

Godly Choice 211

Chapter 211: Thousands of people and thousands of faces

"I don't know how high the earth is, do you mean me?"

Li Yun walked out calmly, scolding his mother in his heart.

He shouldn't question the system. This Concubine Wan Qing really comes from an extraordinary origin. No wonder the system keeps triggering events for him.

Moreover, Li Yun strongly suspected that she was a natural master, otherwise it would be impossible to find his traces so easily!

The men were taken aback for a moment, and they didn't expect Li Yun to follow.

"What do you mean?" Concubine Wan Qing's smile was very clear, no longer the appearance of a woman in the dust, but Li Yun felt a surge of invisible pressure.

This woman is definitely not simple!

Even her face is easy to tolerate!

wrong!

Li Yun thought of another thing, "Are you really the Flying Sword Fairy of the Sword Evil Sect?"

Sword Evil Sect Li Yun knew that it was one of the eight evil sects in the rivers and lakes, and its behavior was even more weird than Lie Demon Sect. The disciple of the Sect Sect had extremely high sword skills.

Although Li Yun is very unfamiliar with the name Feijian Fairy, after contacting Concubine Wan Qing's performance before and after, he can tell that the current Concubine Wan Qing, except for the name given by the system, everything else is fake!

"Oh!" Concubine Wan Qing suddenly realized, clapping her hands and laughing: "So you are not a member of the rivers and lakes, no wonder you don't know the name of my little witch Xue Qianqian!"

Lie Demon Gate, Little Witch Xue Qianqian?

Three black lines appeared on Li Yun's forehead. There is really nothing to believe in this concubine Wan Qing!

Moreover, his mind was extremely careful, he deliberately reported the name of Fairy Feijian, to put out the fact that Li Yun was not an ancient warrior who was not an ancient warrior, and he lied one after another.

"Mouth of nonsense." Li Yun ignored her, turned his head and shouted at the four men: "If you don't want to die, get out of here!"

The four of them were taken aback by the conversation between Li Yun and Concubine Wan Qing, Little Witch, Fairy Flying Sword, and any school they had never heard of.

"Grass! Boy, you are very arrogant! Think you are making a movie?"

A thin man stood up, looked at Li Yun with his chin, and said arrogantly: "I came out to play with the young lady today, but you are not funny, I don't mind educating you... you!"

"boom!"

Li Yun became impatient when he heard it, so he flew out and kicked him, falling to the ground and screaming in pain.

The three of them were taken aback, and before they could reflect, Li Yun rushed over with three punches and kicked them to clean them all up.

"Get off." Li Yun kicked the person next to him, his expression indifferent, but secretly guarded the actions of Concubine Wan Qing.

The four men scrambled to the exit of the alley before daring to turn around and threatened a few viciously.

"Hehehe~, it's funny."

Concubine Wan Qing laughed again, her beautiful eyes narrowed slightly, revealing a trace of murderous intent: "You should be fortunate, without this ignorant boy, you have turned into thick water now!"

A cool breeze blew, and several big men were trembling with fright by Concubine Wan Qing's words. This time they were really crawling around, and they didn't dare to say a word and rolled away.

Only Li Yun and Wan Qing concubine remained in the alley.

Neither of them moved. Li Yun stood silently for a while, looking at the small advertisement on the wall.

"What's wrong? Little handsome guy~?"

Concubine Wan Qing returned to the tone and temperament of holding a dusty woman again, and came to Li Yun frivolously, and raised Li Yun's chin with her slender fingers, with a faint smile at the corner of her mouth: "Could it be that you still want to spend time with my sister? Good night?"

Chapter 212: A soft sword

Li Yun patted Feiwan Qing Concubine's hand, glanced at her coldly, and walked out without a word.

He can't make it to be with this kind of woman who doesn't know the roots, he's not tired of life yet.

Moreover, how old this concubine Wan Qing looks like is still a mystery.

"Hey? Little handsome guy, how did you go?" Consort Wan Qing smiled behind her back.

"Different road non-phase plan."

Li Yun threw a word and was about to leave, but suddenly came into contact with a piece of cold metal behind his neck.

It is a soft sword.

"Little handsome guy, can you tell me the purpose of your coming here?" The breath exhaled from Concubine Wan Qing's mouth rushed to Li Yun's ears, and an elegant sweet scent hit Li Yun's nose. It was fragrant and powerful, and it could strongly hook Raise the flame in the human body.

"Don't point your sword at me."

Li Yun smiled faintly, flicked his fingers, and bounced away the soft sword that was resting on his neck.

"The purpose of my coming here is very simple. It is to teach those turtles a meal. By the way, the hero saves the United States and has no other purpose.

"If you don't believe it, just turn your face away."

He didn't look back during the whole process, and after dropping two sentences, he just walked away.

Concubine Wan Qing's face changed slightly, but she soon calmed down and shouted at Li Yun with a delicate voice: "Little handsome guy, I am sorry for you. Sorry, if we meet next time, I will invite you to play with sister again for free! Hehe, don't expect too much~"

Li Yun: "..."

This woman is really annoying.

"Ding, the host makes a choice, and the rewards (justice value +30, experience points +1 million, random gift bag*3, Wan Qing concubine favorability score 20, and additional rewards Wan Qing concubine favor favorability + 10) have been issued!"

Li Yun was a little surprised, and he didn't think that Concubine Wan Qing's favorability for him had risen to 30.

However, the average person's favorability score is 50, and even the Fanqing Sheng and Gong Qingyu, who have not met Li Yun, have a favorability score of 60 for Li Yun.

Wait, Fan Qing Sheng, Wan Qing concubine, will these two people have any connection?

So far, Li Yun still doesn't know who the Sage Fanqing is, only that he should be a majestic beauty with a noble birth and a peerless appearance.

"Forget it, I'll talk about it later."

Li Yun walked out of the alley, and behind him came the shout of Concubine Wan Qing: "Hey, handsome boy, I don't know your name yet!"

"Muzili, single name Yun."

"Li Yun? Hee hee, my elder sister remembered it, and the handsome boy also remembered her sister's name: Wan~Qing~Concubine~~!"

She said her name incomparably dark, and she said it in a completely different, seductive voice from before.

Li Yun waved back and walked away without looking back.

Concubine Wan Qing stood for a long time before stomping her feet bitterly, and hummed: "This person is really...not witty at all! He is also a hero to save the United States, do I want you to save Concubine Wan Qing?"

She touched her face wearing a human skin mask, only to realize some heat on her face, and after a long period of confusion, her eyes returned to the indifference of the past.

With such a background, she can only be treated sincerely when she hides her identity.

Otherwise, the people of the world could not wait to kill her as soon as they meet, and there is no room for maneuver.

...

Mingyu Building.

A security guard looked at the reporters carrying cameras coming and going, and some well-known people in the IT circle who were invited to participate in the press conference. He couldn't help but sigh with emotion:

"How long has the Mingyue Building been so lively? This Baiyun Technology Company is powerful, and a product launch event has made such a big noise!"

Chapter 213: Classical Beauty Palace Qingyu

Yes, these reporters carrying cameras, and many elites in suits and shoes, are all coming for the vanguard attack that Baiyun Technology will release soon!

"This Baiyun technology is really amazing!" Another security guard said with a look of yearning: "I deliberately went to understand this company, only to find that their president was the technical boss of Nantian Technology Group before, and a big man who is very good at it. I thought of renting a place to work in a small place like ours!"

Although Mingyu Building has forty or fifty floors, in Zhonghai City, Mingyue Building can only be regarded as a middle-lower one, and cannot support a large company at all.

"Hey, did you see it? These young students are from the foreign language middle school next door."

A security guard looked at the group of young students enviously, each of them with their heads high and their chests upright, with extraordinary temperament and decent manners. At first sight, they came from a wealthy family.

"Why are they here too?"

"I heard that the students from the Foreign Language Middle School are now on the bar with Li Yun and must regain the second place in the mock exam, so let's take a look at Li Yun's true face today!"

"I'm going, there's a lot of fun here!"

Several security guards whispered, but soon, they all looked at a top luxury car coming by the road in amazement.

"Nima's, this car shouldn't be a BMW M960?" A security guard who has researched luxury cars exclaimed.

Another security guard forcedly said: "It is indeed a BMW, and it is a model that has not been seen before. Looking at the luxurious appearance...It is estimated that it will not be less than 5 million, right?"

"Are you stupid? This is the **** BMW M960, which is limited to ten in the world. Each is priced at a high price. No, it should be said that it is not sold at all. It is only provided to some of the top giants in the world. Custom made!"

"...My Cao!"

All the security guards and everyone around took a breath.

"Then..." One person swallowed, his eyes eagerly looking at the stopped BMW luxury car, "How much is this M960 worth?"

"How much is it worth? I guess if I resell it, I guess I can buy a private jet!"

private plane!

Everyone was silent, not to mention that private jets cost hundreds of millions of dollars. Those who can afford private jets are those who have a huge impact and can handle all kinds of flight procedures.

But now, a BMW can actually be comparable to a private jet, which is far beyond their imagination!

"Miss, here it is."

The 100 million BMW car stopped, and four or five black bodyguards walked down two cars one after the other. They opened the door respectfully and asked the lady sitting in the BMW to get off.

Everyone held their breath. Inside the BMW, is a noble lady from a wealthy family?

In an instant, everyone had infinite reveries about the person still in the car, and their eyes widened, waiting for the beauty to appear.

In the eye-catching, the first step out of the car door was the foot of a girl wearing high-heeled sandals.

The crystal clear, white and delicate soles and five toes are as delicate as beautiful gems. From this foot alone, everyone can feel how beautiful this beautiful wealthy daughter is.

From the inside of the BMW, a beautiful girl with a quiet, elegant and virtuous temperament walked out.

At this moment, everyone seemed to forget their breath and was shocked by her beauty!

"Qingyu!"

At this moment, a handsomely dressed boy came over with a smile on his face, and Weiwei treated her with a gentleman's courtesy, and said gracefully: "Many of our classmates are here. I didn't think you were right. Are you interested in this?"

The classical beauty in a pure white dress is Gong Qingyu!

Chapter 214: Three No Girls

Many students from the special class of the Foreign Language Middle School came, including mathematics genius Fang Hao and the enchanting genius Gong Qingyu.

The former won the gold medal in the Olympus Mathematical Competition and has been sent to a well-known university abroad.

The latter is usually the bottom of the exam, but everyone knows that Gong Qingyu has the first place, and no one can surpass her strength.

But last time, Gong Qingyu played seriously, but only scored 748 points in the test, which was beaten by 1 point by Li Yun's 749!

Therefore, the foreign language middle school students were unconvinced with Li Yun. After learning that the product launch conference of Baiyun Technology Company was about to be held here in Mingyu Building, many people came to the school to watch.

This guy's company opened to the foreign language school, isn't it just to provoke them!

"Um."

Gong Qingyu faintly replied, and did not look at him more. He walked into the building with a big backpack. Behind him were two young girls who seemed to have served her since childhood.

Fang Hao looked at this classical beauty with fiery eyes. In his eyes, Gong Qingyu was a flawless existence. Whether it was his family history, looks, or his own talent, it was enough to make him yearning.

Although Gong Qingyu's personality is a bit cold, but the goddess, if there is no personality, you would not be called a goddess!

On the first day that Gong Qingyu was transferred, Fang Hao swore in his heart that he must get Gong Qingyu!

However, it is a pity that Gong Qingyu has been transferred to another school for two years, and his time in school is only one-third of that of ordinary classmates. The rest of the time is in the state of seeing the dragon without seeing the end. Fang Hao has been dedicated to him, but Gong Qingyu treated him completely. It's not fake, just like ordinary classmates.

On the contrary, after losing to Li Yun, Gong Qingyu had more time to study at the school, and he also put down his paintbrush and prepared for the second mock exam with all his strength.

"Qingyu, wait for me, I know the location of the press conference, let me take you there!"

Fang Hao chased after her passionately on his face.

Several security guards recovered from the shock of seeing the goddess. Seeing Fang Hao like this, they all showed a playful expression.

"This boy is the so-called dog licking?"

"It's good to lick a dog. It's strange that there are not many goddesses who lick a dog!"

"What I mean is, those of us who want to lick are unqualified, the girl who was called Qingyu just now, the thief is beautiful!"

"The goddess is not only beautiful, but also has a cold personality, and there is still money in the family.

Long after Gong Qingyu left, the topic of these security guards still revolved around her, where the goddess was the focus.

And Gong Qingyu, who was discussed by them, had no other expressions on her beautiful face and remained calm.

Several female classmates who had a good relationship with her were not surprised at this. In their impression, Gong Qingyu's two years in school, rarely, or even never experienced fluctuations in expression.

No laugh, no cry, no sadness, no joy.

In a fashionable phrase, Gong Qingyu is a girl with no mouth, no heart, and no expression.

But Gong Qingyu today is very different from the past.

Not only did she put on a gorgeous, formal dress, she also dressed up a little, combed her hair neatly, and painted her lips with a light lip gloss, making her even more amazing.

In the past, Gong Qingyu, although her appearance was not too messy, she usually didn't care too much about her appearance, and occasionally her hair was messy, like rushing to school just after waking up, resulting in no time to dress up.

Chapter 215: Compare with me

Just imagine, how can a person who feels like a waste of time even taking exams spend time dressing himself up?

Therefore, all of her classmates were extremely surprised by Gong Qingyu's dressing up today.

Is it because Li Yun and Gong Qingyu dressed up like this? ?

"hateful!"

Fang Hao clenched his fists and hated him in his heart. He didn't expect Li Yun to win Gong Qingyu in the mock exam, and she would get her great attention.

If he had known this earlier, he would definitely play hard in the last exam, and strive to get a perfect score in maths, so that Gong Qingyu was admired!

"Here, miss!"

The elevator stopped, and the two maids of Gong Qingyu whispered, one of them took the lead to walk out and lead the way.

All the miscellaneous things, these two maids were properly arranged, so that Gong Qingyu didn't have to worry about trivial matters at all.

The students in the specialty class were stunned. It was the first time they saw Gong Qingyu's wealthy daughter in full aura.

Elegant, noble, beautiful and dignified.

Against the background of the two maids, Gong Qingyu seemed to have transformed from the weird girl who wrote and painted in the classroom to a well-educated lady who was born in a boudoir compound.

"My god, is this the real giant? There are actually two maids accompanied!"

Someone exclaimed in a low voice, and everyone nodded in agreement.

The students in the specialty class are rich or expensive, and their family assets can be tens of millions. Many people have listed companies in their families, with net worth of tens of billions, and there are no girl servants in the family.

But if you want to follow the two maids at any time by your side, serve in close proximity, and still serve the treatment personally since childhood, the students in the special class have only seen them in TV dramas.

"It is said that only three generations are called nobles. Compared with Qingyu, we are completely upstarts!"

Everyone nodded their heads. Compared with Gong Qingyu, a reclusive wealthy family whose inheritance did not know how many years, they were all upstarts.

After Fang Hao was shocked, his desire for Gong Qingyu became more eager.

To be able to marry Gong Qingyu is definitely 20 years less struggle, no, less struggle for a lifetime!

The resources that Gong Qingyu's family can give, I am afraid that ordinary people will not have it for ten lifetimes.

Arriving on the 30th floor, not far away, everyone saw the location of the press conference in a banquet hall.

A table was erected right in front of the door, a white cloth hung behind the table, and a banner above it: Baiyun Technology Co., Ltd. product launch conference.

At the bottom, there are hundreds of stools, and many reporters have set up cameras.

Simple, extremely simple.

This is the first impression of the special class classmates of this conference.

"This Nima...Is the black cloth used for a projector? It doesn't even have a big screen, so it's a press conference?"

"Silent, my dad and I have been invited to a lot of press conferences, and this is the first time I have seen such a simple one!"

"Spent tens of thousands of dollars? Hahaha!"

"Isn't it claiming to invest a billion? Where did the money go?"

Gong Qingyu turned a deaf ear to the comments of the classmates around him, walked straight through the chairs on both sides, and marched towards the stage.

"Hey? Miss!"

"Miss, where are you going?"

The two maids were taken aback. They wanted to stop but didn't dare to stop. They were trying to find a place for the young lady. They didn't expect that Gong Qingyu's purpose was for Li Yun, and they refused to sit down at all!

"Li Yun, come and compare with me."

Gong Qingyu walked down the stage and looked directly at Li Yun sitting on the stage. The pink, glossy lips opened lightly, and he directly called out his name.

The audience suddenly became quiet.

The two maids smiled bitterly at each other, and the young lady's personality was as always willful as ever.

Chapter 216: Mad little chili

The reporters, the elites of the science and technology circle, and the onlookers were stunned.

They were all dissatisfied with this simple conference, but when they were disappointed, there was a burst of news unexpectedly.

A classical beauty in full dress, compared to Li Yun?

And it was at the press conference of Li Yun's company that he sent a request for a test!

Everyone was stunned. The camera turned the camera screaming, and all focused on Gong Qingyu and Li Yun. No one paid attention to Wu Ke's appearance or Su Muxin's appearance.

"I'm furious!"

Little Chili Pepper Su Muxin stomped her feet with anger. She also put on a passionate long dress today, carefully put on expensive jewelry, and her hair was rolled up high, like a socialite, beautiful and indispensable.

Su Muxin originally thought that while Fang Xue was not here today, she would be able to show off the crowd, make everyone amazed, and support Li Yun and her press conference for a while, but she didn't expect that the limelight was all taken away by Gong Qingyu!

Li Yun was equally dazed.

Originally, he was delayed for a while because of Concubine Wan Qing. After he came to the company, he hurriedly met with the employees and came to the press conference.

Unexpectedly, before the press conference started, a classical beauty suddenly said, want to compete with him?

Than what?

How to compare?

Why compare?

Who is this classical cold beauty?

Li Yun was completely dumbfounded. After a while, he laughed blankly and said to her: "Excuse me, miss, who are you? You just said...?"

"Compare with me."

The classical beauty first emphasized her purpose before introducing her name: "My name is Gong Qingyu. I scored 748 points on the mock test last time."

"Two points less than you." She added a glance at Li Yun.

Gong Qingyu?

Li Yun was stunned again, she turned out to be her.

After the last mock test, the system rewarded him with a 60-point favorability rating for Gong Qingyu. Li Yun has been wondering who this Gong Qingyu is. He did not expect that she was a student of Zhonghai High School.

Because of being defeated, you have a good impression of his new life?

The 60-point favorability score is barely closer than the classmate relationship. When it reaches 70, it can be said to be a good friend relationship.

Li Yun's complexion improved a lot, after all, she was a girl who had a good impression of him, and she was not good to be treated brutally.

"My name is Li Yun." After the name was reported, Li Yun patiently said: "Student Gong Qingyu, I am now preparing to develop the conference. After the end, I will talk to you again.

"Sister Qiu." Gong Qingyu immediately turned his head and asked his personal maid: "What time is it?"

"It's still five minutes to the time of the press conference." Sister Qiu understood the young lady's meaning and immediately reported the time.

Gong Qingyu looked at Li Yun again, meaning very clearly: There are still five minutes before the press conference, enough for me to compare with you!

Li Yun couldn't laugh or cry.

He could see that Gong Qingyu's personality is very strange. If he comes in, he has to compete with him. He doesn't care about the location or occasion. No matter how people around him look at her, Gong Qingyu is a vow to fail to achieve his goal. Don't give up, do whatever you want, without any restriction at all!

Li Yun was very strange. There were two maids standing behind Gong Qingyu, who looked like she was from a big family. Why was she still so weird.

"Ding, trigger the option event, please choose from the host:

Option 1: Accept Gong Qingyu's test and win the game, reward a certain amount of experience, a certain amount of wisdom, reward a random master-level science skill, a certain degree of Gong Qingyu's favorability, and a random purple gift bag*1. "

Chapter 217: I am a master painter

"Choice 2: Reject, reward wisdom +100, skill: shrink head tortoise (passive, increase the thickness of the skin).

Option 3: Reject, and yell at the other party, reward Gong Qingyu with -100 favorability, skill: straight man of steel. "

Li Yun was speechless.

How come there is the reward skill of shrinking the tortoise, and the favorability of -100 is really amazing. From this, it can be seen that Gong Qingyu's personality is very stubborn, and he must do it if he finds it right. If rejected, he will get angry, and The anger is not small.

However, judging from the choices given by the system, it is definitely not easy to win Gong Qingyu.

But will Li Yun be afraid?

Just kidding, he now has 5,000+ university-level full-subject knowledge, wisdom and spirit, how could he be afraid of her!

"Okay, I promise you." Li Yun's mouth twitched, revealing a confident smile.

Li Yun is 1.8 meters tall, looks thin in clothes, has a perfect figure with fleshy undress, and has a sunny and handsome temperament. This smile is even more handsome and charming.

The faces of the two maids behind Gong Qingyu were red, and they lowered their eyes to not look at Li Yun. Some of the girls in the special class also became idiots, and their impression of Li Yun was greatly changed.

Only Gong Qingyu, still expressionless on his face, said, "I will ask a question, and you will answer it."

"Yes, please come out!" Li Yun smiled: "As long as it is a college-level question, I can answer it with confidence!"

Everyone was stunned.

Questions at the university level? Are you sure you are a senior high school student?

The reporters were already excited. They came to this press conference not for the so-called anti-plug-in software pioneer attack, but for Li Yun's 'smashing' remarks!

Now he says that he has mastered all the knowledge at the university level, isn't it another hot search?

As a result, the reporters took pictures and wrote on the spot, and quickly put Li Yun's words on the Internet.

"Nima? All the knowledge in college?"

"Does Xueba all brag like that?"

"Wait for a face fight, classical beauty, I support you!"

"Wonderful, really wonderful! This bragging is more exciting than the press conference, I regret not going to watch it!"

"Ha ha ha, is this a product launch conference or a bragging conference?!"

The mood of the audience was similar to the mood of netizens. They were all in the mood of watching a good show, waiting for Li Yun to make a fool of himself.

Even if he is a full-point genius, he dare not say that every question can be done right, let alone master the university knowledge!

You really want to be so awesome, you have already graduated from university and become a master's student!

"it is good."

Gong Qingyu ignored everyone's strange eyes and didn't care about Li Yun's handsome and charming temperament. She kept calm on her beautiful face. After thinking for three seconds, she opened her backpack and took out the drawing board, paintbrush, paper and other tools inside. .

The students in the specialty class all understand that Gong Qingyu has an unusual obsession with painting, although her talent is actually not very good, far inferior to her talent for learning.

Li Yun was a little surprised, "Student Gong Qingyu, do you want to compare painting with me? But let me tell you the truth, my drawing skills are better than many masters, and you can't compare to mine!"

Everyone was stunned.

They have seen bragging, but they have never seen such bragging as Li Yun!

Are you paralyzed as a senior in high school, your grades are close to full marks, you can write programs, and write songs very well. Now you still say you can paint and are even better than a master painter? !

Why don't you say that you take a breath, the earth's rotation speed will accelerate ten times, only 2.4 hours a day, and the reduced time will make you brag and blow it away!

Chapter 218: Showdown of geniuses (part 1)

Even Li Yun's employees can't stand it anymore.

Not to mention the jokingly called Li Yun as the 'Chairman of Senior Three', Wu Ke also feels speechless at Li Yun's cowhide. This is too much to say!

As a high school student, Li Yun can score full marks, write beautiful songs, and write superb programs.

But if you want to say that you have made achievements in painting, you are more powerful than those master painters, that is pure nonsense!

In history books, there are generals who set off at the age of fifteen, the prime minister who manages hundreds of officials at the age of eight, and the emperor who ascends to the throne at the age of three.

But I have never heard of a genius who became a master painter, calligrapher, and writer at the age of 18!

After all, all artists need age precipitation. The older a person is, the stronger the charm of his works.

So Li Yun's words are definitely bragging.

"..."

Gong Qingyu glanced at him, and he felt that Li Yun was probably talking big. She had just started painting for so long, how could Li Yun be better than her?

In the field, only Su Muxin, who has a liking for Li Yun of 100, believed his words, "Brother Li Yun, I believe in you, come on~~~!"

"Please see."

Gong Qingyu drew a geometric figure on the drawing board with a brush, and showed it in front of Li Yun.

Li Yun understood that Gong Qingyu took the drawing board to draw out the graphics of the subject.

After waiting for three seconds, Gong Qingyu said calmly: "My question is: point A and point B intersect at a point outside the circle, and the line $x^2 + 5y$... Try to prove: the line AC is parallel to the line DG."

Everyone was dumbfounded. They had previously despised Li Yun's bragging, but now they were all blinded when they encountered the high school test questions.

These reporters and elites have not experienced the college entrance examination, but within a year of graduation from college, most of them have to return their high school knowledge to their alma mater. It is impossible to remember at all, let alone know how to solve it.

Only the students in the special class of foreign language middle school took out their mobile phones or paper and pen to try to solve this geometric proof problem.

"First make an auxiliary line and deform the straight line equation to get..."

Compared with them, Fang Hao, a mathematics genius, seemed to be more at ease, almost without thinking, he came up with an understanding idea.

"Make an ellipse."

Just when Fang Hao was so proud and ready to get the final result, Li Yun said, "Take O as the center of the circle and AC as the reference line... It turns out that AC and DG do not intersect."

Everyone looked dumbfounded again.

It took Li Yun only three seconds to reach a conclusion? This Nima is too fast!

Moreover, there is no calculation in the whole process, just stand in place and think for a while to get the answer?

Is it right?

Everyone looked at Gong Qingyu, but saw her nodding blankly.

Fang Hao's expression turned gloomy, Li Yun's method of proof was more concise and clearer than his thoughts, and the method of proof by contradiction gave the answer at once, much faster than his three-step calculation!

"Sequence $\{a_n\}$ (n is greater than or equal to 5), $a_5=2$, $a_8=10$, try to prove that for all positive integers $n>5$..."

As soon as Gong Qingyu's words fell, Li Yun said: "This question is very simple, will an..."

When the two asked and answered, within 20 seconds, Gong Qingyu had already approved Li Yun's answer and continued to ask the next question.

Soon, seven or eight super difficult math problems were solved by Li Yun in the question and answer of the two.

Chapter 219: Showdown of geniuses (part 2)

The banquet hall was deadly quiet, and only Li Yun and Gong Qingyu asked each question and answer, clearly telling everyone that this was a performance occasion for two peerless geniuses.

Each of the questions is more difficult than the other, and the people in the specialty class have completely given up, completely unable to keep up with the thinking of these two people.

They didn't even come up with ideas for solving the next few questions. Li Yun has already stated the steps to understand the questions, the required axioms and theorems, and the final answer.

Ingenious and agile, smart and agile, learn to be rich in five cars...

Li Yun and Gong Qingyu seemed to be telling them what a real genius was like!

"How, how is it possible!"

Fang Hao shed cold sweat, if he didn't know Gong Qingyu's character, if he didn't know that Li Yun couldn't afford Gong Qingyu at all, he even suspected that these two people were doing a show.

How can someone have such a strong computing power in their brains?

It's crazy to be able to get the answer in a flash without using paper or pen!

Three minutes later.

Gong Qingyu took a breath and looked a little tired.

She did not prepare the questions, all the questions were written temporarily, and even she was not sure whether the answers to some questions were correct, because Li Yun accurately pointed out her mistakes. From the point of view of mathematics talent, Li Yun was the one who saw her. The most talented person ever!

But Gong Qingyu has her own pride, she will never give up easily!

"Physics problem?" Gong Qingyu asked in a questioning tone.

"Yes, please."

"There is a small ball rolling in the southeast direction at a constant speed... the coefficient of air friction is 0.3. Find the change in movement where the two **** meet and thereafter.

"..."

Everyone said they were numb, and only the reporters faithfully recorded it with the camera and posted the match between the two enchanting geniuses on the Internet.

"Classical beauty fights Li Yun, chairman of Baiyun Technology?"

"A mock test of 748 points, a mock test of 749 points, a duel of two top talents?"

"To tell the truth, although the chairman of bragging is bragging, his learning talent is really strong!"

"Who knows the origin of that classical beauty? I'm in love with her!"

"Hehe, love it, love it, do you see the two beautiful girls standing behind her? Those are her maids, do you still dare to love it now?"

"The one who loves, do you want to have a key? Three for ten yuan, do you deserve it? What? You don't deserve it!?"

The duel of top geniuses, the bragging chairman of the third year of high school, and the beauty of the wealthy and aristocratic ladies, made this press conference a complete hot search before it officially started.

Five minutes later, netizens saw the final result.

After being unable to defeat Li Yun, Gong Qingyu asked the opponent to ask a question.

As a result, Gong Qingyu thought about the subject of Li Yun for half a minute, but did not come up with an answer, so Li Yun terminated the duel, saying that he would continue the comparison after the press conference was over.

But anyone with a discerning eye can see that Gong Qingyu has lost.

She might be able to do Li Yun's topic, but after too long, she has undoubtedly lost.

"Only two words!"

"This Li Yun is quite powerful. I only understand three questions about the duel."

"666, the three questions are good, I am also a senior in high school, I can't understand any of their questions..."

"Except for Li Yun's bragging habit, his talent is really strong!"

"It's a pity that a classical beauty, she is also very strong, but it is a pity that Li Yun is an all-rounder..."

"I really want to go to see it live, this conference is really exciting!"

Chapter 220: Roar of laughter

"Ding, the host makes a choice, and the reward (experience value + 110,000, wisdom + 750, reward master skills: poetry and song Fu, Gong Qingyu favorability +15, random purple gift bag*1) has been distributed!"

After defeating Gong Qingyu, the system issued a reward, and Li Yun was still satisfied.

It seems that Gong Qingyu belongs to the arrogant genius. Only by defeating her and gaining her approval can she gain favorability.

"Let's start." Li Yun motioned to Wu Ke.

Wu Ke nodded, stepped onto the stage calmly, and said to everyone with a spring breeze: "Welcome everyone to participate in the company's product launch..."

The press conference will be really exciting, and the pseudo live broadcast by the reporters is also very successful, as Li Yun can see from the onlookers who keep coming.

Originally, after the press conference approached, those responsible for maintaining order, such as Qian Hu, had already banned people from entering the venue, but they couldn't hold back the influx of people who wanted to watch the excitement.

As a result, the entire banquet hall was full of people. It is conservatively estimated that there are one or two thousand people, which is a huge crowd.

The employees of Baiyun Technology were so shocked that they couldn't speak. It was the first time they saw such an exaggerated press conference!

After watching the duel between Li Yun and Gong Qingyu, two enchanting geniuses, no one at Baiyun Technology dare to despise Li Yun.

Even if the company cannot develop, Li Yun's talent alone will definitely shine in a certain field in the future.

"Pioneer fights this software..."

As Wu Ke said, looking at the dark crowd below, she was unavoidably surprised.

Wu Ke has been to the conference many times, and there are many abbots, but this is the first time I have encountered such a crazy person. Some people are willing to move on a stool and stand on the crowd. It is almost the same as a star in a concert!

"Next, I would like to invite our chairman of Baiyun Technology, Li Yun, who is also the programmer of this pioneer attack, to say a few words for everyone!"

Wu Ke invited Li Yun out, and some applause rang out in the banquet hall.

Li Yun is undoubtedly a genius, but everyone is skeptical about being the chairman of the company.

Li Yun didn't have stage fright. He went on stage and said a few words briefly, made an opening remark, and stepped down directly.

"The chairman is okay." An employee applauded and said with satisfaction: "Although the speech is not too dazzling, but at least not bad, well-formed, like a chairman!"

"People can pull a billion in investment, of course, they are not going to eat dry food."

"I am a little bit looking forward to the company's future development."

Everyone nodded in agreement, and Wu Ke came to the stage again: "Next, let me introduce the powerful functions of Pioneer Strike. I promise that this software is the most powerful defensive ability I have seen in the 20 years of working in the industry. Software!"

"Haha." Some people in the IT circle laughed intentionally, Wu Ke was obviously nonsense.

Countless large companies have dedicated firewalls inside, and Nantian Technology Group is full of talents. The software made by thousands of top computer experts is inferior to the software made by a senior high school student + his Wu Ke?

"Pioneer Strike is a super anti-virus, anti-plug...software!!!?"

Wu Ke turned on the computer while giving an explanation, but then suddenly stopped.

The banquet hall was also quiet, and then.

The roar of laughter.

The laughter went straight into the sky, shaking the entire Mingyue Building.

I saw a blue-black screen that was controlled by a virus and locked the screen on the laptop that Wu Ke opened.
