Chapter 2391: Different history

Hyun Sung Tie?

Without waiting for Li Yun to ask questions, Fan Qingsheng explained: "This is a special mineral that only exists in ancient books. It is said that it is a special mineral that can only be found outside the star realm. The method of creating spiritual weapons has been lost."

"Meaning this thing is really a long time ago, right?"

"Um."

The Sage of Fanqing hesitated and said, "We can't find any refining materials that can match the Xuanxing Iron. The history of the Hidden Sacred Valley is only five thousand years old. If you go up, there will be nothing. Know."

Xiao Mingzhu's eyes lit up suddenly.

In other words, when the Hidden Sacred Valley was in a wild state outside, it already had a systematic text, and it kept the historical records purposefully, and it has been preserved to this day!

This is quite a terrible thing.

It should be understood that the outside world did not systematically record history until Sima Qian wrote the "Historical Records".

However, the Hidden Sacred Valley had clearly recorded the dynasties and customs of the time before the Records of the History!

This made Xiao Mingzhu, and even Su Muxin and others very curious, how is the history recorded by the Hidden Sacred Valley different from the history found by outsiders?

"Did it have been deliberately destroyed?" Li Yun asked her, Fan Qingsheng shook her head, saying that she didn't know why there was no previous history.

"Master Saint~"

With a sweet tone and smile, Su Muxin asked coquettishly: "What did the Xia Dynasty look like before? Have you seen relevant history in the Hidden Sacred Valley? Is it not convenient for Fang to reveal it? Well, it's not convenient. It's okay, I, I'm just curious~"

All of them looked at Master Saint, with a curious look in their eyes.

Fanqingsheng's tone was flat: "History is the same as the outside world, except that the population is a bit larger. The Hidden Sacred Valley struggled with Liudaomen and participated in the change of the Xia, Shang and Zhou dynasties, and was also erased."

Her words were as stingy as ever, but everyone could still understand.

Before the Han Dynasty, the order was Qin, Chunqiu and Warring States, Zhou, Shang, and Xia.

Earlier dynasties, the so-called period of the Three Emperors and Five Emperors, have almost zero historical records, and only a few myths and legends have been handed down.

The meaning in the sacred words of the Fanqing and Qing Dynasty means that before the Qin Dynasty and the Spring and Autumn Period and the Warring States Period, the population was actually larger than recorded in history. At that time, practitioners such as the Hidden Sacred Valley and the Liudaomen were still active in the outside world. Pay respect and participate directly in the change of dynasty!

Both sides supported the princes of one side, formed an army of practitioners, and used various powerful spells to move mountains and fill the sea. The army at that time was definitely much stronger than the later feudal era!

The contending of a hundred schools of thought in the Spring and Autumn and Warring States period was the result of a group of practitioners who did not avoid the world, fighting for beauty?

If it were, then the history at that time was really dazzling, and it could be called Huang Xuanguo's most glorious period.

But after the Qin Dynasty, hundreds of families returned to seclusion and belonged to the valley, so there was a hidden sacred valley?

"Feng Shen Bang?!" Li Yun blurted out. He immediately thought of this myth and legend. The saints, Da Luo Jinxian, Jinxian, Tianxian and other gods went down in person, and each supported King Shang Zhou and King Wu to attack each other, and various powerful immortals. There are endless devices, immortals are killed like ants, the soul is placed in the list of conferred gods, and there will be no relief forever!

"?"

From the look in his puzzled eyes, it was obvious to Fan Qingsheng that she didn't know what the Fengshen Ban was.

Li Yun was taken aback for a moment, the Hidden Sacred Valley and Liudaomen participated in Zhou Wuwang's defeat of Zhou. Don't you still know the Conferred God List?

Chapter 2392: Nuwa Empress

However, on second thoughts, the Fengshen List is quite disgraceful to the gods-or to the practitioners. After all, the soul is sealed in the Fengshen List and can only be ordered by the person who holds the list, that is, the Haotian God.

It is not impossible for these deeds to be erased.

"Fengshen Bang tells the story of King Wu's defeating Zhou. The story starts with King Shang Zhou and Nuwa..."

While the cruise ship was on the way, Li Yunzheng wanted to arrange the beautiful poem of Shang Zhou Wang, which is the poem written by Wang Zhou in the Nuwa Temple, "Pear flowers are beautiful with rain, and peony cages are beautiful with smoke. But it is enchanting. Be able to move, get back to the King of Changle." When Shihainei suddenly throbbed, the thought only reached "but it is enchanting", and she was abruptly disturbed by the vibrations in Shihainei, and had to shut her mouth. .

Even half a line of poems, and even the name of Empress Nuwa hasn't been fully stated!

"Why is this?"

Li Yun was taken aback, but he couldn't find anything unusual when he saw the sea inside.

Vaguely, it seemed that he was slapped abruptly when he wanted to say that **** poetry blasphemed the Nuwa Empress!

Is this the power of a saint?

Li Yun was taken aback again, and he blurted out without believing in evil, "Nuwa Empress!"

The women looked at him in surprise.

The world was quiet, without any strange reaction.

Li Yun settled for a while, thought for a while, and tentatively said: "Tongtian Guru? Lao Jun? Hongjun Patriarch? Zhun mention!!?"

There was no response, it seemed that he was thinking too much.

"It's nothing." Li Yun smiled: "The cause of the Fengshen Kingdom is because the king of Shang and Zhou wrote a poem to blaspheme Empress Nuwa. That verse is like this..."

There was no reaction this time. Li Yun finally confirmed that he was thinking too much just now. All the power of the saint is nonsense. The gods in the world are already dead, and the saints are even less likely to pay attention to him.

Otherwise, Li Yun carried the system on his body, and the saint had already considered him!

I gave them a rough talk about the myths and legends of the Romance of the Conferred Gods. Xiao Mingzhu and the others were amazed by it. They had never heard of so many gods fighting together, and fighting for a little face would kill you or die.

"I can confirm that you are not talking about the history in the Hidden Sacred Valley." Fan Qingsheng glanced at him, meaning it was very clear, what kind of mess you are talking about, there were so many gods, Hidden Sacred Valley thousands of years ago. It will not exist, but will be called Heavenly Court directly.

Li Yun smiled, "I just thought about this book, forget it, don't care about it, Qingsheng, what do you think of such a small island?"

"Is that very strong island?"

"Correct!"

Saint Fanqing pondered, and said: "If you repeatedly bless and temper with a strong formation, it can indeed make the ground hard. This will take a long time. I need to see it with my own eyes."

"Forget it, there is no time to go back now, let's go to Haowei Island first!"

"it is good."

Sage Fanqing nodded lightly, agreeing to his arrangement.

Li Yun said again: "This time the Six Dao Sect's actions are very big. The other party has at least multiple Void Returning Realms. What arrangements do you have for Qing Sheng?"

Xiao Mingzhu looked at the saint lady.

The hidden sacred valley is said to be able to contend with the six sacred gates. Each of them has a saint and many powerful elders and venerables of the Void Returning Realm. But so far, Xiao Mingzhu has only seen the powerful side of the six sacred gates, as for the hidden sacred valley. , Is terribly low-key, vaguely meaning to be led away by six doors.

Therefore, she still has some doubts about whether the Hidden Sacred Valley can fight against the six gates-of course, Xiao Mingzhu also believes that the strength of the Saint Fanqing is enough to be called the "Master Saint."

It's just... the six gates are too strong!

Chapter 2393: Arrived

"I, Senior Nanhua, Elder Wu." Sage Fan Qing glanced at Li Yun. When Li Yun thought that Sage Qing would add him, the sage lady said leisurely: "There is also the leader of Elder Wu. There are two teams of Jade Devil squads, a total of twenty-four people."

Li Yun looked embarrassed, "What about me?"

He is the husband of the Saintess of the Hidden Sacred Valley, is he half of the Hidden Sacred Valley? Hey-hey.

Sage Fanqing looked at him with a pair of beautiful eyes. After a while, he asked: "Li Yun, your physique seems to have changed?"

"Hey, yes!"

Li Yun said mysteriously: "My congenital Dao fetus has been stimulated. Don't even think that I am only in the Dharma fetus realm. I dare to say that I am not necessarily my opponent in the Void Return Realm!"

He wanted to know if Qing Sheng knew about the congenital womb, but judging from her demeanor, he didn't seem to know.

"Congenital Dao fetus?" Su Muxin suddenly thought of something: "I strengthen my physique, it's not our double... Xiu, um, hehe~"

She blushed, embarrassed to continue.

Xia Feiyao and Jin Liuli's two daughters also blushed. They have come down to practice with Li Yun these few days and have gained a lot of benefits. In a few days, they can only spend a few months of hard training, which makes Jin Liuli. There is no excuse to refuse.

Old Li Yun blushed, coughed, and said, "The congenital Taoist, you can understand it as a super-strong physique that can greatly speed up your cultivation, and it should be no worse than your holy body, Qingsheng."

The holy body makes Qingsheng born with keen intuition, unparalleled insight into yin and evil energy, malice, resentment, and ghosts, and the practice is twice the result.

Li Yun suspected that the other saint, Consort Wan Qing also had a special physique, but she didn't say it.

"Holy Body..."

Xiao Mingzhu couldn't help looking enviously towards the Vatican, the holy body and the identity of the saint, complementing each other, making her appear more noble, holy, and inviolable.

"So, the odds are greater."

The Sage Fanqing did not express any special expression to the congenital Taoist fetus. The mystery in Li Yun's body is no less than the hidden sacred valley itself.

"Okay, it should be coming soon, get ready."

The women stopped talking and waited for the cruise ship to arrive at Haowei Island.

Li Yun checked his inventory. There were a lot of bags in it, but considering that even one or two more golden equipment would not help much in the next battle, he didn't choose to open it, so I'll talk about it later.

There are people with six gates, as well as the Saint Fanqing, plus the aircraft carrier fleet led by Xia Ming and Alice is behind him at any time to support, Li Yun has a strong confidence that he can break through the blockade of the six gates on Haowei Island!

The Ocean Princess is extremely quiet. Most of the tourists have already returned to the cabin to sleep. Some people have even tied themselves to the bed with fabrics to act as a safety belt to prevent sudden hits by monsters.

The rest of the people who are anxious and can't sleep are hanging out on the cruise ship, the shops on the ship are reopening, some people start to drink and have fun, and the casino is full again. These people have entered the state where the end of the world is about to come early.

Li Yun closed his eyes and rested, and Su Muxin's women whispered in his ears, and Xiaodie was forced to play with them.

"Arrived!"

Standing on the bow of the ship, Xiao Mingzhu, who had already changed her evening gown, put on tight sportswear and a jacket, spoke to Li Yun.

"finally reached?"

Jin Liuli came to the bow of the ship in three steps and took two steps. When she looked up, she saw a large area covered by dense fog in the distance.

Good Wai Yi Island, here it is.

Chapter 2394: Gather together

Hao Weiyi, located in the Pacific Ocean, covers an area of 10,000 square kilometers. It is composed of 8 large islands and 124 small islands, forming a crescent shape. The largest Hao Weiyi island is

twice the total area of other islands, but the island The population is mostly concentrated on Oahu, where Honolulu is located.

Haowei Island has a tropical oceanic climate, with a mild and pleasant climate all year round, with a forest coverage rate of nearly 50%. A large number of coral reefs form a special ocean scenery. In addition, there are two active volcanoes on the island, attracting millions of tourists every year. .

And, attracting people from various countries around the world to settle down, these rich people buy real estate here, every year they come here for vacation, leisure, and enjoy the island scenery.

Locals, permanent population, plus tourists, there are definitely no less than 3 million people trapped on Hoi Wai Island nowadays!

Almost every country on the planet has tourists stranded on the islands, besieged by monsters landing on the ocean, and can only wait helplessly for rescue.

To make matters worse, three hours ago, a group of thousands of people suddenly began to burn and looting on various islands, and there was a fierce gun battle with the policeman and the garrison on the island.

And because of the dense fog, the destructive power of these crazy criminals is far beyond imagination!

"Li Yun, I saw you."

When receiving a call from Alice, Li Yun was quite surprised. He went to the bow and took a look. He saw a dozen frigates on the left front and the USS Elizabeth aircraft carrier ship protected by them!

"Alice, you guys came very quickly." Li Yun smiled, keeping his eyes on the Elizabeth. As a 100,000-ton-class sea killer, Elizabeth's deck carried more than twenty fighter jets. .

And above it, there are several fighter jets that have already lifted off, circling and alerting to warn all approaching enemies!

Such a powerful and mighty Big Mac, even in the face of the six disciples before and the dozens of giant monsters they control, Li Yun believes that the winner will be the Elizabeth at the feet of Alice!

"Hey, we entered Celia, Alaska, and crossed the White Strait, and just arrived with your ocean princess~"

Alice's tone was not without complacency, so Li Yun was speechless for a while.

Siberia's battle bears the territory of the country, and Alaska needless to say, the famous casino city.

In theory, Alice swaggered into these sensitive areas with the USS Elizabeth aircraft carrier, and would be strongly resisted by these two countries, and even directly launched missile attacks.

But tonight, it's different.

"The fighting bear country has arrived. Their aircraft carrier is parked in the sea a hundred kilometers away. The other three aircraft carriers of Lijian country have also returned home, but they do not feel rushed into the thick fog. Ah San and you Huang Xuanguo The fleet is still on the way, other countries... Except for the Lanxi country and the will country, other small countries don't care about it."

Without an aircraft carrier, you are not even qualified to take a look tonight!

Of course, Taiguo also has an aircraft carrier, but their "Chakri Nalubert" has a displacement of only 7,000 tons. It is also in the bar. They don't even have a carrier-based aircraft. It is a target on the sea when it drives out. Swollen face filled with fat.

Li Yun smiled: "It seems that everyone is not afraid of death, which is beyond my expectation."

Chapter 2395: Purpose of each country

"Li Yun, are you underestimating us?" Alice said dissatisfiedly: "The soldiers of the Nation Never Settle Never Fear the Battlefield. Even in the face of a monster that has never been seen before, we will raise our hands. The gun will save the citizens of our country home!"

Li Yun was stunned. After thinking about it carefully, he did not have the idea of sacrificing on the battlefield, let alone the idea of a soldier who left everything behind and obeyed orders.

In his concept, facing invincible monsters, finding a way to avoid them, and finding a better way to defeat the monsters is the right approach!

But in the eyes of soldiers, there are only commands!

"Sorry, I used my own thinking to infer your actions. It was my fault." Li Yun didn't hesitate to apologize, and would not feel that he was always right just because he became stronger.

"No, nothing."

Alice seemed to be surprised by his apology. After a while, she said, "Li Yun, you don't have to apologize. Didn't you save the people on the Ocean Princess and come to Weiyi Island without hesitation?"

"That's because I'm great, and I have the confidence to protect myself."

"...Poof."

Standing on the deck of the Elizabeth aircraft carrier, Alice laughed and joked in a soft voice: "Well, Li Chaoren, you are an invincible existence. In this operation, we will never set the sun country willing to cooperate with you, and... Accept your orders to a certain degree!"

The term "you" is not based on Alice's point of view, but from her country. She is negotiating with Li Yun on behalf of the country that never sets.

"What do you want?" Li Yun asked straightforwardly.

"Rescue our citizens, this is one of them."

There were a lot of generals standing beside Alice. They were all paying attention to the conversation between Her Royal Highness and the Superman Huang Xuanguo, watching Li Yun's words intently.

"Second, do you want to live on Haoweyi Island for a period of time?" Li Yun asked with a smile.

"Who knows~" Alice said playfully, "So many of our tourists are on Haoweyi Island. It will take time to pick them up and take them back. Let's find a way to break through the fog."

Li Yun got it.

The purpose of this princess is nothing more than three.

The first is to see mythological monsters up close, collect information, and establish countermeasures to prevent your country from being attacked in a hurry.

The second is to save tens of thousands of citizens.

Third, if there are conditions, such as the collapse of Lijian Country after tonight, they will find an excuse to stay on Haoweyi Island for a period of time.

As for the period of time, one year, ten years, or 99 (long time) years, I'm not sure.

Storm is coming.

Li Yun sighed lightly in his heart and smiled: "I hope you can achieve your goals and won't blame me for this."

"We are ready to sacrifice!"

"Really? Then I can rest assured, you can wait in place and wait for my news."

"Can."

Alice nodded and said, "When I see you, I will introduce you to some people, um, people like you are our never-sunset country...Superman!"

"?"

Li Yun looked confused, there is also a Superman in the EN country?

After hanging up the phone, Li Yun briefly talked about the arrival of Alice with a fleet. Xiao Mingzhu expressed the same view as him: the storm is about to come.

The world's top ten powerful nations have sent a large number of fleets. At least ten aircraft carriers are waiting quietly on the sea, fighter jets hovering in the sky, nuclear submarines lurking on the seabed, and even outer space, there are man-made ones. The satellite is aimed at this sea area!

Chapter 2396: Shelter from water

On land, the missile bases of various countries have opened their silos. As long as there is an order, they can launch intercontinental missiles at any time to bombard the monsters on Weiyi Island from thousands of miles away!

If you attack with full force, you can even blow up the entire Haowei Island!

Of course, this will also cause more than half of the people on the island to be killed or injured, and three million people were killed under the missile.

The focus of the world, tonight, at this moment, are all gathered on this island!

It can even be said that they gathered on him, Li Yun!

"call"

Li Yun took a deep breath and turned to look at the cold and holy fairy: "Qingsheng, what do you think?"

Sage Fanqing shook his head, looked at the distant mist, and lightly opened his lips: "Go straight in."

Su Muxin laughed scornfully, "Master Saint is so domineering!"

It's really domineering.

"Then go, go straight in!" Li Yun waved his hand and said vigorously: "Look at the tricks of the six gates, and what kind of Dragon Lake and Tiger Lair is Weiyi Island, can it stop us!"

Su Muxin smiled with her small mouth.

Xia Feiyao poked her head out and looked at the sea, "Li Yun, how are we going to get there? By boat, or those monsters?"

Since the arrival of the Saint Fanqing, she has changed her name instead of Li Yunfujun.

"No, come."

The figure of Fanqing Shengqingli jumped out of the cruise ship, and the fairy spirit fell on the sea. Seeing this, Li Yun grabbed Jin Liuli and threw it down.

"Wow~~~What are you doing, big bad guy, ah~~!"

Jin Liuli screamed and fell to Fan Qingsheng's side, supported by a surge of vigor, her feet touched a hard mass, and the sea seemed to be frozen.

"Ah, it's amazing!" Jin Liuli stood still, staring wide-eyed at the tumbling sea. His feet had touched the sea, but the person did not fall down, and the shoes did not get wet.

It is as if the human body is isolated from the sea, and the water on both sides does not interfere with the river water.

"Water avoidance technique?"

Li Yun followed, somewhat curious about this trick.

He is now able to avoid water by virtue of his innate Taoist fetus, but he can't let everyone around him have the ability to separate the seawater like the Sage Fanqing.

"Magic barrier." Fan Qingsheng answered him.

Li Yun probably understood that it was his force that created an invisible wall under his feet, and he just supported a few of them.

Xia Feiyao exclaimed: "It's amazing~"

After everyone fell on the sea, Sage Fan Qing took a steady step, walking towards the distant mist step by step. His cold face showed no expression, and his bright eyes quietly watched the distance shrouded in dense fog. Small island in the middle.

"Li, Mr. Li!"

The captain's secretary was frightened, and hurried to the deck and rushed to the surface and shouted: "You are gone, what shall we do?"

If those sleeping on the ship knew that Li Chaoren had left, I don't know what they would panic!

Li Yun waved his hand at him, "Your warship is nearby, contact them to protect the cruise ship!"

As the most powerful country in the world, the Lican country has more aircraft carriers than other countries in the world combined. There are two ships near Haowei Island, and several more are on the way. There are groups surrounding Haowei Island!

Unfortunately, in the face of this dense fog, no amount of aircraft carriers will help.

The captain's secretary wanted to cry without tears. If those aircraft carriers were useful, the millions of people on Haowei Island wouldn't be trapped in the mist, and could not get in or out!

But he could only watch Mr. Li Yun, walking along the waves with five beautiful beauties on the sea, like a **** walking on the earth, step by step into the mist.

Chapter 2397: Ride the waves

"What the people of Huang Xuan want to do...Ah, they, they actually walk in...!!!"

On the aircraft carrier, the captain, and all of his subordinates, the Huang Xuan nationals who jumped off the Ocean Princess were seen through satellites, walking steadily on the sea. The undulating sea did not affect them at all. These people They are all like gods, seeing the sea as nothing, and walking towards Haowei Island, which is shrouded in dense fog.

Seeing this miraculous scene, the atmosphere in the aircraft carrier conference room dropped to a freezing point.

"Captain Barrett..." a voice said bitterly: "All the people we sent out trying to get into the mist are missing. Only the drone can get in, and the same goes for the people inside."

"What do you want to say?" The captain Barrett, who is in charge of an aircraft carrier on weekdays and whose status is equal to that of a three-star general, now has a face like black coal. He looks at the Chinese man Huang Xuan who is walking above the sea in the picture. Add ugly.

"Captain...I'm afraid, we need to ask for the help of those who have mastered extraordinary power!"

"roll!"

Barrett slapped the table fiercely, and said grimly, "I just watched the people on Haowei Island being killed by monsters, and I would never ask Huang Xuanguo's yellow-skinned monkey for help!"

Just a month ago, he drove the aircraft carrier to the waters near Huang Xuanguo, but now he asked for help from those **** yellow-skinned monkeys in a low voice? !

Is there any more face for Lijian country? ? !

As the best in the world...

"Captain Barrett!" Someone interrupted his anger, pointed to a screen and quickly said: "The Battle Bear Nation sent a ship to drive toward those on the sea!"

Everyone took a closer look, and they saw a ship with white, blue, and red flags, heading towards Huang Xuan at full speed. The ship was carrying more than a hundred people. Most of them knew one of them. Korolev, a senior general of the fighting bear country!

"This **** actually went out to please Huang Xuan countryman himself?!"

Balitt was frightened and angry. Korolev has a very high status. He is the commander-in-chief of the navy fighting the bear country. He should also be the person in charge of the operation tonight the bear country.

But now Korolev actually left the aircraft carrier fleet in his own boat and headed towards those **** Huang Xuan people, didn't he intend to please the other party?

"Captain." Someone said again: "Never Setting Sun has also sent ships...a beautiful woman stands on the bow, yes, it is Princess Alice Windsor!"

Royal princess!

Also personally?

"Ship, captain." Before Barrett could react, someone reported: "Satellite monitoring, Lanxi Kingdom..."

The meeting room fell into a terrible silence.

In less than half a minute, other countries had all discharged their fleets to "please" the people of Huang Xuan country, but Li Jianguo was still raging against whom I did not know.

"Captain, we...?" someone asked cautiously.

"Prepare the ship and the three teams... the commander is the only one," Barrett's face was terribly dark, "I, go personally!"

"Yes!"

...

Standing on the deck, Shangguanming looked at the back of Li Yun and Xiao Mingzhu and the others, with a mixed mood.

Unlike Li Yun, he can move freely. He has to wait for Xia Ming's fleet on the Ocean Princess, so he can only stay and watch Li Yun take Xiao Mingzhu away.

She walked away step by step, as if the distance between the two was being pulled apart step by step, and there would be no possibility of intersection from now on.

Chapter 2398: follow up

"Hey, Mr. Li, please wait a moment!"

The first one arrived was the warship of the bear country. The senior general Korolev, who was in his early fifties, was a burly and sturdy man with well-developed beards and body hair. He was a typical Volga glacial race.

Although the people of this nation are known as the fighting nation, they actually pay great attention to politeness. "Hello", "Good night, good night" are often on the lips, and they only use you for strangers.

As soon as Korolev arrived, Alice led a squad of dozens of people, followed by people from other countries, and more than a dozen ships came behind Li Yun, crowded, and looked quite enthusiastic!

Thousands of people were sitting on various speedboats, holding various heavy weapons, with different expressions, either kind, or in awe, or looking at them with a hint of hatred.

"...Everyone, what do you want to do?"

The corners of Li Yun's mouth twitched, and this group of people were more afraid of death than expected.

The expressions of the people standing on the ship became more and more strange, they wanted to talk, but didn't know what to say, for fear of offending the cold, holy, and obviously powerful woman.

"Mr. Li!" Korolev was still the one who spoke. He smiled and said with enthusiasm: "Can you go through this mist? If you can, please take us into Honolulu. We will always fight the bear country. Your friend!"

"Honolulu is the territory of our country!" Barrett from Lican country interrupted him coldly.

Korolev said: "Your Li Jian country does not have the ability to protect our citizens. The right to life is more than everything, so we have the right to enter Honolulu and save our tourists!"

Barrett looked cold, and was about to speak, when Alice interrupted him: "Please don't entangle these questions, Mr. Li and his friends are short on time. It is not the reason to discuss these trivial matters now!"

Trivial matter?

Barrett of the Lican country and the popularity behind him are not light. They forcibly led a group of soldiers into Haowei. If this were placed in the past, these people and their ships would have been destroyed by missiles, how could they have a chance to be there? Here we are!

"Alice is right, it's really not the time now."

Li Yun glanced at her approvingly. There were several strange people beside the princess. One of them was a handsome man wearing a dark red cloak, and the other was wearing a wide-brimmed hat with a hand in his hand. Woman with a gloomy expression holding a wooden broom.

Vaguely, Li Yun seemed to feel a peculiar fluctuation from them, and even Sage Fan Qing glanced at the strangely dressed person.

"Mr. Li, the extraordinary power in you and your companions is awesome."

Feeling Li Yun's gaze, those handsome men in dark red cloaks showed a charming smile, and two sharp red tiger teeth could be vaguely seen in his mouth.

"Oh?" The magician? Witch?

Li Yun guessed something and became interested in them, but unfortunately this is not an opportunity for dialogue.

"Huang Xuanguo's... Taoist priest? The strength is indeed much stronger than ours." The gloomy woman wearing a broad-brimmed hat also said, holding the weird broom in her hand, it seems that there is a kind of jumping off the ship and relying on her own strength to enter. The impulse of Wai Yi Island.

Xiao Mingzhu and the women looked at them curiously, even Korolev and the others opened their eyes. It seemed that they had never expected that there would be such strange people in the Never Settling Country.

The world has become more and more unfamiliar.

Chapter 2399: Deep in the mist

"maybe."

Li Yun smiled indifferently, and turned his gaze to the group of foreigners who were driving in the ships, and said, "You want me to take you in, you can."

Korolev and the others had a happy expression on their faces, and even the expressions of Balit from the Lican country eased a bit.

"However, I will only take my friends in." Li Yun smiled faintly: "This time because of the safety of the three million tourists on Weiyi Island, I will help you with no problem, but remember, my help is not unlimited. It's not free. If some of you make small moves behind your back, don't blame me for being ruthless, and meet your boss in person!"

"Let's go."

Regardless of whether they understood or not, Li Yun took the lead to move forward.

These people were not originally the purpose of his action. Li Yun just warned them casually, especially to warn Ochima and his team of Lijian country, don't think about taking the opportunity to drop a few nuclear bombs and take him with the island. All the residents on the site were killed.

Li Yun didn't doubt that the people of Oqima dared to do this. If his existence threatened Li Jian's country, those high-level figures would not take care of the life and death of Weiyi Island and directly bombed Li Yun to death. It is more in their interests!

If it were to that point, Li Yun would not hesitate to kill all the people in the White Palace with swords, and then go to the nuclear bomb launch base in person, press the launch button, and kill all the people in the entire base. die!

Only in this way can those who want to kill him by missiles be shocked!

In fact, after Li Yun got the Lotus Immortal Mansion, he was no longer afraid of missiles—this thing appeared in front of his head, and he had already hid in the Lotus Immortal Mansion.

"Li Yun!"

Alice took a golden trident and jumped off the ship, her long and fit legs stepped on the sea a few times, and a large wave was swayed. The tall figure soon came to Li Yun and landed firmly on Fan Qingsheng. Constructed on the magic barrier.

"It's amazing, I'm really standing on the ocean!" Feeling her feet as if stepping on a solid ground, Alice was so amazed that she couldn't help looking at the saint who had been silent.

"Can I go with you?"

Alice didn't know who performed this magical magic, but her instinct told her that the goddess with the supreme temperament must be very extraordinary!

Under the gaze of Alice's eyes, Sage Fanqing nodded slightly, stepping non-stop, and gradually speeding up, walking towards the mist.

Affected by her, the team also fell silent, followed by Korolev and others, also silent, slowly driving the ship to follow behind, and gradually entering the mist.

On the Pacific Ocean in the middle of the night, Li Yun and his team marched on the surface of the sea, followed by a dozen ships slowly moving behind them. As the fog deepened, the surrounding sounds seemed to have been swallowed. Only the low sound made by the ships stirring the sea. Reverberate.

The world was silent, shrouded in a faint mist.

"This mist..."

Outside of the mist, I didn't even feel it. Once in the mist, everyone immediately felt the horror.

The sky and the ground were all hazy, emitting a fishy mist, and as everyone gradually approached the island, the mist became thicker and thicker, and it was almost impossible to see people a hundred meters away.

More than a dozen ships equipped with complete weapons, and nearly a thousand elite fighters armed with weapons, this powerful team is strong enough to attack the city. At this moment, no one dares to speak, and the heart is scared by this strange situation.

Chapter 2400: Unprecedented formation

"Your Royal Highness, I feel that there is a strong evil in the mist!" The woman in the wide-brimmed hat couldn't help but yelled to Alice. There was an unknown horror that scared her in the mist, which was devouring her. soul.

"It's... terrible." Alice touched her arm, and there was a vaguely creepy feeling.

"Small fog, nothing to be afraid of, calm down."

Li Yun calmly took out the Leap Fire God Sword from the Space Ring, and no longer concealed the fact that he had this magical item.

A few months ago, Li Yun would deliberately conceal the space ring, so as not to be hostile by countries all over the world, or come to **** the ring to study.

but now.

The world situation has changed rapidly, and mysterious powers have officially appeared in front of 7.5 billion people in the world. Everyone knows that there are extraordinary people who are powerful enough to control weird and terrifying monsters in the world!

Therefore, Li Yun's spatial ring does not need to be hidden anymore.

"Fighting the ground!"

Li Yun swung the intercalary fire sword at the sky, and dozens of small flying swords were excited from the flames and flew back and forth in the sky. The fire light illuminates the area of a nautical mile in a radius and shines on the faces of everyone, making Corolio The expressions of the husband, Barrett, and those who were suspected of being magicians all changed.

"What a powerful magic!"

The woman wearing the wide-brimmed magic hat took a look at the small flying swords in awe. In them, she felt the extremely powerful fire magic power, which was thousands of times stronger than her!

No, it should be said that she can only summon a thumb-sized fireball half-handed magician, she can't be compared with these flying swords that emit dark blue fire.

"This kind of power...!" For the first time, Captain Balit of the Lican nation saw the extraordinary power at close range. For a while, he was shocked and speechless, and the worldview was once again strongly shocked.

If this kind of power is in the hands of a strong nation, that would be great!

The fog was dispelled a little, the moonlight in the sky shone again, everyone was just happy, and countless fog came from all directions, making the faces of more than a thousand people difficult to look.

No wonder the three million people on Haowei Island are trapped to death. This terrifying mist cannot be cleared at all. The entire sea area is full of this strange mist!

"Unprecedented big array, shrouded here."

A natural voice sounded, and Alice turned her head to look at the goddess who had been taciturn. Her voice was the same as her temperament, like an angel singing, which made her mood happy.

"Unprecedented?" Li Yun also vaguely saw the traces of the formation, so he said that the fog is not the root, and the formation covering the world is the real headache.

"A formation of the size of a county requires a thousand Void Returning Realm to maintain." Fanqing Sheng shook his head, "It is impossible to have a thousand Void Returning Realm."

So it is an unprecedented formation?

Li Yun searched in the mist, his spiritual vision opened to the limit, and he couldn't see the context of the formation.

This big formation is really too big, even if its formation is not very well hidden, but it can be placed anywhere in the formation, and it will take a long time to find it.

Moreover, with such a large formation, there are likely to be multiple eyes, distributed in different areas, and they may need to be destroyed at the same time to completely destroy this large formation!

This is tantamount to a shameful scheme under the six gates, one must head-to-head to destroy multiple arrays before they can break through the large array!
