

Godly Choice 2511

Chapter 2511: myth

A wave that seemed to come from ancient times spread, and the first reaction was not the blue stone stele under Li Yun's feet, but the gate of life and death on another island far away.

The door seemed to have crossed hundreds of miles away, and the phantom appeared directly in front of everyone, and slowly opened a gap in the door, revealing a trace of light from it, but it did not open again, making the crowd eager to climb into the immortal world. The Void Returning Realm all looked so anxious.

But it was this door that opened a little bit, and enough information has been revealed.

Six other phantoms flew out from the gate of life and death and came to Van Qingsheng. Everyone took a closer look. The six phantoms were: a golden lotus, a box lingering with unknown black air, and one covering a wide area. It is like a pyramid standing on top of the earth, and another magnificent and sacred temple.

In addition, there is a giant tree to the sky, and a garden full of flowers, the garden is full of golden apples.

"What is this?! What is this again?!"

Elder Wu, who had never seen these six phantoms, was shocked. These things must have originated from ancient treasures and places of gods, but he probably knew that the golden lotus was the lotus platform of the Buddha, and the pyramid was a certain Except for the resting place of the pharaoh of the country, I don't know the rest!

"These are the gates of life and death!?"

It was an old Nanyang woman who answered him. The old woman looked at Li Yun in a surreptitious manner, as if she was saying: Want to attack me? You guys are still far away!

Li Yun was indifferent to the expression in her eyes, watching these six illusions disappear again, and constantly thinking about what they meant.

The black box seems to be the catastrophe box given to Pandora by Zeus, which is the so-called Pandora's box.

Pandora was the first woman created by Zeus. She possessed the seductive beauty and terrifying abilities bestowed by the gods. The Pandora's box in her hand was stored inside.

The giant tree in the sky is probably the world tree of Norse mythology, but the golden apple in the garden... is also Zeus?

Moreover, how can we find six strange objects and places without corresponding keys? !

"It's a strange existence, it's full of curiosity and awe." Wan Faxian sighed with emotion, looking yearning at the gate of life and death that once again disappeared, shook his head and said: "I knew

that the saint of the Hidden Sacred Valley could directly activate It, I don't have to spend so much effort to create the so-called small underworld."

Doors engraved with gods and monsters from all over the world are, to be precise, the gate of the underworld, that is, the gate of the ghost, or the southern gate of the sky. In the myth of Huang Xuan, both the underworld and the immortal world have a door.

Rumble!

There was a huge roar from the ground, the water in the lake boiled again, and the blue stone stele in the middle of the lake rose slowly, bringing waves of white waves.

No one was surprised. The jade disc fragments of good fortune in the hands of Sage Fanqing could sense the gate of life and death. This stone tablet seemed to have something to do with the gate of life and death.

Soon, the small lake could no longer contain the rising stone tablets, a large amount of water was squeezed out, and countless demonized fishes seemed to feel some horrible breath, fleeing in panic, using their tails to go crazy in the watery mountains and forests. Shake.

The more than twenty Hidden Sacred Valley disciples whose cultivation base was abolished by the Vatican Qing Sheng before were scared with fright. Their cultivation base was abolished, and now they are a little stronger than ordinary people, and they can't resist this force at all.

Fortunately, Wu elder missed his old feelings and took action to block the flood for them.

Chapter 2512: Penglai

"Peng, Lai, Island!"

Seeing the huge quaint stone stele rising up to a height of 100 meters, Li Yun couldn't help but smile. It really was these three words. He should have guessed it when he heard the word "Peng" for the first time.

"Penglai Island?"

Wan Faxian stepped forward and touched this mysterious and primitive stone stele that finally rose from the bottom of the ground, and asked with interest: "This should be the ancient writings of Huang Xuan country. I never thought that this overseas fairy island is also a product of my Hua Xia."

Everyone did not speak, and was shocked by this 100-meter-high stone monument that exudes a simple, mysterious and desolate atmosphere.

On Penglai Island, three big characters carved with swords and axes exude inexplicable charm, as if they could shake the whole world, and make all the people in the Void Returning Realm shake their minds, their eyes fiery looking at this ancient stone stele.

People appear so small in front of it.

—Van Qingsheng noticed the rhyme of Taoism on the stele very early, but these people didn't feel the mysterious and inexplicable aura on the stele until the stele was completely raised.

"Penglai Island..."

Li Yun looked up at the top of the stone tablet and sighed: "This is an overseas fairy island in the myth. In ancient times, there were many immortals, birds and beasts that once again inhabited. A small grass on the roadside is an extremely precious elixir. Lingbao Tianzun, one of the Qing Dynasty, is also the dojo of the Master Tongtian who is known as 'Gods to worship, ten thousand immortals come to the kingdom!'"

The stone monument towers high into the clouds, and the three large characters of Penglai Island exude a magnificent atmosphere.

Everyone was strongly shocked by Li Yun's explanation.

Wan Faxian said: "I worship Lingbao Tianzun in Taoism, but I didn't know that he still had a title called Tongtian Sect Master? The gods visited, the immortals came to the dynasty, and the immortals of the ancient times must have had a lot of wonderful experiences with each other. The deeds of Lingbao Tianzun, Taishang Laojun, Yuanshi Tianzun, Buddhism, Nuwa, and foreign myths and legends..."

Haha, now we are fortunate enough to unearth these secrets again, Li Yun, don't you have any interest in joining hands with me to open all the doors of life and death! "

He looked over with scorching eyes.

Li Yun smiled but didn't say anything. He didn't even give a prompt from the system, showing that there was no choice.

Elder Wu said with some surprise: "That's it? Is it just a simple stone monument rising?"

Everyone also felt a little strange. The Sage Fanqing activated the gate of life and death, but only six phantoms appeared, which meant that the gate of the immortal world could be completely opened after all of them were opened.

After touching the Penglai Island stone monument, everyone thought that something would happen. For example, Lingbao Tianzun's dojo appeared. This ancient fairy mansion of the supreme Taoist **** must contain a huge amount of treasures!

But now there is nothing? !

"Huh? No!"

Shi Zhen suddenly noticed something: "The water level has risen!"

The people hovering in the air looked down, and sure enough, the surface of the water, which was still seven or eight meters away from them before, had now risen to the bottom of their feet.

Li Yun raised his eyebrows, looked into the distance, and shook his head: "It's not that the water surface has risen, but the entire island has risen!"

The entire island? !

Everyone rose up unanimously, crossed the Penglai Island stele, stood at an altitude of 1,000 meters and looked down at the entire Haowei Island!

The fog gradually dissipated. This small fog seemed to be just to prevent mortals from visiting. Now that the Penglai Island stele is completely activated, it loses its effect and slowly disperses, allowing everyone to see their feet. The dramatic changes in the sea and islands!

Chapter 2513: Island rise

"Boom!"

The muffled sound of thunder spread all over Haowei Island, and the movement became louder and louder. Three million people on the island were shocked to discover that the earth was shaking slowly but powerfully, as if standing on the soft soil, covered by a huge wave. The power of the whole is supported!

"Oh my God, what happened!?"

The people in the gathering place panicked. At first they thought it was a huge monster coming, and then they wondered if it was an earthquake.

But in the end, they all discovered with a horror:

This is not an earthquake, but the collective rise of Haowei Island! ! !

The island is rising! !

"Level 1 alert: The geology near Haowei Island is undergoing drastic changes, and all ships will move away immediately. A storm with a wave height of more than 20 meters may occur!"

The ordinary sea conditions are level 10, small waves, big waves, huge waves, violent waves, etc. The so-called storms only occur when earthquakes of magnitude 10 or more occur. They have swept across the Philippines, causing tens of thousands of deaths, and countless houses collapsed. Great disaster!

"Escape, stay away from Hao Wei Yi Island!" The five aircraft carriers of Li Jian Nation are close to each other, and they also prohibit the aircraft carrier fleets of other countries from approaching to prevent these people from taking the opportunity to enter Hao Wei Yi Island.

But now they can't wait for the aircraft carrier to grow four legs and step on the bottom of the sea to escape frantically to avoid the shocking tsunami caused by the uplifting Haowei Island in the upheaval!

"Grumbling."

In the unknown depths of the seabed, the large continental shelf split, became angry, and collapsed, forming a vortex. The sound of the crazy waves was clearly visible. A huge vortex with a width of ten kilometers was even formed five kilometers away. Engulf a reconnaissance ship from the three kingdoms!

"Escape, go!" The captain of the Lijian State aircraft carrier shouted hoarsely: "The Haowei Island is gone. Unimaginable monsters are awakened on the bottom of the sea. All three million people will sink in the bottom of the sea. Let's run away, late....."

"boom!!"

The huge aircraft carrier slammed into a hard object, and the hull shook violently. Tens of thousands of soldiers hit the ship due to inertia, and the people standing on the deck were not so lucky and fell directly into the sea.

"Fa, what happened? We hit the rocks?! But where is the reef nearby?!" The captain was frightened and asked the assistant next to him with red eyes.

After a rush, the radar of the aircraft carrier that had not sunk quickly gave a report: the ship had hit a small island that suddenly appeared in the ocean.

"What? How could there be..."

"captain!"

A Lican country soldier tremblingly interrupted him, pointed his finger at the satellite screen, swallowed his mouth, and said: "The satellites in the sky show that there are dozens, no, hundreds of islands around Haowei Island...No, no. No, these are not islands, they are... the top of the mountain?!"

...

"Report to General Xia!"

A soldier from Huang Xuanguo hurriedly came to the conference room to report, facing a group of senior leaders, panting and shouting loudly: "The satellite map shows that Haowei Island is rising, and it has risen by at least one hundred meters so far! A large number of peaks...We are already surrounded by peaks!"

"What did you say?"

"how is this possible?!"

"Island rising?!"

"There is such a strange thing, please contact Li Yun and ask what the situation is!"

"Stop sailing and let... ground the aircraft carrier!"

After Xia Ming understood the situation, he gave an urgent order, feeling extremely absurd in his heart.

They are sailing in the Pacific Ocean, but there are more than 100 fleets, and more than a dozen aircraft carriers around the world, a total of thousands of ships and fighter jets, are about to run aground in the mountains? !

What a funny joke!

Chapter 2514: Zizhi Cliff, Biyou Palace

"Order immediately to let all fighters take off and monitor the surrounding conditions from the sky!"

"Yes!"

The carrier-based aircraft of more than 20 aircraft carriers around the world, as well as hundreds of fighter jets from the base of Lican Country on the island of Hoviy, took off together and circled the nearby waters. Thousands of pilots quickly discovered that the fog had cleared and stood in the sky. The seven super powers above.

Li Yun, Sage Fanqing, Elder Wu, and Wan Faxian and his party.

"Oh my God, it's Huang Xuanguo's Superman!"

"So many?!"

"Don't come close, please be careful everyone: don't get close to these people, let alone launch missiles at them! They have flying swords that can cut down our missiles, and they are more flexible than our fighters... Our only advantage is speed. quick."

"God... Hao Weiyi Island has risen."

"Quickly, take this scene, the end of the world..."

The videos and photos taken by the fighter jets were quickly obtained by war reporters through various channels and posted on the Internet. Netizens around the world were once again shocked.

Countless people are caught in a huge panic, and chaos continues to arise. More than 3 billion people around the world have once again set their sights on this island in the Pacific at this moment.

Li Yun stood in the sky, standing with a white skirt fluttering Van Qing Sheng, thousands of fighter jets circling in the sky.

And under his feet is the rising Wai Yi Island.

The Pacific Ocean was surging violently like a small pond. Li Yun could see Huang Xuanguo's aircraft carrier swaying like a paper boat in the distance, but there was nothing he could do. Hold such a heavy ship.

"Boom!"

The earth trembles constantly, and the grotesque rocks are jerky,

And among those ten thousand peaks, like a forest, there is a strange mountain thousands of meters high, and under the cliffs that are as steep as an axe, there is a series of palaces.

These palaces have been buried deep under the sea for a long time, and they have long been bleak and full of the breath of dilapidated vicissitudes.

Only in front of the mountain gate at the forefront of the palace complex, a gold plaque, with three large characters "Biyu Palace" on it, still exudes a trace of the charm of competing with the years, so that this palace will not be completely dead.

"Penglai Island, Zizhi Cliff, Biyu Palace." Li Yun glanced at the shocked and inexplicable people of the Six Daomen, and shook the intercalary fire sword in the handshake. The North Korea's cut-off teachings are actually broken like this!"

Everyone feels sorrowful.

Even if they don't understand the teachings, they also know that the Lord Tongtian is the Lingbao Tianzun, one of the top three gods of Taoism.

"But." Li Yun turned around and said: "As the leader of the great patriarch and the supreme saint, Li Yun has countless immortal treasures in his hands.

Among them, there are four Zhuxian swords and a formation map. Together, they are the most lethal in the Three Realms, and they cannot be broken by non-four saints.

It is said that the Lord Tongtian relied on the four immortal swords of Zhuxian, Slaughter of Immortals, Sinking of Immortals, and Juexian, as well as the complete Zhuxian array, to fight against the siege of Taishang Laojun, Yuanshi Tianzun, and the Western Two Sages Zhuti and Lie! "

Everyone was fascinated by it, and they could not wait to immediately kill Biyou Palace and seize the treasures in the empty ancient fairy mansion.

Especially with the examples of treasures that Li Yun had obtained before, everyone believed in one thing: the ancient fairy palace, there must be countless immortal treasures and spirit pills in it! !

"Hahaha, the old man should go first!"

Chapter 2515: kill

The old Nanyang woman confirmed that there was no one in Biyou Palace. After being dead and desolate, she immediately ran the exercises, her figure turned into a light blue wave and hurried towards Biyou Palace.

But not a few steps out, a fiery red sword light came first and fell on her back fiercely, bringing up a bright **** light.

"Little beast, you are looking for death!!"

The old Nanyang woman who was suddenly attacked was furious, enduring the intense pain and wanted to activate the protective magic weapon, but suddenly heard a stern shout:

"Qinglong, set!"

Hum!

The Nanyang old woman's Zhihai suffered heavy damage, and when she reacted in shock, the spirit had already escaped from the body passively.

Her body has been cut in half by a sword.

Immediately afterwards, a faint blue flame burst out, engulfing her soul.

"Ah! Little beast, you can't... die!"

The spirit of the old Nanyang woman uttered the last scream, and was completely incinerated into nothingness.

"From the moment you insulted my Qing Sage, you were dead."

Li Yun held the Leap Fire God Sword and kept moving, turning his figure into nothingness again.

At the same time, Sage Fanqing had already slashed out with a single sword the moment he shot, and the pale thunder enveloped Shi Zhen, the elder of the Six Dao Sect beast Dao, and killed several of his bodyguards in an instant.

"You guys are looking for death!!"

Shi Zhen was frightened, and hurriedly threw out most of the gu worms he was carrying, surrounded him around him, and at the same time screamed at Wan Faxian, "Senior, help me!"

Lu Gao is dead, and the old Nanyang woman is also dead. Only a clone of him, the Taoist Baihe and the ancestor of a thousand souls are left on the scene, and Li Yun is also the three Void Returning Realm, but the kid holds countless powerful magic weapons. , With the help of ancient Gu worms, the situation has been completely reversed!

"Why bother, alas."

Wan Faxian sighed, but his body gradually dissipated, leaving only one sentence for everyone: "Biyou Palace is an ancient immortal palace, it cannot be opened easily, and there are six other doors of life and death in the world. I will go and look for it. Come and explore Biyou Palace again and again. Li Yun, look forward to working with you again in the future."

hehe.

Li Yun was too lazy to kill him, and smashed out of the void with a sword, and immediately broke through Shi Zhen's Gu worm defense formation and slashed directly onto his body!

The Taoist Baihe and the thousand soul ancestors looked at each other, and the figures of both sides turned into escape lights and fled in two directions respectively.

Li Yun hesitated for a moment and chose to catch up with the thousand souls ancestors.

"Boy, you are so lingering! What if you kill the clone of the ancestor? The ancestor, I still live well!"

Perceiving that the speed of escape is slower than that of Li Yun hiding in the void, Thousand Soul Patriarch stopped very simply.

"Killing one counts one. I will save the hidden sacred valley, and at the same time give your old friend a way to survive, only to chase and kill you, you should thank me."

Li Yun appeared and looked at this old acquaintance with a smile, as if looking at a colorful bag.

"Hmph, this time the ancestor accepts the plant." Thousand souls ancestor gave up resistance, and a trace of the soul disappeared directly. He only sneered and said the last sentence: "In the future, the ancestors will soon be able to break through to the soul. Ming Jing, by then, will be your death date!"

"Too much nonsense, die."

Li Yun beheaded Zhang Feng's physical body with a sword, and this vicious old woman lost a Void Returning Realm clone, which should let her disappear for some time.

Taking advantage of this time, Li Yun's strength is estimated to be able to kill the Return to Void Realm in seconds, instead of choosing to kill him instead of killing the Taoist Baihe.

Chapter 2516: End

When Li Yun returned to Fanqing Sage, she had already killed Shi Zhen, leaving behind a corpse of Gu worms.

At this time, the fog dissipated, the sky was blue and the sea was wide, and the sun was shining vertically on the new Penglai Island, giving Penglai Island, which had not seen the sun for a long time, glow with vitality.

It seems that all disasters have disappeared.

"Ding, the host made a major life choice, which has greatly changed the entire world, and the power from the ancients is recovering.

Rewards: Justice value +10 million, evil value +1000, colorful gift bag*3 (total kill three Void Return Realm), experience value +300 million, all attributes +100,000, aura value +1 million, peerless treasure class Practice exercises: Sanwei Shenhuojue. , Golden level practice exercises: "Thunder in the Palm", "Ice Technique", "Xianyin Magic Method". Bonus: Science Cultivation·Primary School Part II.

Special bonus: a sky thunder (which can be fused with the Thunder God Sword in the hands of the Fanqing Sage to refine a more powerful magic weapon

Big explosion!

A pile of rewards seemed to fall from the sky and slowly piled up in front of Li Yun, making him suddenly feel that the world is suddenly clear and everything is okay.

Not to mention, usually when the system breaks out and rewards, it is the time when an incident temporarily ends, and there are no more twists and turns in the follow-up, and you can enjoy the fruits of victory!

Now that the island rises, Biyou Palace is in front of him, and Wanfaxian leaves, Li Yun killed three Void Returning Realm again, and temporarily controlled the situation. It can indeed be said that this incident is over-although it cannot be called. What ended satisfactorily, mainly because Li Yun was very upset by Wan Faxian, and there was still a certain gap between his strength and his strength.

But it's over.

"Qing Sheng!"

Li Yun suddenly hugged Fan Qingsheng beside him and gave her a deep kiss.

When the war is over, the hero and the beauty should come to a happy kiss as the end.

In the distance, Elder Wu and a group of disciples who had been expelled from the Hidden Sacred Valley had complex expressions, and finally left without saying a word.

"Li Yun."

Not long after kissing, Fan Qingsheng gently pushed him away, panting slightly and said, "Now, it's not the time."

"Hey, good."

Li Yun smiled and squeezed her little hand, Fan Qingsheng pursed his lips, his face is reddish, and he said softly: "What are we going to do now? It seems... a lot of things to do."

She glanced around and found that the Haoweyi Island had undergone earth-shaking changes, with celestial mountains and rugged rocks. The original Haoweyi Island was lifted up as a whole, occupying less than one-tenth of the area.

Saint Fanqing and Li Yun flew up. It is now one or two o'clock in the afternoon. The two can clearly see the high-rise buildings that were originally on the beach. They have been built halfway up the mountain, and the foot of the mountain is at least a few kilometers away from them. .

With Biyou Palace as the center, there are at least tens of thousands of small islands nearby, and there are more islands stretching all the way in the distance, which seems to be directly connected to the mainland of Huang Xuan country?

In this case, there are at least one hundred thousand small islands extending from the mainland to here, and the Pacific Ocean has also undergone earth-shaking changes, and these brand-new islands will become the target of looting by all countries.

Of course, today's Haowei Island, no, it should be Penglai Island, which is the real territory that needs to be occupied! !

"Let me ask first."

Not to mention that the Saintess was overwhelmed by the huge changes. Li Yun, who was rewarded by the system after killing people in a surprise attack, is now full of messy thoughts: go to Biyou Palace, check the rewards, confirm the safety of personnel, and contact Su Muxin. They, ask Xia Ming...

"Don't panic, isn't it just the Biyou Palace? Even if the Master Tongtian appears in front of me with four immortal swords in person, I am not afraid!"

Chapter 2517: Follow-up

Fortunately, the Lord Tongtian did not really walk out of the silent Biyou Palace, nor did the Empress Sanxiao smash out with a golden bucket or a golden dragon, nor did Jiang Gongming hold a Ding Haizhu or a dragon rope.

Li Yun repeatedly observed the dark and unidentified Biyou Palace in the distance, confirming that it was only an empty city, and there were neither thousands of immortals coming to the court, nor gods visiting.

All the gods should be dead, right? Otherwise, there won't be such a big movement without appearing.

"Hao Weiyi Island is actually Penglai Island, an overseas fairy island in myths and legends! So it is only natural for Huang Xuanguo to settle here, after all, since ancient times..."

The corner of Li Yun's mouth was hooked, and he was already thinking about how to find a piece of land on Penglai Island. Besides, it doesn't matter whether a strong country is not a strong country, Penglai Island has been Huaxia since ancient times!

"What's wrong?" Fan Qingsheng asked strangely, she was a little confused now.

"Ahem, it's nothing, I'll contact someone right away."

Li Yun turned on the phone and immediately saw a large number of missed calls and text messages. After one-click clearing, he chose to call Xiao Mingzhu.

"Li Yun!!!"

"Huh? Brother Li Yun?"

"Woo, husband."

"Li Yun, where are you?"

The four girls seemed to be together and still very safe. Li Yun smiled and comforted them a few words, knowing that everything is normal in the hotel, an inexplicable force lifted the original hotel building up, but the beach disappeared. They dare not wait now. The hotel, one by one, ran to the original beach to stay.

—The inland sea in front of the hotel has become an inland lake, and it takes a lot of effort to go down the mountain.

After comforting them, Li Yun called Xia Ming again, telling him that everything is over, at least nothing will happen again in the short term.

"boom!"

A rumbling voice came from the phone, Li Yun was taken aback, and quickly asked: "Brother Xia, what's the matter with you?!"

"Uh, it's the fighting between the Xiong nation and the Lijian nation."

Xia Ming's tone was rather helpless: "The two aircraft carriers are now hanging on the mountainside, but it does not affect the firing."

Li Yun was embarrassed, this Nima's aircraft carrier was all running up the mountain, and still fighting?

"But the aircraft carrier won't be of much use in the future...if you want to fight as you like, we just need to take advantage of it."

"I know." Xia Ming said vaguely: "Lecan countries have suffered heavy losses. Now all countries in the world, including the 50th-ranked countries, are coming. Anyway, it will be very lively next. We are discussing where we want it. A piece of land...cough cough, don't say more."

Understand.

Li Yun nodded, this matter has to come quietly, after all, the Hundred-legged Worm is dead but not stiff, and Li Jian Nation still has certain strength.

Now all countries and forces want to eat a piece of meat when Penglai Island has just risen and there are still many unowned lands—they may not know what happened, but it's good on Weiyi Island.

"That's right." Li Yun thought of something, "How Weiyi Island is not called Weiyi Island, but Penglai Island, the fairy island in our ancient legend in Huangxuan Kingdom. There is a stone stele here to prove that, remember to mention it when you wrestle! "

"There is such a thing?!"

Xia Ming was very surprised. The gods of Huang Xuan Kingdom in the myth age had already come to the island so far away... Uh, they were immortal gods, and it is not surprising that they came overseas.

"okay, I get it!"

"That's good." Li Yun thought for a while, "It's okay now. The six gates have retreated. If there is any situation, I will contact you again. You can also call me at any time."

Chapter 2518: The deserted Biyou Palace

"Okay." Xia Ming said with a happy and helpless smile: "In the past two days, I see that the big names around the world don't want to sleep and sleep peacefully. It seems that the island extends from Haoweyi, no, from Penglai Island all the way to our country, and kangaroos. The country, the cherry blossom country, as well as the Antarctic and North Pole, anyway, there are millions more islands in the Pacific, and there are a lot more land on the earth in an instant. The strange thing is that the sea level has not risen... Do you know what happened? "

"God knows."

There are millions of small islands, not too much, but not too much. The Philippines is known as the country of a thousand islands. In fact, there are almost tens of thousands of small islands, so millions of small islands are raised on the global sea, evenly distributed. The density will not be too high.

On the contrary, the part below the sea surface of the small island is worthy of attention. This means that the global continental shelf has risen without causing tsunamis and sea water to spread. It means that some of them have become trenches, absorbing the seawater occupied by these rising parts.

To put it more simply, the earth has become more three-dimensional, with a greater vertical drop!

Li Yun suspected that there were some other changes in the world, but there was no way to understand it for a while, so he could only deal with the immediate matter first.

"Qingsheng, let's go and see that Biyou Palace!"

"Um."

The two flew hand in hand to the deadly palace group in the center of Penglai Island. The fighter planes in the sky were still circling. After seeing the two people going to explore the ancient ruins, they did not dare to send missiles to stop them-they knew this piece. There must be good things in the ancient ruins.

"Biyou Palace!"

Soon, Li Yun and Qing Sheng stood in front of this legendary saintly humane scene, looking up at the unusually majestic Biyou Palace Mountain Gate, which is located among the mountains.

Li Yun raised his head to look at the three quaint large characters with a slight golden light. He was very clear that he had never learned this font, but a strange power made him understand the meaning of these three characters at once.

In addition, Li Yun also felt a weak resistance. At this moment, the Biyou Palace prohibits anyone from entering or exiting. Qing Sheng was already a little slow when he flew over, but he could still ignore the power of the restraining circle with the help of the innate Taoist fetus. , Forcibly enter the Biyou Palace.

Li Yun moved his body for a while, and he was sure he could enter it!

"Qingsheng, are you okay?"

Li Yun turned to look at his girlfriend, her forehead was already oozing sweat, even if Li Yun kept holding her hand to give her some support, Qing Sheng was already struggling and couldn't make any money.

"The power of the ancient immortals is so amazing." Fan Qingsheng slightly opened her mouth to gasp, the pressure she felt was getting stronger and stronger, and staying here might be slowly overwhelmed by this invisible mysterious power.

And she has a hunch that when she truly enters the Biyou Palace, this mysterious force will be even stronger. I am afraid that even the most powerful attack power on the planet today: nuclear bullets, will not be able to break the protection of the mysterious enchantment of Biyou Palace!

"The Biyou Palace in front of me... is it really a saint dojo?"

Li Yun's brows jumped. He didn't really believe that this was the Biyou Palace built by the Master Tongtian himself. Instead, he thought it was a building built by powerful practitioners of later generations and imitating the ancient sage dojo.

But now it seems...There is a certain probability that it is the dojo left by the Master Tongtian.

It's just still a bit strange.

Li Yun and Fan Qingsheng are not talking about Jinxian now, they are still a weak scum compared to the immortal who crossed the catastrophe and became immortal, but the saint's Taoist hall is a place of saints who can not even come to worship. .

Chapter 2519: Three million gods of the underworld

Like Zhao Gongming, Sanxiao Empress, Duobao Taoist, Golden Spirit Mother of God, etc., the disciples of these masters of the heavens are all well-known great figures. It is said that the Taobao Taoist was the later Tathagata...

It can be seen how awesome the saint is.

And now Li Yun and Fan Qingsheng, two weak scum, can stand in front of the gate of Biyou Palace, which is enough to see how outrageous.

Of course, if the Lady Saint hadn't realized the power of those mythological figures, Li Yun already had a frightening feeling, for fear that a handful of shimmering golden dragon shears suddenly flew out of Biyou Palace, with a click. Cut off his dog's head.

It is said that Jin Jiao Scissor was made with two powerful dragons in the East China Sea, and it came from the hands of Master Tongtian. Needless to say, it is powerful.

Fortunately, nothing happened.

"Biyou Palace..."

Li Yun sighed again. After years of erosion, the legendary door of the saint dojo has become full of mottled traces. There is no grass in Biyou Palace, full of gray, dead, and gloomy atmosphere, let alone saints. The residence is too shabby and gloomy even for lonely souls and wild ghosts to live in.

Sage Fanqing stood beside him, quietly watching this lifeless palace group, all kinds of mysterious auras rushed towards her, trying to catch it, but didn't feel anything.

The cultivation base of her and the ancient immortals are too far apart, and she can't realize the artistic conception of Daoyun.

"Let's go, let's leave here." Li Yun took her little hand and prepared to flash people.

"Not in?" Fan Qingsheng was a little surprised.

"Not going in, it's boring, and it's dangerous."

Li Yun shook his head, "It is estimated that in a long time, no one will be able to enter the Biyou Palace. Since it caused such a big movement when it was raised, it proves that the immortal who built it has planned everything and will not give the weak modern people. Bringing disaster, then he will definitely not let Biyou Palace fall quickly, Wan Faxian also considered this, so he just left."

The Penglai Island where Biyou Palace is located has undergone such a big change. It can be seen that it has stored a large amount of aura as an energy source for the defense enchantment. Unless the whole Penglai Island is blasted to pieces by the desperate throwing of nuclear bombs, Biyou Palace may be affected. Take a little bit of damage.

Li Yun can get in with his congenital Dao womb, but what if the ancient immortal who is sleeping in a room, even the Master Tongtian is inside?

Although the sage does not live in Jiutian, it is a little bit lower...

Most importantly, there is no prompt!

"Ding~"

As soon as Li Yun stepped forward to leave Qingsheng, the system slapped him in the face.

Here comes the prompt.

"Trigger option event, host select:

Option 1: Enter the Biyu Palace brazenly, reward: Supreme Treasure*1, Experience Value +1 billion, All Attributes +200,000, Aura Value*2 million.

Option 2: Leave, reward: to be determined.

Option three: carry on to the end! Move countries around the world and use massive nuclear bombs to neutralize the Biyou Palace of the leader of heaven! Reward title: Three million gods in the underworld, and you need to lower your eyebrows when you see me (from now on, you will be a godslayer, saint slayer, or immortal slayer. If you see a fairy, you must be afraid, and a saint must bow your head when you see it. , The Buddha flees when he sees you, the **** king is too scared to show his head, you are the only god.

Heping Biyu Palace? !

MD! There are also godslayers, saint slayers, and immortal slayers, what is this all about!

Why are ancient myths and legends associated with such modern things as nuclear bullets. When people cast spells, you throw nuclear bullets. Is it fair to say?

However, Li Yun noticed a hint.

Chapter 2520: I need to lower my eyebrows when I see me

Three million gods of the underworld?

It means that God is still alive, just dead...Bah, just in the underworld?

But why is the underworld and not the fairy world?

There are three million gods in the fairy world, and I need to lower my eyebrows when I see me.

That's the truth!

"hehe."

Li Yun shook his head and smiled, no longer thinking so much. After looking back at the three big characters of the three dragons flying and phoenix dancing on the imposing gate, Biyou Palace, he turned around and left here with Saint Fan Qing.

The two of them did not fly away immediately, but followed a spacious stone-step road winding down in front of Biyou Palace, slowly circling down the mountain from the mountainside, taking a look at the scenery along the way, and seeing the construction of Biyou Palace. The author has made any changes to this Zizhiyashan, and then see if there are traces left by the ancient immortals on the mountainside.

But it is a pity that everything is buried in the traces of the years, except for the stone steps at the foot, everything is turned into dust.

This allows Li Yun to judge two things: First, this Biyou Palace has gone through long enough that everything has disappeared.

Second, there were no residents in the original Biyou Palace.

"Forget it, what do I want to do so much, go back!"

Li Yun shook his head to shake out the messy thoughts. His current strength is still too bad, and it is far from the time to explore the secrets of Penglai Island.

"Ding, the host makes a choice and rewards: Information on the Ancient Cave Mansion*1."

Li Yun's eyes lit up with Qing Sheng in mid-air. Ancient cave mansion? !

He lied to others to say that his treasure came from the ancient cave. He couldn't think that the system would really reward him for information about an ancient cave. Then if he digs it out, wouldn't he be able to recover a large number of treasures? !

"Let me see what this information is!" Li Yun couldn't hold back for a moment, and directly checked the information.

A virtual map appeared in front of him, and Li Yun took a closer look. It was in a large mountain in the east of Nanhe Province and the west of Dongshan Province.

—The landforms in ancient times are not the same as they are now, but the system thoughtfully converted him into modern maps.

"Yes, I remembered. When I have time, I will go there for a stroll. Maybe I really find some treasures!"

Li Yun was very satisfied. Although he now has a dozen pieces of golden equipment, there are not many treasures.

"Li Yun, what are you thinking?" Fan Qingsheng noticed that his flight was paused, so he asked.

"Hey, nothing, just got a message inexplicably, I might know where an ancient cave mansion is, Qingsheng, would you like to see it together then?"

Sage Fanqing shook his head, letting Li Yun stare blankly.

"I want to practice while I have enough spiritual energy."

The lady of the saint has a solemn expression: "The strength of Ten Thousand Dharma Immortals is very strong. Because of the gate of life and death, it will be one of our great enemies in the future."

"Uh, that's right."

Li Yun was ashamed. He had no urgent need to improve his strength because of the fact that he had a system plug-in and got a congenital fetus.

However, due to the emergence of Penglai Island and the aura dissipating from the world, there will be more and more Void Returning Realms in the future, and it is estimated that some people will break through the Soul Bright Realm soon. Dogs. Men and women.

But Li Yun has reason to believe that his strength has improved much faster than them!

"Row."

Li Yun smiled and said: "Next Qingsheng, you will retreat on Penglai Island, right? I will find a good place for you to live. It is estimated that Penglai Island will be the focus of seven billion people worldwide for a long time. Very lively."

The premise is that Penglai Island no longer undergoes huge changes, but Li Yun suspects that even if it is dangerous here, the crazy people in the world will come to Penglai Island to obtain the so-called supernatural powers.
