

Godly Choice 2471

Chapter 2471: Killing intent fluctuation

Surprised, he found out? !

But Li Yun quickly reacted, closing his eyes, letting the killing intent in his heart disappear, and once again entered the ethereal state of thinking of nothing, doing nothing, knowing the sea and the ancient well.

The aura of the riot repeatedly stirred in the underground hall. The three Void Returning Realm powerhouses who woke up opened their eyes and secretly guarded. The four used their spirits to repeatedly explore the hall and the thick soil, searching for traces of possible enemies.

for a long time.

"Friend Daoist Zhang." Shi Zhen looked at the ordinary-looking man with suspicion: "Are you sure that someone from the Hidden Sacred Valley has invaded?"

He was a little surprised. This man named Zhang Feng was born in Shura Dao. He was unknown a hundred years ago. In recent decades, his strength has improved by leaps and bounds, and he somehow became the Venerable Void Returning Realm. He was appointed by Master Ten Thousand Fax to guard this fan. The gate of life and death.

Shi Zhen was even more surprised that he hadn't noticed any traces of an enemy invasion just now, but Zhang Feng suddenly became alert!

Doesn't this mean that Zhang Feng is stronger than him?

"There is an inexplicable killing intent at us!"

Zhang Feng's face was extremely gloomy, and he continued to sit on the futon cross-legged, but a strange mark was formed on his hands, and he pointed his finger around him.

"Soul Quest!"

A wave of spirit power swayed gently, washing repeatedly in the underground hall. With this level of exploration, it was impossible for even a mosquito to be hidden in the hall.

It is even more impossible for a person to hide here.

Soul exploration is to search for all the humans, monsters, ghosts, etc. around which emit spirit power fluctuations. With Zhang Feng's attainments in soul cultivation, even the Ten Thousand Faxian seniors in the Soul Bright Realm are here, he can vaguely feel To the difference.

But now, nothing has been achieved!

"hehe."

The only woman among the four, the old woman in a dark blue robe, let out a cold sarcasm: "I think some people are afraid that the hidden sacred valley is scared to their bones, which causes a shock and makes people uneasy!"

Lu Gao was taken aback, and suddenly thought of what had happened on the ground before.

Zhang Feng coldly glanced at the old woman, and the corners of his mouth twitched, revealing a penetrating smile: "I'm not like someone who claims to be a Nanyang mother who was chased by an elder in the Hidden Sacred Valley so that I dare not even return home. Mother Nanyang has become Mother Zuanshan!"

Mother Drilling Mountain?

Li Yun, as well as the two Void Returning Realm present almost laughed out loud, meaning that this old woman was chased and killed so that she could only hide in the deep mountains and old forests?

Tsk tsk, I don't know how serious this old woman has committed, and was chased by the elders of the Hidden Sacred Valley and fled like a dog.

"Junior, you are looking for death!!"

Nanyang Zhuanshan's old mother was furious, her old face showed a hideous look, and her five fingernails burst out, showing her abnormally sharp nails.

"Two! This is not the time for infighting!"

Shi Zhen, as the elder of Six Dao Sects-Animal Dao Dao, stopped the conflict that was about to erupt between the two.

Li Yun's heart was a little settled. He didn't expect to show murderous intent to Zhang Feng just now, and he was immediately discovered by him.

It seems that the Void Returning Realm is indeed a strong person, their spirits have become very keen, any killing intent against them will be amplified, even the ability to communicate with the ghost cannot be hidden in front of them.

"If you want to make a sneak attack, you can only suddenly violent when your heart is still in the water."

Li Yun secretly speculated and felt that even if he attacked like this, the Void Return Realm would definitely be able to react, and he would light up his own magic weapon to resist it in a hurry, and it was almost impossible to attack the unsuspecting Void Return Realm!

Chapter 2472: Was found again

but!

There is more than just Return to Void Realm here!

Li Yun focused his gaze on the floating tower. While he stayed in the underground hall, a steady stream of souls were still being absorbed. It can be seen that there are more than three million people on Weiyi Island. There are deaths every moment.

Relying on the top level Spirit Fire, Li Yun is confident to destroy this small tower, but he considers whether to destroy the small tower and destroy the six-door conspiracy, will instead force these Void Returning Realms to shoot and kill them personally. The civilians on the island?

While hesitating, Li Yun heard Shi Zhen's disciple Lu Gao speak.

"Two Dao brothers, Master."

Lu Gao arched his hands at Zhang Feng and the old Nanyang woman. Li Yun saw the unhappy expression on the old woman's face. He was probably called Dao brother by a younger generation who had just broken through the Void Return, and felt very unhappy.

She and Shi Zhen are in the same position, but now Shi Zhen's disciple has also become the Void Returning Realm. How can this be swallowed?

"Huh!" The old Nanyang woman snorted coldly, and said in a weird manner: "Junior boy, what do you want to say?"

Lu Gao was not upset, but he smiled proudly: "Old man, what I want to say is that I got to the ground just now and encountered a strange thing..."

Just because he can sit and talk to the Void Realm, this visit to Weiyi Island is worthwhile. The old Nanyang woman has been famous for too long. When he first joined Liudaomen, he was very famous for her, but now what?

Lu Gao has equal status with her!

"Huh." How could the old Nanyang woman not see Lu Gao's pride? But in order to realize the plan, she forcibly suppressed the anger that was about to erupt, and said coldly to Shi Zhen: "It seems that someone has entered here. It takes a lot of time to open the door of life and death. Elder Shi, you quickly contact Wan Wan. Senior Faxian, say that the people from the Hidden Sacred Valley are here!"

The gate of life and death?

The name Li Yun got from the system was the mysterious gate, but they called it the gate of life and death, and they didn't know if it was correct.

However, the name Gate of Life and Death is a bit interesting, symbolizing life and death?

This old woman is too old, probably has lived for seven or eight hundred years, and belongs to a real old undead monster.

She values the plan to open this door so much. She is probably attracted by the meaning of the word "life and death". The purpose is to break through the current realm and continue to extend her life.

Otherwise, this kind of old monster, who is very old from the perspective of a cultivator, would not be easily moved!

Li Yun suddenly felt that there is not much difference between a practitioner and a mortal. He would still be afraid of death when he grows old. For example, Nelson of Lijian country also made a collusion with six gates in order to extend his life.

The difference is probably that some ordinary mortals accept their fate, wait for death when they are old, and cannot resist. If mortals have the opportunity to extend their life, I believe most people will try it!

For example, coming to Haowei Island, which is full of aura now...

"Don't contact Senior Wanfaxian."

Zhang Feng said in a dull voice, took out a letter Gu, and said in a harsh tone: "We have a response in the Hidden Sacred Valley."

What? !

"die!!!"

Li Yun was shocked by Zhang Feng's words, and at the moment when his mind was shaken, the secluded state was flawed. Zhang Feng, who had been prepared for a long time, seized the opportunity and slapped him with a giant palm.

boom!

Li Yun took a sturdy palm, his body flew out like a rag, and slammed into the thick mud wall-the quiet state made Li Yun's body virtual, ignoring the obstacles of most things.

Chapter 2473: Hidden in the gate of life and death

"Return to Void Realm!"

Relying on the strength of the congenital Dao womb, Li Yun forcibly ate a palm of the Void Returning Realm with anger, and the powerful mana penetrated his body, but was resolved by the nature of the Dao womb, and the damage was at least half less.

This made Li Yun become extremely vigilant, and his figure flashed directly behind the huge gate of life and death.

And just as he just hid, the four Void Returning Realm attacks came together.

Zhang Feng, Nanyang old woman, Shi Zhen, and Lu Gao who just broke through the Void Return Realm, the four of them pressed the wall together, and the eight hands seemed to lift the ground abruptly, and an unimaginable force burst out.

"boom!"

There was a violent tremor within a five-kilometer radius, houses collapsed, land swelled and sank, and thousands of residents hiding in the houses fled screaming.

Li Yun hid behind the gate of life and death, looking at the thick ground around him as if he was being kneaded with dough. If he didn't hide here, he would be found by the four powers of the Void Returning Realm. At that time, there would be four huge powers. At the same time pressing on him, Li Yun could only be forced to dive into the Lotus Immortal Mansion.

Of course, the Lotus Immortal Mansion will also be dug out and taken away as a trophy by the six gates. If the Lotus Immortal Mansion is refined again, Li Yun in it will become a turtle in the urn.

So instead of being taken away from the Lotus Immortal Mansion, it is better to work hard from the beginning, the Immortal Mansion can protect the weak and small around him, but it cannot protect him.

After a long time, the tremor in the ground slowly diminished. When the four Void Returning Realm withdrew their hands, the entire residential area could no longer see a complete building.

Fortunately, the houses on Haowei Island are mostly wooden structures, suitable for enjoying the sea breeze and sea views. Many people were injured, so few people died.

"He ran away!"

Zhang Feng's face was gloomy, but compared to his previous arrogance, his expression has now become extremely solemn: "The opponent has powerful invisibility and can quickly escape. If you want to find out that he can only show killing intent or fluctuate his mind. When we missed three opportunities, the other party will definitely become more cautious!"

Lu Gao mentioned his throat with a heart. He didn't expect that he would encounter such a tricky enemy as soon as he broke through the Void Return Realm.

He could actually hide around the four Void Return Realms, eavesdrop on their words and actions, and even figure out everything they are doing, including the gate of life and death and the tower of soul refining!

Such enemies are naturally invincible, and the opponent may even hide around now. As long as they show a slight slack, they will be seriously injured or even killed immediately!

The old Nanyang woman's face was also terribly dark, and three words came out from her shriveled mouth: "Invincible."

The meaning is very clear, this kind of enemy is no longer they can handle, they need to ask for support immediately, otherwise this mission will inevitably fail!

Shi Zhen glanced at Zhang Feng subconsciously and asked his opinion.

Through the two incidents just now, Shi Zhen believes that Zhang Feng's strength has far surpassed him. This person is likely to have received the Lord's attention and was given some treasures. Therefore, his strength can be improved by leaps and bounds within a hundred years. Much more powerful.

"Contact Senior Ten Thousand Faxian." Zhang Feng said with a cold face: "The other party has hidden treasures, but the power can't match the treasures on him. This reminds me of a person."

A person?

Shi Zhen and the others didn't know who he was talking about, but they were quite interested in that hidden treasure.

Chapter 2474: Encounter Wan Faxian Again

Li Yun walked out from behind the huge gate of life and death, and once again came to the underground hall, standing not far away from the four of them, looking at them.

He was slapped, but it made him affirm his strength. With the ability to communicate with the secluded, he would only expose himself when his mood fluctuated, and at other times he could safely hide and eavesdrop.

"Hidden Sacred Valley has six internal responses? Zhang Feng deliberately blinded me, right?"

"If so, who is the inner ghost? The disciple of the Refining God Realm...or the Elder Wu of the Returning Void Realm, and...the Nanhua God!"

Li Yun inexplicably had a doubt about the Taoist of South China, and always felt that where he had seen him.

But Li Yun thought of one more thing. If this is the true destination of the Six Dao Sects, why didn't Wan Faxian come to protect him personally? Is it disdain, or does it have a purpose?

Li Yun found this place by following the souls of the dead. Theoretically speaking, as long as the people of the Hidden Sacred Valley are not stupid, they will find this place sooner or later. There will inevitably be a battle between the two sides, and it doesn't matter whether people die or not. The important thing is that the conspiracy of the Soul Purgatory Tower will be terminated.

"Ten Thousand Fax!"

Li Yun chanted the name of the strongest person he knew. Now Sage Fanqing guesses that he is in the Soul and Light Realm. Now it seems that he can be called an adult by a group of Void Return Realm. Even if the Ten Thousand Fax is not in the Soul and Light Realm, he is much stronger than the general Void Returning Realm.

Even if he does not personally guard the gate of life and death, he should send a clone of his own, or his subordinates to come—currently in a cave of Wanfaxian, Li Yun saw that he has many disciples and followers, among those people there may not be strong people in the Return to Void Realm.

"TMD!"

Li Yun uttered a ***** to himself, and looked at the Prison Purgatory Tower that is still absorbing souls: "The puzzles appear one after another. Don't care about the choice or not, conspiracy or conspiracy, just one word: do it!"

Destroying the Prison Refining Soul Tower, even if it can't immediately destroy the conspiracy of the six gates, at least it will make them panic and expose more of their feet!

But just as Li Yun approached the Soul Refining Tower and raised the Leap Fire God Sword, another person interrupted him!

"Li Yun."

The warm and jade voice came through a paper crane, shocking Li Yun who was holding the butcher knife high, Wan Faxian actually knew him?

Yes, this voice is exactly what Li Yun has seen before. He has an extraordinary beauty and a temperament like an immortal, known as the ten thousand magic immortal!

Such a smashing name, judging from the current situation in the Age of Domination, there is a bit of conformity, at least this guy is really strong!

Li Yun was taken aback, and the remaining four Void Returning Realm were not much better, at least it proved that the hidden enemy was indeed still nearby.

"Ding, the situation has changed, the host did not make a choice in the last selection event, and it has expired."

"Ding, trigger the option event, please choose from the host:

Option 1: Come out and talk to Ten Thousand Magical Immortals, reward experience value +1 billion, colorful gift bag*2, all attributes + 50,000, magical skills and spiritual vision upgrade.

Option 2: Keep silent, watch what tricks he plays, reward golden gift bag*1, all attributes +3000.

Option 3: Run quickly, reward skill: run fast (increased speed when escaping). "

The other party is coming here!

Judging from the options given by the integrated system, Li Yun can confirm that Wan Faxian-the body or the clone, he is on the island of Haoweiyi, and he is coming quickly.

"Do you know how I guessed you?"

Chapter 2475: Calculated

There was a smile in Wan Faxian's magnetic voice. It was not like telling someone who was about to ruin his plan. On the contrary, it was like a younger generation who admired him, looking down at Li Yun with a high-level, masterful attitude!

And after he spoke, the four Void Returning Realm elders and venerables closed their mouths together, no one dared to speak anymore, and even Zhang Feng did not use probing spells to search for Li Yun's trace.

Li Yun's face was cold, thinking about the pros and cons of showing up or not.

50,000 attribute points and one hundred million experience are indeed greedy.

"the reason is simple."

The voice of Wan Faxian from the white paper crane is still clear as usual: "The child of Qing Concubine was a little flustered when she was talking to me. After she went out and came back, I used some methods to know that she went out to meet a man. ."

Shi Zhen and others were taken aback.

Concubine Wan Qing and the people of Hidden Sacred Valley secretly communicated the song, what on earth did she want to do! ?

Only Zhang Feng showed a sneer. He knew that Li Yun's identity was not from the Hidden Sacred Valley.

"And this man, who had come to my cave house during the day, was noticed by my two-winged thunder beast and left again."

The corners of Li Yun's mouth twitched, and there were indeed two things in these ten thousand magic immortals, and his thoughts were very meticulous.

"in addition."

Wan Faxian smiled and said: "I also know that you have a good relationship with the country, so in order to repay the fate, I have left you some books on cultivation, alchemy, and formation. Fortunately, you have also reacted to it. I didn't destroy all my cave houses, otherwise the repayment of this predestined fruit would not be beautiful."

Beautiful your sister! What pretend to beep!

Li Yun gritted his teeth and cursed. It was really uncomfortable to be calculated.

However, Wan Faxian, an old monster who has lived for a thousand years or two thousand years, instead called the country rather than the government.

"When I left the cave, I stayed there for a while, attracting you to come over and listen to me."

Wan Faxian said with a smile: "Although I did not find you at the time, I went back afterwards and checked under a big tree. Someone once stopped. I think you were there at that time?"

Shi Zhen and the others didn't dare to breathe in the air. They didn't expect this mysterious enemy to have peeped into the cave of Ten Thousand Faxians. No wonder they could sneak in and hide around them without being discovered!

"It's me, so what?" Li Yun chose to show up.

Of course, he still used to blur his own existence, the whole person was like a magic monster that suddenly stepped out of the void, Ying Ying Chuo Chuo couldn't see the real face, making Lu Gao, who had just broken through the Void Return Realm, his eyelids twitched.

"Are you willing to show up?"

Wan Faxian smiled and said: "To be honest, I am very curious about the way you hide yourself. If you can tell some of the principles, I will be happy to tell you our plan this time so that people can play freely and direct them casually. Missiles hit us!"

Shi Zhen was taken aback.

The old Nanyang woman, an old monster who doesn't care about external technology, may not know it, but he has sneaked into the missile base and personally experienced the power of the missile explosion at close range.

Hundreds of missile launching bases in more than a dozen countries around the world, if you aim and strike at the same time... Return to Void Realm can only flee in embarrassment!

Li Yun didn't change his face, "Do you know? I hate others pretending to beep in front of me!" Because only I can pretend!

"Hahaha."

Wan Faxian laughed.

Chapter 2476: Life and death

His laughter was full of hearty and winning pride.

"Neither, nor," Wan Faxian said with a smile: "It's not that I pretended to be, but when I found the door to life and death, this action was regarded as the goal achieved. Do you know why?"

"Hehe, I don't want to know, but what I know is." Li Yun sneered: "You are coming here, ready to ambush me, right?!"

"No, you were wrong again."

Wan Faxian shook his head--even though there was a white paper crane, everyone couldn't see his shaking his head.

"I actually have no intention of being an enemy of anyone, let alone dealing with anyone."

Wan Faxian smiled relaxedly: "I just want to see the coming of a new era. I believe anyone who knows me will know that I hate this immutable world. Even if modern people create unimaginable technology, it is still not enough. It's far from enough. For me, I want to live longer and see more things!"

Li Yun smiled faintly, "I can only believe your words, and now I want to destroy the soul refining tower, how do you deal with it?"

"you dare!"

Shi Zhen's four were cold and surrounded the Prison Soul Refining Tower, but the four of them were sure to defeat or even kill Li Yun, but they could not guarantee that the aftermath of the battle would not destroy the Soul Refining Tower.

"I am always only interested in the unknown, and I can guarantee that this is true."

Wan Faxian's voice is still light and freehand, "And believe me, keeping the soul refining tower is more in line with your values than destroying it."

"It's really rare that you actually understand values." Li Yun mocked.

"I am not an ancient person who can never change the past. I even spent 30 years entering the world's top universities to study for further studies."

"..."

Li Yun was frightened. If the opponent was just a strong man in the Soul and Bright Realm, and could not extricate himself from the world of cultivation, Li Yun might still be able to grasp his weakness.

But Wanfaxian is not only a powerful practitioner, an invincible existence in the world, but he is also proficient in modern knowledge. He may even hijack a nuclear bomb launch base by himself and kidnap the whole world in disguise!

"What on earth do you want to do? Or, what on earth do you six doors want to do!" Li Yun said coldly.

"You can't guess?" Zhang Feng said calmly: "Our purpose is very simple, to fill the world with spiritual energy, and the earth becomes a planet suitable for practitioners to practice!"

Li Yun was speechless, they had achieved a certain goal, at least Weiyi Island had become such a place.

"Li Yun, let's make a deal."

Wan Faxian smiled and said: "I believe you can destroy the soul refining tower. Although this magic weapon is a bit difficult to refine, I also have a backup plan, and you can't stop it."

Li Yun remained silent.

"I can assure you that the Soul Refining Tower only needs to absorb the souls of about 100,000 people to create a small dungeon, and let the gate of life and death mistakenly believe that the outside world has become a civic and activate itself."

"What happens when I start myself?" Li Yun couldn't help asking, what the other party said was really shocking.

Create a small underworld in the world?

"have no idea."

Wan Faxian said sincerely: "The record about the gate of life and death is a record that the guy found after searching through ancient books. It is closely related to the existence of the hidden sacred valley and the six gates. Fighting you to death and life, leading to the loss of most of the records, we don't know what the gate of life and death is."

Chapter 2477: furious

"I don't know if you dare to open it?!" Li Yun couldn't help but question.

"Didn't I say it?"

Wan Faxian said lightly: "I'm interested in the unknown." That guy' is interested in cultivating to a higher level, so we cooperated. Recently, all the things done by the six gates are to activate or open this. A door to life and death."

"Tsk tusk." Before Li Yun could speak, Wan Faxian said with enthusiasm: "I guess this gate of life and death is the gate of hell, hell, and underworld in the legend. Do you know? Myths and legends around the world are surprisingly similar. Everywhere, for example, there are floods, underworlds, and heavens."

Of course it may be due to the birth, aging, sickness and death of human beings, but I think this is because in ancient times, after the death of practitioners and ordinary people, their souls would enter the underworld and hell, and this door of life and death is the door to the world of the dead! "

Li Yun was convinced that this Ten Thousand Faxian was indeed a pervert.

Because he has lived long enough, he is not interested in most things in the world. Only unknown things can be the driving force for him to live. So let alone open the gate of the underworld, it is to let King Yama write his name on the book of life and death. , Wan Faxian, an old thing, would probably agree with interest.

"Hehe, want to go to the underworld?" Li Yun smiled faintly: "Be careful of the tauren face inside, or the three-headed dog from **** rushing out, and directly hook all your souls into the underworld. How about the Soul and Light Realm? too much."

"Um?"

Wan Faxian stunned, and then smiled: "You seem to know more than me? I just know that there are several masters of the underworld. The Yama, the Reaper, the Pluto, and the Ksitigarbha seem to be Buddhist."

Li Yun didn't need to answer him.

The system gave him a lot of memories about the gods. Li Yun knew most of the gods and immortals and monsters at the gate of life and death.

"Do you want us to make another deal?" Wan Faxian said with great interest: "I can terminate this plan, provided that you tell me the origins of the gods on the gate of life and death. You don't need much information, as long as Just know the name and the priesthood they are in charge of."

"Not interested in."

Li Yun said indifferently: "What you should be thinking now is how to prevent me from destroying your soul refining tower."

"you dare!"

The four Void Returning Realm present shouted loudly.

"Isn't the life of three million people enough?" Wan Faxian chuckled lightly, "I have no place to falsify. If the soul refining tower is destroyed, then I can only order to kill everyone on the island, let Souls are spread all over the islands, which stimulates the induction formation on the gate of life and death to activate it!"

Li Yun was silent.

According to Wan Faxian, behind the gate of life and death is the netherworld, and the way to open it is to create a small dead zone full of the souls of the dead in front of the gate to open the gate of life and death.

But what if it doesn't work?

Ten Thousand Faxians will inevitably kill more people and create a bigger dead zone. If one million people are not enough, then ten million people!

Retreating can only make the other party more wise, Li Yun knows this, but for now, he is like a kidnapper asking for money, at a stage where he can be compromised.

Property is something outside of the body and can be given to the kidnappers, but if it involves going further, such as requesting the release of certain criminals, you need to keep the bottom line!

"Don't believe me?" Wan Faxian smiled: "Well, let me tell you one more thing."

Chapter 2478: Peng Zi

"Oh?" Li Yun said lightly. In fact, he had already made up his mind to leave, so he went back to discuss with Fan Qingsheng and others.

A decision that concerns the lives of millions of people, Li Yun had to be cautious.

"In fact, there are two ancient mysterious creations on the island."

Wan Faxian's voice became illusory, "One is the gate of life and death in front of you, which cuts off the yin and yang of life and death, and seals the gods and monsters, and the other is a monument."

"monument?"

"Yes! A cyan inscription found in the crater, but without any records, did not show any text on it. I poured a lot of mana into it, and a text slowly appeared on the cyan stone tablet."

"What word?" Li Yun was fascinated by his words, but the more so, the more worthy of vigilance, to prevent the four Void Returning Realm not far from attacking.

"A text that is earlier than the tortoise shell script and is only recorded in some ancient books of Liudaomen: Peng."

Peng?

Li Yun thought there would be special words such as "Tao", "Life", "Death", "Date", "Ding", "Ding", or the Six-character Proverbs of Buddhism. He didn't expect it to be just a Peng?

"Then, the aura burst out from the stone tablet." Wanfaxian said in a funny way: "So the mist was not made by us, but the stone tablet, but it was a blessing in disguise. The massive aura made that guy too excited. , Of course, this is still not enough."

Lu Gao's heart was enthusiastic when he heard that, that stone monument can release a lot of spiritual energy, and it must be a treasure from ancient times!

If you can master it, wouldn't you have a steady stream of aura?

However, Li Yun noticed one thing. Wan Faxian kept mentioning another person and was in a cooperative relationship with him, proving that his strength was at least in the Soul and Bright Realm and had been hidden behind the scenes. This made Li Yun think of a person.

Concubine Wan Qing once said that a messenger behind the scenes is hidden deep among the six gates.

It seems that it doesn't matter who the mastermind behind the scenes is, Wan Faxian has been exposed first!

"Where is the stone stele?"

"It's right in the middle of Haowei Island, on Sandalwood Island."

"I'll confirm what you said, and we will meet again."

Throwing a word, Li Yun's illusory figure disappeared directly, making the four people present more vigilant.

"He really left?" Shi Zhen was protecting the soul refining tower, but there was a thorn in his heart: the stone tablet.

If you master the stone stele, wouldn't it be more beneficial than opening the so-called gate of life and death?

But on second thoughts, Senior Ten Thousand Faxian must be staying in front of the stele that can gush out spiritual energy. Even if Li Yun finds the stele, he can't take it away!

"Li Yun, I'm actually not here on the stele."

It seemed that they had guessed the four people's thoughts. Ten Thousand Faxian said leisurely: "The stone tablet is rooted on the ground and cannot be moved at all. I hope you can pry the stone tablet to see what its function is and whether it is related to the gate of life and death. Related? Hehe, I am more and more looking forward to what will happen next. Who made the gate of life and death and the stone stele in the ancient times?"

Bai Zhihe first said to Li Yun, and finally his voice became weaker and weaker and almost disappeared.

Lu Gao raised his head and glanced at the huge gate of life and death engraved with weird gods and huge monsters that cover the sky and the sun. He panicked inexplicably, and asked subconsciously:

"Senior Wanfaxian, we are here waiting for the gate of life and death. If behind the gate is really the legendary underworld, wouldn't we be in danger..."

boom!

Without a word, he was slapped severely by his master Shi Zhen, which caused Lu Gao to fly out, covering his face to be angry, and being photographed by the majesty of the master, he did not dare to get angry.

Chapter 2479: Leave, choose right

Shi Zhenli ignored him. Instead, he respectfully said to Bai Zhihe: "Senior, the bad guys lack discipline. You can punish him."

Lu Gao felt cold, but what shocked him even more was that Master, as well as the old Nanyang woman, Zhang Feng all looked at him with indifferent killing intent.

It seems that as long as Wan Faxian said a word, the three of them would immediately take action to kill this newly promoted Void Returning Realm.

"Master Wanfaxian, I..."

Lu Gao was stared at by the three people in cold sweat, his legs softened, and he knelt directly on the ground, his body trembling: "My lord, I and I were wrong. I shouldn't question your decision."

The old Nanyang woman sneered: "Now that the aura is sufficient, is the Void Returning Realm that led to the breakthrough just such a waste?"

Lu Gao dare not say a word.

"The Great Tribulation of Heaven and Earth is coming to an end." Wan Faxian's tone was indifferent, and there was no smile when talking with Li Yun. Lu Gao could even see Wan Faxian's eyes without a trace of emotion from the white paper crane, such as Gao. The immortal lying on the 9th Heaven, staring at him coldly.

"When the door to life and death opens, you will have a chance."

"Yes!"

The three of Shi Zhen bowed to answer, and then the white paper crane was burned to ashes, and the underground hall fell into a strange and quiet atmosphere again.

Lu Gao stood up in shame, exited the ground, and returned to the ground.

If it weren't for the aura from the stele, he wouldn't be qualified to become the Void Return Realm...

"Ding, if you didn't make a choice, it was the right choice. Reward: Justice value + 1 million, Aura value + 1 million, colorful gift bag*1, Human Emperor Heart Sutra was upgraded to God level, and new passive: Purification Curse."

Li Yun, who returned to the ground, received a reward from the system. He did not make the options given by the system before, but instead made the correct choice?

Perhaps it was because he delayed the pace of ten thousand magic immortals becoming crazy, so the justice value suddenly increased by one million, and the reward of spiritual energy also exceeded a million.

However, if the energy of the stone tablet continuously releases aura, the effect of the aura value of the system reward will be much less, at least the aura that eats the big aura-the black feather butterfly, the aura consumed can be obtained from the outside world, instead of eating immortals all the time Inside the house.

"Fluttershy?"

While flying, Li Yun talked with the black feather butterfly in the fairy mansion through Nie Xiaoqian: "Do you still want to eat now? Do you want to eat while there is something you like to eat now?"

"Woo~, I will have to sleep if I eat it again, Baba, can I eat it again for a few days?"

sleep? Evolve.

Li Yun nodded, saying that he still didn't eat it, so as not to eat badly.

"Baba, toad want to eat."

"Toad? Three-eyed toad?"

The three-eyed toad is the quiet-eyed toad, but Li Yun is used to calling it three-eyed, which is simple and easy to remember.

"Uh-huh."

"Okay... wait!"

Li Yun was about to agree, but suddenly he saw a familiar figure on the ground.

Said it is familiar, in fact, it is not considered familiar. Li Yun and him have only met once, and the dialogue is only one or two sentences. There is no familiarity at all.

But the figure just made Li Yun stop, still watching his leaving back in mid-air.

"The **** of Nanhua? Why did he suddenly appear here? Elder Wu and others didn't follow him?"

Various questions flashed in Li Yun's mind, and the system prompt happened to sound.

"Ding, trigger the option event, please choose from the host:

Option 1: Catch up with the immortal of Nanhua, reward the purple gift bag*1, there is a high probability that you will find some useful information.

Option 2: Give up, go back to Honolulu, find a mysterious stone tablet with the word "Peng", and reward a blue gift bag*1. "

Chapter 2480: Inner Ghost, Baihe Taoist

High probability to find useful information? Does that still need to be considered!

Li Yun acted decisively and immediately followed Nanhua Shangxian, and soon he discovered that the other party's direction was the three-story building!

"What does he want to do? Did he find that the souls of the deceased were gathered here, or did he come to meet the people from the Six Doors specially..."

Li Yun quickly learned the answer.

Shangxian Nanhua stopped half a kilometer away from the three-story building, and reached out from a storage bag to take out a Taoist robe that Li Yun was familiar with.

A Taoist robe that is embroidered with white cranes, looks like a fairy-style, and distinguished.

"Nanhua Shangxian... Baihe Taoist, so that's it." Li Yun's eyes flickered, and this time he suppressed the shock in his heart. Standing high in the sky, he silently watched Nanhua Shangxian put on his Taoist robe. The appearance has changed, and even the temperament has become quite different.

It's more powerful than god-level makeup.

"Baihe Taoist actually came from the Hidden Sacred Valley, and he is also the Nanhua Supreme Immortal that Qing Sage knows!"

Li Yun watched Nanhua Shangxian helplessly, or the Taoist Baihe entered the collapsed three-story building, but did not follow.

His mood was ups and downs and it was very complicated.

Li Yun once robbed the magic weapon that Taoist Baihe was about to refine in the ground of the A Duo Mountain volcano, which was the predecessor of the Leap Fire God Sword he was holding now.

At that time, the power of Baihe Taoist left a deep impression on him. A trick of Jinguang Town evil talisman made Li Yun almost unable to escape into the magma lake. In the end, he could only rely on the immortal mansion to carry an infinitely powerful bomb, directly After flying the volcano, he grabbed the Leap Fire God Sword.

"Qingsheng certainly didn't know that he had an affair with Liudaomen, but did Elder Wu know that? He probably didn't know it either. From the Taoist Baihe pretending to enter, he can tell that he still wants to keep the South China of the Hidden Holy Valley I don't want to be promoted by the people of the Six Dao Sects!"

Li Yun's thoughts turned sharply, and finally left without looking back.

Did not follow up.

Did not contact Fan Qingsheng or Wu elder to tell them this.

A Void Returning Realm powerhouse colluded with the enemy's sect, and this incident would cause an uproar. Li Yun believed that the Qing Sage would trust him, but the Five Elders and the group of Divine Realm disciples would not.

Anyway, find the stele first!

"Ding, the host made a choice to catch up with the Nanhua Supreme Immortal, rewarded with a purple gift bag*1, and discovered that the Nanhua Supreme Immortal had an affair with the thousand soul ancestor.

The choice of the system shocked Li Yun, what? Nanhua Shangxian and Thousand Soul Patriarch... what is the relationship? !

The last time Nanhua Shangxian went to the volcano to find Master Linghuo, it was indeed introduced by the thousand souls ancestors. At that time, Li Yun learned about this from Master Linghuo. He thought it was just that the six gates were too big and the practitioners were all too big. Old monster, you need to introduce it when the news is unclear.

Unexpectedly, Nanhua Shangxian is a person from the Hidden Sacred Valley, and he and the thousand soul ancestors...

In other words, the word fornication, is it literally a secret accomplice, collusion, or is it an idiot?

If it is the latter, Li Yun can only say that the taste of Nanhua Shangxian is really heavy, and a man or woman, old or young, and countless old monsters.

"Ding, trigger the option event, please choose from the host:

Option 1: Go back to the underground hall and kill Nanhua Shangxian and others. The reward is to be determined. Note: Every time you kill a Void Return Realm, the reward will be doubled.

Option 2: Return to the hotel to discuss countermeasures with everyone, work together to overcome difficulties, reward justice value + 30,000, experience value + 10 million, purple gift bag*3, additional reward: increase in world popularity.

Option 3: Go to investigate the mysterious stele, wait for the results to come out, and reward the blue gift bag*5, and the small pill*10.
