

Godly Choice 261

Chapter 261: Chairman worked hard

But then, Concubine Wan Qing became savage, her eyes became sharp and terrifying, and she shouted fiercely: "Li Yun, if you dare to reveal what happened today, I will kill you!"

After a long while, Concubine Wan Qing put on the mask again, restoring her enchanting and gorgeous appearance.

After staying in the mask for a long time, she doesn't even know what she looks like anymore.

There is no good person in the six magic gates.

Including her concubine Wan Qing.

—

When Li Yun walked to the street, Concubine Wan Qing's murderous voice suddenly came from his ear, as if he really wanted to kill him.

But Li Yun just shook his head and smiled bitterly, not reassuring her threat.

Relying on the system plug-in and selecting events several times, Li Yun can infer the character of Concubine Wan Qing.

She is an evil sect, but she hates the evil sect's behavioral style. For example, she takes the initiative to seduce Li Yun, but if Li Yun agrees, Consort Wan Qing will definitely kill him without hesitation.

On the contrary, Li Yun is a gentleman, and Concubine Wan Qing will appreciate it very much.

"Forget it, don't care about her for the time being, let's talk about it later."

Concubine Wan Qing's favorability rating is only 55, the lowest among girls Li Yun knows.

And she still has extremely powerful power, with Li Yun's current strength, blending in is death.

Hiring a taxi to Mingyue Building, Li Yun went to his company.

It was nine o'clock in the morning, and the employees had already come to work. When they saw Li Yun, all of them seemed to be beaten up and rushed to say hello.

"Morning, chairman!"

"The chairman has worked hard!"

"Do you have any instructions, chairman?"

"Chairman drink tea!"

"Chairman..."

The former bantering title of the senior third-year chairman has long gone, and now all employees of Baiyun Technology respect Li Yun from the bottom of their hearts.

A technical expert who wrestled with the world's top hackers, just seeing Li Yun, they have a sense of excitement to see the legend.

"Ahem, good morning everyone!"

Li Yun greeted them and saw that although these employees were full of energy, they seemed to lack sleep, so he asked, "When did you work overtime last night?"

A few days before and after the product launch is the busiest, and it is normal to work overtime occasionally, even for the most lenient companies.

"Twelve o'clock!"

"Two o'clock!"

"I only slept in the morning..."

"So tired!"

Hearing that the employees worked so hard, Li Yun was ashamed. Didn't he become the evil capitalist who exploited the employees?

"Ding, trigger the option event, please choose from the host:

Option 1: Appreciate the employees and propose a reward plan to reward employees for increased loyalty and slightly improved work efficiency. There is a chance that employees will break through the limitations of their capabilities and make the company's performance prosperous.

Option 2: Appreciate the employees a few words, but do nothing, reward skills: black-hearted entrepreneurs (employees increase in workload, but there is a greater chance of leaving).

Choice three: nod your head, behave like a boss, reward skills: the majesty of the boss (employees will fear you even more)!"

Li Yun has a black line, he will play the real world as a business game!

However, the reward is still to be taken.

"Everyone has worked hard."

"Don't work hard, serve the chairman (for the company)!"

Everyone laughed in unison.

"In order to give back to everyone's efforts, I decided!"

For the first time, Li Yun took out the rights of the chairman to announce the rewards to the employees.

The twenty-odd employees in the company held their breath, waiting for Li Yun's decision.

They worked all night without complaining, isn't it just for the bonus?

Chapter 262: Thunderous cheers

"At the celebration banquet in the next month, every 10 million downloads will be rewarded--" Li Yun stretched out a finger, "1 month's salary!"

Everyone's eyes widened in an instant, and one person said incredulously: "Everyone is rewarded with a month's salary?"

"certainly!"

Li Yun nodded with a smile.

The next moment, there was deafening cheers in the company.

"Long live!"

"Long live the chairman!"

"Wow, the chairman is so generous!"

"Chairman, I love you!"

"Woo, I'm looking forward to the data? From the marketing department, have we downloaded 10 million?"

"The data is from President Wu, but I think it should be there. After all, with the chairman's foresight, we have produced more than ten languages in more than a dozen countries, and the number of downloads can definitely exceed 50 million!"

"50 million? Wouldn't it be possible to get a five-month salary bonus?! Oh my God, so happy!"

The average salary of this group is about 15,000, and the fresh graduates are 8,000, but the main force is all 20,000+ wages.

In other words, they have won more than 100,000 bonuses after working for a month!

No wonder these people are so excited.

"You are already celebrating? It's strange, how did you know about the skyrocketing downloads?"

Hearing cheers, Wu Ke walked out of the office and asked in surprise.

"Downloads skyrocketed?!"

Everyone looked at Wu Ke in unison, with joy and excitement in their eyes.

After Wu Ke understood the whole story, she smiled helplessly: "Your chairman is really generous. He paid out five months' bonus in one night."

Five-month bonus?

Everyone was taken aback, but soon understood.

"President, Pioneer Crackdown has exceeded 50 million downloads?!"

"Yes, as of 9 o'clock in the morning, Pioneer hit the global fruit machine platform, with 5 million downloads!"

There are roughly two kinds of computers in the world. One is the fruit machine operating system, which is popular among high-end elites.

The other is windows, which has a wider penetration rate!

Generally speaking, the download volume of windows is ten times that of fruit machine, which means that the global download volume of Pioneer Strike has reached an astonishing 50 million!

"Wow, that's amazing!"

"So happy, 50 million downloads, five months of bonus!"

The crowd flushed with excitement, and they all looked at Li Yun expectantly.

Li Yun smiled and said, "Don't worry, whether it is 50 million downloads or 500 million downloads in the future, the bonus I should pay will not be less!"

"Long live!"

"Long live the chairman!"

Everyone finally let go of their hanging hearts, and once again cheered and celebrated.

"Chairman!" The cheers stopped for a while, and Zhou Jianlong, the manager of the marketing department (with only ten people under him for the time being), immediately promised: "We will work overtime these days and strive to promote our software better. The goal is set as Five hundred million!"

The marketing department and all other employees nodded again and again.

They are very motivated now, the more downloads, the more their bonuses, and fools do not work hard.

If you can really reach 500 million downloads, then the bonus is fifty months' salary. Thinking about it, it makes you tremble!

Li Yun couldn't laugh or cry, and said: "Working hard is a good thing, but don't ruin your body. You can sleep two more hours during your lunch break today. This rule will also take effect for people who work overtime in the future. I don't want to see anyone working overtime. It's not fun to change the bonus to compensation."

"Hahaha."

Everyone laughed. Who doesn't like the talkative chairman?

Chapter 263: Liao Hua, the new company (part 1)

"Ding, the host makes a choice and rewards: The increased loyalty of employees and a slight increase in work efficiency may allow employees to break through the limitations of their capabilities and make the company's performance flourish."

Li Yun is quite satisfied. Humanized management is an important means to "become a CEO, marry Bai Fumei, and reach the pinnacle of life"!

After everyone's excitement stopped, Wu Ke asked them to return to their jobs and went into the office with Li Yun.

"Wu Ke, you said someone was looking for me last night?"

"Yes." Wu Ke was rather helpless, "and I think you should know who it is."

Li Yun nodded, "Should be a member of the country, right?"

When he pursued Nelson, he made all kinds of amazing actions. Although they had a righteous purpose, they still attracted the attention of many people.

"Don't worry, since the country didn't contact me until today, it said it would not embarrass me." Li Yun smiled, "When will they arrive?"

"Should be coming soon."

Sure enough, not long after Li Yun and Wu Ke talked, the front desk came to report that a middle-aged man asked to see the chairman.

Li Yun and Wu Ke went to the front desk of the company to pick up people in person. Li Yun saw a middle-aged man with a majestic appearance sitting on the sofa and two bodyguards beside him.

After seeing Li Yun coming, the middle-aged man immediately stood up, greeted him and shook hands with Li Yun.

"Hello, I am Li Yun!"

"Hello, my name is Liao Hua."

Liao Hua did not introduce his identity. He followed Li Yun into the office and asked the bodyguards to check whether there were any surveillance equipment hidden in the office.

"Sorry, I didn't target you, but my job is more concealed." Liao Hua apologized.

"It's okay, we can understand!"

Li Yun smiled. Liao Hua estimated that he was used to being in a high position, and he was a member of the special security department, so he was very sensitive to security and privacy.

The three were seated, and the two bodyguards went out to the rest area to wait outside.

"Mr. Liao came to me because of yesterday's Bitcoin killer virus, right?" Li Yun was straight to the point.

"Yes. By the way, just call me Liao Hua."

Liao Hua smiled and nodded, focusing on Li Yun, as if surprised at Li Yun's age:

"The country has already attached great importance to network security before, but to be honest, I was still taken aback when I saw your performance by Li Yun yesterday. I didn't expect top hackers to do such a thing!"

Hacked into servers, hacked satellites into space, controlled millions of broilers, and flooded ddos attacks slowed down the global network...

Although hackers are just calling for rain on the Internet, this power is amazing enough!

Li Yun shook his head and said with a smile: "I can do those things because I have a system vulnerability that no one has discovered. The same goes for hackers such as Nielsen. In fact, under normal conditions, most hackers are not so good!"

Li Yun lied. Nelson was great because they mastered the loopholes, but Li Yun was great because the computer technology had reached the **** level, and he was invincible in the world!

Liao Hua gave a wry smile, obviously not believing Li Yun's words.

Admittedly, what he said is correct, but if a hacker can find one vulnerability, he can find the second. Repairing the vulnerability alone will not work.

Don't you see that the windows operating system was released twenty years ago, and there are thousands of vulnerabilities patched.

"In terms of Li Yun's skills and vision, how do we prevent hackers from intruding?"

Chapter 264: Liao Hua, the new company (part 2)

Liao Hua was very respectful to Li Yun, and did not despise Li Yun because of his young age.

"Ding, trigger the option event, please choose from the host:

Option 1: Introduce relevant knowledge to Liao Hua, reward justice value +500, purple gift bag*1.

Option 2: Reject, reward.

Option 3: Introduce hacker protection knowledge, and take the opportunity to promote Xuanyuan Shield, reward justice value +2000, golden gift bag*1, business acumen is significantly improved. "

Li Yun almost didn't jump up, the system actually generously rewarded the golden gift bag? !

And also added two thousand justice points, which is simply amazing!

"Uh, Li Yun?"

"Ahem!" Li Yun cleared his throat and introduced: "The safest and most effective method is not to connect to the Internet!"

Without the Internet, hackers can't invade even if they are a great skill!

Liao Hua shrugged and said that it was impossible.

For example, how do satellites in the sky work without networking?

Furthermore, even a local area network may be invaded by the outside world.

"If you want to connect to the Internet, I suggest defending from the following aspects, first of all hardware-level protection..."

Li Yun just spent more than ten minutes briefly introducing the protection methods. Although Liao Hua didn't understand many places, he still listened carefully and kept everything in his heart.

But Wu Ke was more surprised as she listened.

Although Li Yun mentioned few things, he was far-sighted and put forward a method of systematically defending hackers from the overall situation.

If the things he mentioned are expanded and sold as a book, it is definitely better than any hacker prevention book on the market!

"But, there is a more convenient way!"

"Oh?"

Liao Hua was very interested and quickly asked what the method was.

"That's based on the program architecture I wrote, specifically to make a full-featured and extremely powerful firewall!"

Li Yun brazenly regarded the Xuanyuan Shield awarded by the system as his own, and introduced the two of them to related matters.

Liao Hua was overjoyed when he heard that Xuanyuan's Shield could defend against almost all viruses in the world.

Liao Hua would definitely not believe these words, but if it was Li Yun, he would definitely believe it!

After all, a hacker patted his chest to ensure that this Xuanyuan Shield is absolutely strong!

"How about this."

Liao Hua pondered for a moment, "Since Li Yun, you want to make Xuanyuan Shield, let me take the lead and let the commercial bank of Zhonghai City invest in you, and then set up a company called Xuanyuan Shield, and Baiyun Technology will be responsible for it. Manage and provide technology. We are responsible for paying money and various policies. What do you think?"

State-owned commercial banks are originally engaged in investment, and investment in private enterprises is also very common.

Li Yun's goal is exactly the same.

With the support of the bank, are you afraid of not making money?

"Ding, the host has made a choice, and the reward (justice value +1000, golden gift bag*1, business acumen is significantly improved) has been issued!"

After finalizing a simple preliminary contract, Li Yun was rewarded by the system.

Moreover, this is the first golden gift bag that Li Yun has obtained, which makes him extremely expecting to be able to open something defying the sky!

After seeing Concubine Wan Qing's volley control of hairpins, Li Yun became very eager for this kind of immortal cultivation.

Although there is a high probability that you will not be able to move the mountains and the seas as in the fairy-xia novels, it still makes people yearn.

After finalizing the contract with Liao Hua, Wu Ke will do the rest.

This made Li Yun extremely grateful, but fortunately Wu Ke was there, otherwise these things would be really difficult to handle.

Chapter 265: Call from Liu Xianxian

After having lunch with Liao Hua and Wu Ke, Li Yun returned to the hotel, ready to check out and go home.

Because after 12 noon, the hotel counted one day's money, so Li Yun did not leave anxiously.

—With his current wealth, a few hundred yuan a day in hotel money has long been ignored.

"Xianxian?"

Unexpectedly, Li Yun received a message from Liu Xianxian at noon. The message showed that Liu Xianxian seemed to have encountered some problems, and he felt a little heavy.

So Li Yun called her directly.

"Well, Li Yun."

Sure enough, Liu Xianxian's voice was a little tired, and Li Yun hurriedly asked what was going on.

The international star now has 96 good feelings towards him, and Li Yun of course cares about her current situation.

"Uh, it's actually fine."

Liu Xianxian's voice seemed to be acting like a baby, and it seemed to be telling his inner grievances and boredom, and said, "I just encountered something unhappy, I want to talk to Li Yun."

"Okay, of course." Li Yun sat on the sofa and turned down the TV's voice, "Xianxian, what can you tell me, just tell me, if it can be solved, I will help you solve it!"

"Hehe, Li Yun, you are so nice~!"

Liu Xianxian was moved in his heart, and the tone of his words became much softer. His voice was as if he was speaking softly in Li Yun's ear, slowly speaking out his troubles.

It turned out that Liu Xianxian is still shooting a documentary in a village deep in the mountains. This village named Donggou Village is very backward and poor, with a per capita annual income of less than 1,000 yuan, which is a very poor village.

"The annual income is less than 1,000 yuan, Li Yun, do you know? When I learned of this, I couldn't believe my ears. How could I have such a low income? Because as far as I know, in big cities Anyone who works part-time can earn a monthly income of several thousand."

"But the more I understand, the better I can understand them. The poverty in Donggou Village is not because of not working hard, but because of the poverty of the external environment."

"Everyone is poor, and the circulation of living materials is very low. Not to mention part-time jobs, no one even wants to sell crops and mountain game, because they can't afford it and don't need..."

Li Yun nodded. He had read a sentence on the Internet before: You are poor because you don't work hard.

But in fact it is nonsense, the external environment is not good, no matter how hard you work, it is useless.

For example, a rich man has experienced the life of picking up **** for a living. The rich man has tried his best to survive. There is no other spare money, and there is no way to change his poverty.

The rich have 10,000 ways to make money, but they can't become rich, let alone those who are already poor?

Why don't people in Donggou Village go to work?

First, they may not even have the money to go out. They need money for a car, money for accommodation, and money during the time they are looking for a job...

Second, they may not have the consciousness of going out to work at all.

Third, they are very unfamiliar with modern life. They may not even be able to use mobile phones or take public transportation. How can they survive?

Li Yun can only comfort him: "Xianxian, you can shoot the documentary yourself and let more people pay attention to their living conditions. This is already very rare. I believe that when the documentary is broadcast, their condition will be improved. of!"

There are many caring people in the society, and there are also many public welfare organizations. With Liu Xianxian's popularity, they will definitely be able to help them!

"Um... but I also encountered another thing that made me feel sad."

Chapter 266: Protect Liu Xianxian

Liu Xianxian's voice became more aggrieved, as if he was about to cry.

"Don't worry, don't worry, Xianxian, speak slowly, don't worry, everything is mine!"

Li Yun said lovingly, dreaming of Liu Xianxian's innocent, kind, and beautiful face. If she was by her side, Li Yun would definitely embrace her and comfort her heart's grievances.

"Um."

A sweet and happy smile appeared on Liu Xianxian's beautiful face, making the assistant and the two bodyguards who were standing not far away stunned.

Because the signal in the mountains was not very good, Liu Xianxian could only stand on a soil **** and call Li Yun. The weather in the mountains was very cold, but her heart was extremely warm.

With Li Yun comforting her, Liu Xianxian felt extremely warm.

"Xianxian, what happened?"

"Uh, it's a depressing thing." Because the opposite is Li Yun, Liu Xianxian didn't hide it, so he said it all.

It turned out that Liu Xianxian learned one thing in Donggou Village, because the winter has just passed and it is now spring, and many wild vegetables and herbs are growing in the mountains.

Therefore, many villagers in Donggou Village will go into the mountains at this time to collect some wild herbs and eat them back.

But this year has happened consecutively. The disappearance of the villagers who entered the mountain has caused panic among the people in Donggou Village, and everyone is afraid to enter the mountain.

"I know a little girl, her name is Meimei, she is only eight years old this year, her father and grandpa both went into the mountains, and then..."

"All missing?"

"Yeah." Liu Xianxian said sadly: "Now her mother and a three-year-old brother are left in her family. The situation is particularly difficult."

Li Yun frowned and said tactfully: "Could it be a wild wolf in the mountains... The wild beasts after a winter are particularly fierce."

"People in the village are guessing like this. Tomorrow, I will go into the mountain with a shotgun with the crew and help them find it."

When Liu Xianxian said this, the system prompt suddenly sounded.

"Ding, trigger the option event, please choose from the host:

Option 1: Go to Donggou Village, protect Liu Xianxian, reward Liu Xianxian with +1, all attributes +300, and experience value +50,000.

Option 2: Ignore, simply comfort Liu Xianxian, no reward, Liu Xianxian will encounter unexpected events. "

"what?!"

Li Yun was taken aback and couldn't help shouting. Liu Xianxian thought that Li Yun was worried about him. He warmed his heart and said sweetly: "It's okay, my bodyguard is very powerful. It seems to be a martial artist of the acquired realm, Li Yun Do you know the acquired realm? Hee hee, it's really amazing~, it's okay to hit a shotgun!"

"...Xianxian, I am a martial artist in the Houtian realm."

"Ah?" Liu Xianxian's eyes widened, "Li Yun, are you so good? Last time I thought you protected me... it was just a coincidence, hehe, I'm sorry, it's a fairy, I underestimated Li Yun~"

Liu Xianxian spoiled for a while, her voice is very nice, after all, she is a big singer, so the bones of Li Yun's coquettish voice are softened.

"Ahem, Xianxian, let me tell you, you must listen to me for the next thing!"

"Um?"

"Before I reach your village, you must not leave Donggou Village, and you must not go out alone, have you heard?!"

"...Li Yun?" Liu Xianxian was puzzled. Is Li Yun worried about her so anxiously?

"Anyway, Xianxian, you must listen to me this time!!"

"Well, Li Yun, I'll listen to you, stay in the village...waiting for you."

Chapter 267: To Donggou Village

"Okay, Li Yun~, I am waiting for you~"

Liu Xianxian's tone was very excited and expectant. She didn't refuse Li Yun's request to 'visit the class' because she hadn't seen him for many days. Liu Xianxian, who had already fallen in love with Li Yun, already missed him very much.

"Xianxian, you must remember my words, don't leave the village!"

Li Yun stood up and quickly packed his luggage, "I'll be there at night at most, and I have to wait until I arrive! Xianxian, wait for me!"

"Hmm, I'm waiting for you, I've been waiting for you, Li Yun~"

Liu Xianxian's mood was agitated, and Li Yun's words made her feel the warmth of being cared for. At this moment, she was extremely happy and looked forward to meeting Li Yun with all her heart.

After asking about the specific location of Donggou Village, Li Yun did not stay at all. He checked out, got out of the hotel, hired a taxi to go straight to the airport, and flew directly to Huatian Province, which is near Zhonghai City.

After leaving the airport, Li Yun hired another taxi to the station. Without buying a ticket, he went straight out of the station and used a 3,000 yuan wallet to buy a van and set off toward Annan City-Hengji County.

If he took a regular passenger bus, Li Yun would have to wait another hour to get a bus.

So he chooses to take this kind of soliciting van, which is not very formal and has no safety guarantee, but it is convenient and fast, and the price is cheap.

He was speechless all the way, driven by three thousand yuan, the driver quickly sent him to the county seat, and kindly found Li Yun's next home-a van to Nanfeng Town.

Similarly, this cost Li Yun 1,000 yuan to charter the car.

On the way, the driver opened his eyes and talked to Li Yun: "Little brother, you seem to be in a hurry to go home? Could it be that something is wrong at home?"

He can only carry seven or eight people for one trip, 50 yuan per person, and Li Yun's 1,000 yuan is equivalent to double the payment, plus there is no need to wait, of course the driver is happy.

"No, my house is not there." Li Yun shook his head.

"It's fine." The driver sighed as he drove: "There are a lot of people who have returned to Nanfeng Town recently. I am also from the town. I heard that some people in the following villages went missing after entering the mountain. Maybe they were dead, so Those who work outside come back for funerals, alas."

Li Yun moved in his heart and asked in surprise: "There are a lot of people missing recently?"

"That's not it!"

Seeing that he was interested, the driver was enthusiastic, and spittingly said: "Donggou Village, Nanxia Village, and Guishu Village to the north. Anyway, in the villages near Baima Mountain, people who entered the mountain are missing!"

Baima Mountain, which means Baima Mountain, is a mountain range that stretches for hundreds of kilometers. It is inaccessible and surrounded by mountains. It is filled with dangers. Ordinary people rarely go in. They only pick some herbs and hunt on the periphery of the mountain range.

"Everyone is missing..." Li Yun's eyebrows were twisted deeply, "Is there such a situation in previous years?"

"There were also in previous years, but few." The driver said, "We guessed that the wolves in the Baima Mountain ran out, so we didn't dare to enter the mountain. There were even fewer people selling herbs!"

Li Yun nodded and asked some related information. The driver knew everything, but unfortunately, he didn't know much, and there was not much information to give Li Yun.

The first half of the road from the county seat to the town was well repaired, but the second half was bumpy. Li Yun felt sore in his buttocks while sitting in the van. One can imagine how difficult the road was.

"No way." The driver shrugged, "There is no money in the county, and no money in the town. If this road is broken, it can only be broken. Most roads in Hengji County are like this."

Chapter 268: Goodbye Liu Xianxian

Li Yun gave a wry smile. From the road conditions, we can know how impoverished Donggou Village is.

Li Yun finally came to Nanfeng Town after the bones all over his body were about to fall apart.

The driver said enthusiastically: "Brother, do you want me to introduce you to the driver in Donggou Village?"

"I thought you were going in person." Li Yun smiled.

"If it weren't for my car that didn't dare to drive to Donggou Village, I would definitely pick up your order!"

"Isn't it? Is the road so difficult?"

"Hey, you'll know when you go!"

The driver did not ask Li Yun why he went to Donggou Village. He neatly introduced a tricycle driver to Li Yun. The other party seemed unwilling to go to remote villages. One round and one meant that he had to make two trips.

However, after Li Yun paid 500 yuan, the tricycle driver still agreed.

But the van driver took a 50 yuan referral fee.

"Damn it!" The van driver scolded with a smile: "You make 450 yuan in three hours, but you are still not satisfied? If you have a boss chartered a car, you don't make more, when will you make it? Go ahead, don't make the boss wait in a hurry!"

The tricycle driver glanced at Li Yun, "To tell you the truth, it hasn't been peaceful these days. If you didn't look like a bad guy, I wouldn't dare to drive you alone at night!"

It is already 6 o'clock in the evening, and it will take more than an hour to go to Donggou Village at night.

The road in the country is not very peaceful at night.

But still the same sentence, money can make ghosts grind, under the temptation of 450 yuan, Li Yun still got on the car smoothly.

Although the driver said it would take more than an hour to walk, it only took more than 20 miles. The reason for the long journey was all because of the terrible part of the road.

"Donggou Village has only more than 100 households, and the distance is so far, so the cement road could not be built."

The driver explained, and then told Li Yun about the recent villagers being taken away by wolves- he also guessed that the wolves ran out of the mountains.

After more than an hour, when Li Yun was about to be numbed half of his body, the tricycle finally swayed to Donggou Village.

It was dark in front of him. If it weren't for the lights of the tricycle to show Li Yun some tiled houses, he would have doubted whether the driver had gone the wrong way.

"Arrived."

"Li Yun?!"

As soon as the driver stopped the car, Li Yun heard a familiar girl's voice.

This voice sounded unusually crisp and sweet, and it refreshed people in the dark night.

"Xianxian, it's me."

As soon as Li Yun got out of the car, he was hugged tightly by a soft girl's body, his heart instantly softened, and he hugged her tightly.

At this happy moment, all his previous hard work was worthwhile.

"Li Yun~, I'm so glad you came to see me~!"

Liu Xianxian couldn't hold back his excitement, stood on tiptoe, and slowly printed his own lip print on his cheek. After that, Liu Xianxian was too shy to control himself, and threw himself into Li Yun's arms again.

The fragrance, warmth, and sweetness made Li Yun's heart sway. It is the blessing of his life to have such an outstanding star as a girlfriend.

"Ding, the host has made a choice, and the reward (Liu Xianxian favorability +1, all attributes +300, experience value +50,000) has been issued!"

Everyone around was dumbfounded, including the driver, the two bodyguards who followed Liu Xianxian, and one of Liu Xianxian's assistants, all staring dumbfounded at the two people hugging each other.

Chapter 269: The boyfriend of the fairy sister

"This....."

Wu Xiaolan, Liu Xianxian's assistant, is 24 years old this year, but has been following Liu Xianxian for two years. She looked at Li Yun and Liu Xianxian embracing with horror, and she was too nervous.

Because of Liu Xianxian's popularity, she is destined to not fall in love like an ordinary girl!

There are hundreds of millions of fans around the world. Once Liu Xianxian's love affair is exposed, or some scandals are reported, even as long as the photos of Li Yun and Liu Xianxian hugging together are posted on the Internet, Wu Xiaolan is sure that it will definitely cause abnormalities. An uproar!

Fortunately, it was dark all around, and the tricycle driver couldn't see Liu Xianxian's appearance. After receiving the money, he happily blessed Li Yun and his girlfriend, and then left.

"Hehe~" Liu Xianxian happily clenched Li Yun's hand, smiled happily at him, and said, "Li Yun, let's go. Have you had dinner?"

"I haven't eaten yet, how about you?"

"I haven't eaten, waiting for you, hehehe~"

Liu Xianxian smiled while holding his bright red mouth, as if he felt a little bit shy, but he didn't want to let go of Li Yun's hand.

"Xian, Xianxian!?" Wu Xiaolan reminded her euphemistically, don't be so close to Li Yun, things will happen!

"It's okay~" Liu Xianxian still insisted on holding Li Yun's hand, "Anyway, it's night, no one has photographed us, if it does..."

She looked at Li Yun with expectant eyes. Li Yun couldn't understand it, and immediately replied: "If it is photographed, I will announce that Xianxian is my girlfriend!"

"How can this work!" Wu Xiaolan's eyes stared out, this guy actually wanted to admit it directly?

But what shocked Wu Xiaolan even more was that Liu Xianxian not only did not object, but his eyes narrowed with a smile, and he looked happy and happy.

"Huh~"

But then, Liu Xianxian snorted proudly, "You villain has another girl as a girlfriend, so I don't recognize you as my boyfriend~"

As he said, he stuck out his tongue cutely at Li Yun and threw his hand away and walked forward.

But not a few steps out, she looked back at Li Yun, and after seeing the person she liked had followed her, Liu Xianxian proceeded with satisfaction.

Wu Xiaolan's chin was almost frightened.

When Li Yun said a few sweet words, Liu Xianxian was coaxed by her to laugh. The two held hands together again, and the strong emotions revealed in the eyes of each other, as long as they are not fools can see, Liu Xianxian The relationship between Li Yun and Li Yun is extremely deep.

So deep that even if Li Yun has other girls, Liu Xianxian doesn't mind sharing it with others.

Wu Xiaolan felt that the sky was about to collapse, and if this spread out, the world would be strongly shaken!

"Ahem, Xianxian, let go first."

Fortunately, before seeing the crew, Li Yun took the initiative to let go of Liu Xianxian's little hand, which made Wu Xiaolan much more relieved.

On the contrary, Liu Xianxian was a little unhappy, pouting her mouth to express her dissatisfaction. After Li Yun scratched her nose a few times, her anger disappeared.

"Really, Li Yun, are you afraid of my star status? For you, I would rather..."

"Xianxian!"

Li Yun stretched out a finger to block Liu Xianxian's mouth, and said softly: "Don't say anything willful, I know your intentions, I believe you also understand my heart, but you are a public figure, and you also like to be a star, so , Before there is no perfect solution, do this for the time being, okay?"

Chapter 270: Peel the sweet potato by hand

"Ok."

Because of the movement of Li Yun's fingers, he felt the touch on his lips, Liu Xianxian's face was reddish, and he obediently agreed that the two will be the relationship between secret lovers in the future until the time is right in the future.

Wu Xiaolan and the two bodyguards were completely stunned.

In their impression, Liu Xianxian was a gentle, kind, innocent, fairy-like person, and a very talkative person.

However, Liu Xianxian, who was in front of Li Yun at the moment, became stubborn and self-willed, weak and delicate, just clinging to Li Yun's body, acting coquettishly and begging to touch her head, which is far from her previous image!

Is this the power of love?

This international star changed completely. Originally, Liu Xianxian's appearance in love was similar to that of ordinary girls, and even more attached to his boyfriend.

Li Yun followed Liu Xianxian to the village. It was dark all around. Even at night, few people turned on the lights in the village.

"They are reluctant to pay for electricity. They all use kerosene lamps, or they just go to bed at night without much entertainment."

Liu Xianxian said sadly.

Li Yun nodded. In fact, he had experienced similar scenes. The old man who adopted him was not rich at home, so he had to save everything.

The two came to a big earthen house. There were a few off-road vehicles parked in the wide yard, and a few tents, and a group of people were chatting in the house.

"Sister Xia, I'm back!"

Li Yun and Liu Xianxian walked in side by side. Liu Xianxian greeted a woman in her thirties and introduced her to Li Yun.

Sister Xia's name is Xia Yan, and she is in the same company as Liu Xianxian. She is the director of this time Liu Xianxian's documentary. Li Yun looked at her with a serious expression. After seeing him, she just nodded and didn't say anything else.

When everyone saw Liu Xianxian brought back a person, they were very surprised. Some people could not help but start to speculate about the relationship between the two.

Soon, everyone guessed Li Yun's identity.

Undoubtedly, from Liu Xianxian's look at Li Yun that looked like a girl from the time of love, as well as the intimate actions of the two, we can know that the two are absolutely related!

"Unexpectedly, Xianxian actually has a boyfriend!"

"Shhh, shut up, don't spread it indiscriminately, no one will believe it, as long as the immortal is not official!"

"I won't mess around, it's too difficult to find a job now."

"By the way, Xianxian boyfriend is pretty handsome~!"

With super hearing ability, Li Yun heard the murmurs of many people, but he didn't care and smiled.

The house where everyone was staying was quite big. It was supposed to be a warehouse, but now it is rented by the crew. More than a dozen people gather together. There is a fire in the middle, and sweet potatoes can be roasted and eaten.

"Hehe, Li Yun, before dinner, do you want to eat sweet potatoes? I will peel them for you to eat." Liu Xianxian stretched out his hand and pulled a dark object out by the fire. Wu Xiaolan was startled and wanted to stop everyone. Too late.

"Okay." Li Yun readily agreed.

The eyes of everyone around him are widening. This Nima can actually enjoy the service of the immortal. The big star peels the sweet potato with his own hands. Isn't this a great treatment?

Everyone didn't even dare to think about it, but Li Yun happily agreed!

But Liu Xianxian was very happy, peeling two sweet potatoes, one for her and one for Li Yun, and the two enjoyed themselves.

"Well, it would be nice if there was a drink." There was some heat around the fire, causing Liu Xianxian to want a drink inexplicably.
