

Godly Choice 2721

Chapter 2721: laboratory

Looking at her in surprise, Li Yun had a weird look in his eyes: "Yes, there are still two hours, but... the senior sister's family also donated money to the school, so that senior sister you also have a house in the school?"

Su Muxin shook her head and said regretfully: "My parents let me go abroad in my junior year, so I only bought a house near the school, about a ten-minute drive away, what do my dad think?"

(Correct the previous text, Su Muxin is a sophomore senior, not a junior, she was a freshman before.)

Li Yun thought for a while, and shook his head with regret and regret.

If Su Muxin also has a three-bedroom apartment in the school, she can take a tour first, drink some tea, chat, do something or something.

But it is not very convenient to drive to the house she bought after going out of school. Maybe the counselor, or Fang Xue and the others will find him in trouble, so it is not easy to leave.

"Em..."

Su Muxin's voice stretched long, and she soon thought of something, her eyes lighted up, and she suggested: "Little brother father, I know that there is a plant laboratory in the School of Biology in the school. There is very little time from morning to night in the school. People, and their building does not prohibit outsiders from entering, as long as the plants cultivated in the yard and classroom are not moved!"

Li Yun's face is weird, is this all right?

Besides, it's too arrogant to go to other people's plant laboratory with the sophomore senior in college on the first day of school. Isn't it too arrogant?

"Hurry up, brother!"

The more Su Muxin thinks about it, the more it feels feasible, her charming face is flushed with excitement, she walks forward while pulling Li Yun, and whispered as she walks, "There are cubicles in the bathroom of the laboratory, and outsiders are not forbidden. Use it, brother Dad, let's go, I want to go to the bathroom now!"

When Li Yun was dragged away, he couldn't help but complain. It was a fake to go to the bathroom, and it was true that he wanted to do tricks in the plant laboratory.

...

Five minutes later, two young men and women wearing white medical masks, shoulder to shoulder, watching the ease of walking, came to the outside of this secluded laboratory in a sneaky manner.

It is located in the corner of China Overseas University. The trees nearby make the night here darker and darker. In addition to the teachers and students in the nearby laboratories, there are also couples who are in love and are visiting the campus.

For example, this pair: Li Yun, Su Muxin.

The white masks are naturally taken from the spatial ring. After the two put them on, they completely cover their faces. Unless they are very close people, it is unlikely that they will be recognized.

"Here, it's here!"

Su Muxin lowered her voice, sneaking as if she had come to the plant laboratory to steal some dangerous biochemical products.

But in fact, she came to "go to the toilet."

"Um."

Li Yun indicated that he was reserved, but he felt like Su Muxin in his heart, feeling inexplicably nervous and exciting.

This is a laboratory of the School of Biology, Zhonghai University. It is a real university, and it is also one of the top five comprehensive universities in the country!

So sacred and solemn, the college that nearly tens of millions of college entrance examination students in the country dream of, Li Yun is about to do a very hidden thing.

"Then, junior... shall we go in and take a look?"

Su Muxin's heart was pounding, and her face was so excited that she was even red all over her body.

When I really came to this secluded laboratory and realized that very few people would come here, and that the matter between her and her younger brother might really happen, Su Muxin realized how bold the previous proposal was!

Chapter 2722: Creature is a pit

"Then go in, didn't you say you want to go to the toilet?"

Li Yun is very calm.

He must also be calm, otherwise, under such a tense and exciting atmosphere, after the terrible fire burns, I am afraid that he can't conceal his abnormality even when he bends down and walks.

"well."

Su Muxin's voice began to tremble, she firmly grasped Li Yun's hand, and took a step forward.

Li Yun took her hand and led her into the laboratory building step by step.

Said it is a building, it is actually five stories high. There are about 17 or 18 large and small laboratories, but only one on the second floor is still lit.

In front of the laboratory building, there is an open space of two acres, which is planted with various vegetables and fruits, all researched by the School of Biology. The wall is very low, just to prevent some small animals from coming in and destroying it.

"Which floor are we going to?" Su Muxin lowered her voice, like a spy joint, indescribably irritated.

"Fourth floor."

Li Yun suggested that there are people on the second floor and the third floor is too close to the ground. If there is any sound from the bathroom, people passing by may hear it.

The fifth floor is not very good, it is too remote and arouses suspicion.

Li Yun deliberately looked at the corridor, there is no camera!

Very good, so as long as you avoid people, you can...

"Tatatata."

Just as Li Yun and Su Muxin secretly wanted to go upstairs, the sound of a woman stepping on high heels came from the stairs, and the sneaky two suddenly froze in fright.

"Huh? Who are you?"

Coming down the stairs is a twenty-seventh-eighth senior girl, wearing a professional skirt, holding a stack of papers, slightly makeup, but without lip gloss, her face is a bit tired, it should be after a day of experimentation, she wants to go back to rest .

"We..." Su Muxin went down on the spot, her head empty and she didn't know what to do.

Li Yun stood up: "Hello, senior sister, we are freshmen, and we are walking around the campus. Seeing that this laboratory does not prohibit outsiders from coming in, we want to come and have a look."

In universities, the 27-year-old may not be a teacher, but a graduate student or doctoral student, especially in the laboratory, almost all the seniors of this age encountered are graduate students.

"Oh, freshman, today is school day again! No wonder you wear masks, you don't need to wear them in this laboratory."

This senior girl holding the file showed a look of nostalgia, and then thought of something, her face extremely annoyed: "Your senior sister, I lived in the laboratory during the summer vacation, and even my boyfriend said I... Alas, senior sister, I don't want to. Ah! By the way, you are from the Department of Biology? Listen to the words of the senior sister, hurry up to transfer your major in the sophomore year!

Don't believe it! Mathematics is fire, lighting the lamp of physics, physics is the lamp, illuminating the road of chemistry, and chemistry is the road, but what TM leads to is the pit of biology, and all science students are buried in the pit! I shouldn't have chosen science at the beginning! "

"Uh." "Yeah." "Good elder sister."

The two of them were embarrassed and hesitated. They didn't dare to say that they weren't from the biology department, or they would have to be scanned with envy by this resentful senior.

After catching them and saying something, this senior girl waved her hand: "You continue to stroll, my junior on the second floor, your senior is doing an experiment, you can ask him, but remember,

you can enter the laboratory, but Don't move the stuff inside... although there is nothing good about it."

After speaking, the senior sister continued to step on high heels and left with today's experiment documents.

This is college life!

Li Yun wiped his sweat and went up to the empty fourth floor with Su Muxin.

Chapter 2723: Su Muxin's dream

When a child's consciousness of men and women is sprouting, there will always be a question: Why is my male (female)? Why doesn't the other party have me? Why do boys and girls go to the toilet separately in kindergarten? Aren't mom and dad all on the same one?

After growing up, especially after entering puberty, the toilets for men and women have become one of the places where many adolescent teenagers and girls are curious and dream.

Of course, most people do not realize their dreams until they grow up.

But today.

The night of September 1st!

As a sophomore in the Department of International Business of China Overseas University, Su Muxin, the top five richest daughter of the Su family, realized her dream of ignorant girlhood in a plant laboratory in a corner of China Overseas University.

...

After an hour and a half, the dream came true. Su Muxin, who was blushing with happiness and contentment on her charming face, took Li Yun's arm and walked happily down the laboratory building.

No one knows what happened in the bathroom on the fourth floor. Li Yun even felt that everything went too smoothly. As expected, this laboratory told Su Muxin that very few people came during the day at night, let alone go at 7 or 8 o'clock. Go to the toilet on the fourth floor.

Therefore, Su Muxin's dream went smoothly. She could even lie on the window on the fourth floor with her chin resting on the edge of the window, frowning and looking downstairs, inexplicably expecting one or two passersby to pass by.

Unfortunately, there is not even a passerby.

So Su Muxin was completely crazy. After going to the bathroom, the two played around on the fourth floor of the laboratory like the mother kangaroo and the kangaroo child. During the period, Li Yun also received a call from Jin Liuli on Penglai Island.

As a result, Su Muxin, who was fluctuating, took a fast photo with her mobile phone and sent the video to Jin Liuli, which made the girl flushed with shame, and threw the sentence "Little Chili Sister, you are too messy" and was forced to interrupt her relationship with Li Cloud video call.

He threatened to wait a few days before coming to Zhonghai City to find sister Xiaojiao to settle the account.

"I'm afraid you won't succeed? Humph, come to China Overseas University if you have the ability, the three of us come to this laboratory together!"

Su Muxin, who was quite sure that there was no one on the fourth floor of the laboratory, was fully fired and challenged both Jin Liuli and Li Yun.

Of course, the current Su Muxin did not have the help of Xia Feiyao and Jin Liuli, and she was the only one who was naturally defeated.

"Little brother Li Yun~~."

Su Muxin changed her name again, her voice was sweet and greasy, she looked back at the fourth floor of the laboratory, and said with satisfaction and expectation: "How about we come here next time for a visit?"

Li Yun flicked her forehead when she was shopping, and said helplessly: "Occasionally, it's okay, or just visit the bathroom, it's really crazy to go out and play..."

"Isn't it addictive and fun?" Su Muxin asked, her beautiful eyes full of flattery.

"Fun is fun."

Li Yun sighed: "It's just that someone is too tired to stand up after the end. The cleaning and housework are all done by me alone. I'm also very tired."

"Oh, sorry~"

Su Muxin hugged Li Yun's arm and acted like a baby: "I can't compare to Li Yun, dad, don't be angry, next time I promise to stand firm after the end!"

Li Yun couldn't laugh or cry, "You didn't have the strength to stand firm during the process, let alone after the end, well, let alone this, it's almost nine o'clock, let's hurry up and be late, can you walk now, Little Chili?"

"There are shared electric cars on campus, and Dad will drive me~~~"

Su Muxin hummed happily, not at all tiring from standing by the window and looking down before frowning.

Chapter 2724: First time late

The shared electric car originally didn't have a back seat for people, but according to Su Muxin, there are many couples or two girls on campus who ride in the same car. Li Yun tried it and found that this kind of small electric car can also be used. Carrying two people, so I carried Su Muxin and let her sit in her arms. The two of them rode in Zhonghai University, attracting many people's attention along the way.

Su Muxin is also a celebrity, big and small. Although there is no appraisal, she is definitely a strong candidate for the 2019 school flower.

"Well, you go upstairs, it's about to start late!"

"Yeah, goodbye dad~"

"..."

Seeing her humming and leaving, Li Yun took a deep breath. Every time Su Muxin called his father, Li Yun would burn for a while. This little chili was just like a human nickname, and the whole body was hot when he touched it.

cough.

Once again, riding an electric car to the downstairs of a teaching building, Li Yun put the car away and went upstairs with many classmates.

Successfully found the late classroom tonight, Li Yun went in and found that there were already many classmates waiting in it. After seeing him, many of the girls who came to report today and were helped by him greeted him.

"Brother Li, here!"

Wang Hao and the three were sitting together. The roommates were actually the first batch of people I met in the university. They acted with the roommates two days before the beginning of school. After the military training was completed and they met more people, they would choose their own circle. assimilate into.

"coming."

Li Yun glanced at Xiao Mingzhu who was sitting in the first row, nodded and smiled at her, walked to the back and sat with Wang Hao.

"Hey, I was wrong with Brother Li." Wang Hao said annoyedly: "I shouldn't call you, let Brother Li sit with Xiao Mingzhu, to deepen the relationship, so that the Banhua in our class will not be abducted."

Li Yun shrugged, "Girls won't be moved by you sitting next to her, especially on serious occasions like class meetings, but they will get bored."

"Hey, what Brother Li said is right...Huh? That Huang Guanying!"

While talking, Wang Hao saw the guy who was said to be a supernatural being in the hotel before. There was no attendant beside him. He walked into the classroom alone with a calm expression, and after a few casual glances, he sat behind Xiao Mingzhu. Row position.

It seems that I want to chat with Xiao Mingzhu again.

But when Li Yun saw him trying to talk to him several times, Xiao Mingzhu and her roommate were both indifferent to others, causing the surrounding students to look at him with weird faces, not knowing the most beautiful girl in the class and this What happened between the male classmates.

However, from the performance point of view, the students in the computer science class can probably guess: this is another licking dog!

Li Yun had to admire Huang Guanying's cheeky guy. He had already lost his joy in the restaurant before, but in a blink of an eye he forgot and became a white and rich licking dog.

For the sake of being the same as the Class of 2020, Li Yun did not plan to directly teach him a lesson, as long as he doesn't do anything extraordinary.

As time passed, the classmates in the classroom chatted and waited for the arrival of the instructor. The various voices made the classmates after a summer vacation feel like they were in high school.

This wait is half an hour.

Nearly 9:30, the counselor Li Xiaolan walked up to the podium with a tired look. She held a meeting for nearly three hours!

Moreover, the content of the meeting is quite explosive, and once it is mentioned, it will definitely cause a sensation!

"Dear students, you..."

Chapter 2725: One month of military training

The classmates in the computer science class looked at her eagerly. Li Xiaolan stopped talking, struggling, and finally sighed: "Forget it, I can't say it tonight. You will understand when the military training mobilization meeting tomorrow morning!"

"???"

A group of students in the computer science class looked dumbfounded, as if something extraordinary had happened?

"Now we have the first class meeting."

Li Xiaolan waved her hand, her face reappeared with a gentle smile: "Welcome to China Overseas University. This is the new beginning of your life. It is also the beginning of a new era in the world. You are about to make history!!!"

"..."

The expressions of the students turned from dumbfounded to dazed.

They thought of Penglai Island.

This year's college students will indeed be the most special freshmen. This summer vacation after the college entrance examination can be described as bizarre.

"It's nice to be..."

The instructor first gave a welcome speech and looked forward to the future. After the end, he announced that the military training would begin tomorrow, so that the students were ready.

However, it was revealed that this year's military training will be completely different from previous years, and it will also prepare students for it.

"I knew it would be different!" Jia Yongshuai, who was sitting next to Li Yun, murmured, "Such a big thing has happened. It should have changed a little, right?"

In the past month, although there has been an uproar on the Internet, the real life of most people has not been changed. Even though prices have soared for a few days at the beginning, they have quickly fallen back.

Penglai Island seems to have become a place where countless news and action special effects films are produced. For ordinary people around the world, only viewing it on the Internet is left.

But everyone knows that change is coming.

"Tomorrow at 8:30 in the morning." The counselor emphasized: "Concentrate on the track and field and watch the CCTV news. At that time, the country, home, and leaders will announce some important things. You must arrive at the track and field on time. This is about your next month. Military training issue!"

"One month!?"

The computer class became a sensation, and everyone's eyes widened.

In the past, junior high school and high school had only one week of military training, and college was about two weeks, but now it has doubled the time!

"Quiet."

Li Xiaolan suppressed the noise of the crowd and announced again: "Everything will be announced tomorrow morning. Now we are starting to select class cadres. I need to remind one thing: class cadres need to do more in the next military training, which requires a lot of effort, but You can also get exercise. It's up to you to choose, but I hope everyone can participate actively, because you know the situation in the world now. The sooner you mature, the better for you!"

Everyone fell silent.

The counselor must have known what happened, so he has repeatedly emphasized that the students will grow up and not be as naive as they were in high school.

"Well, now students who are interested in running for class monitor, please prepare your speech and speak on stage in five minutes!"

It was almost ten o'clock, and the counselor made a quick decision and quickly announced.

The students in the computer science class whispered to discuss.

"Brother Li, are you going to run for squad leader?" Wang Hao asked immediately, "We must support Brother Li!"

Jia Yongshuai and Zhang Zhou also expressed no opinion, and they all voted for Li Yun.

"No."

Li Yun shook his head, "I may take a lot of time off in the future. Being a monitor is not suitable, and I don't want to be a monitor either."

"Uh, that's a pity."

He said it was a pity, but Wang Hao didn't feel surprised either. Li Yun gave him the feeling that he was indifferent to the world and very calm, unlike someone who would fight for the position of squad leader.

Chapter 2726: Campaign

"Then who will be the class leader?" Zhang Zhou said, and several people simultaneously looked at the girl sitting in the first row with a beautiful back and black hair.

There is no doubt that if Xiao Mingzhu runs for the election, most boys will vote for her.

And because Xiao Mingzhu's rank is too high—family background, figure, appearance, temperament, etc., girls can't be jealous of her. People will always be jealous of the people around him who live better than him, but if they are better than you a hundred times a thousand times, then you will only have admiration for him, and think that he should be good.

For example, a man would be jealous when he sees a dwarf ugly woman with a big beautiful woman by his side.

But if this dwarf and ugly is a rich second-generation with a mine in the family, he has also been admitted to a top university, and will take over the family's hundreds of millions of business in the future, but most people are balanced and think it is normal for the rich second-generation to be with beautiful women, Will not be jealous at all.

Xiao Mingzhu, she is now an excellent Bai Fumei, and she has a good personality, and she gets along with the girls. How can she be jealous?

"Mingzhu, do you want to be the monitor?" a girl asked in a rather loud voice.

The classroom suddenly became quiet.

"Yes!" Xiao Mingzhu turned to face the classmates in the back row, and said in a pleasing voice: "I think I can be a class leader and I want to make some contributions to the class."

As she said, she blinked big eyes at Li Yun deliberately, with a smile in her eyes, as if...what's the conspiracy?

Li Yun had a bad feeling.

"Haha, what else do we choose?" The girl laughed, "Mingzhu, you are so popular, all the boys look at their faces, and you are also a trustworthy among our girls... a rich woman!"

Many girls laughed. Whether it was Xiao Mingzhu's enthusiasm at the reception of freshmen, or after going to the dormitory, he took out a lot of snacks to the neighboring dormitories, and everyone treated her very much. Good impression.

Although Xiao Mingzhu did not deliberately appear to be rich, everyone could easily guess that her family was in good condition just by her dress and the self-confidence.

Coupled with some gossip, saying that she is the daughter of the richest tycoon in Zhonghai City, combined with her temperament, this kind of rumors can almost be confirmed.

"So, just choose Mingzhu directly as the monitor!" After the girl had finished speaking, everyone said that they had no objection.

"No, no, no."

Xiao Mingzhu made a cute gesture: waved her hand to refuse, and said playfully: "Let's vote according to the process. I think some classmates will have the courage to stand for the squad leader even if they know that they have no hope to beat me... , Li Yun!"

"I?"

Everyone swept over, Li Yun was stunned, this guy really conspired again! It dragged him!

"You also want to run for squad leader, right?" Xiao Mingzhu showed a sly smile.

"When will I..."

"Student Li Yun!"

Xiao Mingzhu smiled and said, "Don't be shy, take courage, stand up and run for squad leader!!"

"When am I shy... okay."

Under the threat of Xiao Mingzhu's squinted eyes, Li Yun raised his hand to surrender, saying that he would also run for squad leader.

But everyone in a class knows who should be elected as the class leader later.

Li Yun turned his gaze on Huang Guanying, who was about to move, and suddenly realized: "It turns out that Mingzhu's purpose is this... OK, let's run for the election!"

Chapter 2727: speech

Five minutes later, the counselor stood up and smiled to the classmates: "Now we start the campaign, please come to the stage to give a speech!"

Everyone, you look at me, I look at you, but there was silence for ten seconds.

"no one there?"

The counselor looked at Xiao Mingzhu, who just laughed and didn't plan to be the first to take the stage.

Everyone looked at Li Yun again, and Li Yun also shrugged and said that he had to wait.

It's just strange that Huang Guanying, who seemed to be interested in running for class monitor, did not come to power either.

"I!"

Wang Hao raised his hand, and then walked up to the podium in a vigorous manner. After writing the two characters "Wang Hao" on the blackboard with chalk, he turned around and showed a handsome smile to everyone:

"My name is Wang Hao and I am from Zhonghai City. I studied at Zhonghai No. 7 Middle School and I have been studying again for a year... I like fitness and martial arts. Of course, I like sports

like basketball, football and badminton. Welcome everyone who wants to go to the green field. Classmates come to tease!"

"My campaign slogan is: I don't want to be a monitor, but I want to be a sports committee (members cannot be used, omit it)!"

Everyone suddenly realized that his goal was not the squad leader, but the sports committee.

However, looking at his sturdy figure and well-developed thighs under his shorts, he is obviously very suitable for this sports committee.

"The sports committee will be elected later, first the squad leader, Wang Hao, don't you want to run first." The counselor laughed and scolded, and Wang Hao smiled, expressing understanding and obedience.

After having the first person to go up, the students behind are much more enthusiastic.

Although I know that I am definitely not better than Xiao Mingzhu, some of them are for training their speech skills, and some of the students have the same purpose as Wang Hao to show their faces in the future elections for class leaders.

After all, after the election of the squad leader, the subsequent elections for squad leaders are much simpler, and this time is a rare opportunity to be familiar with each other.

"My name is Anna Wang and I come from Qingjiang province. I have learned a lot of musical instrument knowledge under the cultivation of my parents since I was a child. When I was a freshman in high school, I took the piano eighth grade..."

"My name is Liu Hai. Well, that's the bang you think of. I come from a big city in the north... I have loved computers since I was a kid, and I participated in high school..."

One by one classmates took the stage to give speeches, and those who can be admitted to China Overseas University are not low in IQ. Many of them are from good backgrounds and come from big cities.

Li Yun even thinks that most of the students in the classroom can be rated as the five best students with comprehensive development in morality, intelligence, physical education, and art. Not as bad as those inferior or maliciously inferred by the media, good academic performance means low EQ.

On the contrary, the students of higher education institutions tend to play this aspect, and they are better than those of society who have not gone to college. For example, in the national electronic competition, most of the college teams have the last laugh.

Some awesome Xueshen even played games until twelve o'clock the night before the college entrance examination, and the next day they still scored more than 140 in the exam. Sometimes the natural gap between people is so helpless.

Fifteen minutes later, Li Yun also took the stage to give a speech, briefly introducing himself from Longyang County. Apart from a good IQ, there is nothing else he can tell.

All the classmates had an expression of "Don't try to cover me".

"Learning God!" Wang Anna, who was on stage before, a beautiful girl with a face of melon seeds, has a very good figure because of dancing. She raised her hand and asked curiously: "I heard that Yun Xueshen was doing a live broadcast. , There are millions of people who have given you gifts, it seems in the news that they made 5 million a day?"

Everyone had known about Li Yun's deeds, but now that he heard it with his own ears and saw the person Li Yun with his own eyes, the big guy couldn't help but wonder.

Chapter 2728: Dazzling bright pearl

five million!

What is this concept?

Ordinary people have a monthly salary of 10,000, and save them all without eating or drinking. It will take 41 years to save 5 million!

It's almost a lifetime.

Most ordinary people earn about five million in a lifetime, which still has to be deducted from daily expenses. Many people can't even save five thousand a month, and five million can almost only exist in a dream.

"Almost." Faced with the eager eyes of many classmates, Li Yun had no choice but to respond vaguely: "At that time, Shark tv took the initiative to contact me. I divided the gift money in full, which counted as advertising expenses, which was about 89 million yuan. so."

Eight or nine million...

The classmates in the computer science class exclaimed, looking at Li Yun with envy and admiration. Who doesn't love money?

"Ahem, I have used all this money to buy a house. The house in Zhonghai City is too expensive, and now there is not even a cent left for the live broadcast." Li Yun smiled ambiguously.

Jia Yongshuai in the back row shouted: "That's awesome, Brother Li, he bought a house in a super first-tier city when he was in college, which is a big step ahead of most people!"

Everyone nodded in agreement. It is the dream of hundreds of millions of people around the world to have a house in first-tier cities.

Xiao Mingzhu gave Li Yun a funny look, this guy would really change his concept.

The money earned by the live broadcast is not fake. It's not fake to buy a penny. It's just that the house bought by this **** is in Huangting Mountain. There are a large luxury villa with dozens of rooms, and there are many beauties in that villa. I booked the room.

For example, Jin Liuli, Xia Feiyao, Su Muxin, Shangguan Lingxian, etc., were upright, or secretly booked a room, and waited to live in when they were free.

"I'm finished, Mingzhu, to you." Li Yun stepped off the stage and smiled at Xiao Mingzhu.

Everyone lifted their spirits, and finally the "squad leader" spoke.

"Hello everyone, my name is Xiao Mingzhu and I come from Zhonghai Foreign Language School."

Xiao Mingzhu walked up to the stage generously and confidently and cheerfully wrote her name on the blackboard. Her voice was crisp and sweet, and everyone in the classroom could hear her clearly.

In particular, Xiao Mingzhu's speaking skills are very good, which makes people feel like spring breeze when they hear it. The beauty with bright eyes and teeth can firmly attract the eyes of the students in the audience.

"Xiao Mingzhu..." Huang Guanying stared at Xiao Mingzhu on the stage, this woman is simply the perfect girlfriend and wife in his mind, a thousand times better than the ***** he had a crush on in high school, ten thousand Times!

Regardless of family background, height, looks, and the sunny and outgoing personality, Xiao Mingzhu attracts Huang Guanying like a dazzling star. If it weren't for his ability, he even felt like he was holding up in front of Xiao Mingzhu. The courage to start is not dare!

Xiao Mingzhu is too good, is a nearly perfect goddess, has surpassed the so-called school flower category, has become the most beautiful goddess image in the minds of men and women!

The beauty of the country, the beauty of the country, the beauty of the country, and the words that describe the beauty can be placed on her, there is nothing wrong with her.

"...I," Xiao Mingzhu paused for a moment, and glanced at everyone: "Actually, there is nothing to hide. I also post it on q group Weibo or something. I have seen my own photos in many places, and I took them all. not bad."

The classmates and the counselor all laughed.

To hear people who are more famous than "net celebrities" say how they feel when they see their photos on the Internet, which is extremely novel.

Chapter 2729: Wanyuan Group Daughter

Xiao Mingzhu said again: "At the same time, I have seen many people use various methods to inquire, visually, guess, buy and sell, etc., to get information about human flesh."

Jia Yongshuai lowered his head in shame, he was one of the people who wanted to get information about Xiao Mingzhu.

"Some of the gossips came from my former classmates. The half-truths are outrageous. I don't intend to pursue anything. Since it has been exposed, I will announce it myself!"

Xiao Mingzhu smiled and said, "Presumably many people have guessed that my background is actually good, and I have some money at home. Well, my dad is Xiao Tianyuan."

More than fifty students in the computer science class were shocked to live.

The name Xiao Tianyuan belongs to the kind of top wealthy people who are known by 999 of a thousand people, especially the Wanyuan Plaza spreading all over the country, and it is the shopping and entertainment center of many cities.

Including pedestrian streets, star-rated hotels, office buildings, apartments, etc., a city's super business circle is constructed, and the money earned every day can be described as the daily income.

The Wanyuan Real Estate Group, which created the business model of Wanyuan Plaza, and its founder Xiao Tianyuan, naturally became the top richest people in the country, ranking among the top five every year.

Except for a few bigwigs of multinational companies in the science and technology circle, Xiao Tianyuan has already stood at the top of Huang Xuanguo's businessman.

As the daughter of Xiao Tianyuan, Xiao Mingzhu was born with a golden spoon in her mouth. It was completely born in a heap of gold, and she was rich and indescribable.

"Actually...it's nothing, really!"

Xiao Mingzhu took a special look at Li Yun. This guy is a hundred times stronger than her. He is the world-famous Li Chaoren and the chairman of the giant Baiyun Technology. Wanyuan Group is not enough in front of Baiyun Technology.

Baiyun Technology has truly changed the world, every move can cause a huge storm, making countless people panic, or their eyes are shining to cooperate, or they are screaming.

But Baiyun Technology stayed still and stood at the top of the technology circle, making huge profits every day around the world-well, it will be realized after its products are released.

In contrast, Wanyuan Group can only nest in Huang Xuanguo, pitifully.

I don't believe it, unless you give me your money.jpg

The students all made such an expression.

Xiao Mingzhu smiled, "Okay, okay, so I don't want everyone to say that I am rich and unkind, so I decided to cover all the activities of the class in the future, including class fees, costume fees for theatrical performances, various activities, spring outings and autumn outings. Graduation trips, etc., as long as it is the cost of group activities, I will cover them all!"

Everyone's eyes lit up, shouting long live in unison.

With such a super generous rich daughter in the class, how much money can they save in four years?

Besides, if there are activities, Bai Fumei of Xiao Mingzhu's level must be funded according to the highest standards, and they can enjoy various benefits as her classmates.

"Ahem!" Li Yun coughed and made an expression to Xiao Mingzhu.

"?"

Xiao Mingzhu thought for a while before reacting and hurriedly said: "Oh, yes, I am not bribing| choose, all the above'sponsorships', regardless of whether I am a class monitor or not, will be

provided as usual. The fee is collected every time. At that time, everyone only needs to give a token of one dollar!"

Everyone laughed. She was the squad leader before the election, saying that bribery|the election was too serious.

But the form still has to go through.

Chapter 2730: Tiger King Ability

After Xiao Mingzhu stepped down from the stage, he waited for another half a minute.

"Is there anyone else going to run for power?" the counselor asked.

The classroom was quiet, and everyone was playing with their mobile phones and communicating in low voices.

After Xiao Mingzhu's election speech, going up again is to really head-on with her. As long as his emotional intelligence is slightly higher, he will not be on the stage again, unless he really intends to run for the position of squad leader with Xiao Mingzhu.

However, as far as the current voting situation is concerned, Li Yunneng and Xiao Mingzhu are one or two, and the rest are several levels behind, and they are not opponents on the same level at all.

"Is there anyone else?" the counselor asked again.

Xiao Mingzhu, who was sitting in the first row, turned her head and blinked at Li Yun. His bright, big eyes hit a class of classmates, making the whole body numb.

"Oh my god, our monitor is really... too beautiful!"

"Hey, people like Li Yun can barely be worthy of her."

"Our two people are really a pair. One has good grades and earned a house through live broadcast, and looks very handsome. The other is from a good background, Xiao Tianyuan's daughter, she is just a beautiful girl!"

"Hey, I think the squad leader is very interesting to Li Yun. He looked back at him several times, and the look in his eyes...Don't you think it looks like the look in your boyfriend's eyes?"

The classmates were irritated by the look in Xiao Mingzhu's eyes just now, and they all called out dog abuse.

Huang Guanying, who was sitting in the second row, heard these words, a fierce look flashed in her eyes, as if she had decided something.

"Nobody? Well, let's start voting..."

"Yes! I want to run for squad leader!"

When the counselor wanted to stand up and arrange the election, Huang Guanying finally stood up and responded with loud words.

The students in the computer science class looked at him with surprise.

What's the matter with this boy?

Are you really planning to have trouble with Xiao Mingzhu, facing Gang?

"Okay, please wait a minute, counselor, let this classmate..." Before Xiao Mingzhu finished the scene, Huang Guanying stepped onto the podium and wrote her own chalk on the blackboard with great force. name.

Moreover, his name is not in the same place as before when he went on stage to campaign, but was placed on the other side alone, which is exceptionally different.

"My name is Huang Guanying, the crown of the champion, the hero of the talent!"

Huang Guanying looked indifferent, with an arrogant appearance, and said: "I am also from Zhonghai City, but I am from an average background, far inferior to a child from a good background like Xiao Mingzhu, and the family has millions of assets.

Everyone looked dumbfounded.

Whether it is his expression or his words, it makes people feel a strong sense of disobedience. This person is simply not in their class, and it seems particularly out of place.

"but!"

Huang Guanying uses resentment? envy? Fierce? In short, it was not a good look at Xiao Mingzhu, "I did not want to fall, but worked hard and got the opportunity to change everything in my life ten days ago!"

Everyone turned from dumbfounded to dissatisfied, and a boy yelled: "What did you say makes us degenerate? What did you do?"

"What did you do? Humph!"

Huang Guanying sneered at the corner of her mouth and raised her right hand to the crowd.

Everyone is unclear. So, what does this strange guy want to do?

But the next moment, everyone's eyes widened.

Huang Guanying's right hand suddenly swelled up, muscles bulged, and the palms became huge and covered with golden hair. The nails became sharp, and the muscles on the arms were like steel, full of explosive power!

His hand has become a tiger's paw!
