

Godly Choice 2401

Chapter 2401: erosion

"Counties?"

Alice's eyes are full of doubts.

Because of the relationship between Li Yun and these people, everyone's conversations just now were in Chinese instead of the internationally accepted English, but Alice didn't know this ancient term at all, and only guessed that it meant a city.

"It's the county seat."

Li Yun answered Alice's question, and then asked Fan Qing Shengdao: "Qing Sheng, do you have a way to arrange such a big formation?"

One thousand strong people in the Void Returning Realm is a terrible number. Li Yun suspects that the six gates and the hidden sacred valley may not necessarily have a hundred of the Void Returning Realm, let alone one thousand.

Unless a powerhouse of the level like Wanfaxian, that is, the Soul Ming Realm personally shoots, it may be possible.

But Li Yun didn't think that the Soul Bright Realm would be so powerful that its mana was comparable to a thousand Void Return Realm, at most ten times the mana, the Soul Bright Realm's strength was already quite strong.

"can not."

Sage Fanqing shook his head again, and added: "Unless the only fairy tool in the Hidden Sacred Valley is used."

No, let's talk about the use of immortal implements. This is enough to prove the importance of that immortal implement, so that Sage Fanqing subconsciously believes that no one will use it.

On the premise that the Liudaomen and the Hidden Sacred Valley are equal in strength, there is also an immortal weapon in the Liudaomen, and theoretically they can do such a thing.

But the Sage Fanqing didn't seem to think that they would use that fairy artifact. At least before the enchantment of the six gates was breached, the fairy artifact would never leave the six gates!

"It seems that the other party has mastered a secret weapon that you don't know. Those demon blood have also proved this!"

As Li Yun said, he swung a sword again to beat back the fog that was surrounding the sky again.

"Um."

Sage Fanqing responded softly and turned his gaze to take a look at the people around him.

Li Yun followed and found that Su Muxin and Xia Feiyao beside him were okay, still able to remain vigilant, with clear eyes and clear thinking.

But a hundred meters away, the soldiers on the ship, including Korolev, Balit and other senior leaders, were all lost in confusion, their eyes were dull, and their arms trembled with their expressions like seeing. What horrible things, panic, panic.

Two ships even started to spin, and they didn't know which direction they were heading!

"This formation has a deceptive effect!"

Li Yun had encountered this kind of formation before, that is, the last time he and Shang Guanming rescued the hostages on the plane, and the time he met Shan Ruqing and Shan Xiaoxiao.

The formation at that time was called the Zhetian Ecstasy Array, which not only covered the heavens and the earth from satellite monitoring, but also confuses the soul so that people who are close cannot find the hostages inside!

"Um."

Sage Fanqing hummed again, and Jin Liuli couldn't help asking: "The Lord Saint, what shall we do now? Call those people back?!"

Li Yun's face was weird, and it seemed that in Xiao Liuli's heart, Master Saint was better than him.

"Me, our ship!"

Alice was breathing fast, her mind buzzed, and her spirit was eroded by the power of the mist.

And the ships of the Nation of Never-setting Sun have deviated several hundred meters, and are about to disappear into the mist.

"Need not."

After answering Jin Liuli's question, Sage Fan Qing took out a bell from the mustard seeds in his storage, and shook it gently with his elegant fingers.

"Ding~ding."

The crisp and sweet ringtones spread across the sea and spread to the ears of nearly a thousand people present. Everyone was shocked. The ringtones resembled the summer air, which made people feel very refreshed all over the body. Every cell in the body. All cheering.

Sanity returned, and the haunting state was wiped out.

Chapter 2402: Unvoiced Singing Soul Bell

"This ringtone...!"

After the people's minds regained their clarity, they all looked at the woman holding the bell, with strong awe in her eyes.

At this moment, shaking the bell to fight against the misty Sanctuary of Vatican, in the eyes of everyone, there is no less than the existence of a goddess!

The true goddess, the **** who came out of the myth!

"Tingling bell~."

The bell ding ding, Fan Qingsheng calmly shook the small bell in his hand, and his slender and delicate jade feet stepped on the sea, leading everyone through the mist, step by step towards Honolulu Island.

Barrett, as well as a group of strong people, they even suspect that they have seen the legendary goddess of victory holding a banner and leading mortals to the light!

Beside Fanqingsheng, Alice and the others looked at her and worshiped incomparably, more enthusiastically than seeing an idol.

Even as calm as Xiao Mingzhu, at this moment, he couldn't help but lose consciousness for a moment, and was shocked by the holy and cold Sage Fanqing holding a bell.

"The unvoiced sound rang the soul bell."

Li Yun has seen Qingsheng use this magic weapon twice, and he even has a bell in his hand, made by Fan Qingsheng himself, with a spirit of her attached to it, as long as Li Yun shakes it, she can summon her ***** Read projection.

This was originally a special magic weapon made by Saint Fan Qing to protect Li Yun. Now, Li Yun hasn't used it anymore. For enemies he can't deal with in the future, the projection of calling her is useless.

But this thing can be used to talk about love, yes, for Li Yun now, it is only for dating!

For example, last time at the hanging tower of the Ten Thousand Faxian, Li Yun summoned the divine vision projection of the Vatican Sage, and when she returned, he gave her a kiss

Cough cough, if people around know that Li Yun actually fell in love with Saint Fan Qing, and the goddess who shook the bell and led them through the mist and stretched out. Dear, I, I have even dated, been intimate, these have been cleared. How shocked will the saint's protector?

This is where Li Yun's little evil taste lies!

"..."

The Master Saint who shook the bell glanced at him. Li Yun was so frightened that she hurriedly reduced her complacency. His evil thoughts just now seemed to be noticed by Master Saint?

I have to say that the body of holiness is really strong, and all the evil things that Li Yun thought in her mind were all felt by her!

If in the future the two have a spirit-soul exchange, or so-so-soul exchange for short, wouldn't all the silly thoughts in his mind be known by Qing Sheng?

This is really...

"Li Yun."

The heavenly voice made Li Yun stagger with fright, and asked sternly, "What?"

"..."

Sage Fanqing glanced at him again with an inexplicable look, and then said, "The monster is here."

"Oh, the monster is coming...what!? The monster is coming?"

His shocked performance made the women all look over. Xiao Mingzhu kept staring at him with suspicious eyes. According to what she knew about Li Yun, this ***** was a bit more human, but he met him. You can handle big things, why is it so strange now?

"Ahem!"

Li Yun took the Leap Fire God Sword, threw all his distracting thoughts into the trench, and became vigorous again: "Isn't it a monster! It depends on your husband and mine. I will kill as many monsters as you come!"

He slammed out with a sword, left the team and flew towards the thick fog ahead.

The faces of the girls were slightly red, and even Alice, who had only 89 points of affection, was a bit shy.

As a matter of course, Fan Qingsheng did not refute.

Chapter 2403: On the island

Honolulu Island, an island with beautiful scenery and many tourists, is now surrounded by monsters and dense fog. Li Yun looked around and saw dense monsters floating on the sea within tens of meters.

Lobsters as large as tens of meters, sharks as small as footballs, the rich aura brings tremendous changes to creatures, causing them to mutate in strange directions.

The arrival of Li Yun made the monster group commotion, and the inexplicable hostility made them all go crazy and attacked the advanced intelligent creatures like humans.

"Roar! Roar!"

"What's your name? Give me death!"

Li Yun swung the Leap Fire God Sword in his hand, and dozens of small flying swords passed by. The faint blue flame instantly ignited dozens of monsters. The light illuminates the sea, penetrates the fog and spreads to the distance, letting a group of people follow I was terrified again.

This kind of personal strength is already comparable to a small army armed to the teeth and equipped with helicopters and missiles for assisted strikes, and its flexibility is far superior!

Korolev roughly inferred that Li Yun's strength at the moment was enough to make him ignore any important place that was tightly guarded, and slashed past with one sword. The steel gate more than ten meters thick would be melted by this terrifying blue flame!

"Can't be an enemy of Huang Xuan countryman!"

Korolev and a group of people who did not conflict with Huang Xuanguo came to this conclusion in their minds.

Only the people who benefited the strong nation were shocked to see them. After all, their relationship with the people of Huang Xuan nation was not very good. If the White Palace...no, they wouldn't even think about it!

That Huang Xuanguo Superman is terribly strong!

...

"With so many monsters, or monsters, what the world will become, I am afraid that Empress Nuwa herself will not be able to count the future!"

Li Yun slashed the monsters that roared at him with one sword and one sword. These marine creatures had just gained power because of their spiritual energy. They had only muscles and no brains, so Li Yun preferred to call them monsters.

It was much more stupid than the monster tamed by Wan Faxian, and even worse than the cute fox.

But if you give these monsters a little more time, the ocean will become dangerous in the future. Think about it. An octopus with a tentacle of a hundred meters or even hundreds of meters lurks on the bottom of the sea. Which submarine dare to launch casually?

Another example is a school of whales with an average length of two hundred meters. They are swimming on the surface of the sea, and their sounds are one after another. Even if they still retain the habit of eating small fish and shrimps, these behemoths fling their tails casually, and the waves can be set off. If a freighter is capsized, who would dare to go to sea?

"But the problem is that the amount of spiritual energy used to give birth to hundreds of millions of monsters is earth-shattering, and it can even provide 100,000 practitioners to break through to the Void Returning Realm!"

"Six Daomen has so many auras that they can rule the world long ago. They still need to implement the aura feast plan in Zhonghai City? The function of those spirit sticks is to absorb the resentment of people around them and transform them into something similar to aura! "

"With so many auras, it is impossible to take out six doors, and there is no need to do so!"

"Massive aura... there is a high probability that it is owned by Haowei Island itself!"

"This is the true purpose of the Six Doors!?"

After seeing countless monsters surrounding Haowei Island with his own eyes, Li Yun probably guessed something that made sense.

The aura is not released from the six gates, but exists in Haowei Island, perhaps in the crater, or on the seabed, or the island itself.

Of course, it may also be the "deposits" of the six gates ten thousand years ago that were only withdrawn now

Chapter 2404: ashore

"boom!"

The deafening sound of gunfire came not from the dozen or so ships behind, but from the shelling from the front coast.

Honolulu Island is in sight.

"Jingle Bell."

Sage Fanqing shook the bell for the last time, and the surrounding fog was dispelled. There was a clear sight in front of him. The melodious bells spread to the island, making the Lijian nation fighters who were defending the monster attack on the shore refreshed and looked over.

"..."

Everyone saw a messy coast of Honolulu, and the garrison on Honolulu also saw them.

The sights of the two sides met, and there was a feeling of being separated from the world-through the heavy fog, breaking through the siege and obstruction of countless monsters, they had gone through all the hardships to reach the island!

And the Lican State garrison on the island...

"Reinforcements are coming!"

"Oh my God, so strong!"

"Look at that Huang Xuan countryman holding a flame sword, he must be that Li Superman, right?!"

"The messenger sent by God has finally arrived!"

"...The other party is Huang Xuan countryman."

"What happened to Huang Xuanguo? The world was created by God, and Huang Xuanguo is also a product of God!"

"Li Chaoren, come and save us!"

Li Yun was the first to set foot on Honolulu Island, arousing the cheers of a large group of soldiers armed with machine guns, rocket launchers, and various types of heavy weapons.

Judging from this kind of cheering from the heart and the joyful smile on his face, it was definitely not made by falsification, which also surprised Li Yun.

He originally thought that his status as a national of Huang Xuan would be greatly discriminated against when he came to the island, and there may be a few missiles waiting for him. He had to go to the headquarters of Weiyi Island personally and kill those leaders like pigs. Killing dozens of them can make them give up the idea of dealing with him.

Li Yun does not have delusions of persecution. Not to mention that his own existence is threatening. His Baiyun technology has already had a serious impact on the interests of Li Jian country!

Those on Wall Street lost tens of billions of dollars per capita in the first few months, and it is estimated that they would like to kill him personally.

"Ding, trigger the option event, please choose from the host:

Option 1: Set foot on Haowei Island indifferently, and resolutely divide the boundaries with other countries. Reward: Huang Xuanguo's prestige rises, golden gift bag*1.

Option 2: Choose to get along with each other. Reward: Increased prestige worldwide, golden gift bag*2.

Option 3: Abandon Huang Xuanguo and join the United States. [Li Jian, become a beacon of mankind (mistake), reward: Li Jian country's prestige has risen tremendously, obtain the position of four-star general, colorful gift bag*1, Huang Xuanguo's prestige falls to the freezing point, triggering A series of unpredictable consequences. "

The system prompt sounded at this time, and Li Yun glanced at it, and the corners of his mouth twitched.

This Nima is really...comparable to the cheating choice of Wang Wang's poem!

If he chooses the third option, he will immediately...then what, uh, cause international turmoil, all previous achievements in life will be abandoned, the network will be completely abolished, and Baiyun Technology will be immediately blocked.

A fool would choose it.

Besides! Li Yun does not have the slightest impression of Li Jian, he is unbelievable, hegemonic and arrogant, and he is also the chief culprit of turbulence in the global region.

There is a joke like this. A professor is giving a lecture in class and asking questions about the way to make the world peaceful.

The students answered all kinds of things. As a result, the professor directly deducted the map of Lijian country, shrugged and said: "Without this country, the world will be peaceful."

It can be seen that many Lijian countries are not welcome!

"Hello everyone!"

Chapter 2405: choose

Even though Li Jianguo was scolded in his heart, Li Yun still chose to show a faint smile, neither too close nor too far away.

Perhaps these soldiers didn't really treat him sincerely. They just saw the hope of salvation, so they raised their arms and cheered.

Those who are not my race must have different hearts. Although this sentence is a bit more absolute, it is not unreasonable.

"Oh!"

Seeing Li Yun's choice of kindness, these black and white men and a small number of soldiers of the yellow race cheered again. One of the captains rushed forward and paid an international salute to Li Yun:

"Mr. Li, thank you for coming, so that the three million people on Haowei Island have the hope of surviving!"

"..."

Li Yun smiled and said: "Is there such an exaggeration? Good Weiyi Island army. The facts are so powerful, I can't save so many people alone."

In fact, the battlefield is sometimes quite strange. The soldiers on both sides beat you to death during the day, but during the truce at night, the soldiers of the two countries may chat with each other cordially, even pass cigarettes to each other, and talk about some parents' parents.

War is a struggle between the interests of the two countries.

But as a soldier, people have human nature. Put down their weapons and people may become friends.

In front of Li Yun's eyes, these Lijian soldiers cheering for his arrival may be because of the government of the White Palace. An order from the guest, he took up arms again!

Do you say they are bad people, or are they bad people?

"Uh?"

The captain is not accustomed to Huang Xuanguo's humble remarks. After thinking about it, he quickly said, "Mr. Li, we are now in crisis. These fogs are changing our physique. I don't know if it's good or bad. My soldiers say, We are going to become zombies..."

Whether it is the monsters besieging the island or the mercenaries who make trouble on the island, they are no better than the poison of the mist itself. The mist is pervasive, causing panic on the whole island, and extremely low morale in battle!

If there is no such fog, the amount of ammunition on Weiyi Island alone will be enough to bomb the surrounding sea, kill the monsters piece by piece, and open a monster meat party on the beach tomorrow afternoon!

However, the changes brought about by the fog have made everything unstable, so the captain is eager to know what the toxicity of the fog is!

"Change physique?"

Li Yun frowned slightly, his spiritual energy can make the animals and plants on the earth grow wildly and rapidly mutate. It can also be absorbed by practitioners and transformed into mana in the human body, making people incredibly powerful.

But if there is no breathing and breathing, just accepting the feedback of the power of the aura itself, will human beings become huge? Mutation of monkey tails, fish scales, bird feathers?

Just like those monsters!

Li Yun really didn't understand this, so he could only ask for help outside the court: our Lord Saint.

"Finally landed!"

Jin Liuli and his party came to the shore, and dozens of ships also docked. This time facing Korolev and others, the garrison on the shore seemed less excited. They all pointed their guns at them, especially It is the team that fights the bear country, and it is treated by most of the gunpoints.

Fortunately, the monsters are still eyeing, as long as they don't wipe the gun, they won't be able to fight.

"Everyone."

Korolev, who fought against the bear country, straightened his waist, with a majestic expression on his face with a hint of arrogance, without the slightest respect when facing Li Yun.

Chapter 2406: Ding, hit the shards of the whip

"Hello Weiyi Island cannot protect the people of our fighting bear country. It has been surrounded by monsters for more than ten hours and there is no way. We have the right to enter here and protect ourselves..."

Korolev finished his tough words and made the situation more tense.

Both parties have a lot of meaning to take the guys up and do it. After all, Korolev brought people into Honolulu, which has constituted an invasion of other countries' territories, even though they are aimed at these monsters!

"Enough, stop it all."

Li Yun's voice was mixed with a trace of mana, and it rang in everyone's ears like a thunder in summer. All of them turned to look at him, with awe in their eyes.

"I don't care what kind of grievances everyone had before!" Li Yun vaguely grasped the key, and said in a cold voice: "The most important thing in this crisis tonight is to save the people, and everything else will wait for the gloom to subside. , Then I don't mind acting as a referee and trying those conspirators personally!"

The sound spread all around, everyone look at me, I look at you, and re-pointed the guns at the monsters who were eager to wash ashore.

"Brother Li Yun is so handsome" Su Muxin couldn't help but whispered, Xiao Mingzhu's eyes looking at Li Yun became more complicated.

Now he is the only one who can stop the melee of all parties and use his own strength as a guarantee to prevent countries from stabbing knives in the back!

All the grievances between humans will have to wait until the end of this monster incident!

"Ding, the host made his own choice and used his own influence to promote the first cooperation between human countries, rewarding justice value +5 million, and worldwide prestige greatly increased, colorful gift bags*1, Alice favorability +3, Bonus reward: hit the shards of the whip*1."

"Ding, the host's justice value reaches 10 million, and rewards a special treasure: hitting the fragments of the whip*1."

Two consecutive shards of the whip! !

Li Yun was surprised that the system actually gave a reward for self-selection. From the point of view of the reward, it was equivalent to a correct selection event!

The justice value doubled directly, reaching as much as 10 million, and it was rewarded with a fragment of the **** whip.

It means that Li Yun currently has three pieces of magic whip in his hand. It seems that there are only two pieces short of them, and they can be combined to produce a huge power. The legendary artifact that can whip the gods, the power... That's it.

Well, hitting the **** whip can also hit the eight righteous gods, that is, those gods whose primordial spirit enters the conferred **** list and are restricted by the heavens. For other immortals, hitting the **** flag hair is useless.

So Li Yun didn't expect much of this stuff, and he was not as strong as his innate Taoist fetus and the Hongmeng Purple Qi fairy bracelet in the hands of the Sage Fanqing.

"Li Yun?" Her Royal Highness Princess Alice looked at him with a smile: "What should we do now? I'll listen to you. I will do what you ask me to do!"

Alice's favorability reached 92...

Li Yun looked at the princess with beautiful blond hair. There was a hint of love in the latter's eyes, and he seemed to be very satisfied with his mediation performance just now.

The husband of Her Royal Highness Princess Never Settles should be a big man who can control the global situation!

"Keep on guard to prevent sudden enemy attacks."

Li Yun first reminded everyone to be defensive, then turned his head to look at Fan Qing Sheng: "Qing Sheng, will auras make humans look weird? For example, they become like monsters."

Everyone looked over, especially the soldiers who had been wearing them on the island. They paid more attention to this issue. Although Li Yun spoke in Chinese, someone translated it. Moreover, his every move is now the focus, and every sentence will be honored. For the temporary truth.

Before they believed Li Yun, it was the truth!

Chapter 2407: Magician and Vampire

"meeting."

The beautiful and beautiful voice of the Saint Fanqing, spread to everyone's ears, but it was no less than the effect caused by the explosion of thunder, and shocked a group of soldiers to their hearts stop beating.

Will they become monsters? Zombie? Or the Spider-Man with spider silk? Or Scaly? Or the kind of extremely disgusting fly man?

There is no hair all over the body, the hideous swollen sarcoma all over the body, the eyes bulge as huge as a fly, and the whole body emits a terrible stench!

Becoming such a monster, no one wants to change no matter how strong it is! Unless some truly perverted people have brain problems, they will want to become monsters.

"Mom, I don't want to be a monster!"

After a soldier heard the translation, the gun in his hand fell to the ground with a bang. The horrible monsters that appeared in various Hollywood sci-fi movies flashed in his mind, combined with the marine monsters he had just killed with the gun, and was immediately defeated. His psychological defense.

Even the commanders who should have been calm, heard that they would turn into monsters, couldn't help but breathe shortly, and looked at the Sage Fanqing in disbelief.

"Oh, my husband, I don't want to become a monster!" Jin Liuli was about to cry, holding Xia Feiyao's arm and looking at her husband with tears in her eyes.

"Will become those monsters?"

Li Yun frowned and asked again, pointing to the strange marine creatures on the sea.

Sage Fanqing shook his head: "Not necessarily. The vitality of the heavens and the earth changes in thousands of ways, or it turns into the yin and evil energy to invade the living beings, or it turns into the masculine fire, or merges into all things, or eliminates the universe. It is the universe. The foundation of everything, inclusive of everything."

After talking about the old sayings of Huang Xuan country, I heard a group of foreigners staring wide-eyed, what kind of evil, what masculinity, and what is it?

Except for the first sentence and the universe can understand, the rest are all blind!

—In ancient times, Huang Xuan country called the upper, lower, left and right as "Yu", and the past and the future as "Zhou".

"What's the meaning?!"

Alice is about to cry. After returning home, she must hurry to learn Huang Xuanguo's ancient prose, every day, every day!

"It means that the aura is ever-changing, and the benefits and risks brought by it are mixed." Xiao Mingzhu explained with a smile, and finally looked at Li Yun: "Right?"

"should be."

Li Yun looked at the suspected magicians, and through Alice's introduction, he learned that one of them is named Donald Siu and the other is named Christine.

Identity, one is a legendary vampire, the other is a witch in religious legends, who was once hunted down by the Western God Church (Christian). In the Middle Ages, there were thousands of women who were slandered as witches by the Church. Trial, and finally all burned to death.

Unexpectedly, modern witches can still be seen!

Don't tell me, Christine is wearing a black wide-brimmed hat, holding a broom woven from some branches, and the wide skirt falls to her ankles. It really smells like a witch.

The pale-faced men such as Donald Xiu are handsome, and they are almost like vampires in film and television works.

"This is my grandmother, Elizabeth II, who knew them when talking to the author of "Harry Potter"-at the time my grandmother gave her the title of lord."

Alice explained: "When my grandmother learned of the existence of the witches, she didn't take it seriously. Until recently, she contacted Christine and agreed to their request to come to Hao Wai Island with me."

Not long ago?

Chapter 2408: Fireball

Li Yun suspected that it was not not long ago, but tonight, five or six hours ago, that Nuwa Elizabeth, who never sets in the country, contacted these "ancients" who seemed to have come out of the Middle Ages.

The author of "Harry Potter" should not be an extraordinary person. She only came into contact with this unknown field for various reasons, and was inspired to write Harry Potter's novel which is popular all over the world.

It is estimated that she has a good relationship with people like Christine.

"Country Y actually has extraordinary people?!"

Balit, Korolev and other Westerners were surprised.

These professions, which have only been seen in movies and TV series, appear in front of everyone one by one, giving people the illusion that the world has become unreal!

Think about it, a vampire is a monster that ***** human blood in the legend, afraid of holy water and silverware. He was once hunted down by the church and often held exorcism rituals, but now it is appearing in front of the public in a big way!

This world is becoming strange!

"Ding, trigger the option event, please choose from the host:

Option 1: Treat the extraordinary in the West coldly, and reward a white gift bag*1.

Option 2: Be indifferent, don't care about their existence, and reward nothing.

Option 3: Slightly interested, and find time to learn about the survival status of Western extraordinary people such as vampires, werewolves, witches, magicians, knights, priests, etc., reward a white gift bag*1, and obtain some useful information with a certain probability. "

.....The third item is you, if you have more words, choose you!

Li Yun smiled slightly and stretched out his hand to Don Naxiu: "Hello, nice to meet you!"

"Ding, the host makes a choice and rewards a white gift bag*1. In the future, it is recommended to go to the Western World to learn more about it."

Is this a reward?

The Western world... I'll talk about it later.

Everyone looked at him. This Huang Xuanguo's "Taoist", or "Superman", actually took the initiative to befriend Western magicians and other extraordinary people. This is good news!

"Oh, hello, hello!"

Donnaxiu, known as a vampire, was very excited. Regardless of his life and demeanor, he grabbed Li Yun's hand with both hands, shook his hand with excitement, and asked tentatively: "Mr. Li Yun, you are so powerful. Enough to be a prince of our vampire family."

"?" Li Yun looked dumbfounded.

"Excuse me." Donald looked at his hand greedily, "Do you mind if I take a little bit of your blood? I promise, it won't hurt, I usually...ah!"

Li Yun slapped him with a slap, and let the so-called vampire fly out like a rag, and rolled a few times in the air, his red cloak opened, and his feet landed gracefully.

"Mr. Lee." Donald gave a gentleman's salute: "I'm sorry to offend you."

The other men who were said to be vampires also saluted, "Mr. Li, please forgive us!"

"..."

"Hello."

Li Yun directly ignored these funny and gentlemen, and turned to look at the only magician, Christine.

It should be said, witch!

From the perspective of her temperament, Christine was taciturn, her gloomy expression looked quite the lonely character of a witch hiding in the ground, and her slightly pale face made her and Donald seem a good match, and she didn't know if it was a husband and wife.

The vampire and the witch are married? This combination is strong!

"..."

Kristen glanced at Li Yun, raised her finger silently, and with a bang, a fist-sized flame appeared in her hand.

"what!"

The crowd around the audience exclaimed, and the Lican State garrison on the shore opened their mouths in shock.

Why is Y's national beauty magician? But their strong country can only rely on long guns and cannons? Fireball is better to deal with these monsters!

Chapter 2409: See Lord Saint

"not bad."

Li Yun looked at the fireball in Christine's hand in front of him, and smiled faintly.

This fireball emits very low heat, no more than Fan Qingzhu's summoning flamingos with a blazing flag, and far more than the terrible fire he absorbed in A Duo Mountain. It was the first time Li Yun saw the practitioners of the Six Dao Sects. , That is, the fireball emitted during the Qi refining period seen in the Lujia Martial Arts Hall is similar.

It's even lower.

"Amazing!"

Xia Feiyao couldn't help but exclaimed, her eyes looking at the fireball became a little envious.

Su Muxin and Jin Liuli also expressed their curiosity. What are the Western wizards like?

Even Fan Qingsheng, with a trace of doubt in his cold eyes, seemed to wonder in what state the Western practitioners were cultivating.

Huang Xuan has two major powers of cultivation, the Hidden Sacred Valley and the Six Doors, but these two schools rely on a powerful barrier to forcibly create a small world, so they can barely maintain the aura needed for cultivation.

——At least before Li Yun gave her the fairy bracelet, all the sources of spiritual energy for the cultivation of the Fanqing Sage depended on the elixir brought out by the hidden sacred valley to restore the aura.

So, what kind of practice does the Western spiritual world rely on?

Heaven and earth aura can be transformed into various forces, and Western magicians must also rely on aura to practice!

"Thank you for your compliment."

Kristen's gloomy face showed some dizziness, as if embarrassed, "The fireball I sent out was only the size of a little finger, and the island of Haowei is full of magical power. To be honest, the fireball has become so big that I am too big. Shocked..."

"...?"

Li Yun looked at her in astonishment. It turned out that this girl was not withdrawn and gloomy, but too introverted. Maybe she was foolish in learning magic?

Suddenly, the fireball became louder with a bang, and Christine hurriedly threw it out. The fireball flew out more than twenty meters, before hitting a clearing area, and burst into flames. It fell to the ground and burned again. The small meeting went out.

Li Yun nodded. In general, Christine should be at the level of the Qi refining period.

There are magicians in the West, which makes Li Yun think of Dongzhao Sword Saint. The last time he said that he came to Huang Xuan Country under the order of Yu Shenzi, is this Yu Shenzi also a practitioner?

Sure enough, Huang Xuan has warriors and practitioners, and other countries also have warriors and magicians, but they are more hidden and almost withered.

"Very weak, right?" Christine's gloomy face showed a shy smile. "I didn't want to learn, but my mother said that witches are our culture and need to be passed on, so I can only give up going to university... .."

"Master Saint!!!"

A surprise shout from the sky in the distance interrupted Christine.

Everyone turned their heads to look, and a group of twelve people rushed out of the thick fog, stepping on flying swords, charms, and magical instruments, like a group of soldiers of the gods descending from the sky, all fell in front of the cold goddess Huang Xuanguo.

"See Master Saint!"

The soldier of the gods knelt on one knee, with an expression of enthusiasm and surprise on his face, his eyes full of admiration.

Everyone was shocked.

These Huang Xuan people are all powerful people who can travel in the sky, but now they are kneeling on one knee to a woman, just like Western etiquette, kneeling on the ground and kissing the road she has walked, in order to express their worship.

The magician Christine and several vampires were even more shocked.

They can't even fly in the sky, including the vampires that can fly into the sky and turn into bats, but these Huang Xuan country powerhouses can. This means that their strength is far beyond their own.

But they... are just Van Qingsheng's subordinates!

Chapter 2410: All thoughts

"Get up."

Fanqing Shengjiao didn't show much expression on his good face, and his voice was as indifferent as before. He asked, "How is the situation on the island? Where is Elder Wu now?"

"Back to Master Saint's words!"

One of the disciples of the Hidden Sacred Valley stood up and replied to Fanqing Sheng salute: "A large amount of aura of unknown origin is gushing on the island. Elder Wu is currently searching for the traces of the magic gate on the island with Senior Nanhua!"

When talking about a lot of spiritual energy, this disciple's expression became obviously excited.

When they were in the Hidden Sacred Valley, their cultivation resources were greatly compressed, but nowadays, the barren outside world unexpectedly gushes out a lot of spiritual energy, enough to make all the disciples in the hidden sacred valley break through to the Void Returning realm, no need to rely on the spiritual energy resources in the valley!

This is equivalent to a person who has been hungry and hungry all the time. Suddenly he was told to eat any delicacies from the mountains and the sea, and he couldn't finish eating no matter what!

These people who have been hungry for a long time can insist on continuing to search for people in the magic door. They are already quite disciplined. If they are replaced by other non-demon squads, they may have hidden away to practice secretly, no matter what the magic door is not the magic door.

"Yeah." Sage Fanqing glanced at the sea in the distance, and said to them: "You stay behind to help outsiders resist the monsters going ashore."

"what?!"

"Master Saint asked us to help these lowly mortals?!"

More than a dozen disciples screamed, with shocked expressions on their faces. It seemed that I didn't expect Master Saint to issue such an order!

Sage Fanqing heard their obvious rejection, but didn't know how to speak.

In the past-referring to the hidden sacred valley, her words were more effective than those of the elders, and any word could be enshrined by everyone in the valley.

But after going out to the outside world and entering this aura-filled overseas island, these people seemed to no longer obey her orders so much, and had their own careful thoughts.

"Master Saint!"

Yu Zishi, the leader of the Squad of Elimination of Demons, took a step forward. Although he still showed respect and admiration to the Saint Fanqing, his tone had increased: "We are all cultivators of immortality and Taoism, how do these lowly mortals deserve? Let us protect it? Lord Saint, do you have any other intentions? My subordinates would like to hear about it!"

The so-called willingness to hear the details is actually to go down the steps of the Vatican.

Everyone's expressions remained unswerving. These transcendents who descended from the sky obviously looked down upon them, their words were full of contempt, and the look in their eyes as if they were looking at ants was even more disgusting.

If it weren't for the face of Li Yun and the goddess Rattle, these grumpy soldiers with guns and various weapons would definitely aim their guns at them, allowing these **** to see the power of modern weapons!

"..."

Fan Qingsheng was silent and didn't know how to answer. She was not good at words. If Qingzhu was okay, she would be able to reprimand these **** loudly.

"Just do you still want to cultivate the Tao?"

Qingzhu's little maid is not there, but Li Yun's boyfriend is here!

Everyone looked at him in astonishment, and more than a dozen members of the Demon Slayer squad froze for a moment. They never thought that "mortals" would dare to offend them!

"I don't use a mirror to look at myself." Li Yun's tone was indifferent, but he revealed a deep sarcasm: "The eyes are high, exaggerated, it is nice to call you a cultivator, it is a bit awkward..."

"What's the ugly name?" Jin Liuli always likes to join in the fun, and she cooperates with Li Yun.

"Bottom of the well, the frog!!" Li Yun said word by word, instantly causing the hearts of these Hidden Sacred Valley disciples to arouse!
