

## Godly Choice 2441

Chapter 2441: Ome Ome

Sage Fanqing also looked over, and those clear eyes were full of inquiries. It seemed that if Li Yun didn't say anything, she would not let him go!

"Uh."

Li Yun raised his head to look at the sky: "You should assume that I found it from an ancient fairy mansion. This fairy mansion is sealed. Usually there won't be too many things, but occasionally, I will give some treasures generously! "

Among the girls present, only Xiao Mingzhu's favorability is still one or two points less than full, but as soon as Li Yun believes in her, his own strength gradually becomes stronger and stronger, and he is not too surprised by what people want to snatch. idea.

The only danger is that the women holding weapons will attract the prying eyes of the Hidden Sacred Valley and all practitioners of the Six Paths.

"These magical instruments..." Fanqing Sheng paused, "You said to the outside that I gave them to you."

"what?"

The women looked at her in surprise, but soon understood what the Lord Saint meant.

She was transferring the danger from Li Yun to herself, and let those who peeped at the magic weapon come to her instead of Li Yun!

"Qingsheng!" Li Yun was moved in his heart. For a moment, he didn't know what to say, and suddenly he said, "But didn't it make you lie?"

Fan Qingsheng has a pure personality. She doesn't like lying, and she doesn't like lying by the people around her. What she needs is sincere and sincere treatment from the heart.

"You lied." Fan Qingsheng glanced at the women, and Xiao Mingzhu couldn't help laughing.

The Saintess is really...cute!

After reassuring, the women began to choose suitable equipment. Su Muxin asked for two defensive types. As for the weapon, she didn't have one. She was not good at fighting.

Xia Feiyao asked for a long sword and a bracelet, Jin Liuli took a pair of shoes, and Xiao Mingzhu also asked for a jade pendant that was the same as Liu Xianxian's. She also took a special look at her green plum.

"By the way, Xianxian, this is for you." Li Yun took out a space ring and gave it to her. This gadget system rewarded him with five more, which is enough for all the confidantes around him to use this super convenient thing. Li Yun was not stingy at all and gave it to Liu Xianxian directly.

It's not good for the women around me, so do you deserve to be their husband?

Li Yun: "..."

Xiao Mingzhu: "..."

Su Muxin & Xia Feiyao & Jin Liuli: "..."

All of them were confused by Liu Xianxian's words, it was too exciting.

Neither of them would have thought that Liu Xianxian, who had a simple and kind personality, would say something like this...something that seemed to fit her personality?

Although Liu Xianxian is in the entertainment industry, she is undoubtedly a simple and kind girl. She can accept the girls around Li Yun and naturally also accept Xiao Mingzhu. She will not be angry because she is a green plum, but will be very happy. Because in this way, there will be no more estrangement between her and Zhuzhu, and she will be together forever in the future, as a green plum for a lifetime.

As for childbirth... it can only be said that Liu Xianxian has thought about marrying Li Yun in the future. It is not strange that he will have children when he gets married.

After thinking about it, Xiao Mingzhu was moved, shy and happy. She couldn't help but stepped forward and hugged her stupid Qingmei. She was moved and called her nickname: "Meat Baobao, why are you so stupid... ..Fortunately, your husband is Li Yun, otherwise you have to help him count the money if you are cheated."

"!!! Pig, little pig!" Liu Xianxian "furious": "Don't call me meat buns anymore, have you heard?!"

She didn't have this nickname back then, but Liu Xianxian became a child star, and after having the nickname Xian Baozi given to her by fans, she became a meat bun in Xiao Mingzhu's mouth. When she was a child, Liu Xianxian was often teased by her, a baby The fat face was repeatedly kneaded.

Xiao Mingzhu raised her eyebrows lightly, "You dare to call me a pig instead of Zhuzhu?!"

"Hey-hey."

"Meat Baobao, your skin is itchy again!"

The two women laughed and quarreled, and their relationship was so close that they were envious. In fact, to be honest, regardless of men and women, there is a partner who has been in a good relationship since childhood to grow up, and can talk to each other freely, and the two are intimate. , This kind of feeling may not be worse than love.

It's just that love needs to stay together for a long time, while partnership is to accompany oneself like a trickle.

"Okay, two beauties, now is not the time to fight." Li Yun smiled and stopped the two of them. After all, now is really not the time to fight, every minute and every second needs to be hungry.

Xiao Mingzhu has the upper hand with her innate realm strength, and successfully squeezed her Qingmei's pure and small face, her face is slightly red, and said to her: "Xianxian, don't get me wrong, Li Yun, this \*\*\*\*\* is pursuing me, but I can I didn't agree!"

Chapter 2443: Call me sanctuary

"No promise?"

Liu Xianxian was taken aback for a moment, and after looking at Li Yun's serious expression, he suddenly laughed: "Oh, oh, I didn't agree, I understand!"

The three daughters of Su Muxin glanced at each other, the so-called not agreeing, it means that they didn't mess around together, right?

Xiao Mingzhu blushed. This behavior that had almost exposed her relationship pushed her to the front of the stage and faced the questioning eyes of the "sisters".

That is to say, as long as she passes this test, there will only be a few mental obstacles left in the future to come with Li Yun.

For example, parental approval.

"Indeed, I am pursuing the pearl."

Li Yun admitted in disguise, but immediately changed the subject: "It's really not the time to talk about love. When this matter is over, let's talk about it. Have you chosen a good weapon?"

The women suppressed the various problems in their hearts and nodded to indicate that they had chosen.

Li Yun put away the remaining equipment, gave Fan Qingsheng an apologetic look, and said, "Tonight-uh, it's four o'clock in the morning. You must be tired after a busy night. Go back and rest. , The hotel manager should prepare the room for you!"

"Where are you, husband?" Xia Feiyao blurted out and asked, her eyes full of concern.

Xiao Mingzhu didn't feel too jealous when he heard Xia Feiyao's husband.

If she wants to, she can also call Li Yun as her husband now!

She is more and more able to integrate into the small team around Li Yun, becoming one of the good helpers of this \*\*\*\*\* playboy...

"I have a few calls with the leaders."

Li Yun gently touched Xia Feiyao's little head, and said with a smile: "You go back to sleep, your husband and I will be fine if I don't sleep for four or five days now."

Sage Fanqing glanced at him, and said faintly: "Lying."

"Uh?"

Li Yun couldn't laugh or cry, Saintess, why are you trying to expose me!

"You can rest after you are busy, and you can regain your mental strength." Fan Qingsheng said in a command-like tone.

What else can Li Yun say? Can only agree.

"alright, alright!"

Li Yun raised his hand and surrendered, "Go and rest soon. This hotel and the surrounding area will become one of the gathering spots for the crowd. Don't worry, I'll be around. You can sleep until noon!"

It seems that this matter will not end for a while, and it won't be delayed even if you sleep at noon.

"By the way, Qingsheng, go and rest, too. It's enough to have me here."

Sage Fanqing nodded slightly, and did not reject Li Yun's kindness.

Xiao Mingzhu originally wanted to stay to help Li Yun, but seeing this, she could only go upstairs with a few women and find the room the manager had prepared for them.

"Ah, one more thing!"

Li Yun stopped them again, and smiled at Jin Liuli: "Master Saint is not very good at modern furniture. Take care of her, Xiao Liuli."

Jin Liuli stuck her tongue out and said with a smile: "I'm really a maid of the saint, but it doesn't matter, let's go."

"... Just call me Qingsheng."

"Ah? I like to call Master Saint ah~, hehe, because sister Qingsheng is so beautiful and so temperamental~."

Several beauties were finally willing to go back to rest. Li Yun breathed a sigh of relief. As their husband, it is natural for him to take care of his wife.

I found a chair on the balcony to sit down. This was originally a good place to sit and admire the sea in the hotel room, but unfortunately, it is foggy outside and I can't see anything.

"Brother Xia, where are you?"

Chapter 2444: trend

"Already near Haoweiya."

Huang Xuanguo's only two aircraft carriers, Ninghai, Xia Ming sat in the command room, discussing the next plan of action with several generals and staff.

After Li Yun called, the meeting was immediately interrupted. Everyone was listening to the news from him. After learning that a safe place was to be established on Hoviy Island, everyone reacted mixedly.

"Three million people are not a small number, even if they are separated in five places."

"Hey, if there is no such thick fog, all countries will send ships, and people can be evacuated in less than half a day!"

"Where can you withdraw? The ocean monsters have already occupied the surrounding sea. The enemy may be able to control these monsters and attack the ship and die faster."

"The power of these practitioners is really terrifying, can't the fog be dispelled?"

"The most technologically advanced countries in the world can't do anything about it. We don't think we need to try."

"We can only look at Li Yun!"

Li Yun gave them a brief introduction to the current situation on the island, but Xia Ming gave him the decision-making power and let him decide what the two fleets would do next!

Moreover, Huang Xuanguo's hundreds of thousands of land and sea fighters, as well as hundreds of fighter jets, are all on standby, ready to wait for his dispatch at any time!

"Brother Xia, you decide like this, I'm under a lot of pressure." Li Yun smiled bitterly.

"How can you be motivated without pressure?" Xia Xia said with a hearty smile: "You don't have to worry too much. If we and the think tank in the capital can advise you, you can do it boldly!"

Li Yun was speechless, thought for a while, and said: "Our goal is always to rescue Huang Xuan people as the first priority. Of course, this disaster belongs to all mankind. We can save it, and we should save it as much as possible. Xia What do you think, brother?"

"Of course." Xia Ming and others have no objection. The grievances between nations have always belonged to human beings, but this time it was a war between humans and monsters.

Moreover, Huang Xuanguo actually established an international rescue team a long time ago, not the kind of country that only sweeps the snow.

"Well, I will look for you later and send a team to the island. Brother Xia, you will stay at sea on standby."

"Okay, we think so too!" Xia Ming smiled slightly: "Other countries have come ashore. It doesn't make sense that our soldiers in Huang Xuanguo are greedy for life and fear of death. I will send 10,000 people ashore to help gather and protect people from all over the world. Local ammunition and various types of medicines and food will also be shipped continuously!"

"But." Xia Ming said again: "There are too many monsters on the sea now, Li Yun, shall we carry out a carpet bombing to reduce the number of monsters?"

Li Yun naturally nodded and agreed: "So you are still in charge of commanding. How do I understand battles on the battlefield, uh, do you want me to contact various countries? Okay, then this operation will have a global cooperation, which will help Weiyi Island. All the surrounding sea blow up!"

Global cooperation!

This word that I didn't even dare to think before, now it is possible to realize it.

"But this is only one of them, Li Yun, have you found the six people behind the scenes? Or are there other foreign forces? I heard that vampires and magicians also exist in the West?"

Li Yun said: "There are yes, but they are too weak to get involved at all. However, there is an inner ghost on my side that might be useful for catching the enemy's feet."

"Inner ghost? Who?"

"Wang Xiangui."

Chapter 2445: Rampant

In a villa facing the sea on a certain island in Haowei, the face of the ghost king is not very good.

He reached a deal with Li Yun when he was in Zhonghai City. As long as he was mixed into the team convened by the Yan family as an internal ought, and reported the situation in real time, after the matter was over, Li Yun would give him a body cure pill and let him Return to youth.

This is why he scolded Li Yun the last time he returned to his home.

But after the action really started, the Zhonghai Poison King fell into constant shock.

The fog that obscured the sky, the surging ocean monsters, the whales several hundred meters in length, and the giant octopus whose body could bind a skyscraper, all these changes made him deeply doubt his life.

"Brother, are you still hesitating?"

His younger brother Wang Xianneng Dama Jindao was sitting on the sofa with a cigar in his mouth. Behind him stood a few bodyguards with a height of more than three meters and abnormal muscles, but with a bitter face.

"Look at the power we have now, and then look at our men!"

Wang Xianneng bent a finger, snapped his finger, and the cigar he was holding was instantly lit.

Wang Xianneng took a sip comfortably, then spit out a smoke ring, with a very proud expression:

"Brother, can you see it? Because of taking refuge in the six gates, we have gained power and cultivation methods that ordinary people can't imagine. As long as we are given a few more months, we will become strong enough to occupy the entire Haowei Island. When the time comes, Who in the world can take us anymore?"

The bodyguards behind him were still crying.

The strength has become stronger, but they have grown into a giant, and even their pants have to be sewn temporarily and transformed with sheets.

This is not so much power as it is to become a monster!

As the eldest brother, Wang Xiangui remained silent, his expression was very solemn, and he was not excited about the power he suddenly gained.

"Haha, is this still not in your heart?"

After Wang Xianneng showed off the abilities he had obtained from the Yan family, he took another cigar and said lightly: "It seems that you are really used to living a peaceful life, brother, and you are no longer adapted to the changing world!"

"The world has indeed changed, but people's hearts have not changed, nor have the interests that people pursued have changed." Wang Xiangui said coldly.

"...Shit!"

Wang Xianneng kicked the table with his feet fiercely, and said fiercely: "I don't care what people's interests are. I only know that the six gates have powerful forces now, and they are enough to fight the whole world! Think about it, how many big people there are in this operation Get involved? Brother, have you guessed who is behind the Yan family?"

"Nelson Rockefeller." Wang Xiangui spit out a name coldly.

On any search engine, you can easily find the meaning of the name.

"Hey, don't you have any feelings for the big brother when you hear this name?"

Wang Xianneng smiled triumphantly: "I once ordered the SEALs to pursue and kill us in the rainforest, but now? They stand in the same camp with us! Think about it, how ridiculous the world is like this!? Are you still elder brother? Can you sit still?"

The future world will be a world of strong personal strength! Think about that kid Li Yun, let a huge octopus surrender with his hand, what kind of powerful power is this? Why can he do it, we can't? In terms of combat experience, that kid can't keep up with us! He can become a superman and be talked about by people all over the world, but we can only hide in hiding. Why? I just don't accept it! "

He is not dissatisfied with Li Yun, he is dissatisfied with anyone in the world!

Wang Xiangui gave his brother a deep look, "What are you going to do?"

"How to do it? Hahaha, of course it is to kill! To complete the instructions of Deputy Nelson is to complete the task assigned by the big men of the six doors! Brother, do it with me, and my brothers will join hands again, the entire Haowei Island Who can stop us?"

"..."

Wang Xianneng, you are too ignorant.

Chapter 2446: Set off

Li Yun flew out of Haowei Island, preparing to lead Xia Ming's fleet through the mist and into the island.

When he was instructed to descend from the sky and landed on the deck of the Ninghai aircraft carrier, a group of Huang Xuanguo fighters stared at him dumbfounded, especially some pilots who were already sitting on the fighter jets ready to take off, watching Li Yun's body soar into the sky, as if When he is heroic like a \*\*\*\* of war, he even feels that he may not be able to catch up with him when he is driving a fighter plane!

"Mr. Li, Mr. Li!" Several pilots wearing yellow vests on the deck hurried over and saluted him with a very respectful manner.

Li Yun replied a little awkwardly. He hadn't made any military salute at all, so he could only deal with it vaguely.

"Without delay, are your ships ready? Go."

"Yes! I'll report it right away!"

Soon, Xia Ming and several aircraft carrier fleet commanders greeted them. After Li Yun exchanged a brief greeting with them, Xia Ming ordered the departure.

A fleet drove out of the aircraft carrier queue and headed towards the mist. Li Yun smiled and said goodbye, and the figure flew straight up and landed on the fleet in the distance.

The remaining Xia Ming and the commanders looked at each other.

"I can feel that Li Yun's strength has become stronger again!" An old man wearing a mighty army uniform said with emotion.

"Yes, when the plane was hijacked last time, he couldn't fly in the forest, but now he can fly over the sea without hindrance!"

"Li Yun can still control those monsters, they are still hovering on the surrounding sea."

"Will Li Yun become immortal in the future?"

"Fortunately, he is a native of Huang Xuan, otherwise we will not have a half advantage when the new era comes."

The discussions among several big figures in important positions are basically what Huang Xuan currently thinks of Li Yun in China.

Xia Mingming smiled slightly and said: "It is expected that Li Yun will become stronger. I heard that the people on the island have also acquired abilities because of the sudden burst of spiritual energy. Some people's bodies have mutated. Maybe our soldiers will also be due to physical contact. Spiritual energy mutates."

Everyone fell silent again.

Power fighter?

The world in the future will really become more and more incomprehensible as we look at it!

...

"Brother Ming."

Li Yun landed on a battleship and greeted an acquaintance on board.

Unsurprisingly, the commander of Huang Xuanguo's entry into Haowei Island this time is Shangguanming. It is right to think about it. He has rich experience in the battlefield, strong in his own strength, and has a good relationship with Li Yun. He became the commander of this operation. The officer is not surprised.

"Li Yun." Seeing him, Shangguanming's eyes were a bit complicated, but he recovered quickly, and said jokingly: "Looking at you flying freely in the sky, we are all very excited, how about? Teach us a hand? "

His teammate Wei Chao, Gu Jian, Feng Xuemei and others all looked over with a bright eye, and the fully armed soldiers on the ship looked very eager.

Li Yun said helplessly: "How can I... wait."

He suddenly thought of a reward he had won a long time ago.

"Science Cultivation·Primary School Part 1"!

At that time, Li Yun thought it was a system spoof, which fairy tale would be cultivated without Tiandi Reiki? Not to mention the promotion of immortality by the whole people.

But now it seems that if the massive auras appearing strangely on Haoweyi Island gradually spread across the world, all mankind will cultivate immortality - or that all mankind has superpowers, it is not impossible, but a matter of course!

"Damn! Can the system predict this?"

Chapter 2447: Oriental Blue Dragon

Li Yun was a little surprised, but after another thought, the system obviously knew what was going on in the world. Perhaps a few months ago, Liudaomen was planning this operation secretly.

"Cultivating immortals, of course you can." Li Yun smiled.

"real?"

Everyone was overjoyed.

"Of course. Since the people of the Hidden Sacred Valley and the Six Daomen can cultivate immortals, there are also magicians and wizards and witches abroad, which is enough to show that humans have the potential to become stronger."

"The premise is--" Li Yun stretched out his hand and pointed at Weiyi Island: "The spiritual energy of the heaven and earth inside can support everyone to become stronger together."

Shangguan was very thoughtful, and he also heard that aura would make humans mutate and gain superpowers.

"If this is the case, Haoweyi Island is not a dangerous zone, but has become a sweet pastry for global careerists?"

Li Yun nodded silently, but wondered in his heart, where did the six gates get so much aura? The current global turmoil has caused 7.5 billion people to look at it.

If this aura really spreads to the world, a new era of unknown will really come!

No one can guess or figure out what the future will look like.

"Report to the captain!" A soldier suddenly came to report, "A huge unknown object was scanned by the radar, please give instructions!"

If you put it in the past, if the radar scans a huge block, it must be a small island.

But now the monsters on the sea are huge. If three or four monsters gather together, it is really hard to say that they are island sea monsters.

"...Slow down." Shangguanming looked at Li Yun, "Do you think our spirit has been invaded?"

The secret of the dense fog has spread all over the world. People all over the world know that the denser the fog on Wai Yi Island, the stranger it is. Even if the ship is scheduled to cruise automatically in advance, unless the people in the ship are not allowed to enter the wheelhouse at all. Otherwise, after the captain and others lose their minds, they will madly manipulate the ship, causing loss of control.

And if the cockpit is closed and the ship is completely handed over to automatic piloting, it will be very dangerous. If it hits the shore directly, it will cause the ship to destroy the consequences.

"Let me see."

Li Yun glanced over the faces of the many soldiers beside him. He could see that the fully armed soldiers were nervous at the moment. They didn't even dare to breathe. Mental invasion is impossible to guard against. You feel like you are sitting on the ground with weapons. It has also been removed to prevent accidents.

But in fact, you may already be standing on the deck railing and about to jump into the sea.

Li Yun checked the magical equipment, items, skills, etc. he possessed, and found that there was only one way to quickly wake everyone up.

"Qinglong is here!"

With a clear drink, a dragon-like voice came out. The soldiers on the ten cruisers and two battleships around opened their eyes wide, and their slightly drowsy spirits suddenly shook, as if they had seen Mr. Li's body. A mighty dragon shook its head and wagged its tail and rushed out, flying straight to the clouds, breaking up the mist in the sky!

The whole world has regained clarity.

"Li Yun, your trick...!"

Shangguan Ming was shocked and inexplicable. The dragon roaring and tiger roaring voice still echoed in his mind, but he didn't feel nauseous. Instead, he felt a sense of striving for progress, full of energy, and high spirits!

"Please magic, summon Dongfang Qinglong."

A satisfied smile appeared at the corner of Li Yun's mouth.

The fusion of Longming Sword Art and Azure Dragon's roar of the gods, really possesses all kinds of incredible abilities.

Chapter 2448: Rising island

Not only can the sword qi span 30,000 miles, but also a dragon chant can stun the demons and evil spirits, and disperse all monsters.

Moreover, as a god-inviting technique, Li Yun can also summon the upper body of the blue dragon, so that his own strength can skyrocket, and every word and deed can have the power of the blue dragon.

Of course, Li Yun's congenital Dao tire has given him the ability to sit on fire, enter the water, etc., call the wind and call the rain, and control thunder and lightning has become less noticeable.

"Report, report! An island appears ahead!"

After everyone recovered their spirits, they quickly figured out what the radar had detected.

An island.

To be precise, it is an abruptly raised island covered with coral reefs and silt and sand on the bottom of the sea!

"Is this weird, small island that suddenly appeared again?"

Li Yun frowned when he heard that, Shangguan Ming looked at him suspiciously: "Have you seen this kind of island? Hao Weiyi Island should not be marked on the map. In the past, there were many tourists here, and Li Jian country should not be able to hide it. The presence."

"This small island... emerged from the bottom of the sea."

Li Yun's gaze passed through the heavy fog and saw the strange and mysterious island ahead.

"I'll go and see, you guys stay here."

"Hey?"

Shangguan was too late to stop, and Li Yun had already got up and flew out, quickly flying across the sky and landing on the small island.

Shangguanming gritted his teeth and ordered: "Let's get closer, prepare the speedboat, and support at any time!"

"Yes!"

But not long after, Li Yun flew back again, his face solemnly said: "Brother Ming, you contact Xia Ming and ask him to send people around Haowei Island to see if he can find an island that suddenly rises!"

"Okay." Shangguanming acted accordingly. After the contact was completed, he couldn't wait to ask Li Yun: "Do you suspect that these islands were built by six gates? They actually have such a powerful force?"

Raising a small island from the bottom of the sea, this kind of power can easily destroy a city!

Because the small island has roots, the small island actually has a large uplift under the sea surface. If this terrifying power is used in a land city, it can easily fly a large city with a population of tens of millions of people!

This is much more violent than a magnitude twelve earthquake.

"It's hard to say now." Li Yun suddenly thought of something and couldn't help cursing: "Mom's fleet of other countries must have discovered this kind of island, but they didn't say anything. Do these \*\*\*\* think it's on the island? Is there anything good you want to swallow alone?"

The last time Li Yun encountered a small island with traces of civilization, because everyone on the Ocean Princess knew it, which means that everyone in the world knew it, so Li Yun didn't specifically say it.

As a result, other countries are now hiding from each other, wanting to benefit from these suddenly rising islands!

"There are good things on the island? What good things?" Shangguan was itchy, "Should I send someone to occupy this island? Anyway, it is unmanned, and after it is occupied, we can have an excuse to stay in the future. Soldiers."

Li Yun rolled his eyes, "I suspect that these small islands were created by six gates thousands of years ago. There are traces of human activities on them. There is nothing, but the islands are so strong that they can't make much pits even with a missile."

A group of people were scared, and the missiles couldn't blow up. Wouldn't it be harder than steel?

Li Yun thought for a while: "Wait, aren't we going to bomb the sea surface of Weiyi Island? Let our missiles find a few small islands that suddenly rise up and explode, and see what's going on!"

Chapter 2449: Leave alone

Shangguan Ming nodded, but he didn't care too much. There were too many strange things tonight, and the island that suddenly rose up was nothing surprising.

Various orders were issued, and Li Yun sat on the deck alone, and in his voice, he successfully brought Huang Xuanguo's soldiers to shore.

Everyone had a feeling of rebirth when they stepped on the solid earthy ground.

Just walking through the fog pervading the ocean, it was like traveling through an unknown space, the world is boundless without knowing the boundary, as if driving on the Huangquan Naihe Bridge, leading to the reincarnation of the next life.

"saved!"

"Oh my god, my legs are so frightened!"

"Fortunately, Mr. Li will lead the way, otherwise I must be crazy."

"The legendary dragon chant... Is Mr. Li the incarnation of a dragon?"

"What's so strange about this? We are all descendants of the dragon!"

"Hahaha."

Stepping on the hard ground, the soldiers gradually recovered their moods and began to alert nearby.

Li Yun smiled and said, "Do you want to rest? If you don't have a rest, head to Waikiki Beach now. If you encounter people on the road, try to take them along with you."

The decision of the commanders of various countries on the island of Haowei has been published on the Internet. As long as people with mobile phones and computers around them can see the news

madly reposted by the media of various countries, Li Yun and others need not worry that people in other countries do not believe them.

The soldiers squeezed their weapons in their hands, saying that they did not need to rest and immediately began the rescue operation.

Li Yun nodded, took out two pieces of golden equipment and handed them to Shang Guanming.

"what?"

Shangguan Ming was surprised, with a weird expression: "Li Yun, when have you been so generous? This is not like you!"

Last time he had to get a space ring before he got it, but now he gave him two of them in one breath?

"I don't want Lingxian to pass the door, her brother will be killed in battle."

"You just died on the battlefield, with a broken mouth!"

Shangguan Ming snorted with a smile, and quickly grabbed these two pieces of equipment, a sword, and a dark red brace. You could feel their powerful strength in your hand. Shangguan Ming was overjoyed and quickly thanked him.

"nothing."

Li Yun waved his hand. He really didn't want to make Lingxian sad. After all, the current good Weiyi was perilous, and Shangguanming was only congenial, and it was still very dangerous to act on the island.

"But you have to remember." Li Yun warned him: "Don't use these two pieces of equipment as a last resort, otherwise you will become a living target and be chased by those practitioners frantically to take them!"

"I understand, don't worry."

"Huh? How do you know I'm not following you?"

"You guessed it when you looked like you were going to explain the funeral."

"...You crow's mouth is not too much."

Li Yun smiled and said to him: "Well, let's not talk too much nonsense. You will take the next road by yourself. If you encounter an invincible enemy, please contact me, or contact Mingzhu. There is the Saint of the Hidden Sacred Valley by her side. Female, as strong as me."

After talking about Li Yun, he flew away, and the innate ability to dance in the sky caused his figure to disappear in front of everyone like a bolt of lightning.

A group of fighters was stunned for a moment. If they encounter such an enemy, how should they fight?

No way to fight!

The submachine gun is estimated to be unable to break the opponent's defense, and without a huge range of weapons, there is no way for a strong like Li Yun.

Shangguan clearly glanced at the sword in his hand and said to himself: "Fortunately, my brother-in-law gave me a sword, barely a little emboldened, forget it...All of you listen to the order, move forward in accordance with the original formation, and be vigilant. Target Waikiki Beach!"

"Yes!"

Chapter 2450: Superman

Li Yun flew fast in the thick fog. Although the sky fog could not affect his actions, it greatly hindered his vision. He could only sense the general situation within a kilometer in a radius by his spiritual thoughts, and he was hindered by aura. Spiritual exploration is much more difficult than in the outside world.

"The creatures on the island have also begun to mutate."

Li Yun saw a huge pug from low altitude, barking at another black hound with red eyes and a wide open mouth.

Behind the pug, there was a family of three. The black mother was holding the youngest child, holding a gun in her hand, but her face was pale with fright—black and white.

"Does mutated pets protect their owners?"

Li Yun stood indifferently in the sky to observe for a moment. This family of three probably wanted to go to the public gathering spot, when they encountered this ferocious mutant shotgun on the road, and this pug was protecting them and confronting the hounds.

"It seems that the demonized creatures are not necessarily irrational, and they will even become smarter and know how to protect their owners."

Seeing the two mutant dogs fighting together, throwing up a large amount of dust and dirt, Li Yun was about to slay the black hound with a sword, but the little black girl suddenly yelled:

"F\*uck, gotohell!"

The little girl blushed, and hurled a fork commonly found on the dining table in her hand. With a swish, it directly hit the black hound's forehead, making it bloody.

And in her sister's hands, there are all kinds of small things, forks, steel balls, small shovel, etc., these are all weapons prepared for her sister!

Li Yun raised his eyebrows, "Is this an ability? Manipulating metal? Or is it just simply getting stronger?"

Qing Sheng is right. The aura between the heavens and the earth can be transformed into anything, causing the creatures and even all objects on the earth to undergo wonderful mutations. As intelligent creatures, although the mutation is slow, it is more controllable.

But non-intelligent creatures mutate much faster than humans.

"Wow!"

The enraged black hound burst out with a wave of air, and with a flick of its tail, it forced the pug who was biting its hind \*\*\*\* into the air. It slammed its four legs on the ground and threw its \*\*\*\* mouth at the little girl. .

A family of four was terrified, and the little girl fell to the ground in a panic, all of a sudden her superpowers were forgotten.

boom!

A flame fell from the sky, instantly turning the black hound into a ball of flames. The shrill cry made the little girl's eyes widened: "Mom, this is... Ah, yes, it is Huang Xuanguo's Li Chaoren, it must be him! "

"F\*uckF\*uckF\*uck, Thankgodness!"

The chubby black mother yelled in excitement, shouting various words of thanks to the surrounding fog.

The corner of Li Yun's mouth twitched in the sky. Foreign countries like to say F\*ck no matter what they say, and this little black girl... is full of FaFa.

"You guys go get together."

Leaving a sentence in Chinese, Li Yun didn't care whether they could understand or not, so he flew away and searched around Haowei Island repeatedly.

It was only incidental to save people. His purpose was to find traces of six gates. It would be even better if he found the eyes of the misty formation.

"No, this formation is stronger than I thought."

After flying repeatedly for hundreds of kilometers in the fog-shrouded world, Li Yun gave up. As far as his eyes were, there was white fog. The aura surging aimlessly, like a strong wind sweeping over the sea, there is nowhere to be found. Where the eye is.
