Godly Choice 2351

Chapter 2351: Man in black robes

Ignoring the English conversation between Xiao Mingzhu and Su Muxin and this blond beauty Chiliquala, or caring about taking his blurred figure in the live broadcast room, Li Yun cast his gaze to the sky.

"Husband, is there anything in the sky?" Xia Feiyao asked nervously when she noticed her husband's actions. The giant whale had been wandering nearby. After everyone was frightened for a while, many people walked out of the railing and waited uneasy. The next direction of fate.

"Theoretically, this giant whale can be so smart, it should be controlled by someone...coming!"

Before the words fell, a black spot appeared in the sky.

Soon, a middle-aged man wearing a black robe with a gloomy expression came to the sky above the cruise ship riding the weird big bird, his eyes glowing angrily at the reddish sea.

"Who beat my giant whale monster like this?!"

The indifferent voice spread throughout the cruise ship, causing the more than 10,000 tourists and staff on board to shiver.

This black-robed man is just like the ring spirit in "The Lord of the Rings"!

The whole person exudes a cold and terrifying atmosphere!

In particular, he stepped on a large, hairless, winged, golden-red bird, which has a stronger sense of power than the giant winged beast that the ring spirit rides in the Lord of the Rings.

"This, this is a Griffin beast!"

The blonde girl kept shaking her phone and her face became extremely pale.

If the giant whale is still possibly the result of the mutation caused by nuclear radiation and can be explained by force with science, then the appearance of this black-robed man with a big golden red bird stepping on it will completely break their understanding of the world!

This black-robed man is definitely not a normal person!

```
"Super-Man?! Spider-Man?"
```

"OMG!"

"WTF"

"The anchor runs away... well, I forgot that the anchor is at sea, Amen, may the Lord protect you."

"Is this world crazy, or I didn't wake up!?"

"I... fuck!"

The last sentence was not from the live broadcast room, but from Zhou Yingcai. He stood in the doorway and looked at the black-robed man floating in the sky. With his mouth wide open, he could directly lay three eggs.

After his crotch fell off, he hurried back to the room. Just after he changed his clothes, the cruise ship suddenly jumped, frightened Zhou Yingcai and ran out of the room.

Along the way, I saw countless people screaming for their lives, and couldn't ask what happened, so Zhou Yingcai hurriedly returned to the ball.

Then, I saw this horrible scene.

He was so scared that he fell directly to the ground, his legs trembling, and he didn't even have the courage to escape in front of such a monster.

"it's me."

Li Yun placed the Golden Dragon Sword across the railing, slightly raised his head and looked at the black-robed man: "Are you from the Six Demon Sect Beast Dao? Are you the so-called backhand of Yan Jingyi? Or is there an elder of the Void Returning Realm sitting in town? "

If there really is a return to the virtual world, Li Yun will put the four women in the Lotus Immortal Mansion without saying anything!

"Beast Road? Puff!"

Jin Liuli couldn't help laughing, she really had such a strange name!

The black-robed man gave her a cold look, without a trace of emotion, which made my heart frizzy.

The sword in Xiao Mingzhu's hand trembled slightly. This was the first time she had really faced a practitioner, and she was still a powerful practitioner who could control the flight of a monster beast!

She really wants to fight, she doesn't know how to win, the other party flies in the sky and is already invincible!

"You, is Li Yun?" The black robe man asked with a hoarse voice.

"Oh? It's an honor for you to know my name."

Li Yun smiled, and said leisurely: "You raised that whale? Tsk tsk, it must be very hard to raise it so big, right? I cut off so much meat with a sword, I guess it will have to rest for a while."

Chapter 2352: Just waiting for you to approach

Xiao Mingzhu frowned her eyebrows lightly, and Li Yun felt very bad for her now, completely different from the usual sunny atmosphere.

But she didn't hate it too much, after all, he was facing a black-robed man of unknown strength, and he didn't need to be polite with him too much.

Sure enough, the black-robed man's face became darker and darker, sending out a divine mind to control the flaming seagull under his feet, causing it to open its mouth and spray a large burst of flames toward the deck of the cruise ship.

"what!"

The people on the cruise ship, as well as the viewers who watched the live broadcast from various ways, when they saw the fire that was the size of a basketball and exuded a raging fire, they all opened their mouths again and were shocked by the scene in front of them. .

"Mingzhu, go on." Li Yun laughed jokingly, "This guy's attack is too weak, so I can't take any interest in it. It's just right for you to practice your hand!"

When the voice was only halfway through, Xiao Mingzhu had already lifted the Bingling Sword, and a beautiful sword flower pierced from the tip of the sword, facing the swooping flame.

"boom!"

The air of ice collided with the flames, a large amount of water vapor erupted, and the messy fireball fell. Jin Liuli hurriedly waved her camphor sword to block all the flames.

As for Xia Feiyao, she had returned to the cabin with Su Muxin and gave the battle field to the three of Li Yun.

After successfully blocking the attack of the black-robed man, Xiao Mingzhu looked very excited and smiled: "Li Yun is right. It seems that the strength of the practitioners of the Six Demon Sects is nothing more than that!"

The black-robed man looked at the ice-ling sword in her hand, his cold eyes finally showed enthusiasm: "The sword in your hand is a high-grade magic weapon?!"

Xiao Mingzhu was startled slightly. It seemed that Li Yun was right. The value of this sword is not trivial. Any practitioner who sees it will be greedy. For example, this black-robed man can ignore her beauty, but covets this ice sword. Three feet.

"Yes, so what?" Xiao Mingzhu raised her eyebrows, stood with Li Yun bravely, and pointed her sword at him coldly: "Want to grab it? Let's try the power of my sword!"

She guessed what Li Yun wanted to do.

"Where does the black robe monster dare to speak wildly?!" Jin Liuli frightened the world and cursed softly: "Where do you go to my grandma, and want to **** our things? My grandma also has something in her hand? Do you want to grab the magic weapon?"

"I guess he dare not." Li Yun smiled.

The three took turns to provoke. Even the clay figurines were agitated, not to mention the self-reliant black-robed men.

"court death!!"

Stepping on the flaming seagull underfoot, it opened its mouth to spout more than a dozen fireballs in a row. The black-robed man made a weird cry again, and the giant whale cruising on the sea followed with a whine call and hit the cruise ship hard Come.

At the same time, the black-robed man also moved, his figure jumped up from the flaming seagull, followed behind more than a dozen fireballs, and opened his huge hand to hit Li Yun with a vicious atmosphere!

"Ding, trigger the option event, please choose the host..."

"You are waiting!"

Ignoring the system's prompt, Li Yun replaced the Golden Dragon Sword with the Leap Fire God Sword, and the figure also jumped out, rising into the sky, and killing the black-robed man.

A sword was swung out, and the flames filled the sky. Twenty-nine small flying swords emerged from the flames, whizzing and killing the black robe man.

"Haha, that fool!" Su Muxin, who was clutching the hatch tightly, yelled happily, staring at Brother Li Yun unblinkingly. Now Brother Li Yun is so handsome!

"Grab the handrail!!!"

Chapter 2353: Behead

Jin Liuli had only time to yell, the head of the giant whale slammed into the cruise ship, and the unimaginable strong vibration caused the entire cruise ship to fly, dumping dumplings and dumping thousands of people into the sea.

"Thousands of Bingling!"

Xiao Mingzhu activated the skills on the ice-ling sword, and hundreds of ice-cast spikes emerged from the icy air emitted from the tip of the sword, and hit a dozen fireballs in front.

boom!

The dense explosion sounded into one piece, accompanied by a large amount of water vapor, Li Yun's figure rushed out of it, swung another sword, more than a dozen small flying swords flew out again, a total of close to forty bright red flying swords. Killed all in front of the black robe man!

"Spirit weapon!"

The number of scary small flying swords made the black robe man shocked, and he immediately realized that the fiery red magic weapon in Li Yun's hand was a spiritual weapon!

escape!

Reminiscent of the other party tempting him to attack forward, the black-robed man's desire to escape is stronger, and a cloud of yin energy suddenly burst out of his body. After offsetting the first wave of flying sword attacks, the figure quickly retreats.

"Can you escape?"

Li Yun flew up, his mind moved, ten small flying swords whizzed out, and instantly cut the big hairless bird into a ball of meat sauce and dropped it on the lower deck. The smell of barbecue was very strong.

"Longming Sword Art: Flying Dragon is in the sky!"

hold head high!

With a divine dragon chant, the bright sword light burst out, swept in the black-robed man 30 meters away, and drowned him in the attack of the sword light and the fierce fire of the earth, so that he did not even scream, and his body turned into flying. Ash.

Xiao Mingzhu stood on the railing, holding an ice sword, her beautiful eyes shining brightly, watching Li Yun in the sky defeat the black-robed man in threes and twos, there was an inexplicable movement in her chest.

Such a man is what she is looking for. A future partner who can understand her and is strong enough, right?

Unfortunately, she was not the first to meet him...

"Li Yun..."

"Boom!"

Xiao Mingzhu was about to talk to him, a cloud of white light flew out of the ashes that fell into the sea, and Li Yun reacted very quickly. A white-green pistol appeared in his left hand, firing a few shots at the white light that was escaping quickly. gun.

"what!!"

A scream from an unknown source made Xiao Mingzhu and the women feel that their scalp was numb. This sound seemed to come from the bottom of my heart. It did not belong to my heart, and it was very disgusting!

"Li Yun, wait, the three elders will not let you go! You will die, you will definitely...

The stern voice gradually dissipated, and Li Yun moved his spiritual vision to confirm that the spirits of the black-robed man had been dispersed before landing on the sea. He stretched out his hand and took out a book from the ashes floating on the sea.

""Beast Control"!"

The moment I got the book, a series of prompts from the system sounded.

"Ding, the host made a choice, threatened the other party, so that he did not dare to attack rashly, reward justice value + 1.5 million, experience value + 50 million, all attributes + 50,000, colorful gift bag * 1, aura value + 150,000."

"Ding, the host made a choice, gave up blocking the giant whale in the deep sea, chose to kill the black-robed man, rewarded justice value + 100,000, experience value + 20 million, all attributes +1 million, golden gift bag*3, aura value +5 Ten thousand, additional random martial arts promotion level reward: Longming Sword Art is promoted to God level!"

"Ding, the host Longming Sword Art has been upgraded to the **** level, gaining a new passive: Sword Qi Hualong."

Chapter 2354: Beast control

Li Yun was pleasantly surprised. The person who saved the next ship was rewarded with a full 1.5 million justice value. This reward is really amazing!

Moreover, the reward of 50,000 attribute points also brought his five attribute points to the 500,000 point mark!

As Li Yun had predicted before, the limit of the innate state, or the limit of the fetal movement state, is 500,000. He already feels that his breakthrough is imminent, and he only needs to work a little more to move from the fetal movement state to the law fetus? Still returning to the virtual? Or is it the **** of martial arts? !

Li Yun seems to be able to choose between the three cultivation directions! Can be reached!

But he has no time to think about it now, the system's reward reminder is still ringing!

"Ding, the host makes a choice, I want it all! Snatch the black-robed man's "Beast Control", kill his spirit, reward +100,000 for justice, +10 million for experience, +10,000 for all attributes, golden gift bag *2, additional reward: exclusive gift bag for animal control."

There is also a gift bag for Beast Control?

"Ding, congratulations to the host for reaching 500,000 five physical attributes during the Innate Realm, and absorbing top-level spiritual fire, allowing the body to gain qualitative changes, and rewarding the supreme treasure-level physique: Innate Dao Fei!"

Li Yun's eyes widened instantly!

Supreme physique? !

Supreme physique! ! !

hiss! Is there such a classification of treasures?

If Li Yun remembered it correctly, when the Fanqing Sage's favorability was 100 points, the Hongmeng Purple Spirit Bracelet rewarded by the system was a peerless treasure.

There is a certain chance of good things in the colorful gift bags, and they are also peerless treasures.

And this supreme treasure seems to be better than the peerless treasure?

"Help, help!!"

There was a large number of people who fell into the sea calling for help, the nuclear submarine was still behind, and the giant whale, after the death of the black-robed man, fell into motionless state, floating on the surface of the sea, a pair of huge eyes opened. Looking at everyone, there is a vague sense of confusion, which makes people feel strange when they see it.

Ooh!

The giant whale called again. This time the call stretched for thousands of miles, like the howling of a pack of wolves, spreading over the sea, and the sound shook the surface of the sea.

Whales actually call on their friends by their calls, and locate each other in the ocean, so as not to lose each other's position.

"If this giant whale was transformed from an ordinary whale, after the death of the black-robed man, it should return to its original sanity?"

Li Yun's heart moved, and he did not choose to save the people who fluttered in the sea. Xiao Mingzhu and the women on the deck shouted, "You let the captain drop the lifebuoy and try to save people!"

Although I don't like Country M, but these foreigners can save it or save it.

Having said that, Li Yun took out the exclusive gift pack for Beast Control Technique he was rewarded before and opened it directly.

"Ding, take the initiative to trigger the selection event: use 1 colorful gift bag + 10 golden gift bags + 50 million experience points, in exchange for the upgraded version of beast control: Royal Beast (advanced

It is also a routine of exchanging gift bags for more advanced items. The same goes for the previous Huangquan guide flags and the Leap Fire God Sword.

Opening a gift bag is a gambling, and direct exchange is a stable earning.

Li Yun didn't hesitate to change it!

"Ding, the host makes a choice, consumes 1 colorful gift bag + 10 golden gift bags + 50 million experience points, and obtains the skill: Advanced Beast Guarding."

With the help of the system, Li Yun quickly mastered the skills of advanced beast control, which is far stronger than beast control!

To put it bluntly, now that the black-robed man is riding the flaming seagull again, Li Yun can control the seagull at his feet with a divine mind, making it reversible and attacking the black-robed man in turn!

Chapter 2355: so fun

"Little whale, come here!"

The corner of Li Yun's mouth twitched, and a divine thought came out to the big whale floating in the sea, mourning out of thin air.

The key to controlling the beast is to control the beast's mind and make one's mind become the core of the beast's thinking, making the beast almost irrational and will only instinctively execute the command of the beast master.

But Beast Guarding is an overbearing skill that retains the demon beast's sanity, overwhelms the opponent with a powerful force, and makes it obedient!

Simply put, the beast control technique is to toss the monster beast into a puppet-like existence, while the beast control technique is to become the emperor that the beast cannot resist!

"Woo~!"

The deep-sea giant whale let out a howl, flicked its huge tail, and rushed towards Li Yun.

It is not so easy to conquer the giant whales that have become monsters.

But Li Yun had mastered the method of victory. When he saw the giant whale rushing towards him, he smiled instead and flew into the sky leisurely, just waiting for the whale to rush towards him.

"what!"

The people around saw the giant whales go mad again, each of them pale in fright, but they had no other way to hold their bodies around them, and closed their eyes and waited for another shock.

Three seconds, five seconds, ten seconds, and half a minute passed, but the strong vibration that was expected still did not come.

"Brother Li Yun is the most handsome~~~!"

A girl's clear and excited voice came, and everyone opened their eyes tremblingly, grabbing the deck railing and looking down.

Saw a picture that made them stupid.

Li Yun, the man who fought with the monster and the black-robed man, actually stood firmly on the head of the giant whale, and took out his cell phone leisurely, seeming to be calling someone!

"Big villain~~~!" Jin Liuli yelled from the deck rushing down: "You controlled the big fish?"

Li Yun didn't look back, raised his head and smiled at her.

"Wow, I want to play too~!" Jin Liuli was excited directly, her petite body jumped on the railing, and then stepped on it suddenly. His figure flew more than ten meters away-of course, this distance could not reach the giant whale far away, Li Yun quickly flew over to hug this girl, and then flew back to the back of the giant whale.

"Gluck, it's fun, wow, this big whale really doesn't move!"

Jin Liuli was so excited that he stepped on the back of a giant whale as if standing on a small island. The small island would move on its own, swimming up and down the sea, with a soft whine from time to time, and The previous howl was completely different.

"Me, me too!"

Xia Feiyao couldn't help it anymore, and jumped down, smiling and rushing into the arms of the husband who greeted her, her immature face full of happy expressions.

"Oh, I want to play too!"

Su Muxin on the cruise ship was greedy, but unfortunately, she can't jump that far now. Although Li Yun's brother can definitely catch her, she still doesn't look good.

"Don't make trouble, wait for me to call Master Saintess."

Li Yun contacted Fan Qingsheng, but learned that she had already lifted off, so he could only temporarily put down the phone and wait for a while.

Xia Feiyao bit her lip and nodded. The corners of her mouth were full of smiles. Her husband was so powerful that she could even control this big whale. She had been embarrassed by the attack of the giant whale before. The situation is completely reversed.

"Little Chili Sister!"

Jin Liuli excitedly waved to Su Muxin on the 14th deck. She glanced at it. From the 6th to the 20th floors, the deck railings were full of people. Standing on the giant whale in the dark, from a third party From the angle of view of this brightly lit cruise ship, this experience is really great, too rare!

She will never forget this moment in her lifetime, two lifetimes, and ten lifetimes!

Chapter 2356: saved

In the end, Su Muxin couldn't help it anymore. She begged Xiao Mingzhu to take her out of the cruise ship. While in mid-air, Li Yun held one in one hand and landed on the back of the giant whale.

"Wow, what a hard whale skin! Authentic whale skin shoes~!" Su Muxin ran around the prehistoric behemoth over 200 meters in excitement, happily like a child.

Standing on the back of the whale, Xiao Mingzhu's beautiful face blushed, her eyes looked around, and she looked up at the brightly lit and messy cruise ship, and put on thousands of people who were holding their mobile phones to take pictures of them. Tourists made her feel extremely excited and complicated.

This kind of experience was indeed something she had never thought of before.

Xiao Mingzhu has always been aiming to take over his father's industry, make it bigger and stronger, and invest in more fields.

But since I met Li Yun at the airport that time, everything has changed!

However, she does not hate this change.

Without Li Yun, she would have been on the cruise with her best friend now, and she was dizzy by the sudden attack. Although there would be nothing wrong, she didn't even know what happened.

Now I can only look like those on the cruise ship, I can only look at Li Yun standing on the giant whale from the railing below!

Like a fool.

"hehe."

Xiao Mingzhu laughed suddenly, her white teeth bit her lip lightly, making Li Yun look inexplicably: "Mingzhu, you also feel very excited? I didn't expect you would like to play this kind of... Oh forget, after all, you are too. What about an eighteen-year-old girl!"

She usually behaves very mature, so Li Yun almost forgets that she is actually the same age as him.

"Humph."

Giving him a roll of eyes, Xiao Mingzhu looked at him and suddenly laughed again.

"Li Yun, thank you!"

"what?"

יי?יי

Li Yun still felt that she couldn't understand her, but Xiao Mingzhu turned her head with a smile, without any explanation.

"Well, don't guess the girl's mind." She turned to look at the submarine and said, "Can you control the whale? Let's swim over and take a look, and save those people."

The rescue on the sea is still going on. Someone must have died in this disaster. Li Yun is neither a Virgin nor a cold-blooded animal. He will not see him or not, but he will not blame himself for it.

Command the giant whale to swim slowly and come next to the drowning people. Even though the giant whale has controlled its speed, its huge body still makes the sea raise a wave of more than ten meters.

Fortunately, the three innate realms of Jin Liuli could walk on the water, and soon they brought the people who fell into the water with their hands and threw them on the back of the whale.

As for the people who have not moved on the surface of the sea, face down, and have been dead for a long time-or the corpse, the three women have no more pipes and let the sea water wash them away.

——At this time, even living people can't control so much, let alone dead bodies.

Cries, sobbing, excited shouts of salvation, noisy sounds everywhere on the cruise ship and on the back of the whale.

Li Yun stood calmly on the back of a whale, like an upright god, calming his panic heart after tens of thousands of disasters.

Those who wanted to live broadcast him also moved their mobile phones one after another, and they didn't dare to photograph him in front of the live broadcast room.

"Everyone, we are saved!!"

The blonde beauty cried with joy and said with tears in the live broadcast room: "It was a superman from Huang Xuanguo who saved us. Yes, it is Superman! His power is as powerful as those villain monsters. He is the superman of the East!"

Chapter 2357: Global shock

The news spread, so that the audience around the world paying attention to this shocking accident-at least 500 million people, are constantly watching the progress of the accident through TV, live broadcast, Facebook, live photos, small videos, etc.

Now that it was learned that a Huang Xuan national had rescued tens of thousands of tourists and staff on the Ocean Princess, the whole world was shaken.

"Really? There is no superman in M country, but a superman from Huang Xuan country?"

"Those yellow-skinned monkeys..."

"Why don't you die! Who would dare to scold Huang Xuan countryman today, I was the first to kill his house and pk with him!"

"Malayo supports Superman Huang Xuanguo, please let go of your prejudices!"

"Country Y +1."

"It's amazing, who is that Huang Xuan countryman?"

"Superman? Did he wear his underwear outside?"

"Don't worry, everyone. The National Rescue Team has experience in ship capsizing and is expected to set off in seven hours. During this period, all civilian forces are forbidden to rescue."

"233, hacking my big universe again!"

"Huang Xuan Guoxiong gets up and feels proud that he is a member of Huang Xuan country!"

As everyone discussed, the ships that were also in the Pacific diverted, and some came to the Ocean Princess to see if they could help.

Others, they return directly to the voyage or dock, and dare not come back to sea areas with sea monsters!

During the disturbances, the whole world looked at a certain white palace, waiting for the white palace, known as the earth policeman, to make a statement.

This ocean princess belongs to country M, and the Pacific Ocean is under the control of Haowei Island, but now not only is the ship being attacked, there are also sea monsters beyond understanding. If country M pretends to be dead, then the Pacific Ocean There is a big question mark about ownership!

No one knows what is happening on Haoweiyi Island and what is about to happen.

•••

"The giant whale has been controlled, should you say something?"

Xiao Mingzhu stood calmly on the back of the whale, and said to the pale-faced group of people in the national navy uniform of the country that had drilled out of the nuclear submarine.

There is no country on the outside of the submarine, but the people inside are wearing the uniforms of the navy of country M. The sinister intentions can be seen!

Therefore, Xiao Mingzhu directly talked to them in Chinese, and believed that these guys who sneaked on the bottom of the sea to collect intelligence, had no reason to not understand Chinese.

Sure enough, a foreigner emerged from the submarine with an awkward expression and a surprise after being saved. He also mixed some fear of the giant whale at Li Yun's feet. In short, the expression was very exciting. After a long time, he said: "Miss , Sir, thank you for your help, we..."

When it comes to their identity, these people who survived the submarine are all embarrassed.

They erased the nationality mark on the outside of the submarine, which has been able to explain the problem!

"It's a great show."

Li Yun shook his head, without thinking about it.

In the exchanges between countries, the fist is big, you fist, and everything you say is the truth, don't you see that the people of country M dare to take out a packet of washing powder from the United Nations as a charcoal maggot virus, and dare to invade other countries brazenly.

However, no country in the world has acted to block it, only verbally condemning it. Even most of the younger brothers in country M waved their flags for this, turning black and white, and all the so-called justice was thrown into the trash can.

Poor Bashar Jafari, the ambassador of the invaded country, can only sit in a sad position, holding a copy of the "United Nations Charter" in his hand, watching the ambassadors of the three countries M, F, and Y leave directly. ——The ambassadors of these three countries did not intend to argue with him at all, it is your country!

Chapter 2358: Fist is the truth

This once again illustrates the correctness of a great man's words: Behind you will be beaten!

What reason, what charter, what justice, what human rights, what equality, are all things to talk about.

Even if Li Yun exposes the nuclear submarine now-no, it should be said that people all over the world have known about it through their mobile phones, and there is no loss to country M.

A few years ago, Snowden personally exposed the Spiritual Realm Project. Country M directly used the server data of Gugou, Facebook, Fruit, Turtle, Giant Hard, AOL, Skype and other multinational companies to collect chat records of people from all over the world in disguise. The content of the call, including pictures, images, audio, etc.

This seriously violates the privacy rights of people all over the world.

But in the world, no country can stand up and bring substantive revenge to country M. The truth is only within the range of the cannon! ".....never mind."

Seeing that Li Yun was not interested, Xiao Mingzhu also felt disheartened. Dealing with Country M is far from effective by capturing a nuclear submarine.

Compared with this, Li Yun's Baiyun technology is the real big killer. Once it is sacrificed, it will cause the share prices of global technology companies to plummet, and the future impact will be far greater than that of a nuclear submarine.

"Get off, you guys!" Jin Liuli didn't know what this nuclear submarine meant, but when she saw that Li Yun didn't like these foreigners, she naturally didn't have a good voice with them and waved them back.

The group of people who could finally get out of the submarine did not dare to talk nonsense. They quickly got into the submarine, stayed with the bodies of colleagues in the submarine, and drove the submarine to the other side of the cruise ship.

——They still dare not leave, for fear that they will encounter monsters like giant whales when they dive into the ocean floor.

"Mr. Li Yun!"

The captain ran to the sixth deck out of breath and ordered the rescue ladder to slide down to the surface of the sea to rescue all the people on board the giant whale on the cruise ship.

Some people tried to salvage the corpses in the sea. Li Yun didn't care about them. After boarding the ship with the four women, he gave the giant whale an order to fish and eat by himself around the cruise ship.

The giant whale was seriously injured, but seeing that it can still move and attack, it should be able to slowly heal itself. Li Yun didn't think of how to deal with it for the time being, let it live first.

After all, this giant whale is better than three or five nuclear submarines. If you desperately attack, you might be able to break through the defensive net and replace an aircraft carrier.

"Woo~~~!"

The giant whale made a loud and empty call again, like a distant train gradually approaching, spreading across the boundless sea, vast and far away.

Su Muxin stood on the deck, leaning on the railing with both hands, watching the giant whale float up and down on the sea, whining from time to time, and her mood was better than ever.

——Although many people were killed and injured on the ship, it seemed immoral that I had a good time.

"Help save people?" Su Muxin looked at the women, Xiao Mingzhu nodded first, followed by Xia Feiyao, and then Jin Liuli tilted his head for a moment and nodded.

Although it is a foreigner, it is also a life, right?

Li Yun didn't follow them, but stayed on the deck where the prom was at the bow, took a prom stool and sat down, facing the sea.

Everyone didn't dare to come forward. First, they were afraid of the strength he showed just now, and second, they were afraid of disturbing the super-man of Huang Xuanguo, distracting him, and unable to monitor the monsters that suddenly appeared at any time.

"Li, Mr. Li!"

Chapter 2359: The world is occupied by demons

Just as Li Yun wanted to check what his supreme treasure was, Captain Davis ran over in a pant, came to five or six meters behind him, standing there in awe.

"What's the matter?" Li Yun looked at him and asked strangely: "Captain, aren't you going to save people? The cruise ship was attacked by a giant whale just now, so many people should have been injured. Could it be that the cruise ship was damaged?"

"Yes, there are some water leaks," the captain said quickly, "but I have ordered the closure of the waterproof partitions, watertight compartments, and waterproof gates in the bilge. The water level is well controlled, and the Ocean Princess will never become the Titanic!"

The Titanic is a giant cruise ship that sank after hitting an iceberg in the last century. This accident has become an example that all ships at sea will remember. Apart from anything else, at least the lifeboats on the ship will be enough from now on.

"That is to say, it is indeed flooded?" Li Yun stood up and glanced at the refusal to prey on fish and shrimps with his big mouth open in the distance, nodded and said: "I controlled the enemy's whales. In theory, it can kill us ten thousand. Many people are all carried on the backs of the giant whales, and you can arrange for them to retreat in an orderly manner."

"Yes!"

The captain immediately agreed, and then reacted and waved his hand quickly: "No, no, no, no! Mr. Li, the Ocean Princess is really fine. It can support us to Haowei Island! Really, I will never be with Titans. Like the fool captain of the Nick, even in silence, I can guarantee the safety of every passenger on board!"

Unless there is a monster nearby...

Li Yun smiled and said, "Isn't that good? Are you sorry for this loss? There is no other way, and the world will be more chaotic in the future."

It is conservatively estimated that the company where the Ocean Princess is located will have to pay a large amount of compensation and maintenance money for this, and the losses can be described as heavy.

The captain gave a wry smile: "It's not this either."

"What's that?" Li Yun said strangely: "Ho Weiyi Island is right in front of you. Can't you just increase your horsepower and drive past?"

"...It's the problem of Haowei Island!"

The captain's face turned pale again, and he handed over his phone respectfully to Li Yun, "This is news from my boss. It has not been reported by the media yet, but... the news is very likely to be true!"

"Oh?"

After receiving the call, he found that it was a foreigner who was calling. Li Yun didn't care who it was, and asked him what happened.

"Mr. Li Yun, I will not say thank you for the time being. We will remember everything you have done for our Carnival Cruise Group. If the world has not been occupied by demons after today, we will personally go to the headquarters of Baiyun Technology to thank you. !"

"...You are quite humorous, just let's just say, why is the world occupied by demons?" Li Yun smiled.

"How Weiyi Island is already at stake!"

"Oh."

Oh, Li Yun sat down again, facing the sea, and asked the captain to move a table and find a drink.

Davis was stupid.

"Hahaha!"

Instead, the owner of the carnival, Arnold Donald, laughed in surprise: "I know Mr. Li, you are a superman, um, in Chinese, you are a great fairy! You will surely let the passengers on the Ocean Princess sail safely, yes. Bar?!"

"It's supernatural powers."

"Uh, yes, I will definitely study Chinese twice! What about Mr. Li...?"

Ignoring the other party's flattery, Li Yun asked again: "What happened on Haoweiyi Island?"

"There are more than three million people on Haowei Island, I am afraid that all of them will be killed, unable to escape, unable to be rescued..."

Arnold's voice was low and there was a vaguely deep fear.

Chapter 2360: Dilemma

Haowei, Oahu, Asan Pacific Division Command Headquarters, conference room.

Compared with the leisure and arrogance of the last time, the current five-star general Philip Davidson is arguing fiercely with several of his men-four-star lieutenant generals, and a group of staff members.

"I still recommend sending another plane to try to find out what happened in this mist!"

"Stupid suggestion! The plane fell out of control over the sky, and the submarine lost its direction after leaving the port. It is still drawing circles under the sea to this day! Tell me, would you send someone to die?"

"What should I do? You can't wait to die here!"

"What about the President's opinion?"

"Don't mention the President. Three Raptor fighters attempted to enter the fog and all crashed. The White Palace has authorized us to handle this matter!"

"Can the fog be wiped out? Let the White Palace cooperate with us and drop a large number of rain bombs from an altitude of 10,000 meters, so that the fog can't quickly cover the island!"

"Even if the fog is wiped out, the opponent can still create a large amount of fog to cover Weiyi again. According to the previous speed, we have at most ten minutes!"

"It's better than waiting to die!"

"But are you sure that after the fog disappears, the terrible loss of control will disappear? The other party is hiding in the dark, and the people here still have to die if they can't find the **** guy!"

"...At least we can escape."

Someone said such a sentence, instantly quieting everyone in the conference room.

Philip, who was sitting in the main seat, had a majestic and calm expression on his face. He glanced at the crowd and slowly said: "We are leaving, it is equivalent to giving up three million people on Weiyi Island. This kind of death and injury, even in the Second World War. It has happened, and it will replace the Zhenzhu Island attack and become the country's most tragic national death event!"

Everyone present fell silent.

If it is to that point, not only will they all take the blame and resign, but they will also be engraved on the pillar of shame, becoming the negative role of the "Hao Weiyi Island Fog Attack" incident!

"We have no retreat." A four-star lieutenant said in a deep voice.

But what to do?

Faced with hidden in the fog, casting strange spells to trap the three million soldiers and civilians of Weiyi Island behind the scenes, these generals who have experienced battles and possess countless powerful weapons can easily wipe out most countries in the world. , There is no way, Haoweiyi Island has become a prison that can't get in and out!

This prison, trap them all alive! !

"Or--" A staff officer whispered: "We ask Huang Xuanguo for help..."

This sentence silenced everyone in the conference room again.

Before, they even mocked Huang Xuanguo for being unable to eliminate even a fog, allowing the other party to wreak havoc in the capital of their country.

But now facing the fog in person, they find that they are inferior to Huang Xuanguo, trapped to death, 200,000 navy, army and air force trembling, dozens of powerful nuclear submarines, coastal defense guns all over the coastline, and three are in the port. The aircraft carriers that are waiting quietly are all turned into scrap!

Now someone has proposed to ask Huang Xuanguo for help, but no one opposed it!

Of course, no one dared to agree.

Once Huang Xuanguo is asked for help, the status of Country M will plummet. Moreover, the head of the White House and a group of Wall Street elites are besieging Huang Xuanguo's top technology companies. If they ask Huang Xuanguo for help, the encirclement and suppression will immediately become a joke.

Will be ridiculed by 200 countries around the world!
