

Godly Choice 2761

Chapter 2761: Monster cannibal

"Will the people in the village agree to relocate?" A female classmate asked embarrassedly. Even they began to find it difficult to do. After all, there is no source of income, and moving to a small town will undoubtedly break their way.

Li Yun said: "I don't think it is a difficult point. As long as we catch a few monsters and show the mutated animals to the villagers, they will naturally understand the power of the mutated monsters, and I believe most of them will be willing to relocate! The small group of villagers who remain can hardly maintain a village, and they will follow when they feel lonely."

"Catch a few monsters..." Qiao Feilu took a surprised look at Li Yun, and then at the group of young college students, but could not find the person leading the team. The chief of the town government secretary jumped his eyes. Classmates, how about your instructor? Didn't you say that there are soldiers with guns here? Is it behind?"

"No, just us."

"Just you?!"

Another director of the town administration secretary who was fifty years old raised his voice by eight degrees and yelled: "Isn't this a silly thing! What can you group of college students do? It doesn't work well after a few days of practice. Zhonghai City is still big. The city, it turned out to be so messy!"

The people in the town chief showed dissatisfaction and felt that Zhonghai City was playing tricks on them.

"What happened to us?"

"We have also been in military training!"

"Besides, our squad leader and deputy squad leader are enough to deal with those monsters!"

"You country folks, don't look down on people!"

The underestimated classmates in the computer science class started talking, one by one, they were so excited. They were already eager to show off their skills after nearly a month of military training. They were all suffocating their energy, but they were scorned when they first came to Laohe Town. NS.

Qiao Feilu hurriedly finished the round, "We didn't mean that, it's just that the monster beast is powerful and fierce, I'm afraid..."

His words did not go on, and his mouth opened wider and wider, and he looked overwhelmed with shock.

The staff in other Old River Towns were similar, each of them stared wide in fright, looking at the crackling lightning in the hands of the young man named Li Yun in horror.

"Now you should have no doubts?" Li Yun asked faintly after extinguishing the lightning.

"No, no more!" Qiao Feilu and a group of people shook their heads, the eyes that looked at Li Yun had a trace of awe, and they didn't dare to question his words.

This time, Li Yun is not pretending to be coercive, showing his strength, it is always the best way to win others' trust.

"Uh, uh, Brother Li and Li Yun."

A Hua suddenly became excited, grabbed Li Yun's hand, and stammered excitedly: "You are, are you the supernatural being mentioned on the Internet? The kind of supernatural being that can kill monsters?!"

"Correct."

From his excited look, Li Yun felt a trace of unusual meaning.

"Then, can you take revenge and kill that monster beast for our Miki Village?!"

Everyone looked at him in surprise, revenge? How come there is a meaning of...dead?

Qiao Feilu was taken aback, and asked: "What's wrong with your Miki Village? Didn't you just meet monsters?!"

A Hua's face flushed, and after letting go of Li Yun's hand, for a while, he hesitated and said, "Actually...someone in our Sanmu Village has been killed by a monster!"

"What?!" Several staff members in Laohe Town panicked suddenly.

Previously, there were only reports that monsters were found in several villages. Some chickens, ducks and cattle were eaten by monsters, but there were no casualties.

But now Miki Village says that the monster beast has begun to eat people!

Chapter 2762: Go to

Cannibalism and eating domestic animals are completely two concepts. Once they see human blood, animals tend to become more vicious. This is the common conclusion of the villagers living near the mountain.

This is true for ordinary animals, let alone the more ferocious monsters, because monsters are also mutated from animals, so it is easy to conclude that after eating people, monsters will become more ferocious!

"What the **** is going on!" Qiao Fei recorded angrily, and said angrily: "Didn't I ask the village chief of your village to report truthfully? Why do people die without reporting it?! You Sanki Village really... don't kill anyone. Come on!"

The students in the computer science class also found it ridiculous, why didn't people report it when they died? The town didn't even know it.

The way of working in the countryside really opened their eyes to the students in these big cities. It is no wonder that the grassroots are hard-working and hard to start work.

A Hua was ashamed and embarrassed, and whispered: "Yes, the village chief and people discussed not to report, because the village will be forced to relocate, because the three dead people went out to die at night, as long as the night Close the iron gate..."

"Three are still dead?!" Qiao Feilu's voice became louder, and the whole person was furious, "No, I have to go to Sanmu Village myself. Your village is too ridiculous. Why did Lin Youde do it? I repeatedly told you. He...oh, I'm so angry!"

Qiao Feilu was still vigorous and resolute. After a brief discussion with Li Yun, he decided to take a person, along with Li Yun and other classmates in the computer science class, to take a trip to Sanmu Village.

"Is it too late now?" Wang Anna glanced at her phone, "It's all 3 o'clock in the afternoon."

A group of students looked at Xiao Mingzhu and Li Yun, waiting for them to make a decision.

Xiao Mingzhu said: "Since we are going to deal with monsters, it will be better to act at night, so let's leave some people in the town. Seven or eight will go to Sanmu Village together, and we will spend the night in the village with a tent. By the way Search for traces of monsters!"

The classmates did not object, and quickly separated seven or eight people to participate in tonight's action, while the rest were waiting to go to other villages. Anyway, there is always a day to deal with monsters.

The classmates who stayed in the town lived in a dormitory building of the town chief, while the others followed Li Yunxiao Mingzhu and Qiao Feilu, got on two vans and drove towards Sanmu Village.

"I wish the squad leader a victory~~~"

The remaining classmates smiled and waved to Xiao Mingzhu and others in the van. They were tired for a month and finally had a good rest tonight. Although the conditions in the town were a bit worse, they were better than during military training.

Moreover, they felt that the exercise was enough, and they just waited for the squad leader and deputy squad leader to lead them to complete the final task of this special military training, so that they could return to Zhonghai University early and start a happy study life.

That's right, after a month of hard military training, every student began to miss the days of sitting in the classroom and studying.

"You are also careful, don't run around at night, just stay in town."

Li Yun and Xiao Mingzhu went to Sanmu Village together, after all, neither of them was at ease.

"I know the deputy squad leader." A female classmate shouted: "Remember to bring the squad leader back safely~~~!"

"..."

Xiao Mingzhu's face flushed slightly.

In the past month, she didn't know how many times she had been in love with Li Yunxiu. Except for her undisclosed relationship, anyone could tell that the two were already in a romantic relationship.

Fang Xue, who was able to study finance, regretted it. She had secretly reported a major with Li Yun after knowing that the military training took so long.

Chapter 2763: Three locust trees

At 4:30 in the afternoon, after more than an hour of pitted driving, two vans arrived at Miki Village.

Along the way, Ahua and Qiao Feilu introduced the situation in the village to everyone.

Sanmu Village is surrounded by mountains on three sides in a deep depression. There are no people in a radius of 20 to 30 kilometers. There are about 120 households with a population of nearly 500.

Some young people go out to work, while the middle-aged and the old stay at home, farming and raising chickens, or go to the mountains to pick some wild yam and sell them in the market after drying. The annual family income generally does not exceed 20,000 yuan.

Yes, it is the annual family income, not an individual, nor a month, but a family earns less than 20,000 yuan throughout the year.

It is enough to see how poor Sanmu Village is.

Fortunately, Qiao Feilu also said that in recent years, young people have gone to work in other places, and they can save 10,000 or 20,000 yuan in a year. Unfortunately, after returning with the money, they play around, either losing at the poker table or participating in the red The funeral gifts are gone.

"You can only save 10,000 yuan a year..."

This data greatly shocked several students from the computer science class with good backgrounds. Their monthly living expenses alone were 3,000 yuan, not counting the cost of buying clothes and shoes in the four seasons.

They thought that even if they were migrant workers, as long as they were willing to endure hardships, they could earn 5,000 or 6,000, but they asked Ah Hua, who is also a young man, to find out that most people who go out to work can't stand it at all. They often work in a factory I came out in a few months, spent a few months in the rental house, and worked in the factory after spending almost the money.

In this cycle, working for only half a year in a year, you have to be deducted from wages, etc., three or four thousand a month, plus five insurances and one housing fund, basically get around four thousand.

Several students in the computer science class have not been able to speak for a long time. It turns out that poverty alleviation is not just empty talk, but a real existence. There are many urgent needs.

"Here, this is Miki Village!"

Two vans stopped at the entrance of the village, and Ah Hua jumped out of the car first, pointed to the village and introduced to the people.

Li Yun and others also got off the car one after another, looking at the village at the foot of the mountain, they felt relieved as they "jumped" all the way in the car.

This road was really exciting. It was so shocking that people's buttocks were split in half. The distance is long and some things need to be investigated. It seems that tonight can only live in villagers' houses or set up tents on open spaces.

Fortunately, when training in the barracks, the instructors have taught some methods of survival in the wild, including setting up tents and some vigilance skills, and they will not be in a hurry at night.

Li Yun observed the surroundings and found that there was nothing special. Sanmu Village was located at the foot of the mountain, with the rolling mountains behind it. The Baiduo households in the village were widely distributed, and there were three huge locust trees in the middle of the village. Very eye-catching.

"Hey, who are the three trees?" A female classmate also saw the middle of the village and cried out curiously.

"Oh, it's a locust tree."

Ah Hua explained: "I heard that the three locust trees were there before our village moved. It seems that they have been there for hundreds of years. Later, our village built the ancestral hall under the locust tree, so that we can bless the locust tree... ..Uh, the person who was killed by the monster is... there."

Speaking of the back, his voice visibly trembled.

He seemed to have seen the terrifying appearance of being bitten to death by a monster.

Li Yun asked: "Qiao Town|Chairperson, shall we go to the village head first, or visit the ancestral hall?"

"Go directly to the ancestral hall, I'll call the village chief!"

Qiao Feilu acted vigorously and quickly began to act.

Chapter 2764: Ancestral hall

The village road was difficult to walk, and everyone left the van at the entrance of the village. It was a remote place and was not afraid of being pried. They walked directly to the ancestral hall in the center of the village.

"In fact, the village used to be called Sanhuai Village. Later..." Ah Hua said hesitated.

"What happened later?"

"Some weird things happened later, and no one remembers what it was. There was a Feng Shui gentleman who said that it's not good for the village name to have Huai characters. Huai was a wooden ghost when it was disassembled, and the ancestral hall in our village was built in Huai. Under the tree, it is easy to be entangled by ghosts, so it was later changed to Miki Village!"

"No ghost?"

Wang Anna chuckled, "The countryside is superstitious. My mother was born in the countryside. Some of my relatives are also very superstitious, but I don't believe this. I think Sanhuai Village is better than Sanmu Village!"

Ahua chuckled and didn't know what to say. He could see that the college students in these big cities did not discriminate against the rural people, but the cities and the rural areas were originally very different, and the words would inevitably give people a feeling of offense.

Of course, there are indeed many backward places in the countryside. For example, they like to gossip, and they are not better than people. Therefore, many rural people are not willing to come back when they go to big cities. They prefer to nest in a house of tens of square meters in the city instead of anymore. Back to the countryside.

Being behind is the external reason, and the other reason is that I don't want to live in a place where my aunt's spine is poked at any time.

Xiao Mingzhu has never been in contact with rural life, she has not even been in contact with ordinary people's life too much, from kindergarten to high school are aristocratic schools, when she was a child, she was taught by teachers from top schools.

But she knew that Li Yun's background was not good.

So Xiao Mingzhu looked at him and asked, "What do you think?"

"What do I think?" Li Yun shrugged, "Cities and rural areas have their own ways of living. In my opinion, superstitions should be at ease."

"What the deputy squad leader said is reasonable." Wang Anna nodded and quietly glanced at Li Yun.

Xiao Mingzhu became vigilant.

She could see that Wang Anna had a great affection for Li Yun!

Of course, Li Yun didn't mean anything like that to her, at least not now.

"The ancestral hall is here."

Ah Hua walked quickly. After walking on the small road between the villages for less than three minutes, he came to the middle of the village halfway up the mountain, a place where dozens of families could be clearly seen at the foot of the mountain.

Li Yun looked around and found that the nearest house was 50 or 60 meters away, but the ancestral hall was surrounded by villagers' houses. In theory, if the monster came in during the day, it would definitely be spotted.

The ancestral hall is not big. It is just a room. After opening the door, you can see the tablets placed inside. It seems that it is because of a recent death that there are still joss sticks burning inside.

However, the three huge locust trees cover the sky and the sun, covering the sky above the ancestral hall, and completely blocking all sunlight, making this ancestral hall look a little gloomy even in daylight, and the inside is dim and dark.

Especially after opening the door, a few female classmates looked inside, and felt goosebumps on their arms, and they would definitely not dare to go in alone.

Qiao Feilu asked quickly: "Who is the dead person? Where did he die? What was the situation at that time?"

A Hua scratched his head, hesitated and entangled for a while, before hesitatingly said, "Yes, it's Dasha Lin's family."

"Dasha?" Qiao Feilu thought about it. He was familiar with several villages under Laohe Town. "This Lin Dasha reported the disabled allowance? I remember his intelligence is not very good, so he didn't go out to work... Wait, you are Say one?!"

Chapter 2765: A family killed

Qiao Feilu soon realized that something was wrong, not a big silly person, but... a family!

The students in the computer science class looked at Ahua in surprise, waiting for his explanation.

"Yes, right."

The expression on Ahua's face was very complicated, and she whispered: "About half a month ago, the silly lady, the person we call the silly sister-in-law, she went out alone in the evening and didn't know where she went all night. Going back, Dasha begged people from every household to help find them that night, but the villagers were worried about the monster beasts that had spread so much, so no one went out to find him with him."

"As a result, they were all killed?" Wang Hao couldn't help asking. If this were the case, it would really be a huge tragedy.

Because I can't accuse the villagers of being cold-blooded and going out at night is indeed dangerous. I can only say... unfortunate.

"not at all."

A Hua shook his head, "Dasha called his wife's name in the village all night, which made people panic, but he didn't encounter any monsters. On the second day, the villagers got up and looked for them together and finally... "

He looked at the back of the ancestral hall, his eyes also showed a purple color of fear, and tremblingly pointed there and said: "Finally there, I found a large pool of blood...Even the corpse was bitten and eaten by the monster. I don't know where it went!"

Everyone only felt that a chilly wind blew by, and the goose bumps started to rise in an instant.

"This is... too scary!" said a female classmate shivering with her arms folded.

"What the hell, the story told is like a ghost story." Wang Hao looked disdainful, and strode towards the back of the ancestral hall, "Isn't it just monsters that cannibalize people? I don't know how many such things happen all over the world. , That's why you have to move to a small town, otherwise this kind of things will only increase!"

"Young man, don't mess around, let me take a look first!"

Qiao Feilu quickly followed him to prevent Wang Hao from sabotaging the scene. He also brought an old policeman from the town, Cha Lao Lu, with him. Although he is not a forensic doctor, he has at least rich experience in handling cases. See if he can find any traces.

Everyone also followed, and came to the back of the ancestral hall together.

Li Yun glanced around at random, and saw a piece of mud on the ground with vague traces of being turned over. It seemed that the villagers did not want to see the blood of the victim, so they turned the soil down.

But perhaps it was panic, the flipping work was not done well, and some blackened mud was still faintly visible, indicating that blood had indeed been splashed here.

"It looks like a murder scene." Old Lu blurted out.

Murder?

A group of college students were surprised again, and looked at him one after another, didn't they say that this is a monster cannibalism?

Lao Lu explained: "Although I haven't seen it with my own eyes, I think that monsters can eat people very **** and fast. It is unlikely that the blood will be concentrated on one spot. Only when they are killed suddenly will they behave like this."

"Above." A Hua suddenly pointed to the top of his head, and everyone subconsciously looked up, only to find that the intertwined locust tree branches had cleared a large space.

"I also came to see it at the time." Ahua explained, "A big pool of blood, very scary. The villagers said that the monster is a leopard and likes to drag its prey to the tree and then bite it to death."

In other words, the blood on the ground is falling from the branches above the head...

Imagining that **** scene, a group of students from the computer science class shuddered again.

Chapter 2766: Lin Youde

Even though they were prepared, the horror of the monster beast was far beyond their expectations!

As a result, they couldn't help but look at the monitor and the deputy monitor again. They felt a lot more relaxed when they saw that the supernatural pair of handsome men and women remained calm.

Qiao Feilu frowned, "Why did you cut all the branches? You can't see anything at this scene!"

A Hua said embarrassingly: "Brother Kang... is the son of the village chief. He said that the **** picture behind the ancestral hall is not good, so we climbed up the tree and cut off all the **** branches with a machete. Inside Dasha's coffin."

Qiao Feilu frowned, "The head of Miki Village is too messy, and he has no sense of discipline. How can he ruin the scene casually."

More importantly, the person who died didn't even report it!

Li Yun said, "Who are the other two dead people? One is Dasha?"

"Yes....."

"What are you doing here?!"

When Ah Hua was about to say something, there was a violent shout from outside. Then, a sturdy and tall young man with four or five people walked in angrily. When he saw Ah Hua, he slapped his head and covered his face with a scream: "A Hua, what's the matter with you? How do you bring outsiders to our ancestral hall!"

The tone was vaguely fierce, and everyone could almost speculate that this was a role of the village tyrant.

In the past, the village tyrants would not explicitly bully the people in their own village, but secretly dominate and take advantage of the small gains. The villagers living here need to rely on the close relationship of the clan to form a group, so that they will not be bullied by these people too badly.

But it was obvious that Ah Wah had no right to speak in the village, and he couldn't hold his head up when asked by this overbearing, sturdy young man.

"It's me!" Qiao Fei recorded in a deep voice.

"Who the **** are you?! You know this is..."

The sturdy young man's words stopped, because he saw Xiao Mingzhu standing aside, that beautiful, elegant, noble and stunning figure, which immediately attracted all his attention.

A pair of eyes almost stared out, he had never seen such a beautiful woman!

A hundred times, a thousand times more beautiful than Dasha's wife!

"This is our monitor, does it look good?" Li Yun asked with a smile.

"nice."

The strong and fierce young man replied subconsciously, and then he suddenly felt that his right hand was electrocuted, and the strong sense of electric shock made him jump on the spot.

It made a scream like a monkey jumping up on the spot.

A group of classmates in the computer science class laughed. This guy's eyes were narrowed, and he couldn't do without a lesson!

"You, you!" The young man took many steps backwards, covering his wrists and looking at Li Yun in horror, "What the **** did you... just now?!"

"Something to punish irregular people." Li Yun said lightly.

A few people in Sanmu Village were at a loss. At this moment, another shout came from the ancestral hall: "Chief Qiao, are you here?"

"Dad?" The young man was overjoyed and hurriedly shouted: "Dad, here, come and teach these people from outside the village together with me!"

Several people walked in. One of them was wearing a white shirt that is rare in rural areas and wearing a pair of glasses. He looked a bit like a man in his forties.

"Dad!" The young man pointed at Li Yun, Qiao Feilu and the others and said, "These people came to our village's ancestral hall and charged me with an unknown thing. They are all damned and kicked out of the village! "

Chapter 2767: Face change

The man looked around at the people present. After seeing Qiao Feilu, his face changed and he slapped his son with a slap. Then he walked up to Qiao Feilu and said respectfully: "The mayor, why are you here?"

Qiao Feilu looked at him with a smile but a smile, "Lin Youde, your son is really amazing. Other villagers can't come to the back of your village ancestral hall, why? Sanmu Village or your Lin Youde family failed?"

"Don't dare, misunderstanding, it's all misunderstanding!"

Lin Youde smiled, turned his head and yelled, and drew his son over, he just pressed his head and bowed his head to apologize to Qiao Feilu.

"Forget it, there is no time to clean up you."

Qiao Feilu held his stomach and pointed at the traces of the renovation on the ground and asked, "What the ***** is going on in your Miki Village? Why don't people report it if you die?"

Lin Youde glanced at Ahua subconsciously. Was this guy reporting the letter?

A Hua's face changed and offended the village chief. In Sanmu Village, it was tantamount to offending the emperor. After this...

"Don't threaten others to me!" Qiao Fei recorded a face that became more gloomy, and shouted: "If you don't explain this matter well to me, you don't need to be the village chief!"

"The village chief, I didn't threaten him. I also know that Ah Hua is for the good of the village...but." Lin Youde's slightly gentle middle-aged man's face was full of helpless expressions, "The town chief, you also know, three of us. There are only ten poor families in Kimura, and at least half of the other people who rely on the mountain for food. If our village moves to the town, what will they eat? I have no choice but to discuss with everyone and conceal the dead. ..."

"Don't make excuses for me. The documents have already been issued. How did you learn?"

Qiao Fei was full of prestige, reprimanding a man who was nearly fifty years old so that he couldn't look up, and also made a group of college students who had never seen the world looked at him for a while.

An official the size of a sesame, even in charge of so many things, the pig is beyond their expectation.

"All right."

Li Yun stopped these meaningless behaviors and calmly said: "The important thing now is to understand the situation and prevent the monster beast from entering the village to eat people again. If you have anything to do, wait to catch the monster beast!"

"Uh, yes." When Qiao Feilu faced Li Yun, he changed his expression and attitude, with a vaguely respectful expression, which made the people of Sanki Village start to wonder what Li Yun's identity was.

"Student Li Yun, I now call someone from the police station to assist in defense?"

Qiao Feilu looked around the village and said worriedly: "There is no natural danger in this village. I am afraid it will be difficult for you college students to defend everything."

Li Yun asked: "Aren't there monsters in other villages? Can the civilians and police be transferred?"

Qiao Feilu hesitated a little, and Li Yun nodded clearly, "Then don't tune in, stay in the town to protect other people. Mingzhu and I can fight alone. Ordinary monsters are not a problem. In addition, our planners Classmates can also assist in vigilance!"

Qiao Feilu was startled, and looked at the slim and big beauty: "Are you also a supernatural person?"

stranger?

The people in Miki Village who were listening to the side were stunned. It seemed that they were the people who gained strange powers on the Internet? !

"Yes, me too."

Xiao Mingzhu smiled, stretched out her tender palms in front of the crowd, and then, a bottle of mineral water appeared out of thin air in her slender and graceful palms.

"what!"

Chapter 2768: The world is changing too fast

The people in Miki Village were so frightened that they stepped back a few steps. This scene was amazing!

But Anna Wang's eyes lit up and said, "Squad leader, I am funny and thirsty. Is the milk tea I bought before still available?"

"Want to drink?"

"Hmm." Wang Anna nodded repeatedly.

Xiao Mingzhu gave a chuckle, threw the mineral water to Li Yun, and again took out a bottle of milk tea out of thin air and handed it to Wang Anna.

The people of Miki Village took a closer look, and the milk tea was clearly frozen. It was definitely not a magic, but a wonderful ability!

Several girls in the computer science class whispered around Xiao Mingzhu, with a smile on their youthful and invincible faces.

"Wow nice!"

"The squad leader's spatial ability is so powerful, I think it is better than any other ability! It is amazing to be able to store things at any time, take it out and save the state when you put it in!"

"Yes, yes, the squad leader has a full 10 cubic meters of space, which can store tons of things!"

"Woo, if the world is doomsday in the future, squad leader, you must remember to put more food in."

"The Crow's Mouth, what the end of the world does not exist!"

Three or four little girls cheered for Xiao Mingzhu's spatial ability. They have seen the monitor use this ability many times. Even the luggage of everyone is stored in it, such as tents, food, pots and bowls, etc., but Every time I see it, it still feels amazing.

The people in Miki Village listened to their discussion, all of them were stupid in place.

"Space power...?"

Qiao Feilu watched Xiao Mingzhu in shock for a long time, and then said with difficulty: "The world has changed so fast. What used to be only in movies has now become a reality...Well, Li Yun, Xiao Mingzhu Classmates, it's up to you to solve the monster cannibalism this time. We in Laohe Town will definitely assist you with all our efforts!"

A group of classmates in the computer science class were full of proud expressions, as if Qiao Feilu praised the monitor and deputy monitor just like they were praised.

Li Yun nodded, and humbled: "I can't say that. After all, we have little experience. We still need someone like the mayor to lead us."

"Hahaha, it's easy to talk, let's work hard together!"

The supernatural player was a little flattering, slapped Qiao Feilule, and patted his chest to ensure that he would do his best to do it.

Li Yun smiled, not minding these trivial matters, turned around and searched behind the ancestral hall.

Xiao Mingzhu followed and walked around with him.

"These guys...!"

When the village chief's son, Lin Tiankang, the presumptuous young man before, saw this scene, there was a trace of cruelty in his eyes, but he soon hid.

Against the unknown abilities, he didn't have the guts yet.

"I'll go up and take a look."

Li Yun jumped onto the locust tree lightly, causing a group of people to exclaim.

Xiao Mingzhu also jumped up. She was wearing a pair of trousers and was not afraid of running out. Perhaps it is because the relationship with Li Yun is getting better and better, she now particularly likes to follow Li Yun to act together, quite a bit like husband and wife.

"Li Yun, what did you find?"

"...Nothing."

Li Yun shrugged, "The scene has been completely destroyed, and the monster beast should be very weak. Ten days have passed without any trace of the evil spirit, how about you?"

Xiao Mingzhu looked at a group of people from Sanmu Village below, biting Li Yun's ear and whispered: "I always think this thing is a bit weird, it can't be said why, but I just think it's not that simple!"

Chapter 2769: Three dead

Li Yun nodded, he felt this way too.

Village head Lin Youde really only did it for the good of the villagers, so he didn't move out?

Judging from the arrogant and domineering performance of his son Lin Tiankang, Lin Youde, the village chief, is not a good person.

But now everything is just a guess, Li Yun still treats this matter as a monster cannibalizing.

"Ahua."

Pulling Xiao Mingzhu's small hand back to the ground, Li Yun called Ahua over and asked him, "I didn't have time to ask you before, who are the other two people who died?"

"What are you asking about?!" Before Ahua answered, Lin Tiankang looked over with caution.

Li Yun glanced at him faintly, "You are so nervous, is the death of Dasha's family related to you?"

"how is this possible!!!"

Lin Tiankang yelled, his face full of hurries and horror, and he made a vicious look: "Don't **** talk, how could I kill people! Their family was killed by monsters, besides, my family was also killed by monsters. It's dead!"

"Your family is dead too?"

Li Yun, Xiao Mingzhu, and Qiao Feilu all looked at him in surprise.

"Grass!" Lin Tiankang yelled, "Why should I tell you this? Do you think it's a superpower? I don't want you!"

Qiao Feilu directly turned his head and asked Lin Youde, the village chief, but his tone eased a little: "What's going on? Your family... also encountered monsters?"

Lin Youde looked sad and replied: "Yes, my second brother also encountered a monster. He just bought a pack of cigarettes from the commissary, but he never came back. He waited to find it the next day, but he couldn't find it. When I arrived, I only saw the cigarettes he just bought on the road in front of the ancestral hall..."

"hiss!"

Several male students in the computer science class took a sigh of relief, and were actually taken away by the monster beast that looked like a cheetah directly on the road. They didn't even make a scream, which was enough to show that the monster was powerful.

Several girls were frightened again, and they shrank tightly beside the deputy squad leader, not daring to leave.

In addition, it is already evening, the sky in the mountain village is dimming quickly, the dense branches of acacia tree above the head block the sun, and the blood on the ground is the blood of a woman after the murder. All these factors add up to make the atmosphere here more and more. Eerie.

"Go out and talk about it."

Li Yun clapped his hands and signaled everyone to go out and talk to the front of the ancestral hall.

When a group of people returned to the sun, they felt the cold breath dissipate, and their skin was illuminated by the afterglow of the setting sun, quickly regaining warmth.

"Ahua, tell me what happened." Li Yun said, "If you don't elaborate on it, you can add it to the village chief."

There was a hint of order in his tone, but no one dared to object, Lin Youde could only nod his head in agreement.

"Yes, it is. That night, Dasha's sister-in-law went out for some reason..."

Through Ahua's narration and some of Li Yun's questions, outsiders such as Ji Keban and Qiao Feilu finally understood what happened.

Everyone in the village is surnamed Lin, but few people remember Dasha's name, and no one cares what his name is. They usually call him Dasha.

The wife he married is naturally called the big silly sister-in-law.

This big idiot was strange, she was very beautiful and had a good figure, but she didn't know why she was living in Laohe Town. She happened to be met by the big idiot who went to the town to buy food, so she brought her back to the village. Become a husband and wife under the witness of elders.

Chapter 2770: Die in love

At first, the people in the village thought that Dasha's wife was abducted, but then her family found it. They were from other counties. They actually recognized the marriage and paid for a building for the young couple. Red brick house.

Since then, the two have lived the lives of husband and wife, although Dasha has a lower IQ, he is better than having a lot of strength. He never froze in his work, and his days passed.

It's just that the people in Miki Village still find it strange that this silly sister-in-law is beautiful, not stupid, and has gone to high school. The family conditions are not bad, so why marry a fool?

then.

There is a rumor circulating in the village: This big silly sister-in-law was probably raped and defiled. She could not lift her head in front of her acquaintances before leaving home and wandering to Laohe Town. No one here knew her. Stupidly picked it back home.

Speaking of this, Ah Hua looked a little embarrassed.

Wang Anna said angrily: "Why do you say that?"

A male student from the countryside said quietly: "This is the countryside. You can't stop others from talking about you behind your back."

The people in Sanmu Village didn't speak, but they didn't have a good impression of these urban people. Why do they condescendingly accuse the rural people? If the big silly sister-in-law hadn't been damaged, would she marry a fool?

Li Yun did not express his opinion. Although he was dissatisfied with the grievances passed by the villagers, he also knew that this was a stubborn disease of the rural people. Which village did not have a group of people sitting and chatting?

If you don't join them, they will start talking about your home in the next moment.

"How did the big silly die? It was also eaten by the monster?" Li Yun asked.

"no."

Ah Hua's expression became more and more unnatural. After hesitating for a long time, he said in a low voice: "Three days after his woman died, Dasha... One night, she came to the back of the ancestral hall alone and hit her head on the big locust tree... "

Everyone was so shocked that they could not speak for a long time.

Die in love.

These two words have not appeared for a long, long time. They have watched too many news on the Internet such as One Night Love, One Hundred People, Three Boats, Green Hat, etc. Modern people have picked up feelings as if they were picked up, and can discard them at will. Plaything.

But now they are in a remote mountainous area of the motherland, in a very backward village, in a person called a fool with an IQ, they have heard the word "sacrifice"!

This was enough to move the people who heard it. Although they had not seen the Lin Dasha and his wife in person, their love has deeply affected everyone present.

"It's a pair of hard-working men and women. We will catch that monster and avenge them!" Li Yun glanced at Lin Tiankang with an unnatural expression, and asked: "After that, the village chief's second brother is in the ancestral hall. Captured nearby?"

"Yes."

A Hua replied, similar to what the village chief said before, he disappeared after buying a pack of cigarettes.

Xiao Mingzhu said strangely: "Three people died in your village in just half a month, so you can still sit still? Why don't you agree to relocation? Staying in the village will only kill more people!"

Village Mayor Lin Youde looked a little stiff, and said vaguely: "We are also discussing whether to move, mainly because the old people in the village disagree, saying that the two who died are going out at night, as long as everyone is fine at night, don't go out...Moreover We have machetes and earthen guns in every household, and ordinary beasts can't hurt us."

Li Yun was speechless, "Monster and Beast are completely two concepts, and your earth gun bullets may not be able to injure it!"

"I don't want the soil gun, just your ability?"

Lin Tiankang retorted with a sneer.
