

Godly Choice 3131

Chapter 3131: I miss you

After breakfast, I sent my two sisters to school. It is normal for them to make up classes on the weekends on the third day of this year.

After that, Li Yun was fine, and Qingyu and the others were still sleeping, so they simply went to the company and watched the news leisurely online in the chairman's office to see what people around the world said about the products released by Baiyun Technology yesterday.

At noon, I had a meal with Wu Ke and other executives at the vice-president level and encouraged them not to just want to make money. They should pay more attention to changing people's livelihood, and pushing products to consumers as soon as possible.

Anyway, what Li Yun lacks most now is money, he doesn't care how much he makes. However, he now has only more than 20% of his shares, and a considerable part of the rest is owned by the state.

Li Yun, a confidante around him, also gifted a share to ensure that they could spend whatever they wanted.

In the afternoon, I returned home. It was not Gong Qingyu's No. 3 residence, but Huangtingshan's home. After all, it would be a shame not to live in a mansion bought for several billions.

When Princess Yongning saw the badminton court in front of the big villa, her eyes lit up, and she ran to play badminton, dragging the Qingyu women who had also just woke up.

Listening to their laughter and noise, Li Yun thought of something.

"Hey."

"Who?"

There was a lazy voice over the phone, which made people wonder if she had just woke up too.

Li Yun lying in the shade of the villa, said amusedly: "It's me!"

"Who are you?"

"Your husband and me!"

"I don't have such a sad husband!"

"...Linglong, I was wrong!"

Li Yun begged for mercy, only a few hums came from the phone, and Li Yun vaguely heard it as if to forgive you.

Fortunately, the Escape Formation of the Hidden Sacred Valley did not isolate the mobile phone signal, otherwise Li Yun would really not be able to contact her.

"Is my apprentice okay?"

Fan Linglong first asked about the apprentice's situation.

Although she has already stated that she is the biological mother of Saint Fanqing, she is still willing to regard Saint Fanqing as an apprentice rather than a daughter. It seems that what she was pregnant with at the same time as Wan Nishang was the same thing for her. A taboo thing that I don't want to mention.

"You didn't call her?"

"You don't know the character of my apprentice!"

"Then you still ask?"

Li Yun smiled and said: "Qing Sheng is still old and likes to stay in the enclosed garden quietly and read a book, but don't worry, she will come to eat with us in the evening, and chat with us until 8 o'clock before leaving and going back to continue reading. Cultivating, and occasionally staying overnight, in short, she is not alone."

Fan Linglong certainly doesn't worry about the safety of her apprentice and the problem of cultivation. She is just worried about her apprentice's too cold temperament, and she is always afraid that she will be lonely and lonely.

For Fan Linglong, who has tasted loneliness, she is the least willing to see her apprentice go back to her old path.

Fortunately, although Li Yun was shameless enough, he was barely useful, and he could talk to her good disciples.

"Linglong, when will you leave the Hidden Sacred Valley?" Li Yun looked at Princess Yongning who was happily playing badminton and smiled: "If you come to Zhonghai City, I will introduce you to an acquaintance."

"Isn't that the princess girl, what else are you selling!"

"Hey, didn't you say that if she leaves the constellation formation for a year and is still alive, she will look for you? Although it is not a year, it is almost the same."

"I'm a dignified senior, so I have to find her? I won't go!" Fan Linglong began to be proud.

"Well, it's not you who came to see her in Zhonghai City, but you came to see me in Zhonghai City, okay?"

"Why do I want to see you, boring."

"Then like this, I miss you, come to see me?"

"...It's almost the same. You, wait a minute."

Chapter 3132: Goodbye young girl

Li Yun left the lounge chair under the shade of the tree, waved at the women playing badminton, and walked back to the villa.

As soon as he left, the Yongning princesses who played badminton suddenly felt a lot boring. If he was next to them, even if they didn't play with them, they didn't even have to watch them, but the girls could feel that Li Yun was with them. of.

But now as soon as Li Yun left, Princess Yongning felt that they had no interest in playing. It would be better to go back and sit next to him and watch TV comfortably.

"One more game, we'll go back to take a bath!"

Su Muxin proposed, and several women agreed.

After sweating, I went back to take a shower and watched TV with my husband, chatting on the phone while playing on the phone. This Saturday night was another sleepless night~.

After all, there are two days on the weekend, it would be too wasteful not to play.

Gong Qingyu looked at Li Feng: "I haven't lived in this villa yet. Is the room ready?"

"There is no big bed in your house." Fang Xue's face was reddened, it was crazy last night.

Their seven daughters and Li Yun, fortunately, Jin Liuli went to Penglai Island tonight, Gong Lianyi did not come to the villa either, there were only four of them tonight...four?

Su Muxin hid her mouth and laughed: "Would you like to customize one? Or simply transform a room into a big bed with a pile of dolls, rag dolls, and pillows. Well, there are also more quilts and pillows, dozens of quilts, after all. Man is the reincarnation of the Dragon King, and it's like a pile of rain coming down."

"Dragon King?"

Little Princess Yongning could not understand what they were saying.

Gong Qingyu stared at Su Muxin, and Li Feng also looked unnatural.

"Who stares at me is the Dragon King!" Su Muxin said quickly.

Then Gong Qingyu picked up the badminton racket and slapped a badminton shuttlecock on her face.

"Oh, what a school girl, you dare to beat Senior Sister, the mere dragon king, look at the trick!"

"I'm afraid you won't make it~"

When the women began to laugh and play again, Li Yun went to the second floor of the villa and found the young girl in a relatively remote room.

This suspect-at least very likely, the old senior who has survived from ancient times to the present, but at this moment is like an old aunt who has retired, with her back leaning on the sofa, holding the mobile phone in both hands on her lower abdomen, and resting her legs crossed. On the chair, the gestures and expressions all exudes a lazy breath.

Such a young girl was taken aback by seeing Li Yun.

Ignoring her appearance, the young girl's such demeanor and actions are actually quite beautiful. If it is from any girl around Li Yun, it will definitely make him move his fingers.

Even though the young girl looks like an aunt now, she has practiced sensuality after all, and she can surpass the limitations of her appearance with a single movement, and deal merciless blows on men, women and children, making them doubt their outlook on life and values:

I am actually interested in a fifty or sixty-year-old aunt...

"Ahem."

Li Yun restrained his spirit so as not to accidentally fall into the charm of the young girl's body.

"Are you afraid of me?"

The green girl stretched out her hand, picked up the grapes placed on the plate next to her, pinched her mouth with two fingers, and licked her fingers, flicking her fingers, and flicking the juice on the grapes.

Her movements and demeanor are still full of speechless charm, and even her voice has a sense of coquettishness. Li Yun is sure that if she looks a little better, even if she is just an ordinary girl, she will be able to fascinate a large piece of it. men and women.

Charm is too terrifying.

Chapter 3133: Documentary

Faced with the problem of the terrifying young girl, Li Yun said frankly: "Senior, you have such a powerful force. Isn't it normal to be feared by others? I'm just human nature."

"Oh, you're afraid that it was an accident. Wasn't it arrogant at first?"

"Senior is blaming me?"

"I'm not so stingy. After all, I have lived for so long. If I was angry, I would have died."

Li Yun could only smile, and sat on a chair one meter away from the young girl.

What surprised him was that the young girl did not play with a mobile phone, and watched the TV in front of him. It turned out to be a documentary about life and nature, which is a very common documentary filming nature and animal activities. , "Pulsation of the Earth."

"Senior likes to watch documentaries?"

"I like watching animal movies."

"..."

Li Yun admitted that he was shocked. Firstly, he was shocked by the young woman's willingness to answer directly, and secondly, he was shocked that the ancient aunt liked to watch this.

An old monster like her should not have a sinister face, plotting something to subvert the world and restore ancient glory, or give Li Yun a mysterious back, ran to Penglai Island alone, entered Biyou Palace, and faced the saint Does the teaching field feel about the past and leave an unpredictable impression?

Or the aunt who used to be arrogant for eternity-no, the young girl who overwhelmed the world, the young girl! It's not an aunt, it's the inherent impression in Li Yun's mind that she will cause a change in the situation when she is born again.

"I always think your brain is not normal!" Qingnv glanced at him squintingly, "Are you choreographing my old man's affairs? Don't look at my ugly appearance, you kid, just scold me in your heart, be careful of me!"

Li Yun was embarrassed, and suddenly came out: "So you still care about your face."

This time it was the young girl's turn to be embarrassed, her hand reaching for the plate of grapes also froze in place, her mouth stiffly said: "You need to control! Women from eight to eighty-eight years old will care about their appearance, are you nonsense!"

Li Yun said again: "Then you are the eighty-eight-year-old? Oh no, the eighty-eight-year-old is always a child in front of you... hiss!"

"roll!"

The young girl smashed the plate directly at him, and Li Yun hurriedly used his powerful martial arts ability Shadow Hand to take everything.

"Hmph, get me a plate of grapes again!"

The young girl ordered, "I don't want to eat the things that your dirty hands touched."

"How can it be dirty and clean."

Li Yun was too lazy to get up, put the plate and grapes next to her, and ate one by the way.

The young girl was itchy with hate, but she could only give it up when she was sent to the fence, and she put the plate on the other side like a puff, and didn't give him food.

Li Yun: "..."

This ancient young female aunt is pretty stingy, but she maintains a good mentality, she doesn't look like an old human being who has become senile because she slept for so long and is not interested in anything.

To be honest, Li Yun doesn't know whether human beings are not interested in anything when they are old because their bodies have deteriorated, and they have a lifeless look, or whether humans' inherent lifespan makes people lose their sense of the world when they are old curious.

However, it should be the former.

Many scientists still do research and teaching when they are old, but the old and aunts in the countryside have nothing to do when they are old, so they can only sit idly and wait for death.

If the life span of human beings doubled because of the Aura, what will society be like in the future?

There is no doubt that the great changes brought about by the Reiki Age have not yet been reflected.

Chapter 3134: Old man

"Why are you looking for me?"

The young girl returned to the posture of overlapping her legs and lying lazily, "If it's okay, you can get out. My old man doesn't need someone to accompany you."

Li Yun said: "I'm just afraid that your old man is bored. Besides, I should also care about the physical and mental health of the old man to prevent Alzheimer's disease, senile dementia, senile coronary heart disease, senile albinism, senile cerebral infarction, senile hypertension... .."

"roll!!!"

The young girl was shaking with anger, and roared: "You kid never leave your old age, you bastard, if I am willing, after recovering my true identity, I will compare all the women around you. The real disaster to the country and the people, Yan Jue Three Realms, actually said I am old!!"

Disaster for the country and the people?

Yan Jue Three Realms?

Li Yun looked at the ancient aunt seriously, and he didn't believe in this evil after killing him.

There is only one person around him who can be judged to be a disaster for the country and the people, and that is the concubine Wan Qing who does not know the true appearance. That guy is "sorrowful" to a certain extent every time he meets. If he really wants to do something, he must be at the level of disaster for the country and the people. NS.

"Didn't you mention the old man yourself?"

Li Yun murmured, before the young girl became angry, he quickly said: "Senior young girl, I just wanted to ask you."

"what?"

"Ask how you are and when will you regain your true body." Li Yun babbled.

".....roll."

Qing Nu squinted at him and took a sip of tea slowly: "Just do you still want to pursue me? My old lady is not uncommon. Putting a group of ancient emperors and princes, ancestors and patriarchs, how many cultivating geniuses will not want to eat after seeing me, I'm too lazy to take a look at them, mother, what are you."

Li Yun was rather unconvinced, "Why am I so bad? My Baiyun technology was also a big religion in ancient times? According to the prehistoric saying, it was also a big religion that established a school, enlightened the people, and inherited the luck. Why is it so bad? "

Take a look, the multinational company changed another way of saying it suddenly became strong, if it is in the predominant land, then Li Yun is also a great power for casting a moral body.

The young girl almost squirted out a sip of tea, "Cough cough cough... Hong Huang? Who told you this? You also taught Wanmin, do you think you are the wife of Nuwa?"

It's worthy of being an ancient aunt who has entered the new century, and she can say such words as a woman.

"I heard, I heard."

Li Yun smiled and said, "I also know about some Conferred God battles, which seem to be fought very hard."

The young girl moved her lips, "It has been for so many years, why are you still talking about it? It's like you watched the Battle of the Giant Deer two thousand years ago, would you pay attention to it? Let alone tens of millions of years ago."

In the great uprising of the end of Qin Dynasty, Xiang Yu led tens of thousands of Chu army in Julu and the Qin army in a decisive battle, and this idiom came from this.

"More than two thousand years ago, you were old...no, did you wake up once?" Li Yun asked in surprise.

"I'm Cao!"

The young girl said that she missed her mouth, she burst into a **** from between her teeth-needless to say, she must have learned it on the Internet.

As soon as I came out, I really didn't have a bit of high temperament. Which ancient monster did you see said that I was Cao?

"Hey-hey."

Li Yun smiled, "Senior Young Girl, you don't hesitate to enlighten me. It just happens that I'm just idle, I'm still thinking about moving, and I'm going to look for the so-called six doors of life and death."

Similar to the big quilt sleeping with the big quilt last night, one person fighting for seven happy days, comfortable and comfortable, but ten thousand magic immortals, and some remnants of the six gates, and even the holy gods and others who went out of the hidden sacred valley, made Li Yun feel unhappy. , You can't be happy until you solve it.

Chapter 3135: Ask for advice

Other ancient relics can be ignored for the time being, at least these practitioners who are trying to make the world chaotic further, no matter whether their ideas are good or bad, should follow up, or control the situation in his hands.

To use the analogy of Penglai Island, Li Yun can tolerate the arrival of the Reiki era, but cannot accept that Reiki is coming inexplicably, but he does not know anything.

That would be too passive.

"Don't worry about this."

The young girl squinted her eyes and watched TV. "It's good if you have time to spend time with your family, have more children, and enjoy your life. You are living in a good age. According to the current level of technological development, you can live for hundreds of thousands of years, and even migrate. It is not impossible for the moon to go to Mars. Why pursue something ancient?"

Li Yun respectfully said: "I would like to listen to the advice of seniors."

"Teach me... the big head."

The word pi almost came out.

Qingnv glanced at him squintingly, her tone a little annoyed, and pointed to the picture of thousands of buffaloes running on the Heizhou prairie on the TV, and said: "Speak of you, seeing this scene, How do you feel? If you guess what I want to say, then I will reluctantly tell you something, if you can't guess, then get out, live your life with your woman, don't get involved with those It's up."

"I heard that there are still some practitioners in those six gates and hidden sacred valleys. Yes, I mean them. Don't worry about them. Modern people can't toss about anything. You think you are saving the world. Actually, It's nothing, don't care about the world, the world is so different, understand?!"

The young girl said many things in one breath, and took a sip of tea after taking a breath.

I don't know what she recalled, her expression was a little unnatural, and the unique lonely and old aura appeared on her again.

The whole person seemed to feel dispirited.

Li Yun opened his mouth. Just when he didn't know what to say, the system prompt came.

"Ding, trigger a special option event, please choose from the host:

Choice 1: No answer, no action, reward: perfect gift package, note: After choosing this option, the story will come to an end.

Option 2: Think carefully, answer the questions of the young girl, and reward: the next door of life and death.

Choice three: do it according to your own ideas, reward: to be determined. "

Since there was no major incident around Li Yun, the system has also been silent a lot. This time it was a long-lost selection event.

It seems that the closer to the end, the system gives you the option to end everything, and the more frequent the options of returning to the pastoral.

Coupled with the vague reminder from the young girl, Li Yun realized one thing:

Even if he doesn't do anything, the world will not go bad. It is likely to just repeat everything that has happened in history. The ancient ruins such as Biyou Palace sank below the ground again.

Thousands of years, tens of thousands of years, a million years later, mankind may be destroyed by a nuclear war, or resources may be exhausted and become dead, and civilization disappears, but these ancient relics are still sinking in the ground, waiting for the next stage of reincarnation.

The "God-level selection system" that Li Yun has obtained is likely to choose a master again when the next civilization appears, and start a new guide.

Guide the next protagonist to make a step-by-step choice.

".....Ugh."

Li Yun leaned on the sofa and muttered to himself: "Just like the young girl you said, I have become famous now and have a happy life. The confidante around me can understand me and accept my absurdity."

Chapter 3136: Heaven is ruthless

The young girl did not turn her head, but her eyes moved slightly, and she continued to watch TV.

In the picture, several lions are hunting and attacking around a group of buffaloes, making the buffalo herd exhausted. The buffalo that runs the slowest will become the victim and the one eliminated in the struggle for survival.

Heaven is ruthless, and the avenue is hidden. In fact, it has been fully reflected here.

"It stands to reason that I have a happy life and fulfilled my original wish."

The so-called wish is the very tacky "marry Bai Fumei, become CEO, and reach the pinnacle of life".

Li Yun has indeed done it now.

First, there are more than 20 people around him who have deep feelings with him-well, even if they are not deep feelings, but at least most of them are, a few, such as Gong Qingyu's four maids, spring, summer, autumn and winter, and Li Yun's The relationship is not very good, but they must have a good impression of him, and they will be very happy to live together in the future.

Second, Baiyun Technology.

Li Yun now has a strong power to build a good relationship with the country. He does not fight for profit or seize power. He is strong enough to maintain his position as the chairman of Baiyun Technology. It is foreseeable that for a long time in the future, as long as he To maintain invincible strength, Baiyun Technology will not have any problems, it is nothing more than earning more and less.

Third, the six gates and the hidden sacred valley.

Because of the arrival of the spiritual energy era, the two cultivating schools that were not united soon fell apart. The cultivators found their own way out. Apart from the ten thousand magic immortals and a small number of holy gods, Li Yun is basically impossible. What is the threat.

It can be said that he has reached a limit in all aspects, as long as he develops step by step, it is enough to live a very comfortable life.

"But I'm still not reconciled!!"

Li Yun's voice was indifferent, but revealed a sense of tenacity, and the young girl watching TV couldn't help but turn her head and glance at him.

"I am like a person standing on the top of a mountain. The sky is wide and the clouds are shining.

But above the clouds, there is a faintly visible fairy palace. There is no way to it, but it is extremely attractive!

Senior, can you understand this feeling? "

Li Yun said something sincerely, but the young girl was indifferent, at least on the surface unmoved, she just snorted lazily and said: "The so-called fairy palace is just a phantom in the clouds, even if you fly up. , I can't touch it, and it's even impossible to walk in and become the master of the fairy palace. Do you know why?"

"Appreciate further details."

"Because of....."

The young girl was suddenly annoyed, and she gritted her teeth and cursed: "Let you talk about your feelings, if you don't tell me, turn a corner to lie to my old man, I have lived for so long, you are the most treacherous!"

Li Yun laughed blankly, "Senior, you wronged me."

"hehe."

The young girl sneered, pointed to the TV screen, and said, "Do you think this vibrant scene is normal?"

"Senior's meaning..." Li Yun frowned, "Have you seen the tragic extinction of life on earth?"

The green girl squinted her eyes, "You kid is clever, yes, I have indeed seen it, and you modern people are also very good. You can find all the clues from the stone. This is something I didn't expect. "

Li Yun thought for a while: "Senior means how many ice ages are on Earth? Oh, yes, there is also the Cambrian extinction. Senior, do you mean..."

Chapter 3137: Tombs of Gods

Li Yun couldn't go on, and the reason was very simple. The young girl was looking at him with a cannibal expression, her eyes were full of terrible expressions of "If you dare to say more, I dare to beat you to death".

"I mean... well, I won't say anything."

Li Yun raised his hand and surrendered. In front of a lady, especially an old man in his 50s or 60s who was actually before the Cambrian extinction, or even older, it was purely a question of "Cambrian extinction". I'm looking for death.

"Humph!"

The young girl snorted coldly, feeling that it was not enough, and snorted again, and then she said without annoyance: "I don't want to be too lazy to talk nonsense with you, tell you the truth, the ancient **** is summarized as: the fall of heaven, the decline of spiritual energy, the gods , No, some creatures that occupy a lot of resources are all dead.

You also know that you modern people will leave a pile of tombs when you die, let alone those who profess to be gods?

So they also left a mausoleum and some things. Of course, many beings didn't want to die, so they tried to hide, and came out from time to time to express feelings, nostalgia for things like the old and hurt the autumn, anyway, they will die, understand? "

Li Yun quickly raised his hand, "Understood!"

"Get out of here, don't disturb my old man's rest."

"Yes!"

Li Yun strode out of Qingnv's remote room, and when he was about to leave, he was stopped by Qingnv again.

"and many more."

"Uh?"

"Throw away my garbage."

Qingnv pointed to a bag of trash in the trash can. Li Yun said speechlessly, "Isn't there a maid in the villa who cleans it every day?"

"She recently took time off and told me to go on a blind date. I also rewarded her with one hundred thousand yuan."

".....Row."

What should Li Yun complain about? Senior young girl, you are so kind to the maid! Putting ancient times must be a good master.

Resigning and walking back, Li Yun picked up the garbage bag and was about to leave. The young girl said again: "By the way, help me put the bag in."

"...Is there any more?"

"It's gone for the time being, you can go, and you will call me after dinner."

She occasionally eats with Li Yun, as long as she can get up at noon, or when she is still awake at night.

This guy plays games all night long and stays up at night. He is more addicted than a high school student.

"Ding, the host makes a choice, does it according to his own ideas, and rewards: the guidance of fate."

Li Yun paused.

The guide of fate?

These are all weird rewards, without any substantive effect, not even the title, which is especially inexplicable.

But he didn't entangle, at least it was certain that the system must have something to do with those ancient people - or called gods, and it might be something made by those saints.

Li Yun left here and threw the garbage bag into the big trash can in the villa, waiting for the servant to clean it up when he was free.

Going up to the living room on the third floor, Li Yun turned on the TV, sat on the sofa and watched it, while thinking about what the young woman said just now.

Li Yun believed at least 70% of what he said just now.

Biyou Palace and the abnormal changes on Penglai Island, coupled with the ghost gate that Nie Xiaoqian had visited, these ancient existences are probably the "mausoleums" left by the gods that Qingnv said.

It can't be said to be a mausoleum. Since the young girl is still alive, the gods that were once may have also been hiding in a certain space, such as a place like the fairy world.

But at the same time, the young girl also said that the conditions of the gods were not good. They were undoubtedly strong once, but their strength was built on the foundation of abundant spiritual energy.

Chapter 3138: such a pity

The gods have fallen, and the gods are also uncomfortable.

Li Yun estimated that even if he finds the so-called "fairy world" where the gods are sleeping, he will see a group of elderly and weak, full of vicissitudes and simplicity, just like young girls.

They may still have power, but Li Yun is not incapable of resisting it. He does not need to face the gods now. He can wait for decades or hundreds of years when the power of science and technology from the outside world is raised to a new height by his system rewards. , And then go to open the fairy world chapter.

Could it be a strange picture of a small nuclear bomb bombarding a **** at that time?

It's fun to think about it.

"such a pity."

"What a pity?"

After playing a few badminton games, the tired and sweaty women returned to the third floor of the villa. After Fang Xue heard Li Yun's emotions, she asked him.

"Husband~"

The Princess of Yongning Ruyan swooped over like her home, and Li Yun held her in her arms, and she was immediately covered in fragrant sweat—the real fragrant sweat. Li Yun had used skin care for them and the girl next to him. The children's skin is so good that the young girls of the cardamom age are envied by them. Not only are they white and delicate, but there is no trace of impurities. The natural sweat is also fragrant, with the body scent of the girls.

"It's so stinky." Li Yun smiled and patted the little princess's blushing healthy face, "Hurry up and take a bath. By the way, you will exercise every weekend in Yongning, and don't sleep all day~"

"It's not smelly~~ it's fragrant!"

Princess Yongning sniffed her sweating parts, such as her armpits, wrinkled her little nose and protested, but after all she wanted to get close to Li Yun and stick to it, she soon said coquettishly next to Li Yun: "If you exercise, your husband will stay with me. Okay? Just now my husband walked away by himself, making sister Qingyu and I have no intention of playing badminton~"

The innocent and straightforward words made Fang Xue and Gong Qingyu blush, and even Su Muxin, who had always played madly in front of Li Yun, was rarely shy.

This is equivalent to telling Li Yun that they are very clingy, and they would be boring without Li Yun when playing.

"Then let's go take a bath together?"

Li Yun also wanted to spend more time with them, so ignoring Fang Xue and Qingyu, who were arrogant and arrogant, picked them up with one hand and walked towards the open-air bath on the third floor.

It is almost winter now, and it is naturally impossible to swim anymore, but this small bath in the villa is equipped with a constant temperature heater. After knowing that the owner will come back to live in the evening, the housekeeper has ordered to turn on all the equipment in the villa, waiting for the owner Li Yun's Enjoy.

So when Li Yun and the four girls came to this 100-square-meter open-air bath, it was already exuding a warm atmosphere, and the maid had placed some bathing spices and petals in the pool water, and the entire bath space was floating. Pleasant aroma.

"The bad guys put me down, I'll go wash first, and then change clothes!"

Gong Qingyu, who was walking along with Li Yun's arms around her waist, quickly gave up resistance and looked at this man-made hot spring pool with some emotion. She could soak in the hot springs during the fall and winter. This kind of enjoyment is in her "little." But there is no in the mansion, so it can be equipped with a large mansion like Huangtingshan.

"By the way, do you have Qingyu's swimsuit?" Fang Xue asked, looked at Li Feng, nodded and said, "But Xiao Fengfeng and Qingyu have similar figures, so they are almost usable."

"Why don't you say that you are the same body? You are the same size, hehe."

"Li Feng!" x2

The two women protested at the same time, and Li Yun touched his chin: "I have a suggestion. I don't know if you want to listen."

Chapter 3139: Suggest

"What advice? No!"

"That's..." Li Yun looked at the four women with fierce eyes, "Nothing is necessary to dress."

"Bad guy!!"

The three women looked at each other and cursed in unison. Princess Yongning's face turned red all of a sudden, and even she couldn't help muttering that her husband is a bad person.

Li Yun said brazenly: "It just happens that Caiwei and the others didn't come back today, so they won't be able to do this tomorrow night, so wives, please meet your husband's request, okay!"

Gong Qingyu rolled his eyes.

Then Fang Xue's white eyes, and then Li Feng glared at him.

Finally, the little princess twisted and said: "Husband, Yongning is wrapped in a towel, okay?"

She has reached the age when she can get married, but her body is much worse than Gong Qingyu, not to mention Li Feng Xia Feiyao and others who are better than her body, so she has always been a little inferior, trying hard to grow up, and she has been doing it every day before going to bed. I want to drink a cup of coconut milk and other drinks, and I also pester Li Yun for a secret recipe. It is said that sister Li Feng told her a good way is to massage every day and so on.

"Yes, don't worry, your sisters must also use towels."

"Ah? That's it, Yongning thought it was really light..."

Princess Yongning blushed, feeling ashamed of her innocence, and hurriedly trot into the shower room next to the bath without closing the door intimately. She looked back at her husband and seemed to be inviting him to look.

Unfortunately, the door was quickly closed by a jade hand from inside.

Full of expectation, Li Yun took off his clothes and threw them on the marble stool next to him. He comfortably jumped into the warm bath.

He didn't sweat too much, so he didn't need to take a shower before coming in.

Besides, this bath is really big. It's not a problem for more than 20 people to take a bath together. There are also a few who love to play, Hu Xiaomeng, Jin Liuli, and Su Muxin swimming happily in it.

If that illusion really comes to fruition, Li Yun's life will really be fulfilled.

However, according to the current trend of seven people together, it is not far from a real beach party.

Speaking of beaches, Li Yun thinks of a beautiful country. There is a stretch of tens or hundreds of kilometers of rich villas on the coast, which is quite shocking from the satellite map.

These villas are all close to the sea, and the beaches are also well maintained. There are not a large number of tourists destroying the ecology. The long azure coast and the beach with soft sand.

Those who can go to play are those who enter the circle of the rich. The rows of small scenic shops on the beach are the best place for them to discuss business, socialize, and exchange resources.

Many businesses with a turnover of more than 100 million yuan are two bosses. On the beach chair, the sea breeze is blowing, and it is done while drinking cold coconut juice.

Li Yun has special preferences for beaches, hot springs, and gardens. Especially after seven days and seven nights on the Ocean Princess cruise, but failed to go to the beach for a good time, he has a similar obsession with beach chairs. I always want to take the confidantes around me to have a fun.

Of course, he doesn't like public beaches, it must be private.

There are many benefits to a private beach. You don't have to worry about those men wearing shorts watching the women around him. Li Yun and them can wear whatever they want, do whatever they want on the beach, barbecue, beach volleyball, Camping at night and so on.

Even when you play, you can wear nothing, just like now.

Chapter 3140: laid back

When four beautiful women walked out of the bathroom and walked barefoot on the non-slip marble floor, standing next to the bath, Li Yun couldn't help but stare.

He felt the benefits of a private beach in advance!

This kind of concealment is very good but it exists in the open air. With the blessing of beautiful women, it is a paradise on earth.

It is impossible to express in words how excited Li Yun felt when he saw Gong Qingyu's fourth daughter standing by the bath and looking at him shyly.

Although the four women are still wrapped in large bath towels.

Although it is blocked by hazy water mist.

Although the distance is a bit far.

but.

The graceful figure is already eye-catching enough.

"I'm coming~~"

Su Muxin was the first to jump into the pool and dived into the water like a mermaid, leaving a white bath towel on the water.

Gong Qingyu held the bath towel helplessly with one hand, and covered her forehead with the other. She knew that the bath towel on Little Chili won't last long, but she didn't think she would start taking a bath and threw it away.

"Well, that's great."

Princess Yongning also entered the bath, her little hand flopped, and she quickly stood firmly, let out a silver bell-like laugh, and swam towards Li Yun, the standard dog-climbing style with all fours flapping-you are a princess, and Zhu Shu'e certainly can't learn it. Swimming, her first real swimming was here, and she didn't learn it for several months.

Then there was Fang Xue. She was still carefully guarding the towel, but she quickly realized that this was not a swimsuit after all, so she threw it on the water, relaxed her body comfortably, and let the buoyancy of the water support her.

Li Feng did the same. After she entered the water, she realized that it was impossible to see anything under the water.

The housekeeper seemed to have used a secret spice and petals to spread the entire bath, completely covered on the water. Although there were many petals, it didn't look messy, on the contrary, there was a very strange beauty.

It is as if they are the queens in the movie, enjoying the top flower bath in the palace.

"Qingyu, coming soon!"

Su Muxin appeared in the distance, with a lot of red and purple petals on her head, Chong Gong Qingyu smiled and shouted: "Let's all fool around all night, so don't be shy~!"

"There is a little princess here!"

On the contrary, Gong Qingyu is the most reserved lady. It's really time to let Aunt Lian come to experience it. If Aunt Lian also comes, she is definitely not the shyest person. Aunt Lian is probably so embarrassed that she has to wrap two bath towels. strip.

"I'm okay~" Princess Yongning blinked her eyes, "I also saw a lot of photos in the group, which were painted by sister Qingyu that day..."

"Ahhhhhhhhhh."

Gong Qingyu covered her ears, this incident was her rare major mistake! !

She just thought of the fairy group, except for Xiao Jiao and others, that is, Lord Saint, Xiao Mingzhu, and Fairy Liu Xian did not make the last step with Li Yun. If they were alone, Gong Qingyu's paintings would have no problem at all. After all, everyone All are already adults.

But she only ignored Princess Yongning! !

Even if the little princess has always lived in the mansion, because the little princess always sleeps and has a low sense of presence, Gong Qingyu actually forgot her...

Therefore, when Princess Yongning took the phone and asked her about the sketching knowledge seriously afterwards, Gong Qingyu almost fell apart.

"Sister Qingyu, come down soon~"

The little princess threw back to Gong Qingyu's side, and together with Su Muxin, she grabbed one of Gong Qingyu's calf and dragged her into the water.

"Wait, my bath towel!!!"

"It's all in the bath, so don't use bath towels. Come on, let's play bath volleyball~~"
