Chapter 291: Red sarcoma monster

With a bang, the bullet of the Fairy Bow-Silvin was as powerful as a sniper gun. One shot hit the monster's abdomen and directly exploded a big hole, splashing blood and meat, but it did not affect the actions of the red sarcoma monster. He shouted angrily at Li Yun.

"Roar!!!"

The roar of the huge monster shook the entire cave, and the faces of Liu Xianxian and others outside immediately changed. They only heard dull voices surging out of the cave, like thunder in summer, shaking people's eardrums.

"what is this?!"

"My god, run away!"

"The bat flew out, followed by a monster roar, this... Li Yun and Zhao Hu are afraid!"

"Director, what shall we do?"

"Li Yun!!!"

Liu Xianxian was anxious and wanted to rush in to find Li Yun excitedly, but was hugged tightly by assistant Wu Xiaolan.

Now only the cave is definitely looking for death!

"All, all listen to me!"

Director Xia stammered. She has seen many big scenes and filmed many scenes like this.

But no matter how many scenes are filmed, they are all fake, and they can't compare with the slightest bit of the crisis right now!

"Let's stay away from the entrance of the cave now, so we won't shoot at a later time, so as not to hit Li Yun!"

Everyone hurriedly moved away from the entrance of the cave, and the roar of the monster was getting closer and closer, and Li Yun should be coming out soon!

"help me!"

In the cave, Li Yun who ran halfway to see Wei Dongming in front of him fell to the ground, and accidentally twisted his leg. At this moment, he couldn't move, so he could only ask Li Yun for help with a look of panic.

"You are paralyzed!"

After being slapped a few times by Li Yun, Zhao Hu had recovered his strength. Now he saw Wei Dongming, not getting angry, and just kicked him to the ground.

"You **** lured us into this monster cave, and you want me to save it? Go and die!"

Wei Dongming was covered with mud, and quickly jumped over and hugged Li Yun's thigh, crying bitterly, "Li, Li Yun, no, big brother, boss, please help me, I have the old and the young, at home I can't be without me!"

"Ding, trigger the option event, please choose from the host:

Option 1: Save Wei Dongming, reward justice value +100, all attributes +50, additional skill: The Heart of Our Lady.

Choice 2: Ignore him, reward justice value +150, all attributes +100, wisdom spirit, +200, additional skills: check the situation (easier to judge the current situation).

Choice 3: Kill him directly and reward evil +50. "

Li Yun was a little speechless. Whether he was saving Wei Dongming or not, he added justice value. What was speechless was that killing him directly would increase evil value.

It seems that the system discourages the abuse of lynching.

Okay, then don't bother to pay attention to him!

"Many acts of injustice will kill oneself." Li Yun smiled faintly, kicked Wei Dongming who was holding his thigh aside, and ran out without stopping.

"Ding, the host has made a choice, and the reward (justice value +150, all attributes +100, wisdom spirit, +200, additional skills: checking time and situation) has been issued!"

"No, don't go, save me, save me!"

While letting out a stern cry, Wei Dongming climbed out with both hands vigorously, but he didn't climb too far, and there was a sound of footsteps behind him.

"Roar!!!"

A huge roar came from above his head, and Wei Dongming turned his head stiffly and met the green eyes of the red sarcoma monster.

"Big, big brother, I'm your boss's little brother, you can't...puff!"

Chapter 292: Scarier than zombies

A blood-red palm penetrated Wei Dongming's heart and broke out of his chest, grabbing the beating heart.

Wei Dongming saw with the only remaining consciousness that the monster greedily ate his heart, then opened his blood plate and bit his head towards his head.

"What a sharp tooth!"

The last thought flashed through Wei Dongming's mind and he died.

When he was coerced and lured by the mysterious man to sell his life for the mysterious man, his fate was actually doomed!

When Li Yun and the two ran outside the cave entrance, they saw more than a dozen black hole shotguns aimed at him, and Zhao Hu was so scared that he hurriedly turned and wanted to evade.

"Don't, don't shoot, it's us!"

"Li Yun!"

Liu Xianxian threw into Li Yun's embarrassment excitedly, clinging his arms tightly around him, tears of joy couldn't help streaming from the corners of his eyes.

"Okay, I'm fine, I'll talk about it later, it's an emergency now!"

Li Yun stroked Liu Xianxian's black hair and pushed her away. Just as he was about to order everyone to leave, a huge roar came from the cave behind him.

Everyone's expressions became ugly again, and Director Xia solemnly asked, "Li Yun, what is inside?"

"You'll see it later!"

At this moment, the system triggered the selection event again.

"Ding, trigger the option event, please choose from the host:

Option 1: Defeat monsters head-on, reward justice value +5000, all attributes +2000, experience value +500,000, reward golden gift bag*1, extra reward item: medium detoxification pill*5.

Option 2: Disperse and escape, no reward, and most of the crew will be killed.

Option three: the host escapes alone, rewards evil value +1000, skill: run away (speed +100 when escaping alone, shame +100). "

Li Yun twitched the corners of his mouth, who would run away as a meal!

If he was about to escape, he would have to take his girlfriend with him, otherwise Li Yun would be a scum and scum and would not be worthy of Liu Xianxian!

"Everyone!"

Li Yun took a deep breath and looked at everyone with serious eyes: "Wait a monster will rush out. It is fast. We can't escape. We can only fight with all our strength!"

"Zhao Hu!" Li Yun shouted: "This is not the time to be afraid. If you don't want to die, cheer me up!"

In the cave just now, Zhao Hu's performance was worrying, and he still looked pale.

Everyone looked at him with weird faces, what kind of monster was it that actually scared an acquired martial artist like this?

"Zhao Hu, Sun Ji, you two protect everyone." Li Yun quickly ordered, "The rest of the gunmen should not shake their hands. When the monster comes out, shoot immediately!"

"Ding, the host makes a choice to get an extra reward first: Medium Detoxification Pill*5."

Li Yun was overjoyed, the system actually generously rewarded 5 medium-sized detoxification pills!

Everyone panicked for a while, but under Li Yun's command, they still formed a superficial shooting formation.

During this period, the monster did not come out.

Sun Ji took a deep breath and asked, "Zhao Hu, what monster did you encounter in it? Was it a zombie?"

Everyone actually guessed that Li Yun has always emphasized zombies, so now the monsters in the cave are probably zombies!

Thinking of this, Wu Xiaolan, Director Xia and others looked at Li Yun in admiration. It turned out that Li Yun was right, but the zombie thing was too bizarre, so everyone didn't believe him.

"No." Zhao Hu shook his head.

"Not a zombie? That's okay!"

"Okay? What a shit! That sarcoma monster is more terrifying than a zombie!"

"Sarcoma monster?"

"Roar!!!"

Chapter 293: Modern weapons vs zombies

When everyone was talking about it, a huge roar like a rock and a crack came from the mouth of the cave less than ten meters away, shocking the birds and beasts in the mountains and fleeing.

"My god, what a monster is this!"

If it hadn't been for Li Yun to vaccinate them, everyone would have thrown down their shotguns and escaped.

This sound is terrifying!

"Calm!"

Li Yun gave a cold cry, and held the white pistol tightly in his hand, and pointed it at the mouth of the hole: "Calm down if you don't want to die, don't mess, there are modern weapons, what monsters are you afraid of?!"

The riot stopped, and everyone looked at the entrance of the cave nervously again.

Liu Xianxian looked at Li Yun with admiration. At this moment, he was a God of War with a stable military spirit!

Heroic, handsome and handsome.

More importantly, Li Yun is her boyfriend!

"coming!"

Li Yun gave a low cry, and with a burst of huge footsteps, the monster finally walked out of the cave and appeared in the horrified sight of everyone.

In the setting sun, the monster was blood-red, with a big mouth open, blood oozing from the corners of his mouth, his body was covered with minced meat, and he was holding a huge white stick in his hand.

"wrong!"

Everyone took a closer look, what a white stick, this is clearly a human leg!

Only then did they react. No wonder this monster has only come out now. It turned out that after eating Wei Dongming and using Wei Dongming's thigh as a weapon, or as a snack, the red sarcoma monster leisurely walked out of the hole!

"This, this, this, what kind of monster is this?!"

Everyone is incoherent, except for the red sarcoma monster with limbs and facial features, the rest is simply not human!

Director Xia was even more stunned. She had been making movies for so many years, but it was the first time she saw such a terrifying monster.

Compared with it, the imagination of those makeup artists is too barren, and they can't make up such a terrifying monster!

"shooting!!!"

Li Yun yelled, and decisively pulled the pistol, a powerful bullet whizzed out, hitting the monster's head heavily.

The bullet power of the pistol Silvin is comparable to that of a sniper gun. In addition, it has three additional attributes: destruction (passive, so that the bullets fired by the weapon also have an effect on ghost enemies), and increased damage (passive, making the enemy's wounds more difficult Healing), and the three passive attributes of faster bullet speed.

The three are superimposed on each other, coupled with Li Yun's advanced firearms proficiency, as long as he is not a fast-moving enemy, he is almost a hit!

"boom!"

Everyone heard a huge roar, and the bullet slammed into the head of the red sarcoma monster, blasting half of its sarcoma-like head directly!

Immediately afterwards, more than a dozen shotguns fired at the same time. Although the aim was not good enough, the monster was huge, so most of the bullets hit the monster.

In an instant, the monster was blown away at least 30 kilograms of flesh and blood.

Li Yun shot it again, hitting its thigh, bringing out a large mass of meat, red blood gushing out, the monster roared and fell to the ground unwillingly.

"This defeated this monster?"

"we won?"

"The monster is dead?"

Everyone couldn't believe it, that such a terrifying monster fell down like this?

Li Yun shouted: "Don't go there, you guys will make up for it, shoot it through the thigh!"

Everyone nodded quickly, the bullets were shot out without money, and the monsters were riddled with holes and blood flowed from the ground.

With the monster's nearly three-meter huge size, the blood flowing into a river is no exaggeration!

A hidden place in Nanfeng Town.

"Who?! Who killed my stitcher?!"

Chapter 294: resurrection

In the gloomy underground, an old man with a thin face and cold eyes suddenly opened his eyes and looked at Oak Ridge Mountain steadily.

"damn it!"

The old man cursed viciously: "Which animal dares to destroy my stitcher without paying attention? No matter who it is, I must make him pay!"

After all, a strange light flashed through the old man's muddy eyes, and he pinched a law decision with his hands. He said something in his mouth. Soon, an inexplicable wave emanated, forcibly awakening the suture man he had kept in Oak Ridge Mountain.

Li Yun commanded the crowd to shoot at least two hundred shots at the red sarcoma monster, smashing the monster to pieces, leaving nothing intact on his body.

The panic in everyone's hearts slowly dissipated until the place where the monster fell completely turned into a rotten meat pit.

"What kind of monster is this red thing?"

"Could it be the savages in the mountains? I heard that Shennongjia has the footprints of huge savages!"

"Bullshit, even if you are a savage, you won't have blood red all over your body, and you don't have a single hair. This doesn't conform to the laws of nature, how cold the wild is!"

"That's also... hey, you said, will we get angry because of this incident?"

Li Yun frowned, and the crew was no longer afraid, but began to take pictures enthusiastically, ready to show off in the circle of friends.

"Don't send it up, wait..." Li Yun was about to say that he was waiting for his contact to deal with it, but suddenly, he felt a strange wave of fluctuations coming from a distance.

This kind of fluctuation is very mysterious, just like the sixth sense, everyone did not feel it, only the two acquired martial artists have a vaguely uneasy feeling.

"Is it because my mental power is strong enough?"

Li Yun didn't have time to think more, because a strange change had taken place in that red sarcoma monster.

A faint red light enveloped the mass of flesh and blood, and everyone was horrified to see that the mass of flesh was squirming quickly, as if countless maggots were swimming under the flesh and blood, as disgusting as they were.

"Keep shooting!"

When the mass of flesh and blood wanted to transform into a human form again, Li Yun decisively ordered.

The crowd reacted and hurriedly raised their shotguns to shoot again.

But this time, the bullet hit these flesh and blood, but it penetrated directly, and apart from bringing out some pieces of flesh, it could not cause much damage at all!

Li Yun frowned and shot the sixth bullet.

The fairy bow Silvin is very strong and can kill evil spirits and ghosts, but unfortunately, there are only 16 bullets in the magazine, and it can automatically recover one bullet in an hour, so you have to save it in many cases.

"boom!"

With a shot, Zhao Hu looked at Li Yun's white pistol with greedy eyes. The power of this thing is really enviable. All bodyguards want a good gun.

The arm of the flesh monster was immediately knocked out, but the broken arm wriggled and gathered towards the body again.

"No, this thing is simply unkillable!" Sun Ji screamed, his heart was strongly shaken, and he was deeply shocked by the monster's power.

"Physical attack is ineffective?"

Li Yun thought of the dungeon online game he played. Generally speaking, monsters whose physical attacks are ineffective have very weak resistance to magical attacks.

"Then, let me try a magic attack!"

Li Yun hooked the corner of his mouth and took out an item from his backpack (actually from the inventory), showing a smile waiting for a good show.

Chapter 295: Ding, add 2000 to all attributes

Don't get me wrong, what Li Yun brought out was not the bracelet that Nie Xiaoqian had stored in his soul. He put it in his pocket, and a big man wearing a jade bracelet always felt weird.

What he took out was a large bottle of gasoline, the sundries from the white gift bag.

Everyone was stunned. Li Yun was out and brought a bottle of gasoline? !

Li Yun smiled slightly and didn't explain so much, and threw the gasoline directly at the monster that was about to take shape.

"boom!"

With a gunshot, the bullet accurately hit the gasoline bottle, and the flame exploded, mixed with flammable and inextinguishable gasoline. This flame quickly swallowed the flesh and blood monster. The monster had no mouth or even a roar.

But under the blazing fire, everyone can also see from the monster's struggle and twisting that it is unwilling at the moment.

"Li Yun~."

Liu Xianxian came to Li Yun, gently took his arm, and leaned half of his graceful body against him, his body trembling uncontrollably.

"Xianxian, are you afraid?" Li Yun held her slender waist, Liu Xianxian leaned his head on his shoulder and shook his head.

"not afraid."

"Oh really?"

"Well! I'm really not afraid!"

Liu Xianxian's pure and beautiful face burst into a brilliant smile, and she said softly: "Because of Li Yun you are by my side, I am not afraid, but instead—"

She spit out her little pink tongue playfully, and she looked very cute: "On the contrary, it feels very thrilling. I would never experience these things on weekdays. I can't even think about it."

Li Yun looked at her steadily, attracted by the beauty of Xianxian, couldn't help but hug her, and kissed her charming red fox.

"Yeah! You badass, really!"

Liu Xianxian's cheeks immediately blushed, and he shyly hit Li Yun with his small head, acting like a baby, but he was not really angry.

Everyone was envious of being able to win the love of the fairy sister. Li Yun was envied and hated by the men present, and even many girls.

Well, there are many girls who like fairy sisters and want to marry her and give her monkeys!

The flames gradually went out, and Li Yun soon received the reward of the system.

"Ding, the host makes a choice, and the reward (justice value +5000, all attributes +2000, experience value +500,000, reward golden gift bag*1) has been issued!"

Such a huge reward made Li Yun so refreshed that all 36,000 pores all over his body were opened, and his face was full of smiles.

The justice value soared from 8,000 to 13,000, and the five human attributes broke the 10,000 mark. A conservative estimate is that he is now in the middle of the day after tomorrow!

From the early days of the day after tomorrow, it soared to the mid-term in less than two weeks. It must scare a large group of people to say it!

"died?"

Zhao Hu cautiously walked a few steps closer, the burning smell of the meat became more intense, he actually felt a little fragrant, Zhao Hu looked at the weather, it turned out that it was already evening, no wonder he was hungry.

"Dead!"

After Li Yun said these words, everyone's tense nerves relaxed, and they all let out a long sigh of relief.

"Great!"

"Damn, I can't think of an end to find someone in the field, and I actually encountered this kind of thing!"

"It's very exciting to think about it. I think we can edit the material we have taken to make a movie. It is completely cost-free, and the special effects are very real!"

"I can go to you, if it weren't for Brother Li Yun, who stimulated the wool, I would be scared to death!"

Everyone was elated, standing far away from the burnt meat and taking pictures as a memento, their nerves were too rough.

Chapter 296: Contact Liao Hua

Li Yun saw everyone raising up to take pictures, and his head was suddenly full of black lines: "Don't take pictures. If the official people come, I'm afraid you will have to delete the pictures!"

The enthusiasm of the people faded a little, and then they started talking.

"Brother Li, do you think there is a legendary dragon group in the country? It is specifically responsible for managing these supernatural beings and immortal cultivators!"

"Bullshit! I think even if there is, it's called the XX Bureau, XX Department or something, the dragon group is too terrible!"

"Grass? How come the dragon group is a turtle? Don't think that in the novel are all the dragon group, just think of the dragon group as a turtle!"

"Of course there is the official management of this aspect, not only our country, other countries also have control, otherwise there is no news?"

The existence of ancient warriors is not known to ordinary people, but in the upper class, ancient warriors are not illusory, but rather closely connected.

However, immortal cultivators may be able to use spells, or even drive corpses, and create red sarcoma monsters. No one has heard of them, let alone seen them.

Li Yun ignored their remarks and did not force them to delete the photos on their phones.

Because even if someone posts it on the Internet, netizens will only treat it as film and television special effects, or ps. Now that the cost of fraud is so low, whoever believes it is Sabi.

"Hey, is it Mr. Liao Hua? You are the secretary? Oh, I'm Li Yun, I'm looking for him in a hurry!"

"Very urgent, very urgent, related to some extraordinary things, someone must come forward to deal with it!"

Yes, Li Yun said that the person who contacted the official was to contact Liao Hua, the mysterious leader who was responsible for discussing the hacking incident with Li Yun and initiated the establishment of the Xuanyuan Shield Company.

Ordinary 110 police | investigation, it is estimated that it will be of no use when they come, you still have to contact a talent line with a certain status.

Li Yun didn't know how big Liao Hua's position was, but it should be quite big, otherwise there would be no bodyguards to follow him at any time.

the other side.

Liao Hua is in a meeting with some leaders to analyze the potential of "Xuanyuan Zhidun" with some computer experts and professors.

In a way, this meeting is related to the country's cyber security in the next five years and is of great significance.

Therefore, the leaders attending the meeting included not only several important leaders of Zhonghai City, but also some important department directors of Beijing.

"I think the program structure of Xuanyuan's Shield is extremely good. It is hard to believe that it was made by a high school student..."

"Report!"

While a domestic authoritative computer professor was summing up Xuanyuan's shield to the leaders, Liao Hua's secretary hurriedly pushed open the door of the conference room.

His loud voice and weird expression on his face made the leaders and experts in this room very strange.

"what happened?"

Liao Hua stood up and asked in a deep voice.

His position is simple and very simple, and he is the leader of the 'National Emergency Response Team'.

But it is also extremely important!

Many emergencies, such as flash floods, the spread of the plague, major casualties, or the provocations of certain restless hostile countries, etc., as long as it is an emergency that needs to be reported to important leaders, it will gather here. Liao Hua decides whether to report it.

Therefore, Liao Hua has a close relationship with the leaders. Coupled with his young age, only 35 years old, the future is even more promising.

"Li Yun will report one thing directly to you, say, say--"

The secretary hesitated. It stands to reason that Li Yun was not qualified to report to Liao Hua, but Liao Hua values talents, so he gave him a phone number, so the secretary interrupted the meeting.

Chapter 297: Everyone's shock

"Just say it!"

Liao Hua looked at him seriously: "There is nothing worth concealing. The people here are important leaders and professional professors!"

"Yes!" The secretary gritted his teeth. "Li Yun said, he found zombies in Nanfeng Town, Annan City, Huatian Province!"

"..."

Everyone was silent, their faces flushed, and they wanted to laugh but didn't dare to laugh.

Is this Nima too outrageous?

The zombies in the movie are all out!

Why didn't he say he met a female ghost? !

A big leader in Zhonghai City laughed and said, "Li Yun? I remember he was the one who developed Xuanyuan's Shield, right? Recently, there was a lot of noise on the Internet, chasing hackers, and scored 749 in the mock test. Right?"

"Yes, it's him!"

Another leader also smiled: "Li Yun is a very talented man and is worthy of cultivation. He is a bit unreliable in doing things. Why did he suddenly ran to Huatian Province and said he encountered zombies. Isn't this a nonsense?"

"Hehe, after all, he is a senior high school student, young and energetic, understandable!"

"Okay, Liao Hua, you can just send him away, don't scold him too much, young people can't stand the scolding."

"Let's continue the meeting, and go to dinner!"

Of the more than twenty people present, none of them believed what Li Yun said!

Isn't the zombie thing made up in the movie?

Originally, if other people interrupted the meeting to report such a fictitious matter, the leaders had to reprimand him severely.

It's just that Li Yun, the young man's powerful hacker ability, made all the leaders very optimistic about him. Therefore, Li Yun's mischievous behavior was not held accountable.

"Well, okay, I will reply to him now!" The secretary was embarrassed for a while, he really shouldn't believe Li Yun!

"and many more!"

Everyone can disbelieve, but as the leader of the emergency response team, Liao Hua still has a sense of responsibility in his work and asks one more sentence: "He said there were zombies infested, did he take any pictures?"

The secretary hesitated, "Yes, but he said he was with a director of a crew. I doubt if it's special effects..."

Everyone laughed again, shouldn't Li Yun take movie special effects seriously, right?

"Let me see."

Liao Hua has a certain discrimination ability. After he took the secretary's mobile phone, he saw a huge red humanoid monster with his head almost on top of the cave.

"He said this is not a zombie, but it is closely related to the zombie, and more!" The secretary said with a horror: "He said that a lot of people have disappeared in Nanfeng Town recently and they have all been killed in this cave."

"what?!"

The leaders and professors were surprised. A certain leader of Zhonghai City subconsciously asked, "How many people died?"

"I don't know." The secretary shook his head. "Li Yun said, a lot of monsters swallowed it, and the floor was covered with broken bones. Oh, yes, this monster is holding human thighs too!"

Everyone had already leaned over to look at the photo. At this moment, when they heard the secretary's words, they immediately turned their attention to the hands of the red monster.

Inexplicably, everyone felt a chill.

Is this white stick in the monster's hand a human thigh? !

"Ding."

At this moment, the mobile phone received a video from Li Yun. The secretary glanced at Liao Hua. Liao Hua did not tell him, but did it himself and played the video directly.

"Roar!!"

With a roar, everyone saw that the monster in the previous photo moved, and the people around screamed, followed by dense shotguns.

Everything is so real!

In an instant, the conference room was extremely quiet.

Chapter 298: Liao Hua arrived

At 8 o'clock in the evening, Li Yun finished his dinner and was about to hang out with Liu Xianxian as an excuse. In fact, he wanted to kiss Xianxian~ When I was me, Er Niu came out panting.

"Li, Brother Li!"

Erniu said respectfully: "A high-end car came at the entrance of the village, saying it was looking for you. Look--?"

Li Yun was stunned, and then he remembered that it should be Liao Hua who came.

"I know who it is, Xianxian, I will pick him up."

"I'll go as well!"

Liu Xianxian took the initiative to take Li Yun's arm and walked closely with her arms around him. She didn't want to be separated from Li Yun for a moment, and she felt safe around him.

"Brother Li, let me take you there!"

Er Niu glanced enviously at Liu Xianxian, the fame of this fairy sister, even in a closed village, is very well-known.

Moreover, the men in Donggou Village are extremely envious of having such a beautiful and beautiful celebrity girlfriend.

But envy is envious, Er Niu dare not think anything.

It was Li Yun who pleaded for him to excuse him, otherwise, if only Er Niu led Wei Dongming into the team, everyone could turn him to the police station.

The process by which Er Niu was threatened by Wei Dongming was also very simple. Wei Dongming brought out zombies, and Er Niu was scared to death and did not dare to resist.

The three of them came to the entrance of the village to light up with flashlights.

Li Yun saw the headlights of two off-road jeeps from a distance, which were particularly eye-catching in the dark, remote mountain village.

"Brother Liao?"

Looking at the headlights, Li Yun couldn't see clearly, and Li Yun stood not far away and asked.

Knowing that there is another man behind the scenes, he is now a little nervous.

"it's me!"

Liao Hua came over and patted Li Yun on the shoulder. He was about to introduce some people to him, but suddenly saw how the people standing with Li Yun were so familiar with him?

"You are....."

"Hello!"

Liu Xianxian nodded politely, "My name is Liu Xianxian, well, that's Liu Xianxian, the singing and acting star, hehe!"

After she and Li Yun were together, she realized that the villain didn't understand her previous fame at all.

Liao Hua was taken aback, and several people who came with him, such as several professional agents, forensic doctors, Director Zhang of the Annan City Public Security Bureau, and several special forces, all looked at Liu Xianxian with surprise.

The fame of this international star is almost from eighty-year-olds to five-year-olds. All of them are very familiar with her name and have heard her several popular songs!

Liu Xianxian glanced at Li Yun quite proudly, as if to say, see, is my reputation very famous?

Li Yun scraped off the big star's little nose in a petting manner. Xianxian is so cute.

Liao Hua was stunned for a moment. How close could Li Yun and Liu Xianxian be so close?

Laughing helplessly, Liao Hua asked: "Li Yun, now I have brought people here, is the situation the same as you said? This is not a joke!"

Li Yun shrugged, "Are you kidding me? Xianxian saw it with his own eyes. Let's go, I will take you to see Director Xia, and they have seen it too!"

Having said that, Liao Hua and others are still skeptical.

However, after Director Xia and other crew members vowed to promise, and after seeing more photos, Director Zhang and several special forces almost believed it!

"Where is that cave? I'm going to see it!" Liao Hua said solemnly.

"Go now?" Li Yun looked at his appearance, the sky was already completely dark, and the BMW Mountain Range at night was full of dangers.

"certainly!"

Chapter 299: Mountains and old forests at night

Liao Hua said sternly: "We can't wait that long."

When Li Yun was about to say something, the system prompt sounded.

"Ding, trigger the option event, please choose from the host:

Option 1: Help Liao Hua figure out the truth, reward justice value +1000, all attributes +500, the host can obtain official recognition from Huang Xuanguo, which is more beneficial to future development.

Option 2: Stand on the sidelines, reward the level of danger perception skills, and get a random escape skill. "

Li Yun frowned, and Liao Hua asked when he saw this: "Could it be that when I go out at night, I will meet the zombies you mentioned?"

The crew was shocked. They killed a red monster, but it was killed in the evening. Now the black lights are blinding. There are really monsters coming out. I promise to scare them to death!

"No." Li Yun shook his head, and added: "You may not encounter it."

The reason for his entanglement is because seeing the danger perception skill, which means that the mysterious behind-the-scenes man must still be peeping here!

Li Yun chose to infer that Liao Hua's expression became more and more serious.

Behind the monster, there is a mysterious person controlling it. This is the most dangerous thing!

"but!"

Liao Hua turned around and pointed to the eight special soldiers he had brought. He confidently said, "I brought a few heavy weapons. Even if there are legendary zombies, they can be wiped out in one fell swoop!"

Everyone was relieved a lot, indeed, they can kill the red sarcoma monster with a few shotguns, not to mention professional guns?

Li Yun nodded, did not insist, and chose to go to the cave with Liao Hua.

"Ding, the host makes a choice and rewards (justice value +1000, all attributes +500, the host is recognized by Huang Xuanguo at the official level)!"

Li Yun was still thinking about the official recognition, and Liao Hua said: "I won't pursue the gun in your hand, but you must be careful and don't use it indiscriminately!"

Li Yun couldn't laugh or cry, it turned out that the official recognition was this.

So, does he have a gun license?

Not bad, at least if you encounter anything in the future, you can ask Liao Hua for help, and you can save a lot of things invisibly. After all, the society in your country is a human society.

Liao Hua left half of the soldiers here to protect everyone, and all the rest set off for the cave.

Incidentally, Liu Xianxian also chose to follow, she felt safe to follow Li Yun.

In fact, many people in the crew also think so, in their eyes, Li Yun is still very powerful!

Li Yun, Liu Xianxian, Liao Hua, Director Zhang, as well as two forensic doctors and four heavily armed special forces, everyone walked in the dark and gloomy mountains at 8:30 in the night.

Originally, based on the mental qualities of Liao Hua and the group, let alone walking in the mountains at night, they would just get into an ancient tomb, see the red coffin in the ancient tomb and touch the mummy inside, they would not be afraid!

For example, two forensic doctors, they have seen too many corpses, have long been immune to the dead, and will not be afraid.

But if there are zombies with green faces and fangs in the dark, deserted mountains, then the situation will be very different.

"Crack!"

In the dark night, a crow scream sounded, and the two forensic doctors were scared. The special forces clenched their weapons and looked serious. Director Zhang was sweating, and even Liao Hua was startled.

Liu Xianxian hugged Li Yun's arm and looked at them curiously.

She has Li Yun there, but she is not afraid.

Chapter 300: Shock

"This... ahem!"

Liao Hua coughed embarrassingly, concealing his inner anxiety.

Li Yun smiled, "Actually, zombies are nothing great. They have very strong bodies and no vital points. They can act even if their heads and hearts are destroyed. It is best to destroy their mobility. Other than that, zombies are not. How powerful it will be!"

"This is already very powerful!" A forensic doctor interrupted, and everyone laughed in cooperation.

Listening to Li Yun's explanation, their nervousness was relieved.

"Does the country have no such information?" Li Yun asked Liao Hua curiously.

"no."

Liao Hua said affirmatively: "We have a department that manages martial artists, but we don't manage zombies, and we have never received a similar exact report. The so-called zombies and monsters are unheard of!"

Li Yun thought about it.

Among the people he met, the daughter of Qinglei Valley, Xia Feiyao, who had a 100-point favorability for Li Yun, had never heard of anyone who knew spells.

Only the concubine Wan Qing from the Six Demon Sects, she revealed a volley-hand manipulating flying sword spell, and now Li Yun recalled that her move was horrifying!

In this way, the Hidden Sacred Valley that can compete with the Six Demon Gates should also have similar spells.

"Have you heard of the Hidden Sacred Valley?" Li Yun asked Liao Hua and others.

"Hidden Sacred Valley? Never heard of it!"

Everyone shook their heads, they had never heard of this sect or family.

Li Yun nodded secretly, it seemed that the Six Demon Sects and the Hidden Sacred Valley were extremely hidden, and it was difficult for outsiders to discover their whereabouts!

Everyone was walking and chatting, and within an hour, they arrived at Oak Ridge Mountain.

"!"

Suddenly, Li Yun suddenly raised his head to look somewhere, and the flashlight in his hand shone through.

Everyone looked at him in surprise and followed the lights. There were only dense bushes and tall trees.

"what happened?"

Liao Hua asked solemnly, Li Yun shook his head, the closer he got here, the stronger his anxiety in his heart, maybe the man behind the scenes was peeping not far away.

Everyone also thought about this possibility, so they all stepped up their guard. A special soldier took out a thermal imaging camera to scan the surroundings, but found nothing but a few sleeping wild boars.

Thermal imaging cameras can find nearby mammals (body constant temperature, fever) ignoring obstacles, which is especially important and convenient for fighting at night.

"Everyone, be careful, if you encounter a monster, don't panic!"

Li Yun vaccinated them and took everyone up to the hillside.

Liu Xianxian held his arm all the way, or grabbed the corner of Li Yun's clothes, so well-behaved as a follower, following Li Yun step by step.

She secretly touched the jade pendant that was tied to her neck by five thunders to exorcise evil spirits. This jade pendant is now very important to Liu Xianxian. It is not only a precious heart of Li Yun, but also protects her. Liu Xianxian naturally values it.

She even tied it up with two small ropes and hung it between her white and graceful neck to ensure that it would never fall off accidentally.

"Is that this?"

At a glance, Liao Hua saw the big burnt hole in front of the cave.

In the dark pit, some charred meat and exposed broken bones were faintly visible.

Judging from the skeleton, the area of the pit, and the number of pieces of meat, this thing was at least the size of three people before it was alive.

"Really a monster!?"

Everyone was dumbfounded, hearing what was fictitious and seeing was believing, until now, they really dare to be sure that there was a terrifying monster here, which was defeated by Li Yun!
