

## Godly Choice 2771

Chapter 2771: Another dead

Li Yun smiled and raised his hand.

As a result, before raising his hand, Lin Tiankang fled as if he had been electrocuted, hiding far away, making the classmates in the computer science class laugh.

Wang Hao chuckled and said, "You guy wants to fight with our deputy squad leader, and want to chase our squad leader? It's a toad who wants to eat swan meat. Get out early. Be careful that Brother Li electrocutes you with one finger, right, Brother Li? "

Li Yun spread his hands innocently, "You probably have all misunderstood. I just want to say that someone is coming. Seeing his eager pace, it seems that there is still something urgent."

He pointed his hand to the distance, and everyone followed, and he saw a young man under the age of seventeen or eighteen running anxiously, his face seemed a little panic, and he exclaimed all the way: "Uncle, Kang, it's not OK. , Me, me, my mother..."

He was panting, and couldn't tell the rest, but judging from his trembling and cold appearance, it was definitely not a good thing.

Li Yun and Xiao Mingzhu looked at each other, and both had a bad feeling.

Lin Youde stepped forward to grab him, his pupils dilated, and he asked: "Calm down! What's wrong with your mother?!"

"Me, my mother, she...dead!" The young man burst into tears, and the people present were shocked by what he said.

died?

How did you die?

When did you die?

Before it gets dark, the monster beast will come out? !

"How could my younger siblings...what happened?" Lin Youde was stunned.

The young man cried and said, "My mother is very weak these days. Uncle, you know, you also asked me to accompany her, but in the end my mother got up in the morning and said that she saw my dad. At noon, she went back to bed by herself. At 3 o'clock in the afternoon, I went to see her. She was still lying on the bed well, but just now, I went to see... My mother was already hanging on the ceiling fan, and the ceiling fan was still spinning. Turned."

Everyone only felt a chill pour in from the head, and it was cold all the way to the soles of their feet.

They seemed to see a middle-aged woman who was hung on the ceiling fan with a white rope. The ceiling fan was opened for some reason, and it kept turning the stiff corpse.

Like a spinning top, the picture is both ridiculous and inexplicably weird.

"Li, Li, Li Yun!"

Xiao Mingzhu approached Li Yun unconsciously, while other female classmates approached her unconsciously, and a group of girls were scared to face pale.

Of all the ways of death, hanging is the most frightening, terrifying, and full of grievances. It seems that the deceased has an endless resentment towards the world, so he chooses to hang himself directly in the house and use a bleak death to protest the injustice of the world. .

Otherwise, when a person commits suicide, he can choose to leave his home, throw a river, fall off a cliff, drink pesticides, etc. It is much better than hanging himself directly at home.

Especially when you die in your own home, it seems that you are already extremely dissatisfied with this family, so you hang yourself!

In folklore, women who die like this often turn into ghosts to haunt the family, leaving them uneasy forever!

"It's fine."

Li Yun comfortably held Xiao Mingzhu's small hand. This cheerful and generous girl had seen an extremely powerful monster, but she was still frightened by the way she hanged herself, which proved how weird it was.

"Lord Joe, let's go and see."

Li Yun said to Qiao Feilu that the latter was probably the first time he had encountered this kind of thing, and seemed a little flustered. Li Yun only reacted after calling him a few times.

Chapter 2772: Choice, weird

When this happened, everyone did not dare to leave alone, so naturally they chose to act together and go to the home of the young man.

The group left the ancestral hall with a heavy heart. Li Yun looked back and saw that the ancestral hall, which was embraced by three huge locust trees in the setting sun, had been submerged in the darkness, like a weird \*\*\*\* mouth, swallowing Sanki Village in...

"Li, Brother Li."

Wang Hao approached, after swallowing, his teeth trembled, and he said in a low voice: "This village is a bit wicked. Four people died in a row in less than half a month, and the way they died was different. We Do you want to report it to the counselor?"

"Do you want to withdraw?" Li Yun asked.

Other classmates also looked over, not knowing what they thought.

"No, I just...hey, I can't hide anything from Brother Li." Wang Hao admitted with a bitter face, "Anyway, I think it's very evil. We can't handle this matter. We should wait. The provincial capital will send professional people to solve it, right?"

"Ding, trigger the option event, please choose from the host:

Option 1: Agree with Wang Hao's suggestion, leave quickly, reward skills: it doesn't matter to hang up high (passive, increase the chance of escape), the prestige value in Huang Xuan country is reduced.

Option 2: Leave to investigate the cause of the matter, catch the real murderer, reward to be determined, colorful gift bag\*1, additional reward event: The mystery of Nie Xiaoqian's life experience (2).

Option 3: Forcibly interrupt the event, immediately let the people of Sanmu Village relocate, reward justice value + 1 million, all attributes + 5000, colorful gift bag \* 2, aura value + 200,000, additional reward: money \* 18.88 million. "

The long-lost system prompt caused Li Yun to slow down. The rest of the people didn't know, so they thought he was really moved by Wang Hao's proposal and wanted to leave.

Qiao Feilu couldn't help but look down on Li Yun a little bit. Although this young college student is a thunder and lightning ability, he is still very immature after all. It is excusable to run away after hearing this!

He is still going to ask the martial arts department in the county to deal with the monsters here!

But Li Yun is actually a headache for these three options.

It is definitely not his style to leave directly.

However, Option 2 inexplicably rewarded Nie Xiaoqian's life experience mystery event. He came (2) before he did (1). Could it be that the system reminded him that it is time to have a good chat with Nie Xiaoqian?

Choice three is a good choice. No matter what weird place in the village, it is the best choice to move out as soon as possible. The system also rewards 20 million with thoughtfulness, which is estimated to be for the smooth progress of the relocation.

It's just that they will be willing to move out immediately?

Li Yun looked at the village head here and asked directly: "If you are asked to move out tomorrow, would you like it?"

"this....."

As soon as he talked about moving away, the village chief Lin Youde froze and said that a whole village meeting was needed to discuss together, but it was too late tonight. Every household started to close their doors and could only wait for tomorrow. .

"Waiting for tomorrow, I don't know when to wait..." Wang Hao muttered, obviously not believing that these villagers would move out honestly.

After all, of the four people who died now, only two died because of monsters, and they all died when they went out at night, not because they were attacked by monsters.

People always have a fluke mentality. Before the monsters appeared, they always thought that they could be solved with guns.

Chapter 2773: Do evil (part one)

Li Yun had no choice, unless he used his powers to force the villagers to relocate, otherwise they could only catch the monster beast and show the horror of the monster beast to the villagers before they were willing to relocate.

"Let's go, let's see what's going on."

The group again rushed to the southeast of the village in silence. On the way, Xiao Mingzhu wanted to ask several times, but in the end he didn't ask.

The village chief's second brother is named Lin Youcai. There are three children in the family, two men and one woman. In recent years, he has made a lot of money by doing business. The house is a small three-story villa in the village.

Standing in front of his house, a classmate from the computer science class looked up and found that although it was a small villa, the decoration was average, and it was no different from the rural houses under the county seat of Zhonghai City.

At this moment, Lin Youcai's house was surrounded by seven or eight people, with a gloomy look. When the village chief came, he immediately greeted him, but when he saw Li Yun and a group of college students, he was shocked again.

"The village chief, these people are...?"

"Oh, it's a college student from Zhonghai City."

Lin Youde only gave a brief introduction, without even introducing the name of Xiao Mingzhu, the monitor of the squad, so he ignored it and recorded Qiao Fei into the door.

Li Yun and Xiao Mingzhu glanced at each other. It seemed that the village chief didn't say anything on the surface, and he probably didn't want to see them in his heart.

"This guy... Damn it!" Wang Hao brightened his fist, very dissatisfied with it.

After Li Yun stopped him and left some classmates on guard downstairs, he and Xiao Mingzhu, as well as Wang Hao and Wang Anna two class leaders went upstairs.

On the way, Li Yun reminded them that they might see the corpse, and they must be psychologically prepared!

"I, I'm not afraid." Wang Anna tightly grasped Xiao Mingzhu's arm and said with a reluctant expression: "I participated in several rural funerals when I was a child, so I'm not afraid of these."

Funerals in rural areas are more casual, and the corpse may even be placed in the mourning hall, and then put in the coffin after people come to express their condolences.

Li Yun nodded and said, "Don't worry, with me, all monsters and ghosts will be fine!"

Wang Anna looked at him immediately, Xiao Mingzhu glanced at Li Yun, this guy is really gentle, it's no wonder that he can capture her... No, the rest assured of capturing so many girls.

The four of them went up to the second floor, followed Qiao Fei into a room, only saw the situation inside the room.

In the dimly lit room, the incandescent lamp was on, the curtains were closed tightly, and a middle-aged woman covered with a quilt was lying on the bed. The head was covered with a white cloth, showing her identity as a corpse.

Wang Anna pulled Xiao Mingzhu, lowered her head and didn't dare to look at it, and of course she didn't dare to step forward.

As for Wang Hao, he hesitated for a long time and didn't go to the bedside, just waiting for Brother Li to investigate.

"Oh, this is really..."

Qiao Feilu sighed, asked Lin Youde's son Lin Tianhao some questions, and chatted with the Sanmu village elders in the house, and he was basically sure that this was indeed a suicide case.

"I'll take a look."

Li Yun stepped forward. The clan elder and Lin Tianhao wanted to object, but Qiao Feilu waved his hand to stop them, saying that Li Yun could do these things.

When Li Yun came to the bed, he smelled a smell of urine and stink, which was very disgusting, but in order to confirm, Li Yun could only pinch his nose to recognize it.

This is when the hanged person was about to die and was unable to control his sphincter, causing incontinence. From this point of view, the woman was indeed hanged, not suddenly killed.

Lifting the white cloth with his fingers, Li Yun saw a blood-red, hideous and weird middle-aged woman's face.

Chapter 2774: Do evil (part 2)

She stared at her pale eyes and looked straight ahead, as if there were endless grievances waiting to be cleared away.

"what!"

Qiao Feilu, who saw such a horrible scene for the first time, was so frightened that he took a few steps backwards, hitting the table and making a few clanging noises, making Wang Anna even more frightened, who had not dared to step forward.

The clan elder sighed and said: "The hanged people are indeed terrible when they die. The first time I saw them, I was scared. Alas, what a sin was done, this is so good...our village died four times. Personal!"

Wang Hao murmured, "Let you move away or not, is something wrong now?"

This sentence made several people from Miki Village glared at him.

Lao Lu, who came with Qiao Feilu, stepped forward and turned the neck of the dead woman with his eyes open, nodded, and said: "The neck groove is purple-red, the face is bloodshot due to lack of oxygen, and there are still scratches on the neck. The mark is caused by the deceased being struggling and grabbing his neck with his hand when he was strangled.

Although I am not a professional forensic doctor, I can roughly tell that I actually committed suicide by hanging myself. "

"Mom!!" Lin Tianhao, Lin Youcai's son, the young man who had previously reported the letter burst into tears again, making everyone feel heavy again.

Xiao Mingzhu let go of Wang Anna's hand, and boldly stepped forward to take a look, but did not speak, but stood behind Li Yun.

Qiao Fei walked forward, closed the eyes of the deceased with his hands, covered the face of the corpse with a white cloth again, and stood at the door to talk with the bed away from Li Yun and others.

After some inquiries, I learned that the deceased was depressed because of his husband's death. He hadn't eaten much for three consecutive days and had never been out. As a result, he couldn't even think about it...

It's just that Li Yun feels puzzled that even if the couple's relationship is good, they shouldn't commit suicide in this way. Not to mention that the way of hanging suicide seems too direct and cruel, and she had three children, so she died just like that?

"Did she hang on the fan when she died?" Li Yun looked at the ceiling fan in the house.

Generally speaking, there is no fan in the bedroom, only in the living room and dining room, but somehow this family has installed a small ceiling fan in the bedroom.

"Yes." A relative of Lin Youcai answered with help, "I heard the baby's yelling at the time, so I ran to look at it and saw the third wife hanging on the ceiling fan. It was too scary. The ceiling fan was still shocking. While turning, I quickly turned off and put Sansao down, and when I touched her feet, it was already cold."

Li Yun frowned and looked at him: "Why are you saying so weird?"

"What?" The relative was still a little confused, and didn't realize what was wrong with his words.

When everyone saw it, Xiao Mingzhu also realized the problem and asked instead of Li Yun: "Your words are really strange. First of all, you said that when the deceased was hung on the fan, the fan was still rotating, but even if the ceiling fan was small, it turned faster. Soon, if the deceased commits suicide, how can he turn on a fan?"

The man looked dull, and he realized it after a while, "Yes, if Sansao committed suicide, she must have turned off the ceiling fan... But I did see that the ceiling fan was rotating, and there was a rope hanging on it. , Hanging Sansao, going round and round, the thief is scary..."

Everyone felt weird and scary just by imagining the scene, but they felt it was outrageous.

Why is the ceiling fan still spinning? Is it a leakage, accidental opening, or is it not a suicide? But after the murderer killed Sansao, then hang it up?

Either way, it's creepy.

Chapter 2775: Puzzled

Li Yun's eyes flashed, and he asked in a deep voice, "Are you sure that the ceiling fan was still rotating at that time?"

"Yes, you have to be sure!" Qiao Feilu also said: "If the ceiling fan is turning, this incident cannot be simply regarded as suicide. I must remember it clearly!"

The clan elder and one of his relatives all looked over and made the person cold sweat. After half a day, he vaguely replied: "Okay, it seems to be on, but the rotation speed is very slow, and it may be turned by the wind. , But I... seemed to press the switch, the ceiling fan was..."

After being watched by so many people, he began to be vague, obviously unwilling to take responsibility.

"You really are!" Wang Anna said dissatisfied, "Isn't it better to make it clear?"

"This...I can't make it clear!" He stamped his foot and became anxious. "At that time, both Tianhao and I were terrified. When I saw the ceiling fan was turning, I subconsciously pressed the switch, and I didn't remember whether I pressed it or not. In the middle, Tianhao cried and hugged his mother's feet. I ran to the kitchen downstairs to get a knife and cut the rope. I still remember it so clearly."

After hearing so many details, Wang Anna didn't say a word. She felt that this situation was similar to her.

Li Yun glanced at the rope placed in the corner and asked, "Is this rope at home?"

"Yes, this is for tying an ox cart, it belongs to Sansao's family."

The answer was another relative. Lin Tianhao had temporarily gone to his cousin's house because of excessive sadness. The same was true for his two younger siblings, and they never came back to see their mother.

If it is a suicide, it is likely to be buried hastily. When the coffin is almost in the ground, the child will be called for the last ride.

Wang Hao said to himself: "That is to say... Actually, it is not certain that the ceiling fan was still spinning at the time, but the problem comes again. If someone killed deliberately, why would the murderer turn on the ceiling fan again? Brother Li, you What do you think?"

Li Yun shrugged. He is not a professional detective, let alone a pupil of Death, so he doesn't know anything about this kind of problem.

Xiao Mingzhu asked again: "At the time, you said that it felt cold to touch the feet of the deceased? But this is also a problem. Lin Tianhao said that he went to see his mother at 3 in the afternoon. It was fine at the time, and now..." she saw I clicked on the phone, "It was just after six o'clock in the evening, and only less than three hours passed, there should still be body temperature remaining on the corpse."

After a person dies, if it is at room temperature and is still wearing clothes without being soaked in water, usually the temperature of the body will drop by one degree an hour.

The human body temperature is 37 degrees Celsius, and the longest time to death is only three hours. In theory, the deceased still has a body temperature of about 30 degrees!

But he said that the feet of the third wife who had hanged herself were already cold.

The man glanced at the corpse lying on the bed, and said tremblingly: "Also, maybe I was too panic at the time, not sure if it was cold."

"You can go and see it now, too," Xiao Mingzhu said, and after seeing the crowd, everyone looked at her instead.

After all, it is difficult for a man to check, and aunt and aunt dare not come up, only she is the most suitable.

After hesitating, after taking a look at Li Yun, Xiao Mingzhu decided to test the corpse in person. Both Wang Hao and Wang Anna admired them. The squad leader was too bold.

"I'll be with you."

Li Yun followed Xiao Mingzhu to the bed and did not go to see the person on the bed. Xiao Mingzhu folded his hands and bowed to the corpse and said, "Auntie, I'm sorry."

Chapter 2776: It's cold

After speaking, the beautiful and generous girl took a deep breath, and slowly put the book into the quilt.

"cold."

Xiao Mingzhu spoke out subconsciously, and then looked at Li Yun, "Want to try the temperature inside the clothes?"

She still feels a little bit responsive to touching the skin of the corpse in person...

"No need."

Li Yun took her away, and Xiao Mingzhu hurried to find water to wash his hands. Although it wasn't dirty, she couldn't make it through psychologically.

Touching the quilt is to find out the truth, but it's okay.

"Why is it cold?" The clan elder also felt puzzled. The dead elders in the village stiffened after leaving their bodies all night.

"Lin Youcai's son lied?" Qiao Feilu quickly found the suspect.

Lin Tianhao said that when she went to see his mother at 3 o'clock, she was still in bed. If it was true, it would not match the current situation where the body is getting cold.

This proves that Lin Tianhao is lying!

"This kid... can it be said." The clan elder and several relatives were taken aback, and even the village head Lin Youde's muscles jumped.

Lying means that Lin Tianhao...killed his mother!

"uncertain."

Li Yun shook his head, "Lin Tianhao said that his mother has not eaten and slept well for several days. It is normal for people in this state to have cold hands and feet."

Xiao Mingzhu looked at the corpse on the bed again, feeling that it would be better for him to reach in and feel the temperature inside the clothes.

Li Yun grabbed her, don't let her do these things, after all, Xiao Mingzhu had already washed her hands before, showing that she actually had some mental disorders.

It is not appropriate to let her do these things.

"Lin Tianhao wants to ask, but now the more important thing is to prevent monsters from entering the village again." Li Yun looked at Qiao Feilu, "The mayor, you go to arrange these things, while it's not dark now."

"Yes, yes, I will immediately go to each house and give a warning, let them lock the doors and windows at night, and use things to completely block them!"

Qiao Feilu hurriedly went to warn each household with Lin Youde, the village chief, and the remaining relatives looked at each other a few times, and they all dispersed.

The situation in Miki Village now makes it impossible for someone to deliver the coffin, and there is no way to do funerals, so I can only wait for the next day.

The interior of this three-story rural building was instantly deserted, and there were only Li Yun four people upstairs, and five or six classmates downstairs followed the village chief to help.

The temperature seemed to drop by more than ten degrees out of thin air. Wang Hao hugged his arms and trembled. Wang Anna followed Xiao Mingzhu closely. The two dared not look at the room where the corpse was stored.

"Li Yun, did you find something?" Xiao Mingzhu became nervous. After the others had left, she realized that the room with the body of the hanged person was so terrible.

In particular, rural areas are different from cities. It will be extremely dim at night. The surrounding people are a bit far away, and all the houses close their doors, which makes people feel even more terrible.

This is also the reason why people who are used to the city and the hustle and bustle can't go back to the countryside. It's too deserted!

"There are some discoveries, but very weak."

Li Yun entered the hanged man's room again, Xiao Mingzhu and the three dared not stay outside, and followed in.

At this time, only Li Yun can bring them a sense of security!

"Mom, it's really scary." Wang Hao whispered.

Just less than three meters away from him, the third sister-in-law who hanged herself was lying on the bed, with a white cloth covering her face, silent, and exuding a silent and strange aura.

## Chapter 2777: Yin Qi

The two dared not come close, Li Yun did not ask, and Xiao Mingzhu went forward, reached out and lifted the quilt on the corpse.

Everything was as usual, only the stiff corpse inside, wearing a checkered pajamas worn by a rural aunt, her figure was already a little blessed, ten fingers bent into a grasping shape, as if still struggling on the sling.

Xiao Mingzhu held her breath. Although it hadn't rotted yet, the smell of this "corpse" was not so good. With her current innate Consummation level strength, holding her breath could last for several minutes.

"Li Yun, what did you find?" Xiao Mingzhu asked with a tone shift.

"A...a faint yin air."

"Yin Qi? Yin Qi on the corpse?!"

"Correct."

The three dared not speak anymore, always feeling that this was not a good thing.

Li Yun carefully inspected the corpse and explained: "It is estimated that you have also seen some news about auras. Auras can be transformed into many forms of power, such as being absorbed by the human body and turning into mana, and turning into flames under geological changes. There are evil spirits, evil spirits, yin spirits, vitality air and so on.

Yin Qi is exactly the opposite of the Qi of Life, and most people with supernatural powers and monsters will produce Yin Qi after death. "

"Is it special?" Wang Anna couldn't help asking.

"I remember..." Xiao Mingzhu hesitated and said: "Its biggest and most amazing effect is to turn the corpse into... a zombie!"

"Zombie?!"

Wang Hao and Wang Anna were shocked, their gazes at the corpse were full of alert, as if she would jump up in the next moment and attack them with sharp claws.

Of course, two sharp zombie teeth are indispensable.

Li Yun glanced at them, and said helplessly: "Don't be afraid, there is nothing to be afraid of when you become a zombie. Your monitor and I can easily solve it. The scary thing is the unknown."

For example, in the tomb last time, the most terrifying thing was not that everyone saw the zombie group battle underground. Although the scene was shocking, there was not much fear.

What really made Jin Liuli feel shivering and her hair standing upright, can only be close to Li Yun is the red coffin lying quietly in the middle of the tomb.

The unknown is what humans fear most.

Ignoring the embarrassing expressions of the two, Li Yun said again: "I find it strange that even if a small part of Penglai Island's aura has spread here, there shouldn't be much yin qi remaining after the death of ordinary people. "

"Could it be that she is about to acquire supernatural powers and has a good affinity with spiritual energy?" Xiao Mingzhu guessed.

"Maybe, but..."

Li Yun raised his hand, and a faint light of fire radiated from his hand, quickly clearing the yin qi from the corpse.

The two Wang Hao didn't understand, so they wondered why the deputy squad leader of the thunder system was able to get angry.

Xiao Mingzhu said enviously: "If only I could use divine mind, it would not be like a blind man without seeing Yin Qi in my eyes."

Li Yun clapped his hands and said with a smile: "How is your cold ice technique?"

"Also, just a little bit? Alright."

"Don't worry, there will be some in the future, well, let's go out."

"Just left?"

"Otherwise? We didn't find anything useful. Yin Qi was too weak to be traced."

Li Yun shrugged helplessly, closed the door and window, and took the three of them downstairs.

Wang Hao glanced at the sky, and said with emotion, "It's already completely evening. It's only half past six in the evening. It's really fast in the mountains."

Chapter 2778: night

In fact, entering the night at the same longitude is the same, except that in a big city, surrounded by dazzling lights, it won't feel too dim at 12 o'clock in the evening, but in mountain villages, except for the weak lights of each household at night, There is only one moon emitting light in the sky and the earth.

"Let's take a walk in Miki Village."

Li Yun suggested: "Find another place suitable for camping. I don't think you would want to live in Lin Youcai's house, right?"

"Live with the corpse? Don't!" Wang Anna refused decisively. Before they came, they had put tents or something in the squad leader's space ability, so they could easily camp, and there was also a small gas stove and washing. Food and meat, etc., plus a few packs of instant noodles will be enough to survive tonight!

To be honest, if there was no hanging, Wang Anna would still look forward to camping tonight, which is a rare experience for students.

"Let's go, let's find other classmates and get familiar with the roads of Miki Village by the way."

Li Yun led the way, but actually covered the surrounding area with spiritual thoughts, and inspected the inside and outside of Sanmu Village.

In the end, he was very disappointed, and did not find any remaining evil spirits and so on.

"What did you find?" Xiao Mingzhu asked him.

Li Yun shook his head, "The weaker the monster is, the more concealed it is. My spiritual sense has evolved into spiritual sense. As long as living creatures enter the range of my spiritual sense, they can easily be found!"

Xiao Mingzhu bulged, "You have cultivated divine consciousness to such a great extent, but I haven't obtained divine consciousness yet, which is really annoying."

"Haha." Li Yun squeezed the little girl's coquettish Xiao Mingzhu's mouth and smiled: "I said everything will be there, don't worry."

"Hate, don't move!"

Wang Hao and Wang Anna looked at each other, saying that they did not understand what the squad leader and deputy squad leader were saying.

After strolling around Sanmu Village, Li Yun and the four followed Qiao Feilu's shouts to find them. After they successfully merged, they exchanged information with each other, and everything went as usual.

"Li Yun, do you really want to set up tents outside at night?" Qiao Feilu said, "I have already told the villagers that if you share one point for ten of you, it is still very easy to live in the villagers' homes. You don't need to live outside. It's not dangerous. Said, there is still dew in the mountains."

"No need." Wang Hao said first: "We have already brought tents and other things, and we have found a camping place, right there...condescending, very convenient to move!"

He felt relieved with his fingers.

Qiao Feilu saw that these college students did not want to live in the villagers' homes, and no longer insisted. He just glanced at Xiao Mingzhu enviously: "This kind of ability is really... if everyone has it, from the mountain to the county town. The transportation cost will be greatly reduced, and it is no longer a dream for the villagers to live a good life."

Everyone was stunned, and they didn't expect that Qiao Feilu, the mayor of the town, had actually considered this.

"Okay, you guys be careful at night." Qiao Feilu looked at Li Yun and smiled: "With Li Yun, you and Xiao Mingzhu are sitting in town. I'm relatively relieved. We will leave a phone call with each other and talk to each other over the phone if we have any issues."

"Isn't the signal in the village very bad?" A female classmate took out her mobile phone, glanced at it, and nodded: "Sure enough, there are only two bars of signal."

"Uh....."

Qiao Feilu said helplessly: "Then shout, this village is not big, I can hear it at night, I don't take off my clothes when I sleep, and I can get up at any time."

This is also a suggestion for this group of college students, don't take off all of them with only a pair of pants and underwear to sleep.

"Yes~~The mayor, we know, don't worry!"

"Let's go, squad leader, let's set up a tent, hehe~!"

Chapter 2779: Camp

The classmates of the computer science class quickly came to a high ground in the village. This place is located halfway up the mountain. It is condescending and you can see most of the houses at a glance. Less than 500 meters away is the ancestral hall in the center of the village.

Moreover, this is also the only way to enter the village in the mountains. As long as the monster is not smart enough to avoid it, Li Yun's spiritual sense will be able to spot any monster attempting to enter the village!

No, no living creature can hide from his spiritual detection.

"Zhang Qian is here to do me a favor, and drive this nail in!"

"Squad leader, where are we washing the vegetables? By the way, we took out all the oil and salt, and started to cook the vegetables. I'm all hungry."

"Fangfang, you know how to eat. That hanged woman can't break your appetite?"

"Hate, why mention this...it's a bit ugly. Now that we enter the Reiki Age, people are dying every day. We are not the savior, so we still have to live happily."

"Wow, Fangfang, you cold-blooded fellow."

"Aren't you?"

A group of college students camped lively, the boys set up tents, and the girls began to urge the monitor to bring out the prepared things and prepare for an open-air barbecue.

As for Li Yun... she was sitting on a rock and playing with her mobile phone, contacting some classmates in the town, and reporting to the counselor what happened today, and then she was lazy.

Everyone didn't complain. After all, Li Yun still had to fight monsters. They just arranged five people to take turns to watch the night, and one person stayed for less than two hours.

"Hush, let's keep your voice down." Xiao Mingzhu, the squad leader, compared his finger with his index finger.

After all, even if you are not sad for the death of Miki Village, you can't have an open-air party happily when four people have just died in the village.

Everyone lowered their voices, but the joy was still unabated, and the photos they took made the students who stayed in Laohe Town envy.

But the arrival of one person made the lively atmosphere of the scene suddenly deserted.

"Ahua."

Li Yun rushed to say hello, "Why go out so late? Are you afraid of encountering monsters?"

Ahua scratched her head embarrassedly, sat beside Li Yun, and said, "I feel a little uneasy, and it's okay to stay at home, so I just come out...talk to you group of college students."

He looked full of envy, and seemed to have a longing for college life.

"I thought you were here to beat us." Xiao Mingzhu showed a bright smile, made a small joke, and said: "Since it's here, let's have a meal together. By the way, tell us about the people in Sanmu Village. thing."

"I always feel that there are stories in your village." Xiao Mingzhu added.

A group of students looked at Ah Hua one after another.

They felt it too.

One is the death of Lin Dasha and what happened after his wife came here; the other is the village chief's second brother, his wife also committed suicide and died, which is a bit unusual at all.

A Hua hesitated, then nodded and agreed.

Xiao Mingzhu was not in a hurry to let him start speaking, but instead filled him with something to eat in a disposable bowl, then magically took out a dozen of frozen drinks from the space ring and distributed it to him and everyone present. .

Let the students sigh once again that the squad leader's spatial supernatural powers are really amazing, and they are too right to apply for the computer science class!

If it weren't for the squad leader's ability, they could only act with the counselor. They would definitely only sleep in the villagers' homes at night, waiting for the relocation to begin tomorrow.

It's like doing hard work instead of traveling.

Chapter 2780: The unknown

After everyone started to eat, Ah Hua slowly said, "Actually, what you want to ask may also be something strange to me."

Under his narration, everyone learned about the unknown things in Miki Village.

Or scandal.

Dasha Lin's wife is beautiful, with a good figure and a good face, but her husband has a low IQ, so this family's status in the village is the lowest, lower than those old bachelors who are not married.

The men looked at Dasha Sister-in-law with squinted eyes, while the women poked her back in the back, all kinds of gossips continued, today they said she seduce this man, and tomorrow they said she had climbed into someone's bed. The day after tomorrow, she said that she went to Laohe Town to sell it, so she exchanged money for it.

For these, Dasha and his daughter-in-law both endured silently. Dasha smiled to everyone, while his daughter-in-law lowered her head silently, did not interact with the villagers too much, and rarely smiled at anyone.

"Actually..." A Hua whispered: "Everyone has said that there are many men who have an affair with Dasha's wife, but my dad didn't know where to get some news. Once at the dinner table, someone

told me that someone saw Dasha's wife. Together with the village chief and his second brother Lin Youcai, the three of them entered the back of the ancestral hall..."

The classmates in the computer science class looked at each other, and the chopsticks were all stopped in the air.

Li Yun's tone was flat and said: "Two men and one woman, going to the old locust tree behind the ancestral hall that few people go to is indeed suspicious."

The classmates who were shocked by Dasha's mood before felt a little awkward, as if the pure feelings of Dasha and his wife were destroyed by the wicked, and the image of the village head Lin Youde became more and more despicable.

"This matter...it's hard to tell whether it's true or false."

A Hua sighed and shook his head, "But it spread so widely that the pungent Sansao ran to Dasha's house angrily, pointed at his house and cursed for a whole morning, causing the whole village to stir up, or her husband called Only after her, she was willing to give up."

Everyone was silent.

It seems that everyone has guessed the situation at the time. A person like Dasha with low IQ would not know what happened even if he was scolded. Only his wife silently accepted the accusation.

It can be expected that the status of the couple in the village has plummeted, and they can't hold their heads up in front of anyone.

But because they are all in the same village, there is nothing to drive them out of the village. When their faces are completely torn apart, the two can still live in the village.

"In addition..." Ahua hesitated for a while, "The village chief's son, he seems to..."

"Ahua!!!"

At this time, a loud shout came from the darkness in the distance, interrupting Ohua's narration.

The person here is exactly what Ahua mentioned, Lin Tiankang, the son of the village head!

"what are you doing?!"

Lin Tiankang could see what Ah Wah was doing at a glance. When he walked over, his face was a bit hideous, and he shouted angrily: "Are you talking about our village with these outsiders?! You white-eyed wolf, you can tell outsiders about the village. ?!"

Ah Hua was so reprimanded that he couldn't look up, and he whispered for a long time without saying a word.

Li Yun said lightly: "You don't discuss your village with Ahua, is it because of your guilty conscience?"

Lin Tiankang's expression changed, and he said angrily: "Who is \*\*\*\* guilty?! The murder of Dasha's family has nothing to do with me. It was the monster that ate her. Besides, my second uncle was also attacked by the monster? Do you think I did it? "

But the more he said this, the more suspicious it became.
