

Godly Choice 3011

Chapter 3011: Enchantress

The slender and straight legs, the plump and beautiful buttocks, the soft waist with a full grip, the slender and boneless jade hands, and the charming smile on the face that can dump all living beings.

The peerless beauty who walked in this model exudes boundless charm in every word and deed, not only fascinated the six demon heads around her, but even the disciples of the Hidden Sacred Valley, after seeing her, also showed an obsessive expression.

"The demon girl is rude!"

The Holy Spirit gave a cold cry and awakened hundreds of Hidden Sacred Valley disciples. After returning to their senses, they all bowed their heads in shame.

They have long heard that the saint of the Six Dao Sects, no, it is a demon. She has practiced a kind of demon charm skill. The ordinary disciple will be attracted by her charm at the first sight, and even some Taoism is not strong. People who are robbed of their minds will become puppets of the witches!

Yes, the person who came was Li Yun's "good old friend", the saint of Liudaomen, Wan Qing concubine.

"Senior Gu praised too much."

Concubine Wan Qing, wearing a luxurious long skirt, does not seem to come to fight, but like to attend a banquet after victory. She is so beautiful that she is not plausible.

But Li Yun inexplicably felt that this face was still not her original face, but the pure and sweet picture sent by Gong Lianyi before, as if it was the elegant and elegant picture of the twenty-eight girl, and it was more like what the concubine Wan Qing should have. Look like.

"Devil, you are framing me!"

The Holy God gritted his teeth with hatred, and raised his hand to draw a huge blade formed by a violent wind. The terrifying wind pressure caused the complexion of the surrounding spirits to change suddenly, and one by one escaped far.

"Devil, die!"

The huge wind blade whizzed towards the concubine Wan Qing, causing Li Yun to be a little worried. The attack of the soul-light realm powerhouse need not be said, it is definitely the most powerful attack he has ever seen. If this wind blade is when attacking him, Li Yun could only choose to escape into the void, and reduce the magical power of the wind blade with the inherent ability of the congenital Taoist womb, before he could barely take it.

Consort Wan Qing does not have a special physique-or Li Yun doesn't know what her special physique is, but she is definitely not so abnormal that her congenital fetus can reduce her attack power by 50%. If she is hit by the wind blade head-on, she won't die and get off. A layer of skin.

But Concubine Wan Qing dared to show up outside the Hidden Sacred Valley, it was impossible for her to stay behind.

Sure enough, Feng Blade killed the smiling Concubine Wan Qing, and after passing through her body, Concubine Wan Qing's figure gradually turned into nothingness. She appeared not far away again, grinning and said: "Old predecessor, it's almost done, let's join hands. How about killing the Hidden Sacred Valley upside down?"

"Wonder!"

Gu Xingxing almost exploded. Everyone with a discerning eye could see that Concubine Wan Qing was talking nonsense, but as a saint of the Six Dao Sects, even nonsense, or even nonsense with no evidence, listened to some hidden saints. There will also be some distrustful voices in the ears of Gumen people.

In the final analysis, it was because the stealing incident happened in the Hidden Sacred Valley, which caused a bigger rift in the hidden Sacred Valley that was not in harmony.

"Wan Nishang, you **** is here to attack again!"

Just when Gu Xingxing was about to chase Concubine Wan Qing, Fan Linglong suddenly shot her fingers together into her palms, and a purple thunder appeared in her palms, and she suddenly pushed forward.

"what!!!"

A weird scream sounded. It was not a scream, but a screaming sound that didn't look like a human being.

After hearing this weird and hideous voice, many of the disciples of God Refining Realm, including the Demon Sect, had their eardrums bleeding, and they couldn't bear to cover their ears, and their hearts were full of horror.

"Shut up!"

Li Yun also uttered the sound of the Azure Dragon, and shook the screams of the monsters.

Chapter 3012: Neon clothes

Lei Guang and Li Yun's voice of the Azure Dragon jointly attacked and shook out the two weird villains in the void. Everyone looked intently and felt a tingling scalp.

Standing in the void stood two little men five or six inches tall, wearing armor and helmets, and holding spears, but the faces of these two little men were vague and could not see exactly what they looked like. If someone looked carefully, You will find that the villain's face is like a ghost, and the more you look at it, the more you become flustered.

Coupled with their attack methods lurking in the illusion, it became more and more weird and terrifying.

"Van neon clothes!!!"

Fan Linglong was shrouded in a layer of thunder, with long hair flying behind his head, and his body suspended in the air, like a thunder **** descending from nine days, bringing a strong sense of shock to the monks present.

"Get out of here!"

boom!

The violent thunder spread arbitrarily, and some of the remaining Gu worms could not resist this mighty thunder power at all. They squeaked in the purple thunder, and were quickly turned into fly ash by electricity.

Neon clothes?

Consort Wan Qing's master?

Li Yun recalled that Concubine Wan Qing had indeed asked him to take a recovery pill, should it be for this Wan's neon clothes?

For the grievances between the two, Sage Fan Qing once said to him that both of them were saints of the previous generation, and they fought each other to death a hundred years ago. As a result, both were injured and recuperated for a hundred years.

In the end, Li Yun gave their disciples a recovery pill to heal their injuries.

"Linglong, Linglong, I haven't seen it for a long time, your temper is still so stinky, I don't know how to constrain it when I see my old thoughts!"

A clear and beautiful figure slowly emerged in the air, standing behind two little men in gold and armor, and said to Fan Linglong with a playful smile.

Good old friend? !

How good is Fan Linglong's old friend? !

Who! ?

Li Yun was stunned, turned her head to look at Fan Linglong, only to find that her expression seemed a little flustered, she looked over and collided with Li Yun's eyes, seeming to be defending, but she didn't know how to explain it, and she was struggling with contradictions.

It seems that her old friend is really good?

Could it be that... !

Li Yun was so shocked that the relationship between the two saints was so good that they even made fun of each other and became best friends? !

Li Yun turned his head to look at Wan Nishang, but unfortunately, the former saint of Liudaomen, the master of the enchanting concubine Wan Qing, although she was graceful and slim, her face was covered with a black veil, and she did not show her face at all. mean.

However, judging from the reaction of the two, before the death battle between the two saints a hundred years ago, their relationship was indeed unusual, and they did not know what they had experienced.

"Wan Nishang, you dare to appear in front of me!!!"

But to explain more, Fan Linglong shot with all his strength, with a dark face, and the sky was full of thunder, no one dared to stand underneath, and fled in all directions.

"Huh, Linglong, I want to resist? Am I still afraid that you won't succeed!"

Speaking this sentence in a teasing tone, the graceful willow waist of Wan Nichang slightly twisted, revealing a more enchanting posture than Qing Concubine, making Li Yun who watched the game feel a palpitating heart, as if his mind was about to be deceived in.

"Be careful, this is the "Emperor's Magic Skill" created by the Sage of the Demon Sect!"

The owner of the Hidden Sacred Valley warned in a low voice, from the beginning to the end, he did not take action, but chose to watch the battle.

"The emperor's magic power?!" Li Yun asked him, and Fan Qingsheng also looked at the valley master.

"The Heavenly Demon Skill cultivated by the Saints of Six Dao Sects is a...very fascinating method, and the emperor's magic skill evokes people's inner desires and makes people change from a cultivator to a man in the dust."

Chapter 3013: Saint's battle

The holy master spoke very briefly, but he has already revealed the essence of the emperor's magic power.

It evokes a person's inner physical desires, and makes people's minds chaotic and lost. As long as they are recruited, let alone fighting, they can't even stand, they can only shake their limbs panting, just like the cheapest trickster. .fun.

Humans have three major desires, appetite, sexual desire, and sleep desire.

Appetite is the instinct for the survival of all living things, and the importance need not be said. The second is the instinct for biological reproduction. It seems very vulgar, but it is extremely important. It belongs to the horrible ability to control the desires of others by practicing to the extreme.

It is said that even Buddhism has Huanxi Zen, and Li Yun guessed that the emperor's magic is similar.

But none of this seems to work in front of Fan Linglong.

The violent thunder fell crazily, and Fan's exquisite and graceful figure swayed from side to side in the dense thunder and lightning. Two monster villains protected her to death. Li Yun observed carefully, but still didn't know what these two villains were. what.

It looks like a gu worm, but also like a zombie, and more like a strange puppet, acting under the control of Fan Linglong.

The two former saints met again after a hundred years of separation, and this battle is destined to end in a tie, just as it was a hundred years ago.

The difference is that Li Yun acted as a mediator. When he noticed that the fighting between the two sides was a little absent, even after Fan Linglong became tired, Li Yun stood up and stopped both sides.

What surprised both Liudaomen and Hidden Sacred Valley staff was that Linglong Master and Shengma stopped their hands unanimously, and both of them hovered in the air, looking down at the young man who called the stop.

After a period of silence, the two sides separated.

"Fan Linglong, give your little lover a face today, and I will beat you next time." Wan Nishang smiled.

Li Yun was embarrassed for a while, this old woman's character is really like that of Concubine Wan Qing, no, Concubine Wan Qing's wicked character is entirely from her!

Li Yun looked at Concubine Wan Qing subconsciously. The latter smiled when he saw him looking over. He didn't feel embarrassed at all, he didn't care about being on the battlefield where the holy demons were fighting, and he didn't care about the situation around him.

Concubine Wan Qing looked confident, and Li Yun noticed one thing:

There are several powerful Void Returning Realms protecting her, and these Void Returning Realms all have constipated expressions, it seems that the Concubine Wan Qing - or the Concubine Wan Nishang forcibly grabs the strong man, and let them protect Consort Wan Qing.

In this way, even if the Hidden Sacred Valley came out, Consort Wan Qing could completely throw these Void Returning Realm powerhouses down like trash, giving her plenty of time to escape.

No wonder she can be confident.

"What nonsense are you talking about!!"

Fan Linglong almost fell to the ground without being frightened by the words of Wan Nishang, a **** woman. From the day she knew her, this stinky woman didn't have a good word on her lips!

"What!? Little lover?!"

Many Hidden Sacred Valley disciples looked at Master Linglong in shock.

"This is fake, isn't it? It must be a witch talking nonsense!"

"That is, how could our Master Linglong like that Li Yun!"

"It's impossible to think about it."

"The demon girl of the Demon Sect is too hateful, she can't beat our Master, so she will speak bad words!"

Everyone cursed one after another, trying to help their Master Linglong save face, but they didn't see that the face of Master Linglong suspended in the sky had already appeared blushing.

"Hehehe, good sister Linglong, you can hide from others, but you can't hide from sister me~"

Chapter 3014: Hidden Sacred Valley Split

Along with the laughter of Wan's neon clothes echoing around, she and Wan Qing's figure disappeared, and some of the six sects left behind were also covered by the remaining few gu worms and hurriedly fled.

As for Liudaomen, he was shocked by what Wan Nishang said, and the internal problems of the Hidden Sacred Valley itself, no one actually chose to pursue it.

A battle that was supposed to be faint and dark, just like this, from the inexplicable beginning to the inexplicable end, many Hidden Sacred Valley disciples did not even have time to drive out from the valley.

They also don't know what the Demon Gate is doing this time!

But Li Yun knew that Concubine Wan Qing's purpose must have been achieved, otherwise she would not retreat so neatly!

"ended?"

"It's strange, the people from the magic door just left?"

"Hmph, the demons are just here to test our reaction this time."

"Don't talk about the devil, haven't you found out? The aura of the outside world has really changed!"

"Indeed! I have reached the point where I can maintain my aura without diminishing, and with the formation...I can really practice!"

"I heard that Penglai Island is more aura!"

"Penglai Island is full of spirit grass..."

"Penglai Island has an ancient fairy house, what is it called Biyou Palace..."

"People from outside have not entered the Biyou Palace, we still have a chance."

After the aura broke out on Penglai Island, many people in the Hidden Sacred Valley left the world of escapism for the first time and came to the outside world, feeling the world where the aura from the outside world is gradually filling up.

Almost in less than half a minute, the discussion topic of the disciples of the Hidden Sacred Valley shifted from the Six Doors to the explosion of spiritual energy. Many people's eyes began to glow, and they looked at Fang Xue in the distance, as if they had seen it. The island that exudes colorful lights.

"Is this the purpose of the magic door?"

Such thoughts flashed in the minds of Li Yun, Fan Linglong, as well as the saints and saints.

The purpose of the six gates is very simple, it is to let ordinary disciples of the Hidden Sacred Valley feel this changing world, so that they will have a yearning for the outside world, so that they can disintegrate the entire Hidden Sacred Valley without blood.

But this also proved one thing. Concubine Wan Qing and others were very aware of the recent dispute between the Holy God and the Holy Lord in the Hidden Sacred Valley, just as the Hidden Sacred Valley knew them well.

"Hidden Sacred Valley... is about to change."

The change is faster than expected, but it is reasonable.

Turning back to the valley, the holy **** first proposed to take people out of the hidden holy valley, the holy master then supported it, and then, several elders and more than a dozen strong men of the Void Returning Realm also agreed, and the remaining hundreds of refining gods realm The disciples also chose to stand on the side of the Holy Spirit and the Holy Master.

Fan Qingsheng remained silent about this. Her master Fan Linglong blinked, gritted his teeth, and seemed to object in anger, but finally looked at her disciple and then at Li Yun, then chose to leave and return to her little girl. In the building.

The saint who had always chosen to stand on the side of the valley master in the past was also silent this time.

In the end, only the owner of the Hidden Sacred Valley and a small number of old-fashioned old people chose to stay in the Hidden Sacred Valley and continue to maintain an escape barrier.

The two sides separated in this regard.

Because the treasure house was stolen, the most valuable thing in the Hidden Sacred Valley is only the treasures in the hands of everyone. The rest of the books, magic weapons, medicines, etc., the holy gods and other people who left are not wanted, only some of them are taken away Personal belongings quickly left the Hidden Sacred Valley.

Chapter 3015: Closed

The departure of the Holy Spirit and the others was so silent, almost after mutual confirmation with the conservative line, they left the world of escape barrier, not knowing when they will come back, perhaps they will never come back again.

Li Yun took a cursory look. There are only about 500 people left in the Hidden Sacred Valley today. Those who left may still consider themselves to be from the Hidden Sacred Valley, but if they create any school in the outside world in the future, or recruit outsiders Disciple, develop your own family.

Then, these people who founded the sect, I am afraid that they will never return to the Hidden Sacred Valley.

Li Yun even wondered whether these people who left the Hidden Sacred Valley would assist the six gates, find the gates of life and death together, and open all the remaining six gates of life and death, so as to make the global aura more energetic.

In any case, those who left will no longer be bound by the rules of the Hidden Sacred Valley, and are truly "free".

"From today onwards, the Hidden Sacred Valley is closed, and those who have left can never come back before the external movement ends!"

"You... Practice your own practice."

After leaving a tired word, the Valley Lord of the Hidden Sacred Valley disappeared and returned to the place where he was retreating, seeming to have been completely disappointed with the current Hidden Sacred Valley.

The backbone of the Hidden Sacred Valley has left, leaving most of them old, weak, sick and disabled. This is a choice made by the vast majority of people, and he can't stop him alone. It's normal to be frustrated.

Li Yun stood on the spot, looking at the rest of the people. After they were silent for a while, an old man said bitterly: "At least we are quiet now. There are valley masters who are holding the celestial ascension order to hold on to the valley. Will come to disturb us."

In today's Hidden Sacred Valley, people run at odds and ends, and the treasure house is also stolen. The so-called holy land is just a barren land full of aura. With Penglai Island, it is unattractive.

The only place worth peeking at is the order to ascend immortals in the hands of the holy master of the hidden holy valley, and the jade disc fragments handed down by the saint, but the jade disc fragments have been used to open the gate of life and death on Penglai Island. It doesn't matter anymore.

As for the Shengxian Order...

As the only immortal weapon in the world, the power of the Ascendant Order is beyond doubt, but to use the Ascendant Order, you need to use a Soul and Bright Realm abbot, plus more than a dozen Void Returning Realms and a lot of aura support, unless the six gates are used as a whole. Attack, otherwise the promotion of immortality will have no effect on a single person.

It can be said that today's Hidden Sacred Valley... has decayed.

"Not so pessimistic."

An old man cheered up and looked at the children around him with a smile on his old face: "At least we still have children. They are the last hope of the Hidden Sacred Valley!"

Many old people nodded one after another. There were about a hundred of these children, all orphans who came in from the outside world, and they could only rely on the Hidden Sacred Valley.

At least until they grow up, they can only rely on the Hidden Sacred Valley.

In addition, the saint Brahma Qingsheng, undoubtedly stayed at the end, clinging to the pure land of the last hidden sacred valley.

As a symbol of the hidden sacred valley, the existence of the saint will undoubtedly give the hidden sacred valley a last bit of light.

Sage Fanqing was silent for a while, and whispered softly: "I will leave here too, but I am sure that I will always be the saint of the Hidden Sacred Valley."

Even though he chose to believe in Li Yun before and wanted to resign from the position of saint, Fan Qingsheng never thought of abandoning the hidden sacred valley.

Many old people looked at her with satisfaction, and after encouraging each other, they left here one after another with fearful children.

The hidden sacred valley returned to calm.

The calm this time may last for a long, long time.

Chapter 3016: People's hearts have changed

Li Yun and Fan Qingsheng returned to the small building, and Qing Zhu, who had been waiting eagerly for a long time, greeted her with joy, but soon thought of the dark face when Master Linglong came back, and her mood became heavy. .

"Master Saint." Qingzhu asked in a low voice, "It seems...what happened?"

From when the enchantment was attacked to when the Holy Spirit led the people away, less than two hours passed. To be precise, from 8 o'clock in the evening to 12 o'clock in the evening, after 12 o'clock, the Holy Spirit and the Saint Master and others Then left the hidden sacred valley.

Qingzhu did not follow, nor did she participate in the "dividing". She stayed by the small building and waited uncomfortably.

"Qingzhu."

Li Yun felt a little distressed for her, and went forward to hug the lively and lovely little maid in her arms, hugged her tightly, and comforted her: "We will live here tonight...The Hidden Sacred Valley has fallen apart. Let's discuss what we are going to do in the future."

"Ah!!?" Qingzhu exclaimed, his astonishment overshadowed the shyness of being embraced by Li Yun, and looked at him in disbelief.

"Well, wait, or I will tell you tomorrow."

Li Yun took the two women to the small building. There was no light upstairs, and it was dark. After Li Yun turned on the light, the light reappeared in the small building.

"Qingsheng, you..."

"Go ahead."

Before Li Yun finished speaking, Fan Qingsheng understood what he meant, stretched out his hand and pushed him, and motioned Li Yun to go in alone to comfort Master. She stayed outside to talk to Qingzhu about the matter.

This scene made Qingzhu more uneasy, but fortunately, the Saintess was still with him, barely able to stabilize his emotions.

"it is good."

Li Yun nodded and walked into the inner room.

Fan Linglong did not sleep. She sat alone on the balcony of the second floor bedroom, quietly looking at the sky, even though the moon was shrouded in dark clouds, the sky was dark and dark without a trace of moonlight.

But she still looked at the sky in a daze.

"exquisite."

Li Yun kept his tone as calm as possible. After walking over, he directly hugged the beautiful and sad Yujie, hugged him in his arms, and sat on a stool with her.

".....asshole."

Fan Linglong struggled for a while, did not break free, angrily, she opened her mouth and bit towards Li Yun's shoulder, like a hamster, biting tightly.

"..."

After a long time, Fan Linglong suddenly let go of her mouth, began to cry, and hugged Li Yun hard, looking at him with tears: "Why, why..."

"There is no why."

Li Yun kissed her on the cheek, and patiently comforted: "There is no immutable truth in everything in the world. People have birth, old age, sickness and death. Of course, a sect has also developed and prospered and ended. It's just that the time has come and people's hearts have changed, and that's all."

"...You talk nonsense!"

Fan Linglong kissed him back, very hard, crying and kissing, as if to incorporate Li Yun into it.

The movement of the two on the balcony was so great that Qingzhu, who listened to the gentle explanation of the lady, couldn't help but look at the inner room, feeling extremely surprised, wondering if the big villain was bullying Master Linglong.

"feel better now?"

After Li Yun hugged Fan Linglong, who was gasping for breath but still had tears remaining in his arms, he asked softly.

The beautiful elder sister shrank in his shame, her tears were not dry for a long time, she stared at the sky blankly.

After a long time, Fan Linglong spoke softly:

"I'm an orphan. My parents died because of the war. An aunt... is still an aunt and sold me to the city."

Chapter 3017: The story of Fan Linglong

"Um."

"When I was ten years old, Master said that I was very qualified, and brought me back from the outside world, brought me around, and took care of me for 20 years... Actually, I left Master at the age of 30 and returned to the outside world alone. The cause and effect of the outside world and relatives."

"...I burned that sale deed, hehe, it only cost less than twenty taels of silver, but it was held in my heart for twenty years."

Li Yun listened patiently to Fan Linglong's murmur, and occasionally cupped her cheeks. The two began to kiss, and then let go of the kiss until they couldn't breathe. Fan Linglong panted and continued to tell her previous story.

Including traveling to the outside world, but also life in the Hidden Sacred Valley.

"You know? At that time, I really didn't have the motivation to live...If it hadn't been for the little princess in the palace, that is, Zhu Shue you saved, you might not have seen me today."

"The little princess has a very special physique. She is a rare Xuanyin physique. She shouldn't have appeared in the world. Even in ancient times, this physique is rarely recorded."

"I wondered if she was the key to solving a certain mystery in the future, so I sealed her up... You ask me why, I don't know why, maybe it's because her optimistic spirit touched me."

"Pan Suyi? I did seal a female ghost in Zhonghai City. At that time... a very strange thing happened. I vaguely felt that there was an inexplicable suction between the sky and the earth, which took Pan Suyi's soul away. I didn't know what happened. I wandered and searched Zhonghai City for a while, but I came back after no results.

Ah? She went to Guimenguan? The entrance to the legendary Netherworld?

Is it related to six doors? They are said to have mastered samsara in ancient times, but they are long gone. "

"First, first... kiss me, and then continue to say... well."

This evening, Fan Linglong's extra enthusiasm, or the depression and sadness in her heart, let her vent in this way.

Even Fan Linglong herself couldn't imagine how she would spend the days when the Hidden Sacred Valley was split without Li Yun by her side.

Every time I think about it, Fan Linglong will cherish the man in front of him more and more and hug him tightly to express his feelings for him.

She finally put everything down and plunged into Li Yun's arms.

"Ding, congratulations to the host for getting the fifteenth girl's full favorability, and rewarding a red envelope!"

...

Qingzhu, who was sleeping in the living room, suddenly heard some strange noises, choking, choking, crackling, like a monster was hitting something, she got up in a daze, listened to it, and found that the sound was It came from the inner room.

Because this voice also contained a suppressed low groan, Qingzhu subconsciously felt a little worried, and got up and walked a few steps to the inner room.

"wrong!"

The little maid woke up suddenly!

Isn't the inner room the same room where the villain slept with Master Linglong?

The two of them actually...

Qingzhu's small face turned red all of a sudden, she listened to her ears, the blush on her small face and the speed visible to the naked eye spread, scared she quickly returned to Lord Saint, covering her ears with a quilt.

But this kind of voice seemed to permeate her ears.

Qingzhu quickly put down the quilt again, both eyes dizzy, giving up resistance, letting the magic sound fill his brain, and waiting for the end.

Wait till dawn.

Chapter 3018: Got caught

After Saint Fanqing got up, Qingzhu was still asleep, and Li Yun and Master in the inner room did not get up either.

This makes her quite strange. In the past, Li Yun was the first to get up, but she was late today.

After a simple wash, Saint Fanqing entered the inner room.

At a glance, I saw Master's messy room. It became more and more messy. All kinds of things were thrown away, clothes were all over the floor. There was a strange strange smell in the room, which made the Sanctuary who loves cleanliness wrinkled. Frowned.

However, she was not too disgusted, she had already smelled it, this was the mixed smell of Li Yun and her master.

"...Master?"

Sage Fanqing glanced on the big bed and knew what the two experienced last night. However, after she glanced at the bed sheet and found no red blood stains, she was sure that nothing really happened last night.

"Qing Sheng."

Li Yun's voice sounded, and Sheng Fan Qing was pulled into the bed by him, and he was hugged and kissed.

"Will you blame me?"

Li Yun was quite embarrassed.

Nothing happened to him and Fan Linglong last night, but everything that should have happened happened. Even Fan Linglong wanted to dedicate himself, but Li Yun did not agree.

Because of Fan Linglong last night, her state was obviously not normal. She wanted to vent her inner sadness more than she wanted to exchange feelings with him.

Therefore, Li Yun just messed with her last night and didn't eat her.

Although the nonsense was a bit longer, it was longer than four hours, reaching as many as six hours.

".....get up!"

Fan Qingsheng stretched out his hand and nodded on his forehead, and did not answer Li Yun's "boring and not worth answering" question.

For her, this result is the best. In the future, she can be with her master again, and her master will no longer be alone.

Li Yun gave a chuckle, carefully rolled over and got up, helped to sleep beside him by the way, wrapped his hands and feet around his Fan Linglong and covered the quilt, bowed his head and kissed her on the forehead, and said "Linglong, you continue to sleep". , Just left this Fan Linglong bed.

After seeing the inner room of Fan Linglong, full of traces of the battle last night, Li Yun couldn't help but blush, put on his clothes and tidied up.

Suddenly, Fan Qingsheng said: "Li Yun, are all men like this?"

"what?"

Li Yun didn't hear her clearly.

Fan Qingsheng pointed his finger at him.

"..."

Li Yun was completely embarrassed!

The cold and beautiful sage lady pointed to him and said why you are so, so that Li Yun has a feeling of being so, what and what, which is embarrassing on the contrary.

"Ahem! How do you say it, it's okay."

Li Yun hurriedly went over and put on his pants.

As for the question of Qingsheng...she will experience it personally in the future.

"Did you go to the end with Master last night?" Fan Qingsheng asked again, like a good, studious child.

".....no."

"Then why is there such a big movement?"

"Cough cough cough cough."

After being chased by Lord Saintess and asking a few questions, Li Yun was able to go to the wash.

Ming Ming Qing Sheng didn't arrest the girl and **** him, but these problems made him more uncomfortable than arresting Li Yun.

However, is Qing Sheng also at the age of being curious about these things?

Whenever you wait, Li Yun will have a good chat with her again.

In the past, when he and Qingsheng were dating together, they were very rules, but judging from Qingsheng's curiosity this morning, she seemed to have some differences unconsciously and wanted to have further ideas.

Chapter 3019: Concubine Wan Qing, come out to see me

In terms of the character of Fan Qingsheng, if she wants to go further, she will say it straightforwardly.

Now I only asked Li Yun to prove that she was only dimly feeling the things between men and women, and didn't really want to take the last step.

So Li Yun was not in a hurry, and talked with her slowly when she really felt the need.

Li Yun directly used Fan Linglong's toothbrush and towel to wash it off. He and Fan Linglong had done more intimate things last night. At this moment, she will not feel any strange thing about using her toothbrush.

Moreover, practitioners above the Qi level can be completely free of dirt. Toothbrushes, towels and bathing are just the habits of ordinary people. Li Yun is sure that Fan Linglong usually does not need a toothbrush. This is what you buy. Eat ashes.

After washing and washing, Li Yun and Fan Qingsheng came to the outhouse, Liu Fan Linglong continued to rest inside. She experienced those further things for the first time last night, and she was rather exhausted.

"Where is Qingzhu?"

Li Yun asked casually, came to the window and glanced down, only to find the smoke rising from the kitchen, it seemed that the little maid was making a fire for breakfast.

Cooking smoke brings popularity and dilutes the bleak atmosphere of the Hidden Holy Valley branch last night.

Sage Fanqing did not read a book, but followed Li Yun and stood by the window.

"Qingsheng, what are you going to do in the future?" Li Yun held her catkin and asked softly.

The Hidden Sacred Valley was split, and the Six Demon Gates seemed to be controlled by Concubine Wan Qing with a strong group of powers. The duties of the Saint Fanqing were suddenly lighter, and she could have more private time.

But Li Yun knew that it was impossible for her to completely abandon the Hidden Sacred Valley.

"go out."

Sage Fanqing said: "I want to watch the changes in the outside world at all times. If the situation changes, I will come back."

"Well, then follow me. We will also call out the Master. The Hidden Sacred Valley will leave the Valley Lord and the Saints to sit down. It should be no problem."

Li Yun frowned and muttered to himself: "Concubine Wan Qing has done too much this time, Qingsheng, I have to go out. If she...should be waiting for me outside!"

If Concubine Wan Qing's favorability is still true, then she should be still outside, waiting to give Li Yun an explanation, otherwise, Li Yun's impression of her will directly drop to the lowest point.

"Don't blame her." Fan Qingsheng shook his head, but then said: "It's okay to go out and see what she says."

"You want to go too? It's okay, then let's go, let's go out together!"

Li Yun joined hands with the Sage of Vatican and flew to the entrance of the World Escape Enchantment. Although the Lord Gu said that it is forbidden to return after going out, this prohibition does not include the saint.

Sage Fanqing easily opened the barrier and took Li Yun out to the outside world again.

There are traces of the battle between the two former saints remaining in the valley. The violent thunder must have attracted the attention of Hangu Pass, but now that there are more and more monsters in the wild, no one might be surprised.

"Wan Qing concubine, if you are not dead, get out and see me!"

Li Yunqing yelled, the voice echoed around, but no one responded, only the early morning birds were singing, as if they were laughing at him.

But Li Yun still doesn't believe in evil:

"Concubine Wan Qing!"

"I count three times. If you don't come out, I will immediately turn around and leave, one!"

Sage Fan Qing looked at Li Yun unexpectedly. He was really confident that Concubine Wan Qing would wait nearby? When did his relationship with the Liudaomen saint become so good?

Chapter 3020: Mutual trust

"two!"

"three!"

"Little villain~!"

The three-character landed, and an angry woman's voice came from a distance. Then, two weird villains suddenly appeared in front of Li Yun, and the sharp blades in their hands rushed straight towards his throat.

"Master, don't!"

Concubine Wan Qing hurriedly yelled, but Li Yun didn't move at all. Instead, she showed a bright smile: "Wan Nishang, if your woman dares to do something, then your apprentice Consort Wan Qing is blind to you."

Sage Fanqing looked into the distance coldly, and beside Concubine Wan Qing, another woman covered in black gauze appeared. It was the person who fought with her master last night and was the one who injured her master a hundred years ago: Wan Neon clothes!

The two saints of Liudaomen had already stayed near the hidden sacred valley. If the saints who had left before knew about this, he would definitely not leave so early.

Who would have thought that the two saints of the Demon Gate would stay out of the valley for one night for the sake of a man?

"Huh, boy, you are very confident!"

An unhappy old-fashioned Hengqiu sound was made from her mouth, but Wan Nishang still took the Heavenly Demon puppet back.

She admitted that she was indeed surprised by Li Yun's reaction.

Concubine Wan Qing insisted on staying last night, saying that the **** Li Yun would definitely come out to meet her, at most, waiting for one night to punish her for her self-assertion behavior, but Li Yun will come out anyway.

As of this morning, this man named Li Yun vowed to let Concubine Wan Qing come out as soon as he came out. The mutual understanding and trust between the two undoubtedly moved Wan Nishang.

Especially when she and her apprentice brought people to attack the Hidden Sacred Valley last night, this little man named Li Yun still trusted Concubine Wan Qing.

Even the ones who believe she is wearing neon clothes!

From his indifferent attack on the Heaven Demon puppet just now, it can be seen that Li Yun, because he believes in Concubine Wan Qing, also trusts her, the demon girl Wan Nishang.

He scolded him as a kid, but in Wan Nishang's heart, there was already a long-lost warm feeling.

Except for her daughter Wan Qing, she has not been trusted by others for a hundred years.

If she and Fan Linglong had such a tacit understanding a hundred years ago, how could the two of them develop to the point where they are facing each other?

"If I don't believe Concubine Wan Qing, I won't come out."

Li Yun glanced at the system attribute column. Concubine Wan Qing's favorability rating of 99 points was one of the reasons why he dared to come out.

Of course, even if there is no systematic favorability, Li Yun is actually willing to trust Concubine Wan Qing, but he won't be so swaggering to ignore the attacks of Wan Nishang, and he still has to guard against it.

Concubine Wan Qing's expression is complicated. Even she herself doesn't know why she trusts Li Yun so much. In her mind, she thinks of the little girl Wan Qingya. No wonder Wan Qingya fell in love with Li Yun since she was born. It turns out that she has already treated Li Yun. Yun's... memories and emotions were completely passed on to Wan Qingya.

"Hehe, little handsome boy, you said it very nicely. I was very moved by the poor woman who had been outside for a night in the northwest wind."

Moved in my heart, but naturally refused to admit it.

If Wan Qingya were there, she would definitely laugh out loud and laugh at her insincereness.

Li Yun was a little embarrassed, but he still had reason to say: "You inexplicably brought someone to the Hidden Sacred Valley last night, what happened to you all night? If you weren't here to wait for me this morning, I plan to see you in the future. I'll just have a fight!"
