

Godly Choice 2201

Chapter 2201: Fifth chance encounter

Xiao Mingzhu was quite surprised. This is the first time she has accidentally met Li Yun?

Although it was on the same cruise ship this time, the encounter would be inevitable, but the cruise ship was so big and there were more than ten restaurants alone. It was a terrible coincidence to meet him on the second day of boarding.

Moreover, Su Muxin was actually beside Li Yun, which Xiao Mingzhu had never expected!

"Pearl!?"

Little Chili Su Muxin, who had been tired for a day, was also surprised when she saw this beautiful girl. Why did she appear on the Ocean Princess?

Because of Huangting Mountain, Su Muxin also met with her at the café at the foot of the mountain and at several banquets, and the two had a very pleasant chat.

"Are you...?"

Xiao Mingzhu moved her beautiful long legs and walked in, his eyes still a little unbelievable.

This girl with a peerless face is wearing fashionable short pants today, showing her beautiful legs with white skin, and wearing a hand-woven straw hat, as if she had just taken a sunbathing on the deck, her white skin was tanned. It was pink, but there was no trace of black.

Obviously, this beautiful girl has a special physique that can't get tanned anyhow.

There are two noble and good-born girlfriends around her. They are also surprised when they see Su Muxin. After all, this Nantian Technology daughter is well-known in China, and belongs to the top little poking rich lady.

But now this rich and famous woman is traveling to sea with a man and two other women? ?

"Yeah~"

Seeing Xiao Mingzhu's doubts, Su Muxin directly put her arms around Li Yun's arm and smiled happily and contentedly: "This is my boyfriend, Li Yun, you must know Mingzhu?"

The two had been messing around for a day, and she was naturally very satisfied now.

"..."

Xiao Mingzhu took a deep breath in her heart and suppressed the shock. She knew that Li Yun had an extraordinary background and strange strength. So in theory, it is not surprising to have a daughter of the richest man in the country as a girlfriend.

Even if Su Muxin is only one of his many confidantes, Xiao Mingzhu can infer Li Yun's current status from the soaring valuation of Baiyun Technology.

Xiao Mingzhu's two girlfriends were so surprised that they looked straight, "Miss Su, is this your boyfriend? He is... Li Yun? It seems that the name is a bit familiar."

"Li Yun?" Another girlfriend suddenly thought of something, "You are from Baiyun Technology..."

"Correct."

Li Yun smiled and nodded, and politely extended his hand to them: "Hello, I am Li Yun, I am glad to meet the two of you."

After they introduced themselves, Li Yun introduced them to Jin Liuli and Xia Feiyao, not to mention their origins or their girlfriends.

But just from Xia Feiyao's intimate embrace of his arm, anyone can guess what the relationship between the four is like.

"What a great playboy! It doesn't matter if you take Miss Su's family out for a trip, there are two more coming together, Miss Su's family also agreed! How did he do it?"

While quietly complaining about Li Yun, Xiao Mingzhu turned her beautiful eyes to the only person in the scene who Li Yun didn't introduce.

"You are....."

Xiao Mingzhu felt that this foreigner with messy hair was familiar, but he shouldn't be a celebrity or someone she had met, otherwise she would definitely remember it.

He is a person who has seen images of Xiao Mingzhu somewhere, but has never seen a real person, and has a certain impression of him.

correct!

Seeing Li Yun, Xiao Mingzhu suddenly remembered something, his eyes widened:

"You are black..."

Chapter 2202: Ding, goodwill degree 60

"Ahem, go in and talk about it!"

Li Yun interrupted Xiao Mingzhu. There are several old blacks in the restaurant. It would be a bit bad if they also understand Chinese. These old blacks will often be anxious with you because of a black word.

"Mingzhu, who is this?" a girlfriend asked curiously.

Black Satan, Nelson!

Xiao Mingzhu thought silently in her heart, and took a deep look at this poorly imaged foreigner. People in the restaurant would never have thought that this dead house man was actually the one who hijacked millions of computers for extortion. , The creator of the Bitcoin killer, and then inspired the legendary hacker who was surrounded by international policemen!

Of course, people who looked at the scene one after another would never expect that the chairman of Baiyun Technology is right in front of them!

This man who defeated the Black Satan and stirred up the global technological situation...

"what is this?"

Xiao Mingzhu's mood is extremely complicated. Every time she hates Li Yun's care, she will think of his legendary deeds. The height of Baiyun Technology is the existence that she can only look up to even if she has worked hard for a lifetime!

No matter how good the president is, no matter how outstanding the company is, and no matter how profitable, Xiao Mingzhu also knows deeply that the company under his leadership will never become the second Baiyun Technology.

"Sit down with you two, just feel free to order."

Li Yun smiled at Xiao Mingzhu's two girlfriends. After the two secretly exchanged his identity, they seemed a little constrained and not too relaxed.

It's a bit too much for eight people to sit at one table, and the waiter came over and brought a long table to one, just to sit down.

The location is by the window, and the endless deep blue water is outside the window. Even ordinary dishes are quite appetizing in this place.

Jin Liuli kept her small face tight and did not speak, but she looked at Xiao Mingzhu several times. After learning that she lived in Zhonghai City, she vaguely remembered who she was.

"God!"

As soon as the tea was served, Nelson couldn't wait to say: "Now, God and you are the only ones who can save me. You must save me!"

Li Yun smiled, took a sip from the teacup, and at the same time ordered two pleasing dishes on the menu, and then pushed them to Su Muxin-this little pepper has been tired for a day today, now it is time to make up for it. Make up.

"Do the three of us need to avoid it?" Xiao Mingzhu asked with a smile. Her two girlfriends were unknown, so they didn't know who Nelson was.

"Ding, trigger the option event, please choose from the host:

Option 1: Let Xiao Mingzhu stay, reward a blue gift bag*1, Xiao Mingzhu's favorability +20, and the host can get Xiao Mingzhu's help.

Option 2: Let her leave and reward Xiao Mingzhu with a degree of -5. "

Can you get help? He does not necessarily need this kind of help!

Li Yun pondered for a moment and shook his head: "No, since you are all on the cruise, just listen to it. Even if you have heard it, don't spread it out and cause riots."

"Yes, I won't talk about it." Xiao Mingzhu agreed. She is now very interested in why Li Yun is getting involved with Black Satan.

"Ding, the host makes a choice, rewards the blue gift bag*1, Xiao Mingzhu's favorability +20."

Favorability has reached the level of ordinary friends at 60 points.

Li Yun decided not to care about the favorability issue, and it was done, and he went along with the flow. If it didn't, he didn't force it. After all, there are two little beauties beside him waiting for him to be in love for the next two days.

Chapter 2203: Nelson's glorious deeds

"Let's talk about what you have done recently." Li Yun took a sip of tea and asked while playing with his mobile phone.

Although it is impolite to use mobile phones while chatting, young people are more casual. Partying means getting together to play mobile phones.

"Yes!"

Nelson straightened his waist and began to talk about his glorious deeds.

"After I was defeated by God you and exposed my identity - of course, I didn't mean to blame you at all. These are all troubles that I caused by myself. I definitely don't blame God!"

"Needless to say the details."

"Uh...that, I will start to flee from now on."

Nelson's straight waist retracted and scratched his head and said, "How can I say, FAI started to mess with me. Fortunately, I have a Trojan horse in the backstage of the FAI system. I will be notified whoever views my information. So I It ran quite smoothly, and by the way, I deleted my information permanently, hehehe."

Two of Xiao Mingzhu's girlfriends stared wide-eyed. This foreign man dressed as a dead otaku said that FAI was the most important intelligence agency in country M, the Union Investigation Agency?
!

Those who can be hunted down by FAI are not ordinary people, but Nelson not only escaped, but also invaded the backstage of FAI's system and deleted all the information inside?

"After that." Nelson continued: "I ran to country Y and stayed in a hotel. While enjoying the wine and beauties of country Y, while monitoring the meetings of the international police officers, it was really happy at that time!"

Nelson showed a reminiscence look, but unfortunately, his demon army turned and chased him in turn, but Nelson could only continue to flee.

After that, he joined the Golden Triangle and was sent to the cruise ship.

"This....."

Xiao Mingzhu and her two girlfriends were dumbfounded. Nelson's experience was an epic blockbuster, much more exciting than the movie.

After all, the movie rarely tells the terrible deeds of hackers traveling thousands of miles, breaching customs systems of various countries, invading satellites, fighting to the death in the city's surveillance camera system, and battling for control of the entire city's network.

This Nelson is simply a walking nuclear bomb, which explodes wherever it goes.

From blowing up the customs system, making a country's entry-exit management system chaotic, from destroying city cameras and traffic lights, paralyzing city traffic to avoid hunting, and from...prohibiting a country's signal communications and causing all satellites in the sky to go on strike. , The signal station is directly shut down.

All this is just for Nelson to gain a bit of escape time!

"Hackers are terrible!"

Those who understand what Nelson is saying have such thoughts in their minds.

Jin Liuli and Xia Feiyao, the only ones who didn't understand, continued to look ignorant.

Xiao Mingzhu looked at Li Yun deeply again.

What a super hacker can do is more terrifying than she imagined. The rise of the 21st century depends on the Internet. The Internet has long been an information society, but for this reason, the Internet has become an unstable bomb.

Whenever someone like Nelson appears, the Internet becomes a thin piece of paper, and it may become riddled with holes at any time.

Nelson is so powerful, so how powerful is Li Yun, who defeated him and convinced him?

"and then?"

More than a dozen dishes were served one after another. Li Yun greeted everyone warmly and asked casually.

"Then, I... joined the Golden Triangle, and then I was sent here, ready to seize control of this cruise ship."

Chapter 2204: a big surprise

"Dang!" With a cry, one of Xiao Mingzhu's best friends dropped the soup bowl to the ground and looked at him in amazement: "What are you talking about? Those desperadoes in the golden triangle send you to seize control of the cruise ship system?!"

"Correct."

Nelson nodded, "I have succeeded, but it is difficult to understand the messy information inside, but I have found the automatic navigation control area, and I will change my route to the Pacific after a few days."

The two girlfriends were so scared that their hair stood upright, and before they knew it, they were actually kidnapped!

What kind of terrible experience is this?

It's like you're lying on the sofa and reading a novel while blowing on the air conditioner. Suddenly someone tells you that a bomb that can blow up the entire building was installed downstairs in your house. The key is that you can't jump off the building and run.

——The cruise ship is driving on the sea, how do you run?

Xiao Mingzhu took a deep breath and suppressed the shock in his heart. Looking at Li Yun, a smile was forced on the delicate and beautiful face: "This is really... a surprise!"

Even if she is in the middle stage of the Innate Realm, once there is no ship on the sea, the Inborn Realm is not much better than ordinary people. At most, she can stay on the sea for a few days, and finally die of thirst!

Xiao Mingzhu would never have imagined that he would sunbathe on a deck chair to relieve the tiredness of recent work, and then want to enjoy dinner with his girlfriend leisurely, but suddenly encounter such an outrageous thing!

And judging from the calm performance of the three women around Li Yun, they knew about it a long time ago.

"What then?" Li Yun took a bite of the dish with a carefree expression, "Where are you going? What other things do you know? Now that you have time, let's say it all."

"this....."

Nelson scratched his head awkwardly, "God, you have to know, I am an ordinary little hacker, I don't know anything!"

Two girlfriends gave him a roll of eyes, and there are few hackers in the world who are more arrogant than you!

Li Yun raised his eyebrows, "Dare you not know anything? I don't know the channel, the purpose, and how many people there are in the other party. What do I want you to do?"

"I, I..." Nelson said with sweat on his face and quickly said: "I can monitor the entire cruise ship, use the camera to take a picture of who Yan Jingyi meets with, and monitor the phone to know what he said."

"I can do it too."

"Uh, this..."

Xiao Mingzhu and the three people heard the conversation between the two hackers. They only felt that the mobile phone in their hands had betrayed them. The front camera was controlled and the microphone was controlled. They even sent various text messages under their own names. The hacker completely controlled it, and all the information was exposed!

"God!" Nelson suddenly thought of something, and quickly said: "I still know how many of them are! Yes, I know this!"

"Oh?" Li Yun thought for a while, and guessed why he knew: "You are responsible for getting the entry documents of those people?"

"Hey, it's a god, so I can easily think of it with me!"

Nelson took out a computer directly from his backpack, and after a few clicks, a piece of information was suddenly displayed on the screen.

Xiao Mingzhu's face was calm, she leaned over and took a look, almost without screaming.

Nielsen's computer is full of personnel's data files.

Year of birth, nationality, education level, life experience, current company, entry information, visa, etc.

Everything is available!

Chapter 2205: conspiracy

And there are more than 300 people in this information!

In other words, Nielsen fabricated more than 300 personal information out of thin air, and then invaded the customs systems of various countries, stuffed these information into real and valid visa information!

This also means that unless the customs officer knows the person entering the country, it is absolutely impossible to find a suspicious place just by checking the document.

After all, these data have entered the database and become a real existence!

"You... are too bold!" Xiao Mingzhu's heart is frizzy. This Nelson is simply lawless. With his existence, the customs and immigration information of various countries in the world can't be messed up?

It's hard to believe that this kind of geek still makes money by extorting the virus. Is it because he thinks that he can blackmail others at home, making it convenient and quick?

For this kind of person, shooting is the best choice!

Or stay in your hands forever, and don't give him any chance to escape the room!

"What's this? I just added some information in it, and it didn't damage it."

Nielsen didn't care. He dared to spread viruses to blackmail millions of computers around the world and invade the customs systems of various countries.

For his values, Xiao Mingzhu could only stare with contempt.

"not bad."

Looking at the materials of these desperadoes at will, Li Yun nodded: "I will send these to others, but are you sure it is all of them?"

"How should I put it..." Nelson changed back to an awkward expression. "There are 324 mercenaries from the Golden Triangle to various countries. All of them are immigration documents obtained by me, but..."

"Is there anyone else?"

Xiao Mingzhu was stunned. Even if it was hijacking a cruise ship, 324 people were already counted as a very large team. She had previously expected only about 50 people. After all, the more people there are, the easier it is to make mistakes.

More than three hundred gangsters are already seriously super-compiled, but there are others?

"Correct."

Nelson spread his hands. "I don't know what Wang Xianneng is planning to do. One day, I heard him call a guy from West Mexico and talk about how many people should be dispatched. My hands were itchy for a while, so I listened. He has a few days."

"Itching for a while!" Li Yun smiled. This guy is a typical eavesdropper. He hides on the Internet and intrudes into other people's systems. He wants to do anything when he sees it.

"Hey, I really heard the result!" Nelson was quite proud. "Wang Xianneng chatted with several people, including West Mexico people, those hypocrites in Central State, and people from Heizhou and Stan, anyway. In places where global wars are disrupted, or where international mercenaries are active, he has contacted people and agreed to do a great thing in a few days!"

"How many people?" Jin Liuli couldn't help but ask after hearing this.

It was the first time that she had come into contact with the "jianghu" abroad, and now she is itchy.

"I don't know, it seems that each party has sent two or three hundred people."

Everyone was speechless.

West Mexico, like the Golden Triangle, is famous for being poisonous. Needless to say, Heizhou is fighting every day. It is said that the trade between tribes uses diamonds to buy guns and ammunition. International mercenary thieves like it there.

The Central State has more oil, more money, and more wars. It is most suitable for mercenaries to take advantage of the chaos.

There are so many places, so many people, and mercenaries who have been cruelly experienced battlefield battles. They gather together, it is hard to imagine what terrible consequences it will cause!

Chapter 2206: Discuss (on)

"Do they want to lay down a certain place, stand alone, establish a nation?"

Xiao Mingzhu quickly thought of this possibility. A mercenary armed with weapons two or three kilometers away would be enough to gain a foothold in some small countries and gnaw a place as a base, just like the Golden Triangle area, which is also hoarding tens of thousands of evil and evil poisons. Molecule!

"have no idea!"

In the face of everyone's questions, Nelson shook his head very simply. He was just a pawn, and he didn't get involved in those decisions.

And according to some information he overheard, these mercenary leaders are in contact with some people in various countries, similar to the Yan family, behind the Yan family, it is the people who really control all this!

"Six, Tao, door."

Li Yun slowly said three words from his mouth, which surprised Nelson, "What are the six gates?"

Xiao Mingzhu hadn't spoken for a long time. She was very strange to the six gates. She only knew that they possessed unimaginable extraordinary power in their hands and had a conspiracy to disrupt the world. The last time she took out the elixir at the auction was proof.

Take the Yan family, for example, from what we just said, the Yan family has already taken refuge in six gates to help foreign mercenaries enter Huang Xuan country! The purpose is unknown.

Li Yun pondered for a moment, then turned his head and showed a helpless smile to the three women: "It seems that this tour is about to end."

"Huh?!" x3

The three women, including Jin Liuli, looked at him in surprise, and Jin Liuli even shouted directly: "Why? We are not going to fight with these people, and the heroes rescued the entire ship from the ship? How did it end? NS!"

Jin Liuli puffed up a small mouth. Although she hated big 'pervert' wolves, she didn't feel bad so far, and she wanted to show her skills to make those mercenaries look good.

Xiao Mingzhu took the initiative to help Li Yun to explain: "When it is determined that someone has hijacked the ship, the best choice is to let the cruise ship dock and the tourists disembark before they act, so as to ensure the safety of everyone!"

Two of her best friends nodded quickly, and they had been frightened when they heard that two hundred mercenaries were about to board the ship.

"Then we should at least catch Yan Jingyi, right?"

Jin Liuli was eloquent. Suddenly, she looked at Xiao Mingzhu suspiciously again: "Are you that Miss Mingzhu? Miss Mingzhu from Thousand Flower Parade? The sister of Tan Huaxian and Lanzhixian?!"

Epiphany and Lanzhixian?

Except for Xia Feiyao who knew what she was talking about, everyone was confused.

"If Thousand Flower Parade does not have a second name called Mingzhu, it should be me."

Xiao Mingzhu smiled like an overwhelming sentient being, "However, Fairy Lanzhi is my junior sister, so you are also from the rivers and lakes."

"Hey~" Jin Liuli smiled slyly like a little fox, "I am Jin Liuli from Jinsheng Pavilion. Well, I don't have much reputation. I'm not more famous than the three fairies of Thousand Blossoms Parade!"

"Thank you." Xiao Mingzhu humbled and looked at Xia Feiyao: "Then Miss Xia Feiyao, is the daughter of Qinglei Valley's head?"

"Um."

Xia Feiyao nodded slightly embarrassed. She had never introduced her origin before, but she is not to blame. Xiao Mingzhu didn't look like a quack at all, she was just a modern Bai Fumei.

Especially when she showed her long legs, wearing a fashionable sun hat and sunglasses, she couldn't see it.

"The reason why I came to Thousand Flower Parade is because of my mother." Seeing their doubts, Xiao Mingzhu explained.

"Wait! STOP!"

Chapter 2207: Discuss (below)

Nelson yelled, "Aren't we here to discuss how to solve those people? What kind of fairies are you talking about, what is it?"

"Shut up, you!"

Jin Liuli glared at him: "Now you are begging us, not we begging you, understand? Be more careful, I will throw you into the sea to feed the sharks!"

"Uh."

Nelson closed his mouth obediently, and the little girl who looked at the petite and lovely girl was too grumpy.

Li Yun smiled. The Thousand Flower Parade is also a relatively large force in the arena, but it is dominated by women, with a special status, and generally rarely involved in disputes, which is quite a paradise.

He turned his gaze and asked, "I want to hear your opinion from Miss Xiao?"

Li Yun knew that she had a good IQ, and might be able to think of a good way.

"My opinion?"

Xiao Mingzhu was stunned obviously, because the power she had around her was very small, there were no two innate realms, and there was no big power standing behind her, and the right to speak was very small.

Li Yun deliberately asked her opinion, there are nothing more than two possibilities.

One, please her, try to pursue her!

Second, open-minded, just want to listen to suggestions.

Although there are many confidantes around him and the name of Playboy is completely true, Xiao Mingzhu feels inexplicably that Li Yun is not trying to please her, but simply wants to know her thoughts!

"Yes." Li Yun smiled slightly, "You can also talk about your own thoughts, whether to hit the door directly or not to move."

"Of course it is to hit the door directly!" Jin Liuli couldn't wait to say: "Even if the ship comes ashore, we have to catch the gang, isn't it?"

"Catch, we must catch, but I am afraid we can't be so reckless." Su Muxin expressed her concerns, worried that something went wrong and some people on the cruise ship would be hijacked.

"...I listen to my husband."

Xia Feiyao thought for a while, and finally shook her head. She made a fool of herself last time because of her recklessness.

Li Yun looked at Xiao Mingzhu, who thought for a moment, and said: "I think, contact the captain first, and then discuss countermeasures together! Try to let the ship dock along the way, secretly let the tourists disembark, and we monitor this list. People on the Internet, prevent them from suddenly doing it."

Compared with the three daughters, Xiao Mingzhu's suggestion is undoubtedly more detailed and feasible.

Li Yun nodded and said: "The people of Yan Jingyi must be caught. It is right not to be reckless. However, rather than contacting the captain, I am more inclined to contact domestic professionals and let them deal with it. Security as an aid."

"Moreover." Li Yun said again: "This ship is not owned by Huang Xuanguo. We have to consider what other countries will think. It's best to have domestic officials come forward."

Xiao Mingzhu agreed with his opinion. They may not be able to pay attention to seeing the captain. Let the officials communicate.

"But I'm thinking about one thing." Li Yun said.

"What's the matter?" Xiao Mingzhu asked.

"The action of one or two thousand people on the other side cannot be just for a cruise ship, nor can it fail to attract the attention of other countries, such as Country M, a powerful country known as the Earth Police. Have they noticed this? This cruise ship belongs to their country, and the destination is also Hao Weiye!"

Li Yun glanced at the crowd, and Nelson lowered his head with a guilty conscience. He dared not say another thing: He had stuffed more than four thousand entry documents into the customs systems of various countries.

There must be a lot of fakes for fishing in troubled waters, but quite a few of them are real. These people will sneak in from various countries, take all kinds of transportation, and go to a certain place secretly!

Chapter 2208: eat first

Everyone was silent for a while, and they all felt a breath of wind and rain, which was so heavy that they could not breathe.

"Let's... let's escape?" said one of Xiao Mingzhu's best friends weakly. She was just an ordinary rich daughter. She could not even resist the actions of one or two thousand armed bandits at all.

"What are you afraid of? The big deal is the battle!!"

Jin Liuli held a small pink fist, her round face was full of heroic spirit: "Feiyao, don't you? We say it's also a quagmire woman. What are a few thousand or two thousand little thieves? Hey, look at me for a whip. One, beat them all down!"

The heroine is to deal with the bandits!

This time I came out with Li Yun, so I can be regarded as a chivalrous hero!

The last time she and Li Yun ran to some ancient tomb against the zombies, she couldn't show her skills. She shivered and shivered all the way. This time she was finally able to show her skills.

"Hee hee, yes~, Xiao Liuli, you are a heroine." Xia Feiyao smiled with her small mouth, but from her eyes, the heroine of Qing Lei Valley was also looking forward to a fight with those robbers.

Xiao Mingzhu's two girlfriends were speechless. They really knew ordinary white and rich beauty, and they didn't get involved in the affairs of these heroines.

"I'll help you." Xiao Mingzhu smiled on her beautiful face and made a decision.

"Are you sure?" Li Yun looked at the daughter of the richest man in Zhonghai City with a weird face. Is she really planning to participate in this matter?

"Of course, how can I say that I am also a half-woman, two sister-woman, right?"

Xiao Mingzhu looked at Jin Liuli and Xia Feiyao, the two women looked at each other, smiled and nodded.

Born in the Thousand Flower Park, he is naturally half a quack.

"Let's eat first, and talk about it after eating. The other party doesn't act so quickly, so there's no rush.

Li Yun greeted everyone. Seeing that Xiao Mingzhu's two girlfriends were a little worried, he comforted them: "Don't worry, you will disembark when you get to the shore next time, and then fly back to the country."

The two women's complexion improved.

"This playboy..." Xiao Mingzhu ate silently and couldn't help but glance at Li Yun: "He cares about girls and behaves very tenderly. No wonder so many excellent girls like him!"

Moreover, what surprised Xiao Mingzhu was that the confidantes around Li Yun got along very well, as if there were more girlfriends than rivals, and they were not jealous at all.

...

After dinner with God, Nelson left. After returning, he was questioned by an annoyed Yan Jingyi. Fortunately, he had already thought of an excuse and spent some money to find two beautiful women who printed a few lip prints on his face and neck. , Successfully confused the past.

—He likes beauty, wine and enjoyment, even Yan Jingyi, who has been with him for a few days, knows.

"How did you invade?" Yan Jingyi leaned on the sofa very uncomfortably, squinting at the scruffy hacker.

"How can it be difficult for me to take the cruise system?"

Nelson sat carelessly in front of the computer, clicked a few times to show him the control interface-the other party couldn't understand it at all.

"Then there will be nothing wrong with me." Nelson said nonchalantly: "You only need to be prepared to sabotage and sneak in and sabotage the cruise ship's manual control system. When will you act? You will notify me when you do damage, and I will cooperate to completely control the cruise , Then you will give me the latitude and longitude coordinates, and I will let the cruise ship pass by.

Chapter 2209: Ding, Friendship Degree 75

Yan Jingyi nodded in satisfaction, "It's still early to act, wait a few more days. Then you stay in the room, and I will find the beauty for you, don't run around!"

"No." Nelson categorically refused. "I'm going to sunbathe in the afternoon, go on a cruise, and be accompanied by beautiful women. How can I not sunbathe?"

"You fucking..."

"Also prepare fine wine for me. I can have a clear mind only when I have the company of a beautiful woman with fine wine!" Nelson made a bold request.

"day.....!"

Yan Jingyi was so annoyed that in the end he was forced to agree. After all, the temperaments of high IQ people are very weird, and it is not worth fighting against them.

"I let a few bodyguards follow to protect you, remember, don't run around, or I will kill you with one shot!"

Throwing aside the cruel words, Yan Jingyi waved to let this guy get out.

"What about the beauties? I want a good-looking hot girl, who can play well, preferably blonde. Yellow people can barely accept it. Don't be black."

"...You **** get out of here! Find it yourself, I won't wait!"

...

After dinner, Xiao Mingzhu's two girlfriends said goodbye and left. Since they didn't get involved, naturally they didn't have to listen to the next thing.

Li Yun and four beautiful women were walking on the deck, blowing the sea breeze, watching the sunset at 7 o'clock in the evening, the golden light illuminating half of the sky, and the scenery was exceptionally beautiful.

Xiao Mingzhu felt at ease inexplicably, and turned to Li Yun and asked: "Are you starting to contact people in China now? Do you need me to help you find a relationship?"

Although she already knew that Li Yun had a good relationship with domestic leaders, it was necessary to show her good.

"Ding, trigger the option event, please choose from the host:

Option 1: Confirm to let Xiao Mingzhu join the action, reward Xiao Mingzhu's favorability degree +15, and purple amulet*1 (for Xiao Mingzhu).

Option 2: Reject, let her leave as soon as possible, and reward Xiao Mingzhu with +5. "

No matter which one you choose, your favorability will rise? Li Yun felt a little strange, he didn't seem to have done anything.

However, adding 15 points of favorability is 75 points, which is about the same as a good friend.

"Mingzhu, are you sure you want to get involved?"

Li Yun decided to warn her: "You should know that this time there is a possibility that practitioners of the six sects will appear. Even if you are in the middle congenital realm, you cannot be sure that you can save your life!"

Xiao Mingzhu winked at Su Muxin mischievously, and smiled: "Mu Xin didn't leave, why should I leave?"

"Can I be the same as you?" Su Muxin, who is only in the acquired realm and has not practiced martial arts, is not annoyed. Instead, she smiles and hugs Li Yun's arm. "I have a husband who can protect me at any time, do you?"

"This... I can have it too."

"?"

"Haha, just kidding."

Xiao Mingzhu's face was reddened, and she turned her head and said, "To be honest, I am indeed a little scared. However, even if I can escape this time, what about next time? If I didn't meet you, I would be with the Six Doors on this journey. People meet, so instead of avoiding it all the time, it's better to stand up and resist."

She glanced at Li Yun deeply, and there was a hint of smile in her clear eyes: "Maybe I can get some chance because of this, and be taken by a certain immortal leader as a disciple?"

Li Yun smiled and didn't say anything. The women around him didn't start cultivating immortals, so how could it be your turn.

"It may also be taken as a girlfriend by Xianchang." Su Muxin joked solemnly, causing Xiao Mingzhu to glare at her, saying that I wouldn't ***** a boyfriend from you!

Chapter 2210: It's more numb than you think

After the joke, Li Yun didn't evade anything. He found a deck chair to sit down on the deck and called Xia Ming.

Xiao Mingzhu originally planned to call the family to explain the current situation-she is not worried about the family ordering her to leave. Since she was sixteen, the family has rarely interfered with her decision.

But after hearing Li Yun calling him Xia Ge, he moved in his heart and couldn't help but interject and ask: "Li Yun, are you chatting with Xia Ming?"

Originally it was very impolite to interrupt when someone called, but Xia Ming was not someone else.

"Yes, you know too?"

"Pearl?!"

Hearing Xiao Mingzhu's voice, Xia Ming was very surprised. How could Li Yun be with her? Could it be that...?

Because of the beauty of Li Yun around him, Xia Ming is extremely sensitive to this, for fear that Xiao Mingzhu will fall into it accidentally. By then, although it will not be too bad, it is definitely not a good thing!

"Uncle, it's me. Li Yun and I met on a cruise ship. Let him tell you the details."

uncle?

Li Yun had to sigh that the circle is really small, and these people go around. Someday he believed that Hu Xiaomeng and Xiao Mingzhu were relatives.

"bump into?"

Xia Ming always felt that it was a coincidence that both of them booked a cruise and happened to be traveling together?

Suppressing the doubts in his heart, Xia Ming began to listen to what Li Yun said. The more he listened, the more he frowned, and finally he sighed: "The Yan family and the poison king in Zhonghai City still can't help but want to do it!"

"And it's still big this time." Li Yun smiled.

"...Sure enough, every time you call, nothing will happen!"

"It's the other way around, Brother Xia? It's because every time I call, I inform you of a major event!"

Xiao Mingzhu's face was weird, and Li Yun called her brother Xia, isn't she short of Li Yun's generation out of thin air?

Xia Ming pondered for a long time, "I don't know if Country M is not aware of this. To contact them, you have to make an official phone call through the Foreign Exchange Department, and after several relays, can you be notified that there is a real word. Right person."

"In other words, it will be quite troublesome?" Li Yun raised his eyebrows, and things really weren't that simple.

"More trouble than you think."

Xia Mingming rubbed his temples and said distressedly: "The cruise ship under your feet now passes through ports in more than 20 countries and regions. There are tourists from all over the world on board. It would be okay if everyone was rescued safely and smoothly. If not, and yet Because of the actions of a certain country, the hostages of other countries were hurt... Haha."

Needless to say, Li Yun could guess what the consequences would be.

According to Xia Ming, he would rather let the security on board the ship act by himself to solve the culprits than send a formal support team as Huang Xuanguo's official status.

Unless the country can get the consent of all the tourists on the cruise, all parties will send teams to rescue them!

But just to unite more than 20 countries, it would take ten and a half days, so what about cooperation?

"Sigh, it really is a big trouble!"

Li Yun gasped and said, "But Brother Xia, the real trouble is that we still don't know what Liudaomen wants to do. They have recruited a group of mercenaries from all over the world. It is estimated that they want to do a few things. For the hijacking of the cruise ship!"

Xia Ming was silent for half a minute, causing the hearts of the people on the phone to sink. .
