

Godly Choice 2451

Chapter 2451: God-level formation

"I now have a master-level formation technique. Although I lack the relevant knowledge of prohibitions, spells, enchantments, etc., and cannot produce a complete effect, I should also be able to see some changes in the formation context!"

Li Yun stood on a big tree, frowning and looking at the sky.

The master-level array technique he can display 60% of the effect, but still can't see any traces of the array method, which is stronger than the misty ghost killing array in the capital last time (in fact, it is the array method attached to the Huangquan guide flags).

"Isn't it said that the Six Gates and Hidden Sacred Valley are about the same strength in theory? Why do you feel that Hidden Sacred Valley is being played in the palm of your hand? , I don't know where it is hidden!"

Li Yun couldn't help but complain.

The strength of the Hidden Sacred Valley was much worse than that of the six gates, but he vaguely guessed why the Hidden Sacred Valley was falling behind everywhere.

Still those two words: interest.

"Forget it, let's use skill pill."

Li Yun took out the skill pill that the system had previously rewarded. It seemed that the system had foreseen this situation, so it was specially rewarded to him.

"Ding, the host uses the skill pill, the formation technique is promoted to the **** level, and gains a new passive: elementary prohibition."

Li Yun's eyes lit up, the formation technique is actually not very knowledgeable, there should be better formation-related skills on it, which can be seen from the master-level not getting a new passive.

But this primary restriction is more powerful. Simply put, there is no need to set up an array, just a movement of divine consciousness can place the restriction.

In comparison between the two, the formation is like a fort, providing a steady stream of vitality, while the prohibition is a grenade, which is simple and easy to use.

After reading the knowledge of prohibition, Li Yun couldn't help thinking of a skill of Sun Dasheng: painting the ground as a prison.

Use the golden cudgel to draw a circle on the ground, you can prohibit the monster from entering, this should be a kind of prohibition!

"Unfortunately, I don't need the restriction now. God-level array technique is the real skill that can work."

Li Yun was secretly surprised. With the God-level Array Law, he should always be able to see the eyebrows, right?

As long as the dense fog is unraveled, with a dozen or so armies of hundreds of thousands of humans, thousands of missiles from various military bases around the world, more than half of the world's aircraft carriers are assembled, and a hundred return to the virtual world are not enough to see. !

after an hour.

"My Cao?"

Standing on the top of a volcanic tourist attraction, Li Yun looked down in all directions, and the sky was filled with gray fog. He couldn't help but cursed again violently.

With the help of the power of the free flight of the innate Taoist fetus, he has almost visited the eight great islands of the county town, but he can't find the source of the dense fog, nor can he find where the aura comes from!

These two weird things seem to come from the Jiuyou Hell, with traces of pus and blood oozing out. Yes, Li Yun has already discovered that the aura is oozing from the ground. You can sit and look to the right, even using the ability to penetrate water. On the bottom of the sea, I found a circle along the coastline, but I couldn't find the true source of aura and fog!

"System, is it still alive? Can a good god-level skill be proud of the world?"

Li Yun cast his anger on the system that couldn't answer. What god-level skill was given by this cheating thing? Could it be that the thick fog was not caused by the formation?

No, it's impossible to think about it.

Even if you don't mention the power of deceiving people's minds around Weiyi Island, this dense fog gathers but does not disperse, and there are shadows of formations in it.

"Unless the formation is not made by people in the world, but..."

Li Yun suddenly thought of a possibility.

God-level skills can be proud of the world, but if the formation is the same as before...

"jingle!"

Chapter 2452: Wang Xiangui

The ringing of the mobile phone rang, interrupting Li Yun's astonishing speculation in his mind. He suppressed the shock in his heart, took a deep breath, and picked up the phone.

"Mr. Li, save me!!"

There was a panicked voice from a certain poison king on the phone. Li Yun raised his eyebrows and smiled: "Wang Xiangui, it turns out that you are not dead yet."

This guy hadn't contacted him for so long, and Li Yun suspected that Wang Xiangui had dived again and acted as a three-faced spy.

"Uh, Mr. Li, don't make a joke,"

Wang Xiangui wiped the sweat from his forehead, and smiled bitterly: "If I knew that this action had caused such a big movement, what would I say, no, I won't be out of Zhonghai City even if I only live for half a year. I won't come to this muddy water either!"

The current situation on Haowei Island is not something ordinary people can participate in. His brother thought this was a great opportunity, but Wang Xiangui only saw a great murderous opportunity!

Those cultivators don't care about the lives of mortals at all, nor do they care about the life and death of their subordinates at all.

"Stop talking nonsense."

Li Yun said lightly: "If you want to survive, you have to prove that you are qualified to live."

"Yes Yes!"

Wang Xiangui immediately replied respectfully: "I have inquired about a lot of things these days, and I know that they are brewing a big event!"

"Finally remembered me after so many days?"

"Uh, Mr. Li, you may not know who is the real big man who can gather mercenaries from all over the world."

Wang Xiangui quickly explained that he had been under surveillance and had not had many opportunities to make phone calls before.

Li Yun smiled faintly: "Where are you now?"

"Kauai."

Kauai (Kauai) is located at the northernmost tip of Howeyi. It is the oldest island in the archipelago. According to legend, the ***** who protects Howeyi lives here.

The information of Kauai flashed through Li Yun's mind, and an inexplicable doubt became thicker.

"I'll be there soon."

After speaking, Li Yun hung up the phone, his figure flashed across the sky and flew towards Kauai.

After obtaining the congenital road tyre and breaking through to the realm of the law, the difference between Li Yun and ordinary people is getting bigger and bigger. If he does not have the congenital road tyre now, it is estimated that he can only get a car, and then slowly fumble through the fog to the dock. Then take a boat from the pier to Kauai.

But with the blessing of the innate horror physique, his speed reached three to four hundred kilometers per hour, like a high-speed rail traveling at full speed across the sky.

If there was no fog, Li Yun would now be soaring in the sky like a real god. Below him is the endless sea. Above the sea, you can see the beautiful Haowei Island!

It's a pity that Li Yun can't distinguish the north, south, east, and west apart from the navigation of his mobile phone when flying in the fog.

Fortunately, this misty array did not shield electromagnetic signals, otherwise the humans on Haowei Island would have completely returned to the original era.

"I have arrived."

The voice rang in his ears, and Wang Xiangui was so frightened that he looked left and right, but he could not find Mr. Li.

"You find an excuse to leave the hall."

Li Yun found Wang Xiangui in a luxurious villa facing the sea. The villa was already occupied by him and his younger brother Wang Xianneng's men. There were bodyguards standing guard with guns everywhere.

Judging from the morning dew on their clothes, these people did not relax the whole night, and they were probably scared by the monsters on the island.

Unfortunately, no matter how dedicated the bodyguard is, there is no way to find Li Yun in a quiet state.

Chapter 2453: Nelson

Wang Xiangui used the excuse to go back to rest and prepare for tomorrow's battle. Everyone didn't suspect him. After all, they didn't sleep all night, and they were in a state of mental tension. Now they are almost at their limit.

Wang Xiangui went up to the second floor calmly and opened his room. At first glance, he saw Mr. Li sitting in the room facing him!

"what!"

Li Yun's ghosts appeared abruptly, frightening Wang Xiangui to take a step back, and his loud shout attracted the attention of the bodyguards downstairs.

"Boss, what's the matter?!"

"No, it's okay. A slap-big mosquito flew in front of me and was slapped to death by me."

"I'm Cao!"

Everyone got goose bumps. The Nima's mosquitoes have mutated, and they are still slapped. If they grow up, wouldn't they ***** everyone up?

"Come in, no one." Li Yun greeted him like a master, Wang Xiangui smiled, closed the room after entering, and stood respectfully in front of Mr. Li.

I couldn't help but wonder, all the windows and vents of the villa were nailed down by wooden boards to prevent monsters from coming in. There should be only one entrance and exit from the door.

How did Mr. Li enter his room? And still faster than him!

"Thank you, Mr. Li, for your trust in you!" Wang Xiangui patted Li Yun's flattery. After all, the other party came here alone, risking his backlash.

Li Yun glanced at him and said lightly: "You don't need to thank me, I checked the surroundings before I came in, and there is no threat to my existence."

He dared to act on the Void Returning Realm now, unless an old monster like Wan Faxian came in person, or a few Void Returning Realm set up formations, otherwise Li Yun had nothing to fear.

"Yes, yes! Mr. Li, your strength can truly be called a fairy!"

Wang Xiangui continued to flatter, and seeing Li Yun's expression on his face, he quickly said: "Mr. Li, your strength is far better than my ineffective brother. They only mastered the power of alms from the six gates. Fireball, I dare to want to kill people on the island wildly. It's really irresponsible and not a pity to die!"

Wang Xiangui resolutely drew a clear relationship with his younger brother.

"Got the power? It was given by the six gates?" Li Yun's voice sank, "Tell me everything you know!"

"Yes!"

Wang Xiangui stood in front of him respectfully, one to five to ten, shaking out everything without any concealment-only what he knew.

"Nelson Rockefeller?" Li Yun read out the name of this strong national, and Wang Xiangui hurriedly recounted his information.

"The vice president of the old cloth ten times, is now a hundred years old, right?"

Li Yun sneered: "I guess he must be trying to survive, so he did not hesitate to use his power in Lijian country to summon tens of thousands of mercenaries from all over the world to come and make waves on Weiyi Island."

This kind of people who have been half of their body in the soil, power, status, money, women, family honor, etc., have become indifferent.

Only longevity is what these elders who are approaching their lifespan pursue!

"Mr. Li is wise!" Wang Xiangui flattered again. "I heard Yan Shengrong from the Yan family revealed to us that everyone can rejuvenate after the incident. Just like Nelson, it is estimated that he has become young now."

Saying these words, Wang Xiangui's face was full of envy.

Anyone who has reached the age of sixty can feel the passing of his life, and the desire for rejuvenation is something young people cannot understand!

Chapter 2454: experiment

Li Yun smiled and said: "You don't need to envy him. As long as you are in contact with Reiki regularly, that is, in an environment similar to the current Haowei Island, your vitality will be

greatly strengthened. It is not a matter of the average life expectancy that exceeds one hundred years. Down."

Wang Xiangui's face was happy.

"But." Li Yun shrugged and said: "If there is no aura of nourishment, the vitality gained will quickly wilt, and everything will turn into a dream bubble, so even if that Nelson looks younger, but if there is no Dan from Liudaomen If medicine or spiritual energy is maintained, he will soon age again."

Wang Xiangui's expression froze.

This means that if you want to gain life from the six-door approach, you need to take the pill all the time, but you have to keep trading with the magic door once and twice. It's okay in the long run, isn't it just looking for death?

Wang Xiangui looked at Li Yun subconsciously: "In other words, the current Haowei Island is not only a paradise for monsters, but also a paradise for mankind?"

"Otherwise, why are there so many superpowers?"

"Uh, this is really... quite amazing news!"

Wang Xiangui couldn't help but imagine that if the monsters of Haowei Island were repelled, and the sufficient aura between heaven and earth could be retained, then, what would the land price of Haowei Island become?

I am afraid that one million square meters, the world's richest people will be crazy to grab!

Li Yun asked: "What is your next move?"

"Uh, Mr. Li, it's not us, it's them!" Wang Xiangui first picked himself up, then replied respectfully: "The current instructions are for them to kill people on the island frantically and make the situation even more chaotic."

"Killing is false, but collecting souls is true."

Seeing Wang Xiangui's puzzled face, Li Yun explained: "Human souls possess all kinds of incredible powers. Now Haowei Island is shrouded in a large array. The souls of the dead are separated from the body and may be absorbed by the large array... Haha, I I thought of a way to find this big formation."

Li Yun looked at him, Wang Xiangui was taken aback for a moment, then his face paled, and he thumped and knelt down: "Mr. Li, please forgive me, don't, don't kill me, I will let one of you come down to do an experiment for you? If it's not enough, just two, three!"

Li Yun smiled and said: "You are quite smart, and your subordinates are all the poisonous dealers who are full of evil spirits? Tell the truth."

"Of course!" Wang Xiangui reprimanded his former subordinates, saying that they are all evil scums who do not want to die.

"Okay, I'll kill a few people later, so you can do it for yourself."

Li Yun certainly knew that Wang Xiangui was the biggest criminal, but this old guy was very cunning. He washed his hands at Jinpan more than a decade ago, and now he has already washed himself.

Although Li Yun could kill him with a single sword, he was given a chance to reform because he was an inner ghost.

"Yes! I must..."

Halfway through Wang Xiangui's words, Mr. Li, who was sitting on the chair in front of him, disappeared. He shook his body and quickly checked the doors and windows, but was surprised to find that there was no change, even the curtains did not flutter.

"Mr. Lee?"

"Mr. Lee?"

Wang Xiangui swallowed, and filled the air with what I had just said: "I will be a good person in the future and do more good deeds to make up for my past mistakes!"

Li Yun, who had come downstairs, smiled faintly. The so-called putting down the butcher knife and standing to become a Buddha is how unfair to the people who have been butchered by the knife, but no one cares about the opinion of the dead.

Is not it.

Chapter 2455: Be a good man in your next life

Maintaining a secluded state, Li Yun came to a group of bodyguards who were enjoying breakfast in the restaurant, listening to their conversation silently.

"Fuck, I worried all night last night and nothing happened in the end!"

"Yeah, I had known that I followed the second boss to kill people on the island. I heard that the brothers who followed were crazy. In the past, those high-ranking figures knelt on the ground like dogs and begged for mercy, and then the brothers acted like men. Face, go play with their wives and daughters!"

"F*uck, missed the great opportunity last night!"

"Don't worry, hey, there is no sign of this mist dissipating. When we wake up at noon, we will go out and take a stroll to see if there are any women who can play and relax."

"Ha ha ha ha!"

A group of greasy bodyguards laughed, fantasizing about their wanton and refreshing scenes on the island, Li Yun had no expression on his face, and quietly took out the Leap Fire God Sword.

"Hey, how are you practicing?" a bodyguard asked suddenly.

The sword raised by Li Yun stopped.

"Don't mention it, I can't even send a fireball." Someone complained: "Damn, the second boss gave us a pill, but I don't think it's very useful. I read the news on the Internet, people with supernatural

powers. More and more, but we have taken the pill, but it is no better than ordinary people who have not taken it!"

The fact that ordinary people on Hao Weiyi Island have acquired supernatural powers has been reported on the Internet, and many people who are not afraid of death even want to sail to Hao Weiyi Island.

Manipulate metal, breathe flames, stature like wind, hard flesh, even some old people rejuvenate and so on.

These are all things that only happened in Hollywood blockbusters before, but they are actually staged in the real world!

As long as the world can get the news online, people who are not from the primitive tribes of Heizhou have all witnessed the arrival of the new era together!

"Hi."

Li Yun changed his mind and showed up with a smile, holding the intercalary fire sword to say hello to the group of former drug criminals and current mercenaries.

Everyone was stunned, and when there was no time to react, one's head was already flying.

"I personally feel."

Li Yun swung his sword slowly, "The training speed in the Lower Mansion is faster."

Another person died, and the others finally reacted and hurriedly picked up the submachine gun at their feet.

"Furthermore." Li Yun took another slow sword: "There are many female yashas in the prefecture, and there are many evil spirits who like to hold steel forks and give people chrysanthemums to bloom all over the ground. They are definitely good for you."

Bang bang bang!

Bullets poured out, hitting a wall of air in front of Li Yun one after another, only ripples swelled, and even no sound came out-Li Yun had already imposed a ban on sound outgoing.

"you you you!"

No matter how stupid a group of bodyguards were, they should have realized who the people in front of them were, and they shrank and shivered in the corner of the restaurant.

"Remember the fear now, and be a good man in the next life."

Li Yun didn't talk nonsense with them much, he swiped a sword, blood splashed, and the confused souls left the flesh.

Li Yun stared at it, and with his spiritual vision, he saw that these souls were still caring for their bodies, and they didn't want to leave.

The reason why he appeared just now is that he didn't want this group of gangsters to die in ignorance, and he wanted to experiment. What is the difference between the souls of people who died with fear, resentment, and anger, and ordinary souls?

Chapter 2456: The base of six gates

At present, it seems that there is no difference except that the angry soul fluctuates more intensely.

The human soul has power, and human emotions are the best way to drive this power. The previous spirit sticks that collect people's grievances and convert them into yin and evil energy have shown this point.

In the eyes of Li Yun's spiritual vision, these souls wandered on the body of the broken limbs in confusion for a while, and then flew in a certain direction together.

The soul ignores all physical obstacles, they directly passed through the barriers, speeding up and flying in a certain direction.

Fortunately, Li Yun's quiet state is comparable to ghosts and charms, and he easily followed these souls, and finally came to the sky above a three-story building, and the soul slammed into the ground with a whistle.

"Here is the eye?"

Li Yun raised his eyebrows and looked at the surrounding environment. This should be a small town where the aboriginal people live on the island. Li Yun began to explore and found many residents who were hiding in their rooms and waiting anxiously for it to end. NS.

They should have been instructed to go to the gathering point, but because they were afraid of walking through the fog, they could only wait for the army to come and take them away.

And around this three-story building, Li Yun clearly saw a hidden formation. This formation may be very clever to others. The formations are inconspicuous in the house and on the side of the road outside. On the big tree, but for Li Yun, this formation seemed too rough, and he could see through it at a glance.

"It seems that God-level formation law is still useful."

Li Yun regained his self-confidence, and when his mind moved, the transparent and imaginary figure walked in "wagging", directly ignoring the warning of the formation.

Still the same sentence, the congenital womb is too strong, Li Yun suspects that he is a Ten Thousand Faxian close to the soul and light realm, and can walk back and forth under his nose.

When I walked into the hall, there was no influence of the formation method inside, and I suddenly became enlightened. I saw an empty hall outside, but inside, there were lights on. In the living room, there were more than 20 people wearing various ancient costumes sitting cross-legged. The six sect people who are cultivating with their eyes closed, surrounded by spiritual runes with magical instruments!

"Finally found you!"

Li Yunxi came from the heart, and now he only needs a sword to kill all the six disciples from the middle stage to the consummation of the gods.

It's just that the real mastermind is not them, and the impact of killing is not great.

"Are they just practicing?"

Li Yun walked through this group of six sect people who closed their eyes and practiced without any guilty conscience, and checked their current state one by one, and found that these people were indeed not maintaining any formations, but only cultivating!

There is a formation around it, but its function is only to gather spiritual energy and accelerate cultivation.

The scene at the scene was a bit weird.

Li Yun, in a quiet state, stood with a group of cross-legged people among the six cultivators with no expression on his face. There was no voice around him, and everyone's mouths were firmly closed.

"Strange, can it be said that these people are hurrying to practice because they lacked aura before?"

"Or, are they guarding something?"

Thinking of this, Li Yun lifted his spirits and was about to search the house, but after another thought, this was another opportunity for experimentation.

With a thought, Li Yun's transparent body passed through a middle-aged man who was sitting cross-legged, about thirty years old, surrounded by a circle of magical runes.

"Who?!"

Chapter 2457: disturb

A loud shout broke the tranquility in the hall.

The middle-aged man only felt an inexplicable force hitting his soul. The defensive enchantment around his body was completely useless. He was easily traversed by the opponent and hit the depths of the sea of consciousness with a headache. The feeling made him scream in pain.

"who?"

"what happened?"

"Junior Brother Zhao, what's the matter?"

"The group of **** in the Hidden Sacred Valley invaded?!"

A stone caused a thousand waves of waves, and everyone cultivating in the hall opened their eyes. After knowing what had happened from Junior Brother Zhao, who was holding his head, the group took out the magical instruments and looked around vigilantly.

Some people held magical instruments and went out to check, and some cast spells, searching for people who might be hidden around them.

Li Yun stood at the window and did nothing except avoid a disciple who rushed to check.

The purpose of his experiment was achieved.

The quiet state is not completely invisible. It can ignore defense barriers, formations, and restrictions to a certain extent, but cannot pass through the practitioner's sea of consciousness.

Simply put, if he hits the practitioner, he will definitely cause some damage to the opponent. It's as if the two people are touching each other.

It's okay for ordinary people to be crossed by him, at most some people with keen perception vaguely feel that something has passed by.

"What happened?!"

An old man appeared in the hall with a majestic shout and stopped the riot.

"Someone?"

Knowing what happened, the old man frowned and searched the surroundings with spiritual thoughts, and finally came to the conclusion: No one was hiding around at all!

"Zhao Qianhua, did you have something wrong with your practice?" the old man said lightly: "So that the sea of consciousness shakes and becomes suspicious."

Zhao Qianhua, who was previously attacked inexplicably, did not dare to say anything.

This old man was named Lu Gao and was a disciple of Elder Shi. He had been in the Divine Refining Realm for four hundred years, but he hadn't had enough resources to advance to the Void Realm.

It wasn't until last night that Lu Gao took the opportunity to absorb a huge amount of aura after the aura broke out on this overseas island, and broke through the Void Return Realm in one fell swoop!

According to the rules of the previous six gates, the Void Returning Realm can become a venerable person, and the status is greatly improved, and the resources obtained are completely different from the previous God Refining Realm.

Therefore, being stimulated by Lu Gao's Advanced Return to Void Realm, Zhao Qianhua and other talents seized the time to practice, for fear that they would miss this rare opportunity to be full of spiritual energy!

"Venerable Lu and Lu, I think...I have no problem with my cultivation. Is there any secret weapon in the Hidden Sacred Valley that allows them to sneak in?"

Of course Lu Gao did not become a Venerable. Zhao Qianhua was just flattering him. Sure enough, after being called a Venerable, Lu Gao's expression eased a lot.

"Suspicious." Lu Gao's mouth evokes a hint of sarcasm, "The phantom array that my master and I have placed can block the full-strength attack of the Void Returning Realm for a moment. If there is an enemy sneaking in, then he only needs one move to be able to cultivate. Kill all of you, there is no need to attack with any spirit!"

Zhao Qianhua lowered his head in shame. He really couldn't understand why the enemy suddenly attacked his soul, and there was no movement after the blow.

Is it a ghost after mutation?

Li Yun smiled slightly, this Venerable Lu was right, he could kill all the disciples in the realm of refinement with a single sword.

"Zhao Qianhua." After taking control of the situation, Lu Gao said coldly: "You arbitrarily disturbed everyone and punished you to go out and kill enough people to come back."

Chapter 2458: Practitioners never look back at the explosion

Zhao Qianhua was taken aback, now go out to kill? Wouldn't it be that there is no time to practice!

"Why, are you dissatisfied?" Lu Gao's expression became colder.

"Yes Yes!"

The quasi-venerable person in the Void Returning Realm was angry, and Zhao Qianhua could only give in, and he had to thank Venerable Lu who did not punish him heavily.

It was obviously not his fault, but he still had to thank and confess his punishment, so that Zhao Qianhua who walked out was full of anger. He took out a magic talisman and patted it on his lap, and his figure disappeared like the wind.

"Continue on alert."

Throwing a word, Lu Gao entered the inner room. Li Yun vaguely felt that a passage leading to the underground was opening behind the small building. When he lifted his footsteps, the system's selection prompt sounded.

"Ding, trigger the option event, please choose from the host:

Option 1: Pursue Zhao Qianhua, kill him before he starts to kill, reward justice value +100,000, experience value +1 million, all attributes +1000, golden gift bag*1, and get a random spell skill.

Option 2: Keep up with Lu Gao, find the tunnel, reward experience value +10 million, all attributes +500, purple gift bag*2.

Choice 3: Come out, kill everyone present, reward justice value +1000, experience value +50 million, all attributes +1 million, colorful gift bag*1, causing unknown consequences. "

Li Yun paused and quickly browsed the contents of the three options.

There is no doubt that killing everyone is the most generous reward, but the justice value is added very little. According to the system, it should be to kill Zhao Qianhua first, then come back to track Lu Gao, and then kill the talents afterwards.

"Let you continue to survive for a while, and then clean up you later!"

A cold light flashed in Li Yun's eyes, and the figure flew out like electric shots. His virtual body quickly passed through, and he quickly found Zhao Qianhua standing in front of a family.

"Hehe, there are people here, is it useful to hide in the room?"

Zhao Qianhua sneered at this two-story small house, holding a piece of rune paper in his hand, and the dazzling fire light radiated out, illuminating the surrounding fog, and also let the people hiding in the second floor room see it, sticking his head out from Look down the window.

"what!!"

The owner of the house screamed and hurriedly left the room on the second floor.

"Want to escape? What a stupid mortal." Zhao Qianhua sneered, "Where can you escape in front of my spell? The whole building will be ashes in front of my spell, still want to escape?"

After that, he threw the fire-emitting rune paper toward the small house, and then walked towards the next house without looking back.

one.

two.

three.

Then, there will be a boom, and the entire small house will be reduced to ashes.

Real practitioners never look back at the explosion.

"Hahaha."

Zhao Qianhua's face showed the pleasure of enjoyment. Although he was very annoyed by the interruption of his practice, one of the pleasures brought by Xiuxian was to show his magic skills in front of these weak mortals, watching them show inexplicable expressions of horror. They killed them in a terrified begging for mercy and extracted their souls into powerful magical instruments.

Only this time...

"Um?"

After six or seven seconds, the expected explosion did not come, Zhao Qianhua paused, and looked back, his face changed drastically on the spot!

A man standing in the air caught the open flame curse he had thrown out, looked at him with a smile on his face, and threw the open flame curse back.

"You are.....!"

Zhao Qianhua was shocked. The reflected open flame curse was stronger and faster. He played several spells one after another and rolled on the spot before avoiding the attack range of the open flame curse.

Chapter 2459: Iron Curse

boom!

A huge explosion sounded in the residential area, more than a dozen heads poked out, and after seeing Li Yun walking down the sky step by step, they hid in fright—they didn't even know what Li Chaoren grew up. appearance.

"You... are you that Li Yun?!"

Zhao Qianhua finally realized that the disciple who had heard that more than a dozen Brutal Dao went to the sea to check the situation, but was killed by one person.

As a result, Li Yun's name spread through the Six Doors, and some of the things he had done before have gradually become known to more people, including the fact that he has many superb magical instruments and even spiritual instruments in his hands!

"it's me."

Li Yun smiled faintly, not interested in talking nonsense with him, and directly raised his hand to provoke a fire.

"This is... Spirit Fire!"

Zhao Qianhua was taken aback, and stared at the blue flame in his hand with shocked eyes. The flame exudes amazing energy fluctuations, it is definitely a spiritual fire that makes all practitioners greedy!

It is said that only the venerable and the elders can obtain the spiritual fire information from the martial art. If you want to absorb them, you will have to spend more than ten years of work and slowly wear it out before you can have a glimmer of hope to incorporate the spiritual fire into your body.

But all this is worth it. The power of the spiritual fire is extremely powerful. Zhao Qianhua heard that a sacred fire sage, relying on a small golden spiritual flame, just beat an elder to the ground, and the dignity of the elder was wiped out. .

But if you want to face the spirit fire yourself...

"escape!"

Zhao Qianhua turned around and ran, using magic talisman, light body technique, and the secret method to enhance strength together, and flew crazy far away.

"Want to escape? What a stupid cultivator." Li Yunyouyou said: "Where can you escape in front of my top fiendish fire? The whole world will be reduced to ashes in front of my spells, still want to escape?"

"You! Damn it!"

Being humiliated by the other party using the words he had just said, Zhao Qianhua was very angry and swore in his heart that he would immediately find Elder Shi Zhen after returning, take away his spiritual fire, and then thwart his bones to ashes, before he can...

Zhao Qianhua's figure was fixed in place, and the blue flames quietly ignited on him, an unprecedented fear enveloped him, and a thought flashed in his heart: the soul is out of the body...

But in the next second, his body was directly turned into ashes, and even the soul did not have time to escape, and was swallowed by the fire.

"Unfortunately, there is no loot to touch...but forget it, there is nothing good to come to such a small person."

Li Yun shook his head and glanced at the owner of the house who had escaped from death. His figure became transparent again.

The owner of the house, who thought he was in the doomsday, stared blankly at the superhuman disappearing before his eyes, and suddenly reacted back: "Mygod, he is Huang Xuanguo's Superman Li!"

"Ding, the host makes a choice, kills Zhao Qianhua, rewards justice value +100,000, experience value +1 million, all attributes +1000, golden gift bag*1, and obtains a random spell skill: Iron Curse."

After receiving another gift bag, Li Yun glanced at his inventory. The only bag in it was the special bag for storing time-limited information, which was rewarded by the system when his sister Li Feng and his mother were reunited with her sister.

As for the Iron Curse, Li Yun took a look and found that this spell can bless himself and others, and it seemed pretty good.

Returning to the previous three-story building, those Six Dao Sect disciples had once again meditated and practiced safely. What happened just now did not affect them. On the contrary, they secretly rejoiced because they were missing one person and had a trace of spiritual energy for cultivation.

Ignoring them for the time being, Li Yun walked towards the back of the hall.

Chapter 2460: Too stupid

This three-storey small western-style building is a typical Western-style structure, that is, with a lawn on the front and back, and it occupies a very wide area.

Li Yun found a door behind the house, passed it directly, and came to the grass behind the small building.

The previous Lu Gao should have disappeared under the grass.

"Hidden closed formation? Tsk tsk, I can see through it at a glance now, and I can find a way to get in and out, but."

Li Yun touched his chin and opened it directly, he would definitely be spotted by the people inside, which would alarm the people inside. Does he have to wait for the tunnel entrance to open again before he can get in?

Although he had the confidence to escape when he was discovered, the information he found under the voyeuristic situation was easier to get to the truth of the matter.

"The formation is not valid for me, but unfortunately this tunnel entrance is buried deep in the ground, I...wait, I'm Cao?!"

Li Yun suddenly reacted, his quiet state can almost ignore all obstacles, and that naturally includes the soil under his feet!

With a thought, his body directly passed through the mud surface covered by the formation, into a tunnel that was one person tall, about one meter wide, and burning with dark red lights!

"..."

Li Yun patted his head dumbly, he was still too tender as expected.

The congenital Taoist fetus is said to be able to go to the nine heavens and the nine quiet, and it is natural to cross the ground.

It's just that he has just gained this kind of magical power, and his thoughts have not been transformed for a while. In Li Yun's subconscious, the underground is several kilometers thick. Wouldn't people be buried when they entered?

So when he was exploring the underground, he subconsciously ran to the beach and strolled along the coastline instead of diving directly into the underground.

"I'm so stupid, really! I only know that Tongyou can sneak into the bottom of the sea without being affected by the strong seabed pressure, but I don't know that it can penetrate into the ground, so that I can use the earth to escape in the future."

Li Yun spoke the words of Mrs. Xianglin, shook his head and walked along the tunnel.

In the final analysis, it was because he had always been a mortal before. Now that he has a strong physique like a congenital Dao fetus, it is normal to be unskilled. Children have to grasp with their hands first when they learn to eat.

—Of course, there are exceptions in certain countries that have been eating with their hands.

The tunnel twists and turns, and there are dark red spiritual lamps on all sides. A small formation is used to maintain the light. Li Yun walks along the road. As time goes by, he goes deeper and deeper into the ground.

This made Li Yun couldn't help thinking of Yongning Princess City. At that time, he also walked under the mountain along the tunnel to rescue the sleeping little princess.

"I don't know how Xiao Yongning is now?"

Thinking of the sleepy little princess who was petite and could hold him beloved in his arms, Li Yun couldn't help but show a gentle smile on his face.

Shu'e must be asleep now too, right? Call back when you have free time.

"Arrived!"

When I missed the little princess, my eyes suddenly opened up, and a huge underground space was exposed.

Li Yun converged his expression, and once again returned his thoughts to the state of Gujing Bubo—in this state, his ability to communicate with the ghost can be maximized.

"A lot of space!"

Li Yun has already prepared. After all, building an underground passage is not a day or two. Six doors must have invested a lot of energy in this secret stronghold.

But when he really saw the underground situation clearly, he was still taken aback.

Moreover, after seeing a huge thing in the distance, Li Yun almost appeared in shock!
