

## Godly Choice 2371

Chapter 2371: Confused

Li Yun ordered him to report to the captain, and again picked up his cell phone and called Liu Xianxian.

The international star was already asleep, and after he was connected in a daze, he said, "Li Yun? What's the matter?"

Liu Xianxian's bewildered voice was very good. Li Yun couldn't help but smile and said, "Are you okay? Get up and look around to see if anything is happening."

"Oh."

Liu Xianxian got up obediently, his perfect body was even wearing a thin pajamas, but unfortunately, no one could appreciate the bewildering and lazy posture of this beautiful star.

"what?"

Liu Xianxian looked down from above the hotel, "I can't see it, it's all fog!"

She spit out her little pink tongue, "I dare not open the window for fear that too much mist will come in. Oh, yes, I have the pill you gave me by my side. If something goes wrong, I will take it... Li Yun, you When will it arrive?"

"Hey, don't be afraid. I'll be there in a few hours. Then I will pick you up and you will be safe."

"Well, hehe~, did you use that big whale to pick me up?" Liu Xianxian said expectantly. Others couldn't see who the people on the giant whale were from a distance, but she just glanced at it. Recognize that the tallest of the four women and one man is her boyfriend!

"Don't want to play in Xianfu?" Li Yun smiled.

"Although the fairy house is very safe and beautiful, there are big whales. Of course I have to experience it~, maybe I can get inspired and write another nice song when I sit on the back of the whale, right? Li? Yun~~~ Yun, just let me ride."

Big stars start to act like a baby, and Li Yun's bones are numb. Can anyone in the world be able to withstand the act of acting like a cute girlfriend from a beautiful girlfriend?

"Well, when everything is over, I will let you\*."

"...Bad!" Liu Xianxian blushed with shame.

"?"

Li Yun reacted quickly and coughed, "It's not because of you."

"Huh, anyway...you are a badass." Liu Xianxian resented like a little daughter-in-law who couldn't get her husband's pain, lying on the bed holding a soft quilt, her beautiful figure looming: "Have fun these days? Next time you have to accompany me too, and we will go to make a movie in the first month of school..."

"boom!"

A sky-shaking explosion came from the microphone, and then Li Yun heard Liu Xianxian's scared scream again, which made his heart tighten: "Xianxian? Xianxian?! What's wrong with you over there." ?!"

asshole!

Li Yun can't wait to fly to Liu Xianxian immediately and protect her!

"No, it's okay, it's the opposite, the opposite theater...it collapsed! Many people, many people are screaming..."

"What?! What's going on... Don't worry, don't worry, speak slowly, take the jade pendant I gave you, and you will be safe even if the hotel collapses!"

"Well... Li Yun, something terrible has happened!"

Liu Xianxian was still in shock. She came to the window and looked outside in shock: "Many people are walking on the street with guns and bombs. They, they set fire to the surrounding area with flame guns. These people... are all lunatics!"

"It's those mercenaries!"

Li Yun quickly determined that their identities were the mercenaries who had mixed into Haowei Island through various channels.

Their mission is really to destroy!

Catching the cover of the dense fog, and taking advantage of the 200,000 troops on Haowei Island who could not spare time to protect the people, they estimated that they would kill people when they saw them, and burn things when they saw them. Yidao is in complete chaos!

Chapter 2372: Xianxian, stay at the hotel

"Xianxian, you stay in the hotel. The load-bearing column of the high-rise hotel is very strong. Unless the other party drills and puts explosives inside, it will take a lot of explosives to break it."

Li Yun quickly locked in: "So you are hidden in the various rooms of the hotel. The gangsters have few people. They will not deliberately enter the hotel to search one by one. It is safe for you to stay inside!"

"Uh, uh, well, I'll listen to you, my agent is knocking on the door, I'll go out and have a look."

"Remember, hide it, don't let them find it, wait for me!"

Li Yun temporarily hung up the phone and immediately contacted Davis to let him set off at full speed and rush to Haowei Island as quickly as possible!

Although Captain Davis is reluctant in every possible way, because now Haowei Island has replaced the Ocean Princess and has become the focus of the global news media.

Whether it is marine creatures attacking the island or the unrest on the island now, they have strongly attracted the attention of netizens from all over the world.

Haowei Island is much larger than the Ocean Princess. There are three million people on the island. Reporters, wealthy people, sports athletes, stars, etc. are all on vacation on this beautiful island.

Now that Haowei Island is being attacked, these influential celebrities once again tweeted that they were trapped on the island in a crisis, which instantly detonated the world and made fans around the world worried.

Therefore, the captain didn't want to get close to the current Haowei Island anyway, so he wanted to hurry up and leave. It was terrible Pacific Ocean! He almost has a psychological shadow on the ocean!

However, Mr. Li has to listen to what he said. If Mr. Li gets angry and leaves, he really doesn't know how to cross the crisis-ridden Pacific Ocean and return to the Lican country safely. this).

"Attention, all tourists, please return to your room. The cruise ship is about to move forward at full speed and head to... Hao Wai Island!"

Through the cruise broadcast, the captain's words spread everywhere, and more than 10,000 people on board looked at each other.

"Go to Haowei Island?"

"Oh my God, now Haowei Island has become a hell! What are you going to do there?"

"Captain, don't go!"

"OMG, I want to jump off the boat and escape!"

"Whether it's gone or gone, Haowei Island is now being taken over by the garrison. Those bandits will not be rampant for long!"

No matter how the people on the ship protested, Captain Davis still carried out Mr. Li's order, and the cruise ship sailed towards the island that was attacked by the monster.

The giant whale followed closely behind, surprised everyone who saw it on the deck, and pointed their mobile phones at it.

"Haha, this big whale is two hundred meters long, just like a mother duck swimming with a duckling next to a 400-meter cruise ship!"

"Huang Xuanguo's Superman is so powerful, he can tame such a powerful monster!"

"Send a message to the people on Haowei Island, saying that we will bring a powerful whale to rescue them, hahaha!"

Everyone is having fun in hardship, and they are destined to live tonight. Whether they can live until the next day is still unknown.

Li Yun sat back in the chair again and took a sip of a cup of hot coffee delivered by the captain's secretary.

Xiao Mingzhu and Jin Liuli's four daughters have not yet returned, and Shangguan Ming is also helping the captain with the follow-up matters.

"Oh, a large group of people are calling, now I finally have time to see what the reward I just got!"

Li Yun focused his attention on the rewards given by the system, the innate womb known as the supreme treasure.

Just looking at it made him fall into silence.

too strong!

Chapter 2373: Congenital fetus

"Congenital Dao:

Passive: All attributes +100%, speed of absorption of aura +1000%, upper limit of holding aura +1000%, recovery speed after injury +2000%, immunity to most curses, immunity to most toxins, immunity to fate detection, reducing enemies by 50% Spell attack power, increase its own spell power by +100%, and automatically gain magical powers such as passage through the secluded, sitting on fire, entering water, breaking the ban, and protecting the wind.

Unlocked passive: ? ? ?

Active skills not unlocked: ? ? ?

Explanation: From this moment on, you are no longer you. "

After reading it, Li Yun had only one thought in his mind: my mother! !

This is no longer a question of whether it is strong or not. Innate Dao fetus is really of that kind, very special kind of rare, strong! !

There is only one word: strong!

Did Li Yun even have a bug in the system? He actually gave him such a strong physique!

All attributes +100%!

What is this concept? Li Yun's own attributes have now reached the peak of the innate realm, which is a full 500,000 points, and doubled again, it is a million attributes!

A reward that doubled his efforts in the past six months!

The speed of absorption of aura is ten times, the upper limit of the aura in the body is ten times, and the recovery speed of the body after injury is increased by twenty times. These three terrifying abilities allow Li Yun to hold ten times more aura than ordinary practitioners, and the combat power is doubled. The rise!

Congenital Dao fetus also comes with immunity effects, curses, toxins, and fate detection, most of which are ineffective against him!

What's more frightening is that Li Yun's innate Taoist fetus can affect the aura around him, forcibly reducing the enemy's spell attack power by 50%!

The soul and bright state will return to the virtual state, and the return to the virtual state will be transformed into the \*\*\*\* state.

If Li Yun confronts the Taoist White Crane again, it is estimated that his trick Jinguang Town evil talisman can be forcibly taken by Li Yun with one hand!

"My Cao! The system is not cheating, I am very satisfied with the reward this time"

"Congenital Dao fetus? What terrible physique is this? The supreme treasure is really strong!!"

Li Yun was very excited. After the treasure body was digitized, he finally knew why the protagonist was so strong in those fantasy novels.

Innocent body, flying fairy body, prison \*\*\*\* body, supreme bones, etc., all have their own immunity, enhancement, and weakening effects. Invincibility in the same realm is only a pediatrics. The more a few big realms, the killer is the person who has the treasure. What to do!

Li Yun has reason to believe that his congenital Dao womb is no better than those treasures. Other than that, the congenital Dao womb's own magical powers such as seclusion, sitting in fire, entering water, breaking the ban, and protecting the wind are enough. Let him go straight to Qingming, there is nothing to stop him from above and below.

Li Yun is now directly diving into the bottom of the Pacific Ocean, and the terrifying seabed pressure can't help him.

You can also fly directly up to 30,000 meters in the sky without relying on any aura, in the same row as the satellites, looking down on the entire earth!

What's more terrifying is that the Innate Dao Tire still has many passive skills, and even the active skills are not unlocked. As his realm improves, the Innate Dao Tire will become stronger and stronger! More and more terrifying!

"Congenital Dao Ti...This is too strong."

Li Yun's access to the system plug-in is already considered to be open, and he has seen many wonderful treasures, and the improvement of his realm is like eating and drinking water, all kinds of elixir, magical medicine, and the best magical instruments are readily given away.

but!

He was still shocked by the congenital Taoist fetus, and this thing made him almost invincible-as long as Li Yun's realm is further improved, the Void Return Realm will be easily squeezed, and the Soul Bright Realm can compete with it.

Chapter 2374: Blood Vessel Change

"but--"

After calming down, Li Yun lay on the chair, closing his eyes and thinking about the weirdness contained in the rewards given by the system.

"Why is it called Xian Dao fetus? Isn't the Xian Dao body more suitable? This thing itself is a physique, similar to the physique of the Vatican."

"and....."

Li Yun focused his attention on the final explanation, "From this moment, I am no longer me?"

What the \*\*\*\* is this!

I am no longer me. Does it mean that after obtaining the treasure, my constitution has changed and my DNA has also changed?

"Hehe, I was born in an orphanage, so I don't care about DNA, as long as the confidante beside me gave birth to my child."

Li Yun doesn't care much about the so-called bloodline change. After all, he is lonely and has no so-called Li family bloodline to inherit.

He is him, what he has become, what will the future Li family bloodline be like!

The important thing is that his soul hasn't changed, and he doesn't need to worry about what his physique becomes-besides, this is not a journey through rebirth. This body is not someone else's, but he has been using it all the time.

Li Yun laughed, because he thought of those readers who read novels on major websites. Some of them are particularly concerned about the journey through rebirth. They use other people's bodies, and they also cited it as a poisonous point. They were in the comment section with others. The noise was turned upside down.

"Forget it, don't worry about it, the bloodline changes and the bloodline changes, how can you get the congenital Dao fetus unchanged!"

Li Yun unilaterally believes that the phrase "you are no longer you" in the system refers to a bloodline change.

After all, his soul has not changed, it is impossible to become someone else.

"Break through the innate limit and break the fetal movement, it is... the fetal state of law!"

Li Yun quickly confirmed that his current realm is indeed the realm of Dharma in the ancient legends.

Before innate, the body is tempered. After reaching the limit, it is not as good as the fetal movement, which is the vague tremor of the magical fetus in the body. !

"After the fetus, is Yuan Ying?"

Li Yun guessed the realm behind. After all, the fetus needs to transform into a baby, isn't it a Yuanying? Of course, this baby is not a child, and Li Yun did not drink the water from his daughter's country and could not give birth to offspring.

Yuan Ying refers to the metamorphosis of the soul, which is like a new birth of the soul, so it is called an infant.

Li Yun remembered that the Taoist cultivator's Yuan Ying was also called Dao Ti, which was somewhat similar.

It's just that the cultivation system of Xiantian-Dharma embryo-Nasal Infant is different from that of Fanqing Sheng and their Qi-Refining-Returning to Void-Soul Ming. When I see her next time, I will learn more about it.

"Xiao Qian, I want to use some of the aura in the fairy mansion, don't panic!"

Li Yun conveyed an idea to Nie Xiaoqian, the spirit instrument of the Lotus Immortal Mansion, so that she would not be panicked by noticing that the aura was consumed for no reason.

For Lianhua Xianfu, aura is the foundation of its existence. A little bit of black feather butterfly will make you feel distressed for a long time, and whispered to Baba Baba, why is there less food?

"Okay, son."

After getting her reply, Li Yun closed his eyes and sat on the deck chair, blowing the sea breeze, and began to absorb the aura escaping from the Lotus Immortal Mansion.

Although Heaven and Earth began to have a small amount of aura due to the activities of the six gates, it is still very difficult to practice through this. Li Yun estimates that in the next one or two years, the aura is not strong enough for ordinary people to practice.

"I have never learned to breathe, breathe, and nafa, but I have a congenital Dao fetus, and I have entered the Dhamma womb again. In theory, I can absorb aura."

#### Chapter 2375: Breakthrough

The wisps of spiritual energy radiated from the Lotus Immortal Mansion on Li Yun's fingers, and he almost didn't need to do anything. These auras penetrated into his body as if cheering, and interacted with the true essence in the meridians (the true qi was purified by the earth to become true. Meta) merge to form a special existence.

"This is mana?!"

Li Yun silently felt the difference between true qi, true essence, and spiritual qi, and found that true qi is closely related to the human body and can strengthen the body, while true qi is purified true qi that can come out through the body and interact with the world.

Reiki enters the human body from the outside, as if it is food.

As for mana-or in Li Yun's body, this fusion of true essence and spiritual energy is a combination of the beauty of the two: it can not only strengthen the body, make the physical body incomparably powerful, but also attract the power of heaven and earth. Prompt the thunder and rain, walk against the wind!

"From the perspective of the human body, true qi is something in itself, and true essence is the human body's attempt to communicate with the outside world, just like a person's five senses and hands exist."

"Aura is completely the vitality that floats in the heavens and the earth, and its power is far beyond the true Qi itself in the human body."

"So, the magic practitioners directly absorb the spiritual energy, they will of course be stronger than the martial artist, but the physique is slightly worse."

"If a person concentrates on cultivating the physical body, that is, to maximize the practice of the body, it may not be necessary for a practitioner of magic!"

Li Yun compared these differences in the direction of practice, vaguely grasping the reason why there are so many differences.

It's simple: the aura of heaven and earth is declining.

The spiritual energy is scarce, and the ancient practitioners had to die out, or switch to cultivating true energy.

It is precisely because the upper limit of practice has been greatly lowered that it has split into the spiritual cultivation realm and the path of returning to the virtual realm, which is the path of spiritual cultivation.

"My current Dharma birth state is a more orthodox practice method!"

Li Yun laughed at himself, interrupted his practice, turned his head to look behind him, and smiled: "Xiao Liuli, are you all done?"

Xiao Mingzhu's four daughters stood at the door, and Xia Feiyao was a little embarrassed:

"Husband, did you disturb your practice?"

Just now, Li Yun exuded a powerful aura, with white light lingering around him, like the light of a \*\*\*\* illuminating the surroundings, so that they did not dare to approach.

"It's okay, come here."

Relying on the ability of the congenital Dao fetus to quickly absorb aura, the true essence in Li Yun's body has all turned into special mana—that is, the true essence melts the aura, which allows him to be physically strong enough to contend with the perfect martial arts master at the master level. And can cast all kinds of mysterious spells.

For example, Nine Heavens Thunder Talisman, Li Yun now injects his special mana, the power will be more than five times stronger than before!

And his own moves, such as the Longming Sword Art, can get the bonus of Innate Dao Ti, and the power soars by more than ten times!

A single punch is enough to explode the Grandmaster Realm like Sakura Country Dong Zhao Jiansheng, and the enemies of the Refining God Realm are probably slashed with a single sword, such as the Linghuo Dongzhu.

Of course, a guy like Linghuo Guru has many top-grade magical weapons, and Li Yun estimated that he would have to take a few punches to explode all the top-grade magical weapons on his body to injure his body.

But in any case, relying on the advancement of realm, plus the acquisition of the innate Taoist birth, his current strength is comparable to that of the Void Returning Realm. As for whether he can defeat the Void Returning Realm powerhouse like Baihe Taoist and Venerable Da Ri, Li Yun is confident, but Can't say for certain.

"Li... Yun?"

Xiao Mingzhu came over with a strange look in his eyes.

Chapter 2376: Small island

"Why look at me like this?" Li Yun raised his eyebrows, took a sip of the coffee cup elegantly and handsomely: "Are you fascinated by my handsome appearance?"

"cut!"

Jin Liuli gave him a roll of eyes, and Su Muxin and Xia Feiyao laughed secretly, came forward and took a chair and sat next to him.

Previously, it was an open-air dance party, and there was no shortage of chairs.

After thanking him, Xiao Mingzhu smiled and sat down on a chair Xia Feiyao helped her, and said: "Li Yun, you \*\*\*\* has indeed become a lot more handsome, and your realm has been broken?"

The three women all looked at Li Yun. They hadn't noticed it before. Now that Xiao Mingzhu said that, they realized that the man who had been playing with them for six days, or more than seven days, had an inexplicable temperament.

Floating like an immortal, with a flying look, especially a pair of eyes, as bright as the stars in the sky, emitting a dazzling bright light!

"Dad is so handsome~"

Su Muxin held her face and made a nymph, she wanted to go back to the room again.

"!!!"

Xiao Mingzhu glanced at Su Muxin, who was considered a good friend, with a weird expression. After a few days of jokes, this rich daughter of the Nantian Science and Technology Group can even speak such shameful words?

Xia Feiyao blushed and pulled La Su Muxin's sleeves. Although she had heard more shameful words, this place was in the public after all!

"Ahem!"

Li Yun restrained his mana fluctuations, restored his aura to ordinary, and changed the subject and said: "If you have felt a little bit earlier, you can formally embark on the path of immortality cultivation!"

"Huh?" x4

The four women all looked at him.

"You also have ways to cultivate, but the best way is to achieve innate Consummation. Until then, I will guide you."

"I really want to, hehe." Su Muxin stepped forward and kissed, glanced at Xiao Mingzhu, chuckled, and said in a low voice: "Daddy better...well, try to teach us, we will definitely study hard at night!"

".....Snapped!"

After teaching the unbehaved daughter, ignoring Xiao Mingzhu's "cannibalistic" stare at him, Li Yun said with a serious face: "Budo and immortality have something in common, and you don't have to rush to practice spells. Everything will happen in the future."

"playboy."

Xiao Mingzhu gave him a white look, and lying on the chair with two slender and round legs overlapping, her exquisite face was slightly confused, and then she stood up and walked to the deck, not knowing what she was thinking in a daze.

Su Muxin covered her mouth and smiled, "Mingzhu must be...well, what."

Xia Feiyao also stood up and walked to the deck, seeming to be talking to her in a low voice, the relationship between the two is very good.

"?"

Li Yun asked questions throughout the whole process, glanced at the comfortable squinted eyes lying on the chair, folded his hands on his lower abdomen, and played with Jin Liuli who was tired and wanted to sleep all night.

She was not interested in the conversation just now.

So what is thinking in the girl's head?

"what!"

Xia Feiyao suddenly exclaimed, "Husband, come and see, it looks like an island in front of you!"

"Good Weiyi Island is here?" Su Muxin jumped up, and ran to the deck happily in three and two steps, widening her eyes to look hard, and she saw a dark island faintly appearing on the sea under the moonlight.

"Strange." Xiao Mingzhu frowned: "How did Haowei Island become so small? Although it is also shrouded in dense fog, Haowei Island should be larger than an ordinary county town, a full 10,000 square kilometers. !"

"It's not Haowei Island in front of you!"

Chapter 2377: Full of monsters

Su Muxin, who often travels abroad by plane, said with certainty, "It's not only small, but it's not on the map at all!"

From Huang Xuanguo and East Asia, take a boat to Hao Wei Yi Island. I can't see any islands on the map. Because of this, Hao Wei Yi Island is so important. It is simply a natural military base. Who will occupy it? , Whoever has a broad strategic depth!

"Mu Xin, you call to let the ship..."

When Li Yungang wanted Su Muxin to call the captain to stop the ship, his mobile phone rang, and when he picked it up, it was the captain who was calling.

"Mr. Li, the big event is not good, a mysterious island appeared in front of us, what shall we...now?"

"Mysterious island? Have you confirmed that you haven't seen it before?"

"Of course! I have been on this road for thirty years, and I have never seen this mysterious island, and I have never seen it before!"

"Stop the boat first, and wait for me to see."

"Huh? Take a look?"

Captain Davis was full of doubts. Then, from the window, he saw a figure on the deck in the distance rising into the sky. Holding a dazzling flame sword, he landed on the island and cut it down with a single sword.

"boom!"

A large group of flames erupted, melting the mist that enveloped the entire island, causing a group of people on the boat to cry in exclamation.

But before their exclamation fell, there was a loud roar from the island that was louder than theirs.

Countless monsters screamed! !

The crew on the cruise ship used high-power searchlights to illuminate the distance, and everyone clearly saw that countless monsters were hidden in the mist and crawling on the island. After being alarmed by Li Yun, they all roared.

"Long-footed sharks, swarms of crucian carp lying on the shore, seagulls, three octopuses full of tentacles, blue jellyfish, lobsters with pincers about the size of a human..."

Xiao Mingzhu couldn't believe his eyes. These monsters completely destroyed the natural evolution of living beings. All kinds of strange appearances were provoking God's dignity, completely incompatible with biology!

The person standing on the deck was stunned. The monster on the island was much clearer than the video of the reporter who risked his death to the pier on the Internet!

Especially those with huge bodies, such as octopuses with tentacles more than ten meters long, and blue yingying jellyfish, which can be clearly seen even if they are a kilometer away!

"Oh my god, it's all monsters!"

"My God...Is the ocean already the realm of the devil?!"

"I swear that I will never go to sea again."

"Huang Xuanguo's Superman, save me, oooooo, it's terrible!"

The tourists on the cruise ship panicked again, but they were on the ship and had nowhere to run. They could only hope that Huang Xuanguo's super-man would kill all the monsters on the island.

And the horror scene of the gathering of monsters on the small island spread to the Internet, once again sparking discussion among countless people.

"Wait, that is to say, all these monsters are now on Haowei Island?!"

"Oh my God! My home is by the sea, am I going to escape to the interior?"

"Why are there monsters in the Pacific Ocean!? Who can explain!"

"There are three million people on Weiyi Island. How many murders will you die tonight? Terrible."

"Everyone, the end is approaching!!!"

Alice, who was coming here at full speed in the Atlantic Ocean, immediately recognized that the vague person holding the flame sword was Li Yun after seeing the relevant video on the Internet!

"He... is stronger than last time!"

The princess of Never Setting Sun murmured to herself, her eyes glowing with soft radiance.

Chapter 2378: Abandoned town

"These monsters should all be mutations produced after absorbing aura!"

Li Yun held the Leap Fire God Sword and killed dozens of mutated marine creatures with a single sword, and landed steadily on the island full of aura and monsters.

This small island is not big, it is about three or four schools put together, it is about the size of some small towns, and the ground is full of seaweed that has been stimulated by aura, crawling everywhere.

The reason for using the word "small town" is because Li Yun vaguely saw a dilapidated ruin in the center of the island.

"Ruins? This island should have just emerged from the sea. Where is the civilization relic in the Pacific Ocean? Could it be that it floated over from the mainland?"

Li Yun was full of doubts, and after another sword passed, the turbulent flame swept all the monsters on the road, causing everyone on the shore to exclaim again.

The mist began to cover the island again. Li Yun looked up, ignored it, and walked towards the ruins.

This is a ruin of an ancient civilization that is so damaged that it can hardly be seen.

The tiles were almost completely broken, the collapsed walls were corroded by the seawater so that the bricks and tiles were made of no material. Pots and pans and other human activities leftovers could not be seen on the ground. If it weren't for this piece of ruin and the rocks on the ground, it was incompatible. , Put it somewhere else, Li Yun would definitely not dare to confirm that this is a man-made wreck.

It's too broken.

This place seems to have gone through millions of years of erosion. If it weren't for the islands to suddenly emerge from the bottom of the sea, I believe that in a few decades, this place will be submerged in the long river of history.

"Where is this place?"

"Why can ordinary stone buildings resist the corrosion of sea water?"

"Theoretically, it should not be more than 30 years of being abandoned here. No matter how far away, the steel will be corroded out!"

Standing on the ruins covered with moss and traces, Li Yunshi holding the Leap Fire God Sword, thought of a possibility.

Here, it should be the overseas base of Liudaomen or Hidden Sacred Valley.

Only by relying on the power of spells can we build this small town with fragments and bricks on an island made of rock!

But it's still a bit strange, why did Liudaomen build such a large activity area here? Thousands of people can live in this ruin, so many practitioners in the six gates?

"Could it be that.....?"

Li Yun bent down and picked up a slap-sized broken tile. The style was not much different from ordinary rural tiles. The color on it had been corroded clean, and the tiles showed a grayish appearance, and...

The stone island at the foot is of the same material!

In other words, these tiles are all made from local materials, and they are made into tiles by hard firing with stones!

"This mysterious firing technique can only be explained by spells. Perhaps this is the base of the Six Doors thousands of years ago. It is not surprising that it can be preserved for so long."

Li Yun sighed, and squeezed the tiles casually, preparing to crush them.

Giggle.

The slap-large tiles squeaked in his palm, but they abruptly withstood Li Yun's growing strength!

"What the \*\*\*\* is this?!"

Li Yun was shocked, his five fingers increased his strength, but the tile just withstood his kneading, only slightly shrunk, just like a pinball pinched by an ordinary person, but not broken!

"I go."

Li Yun was overwhelmed with shock. His current strength is to grab some industrial alloys. He can also round and flatten them with his hands. If he attacks with all his strength, he can blow up between the building's load-bearing pillars with one punch and hit the ground, which can cause a battle. A small earthquake created a lake in between.

But now there is nothing to do with a piece of broken tiles?

Chapter 2379: Evil island

"I don't believe it!"

Li Yun threw the tiles up, and the Leap Fire God Sword in his hand flashed by, and the power of the blue flame erupted to scare the ocean monsters on the entire island back again and again.

boom!

The tiles were bombarded onto the ground, smashing... a small hole.

Just a finger deep.

"..."

The corner of Li Yun's mouth twitched, and the island became refined. Could it be that the surrounding aura was too abundant, causing everything here to mutate, even the ground is so hard?

But this is too evil!

Li Yun used the Leap Fire God Sword into the ground, and with a sneer, the tip of the sword could barely pierce the stony ground. No matter how much it was, it would be impossible.

Even the terrible fire, which is known as the top spirit fire, has no choice but to heat the stone ground of the island. It is impossible to melt it into magma.

"Brother Li Yun, how is it?!"

Jin Liuli's voice came from a distance, and she was only willing to call Li Yun brother at this time.

Li Yun looked back. Through the fog, he could see that the cruise ship was approaching. It seemed that they had ordered the captain to approach the trail. Jin Liuli and Xiao Mingzhu were still standing on the deck, shouting at him.

"do not come!"

He was sure that if Jin Liuli hadn't said these words, she would definitely want to jump off the cruise ship and come to this mysterious island to take a good look.

I didn't hear her answer, he was probably puffing up dissatisfaction. Li Yun ignored it and continued to walk around the ruins.

In the end, I only found a small tripod with the palm of the hand, which looked similar to the spiritual furnace used by the spiritual fire master to refine the magical artifacts. Li Yun suspected that it could be stimulated by injecting spiritual energy or using a certain method, but then I thought about it. If it was a magical artifact, it would have been taken away by the people of the six doors.

Moreover, after it has been corroded for so long (at least several thousand years), even the best spirit weapon will be broken.

However, after a rare visit, Li Yun took this thing away, preparing to give Jin Liuli that girl as a gift to satisfy her curiosity.

"gone."

Speaking softly to the ruins, Li Yun's figure rose from the sky. He didn't need too much spiritual energy consumption, and he didn't use Lingxiao's stepping on the clouds. Now, with his congenital Dao tire, he can The sky soars freely.

The monster on the island was in a commotion, and quickly lay down on the ground quietly, swallowing the massive aura that emerged from nowhere, and the body was still changing rapidly.

Stronger, stronger, more terrifying.

Li Yun even suspected that if these monsters continue to consume aura, they can really occupy the entire ocean in the future!

But he still has no good way to deal with the monsters that are constantly climbing up the island from the bottom of the sea. As long as the aura and the island are still there, the monsters can't be killed at all, and the island is so strong that it can't be exploded with nuclear bombs.

"Husband!"

"Dad, how is it?"

"What's on that island?"

"Brother Li Yun, there are so many monsters there! I want to take a look~"

When Li Yun returned to the deck, the four women immediately surrounded him, and even the secretary who was standing at the door of the cabin could not help getting closer, ready to hear how terrifying the island was.

-People are like this. Even if they know that too much knowledge will bring disasters, they are still curious about the mysterious and terrifying things.

Looking at the captain's secretary, Li Yun thought a little, but he didn't know where to start.

There are too many mysteries on the island waiting to be solved!

"what is this?"

Jin Liuli held Li Yun's hand with curious hands, carefully took the small tripod in his hand, and played with it in the white and tender palm.

Chapter 2380: Devour

"looks great!"

Playing with a small tripod about the size of an apple, Jin Liuli exclaimed.

This small tripod is a bit dirty, but the shape is very different. After being eroded by the years, the remaining traces are even more fascinating.

It seems to be the lines of the avenue, exuding the breath that fascinates mortals.

The most special thing is that the small tripod has a strange weight, and he can feel the heavy weight in the palm of the palm. Jin Liuli actually feels that throwing the small tripod out, it is estimated that it can knock over a shark-an ordinary shark, without mutation. Kind.

"I don't know what it was. I picked it up on the island." Li Yun smiled bitterly. "There is a ruin left by human activities on the island. I suspect it is a cultural monument thousands of years ago."

He has PhD-level archaeological knowledge, but he couldn't find anything familiar in the archaeological world in the ruins, such as Wuding, Sanxingdui, Niheliang ruins and other related objects, which he couldn't see in the ruins.

If it is not the ancient civilization site of Huang Xuan Kingdom, it can't explain why there is this small tripod.

"Civilized ruins?!"

The four women said in unison, staring at Li Yun tightly.

"Probably a ruin silent on the bottom of the sea..."

After talking to them and satisfying Jin Liuli's curiosity, Li Yun smiled openly: "I don't understand it at all, there are too many mysteries, so let's talk about it later."

Before the four women recovered from the shock, Li Yun turned his head and asked the secretary to contact the captain, bypass the island, and continue to Haowei Island.

"Yes, yes, Mr. Li!"

The secretary woke up suddenly and hurriedly took out the phone to call the captain-he heard a little cloud and mist, there are archaeological remains on the island?

"It's... fascinating."

Xiao Mingzhu used the word fascinated and looked at the small island that was once again shrouded in mist.

In the depths of the Pacific, there are traces of human activities thousands or even tens of thousands of years ago. The years experienced by those magicians are really enviable.

And the excitement of digging into these historical relics and the feeling of curiosity being satisfied are indeed extremely fascinating.

"I really want to see it!"

Jin Liuli licked her lips with her little tongue, and looked at Misty Island reluctantly. Unfortunately, she also knew that Brother Li Yun was going to Weiyi Island to save his old friend, so there was no way to explore the island now.

"Nothing to look good." Li Yun smiled helplessly: "If you want to fight with monsters, you can let go of your hands and feet when you get to Haowei Island, and rush to the monster group to get a whip."

"Huh~"

Hearing the ridicule in his words, Jin Liuli proudly said: "If you don't tell me, I will do it. I will save millions of people on Weiyi Island. No one in the whole rivers and lakes has a more feminine temperament than me. Those who look down on me are shocked~, hehe."

As she said, she held the old small tripod and waved it back and forth, and several people were amused by her.

Li Yun shook his head. Just about to sit down, there was a sudden movement behind the cruise ship.

"what!"

Everyone screamed, the giant whale that had been following them unexpectedly rushed to the small island, suddenly opened its mouth like a small fish and shrimp, and brought countless demonized marine creatures to the island. The thick fog on the mountain was swallowed in my mouth!

Woo~!

The excitement of the giant whale sounded loudly, and this huge cry was shocked several times, as if the sea was shaking, and the cruise ship was also shaken up and down, just like everyone's heart was also lifted.

This call is terrifying.

"return!"

Li Yun issued a divine thought and ordered the giant whale to keep up with the cruise ship.

But this greedy big guy just flicked his tail, and his 200-meter body directly hit the island, crushed and swallowed crazily, stirring up the fog and turbulence, the roar of monsters was endless, and the blood of various monsters dyed the entire island bright red.
