydrated and smooth. It was the same when you were twenty!"

Chen Danting's eyes lit up, no woman can refuse this kind of pill. For a woman, it is completely an elixir!

So, she couldn't wait to eat, and soon experienced the same feeling as her daughter, sweating.

Li Yun couldn't laugh or cry, and quickly let the two of them go upstairs to wait for the effect of the medicine to end, and change their clothes by the way.

—He didn't talk about taking a bath. After all, it was to his mother-in-law. However, the first time he took a detoxification pill, the body would expel toxins from the body, and Li Yun needless to say that they would also take a bath.

Chapter 2109: Variety

After all four of them had taken the pill, the tossing was over at four o'clock in the afternoon, and it was only more than half an hour before Li Feng came up.

"So cool!"

Li Yun was sitting leisurely in the living room on the second floor of Su Muxin's house. He heard his brother-in-law's cheerful yelling from a distance. Then, a figure rushed in quickly, and slapped Li Yun on his shoulder!

"Good brother-in-law, hehe, I'm in the acquired world!" Su Mufeng made a fist gesture and showed off to the newly admitted brother-in-law.

"felt it."

Li Yun patted his shoulder indifferently with his hand, as if he was an expert from outside the world, "That's how it is for the acquired realm. It is initially out of the level of cannon fodder, reaching the level of a small soldier!"

"...Can you give me some face?"

Su Mufeng's excited expression froze.

He had also studied martial arts for a while, but he couldn't hold many bullets in his innate state, and he really didn't have any talent, so he quickly chose to give up, focus on studying business, and exercise his body every day.

But now, with a few pills of Li Yun, let him directly break through to the acquired realm, and his strength suddenly increased, coupled with the acquired true energy, so that Su Mufeng was so excited.

Then came another good news, Su Muxin also reached the acquired stage!

After the girl rushed down, she hugged Li Yun happily, and she was more excited than her brother.

"It's not too surprising." Li Yun smiled and said to the two of them: "You have been pampered and have good physical fitness. It is very simple to break through the acquired realm under the activation of the pill that I gave you."

"Then...good brother-in-law, don't have any other medicines?" Su Mufeng, the rich and noble son, is cheeky to please, "We can directly break through the innate and become powerful masters!"

"have!"

"Really?" x2

"I won't give it to you either."

The expressions of the two froze, making Li Yun laughed loudly, "Don't think too much, do you two rich and powerful young ladies still want to fight? Moreover, the pill is extremely precious."

Su Mufeng was startled, "How expensive is it? 1 billion?"

"1000000000?"

Li Yun shook his head, "Don't even want to buy hundreds of millions of dollars, and you can't buy them. Unless by chance, ordinary people may get some artifacts and medicines with spells in the hands of cultivators. A jade pendant was exchanged for a house worth several billions of the Republic of China. If someone wanted to change it later, she won't change it.

Talking about the Sanctuary of Brahma.

Su Mufeng calmed down and cast a grateful look at Li Yun.

"So, Brother Li Yun is so nice~, much better than my brother, huh~"

Su Muxin's words made Su Mufeng want to cry without tears. If you dare to have a husband, you don't want your brother?

When Su Tengyun and his wife came down, the five of them sat down and chatted again.

"Returning to the pill matter."

Li Yun took out ten more medicinal pills one size smaller and put them in a small bottle and pushed them to Su Tengyun: "These medicinal pills are slightly less effective than the previous ones, but they can basically cure hidden diseases and restore health. Effect."

Su Tengyun was a little excited. He had personally experienced the effect of this pill. It restored his physical strength and spirit to the level of his youth, and the faint wrinkles on his face disappeared directly, and the effect was as good as the sky.

"What I want to say is," Li Yun's eyes were flat, "If no surprises, this is the last medicine I will give to your father-in-law and mother-in-law. In the future, if you are finished delivering people and someone comes to you to ask for it, I will never I will give it again!"

Chapter 2110: bride price

Su Tengyun's expression was solemn, and his wife Chen Danting asked: "Li Yun, this kind of pill is very precious, isn't it?"

"A market is priceless."

Li Yun smiled indifferently, "Even if the other party's backing is bigger, no matter how much money he pays, one billion, tens of billions, hundreds of billions, as long as I see him not pleasing to my eyes, I will never come up with any medicine!"

"I understand!" Su Tengyun nodded, reaching out to accept the pill.

"I hope you really understand, father-in-law."

Li Yun shrugged, "Don't be time for you to deliver the pill. If someone asks for it, you will not be able to get it out. Instead, you will offend the other party. Remember, there are only so many of these pill, which are non-renewable resources!"

Speaking a little more focused, he really didn't want to be annoyed by these troubles in the future, and even though he still had nearly a thousand pill, there were many people who couldn't stand the pill around him.

Whether it is Black Feather Butterfly, Princess Yongning, and the cute little fox, they are all big drug users.

"Relax, I already know the value of these pills!"

Su Tengyun nodded solemnly, "I will use every pill with caution, and I will never tell outsiders that the pill comes from Li Yun!"

"Father-in-law, you just have to have this consciousness."

Li Yun nodded in satisfaction. He is now more and more like a pill boy, but there is no way, who can make these pills work so good that everyone around him can be free from physical diseases.

Compared to these, Li Yun is nothing troublesome.

"Husband brother~" Su Muxin was next to Li Yun, with her arms around his arm, and asked curiously: "Can we cultivate immortals in the future? Also, will lifespan be longer? If you live forever, will it bring A lot of trouble, violating the natural rules of birth, old age, sickness and death..."

Little Pepper is not afraid of the sky, but she is still a little worried about these new areas.

"The rules of nature?"

Li Yun smiled and said: "People have violated the rules of nature while they are alive. As for other things, I can only say that I don't know."

"Uh, okay, hee hee~"

Su Muxin said embarrassedly in a low voice: "If we all live a long life, mom, dad, brother, and... you, it would be nice if we could always be like this."

Li Yun's heart trembled. Did Xiao Jiao think about the long-lasting things?

"You!" Chen Danting saw through her daughter's mind, and clicked her forehead amusingly: "I think you girl wants your dad to work all the time. You play foolishly every day. You don't want to inherit the industry. It's better to let her You have never grown up, have you?"

"Hee hee hee, it's not that my mother wronged me~"

Su Muxin started selling cute and shameless, she was already a freshman, but Li Yun felt that she was sometimes naive than Hu Xiaomeng...In other words, Hu Xiaomeng was not naive at all, that little girl was the real vixen.

At this point, after receiving the acknowledgment of Su Tengyun and Su Mufeng's brother-in-law, Li Yun and Su Muxin basically determined the relationship between the unmarried couple, and only waited for Li Feng to come up for a while, and then meet them again.

The elder brother is like a father, and the eldest sister is like a mother. When there are no elders in the family, Li Feng can be counted as an elder in front of him.

In fact, most of the time, the man goes to the woman's home first, and after confirmation, we meet again in turn, and the marriage relationship can basically be confirmed.

Of course, I'll talk about the wedding ceremony later, and the same is true for Fang Xue.
