

## Godly Choice 2581

Chapter 2581: Fairy tales

"Brother, are we going to the fairy tale kingdom?" Caiwei asked stupidly, her eyes fascinated by the beauty, extravagance, exquisite scenery and living environment in front of her.

"Fairytale Kingdom? Well, yes, a kingdom exclusively for our family!"

The car finally arrived in front of Villa 36. Li Yun opened the door and got out of the car, and made a welcome gesture to the two lovely sisters. He said like a gentleman: "Welcome the two princesses to the fairy tale kingdom!"

"Hehehe~~"

Caixia covered her mouth and snickered, and couldn't help but look into the villa.

It's so big, so ten football fields are such a big place!

The walls around the villa are covered with vines, and you can vaguely see a beautiful large garden in front of the villa, with two pavilions in the middle, and an exquisite rockery in front of the villa.

There is a badminton court on the side, a small football and golf course next to it, and an open-air swimming pool. There is a place that looks like a sun lounger for sunbathing, and there seems to be a grill?

There is a fitness plastic track around the villa, and the sisters can get up in the morning on the runway in the villa without having to look for the park track.

Everything is beyond the imagination of the sisters: it turns out that the rich can play basketball and badminton at home without having to go to special venues.

Not only that, wealthy people can hold an open-air barbecue dance at home, invite a bunch of students to participate, and everyone chats and barbecues on the grass... It's like Tsing Wei saw the open-air dance scene in the Lijian country movie. Really!

The homes of the rich are really big, and they can do a lot of things at home.

"Brother..." Cai Wei's voice trembled fiercely, clutching Li Yun's arm tightly, "From now on, this will be our home in the future? We won't move again, will we live here? We will live here for the rest of our lives. here!"

"Why is it for a lifetime again?" Li Yun said amused: "Although it is very good here, maybe we will go to other places for vacation in the future, buy a seaside villa, have our own private beach, or go to Maple Leaf Country and buy one. The manor has its own winery and orchard. In autumn, the backyard is full of red fruits and branches!"

"Wow!" Caixia exclaimed again and again, her home orchard? She couldn't imagine what it was like.

"No." Cai Wei shook her head, hugged his arm, and said with a little blush: "This home is very good, and I live with my elder brother and sister, Caixia, and the little princess."

"Unfortunately, this is still my home now!"

Qu Fang walked out of her car, smiled and made a please gesture, and said to everyone: "Welcome everyone to my house, hehe, your brother has to sign the last contract with my house before it will officially become Your home!"

The sisters blinked and looked at Li Yun again.

"Okay, go, let's go in and talk about it!"

Li Yun greeted everyone to go in. Of course, he didn't forget to give the sleeping little princess a pill so that she could regain her spirit and act on her own.

"Huh? Arrived?"

Zhu Shue rubbed his eyes, and when he saw the beautiful house in front of him and the two rows of maids, servants, and bodyguards standing in front of the villa's gate, he immediately took Li Yun's hand happily: "Msang Gong, here in the future. Is this our home?"

"Like it?"

"I like it, I like it so much!"

Zhu Shu'e was very excited: "It is as big as my princess mansion, and it is decorated more beautifully than the princess mansion!"

Zhuang Mengdie & Zhuang Siliu and others: "..."

Isn't this little girl stupid? Princess Mansion?

Chapter 2582: lady

"Hahaha!" Li Yundale, Princess Yongning from 400 years ago, is in charge of a huge villa, isn't it just right?

If Li Yun's only requirement for her confidante is not to be a vase, the only exception is the Princess Yongning. Li Yun does not make any demands on her, as long as she is happy.

The little princess was born with a weak physique, and it was really embarrassing for her to ask her to do something.

However, in the future, the daily management of the villa can be handed over to her, lest the little princess has nothing to do when she wakes up from sleep all day, and her brain will rust.

"Leave it to me? Well, good!"

Zhu Shu'e promised it full of mouths. It was better to say that the promise was very straightforward. She was originally an education of the three obediences and four virtues who accepted "the male is the outside, the woman is the inside" and "everything is in the husband." And because of her princess status, she grew up since she was a princess. She was taught a lot of knowledge about managing the inner house by her mother.

Including how to serve your husband, how to manage servants, how to keep accounts, check accounts, household expenditures, etc.

It's just that Zhu Shu'e lived in a small house in Longyang County before. There were no servants. The family expenses were all about buying vegetables and clothes. Naturally, the knowledge of managing the house was not needed.

Moving to Zhonghai City today and moving into this large house with more than a dozen servants, Zhu Shue suddenly felt that what she had learned before was useful, so that she looked at the servants who were standing at the door and greeted them with all eyes. I want to take care of you and live up to the trust of my husband!

"Little princess."

Fang Xue saw what she was thinking, chuckles and rubbed her little cheek, jokingly said: "You will be the mistress of the Li family from now on, but what should I do if I pass the door? "

"what?"

Zhu Shu'e became entangled at once, and tentatively asked: "Or, Sister Fang Xue, shall we take turns to manage?"

"Hahaha, the little princess is so cute, just kidding." Fang Xue smiled and said, "You will manage it in the future. I am different. I am the mistress of the Li family. I am responsible...I am different from you anyway. You have your own things to do, unlike the princess in ancient times."

After marrying, the ancient lady-golden lady had to stay in the mansion all the time, at most she took care of the family's account books, but Fang Xue was different. She would inherit the Fang family and become a female president at the helm in the future!

"Well, beauties, let's go in and talk about it."

Being greeted by servants and bodyguards, Li Yun led the women into this spacious villa, and the women looked around and observed everything here.

The same is true for Fang Xue. She will definitely live here in the future, which is almost the same as living here. Of course, the environment must be familiar and familiar.

She deliberately glanced at the surrounding walls, and found that not only were vines entangled on the walls, but also surrounded by lush trees. Outsiders could barely see the inside of the villa.

In addition, behind the villa there is a back garden enclosed by a wall of flowers, plants, and wood. Normally, bodyguards and servants should not go in or see the inside. The back garden is exclusively for the owner's family.

This place really suits her appetite. Fang Xue, Li Yun, and Li Feng will definitely be comfortable living here in the future.

"Mr. Li, you are finally here!"

Qu Fang's father came out to greet him with a smile on his face and a vague respect. It is estimated that his daughter has already told him that Li Yun is the Li Chaoren in the news.

Chapter 2583: Buy

The signing of the contract went smoothly. Although Li Yun could see that Qu Shen no longer wanted to immigrate and planned to buy another house in Huangtingshan, Li Yun did not take the initiative to say not to buy this house.

The previous contract has been concluded, and the house is already his, unless Qu Shen wants to breach the contract and pay him one billion in liquidated damages.

Of course, Li Yun looks down on one billion, he bought this house today!

Fortunately, everything went well, Qu Shen didn't say much, he happily signed the final house purchase contract. Later, he only needs to send someone to the Housing Management Bureau to transfer the ownership, and the house will completely become Li Yun's.

Li Yun didn't write anyone else's name on the room book. After all, if he wanted to write it, the little princess would be one, and his sister, sister, and Fang Xue wouldn't be able to write it, so he didn't write anyone else's name at all. The room book only had his name.

"Mr. Li, from now on, Villa 36 will be yours!"

Qu Shen shook hands with Li Yun with a face full of dismay.

"Happy cooperation."

Li Yun smiled slightly. He rejected Qu Shen's offer of discount and bought the suite with the full amount. After all, if he accepts the kind offer, he needs to pay back the favor, which would be troublesome.

He is really not short of money now. Excluding the more than five billion dollars that have been opened by three consecutive red envelopes, Baiyun Technology is also constantly making money for him. Li Yun even wants to set up a foundation and let Liu Xianxian be the management of the foundation. Donate one or two tens of billions a month, saving money in the bank to mold.

"Uh, Mr. Li, can I ask a question?" Qu Shen was very embarrassed. He originally wanted to sell the house at a discount, and then asked questions. As a result, Mr. Li simply refused to agree to the discount, the full amount.

"Just ask."

Li Yun handed the contract to the housekeeper and asked him to go to the Housing Management Bureau to handle the transfer of the ownership.

Now Li Yun is in a good mood, especially seeing Caixia Plucking Wei, and the scene of a group of beautiful women happily playing around the villa, such as the little princess, which is even more pleasing to the eye.

Mr. Li's fancy fortune is really not shallow!

I thought to myself, but Qu Shen's expression was very respectful: "Mr. Li, the world has changed dramatically now. The world is saying that it is about to enter the era of mythology. In the future, the strong will control the world. What do you think?"

If anyone in this world dares to predict the future, then this person can only be Li Yun!

He is not only the chairman of Baiyun Technology, who brought out many things that are suspected of alien technology, but he is also an out-and-out strong man who has saved three million people on Penglai Island, and he has also fought monsters at sea. What he knows is far more than ordinary people know!

Qu Shen is even willing to use this house to exchange information that Mr. Li knows!

"Haha, Boss Qu, don't you think the world is always controlled by the strong?" Li Yun smiled.

Qu Shen was taken aback, and then he wanted to understand what he was referring to.

Indeed, from ancient times to the present, the upper-level figures have held power and manipulated the lives and deaths of the people.

Even if the future is the age of practitioners, personal abilities are extremely powerful.

However, a person needs to use a lot of resources to grow from a weak to a strong, and these resources are in the hands of capital. As long as the Qu family continues to maintain its advantage, they can use money to smash a bunch of loyalty to the Qu family. The strong!

Even the Qu family members can become stronger and become immortal cultivators in control of one party!

"so it is."

With a relieved expression on Qu Shen's face, he said with great joy: "Mr. Li, you can see far away!"

Chapter 2584: Suggest

Rejuvenation of Reiki will definitely bring about tremendous changes. Many upper strata with superior resources will also fall, and characters at the bottom will get a lot of counterattack opportunities. The effect is like changing the dynasty, and everything starts from a new beginning.

But even if it is a change of dynasty, occupying the top floor, and at the same time long-sleeved, good at dancing, and able to judge the situation, the family can still sit firmly on the Diaoyutai and continue to be a wealthy nobleman.

The Qu family is not the top family, but it is definitely not bad. In a thriving stage, there are many talents in the family.

With Li Yun's assurance, Qu Shen will have a bottom line in the future, and will not panic all day, worrying that his family will be overthrown!

"but."

Seeing that Qu Shen happily sold his house and moved out of the villa half a month ago, leaving the house vacant, Li Yun decided to give him some advice.

"Mr. Li, please!" Qu Shen quickly and respectfully asked.

"Aura will spread all over the world from Penglai Island in the future," Li Yun said slowly: "Aura is a magical thing, it can..."

After listening, Qu Shen immediately understood: "That is to say, the wild becomes extremely unsafe in the future, and the animals and plants all over the world will usher in a stage of crazy evolution. Terrifying monsters emerge in an endless stream. Is it safe to live in a city?!"

"According to my inference, this is the case."

"what!"

Qu Shen slapped his thigh: "It seems that I bought a foreign house by mistake. There is a mountain in that manor with many wild animals. If they all mutate, the house will definitely not be able to live in. I will sell it again at half price. Also sell it!"

Li Yun looked embarrassed and said, "I just infer that I am not responsible for what will happen in the future."

"Yes, I understand that doing business is actually the same, everything is risky."

Qu Shen smiled all over his face, he had decided in his heart that he would stay in the country without emigrating anyway!

Think about it, the wilds all over the world will be occupied by monsters. Then, what will happen to a small country that has no ability to fight against monsters?

With your toes, you will know that the population will be more concentrated in the future, and the small country will not be able to resist the tide of monsters, and it is not surprising that the country is slaughtered.

Animals and plants mutate, human gathering areas will shrink, and defense circles will be concentrated. Zhonghai City will inevitably be the city that Huang Xuanguo will focus on defending, and because of the existence of Mr. Li, Huangting Mountain can be called the safest place in the world!

"It seems that it is not expensive to buy a villa at the foot of the mountain for 10 billion yuan. The house here may rise to 100 billion yuan in the future. The rich people all over the world want to live in a community with Mr. Li!"

Qu Shen thought to himself that Mr. Li's identity had not been exposed, but everyone in power knew that Baiyun Technology's chairman was Li Chaoren, and Baiyun Technology was in Zhonghai City...

Li Yun stretched out and was not interested in continuing to chat with him, and said: "You decide whether to sell the house or not. What the future will be, the gods can't figure it out."

Qu Shen nodded slightly, knowing that Mr. Li was going to see off the guests, and was about to leave. Suddenly he thought of something and quickly asked: "Mr. Li, I heard that plants have also begun to grow in the north and south poles, and many strange monsters are on the ice. Active on the surface, will this cause the sea level to rise and flood Zhonghai City?"

"Plants grow in the north and south poles?" Li Yun looked dumbfounded. This spiritual energy spreads too fast, and the concentration has become larger and larger, and it is estimated that it will bring great changes to the world soon.

"You should ask marine scientists about this. However, those plants should be hardy plants. The ice in the north and south poles has not melted, right?"

"Uh, I don't know yet, the future..."

"I'll talk about the future!"

Li Yun is not interested in talking anymore, the little princess is beckoning to him.

Chapter 2585: Preaching

After sending away the Qushen family, this villa officially became Li Yun's possession!

"Beauties."

Li Yun greeted the women who were visiting on the second floor and asked them to come down and get to know someone.

The housekeeper Zhou Qi gathered the servants and bodyguards, and stood together in front of the villa waiting for the first lecture from the master and the wife.

"Many people..." Cai Wei whispered.

There were at least fifteen people standing in front of the villa. After hearing this, the housekeeper hurriedly stood up and introduced the lady: "At present, there are two housekeepers inside and outside the house, one chef, and two helpers.

In addition, five bodyguards, two gardeners, three maids and two servants are responsible for the maintenance of the swimming pool and daily villas. At present, there is still a lack of a master driver in the villa. The old Li in this position has a deep relationship with Qu's family, so he left with Qu's family.

The chef is the same, so I suggest that you hire another chef, a chef who is suitable for his wife's eating habits. "

After Caiwei listened, she spit out her little pink tongue, not daring to say anything.

For such a big house, the gardener alone needs two people to maintain it, otherwise the garden will become messy in a month or two.

In addition, if you can afford to live in such a good house, it is of course impossible to cook by yourself, so a chef is also needed.

One chef is not enough. After all, you have to be responsible for the meals of a dozen people in the villa, so you need two more, and you also need a helper.

Needless to say the bodyguard, this is a must.

Maid is also a necessity. Villa 36 consists of three townhouses, one master villa, with a construction area of more than 2,000 square meters, and three floors. One can imagine how many rooms need daily cleaning.

In addition, there are two guest villas next to the master's villa. The housekeeper and maid live in it. The first floor of the master's villa can also live, but the second and third floors are usually forbidden, except for the maid responsible for cleaning. You can go up and clean up during the day.

"It seems..." The little princess looked at these servants and hesitated, and said: "Husband, it seems that he didn't find me a close maid?"

Personal maid...

Li Yun's several people who knew the identity of Princess Yongning looked up at the sky. As a princess, when Zhu Shue lived in the palace and the princess mansion, he was naturally surrounded by a bunch of maids.

The so-called personal maid, as the name suggests, is a maid who is next to you next to you and helps you do things very obedient to you. Generally speaking, the personal maid sleeps in a small room in the master's room, and the master yells at night. , The close-fitting maid will immediately get up and wait, and in the morning will get up before the master, wait for the master to dress and wash, arrange the day's things and so on.

It is equivalent to a personal servant who combines maid, life secretary, alarm clock and other functions in one.

Sometimes it even warms the bed for the owner.

The evil feudal society is really enviable.jpg

"Uh, I, I don't need a close-knit maid anymore!" Seeing everyone's surprise, the little princess Yongning waved her hand and said with a blush on her little cheek.

She hadn't had a close-fitting maid for the past six months. Although she was used to a little bit, she still wanted it... She missed the Bihe and Caiyun who had been by her side.

"Isn't it just a close-knit maid? I'm afraid I can't find it if I have money? Yes!"

Li Yun vowed to make a promise, and instructed the housekeeper Zhou Qi: "You can find out if anyone is willing to be your wife's life secretary. They are between 16 and 20 years old. They must have good character, patience, and pay. You can open more than three times, but it's better to go for it. The person you are looking for must be suitable, and you must go through an interview with your wife!"

"Interview? Oh." The little princess thought for a while and realized that the word was hired.

Chapter 2586: The three rules of the Li family

The housekeeper Zhou Qi agreed that his father had been a housekeeper for his whole life, and he had no shortage of contacts. It should be possible to find a 16-18 year old girl who is willing to work and has a good character to serve his wife.

Li Yun nodded. If the butler can't find it, he will contact Gong Lianyi, Xia Feiyao, Jin Liuli and others.

There are servants cultivated in their martial arts families since childhood. These people are basically the vassals of the martial arts families. Needless to say, the degree of loyalty is self-evident. Even Gong Qingyu has four personal maids around him.

But it shouldn't be so troublesome. Li Yun believes that it's easy to find a life secretary. Modern people's contract concept is not bad, and they will not easily leak out the master's affairs. Many celebrities and people with a certain status are worthy. There is a life secretary.

"Everyone!"

After the housekeeper introduced the identities of the people, Li Yun spoke to the servants and bodyguards loudly: "I officially become the owner of this villa. In theory, I want to dismiss the people from the Qu family and replace them with a new group of talents. ."

A group of servants and bodyguards were scared and trembling. Nowhere else can you find such a good treatment and easy job, let alone live in the beautiful mountain peak of Huangting Mountain, where rich people gather. Tell your family and friends. , Very much attracted the envy of the rest of the eyes.

"But." Li Yun said lightly: "I personally don't like trouble, and I am too lazy to interview so many people, so you can continue to work in the villa, just as before."

The servants and bodyguards standing in two rows breathed a sigh of relief, looking at Li Yun with gratitude.

"Of course, there are requirements."

Li Yun continued: "I am more easy-going personally. The ladies and the ladies are also very kind, and the salary and benefits will not be low. Even if your work is not good, I will not change it, and add a few more people at most.

But there are a few things that I can't bear: first, tell outsiders what happened in the villa without authorization; second, discuss the master's things secretly; third, be optimistic, do not require you to be cheerful and active, but you can't be all day long. There are other dark psychology, jealousy, distortion, hatred and other emotions. Once you have such behaviors, it is best to tell them in time. I will ask you a psychiatrist or give you a large retirement fee. "

Li Yun emphasized: "I hope that people working here are happy, instead of complaining about others, complaining about this and that."

The servants and bodyguards were a little surprised.

The first two conditions are normal. Any employer will ask the nanny not to talk about the owner without authorization. Not to mention the rich. Even ordinary families ask the nanny not to say what they see and hear. This is also the most basic requirement for multiple servants.

But the third rule makes them a little confused.

Do you want servants and bodyguards to be optimistic?

But if you think about it carefully, there seems to be some truth.

A cheerful and optimistic personality proves that this person's character is at least not bad, and he will do his best at work and will not complain about things all day long.

"Master, you can ask a psychiatrist to give everyone a regular psychological evaluation every year." The steward suggested.

Li Yun had no objection, nodded and said: "Yes, I don't care about the specific regulations and what you are going to do. You can restrict your behavior around the above three regulations."

Chapter 2587: The little princess is a lady

"In addition, there is another advantage to working here."

Li Yun decided to cut the mess with a knife, and smiled slightly: "You all know about Penglai Island, right?"

Everyone nodded, their expressions were different, they were expectant and fearful. Of course, there were also a few older maids who didn't care much about it. They thought it was a matter of the Pacific Ocean, which was too far away from Zhonghai City.

"The future world will become very complicated, but as long as I stay in Zhonghai City for a day, I can protect Huangting Mountain from the monsters. You can rest assured!"

A bodyguard lit up and couldn't help asking: "Master, are you a superpower? I heard that many people on Penglai Island have superpowers!"

Everyone else also looked over.

Li Yun smiled slightly, swiped his hand in the air, and with a bang, a flame appeared out of nowhere. The hot air wave scared the servants and bodyguards back for several steps, and looked at him with shocked expressions.

"what!"

Caiwei screamed. This is the first time she has seen her brother use this power beyond ordinary people!

"Superior, that's it, it's no big deal, not as good as me."

Li Yun pretended not to be salty or indifferent, to shock these servants.

He did not suspect that these people were bad people, but he also believed that there was a demon in everyone's heart, and it was necessary to deter them appropriately so that the demon in these people's hearts could not appear.

"Okay, this is the end of my speech, you guys go back..."

Li Yun stopped, looked at the little princess standing beside him, and smiled: "My wife, do you want to speak to the servants?"

Fang Xue, Li Feng, and Caixia Caiwei all looked at Zhu Shue and blushed with shame for the little princess of the Ming Dynasty 400 years ago. She was - no, more than half a year ago (in the little princess's impression) (That's more than half a year). Naturally, I also told the servants, but now in the 21st century, the servants are not the same as the servants who gave her a bargain.

"Big, big, everyone." Zhu Shue flushed her face, but finally said something: "Serve the master with your heart, you will not be given less money for the month, husband and madam, I will beat you if I don't move. Well, just serve with your heart!"

"..."

Everyone was stunned. People who didn't understand her identity thought that Li Yun was usually a cruel person, who was extremely vicious to servants.

"Ahem!"

Li Yun said, "Madam's words have no other meaning. She is in some bad health and needs to sleep frequently. You will understand the lady's work and rest time in the future. In addition, Madam may have some outdated ideas and occasionally have some strange words or habits. Hope Don't make a joke."

"Oh, sir~, I don't have one." The little princess hugged his arm and protested coquettishly.

"That's it, all go back to work."

Li Yun waved his hand to let everyone disperse.

So far, today's move is finally over. Although most of the furniture in the house has not moved, but the pots and pans in the kitchen, the supplies in the bathroom, bedding pillows, sofas, cushions, cups, etc., have been replaced by the housekeeper Zhou Qi. Once again, plus the main villa has no one to live in for half a month, theoretically speaking, this villa is equivalent to being renovated, even if there are people with cleanliness, they will not feel uncomfortable in living in.

Li Yun and a group of beauties visited the villa. At noon, they had a sumptuous lunch on the huge, luxurious and exquisite dining table that can accommodate eighteen people at the same time.

Chapter 2588: Leisurely afternoon

Li Yun suddenly thought that if all the confidantes around him came to the house, this table of eighteen people would really not be enough.

But fortunately, Villa No. 36 covers an area of 50 acres, with a construction area of over 2,000 square meters. If a large group of beautiful women come at the same time, he will go to the grass outside the villa to have an open-air barbecue.

Not to mention, there are barbecue grills on the grass, and open-air barbecues can be held at any time, maybe once in the evening?

After lunch, the little princess couldn't hold on, so she went to rest, and didn't wake up until 3 o'clock in the afternoon.

After waking up, Caixia enthusiastically took her to the badminton court in the villa to play badminton. The poor little princess, who was born in the royal family, was raised behind the scenes to be polite and decent. Girls can't bounce around at home, let alone play badminton in the public. Jumping back and forth like a monkey.

As a result, Caixia and Fang Xue half forced her to hold the badminton cue and played a four-person badminton together.

"Hahaha, little princess, come on~~ You can do it, it's good for your body to run!"

Seeing a group of beauties playing badminton in the sunshine, Li Yun lying on a sun lounger in the shade of the tree feels heartfelt happiness, this is life!

Snapped.

A badminton hit his face. Li Yun turned his head in astonishment and found that his wife was triumphantly waving the badminton racket toward this side.

"Hee hee, accidentally, husband~~ throw the ball back!"

"..."

Li Yun threw the ball back to her.

As a result, within two minutes, another badminton flew over.

"La la la, husband, I'm still not careful, throw it back soon~~"

"careless?"

Li Yunteng stood up, and strode over the grass aggressively, shouting: "Xiao Baixue, I don't think you are accidental, but your \*\*\*\* is itchy."

"Wow, don't come over, the big bad guy... hee hee, don't come over, you have the ability to beat us all on the court!"

"All? Just your seven beauties? Oh, I can do it all alone...cough cough cough, I mean, none of you are my opponents!"

Finally, Cai Wei Caixia, the little princess, Fang Xue, Li Feng, and Zhuang Siliu Zhuang Mengdie, a total of scented beauties, and after a battle with Li Yun-in the badminton court, they were all lying tired. Panting on the green grass, his cheeks are red, and the sweat is faint, which is especially tempting.

As a victor, Li Yun naturally enjoyed the last sweet fruit. Like a vigorous and mighty lion standing in front of them, one by one vigorously...sent them a cold drink.

What are you thinking about with impure thoughts.jpg

The bodyguard servants looked dumbfounded.

There are really beautiful women around the new master. No wonder they said before that they wanted them to have a peaceful mind, but that was what they were referring to.

Although Miss Qu Fang looked good, had a good background, and had a noble temperament, she was far worse than the beauties around the new master.

The new master is not only surrounded by a true wife, Mrs. Fang, who is better than Ms. Qu Fang, but also two lovely twin goddesses, plus a gentle goddess, and another young, petite and exquisite, temperament. But it is like a young lady who is a famous lady-this is also their immediate boss, and this young lady will decide everything in the villa in the future.

Not to mention there is a glamorous middle-aged beautiful woman, and her daughter...

The Yanfu of the new master is much stronger than the previous master Qu!

Chapter 2589: Open-air bath

night.

After having dinner in the villa, Zhuang Siliu and Zhuang Mengdie left. They also had a villa in Huangting Mountain, but the serial number was a bit later, which was equivalent to an ordinary villa outside, far less than villa 36.

They did not stay longer and left the first night to Li Yun's family.

The owner's villa of Villa No. 36 has four floors strictly speaking, and the area of the third floor is more than 2,000 square meters. The main hall and restaurant on the first floor, plus three guest rooms for rest.

There are ten rooms on the second floor plus two living rooms for people who are close to the owner, such as relatives or good friends.

In addition to the seven or eight rooms on the third floor, there are three study rooms (with a library), home theater, etc., which are relatively private places, usually only for family members. The future activities of Li Yun's family are also on the third floor.

The area on the fourth floor has been reduced a lot. The rooms inside are generally not used, and can be used to place fitness equipment or as a studio with a relatively large area. For example, music and woodworking have been carried out on the fourth floor.

In addition, there is a basement. In addition to the temperature-controlled wine cellar, there are also two rooms that are quite cyberpunk. You can spend the night in the basement in your spare time.

In addition, the garage is also equipped with a small tool room for refitting, repairing, and maintaining the car. If necessary, Li Yun will ask the housekeeper to hire a special person to take care of the car.

After all, he wants to buy a luxury car for every member of the family. The top luxury cars are cool to drive and attract attention, but they are troublesome to maintain. Fang Xue and Li Yun once complained about this.

"Ladies, have you changed your clothes? Come take a shower!"

At eight o'clock in the evening, Li Yun wore a pair of shorts and smiled and entered the open-air swimming pool on the third floor, or the open-air bathroom.

The roof here has been deliberately transformed into a sloping shape, and the fourth floor is not covered, similar to a swimming pool in a high-rise building, and the starry sky outside can be seen from the huge French windows.

Under the moonlight, bathing in the huge bathtub, surrounded by five beautiful women of different ages and distinctive features, it is simply a scene that all men dream of.

"Huh~"

Fang Xue, who walked out of the locker room, gave him a beautiful white eye. Standing by the pool that was large enough to hold 20 or 30 people to bathe together, she stretched out the white jade-foot pool and tapped the water. After testing the water temperature, she wore a The school flower in a pale pink one-piece swimsuit slipped into the bath.

Like a mermaid sliding into the water, the exquisite body is full of fascinating charm.

"Little Baixue, is the water temperature okay?"

Li Feng also wore a one-piece swimsuit with a slender figure. He squatted on the shore and threw a handful of water towards Fang Xue in the bath, which aroused great annoyance from Colonel Fang. The two beauties were on the shore and the other. I was joking in the water, splashing water and playing with each other. The hair and the fragrance of the shoulders were stained with water drops, which was extremely beautiful.

They didn't dare to get close to Li Yun, the evil wolf, lest they would be miserable when Caixia Caiwei saw it as if they were in Taihuang Mountain.

The little princess saw that it was okay. They spent time together last night, and watched Li Yun comfort the little princess when she fell asleep, and when the two girls became extremely shy, they left the little princess's room and went to Li Feng's. Play around in the room so as not to affect the sleepy Princess Yongning.

Chapter 2590: Enjoy the big villa

"My wives are so beautiful!"

Seeing Fang Xue and Li Feng, the two beauties playing in the water, with their beautiful bodies, made Li Yun's heart burst into flames and became extremely hot.

He couldn't help thinking about the scene on the Ocean Princess a few days ago. The only pity was that he didn't have time to let the three little peppers put on swimsuits and play with him on the beach, when he encountered the rising incident of Penglai Island.

Although I can make up for it in the future, I always feel that something is missing.

"Brother~"

After the two big beauties, there are two little beauties.

Caiwei and Caixia, the twin sisters, wore a split swimsuit, not the three-pointed swimsuit that seaside beauties often wear, but the kind that is very revealing.

It is similar to a schoolboy's swimsuit. There is a circle of fabric similar to a pleated skirt on the waist and upper swimsuit, which can cover more places and will not show the shame. Only a cute and soft belly is exposed. , Li Yun really wanted to reach out and rub it to see if the sisters' belly was still as soft as they were when they were young.

"Where is the little princess?"

Li Yun raised her eyebrows. The prime time of 7 or 8 in the evening was when Princess Yongning was most awake, so she was also taken to take a bath in the open-air bath on the third floor.

"Hehehe." Caixia went into the dressing room again, and she blushed with shyness. She clamped her slender legs and covered her chest with her hands. Princess Yongning, with her head down and her face blushing, was pulled out of the dressing room. .

Li Yun's eyes suddenly lit up.

The figure of the little princess is smaller than that of the twin sisters. She looks like a dysplastic junior high school student. She is mediocre and skinny, but she doesn't have that skinny feeling. On the contrary, it makes people think that she should He embraced the slender and fragile little princess in his arms and loved it, and couldn't bear to give her a bit of grievance.

In addition, the current little princess changed into a swimsuit specially gifted to her by Li Yun: navy blue dead reservoir water, thin nylon clothing fits her petite body, matching her shy and nervous expression, and her bewildered movements , So that the little princess of the Ming Dynasty, who had slept for four hundred years, was even more affectionate.

Look at the school flower of Fang Dao and Li Feng, who has not yet entered the water. They have become two evil wolves exuding maternal brilliance. They want to swallow the little princess in one bite and rub their cheeks hard in their arms.

"Come on, little princess, it's okay. Everyone in modern times wears the same clothes!" Caixia squeaked and persuaded her: "Have you seen it on TV? Modern girls are on the beach. , I wear fewer clothes than we do now, and it's not a beach here. There are only five of us on the third floor, plus your brother, that is, your husband. At night, you sleep with your brother and sister Fang Xue... Well."

Caixia's mouth was blocked by the blushing little princess, and even Cai Wei felt that her sister's mouth was really uncovered-although it is true, they all know what happened last night, but you too Can't say it in front of the shy little princess!

After persuading in every possible way, the little princess finally blushed and went into the water, like a duckling learning to swim for the first time, squatting in the bath stupidly and not daring to move.

"Hehehe, the little princess is here to play, I took a lot of toys, little ducks, water polo, well, and a toy ship, do you want to play?"

"... Caixia, don't treat the little princess as a child!"

"Yes, you want to play, right?"
