

## Godly Choice 3071

Chapter 3071: Grocery shopping

Li Yun chatted with her in the small living room, and time passed unconsciously.

Suddenly, Li Yun heard two cooing sounds, and looked down at the source of the sound: it was from Shan Xiaoxiao's belly.

"Yeah~ I'm hungry."

Shan Xiaoxiao embarrassedly clutched his stomach, "Talking with Dad really doesn't feel like time has passed at all, Dad, shall we go to dinner?"

Li Yun hugged her and stood up, and asked casually, "You didn't eat breakfast in the morning? Oh, yes, children are hungry fast."

"People are not kids~"

Shan Xiaoxiao hugged Li Yun and said comfortably: "I had breakfast, but only drank a little millet porridge. Xiaoxiao wants to keep in shape~"

"What the \*\*\*\* is it? What figure do you want to keep as a kid! Give me a good breakfast from now on, have you heard?"

"Daddy is my dad, I just listen to my dad."

"If you don't be a father, you have to listen to what your brother said!"

Li Yun said something badly, and finally let her promise to eat breakfast later, and both of them had already arrived at the kitchen door.

Shan Xiaoxiao rubbed his face on Li Yun and suddenly looked at him and said, "It's nice to have Dad caring."

Li Yun paused, and sighed in his heart, "Okay, it's okay to be your father, but it's just a godfather."

It means it has nothing to do with her mother Shan Ruqing.

"It's not a godfather, it's a real father, it's a stepfather!"

Shan Xiaoxiao smiled and was not in a hurry. In short, after moving to Zhonghai City, he would have a lot of time for his father and mother to walk together.

After entering the kitchen, Li Yun found that there was nothing in the refrigerator. The female bodyguard walked over and said apologetically: "Auntie asked for leave during the day and only came back at night. Xiaoxiao originally ate at school at noon."

"what....."

Shan Xiaoxiao's mouth was wide open, and her voice was long and long. She was already looking forward to having lunch at home with her dad, but the cooking aunt asked for leave!

"Ah what, it's okay."

Li Yun waved his hand and turned and walked out: "Isn't it enough for my brother to take you to buy vegetables? Oh, yes, I will cook first, and then I will cook when I come back, just right."

"!!!"

Shan Xiaoxiao's eyes widened and she looked at her father in disbelief, making Li Yun quite amused, and put her on the kitchen floor to prepare to cook.

After a while, Shan Xiaoxiao's dull voice came from behind: "Brother, do you know? I never thought about going shopping with my mother and family."

Li Yun took the rice cooker and looked back at her, staring at each other with Shan Xiaoxiao's lonely eyes.

"Mum, she is... very good, really, mother loves me very much." Shan Xiaoxiao bit her lip, tears brewing in her eyes: "However, her mother has never been to a vegetable market, and she rarely does it herself. The meal is given to Xiaoxiao. She always says she wants to work and give Xiaoxiao the best and best life. Even if she watches TV in the living room with Xiaoxiao, she often looks at it with a bunch of company documents."

Li Yun admits that he has high emotional intelligence, but now he doesn't know how to comfort this little girl who has lost her father's love.

"dad....."

Shan Xiaoxiao plunged into him, and this time she really wiped her tears on his clothes, holding her hands tightly: "Xiaoxiao wants to cook lunch with Dad, okay?"

".....it is good."

Li Yun touched her little head, and agreed with a complicated mood.

Shan Xiaoxiao is undoubtedly a genius with a super IQ, but even a genius needs a warm childhood and will reveal the loneliness and helplessness that children can only have.

Chapter 3072: Go shopping

Adults will conceal themselves, Shan Xiaoxiao will also, but she is still a child after all, she is more willing to plunge into the embrace of her father, act coquettishly and beg his father for love.

The bodyguard outside the kitchen saw this scene and silently took out his mobile phone and sent a text message to President Shan's secretary, asking President Shan to come back at noon and have lunch together.

...

Li Yun handed the rice pot to Shan Xiaoxiao, instructed her to spoon the rice into the pot, and personally wash the rice at the tap. By the way, she also taught her the national general method of measuring the amount of water: use a little index finger to reach the country, and the water is just right. Half of the finger in the first section is the proper amount of water.

Of course, this amount of water is not absolute, and the most appropriate amount of water is slowly adjusted through the amount of rice that is cooked over and over, and the quality of the rice that is finally cooked.

Generally speaking, after the age of fifteen, ordinary people can measure at a glance how much water should be poured in the rice pot. No matter how many people eat, it is almost not bad.

"Yeah~~~ Learned another skill!"

After closing the lid and starting the high-end imported cooking pot, Shan Xiaoxiao compared Li Yun with scissor hands, her small cheeks were full of happy expressions, but the tears still faintly left on her cheeks.

"Xiao Xiao started learning at the age of eight, and it's almost time to learn for a few years." Li Yun smiled.

"Good~~~!"

Shan Xiaoxiao agreed and said expectantly: "In the future, Xiaoxiao will cook for her father, okay?"

"You don't have so much time."

"Eh??!"

Shan Xiaoxiao puffed up her mouth, "People thought that Dad would agree to it, really, Dad is not cute at all!"

Li Yun looked funny, and squeezed her bulging mouth with her thumb and index finger, and smiled: "My two sisters also liked cooking at first, but later they shied away from each other. Every time the sisters quarreled for a long time because of this. It's finally decided who will cook tonight, and I believe you will do the same in the future."

"No way~"

Shan Xiaoxiao was full of envy. She has no siblings, so she doesn't know what it's like to quarrel with her sister. My father's two sisters must have a good relationship, so they quarrel every day, right?

Hey, I really envy it. I really want to go to my father's house. It is best for my mother to move there too. Whoever loves to live in this house worth more than 50 million yuan, she doesn't like living in it, she wants to live in the big villa in Huangting Mountain!

Live with dad.

"Don't be in a daze, go, go to the vegetable market with brother!"

"Okay~~"

Shan Xiaoxiao quickly recovered her happy mood. After washing her hands, she happily ran over to take Li Yun's arm, holding her hands together, and smiling happily at her father.

Not to mention, although Shan Xiaoxiao is a big kid, she is still a little Lori in the second grade of elementary school. She smiles very cutely. Two small dimples appear on her white and tender face, which makes people have a kind of The desire to poke.

"Dad, do I need to bring change when I go to the vegetable market to buy vegetables? Isn't the vegetables special~~ especially cheap?"

"In the past, I used to bring change, but now it's all using mobile phone QR codes to pay... Vegetables, compared to your two-story house, which used to be two square meters, it's so cheap."

Li Yun has already bought a top-notch mansion in the country, but still feels that the current housing prices and prices are really separated.

It takes ordinary people to buy a house without eating or drinking for a hundred years. Some urban aborigines live in houses worth tens of millions. When they go to the vegetable market to buy vegetables, they even need to make up their minds to buy a catty of pork.

Chapter 3073: Vegetable market

Li Yun went downstairs with her. Shan Xiaoxiao was still asking questions: "Dad, Mom said that the vegetable market is very dirty and messy. Should we go to the vegetable market or the supermarket to buy it? The supermarket... it seems that Xiaoxiao didn't go there either. After that, my mother said that there are a lot of people in the supermarket. Dad will take me to the supermarket later.

"Wait later, it's not just today."

"Ah? Hee hee hee, that's right, dad will stay with Xiao Xiao in the future, don't worry~~~"

Shan Xiaoxiao became happier, put Li Yun's arm tightly, and asked: "Dad, then we are going to the vegetable market?"

"Correct."

Li Yun smiled helplessly: "What the mess is your mother's bad rhetoric, so many people go shopping, why is it so messy that you can't buy vegetables? Xiaoxiao, don't believe your mother's words !"

"Yes~~~ Hee hee, mom is a badass, deliberately cheating Xiaoxiao!"

The two bodyguards in the distance heard Xiaoxiao's words vaguely, and after looking at each other, their faces were full of wry smiles.

I don't know if President Shan, who cares most about and loves Xiaoxiao, is called a big badass by his daughter after returning home. I don't know what it feels like. Will he take a knife out of the kitchen and fight Li Yun desperately...

"Dad, where is the vegetable market?"

As if it was the first time to go shopping, the little girl with Li Yun's arm was curious about everything, her big smoky eyes peering at the side of the road.

"Xiao Xiao, remember, there is a vegetable market where people live, even in Huangting Mountain!"

There really is a supermarket specializing in vegetables, meat and seafood in Huangting Mountain, but the wealthy people there are not bad money. The top ingredients that are transported by air from overseas are all pediatrics. Li Yun also saw people eating wild animals in the Huangting Mountain owner group. I went to the non-Heizhou state, hunted with a gun, and proudly uploaded pictures to the owner group.

This group of rich people pretend to be in front of ordinary people, but in a community, they are all in front of the same kind of people, and their personalities are just like ordinary people. They all love to show off, love to play, and love to compete.

Li Yun is too lazy to bubbling in the group, otherwise every time he bubbling, there is a burst of "Director Li is good." "Li is sensible and young and promising. When will we have a meal together?"

"Senior Li, this is my daughter [picture], she is about to take the college entrance examination recently, so I want to ask sensible Li for advice!"

Li Yun didn't know what your daughter's college entrance examination had to do with how your daughter looked like, so he didn't bother to bubble up and dive silently.

"Oh~"

Shan Xiaoxiao looked around, and suddenly the little ghost said with emotion: "I always think the vegetable market is so powerful, Dad, let's go fast, and I should go and visit the vegetable market!"

"..."

How good is the vegetable market?

Li Yun might have felt this way ten years ago. It was indeed a dazzling illusion when he entered the dazzling vegetable market for the first time, but it was just like seeing more, and most things were not needed.

"Go! Let's speed up our pace, or your mother will come back."

"Uh-huh!"

Shan Xiaoxiao stepped on his short legs to keep up with Li Yun's pace, and happily followed to the vegetable market along the way. He soon saw a large shantytown with a sign hung up high and it said "Beiyun Market" "Four big characters.

"Wow...ah, this is the vegetable market!"

Shan Xiaoxiao opened her mouth wide in surprise, and made some people who came to buy groceries take a curious look, and was amused by her innocent appearance.

"Well, this is the legendary very powerful vegetable market." Li Yun replied solemnly.

"Hehe~, Dad is bad, making fun of others~"

Chapter 3074: seafood

Under Li Yun's leadership, Shan Xiaoxiao finally entered the vegetable market for the first time.

It is a pity that although the vegetable market is open at noon, there are very few people who set up the stalls. After all, everyone is working at noon. Lunch is usually what was left in the refrigerator last night.

Some workers can't come back at night, and they all choose to buy food in the morning before going to work. Therefore, the vegetable market has the most people for breakfast and evening, and the least at noon.

"So it is!"

While listening to her father's explanation, Shan Xiaoxiao looked around curiously. In addition to some vegetables on the stall, there are also some small hardware shops, selling pots and pans, electric fans, woks, rice pots, and so on. There is a row of dozens of small shops selling snacks and toys.

There are some pickled foods on the right, but Shan Xiaoxiao complained to her father very quietly, saying that those pickled foods weren't very clean, and it seemed that her mother was right.

"It's the way the pickling is. It hasn't been industrialized. It's all pickled by the elderly. And the elderly...cough cough, Xiaoxiao, you have seen it too."

People of the older generation usually don't pay much attention to hygiene because of their poor life in the past. Li Yun can understand that he usually pretends not to see when buying vegetables. Otherwise, people with cleanliness may not be able to buy them at the vegetable market. To something.

"Hehe, Dad, we don't sell marinated, let's go buy fish!"

Shan Xiaoxiao was very interested in the seafood stall on the other side, pulling Li Yun into it, and suddenly felt a fishy smell, which was much richer than the smell when he went to the beach, and there was still some trash that was not cleaned up. Shan Xiaoxiao couldn't help frowning because of the strange smell.

Before she came, she wanted to hold back, but the smell was really uncomfortable. It smelled worse than in the cave at the time. It is hard to imagine how these fishmongers squatted at the stalls all day to endure it.

"Is it uncomfortable?" Li Yun chuckled lightly, did not do anything to block her mouth and nose, nor did she give Xiaoxiao a mask before coming.

Isn't the reason why people come to the "civilian" vegetable market just to experience the smell of human fireworks?

Shan Xiaoxiao had no father since she was a child, and her mother spoiled her to her bones. Although Shan Xiaoxiao was extremely smart, she had some superb "princess" taste-referring to the fact that her fingers did not touch the sun and spring water, and she was too protected.

So Li Yun took this opportunity to take her to the vegetable market to experience the lives of ordinary people.

Although Xiao Mingzhu Gong Qingyu was born as an eldest lady, they were taught by their parents, unlike Shan Xiaoxiao.

"It's okay~"

Shan Xiaoxiao said angrily. She didn't reach out to pinch her nose, but tried her best not to breathe.

Li Yun laughed and took her to pick a lobster.

The lively, crystal-clear lobsters quickly attracted the little girl's attention. She squatted on the ground and caught those lobsters with her tender hands that had never done housework before.

Even the stall owner's aunt looked at this little girl from a good background, and was a little worried, and reminded: "Little sister, be careful, the lobster's head is stinged!"

"Hee hee, it's okay... Hey, this shrimp can still jump!"

Aunt the stall owner: "..."

"Aren't the prawns that can't jump dead? My stall doesn't sell dead shrimp!"

"Hehe, I'm sorry, Xiaoxiao saw a live shrimp for the first time."

Chapter 3075: Buy buy buy

The stall owner smiled and said, "The little girl has a sweet mouth, do you want to buy a catty? Auntie will give you 5% off!"

"Okay, okay, dad, shall we buy two catties and go back?"

Shan Xiaoxiao, who was squatting on the ground, raised her head and looked at Li Yun expectantly.  
dad?

The stall owner's aunt glanced suspiciously at Li Yun, how did she feel that she was the girl's brother instead of her father, too young.

"Two catties can't be eaten." Li Yun said.

"Buy it, buy it, it doesn't matter, just treat it as supporting auntie's business, there is a large refrigerator at home, you can put it in and eat slowly!"

"... OK, then two catties!"

"Okay!"

The stall owner doesn't care so much. Two catties is a big deal. It is too expensive for ordinary people to buy half a catty. After all, lobster is seventy or eighty yuan per catty. Everyone can afford it, but they are not willing.

"Dad, is this fish a loach?"

"It's called rice field eel, um, it's better to make rice field eel porridge."

"Huh? Then let's buy it too, I love millet porridge the most in the morning!"

".....purchase!"

"Dad, that fish is so big, is it on the sea? What kind of fish is it?"

"Dad doesn't know, just ask Uncle."

"Uncle Uncle, how much is this fish? What kind of fish is it?"

There was no one at noon. The sweet and lovely little Lolita was walking around the seafood stall, her voice was crisp, and she was generous in her shots. Soon the seafood stall owners turned their attention to her.

"Little girl, I have fresh hairy crabs here, they are so delicious!"

"Little sister, grandma has oysters for sale here."

"This, this, this is a school of small fish just caught in the sea, it's so delicious!"

Along the way, Shan Xiaoxiao enjoyed the princess-like treatment. When he saw any interesting fish, he waved his hand and bought it!

Li Yun couldn't laugh or cry. He couldn't mention so many things a long time ago, so he could only hand it over to the two bodyguards behind him.

When the bosses of the seafood market saw this scene, it was not easy to confirm the identity of the little girl. There were actually two women who seemed to be bodyguards to follow. The identity background was definitely stronger than they could imagine.

As a result, the promotion became more vigorous, and I wished to sell all the things in the booth to Shan Xiaoxiao.

"Go, go, buy enough fish, let's buy vegetables!"

Li Yun hurriedly took Shan Xiaoxiao and ran away. The little girl also realized that the uncles and aunts around her were abnormal, and smiled and ran with her father.

When I came to the vegetable stall, the vegetable sellers here were more enthusiastic. They all came to sell all the beans. The green onions, \*\*\*\* and garlic were stuffed into Shan Xiaoxiao's hands for no money, saying that they would be used to make fish.

"..."

After some tossing, Li Yun finally walked out of the vegetable market with the contented little girl.

The two bought a lot of things. Not only did the two bodyguards who followed them carried a lot, but Shan Xiaoxiao even had a few bags in her hands, and she was still biting a small half of cucumber in her mouth. They ate very well. happy.

"Don't eat too much, and have lunch later." Li Yun reminded helplessly.

"Yes~~~! Dad, let's go quickly, mother should be back, and we will give her a big surprise at that time!"

"Okay, let's go."

...

"President, here it is."

Shan Ruqing, who closed his eyes and rested in a BMW commercial vehicle, was awakened by the secretary's soft call. After opening his eyes, she had returned to the downstairs of the community.

"You go first, and pick me up at two o'clock in the afternoon."

Shan Ruqing opened the car door and walked out, instructing the secretary.

The secretary looked at the exhausted look on the president's face for a few times, and finally couldn't help but said: "President, would you like to take a rest for the afternoon? You worked online until late last night. Wouldn't it be too tired to get up so early this morning? ..."

Chapter 3076: Shan Ruqing

"fine."

Shan Ruqing waved his hand, "The company has recently encountered a vicious acquisition. I can solve it. There will be nothing wrong with the company. You don't need to worry."

I didn't mean that, I was just worried about you, President.

In the end, the secretary didn't say anything, and someone drove the car obediently.

Everyone knows that President Shan is a young female president who doesn't smile, act vigorously, and hates men.

Starting from scratch, she has pushed the company's market value to 50 billion in just a few years, and the board of directors, as well as a large number of senior executives, are almost all strong women. Everyone has become accustomed to working under the instructions of the prestigious single president.

Nowadays, the company is encountering difficulties. If the president alone takes a break, the start-up will soon become popular. Some people want to sell the company and leave.

Therefore, anyone can fall, only President Shan can not fall!

Shan Ruqing watched the secretary drive away, turned and walked upstairs, entered the elevator, and pressed the familiar number on the 18th floor.

Seeing the elevator button that represents the 18th floor lit up, a warm current slowly flowed out of her heart.

On the 18th floor, she has the most important and only pillar for survival. Her good daughter, Xiao Xiao, is waiting for her at home.

It's just that today, while a warm current is rising in her heart, Shan Ruqing's heart can't help being a little messy.

In her home, there is another man.

That man is probably playing games with her daughter now, Xiaoxiao likes him very much, and maybe smiles very happily, as if he is really her father, will sit on top of his head and ride a horse, and will jump into him. Li acted like a baby.

Like a real father and daughter.

Her home may become more like a home.

"calm."

"Shan Ruqing, you have to calm down."

"You can't expect anything else from him just because he saved you!"

Shan Ruqing slowly closed her eyes, and forcibly reminded herself of the words that the \*\*\*\*\* man had said to her with a sneer, and the cruelty of the cold-blooded man when he turned and left.

These memories that she would never take the initiative to think of in the past, and even would be extremely disgusting, now became her means to resist the men in her home to approach her and warm her.

This has to be said to be a kind of irony.

Ding.

When the elevator went up to the 18th floor, Shan Ruqing cleaned up the expression on her face and returned to the indifferent and serious look of Xiaoqing Fashion Group president who walked with the sound of wind and thunder.

When she came to her door, Shan Ruqing stretched out her hand and rang the doorbell.

The anti-theft door was closed tightly, but Shan Ruqing seemed to hear her daughter cheering behind the door. She must be happily rushing to open the door for her, right?

Sure enough, within five or six seconds, the door was opened, and her daughter's sweet smiling face appeared in front of her.

"Little."

Shan Ruqing's eyes softened. For this smiling face, no matter how hard and tired she was, it was worth it.

"Mom, you can count as coming back. It's so slow. Come on, let's have lunch with Dad!"

Shan Xiaoxiao pulled her inward, but Shan Ruqing couldn't hold her daughter's pull, so she could only step on high heels and was forced to enter the door, closing the door with her other hand.

There is no need to go to the entrance of the restaurant. Under the bright and spacious light, Shan Ruqing saw the gentle smile and handsome face man at a glance, sitting on the stool by the dining table, looking at her with clear eyes.

"you....."

When the words came to the lips, Shan Ruqing didn't know what to say, saying hello, and he seemed too virtuous, calling the name directly, and too enthusiastic.

In the end, Shan Ruqing could only say a little: "Thank you for coming to accompany Xiaoxiao."

Chapter 3077: Dinner with mother and daughter

Li Yun smiled and looked at the female president who had once met each other.

At this moment, she was completely different from the pessimistic appearance of being in the cave before, not having enough to eat and dress, and fear of hopelessness.

Shan Ruqing is already tall, and now she is wearing a pair of black high heels, a small professional suit, and her slender legs are wrapped in black stockings. His exquisite facial features combine to create a cool temperament. The expression of the power-holder who belongs to the female president is moving.

This is definitely a stunner that a man wants to conquer.

Of course, Li Yun is not included.

"Why are you so polite? Come on, sit down!"

Li Yun greeted her to sit down, and only after Shan Ruqing sat next to her daughter did she realize that something was wrong: This is obviously her home!

Why is it that now Li Yun is the host and she is the guest?

This \*\*\*\* is really...you're not welcome at all, he takes himself as his master!

Shan Ruqing's nervous mood before relaxed, Li Yun, this guy is not very powerful, but there are a large group of women around him, it can be seen that he is a glib man, and she can guard against it.

"Oh oh oh, finally eating~~~"

Shan Xiaoxiao was so happy. She had her mother sitting on her left and her father on her right. A family of three was sitting at a table for dinner. Is there anything happier in the world?

If so, it must be dinner with Mom and Dad~!

Even... sleeping together, hehe.

"What a giggle."

Li Yun slapped the little girl's head with a slap, and the overwhelmed Shan Xiaoxiao suddenly pouted: "Dad, how come you hit someone again? They obviously didn't do anything wrong... Well, they didn't think of anything to make Dad. Mother sleeping next to Xiaoxiao together!"

Li Yun was shocked, "You are not arrogant!"

"Whee."

Listening to her daughter's innocent and lovely words, Shan Ruqing's face slowly turned red.

This child always wanted to match her with Li Yun, and all kinds of fantastic ideas came.

"Xiao Xiao, don't smirk, go and serve your mother! By the way, also give your father...no, I will serve a bowl for my brother!"

"Hey?" x2

Both mother and daughter were surprised at the same time.

Looking at her mother, Shan Xiaoxiao suddenly realized, "Woo, my mother used to serve me meals, Xiaoxiao didn't even realize this, mother, sit down, I will serve you!"

The little girl stepped away from her short legs and excitedly picked up Li Yun's and mother's bowls, picked up the rice scoops on the side table, and served them seriously.

Shan Ruqing fell into a long silence.

Li Yun saw faint tears in her eyes. She wondered what she was thinking, whether she was too moved, or was reflecting on her daughter's education.

Maybe both.

The lack of a father and a mother in a family will have all kinds of irreversible effects on the children, especially when Shan Ruqing is still a strong woman, busy working to make money, neglecting discipline, and guiding Shan Xiaoxiao to grow up.

"Hehe, mom eats more, mom used to eat very little~"

Shan Xiaoxiao filled her mother with a bowl of rice, but for some reason, her little face was a little shy.

Then he served Li Yun a bowl, and said happily, "Dad eats more. It is very hard for Dad to protect me and mom~"

Li Yun weakly corrected her: "Call my brother...Be careful that your mother knocks you on the head!"

"No, my mother is a kind mother, and my father is the villain. He always knocks his head, huh~, right, mother?"

Shan Xiaoxiao also contained a small bowl herself, and sat back on her high stool, swaying her short legs, very happy.

Chapter 3078: lovely home

The very warm scene in front of her made Shan Ruqing not know how she was feeling at the moment. She just silently lowered her head, holding the rice bowl her daughter served her for the first time, staring blankly at the table in front of her. Dishes, did not move the chopsticks for a long time.

It wasn't until Xiaoxiao urged her that Shan Ruqing raised his chopsticks with mixed feelings, put a very common tomato scrambled egg in his mouth, chewed it lightly, and his eyes suddenly lit up.

The delicious juice of fresh tomatoes seems to be completely blended into the slightly charred eggs. The saltiness is just right. The juice of the tomatoes neutralizes the taste of the eggs. The two mix together to form an exquisite taste.

Subconsciously, after Shan Ruqing swallowed the egg in a few mouthfuls, she picked up another tomato.

It is still so delicious. The scent of eggs is mixed into the tomatoes. The soup is rich and the scent is mellow. It actually made Shan Ruqing ate several pieces in a row before stopping contentedly, looking at the stunned daughter and surprised. Li Yun.

"I... this, delicious."

Shan Ruqing was actually a little bit shy. She had eaten dishes prepared by the chefs of the top five-star hotels, and also took Xiao Xiao to some small flavor shops opened by master chefs hidden in the corners of the capital.

But never once, it was just a touch that was so simple that it was overlooked, that it was usually hard to remember, nor would it be considered delicious scrambled eggs with tomatoes, which moved her.

After figuring it out, Li Yun was amused and moved by this weird way of getting along with mother and daughter. The relationship between them is undoubtedly very deep, but for various reasons, they have to get along in this way. .

After all, it is because of single-parent families. It is better for a family to have parents, grandparents, relatives, and neighbors, so that children can grow up in a harmonious environment.

"Well, you mother and daughter."

Li Yun stopped their interaction and pointed to the table: "The food is almost cold. Let's eat first and talk later!"

Shan Ruqing's cheeks became hot, and she realized that someone was watching.

Fortunately, this is Li Yun, the man who once saved their mother and daughter. He has seen them look even more embarrassed. Even the three of them spent an unforgettable night in the depths of the mountain. So although Shan Ruqing was a little shy, But there was no such embarrassment that he couldn't lift his head in front of him.

"Yes~~~ Dad is right!"

Shan Xiaoxiao smiled and threw himself into Li Yunqi to act like a baby, and turned to Shan Ruqing and said, "Mom, you made a mistake just now and made Xiaoxiao angry. Shouldn't you make up for Xiaoxiao?"

Chapter 3080: Within our power

"What does it mean to make you angry?" Li Yun squeezed her little fat face. "My daughter should help do something within her power at home. Is it reasonable for you to cook well?"

"Woo, this is the first time someone cooks!"

Shan Xiaoxiao protested in a low voice, "But being said by her mother like that, it hurts people's confidence, okay? Mom, mom, you promise Xiaoxiao!"

Shan Ruqing didn't have the ability to resist her daughter's acting like a baby at all, so she agreed with one bite and took the fault on her body, only to see Li Yun roll her eyes.

Shan Ruqing ignored Li Yun and said softly to her daughter: "What does Xiaoxiao want her mother to make up for?"

"Xiaoxiao wants her mother to accompany Xiaoxiao and Dad to the amusement park this afternoon!"

Shan Xiaoxiao quickly said loudly, staring at her mother tightly.

Shan Ruqing's expression froze. She was so busy now that she didn't even have time to take a nap at noon, let alone go to an amusement park.

The shameless man not only returned, but once again forced her to go to desperation.

But this time, for the sake of her daughter, she can't lose anyway!

"Mom, mom, you promise Xiaoxiao!"

Seeing her mother's intention to refuse, Shan Xiaoxiao jumped into her to act like a baby again, and said with tears, "It's rare for my father to visit us today. I want to spend an unforgettable afternoon with my mother and my father. The little one is the happiest."

Shan Ruqing showed a struggling expression.

"Mom, didn't we move to Zhonghai City just to live with Dad?" Shan Xiaoxiao pursed her mouth.

"no."

Shan Ruqing subconsciously denied, "We moved here only to allow the company to develop better. Zhonghai City has a more international market than Jingcheng, not for..."

"Isn't it for me?" Li Yun interjected, but Shan Ruqing blushed all over.

Let Shan Xiaoxiao look at him and sneer.

"Mom~~~"

Shan Xiaoxiao used the talents of an eight-year-old girl who acted like a spoiled, cute and shameless eight-year-old girl, and kept rubbing against Shan Ruqing, "You just agree, promise Xiaoxiao, okay? Is it okay to agree to Xiaoxiao's request? This afternoon, Xiao Xiao really wants to go to the amusement park with her mother and father. Xiao Xiao has not been to the amusement park for more than two years."

Shan Ruqing widened her eyes, "It's been two years?"

"Yeah, the last time I went to Children's Day when I was 6 years old, my mother's company got bigger and she was always busy and she didn't have time to accompany..."

Shan Xiaoxiao's voice became quieter and quieter, because the bad father was looking at her with a smile.

The reason is simple. I can clearly remember to go to the amusement park and find the reason why my mother does not accompany her. This is not something that a seven or eight-year-old child can remember. It is enough to show that Shan Xiaoxiao, a little girl, has a superb IQ.

The struggling color on Shan Ruqing's face became even heavier.

"Then go."
