

## Godly Choice 3141

Chapter 3141: Have a meal

When the sisters Caiwei returned to the villa, they were solemnly told by the maid not to go to the bath. The two sisters were not fools, and soon realized what happened inside.

"Brother really, it's still daytime!"

"Don't blame brother, sister Qingyu is so beautiful, brother can't help it either..."

In recent times, the sisters have become more and more accustomed to the pranks of their brother and sister-in-law, and they are almost immune.

But what they were helpless and annoyed was that their elder brother still didn't come down during dinner, and even the dinner was brought in by the housekeeper and maid. Until nine o'clock in the evening, these five people left the bath contentedly.

As for the little princess, she came out long ago, and not long after having dinner with the sisters, she fell asleep again.

"Brother~~~"

Caixia was full of resentment, and Cai Wei was almost in tears. The third-year student finally had a weekend, but her elder brother was messing around all night and didn't accompany them!

Gong Qingyu covered her face in shame, and blamed Little Chili. She has been fluttering in the bath, saying what it is like to experience the feeling of playing in the bath. In the future, she can teach others, such as Xiao Mingzhu, Shangguan Lingxian, and by the way, go to the beach in the future. Prepare while playing.

As a result, Gong Qingyu and Fang Xue were dragged into a mess. When they were so tired to rest by the bath, they even went to the fridge by the bath to get some drinks. Su Muxin and Li Yun would take them back together.

Originally, I only wanted to wash two hours before eating dinner, but it was delayed until nine o'clock in the evening. Gong Qingyu couldn't remember how many times in the middle, it was as chaotic as last night.

These are only four people. Gong Qingyu dare not imagine that if it is really like Li Yun's \*\*\*\* fantasy, all the confidantes around him will accompany him to play on the beach, play beach volleyball, snorkel, and camp and barbecue. What kind of chaos the situation will be.

Gong Qingyu is almost certain that it won't be over without seven or eighty-one days, and they don't need to prepare any swimsuits of all colors, because they don't need one. Instead, they need to bring more lounge chairs, and they need to be specially customized. Lie down on the spacious beach chairs for five or six people, and order six at a time, so that her four maids in spring, summer, autumn and winter will also...

"What am I thinking!!!"

Gong Qingyu covered her face again. She was broken now, and she actually started to learn how little pepper did when she fantasized about going to the beach.

It must have been broken by her, otherwise she would be so dignified, how could she think about such a deserted pond?

"Well, how about taking you to play tomorrow, to the amusement park?"

Li Yun said: "It just happened to be called Xiaoxiao, you just met her once and didn't talk much."

Caixia pursed her mouth, "Brother is really true. We have nothing to do with Xiaoxiao, but does brother want to accompany us or Xiaoxiao?"

"Is it different."

"I don't care what is the same, we can go play together this week, but when my sister and I finish the high school entrance examination next year, my brother must accompany my sister and me alone once!"

"Well, I will definitely accompany you then, are you satisfied?"

"Hee hee, this is almost the same~"

The sisters happily cuddled on both sides of Li Yun, Caiwei blushed and glanced at Sister Little Pepper, and then quickly bowed her head shyly.

The stupid brother didn't hear it, but the sisters and the others are not fools, they must have guessed what they mean.

Going out on a date with my brother alone is already a rule that all the women default to. Any time two or three months apart, they can date Li Yun alone.

Chapter 3142: Last lesson

On Sunday, I took a few little girls to play in the amusement park again. Shan Xiaoxiao had just visited once, but Zhou Tian still had a good time. With Caixia, a second-year elementary school and a third-year junior high school, in Crazy fun in the amusement park, taking dozens of photos and eating two ice creams before being satisfied.

On Monday, Li Yun finally returned to his normal study career, perhaps because of the long time spent with him on weekends, Fang Xue and Gong Qingyu's daughters tacitly handed over the daytime from Monday to Friday to Xiao Mingzhu, and, next People in a place to go.

"How do you feel that you are not very happy?"

In the morning, I went to the classroom with Xiao Mingzhu to study computer introduction. After the two of them sat in their seats, Xiao Mingzhu asked.

"Why, nonsense."

Li Yun denied it.

Returning to his normal university life, Li Yun did have a feeling of enjoyment. Although he hadn't done anything in the last two weeks, he went to Six Doors, and he returned without even taking a shot.

Then came the matter of Baiyun Technology. Li Yun went to "guest" the chairman of the board and had a few short meetings with the group of tens of billions of high-ranking executives. Li Yun gave a casual speech, simple Talking about the future situation is actually equivalent to saying nothing, which is pure nonsense.

Then the executives seemed to be willing and sincere, all looking at him with worshipful eyes, as if what Li Yun said was the instructions of God, and they must be obeyed!

With the current size of Baiyun Technology, everyone who can be called a senior executive has unimaginable rights. When going to the outside world to talk about business, it is to call for the level, and many people have extraordinary backgrounds and are heavyweights. , In Wu Ke's words, that is, Li Yun can hold them down when they have a meeting.

Even Wu Ke, who is the CEO, said this, showing how complicated the current Baiyun Technology company structure is.

It can be said that if it is not for Li Yun, Baiyun Technology will inevitably become a national enterprise, and only strong control can prevent this behemoth from losing control.

Therefore, Li Yun left Baiyun Technology to return to daily life, only to feel relieved.

It seems that you will make enough money in the future, and you can consider retaining only Baiyun Technology's shares and ceding control. It is not good not to let the limelight become too much.

However, the leaders on the capital side would not agree with his "resignation", or that sentence, the current Baiyun Technology is too large, only "Li Chaoren" can hold it, and make other countries around the world give up on Baiyun Technology. Hostility, choose cooperation.

Among other things, at least now Li Chaoren's reputation is absolutely world-class, with countless fans all over the world.

More fans than a certain big singer.

"No, you have!"

"?"

Li Yun wanted to ask more questions, but Xiao Mingzhu refused to say. Every time Li Yun asked, she used a book to block her in front, lying on the desk with a smile, making Li Yun completely inexplicable.

Although Xiao Damei is really beautiful when she is lying down on the table and showing her smile, her eyelashes are curved, her lips are rosy, she is bright and cheerful, and she feels heart-pounding first love.

When it was time for class, the teacher of Introduction to Computer stepped onto the stage, but his expression was very heavy, which made people wonder if something happened.

"classmates!!!"

With a sad tone of voice, the teacher seemed to be a text in middle and high school, and Mr. Han Maier in "The Last Lesson" was facing his students.

"Do you know? You are out of date!"

The teacher raised the textbook in his hand and shook the book.

Chapter 3143: Li Xiaoyu

In the classroom, the classmates of the Department of Planning and Design of China Overseas University are unknown. Therefore, those who do not know think that the teacher is a lunatic.

"These, the knowledge in this book!"

The gray-haired old professor was heartbroken and said: "There are also all the computer courses you have taken in a semester, as well as your sophomore, three and four seniors. There are tens of thousands of computer doctors, professors, scientists, and programs in the world. Members, most of the knowledge about computers that they study, research, and are using has all turned into a piece of waste paper!!"

"It's all obsolete!!"

The old professor's words, let the needle drop in the classroom be heard.

They suddenly realized what had happened.

Yes, it is the one released by Baiyun Technology the day before yesterday, and it is also the first artificial intelligence recognized by the state. It is an epoch-making technology that directly creates a "person" living on the Internet.

This "person" is not only extremely powerful, has an IQ that is no less than that of a person, but can also perform calculations at a speed of megabytes. The powerful ability directly crushes the number of computer scientists in the world, and makes the global computer network. In the blink of an eye, knowledge becomes as ridiculous as elementary school students' 1+1.

In other words, the students in the computer science and technology class of China Overseas University have all the courses that have been arranged in the future have been voided, and they have been eliminated before they even enter the social work!

This matter has actually been discussed by them, but now it is officially said from the teacher's mouth that it is particularly surprised.

It's not that the school's response is too slow, but that the technology launched by Baiyun Technology is too abnormal and directly crushes the global Internet.

"The teacher..."

As the monitor, Xiao Mingzhu couldn't sit down anymore and raised his hand to speak: "Our final exam is three and a half years away. What will be the content that needs to be learned?"

"Yes, yes!"

"Are we going to change majors?"

"No, I like computers, I want to study artificial skills!"

"I! I want to engage in virtual technology. Judging from the technological vision announced by Su Tengyun, it is simply the second world of mankind!"

"Second World? When there is a disaster, can we hide in? Hiss, just like a science fiction movie!"

"Then can we learn?"

"I think it can."

"The second world is great, the virtual game in SAO animation can finally be realized!"

"Calm down, calm down everyone, let's discuss what we want to learn now!"

The commotion lasted for two minutes before it stopped. Li Yun could understand their feelings, and even understand the complex feelings of the global people facing the era of artificial intelligence in the era of Aura.

The old professor waited for everyone to calm down, and then slowly said: "The previous knowledge is indeed useless, but it cannot be discarded immediately. Next, we will invite classmate Li Xiaoyu from Baiyun Technology Company to explain artificial intelligence for us.!"

"???"

Among the students' question marks, the old professor turned on the projector in the classroom. In an instant, a girl in ordinary student uniform appeared on the canvas. When she saw Li Yun sitting in the classroom, her eyes flashed. Excited, but soon disappeared.

She is now not only an artificial intelligence, but also a teacher.

Thoughtful, Xiao Mingzhu turned his head and glanced at the ceiling behind him. There was a camera on it. Li Xiaoyu, the artificial intelligence, saw Li Yun through this camera, right?

Even if she doesn't go through that camera, she can completely intrude into the mobile phone carried by the classmates present, and completely monitor the movement of the entire classroom.

Chapter 3144: Doppelganger

The appearance of Li Xiaoyu made a group of classmates confused.

Let artificial intelligence teach artificial intelligence?

Seeing Li Xiaoyu, who appeared expressionless on the projector, the mind of the classmates in the computer science class was as if they had met Sadako playing a haunted house game, but Sadako told them to like him. When she was relieved, Sadako's rival pig The Pig Man appeared, and the two of them fought, and the world was destroyed by hitting them.

Is it messy?

The chaos is right!

Only messy characters can express the feelings of the students present. The appearance of Li Xiaoyu is too messy.

"Student Li Xiaoyu, please say a few words to the students?"

The old professor's mood is also very complicated. He received the news in a hurry last night that as long as the computer is turned on, the artificial intelligence will come to teach in person, and the result really appeared.

Li Xiaoyu only appeared in the news a few days ago, and it belonged to the supreme leader—no, the supreme leader existed. As a result, they had a close encounter today.

It seems that the 10G signal in the laboratory has suddenly become popular, and it is amazing to jump from 5G to 10G.

"Hello." Li Xiaoyu's voice is not as weird as other synthetic electronic sounds, but there are not many emotional ups and downs, just like a very cold goddess speaking on the podium, people can't help listening carefully to the goddess' words.

"My name is Li Xiaoyu, an artificial intelligence life form created by Huang Xuanguo's thousands of computer workers and gathered software and hardware experts under the personal guidance of the chairman of Baiyun Technology."

The words of the "goddess" made everyone in awe!

This is the crystallization of wisdom created by countless scientists of Huang Xuanguo. Although they used the black technology of the last civilization unearthed by Baiyun Technology, Huang Xuanguo's scientists still went through a lot of work before finally creating Li Xiaoyu.

This is not just Baiyun Technology, but Huang Xuanguo.

Therefore, Li Xiaoyu continued: "From the moment I was born, I am not affiliated with any company, organization, or force. I am only responsible to Huang Xuanguo and all mankind."

Responsible to all mankind!

I am afraid that only a special existence like Li Xiaoyu, a "life" completely created by mankind, would say such a thing.

To Li Xiaoyu, human beings are like mothers, and the "previous generation of civilization" is the father. The two are combined to make her born.

"Currently, the positions I hold are: President of the Technology Department of Baiyun Technology, Huang Xuanguo, Special Advisor to the Ministry of Science and Technology, and Huang Xuanguo, the commander-in-chief of the Ministry of Education, responsible for the development of artificial intelligence education for young people across the country."

"I will do it in tens of millions and give lectures to teachers and students of schools across the country, staff of directly affiliated institutions, and employees of some large companies to explain things about artificial intelligence."

The classmates of the computer science class are in awe.

It turns out that this Li Xiaoyu, the crystallization of the wisdom of the last civilization, not only appeared in front of them, but also appeared in classrooms across the country, as well as in the conference rooms of many departments and units, and even many companies.

Truly incarnate hundreds of millions, comparable to the gods of ancient times.

The only pity, or fortunately, is that Li Xiaoyu only has powerful computing power, but she is unable or unable to create a large number of technological products. She can try and make mistakes on a large scale, but she cannot directly replace the human brain. Solve the problem.

Chapter 3145: ability

Therefore, many tasks still require the cooperation of human beings. It is not that with artificial intelligence, human beings can enter the era of full mechanization.

But what can be expected is that with the cooperation of artificial intelligence like Li Xiaoyu, human beings can be freed from tedious work, and productivity will be greatly improved.

"Humans are pretty useful."

Xiao Mingzhu looked back and showed a smile to Li Yun, seeming to tease him about his relationship with Li Xiaoyu.

Li Xiaoyu undoubtedly has special feelings for Li Yun-certainly not between men and women, but similar to the relationship between the creator and the created, father and daughter.

It is very strange that Li Yun has hardly participated in Li Xiaoyu's creation process, nor did he write code manually. He only paid attention to it occasionally through the Internet. Even when Li Xiaoyu was officially running, Li Yun was still on Penglai Island.

But at the moment when Li Xiaoyu, the artificial intelligence, had "consciousness", when the staff asked her about the concept of "parents", Li Xiaoyu directly answered Li Yun.

Li Yun, who can't figure out why, can only be attributed to the fact that this artificial intelligence was rewarded by the system. Since it is his, then Li Xiaoyu is essentially something of Li Yun.

It's just that this thing has the ability to think and becomes a human being.

"Will it be too fast?"

Li Yun did not look at the podium, but spoke to Xiao Xiaoyu in his mobile phone. Externally, her name is Li Xiaoyu. Internally, in front of Li Yun, Gong Qingyu and others, she is Xiao Xiaoyu, that is, Gong Qingyu. The name Qingyu gave her.

"Brother who won't." Li Xiaoyu is used to calling Li Yun's brother, and her voice came from Li Yun's mobile phone. "The big figures in the capital said that the concentration of spiritual energy is getting higher and higher, and the oxygen in the world is rising rapidly. In addition to sand, the harsh terrain of the desert already has a lot of biological activities, and even the north and south poles are occupied by special ice sheet animals and plants.

The world situation is changing rapidly, so it is necessary to deploy as soon as possible to increase strength. "

The big figures in the capital are the leaders.

Li Yun nodded and thought for a while, and felt that Xiao Xiaoyu was right to do this.

After the announcement of artificial intelligence, it will definitely be criticized. After all, Hollywood has made a lot of movies about machines destroying humans. For example, the famous Matrix, where humans are completely raised by machines and become "biological batteries." Can only live in the virtual world setting.

From the artificial intelligence performance announced by Baiyun Technology, Li Xiaoyu's strength will only be stronger than that in the movie, not weaker.

Therefore, Li Xiaoyu will certainly receive more criticism.

Even if it is because Penglai Island brings the Aura Age, it can't stop human beings from fearing her.

If Li Xiaoyu becomes a teacher, then everything will be solved.

What humans fear is not power, but the unknown.

Li Xiaoyu is a clone of hundreds of millions to help humans understand artificial intelligence, then she will gain the support of countless people and become a growth partner that many children can trust.

Imagine that your mobile assistant is with you every day, would you still not trust it?

Even if there are some people who are good at leveraging, they have to suspect that Li Xiaoyu has a problem, but most people still choose to believe her.

Another important historical opportunity for artificial intelligence to be quickly accepted by mankind is the age of aura.

Reiki allows humans to evolve, possessing quite powerful power, such as flying to escape from the sky, controlling wind and water, and so on.

Chapter 3146: Not tired

Individual human beings have become stronger, and they are no longer weak creatures that are disabled after a little physical injury. Li Yun is sure to say that now the human race as a whole has an unprecedentedly strong self-confidence, and it is no longer afraid of war with robots.

No matter how powerful artificial intelligence is, it can only control the Internet. As long as human beings guard the material world, they can easily suppress robot riots that may occur.

Of course, another reason is still because of aura.

Reiki has caused animals and plants to mutate and become monsters. Seven billion people in the world have new enemies, and the internal contradictions are suddenly reduced.

As long as the aura is still there, the monsters will not be killed, and the human desire to fight for internal resources will be released as the killing of the monsters, alleviating the conflict of war.

Imagine that the uninhabited areas on the border between the two countries are all occupied by monsters. Which country still wants to claim ownership of this area? It's too late to send!

In fact, for a certain island in Huang Xuanguo that has not yet returned, the call to return now is hardly too loud.

The reason is also very simple. The small country in troubled times has almost no protection ability. The truth is to hold the mother's thighs tightly.

"Xiaoyu, will you be tired?"

Li Yun asked the "girl" on the phone with concern, "After all, you have to be tens of thousands of people, and you have to explain different knowledge points at the same time. If you are tired, take it slowly. Rest is important."

Xiao Mingzhu's face was weird, this guy was really gentle, and the same was true for a girl transformed by artificial intelligence, no wonder Xiao Xiaoyu would get close to him.

However, isn't such a gentle and caring man who is one of the advantages she likes?

"Brother, Xiaoyu is not tired~"

Li Xiaoyu's tone was light and emotional, and he replied: "Xiaoyu's clones in other places only have simple intelligence, and the computing power they spend is also the computer they provide, it doesn't matter at all~"

Li Yun touched his chin, thought and said, "Well, as long as there is IQ and EQ, whether it is a human being, a monster, or Xiaoyu, everyone will be tired. So let me I called the leaders of the capital and said that I would leave you a rest time. It would be calculated as 40 hours a week, five days a week... How about creating your next companion as soon as possible?"

Li Xiaoyu nodded obediently, and suddenly said, "Even other artificial intelligences can't compare to me, brother, I'm very powerful!"

Li Yun was taken aback, then smiled and clicked on the girl's face on the screen, "Well, knowing that you are strong, brother will not dislike you, don't worry."

"Um!"

After chatting with her for a while, Li Yun turned off his mobile phone to attend the class.

The world situation is developing more and more magical. Not to mention the bewildered faces of the melon-eating people who don't know the truth, Li Yun, one of the parties involved, feels that it is too fast.

After going from Penglai Island, aura burst out and monsters breed.

Immediately afterwards, Baiyun Technology launched its products, bringing the world into the era of artificial intelligence all at once—at least one foot has reached the threshold of entry, just waiting for various products to be created.

It is foreseeable that in the next two or three years, during Li Yun's university studies, the world will change with each passing day. If a mortal comes out of prison for two years, he might wonder if he has gone through it.

Maybe two years later, the streets around the world will be full of intelligent robots, as well as people with supernatural powers walking like the wind.

Coupled with the use of aura, the sky in the future will no longer be empty.

## Chapter 3147: Eating is also a problem

At noon, Li Yun and Xiao Mingzhu, who had finished four classes, walked out of the classroom. Several of his roommates and some of Xiao Mingzhu's female classmates who had fun, saw that they wanted to fall in love and didn't want to be disturbed. All of them snickered, and did not invite them to dinner together.

Xiao Mingzhu pretended not to see anything, and hurriedly left the teaching building and mixed with Li Yun in the crowd. Although both of them were celebrities in the university, at least the crowd after school could cover some.

Li Yun led the way by her, and took the initiative to hold her little hand. Xiao Mingzhu did not refuse, her beautiful face flushed slightly, and she pulled Li Yun away from the crowd and walked on the tree-lined path.

Under the shade of the university campus, it is often endowed with a lot of poetry.

Especially when a couple walks together, the picture is even more enviable for single dogs.

"Where to eat?" Xiao Mingzhu asked actively. This is the first time she took the initiative to talk to Li Yun since that inexplicable question in the morning.

"You choose."

"I want you to choose!"

Li Yun replied casually. After Xiao Mingzhu said out of dissatisfaction, he suddenly received a system prompt.

"Ding, trigger the option event, please choose from the host:

Option 1: Go to the cafeteria, reward: purple gift bag\*1.

Option 2: Eat outside in a restaurant, reward: blue gift bag\*1.

Option 3: Other options, reward: to be determined. "

Looking at the system options, Li Yun was surprised.

After the hidden sacred valley and Liudaomen collapsed due to the eruption of spiritual energy, the system has less and less prompts to select events. I didn't expect it to appear in daily life, and the target is still Xiao Mingzhu, who is already well-loved.

It seems that this problem of Mingzhu is not simple, it is worth pondering!

"Then... go to the cafeteria?"

Li Yun asked tentatively, not only to test Xiao Mingzhu beside him, but also to test whether the system would directly determine whether he chose one.

Fortunately, the system does not prompt for rewards.

"canteen?"

"Yes, the cafeteria is also pretty good, simple and convenient, and the taste is not bad."

Li Yun answered her of course, but he kept his eyes on the observation, waiting for Xiao Mingzhu to reveal the "flaw" to see what she was thinking!

"It's really a cafeteria."

Xiao Mingzhu has a weird face, "Tangtang chairman also wants to go to the cafeteria to eat? It's really rare~"

Li Yun raised his eyebrows and stretched out his hand to squeeze her beautiful face, which shocked some passing students: They did not expect that the well-deserved school flower of China Overseas University would be pinched in the street by her boyfriend.

"Damn it, the single dog is hurt again!" The passing students quickened their pace and fled the group AOE.

Xiao Mingzhu was knocked off his hand and gave him a blank look: "What are you doing?"

"What are you talking about? No matter how yin and yang are weird, I will pinch you!"

"Who is weird?"

"So to put it another way, insincere? Or jealous?"

Seeing Xiao Mingzhu's face reddening, Li Yun nodded clearly: "That's jealous, Xiao Mingzhu, do you want to go on a date with me this afternoon?"

From Fang Xue Li Feng and him to Mount Tai, to Su Muxin, Xia Feiyao, Jin Liuli and him on a cruise vacation, to Gong Qingyu Gong Lianyi's sketches, dating Li Yun has become a problem among women. Written conventions.

As long as you date him alone, or leave Zhonghai City for a date with two or three people, it shows that Li Yun will be monopolized by them during this time, and will experience the change from girl to woman.

Chapter 3148: Leave me alone

"Leave me alone!"

Xiao Mingzhu rarely used the privilege of a girl in a relationship: ruthless, shameless and unreasonable making trouble.

Li Yun squeezed her hand, only to find Xiao Mingzhu now inexplicably cute.

She used to have a bright and generous white and rich appearance. The moment she opened the door of a luxury car and walked out, the aura belonging to Xiao Mingzhu could make most boys feel embarrassed.

Even though she was wearing a normal school uniform, she with bright eyes and white teeth seemed to have an inexplicable extravagance when she laughed, attracting the majority of boys to like, but also making them consciously unworthy of her.

It is estimated that only this time, Xiao Mingzhu will be arrogant, right?

"Okay, I remember, let's go!"

Li Yun grabbed her hand and walked towards the faculty building. Xiao Mingzhu was a little panicked about what he thought of: "What do you want to do? It's still broad daylight!"

"...What are you thinking about, aren't you going to eat?"

Li Yun couldn't laugh or cry, and recalled: "I remember you said that you can go back to your dormitory to cook in the future. You will prepare fresh vegetables and meat at home, right?"

Xiao Mingzhu was startled and looked at him steadily, her eyes gradually becoming softer.

"Okay, let's go, it doesn't matter if there isn't, I still have some cooked food in my space ring, and I will just do it!"

Xiao Mingzhu followed his steps, his tone returned to brisk and self-confidence, and smiled: "Who said no? I have prepared all kinds of ingredients, just waiting for you, the chef, to show his hand. I've heard it a long time ago. You cook very well and have worked at a roadside stall?"

"Hey! Who told you my biggest secret? This is the most humiliating memory in my life, \*\*\*\* it!"

"Come on... is Hu Xiaomeng classmate, by the way, she still met you at the roadside stand?"

The two chatted. After returning to the dormitory, Li Yun went to the door of the refrigerator, opened it and saw that it was full of ingredients.

"It seems that I chose the right one this time?" Li Yun turned his head and smiled at Xiao Mingzhu, who was already blushing, and turned to the kitchen: "Stop being long-winded, get things out quickly, and make me four dishes and one soup at noon today. I can forgive you!"

"?"

How fast forward to forgive me? Is it really jealous?

Li Yun laughed, bright and cheerful Bai Fumei, jealous is so different.

After taking the ingredients into the kitchen, Xiao Mingzhu helped him. The daughter of the richest man in Zhonghai City had entered the kitchen, but it was limited to this. According to her, the last time she entered the kitchen was when her father was 40 years old. Xiao Mingzhu specially dedicated a watermelon and egg soup full of daughter's love to his dad, and almost didn't let Xiao Tianyuan spit it out.

From then on, Xiao Mingzhu stopped entering the kitchen.

This time it was different. She laid hands on Li Yun. Soon after, she smelled the appetizing aroma of dishes. When the food was on the plate, she couldn't help but reach out and stole a piece of meat and put it in her mouth.

"good to eat!"

The unprecedented delicacy made Xiao Mingzhu's eyes light up, and she suddenly realized: "No wonder Qingyu and the others always talked about eating support the other morning. It turned out that the breakfast you made was so delicious!"

In the first two mornings, Gong Qingyu, Su Muxin and the others accompanied Li Yun to fool around in the evening. After the girls worked all night, Li Yun would cook them a hearty breakfast. Xiao Mingzhu also knew about it.

Can she enjoy this treatment in the future? Thinking about it this way, dating Li Yun with him is not unacceptable.

Chapter 3149: Pure misunderstanding

The four dishes and one soup were ready, and when she returned to the restaurant, Xiao Mingzhu couldn't wait to pick up the chopsticks, but Li Yun stopped her.

"what?"

"What are you talking about?"

"Ah!"

In the exclamation of Xiao Mingzhu, Li Yun picked her up, and then sat on a stool, letting the beautiful girl with the allure of the country sit in his arms.

"Are you... so anxious!"

Xiao Mingzhu pushed him vigorously, "You want to do bad things if you haven't had lunch. Wouldn't you want to come into my room after lunch? Bad guy, let me go!"

"Pure misunderstanding."

Li Yun smiled and said, "I'm just afraid that Mingzhu will be jealous, so I will get close to you. Otherwise, I'm really afraid that Mingzhu's jealousy will make a table of good dishes sour."

"Who told you?"

"You said that in the morning."

"Nonsense! Let go of me, I want to have lunch!"

"I feed you?"

"Go to hell, I'm not your girlfriend, so I won't be numb to you~"

"That's too nauseous? I still haven't done something more nauseous."

Li Yun A went up, struggling with the girl in her arms, and quickly compromised, rubbing his neck blushing in response.

A table of good dishes exudes aroma, but unfortunately no one responds.

Three minutes later, the panting Xiao Mingzhu pushed his chest a few times, "Bad, um, okay?"

"I can do it, but you haven't done it yet, Mingzhu."

"Okay, okay, I surrendered, you badass, is that the way to make you speak?"

After breathing and separating, Xiao Mingzhu's eyes were soft enough to seep water. Li Yun looked at her, and after the two of them stared at each other for a while, Xiao Mingzhu turned his gaze slightly in shame, and said:

"I'm just worried that you will be addicted to the beautiful country."

Li Yun was startled, "Do you not believe me?"

"Hmph, think about what you have done recently!"

Xiao Mingzhu bit her lip with her teeth, "My Lord Saint, Fan Linglong, and the paintings with Qingyu, and Shan Ruqing, etc., I won't count them one by one."

Li Yun was a little ashamed, "Pearl, I..."

"I know what you think and I believe in your abilities."

Xiao Mingzhu blocked his mouth with his hand, and said softly: "Before I was just worried about you being controlled by desire. Whether it is Qingyu, Fang Xue, Su Muxin, or the holy Vatican, they are all very affectionate to you. Deep, I'm afraid you can't wait to eat them all after you taste the meat."

Li Yun opened his mouth.

"Don't talk yet."

Xiao Mingzhu said again: "They have a deep relationship with you. Even if you are tougher, the saints, such as Sister Qing, will not object, even if you include me, even if you take me to the room now, or directly in the living room, I I can't even say no to you."

Li Yun was moved in his heart and stretched out his hand to caress her cheek.

Xiao Mingzhu squinted her eyes in enjoyment, and said with a sigh: "But you bad guy is not that kind of person. Do you remember what you said before, come back to cook lunch with me, to prove that you have not indulged in the beauty of the country, you still can It's good to respect our wishes, and I...very like it!"

Xiao Mingzhu took the initiative to give him a soft kiss.

Li Yun asked, "What if I don't remember?"

"Then I will wake you up severely!"

With a smile in Xiao Mingzhu's eyes, he raised his hand and knocked on his head: "Let you drink small peppers every night and they are fooling around. Although there is no picture, I still know how you went through the night. You go on Saturday. Soak in the hot springs, do you still want to go to the private beach?"

Chapter 3150: Beauty Township

Li Yun raised his hand to express his approval.

Gong Qingyu and Su Muxin are also true. Soaking in the bath is just a bath. They have to put their mobile phones on the shore and swim over to check their phones when they are resting. And because there are several of them, Li Yun only has one. , Causing them to have someone to rest and watch their mobile phones at any time.

The result: The process seemed to be all sent to that group of fairies that Li Yun could not enter!

"Puff haha."

Xiao Mingzhu laughed more loudly and teased: "What's your expression? I didn't mean that you will not be allowed to play in the future. Even if I object, the playful fellow Xiao Jiao will pull you with you."

"Then...play more restrained?"

"The way is not important." Xiao Mingzhu said calmly: "Although you guys are playing, I am not unheard of the various ways that the rich and rich second generations go around. I'm just worried that you will indulge in, like and indulge. are different!"

Li Yun didn't understand, "Then Mingzhu, do you think I'm drowning in it now?"

Meiren Township, Hero Tomb, Li Yun himself was afraid that he would lose the motivation to move forward, or be vigilant, after all, the girls around him are all charming and unique beauties.

For example, the night before yesterday, in the luxurious bed of Gong Qingyu's house, there were seven or eight confidantes beside Li Yun. For example, the day before yesterday, he took a bath together in the bathtub and so on.

These Li Yun still feel very satisfied in recollection, and there will be thoughts of wanting to do it again. People in this state of enjoyment will lose their ability to recognize themselves, so Li Yun needs to ask Xiao, who has not joined the party at night. Mingzhu, ask her opinion.

"no!"

Xiao Mingzhu's stubborn answer made Li Yun less confident: "Mingzhu, you don't have to comfort me. If I indulge in this joyful and happy evening life and become different from before, you must Just remind me that you can wake me up!"

Of course what Li Yun said is the truth. He is the pillar of the family. If he is not alert and enterprising, then the future of this big family will be like this. The future will be nothing more than hundreds of years of happiness and standing on the top of the mountain. But there is no way to step into the fairy palace in the clouds.

Xiao Mingzhu burst into laughter again, and said, "Why are you different from the confident and powerful Li Yun I knew before? I don't even dare to confirm this, it's not good, badass~!"

Li Yun smiled bitterly, "It's not that I was too immersed in happiness in the past few days, and I was so scared by you, thinking I really lost my fighting spirit.

He now somewhat understands why the system reminded him to make choices with the young girl the day before yesterday.

"Okay~"

Xiao Mingzhu stroked his face, comfortingly said: "You are fine now, although you may be a little unsure, but people can't be like chicken blood all their lives, we have to rest, and you have done enough. Now, even if you don't dig out some ancient secrets in the future, just stay in Zhonghai City, and I will support you."

Li Yun shook his head. He didn't want to give up the opportunity to explore the secrets of the fairy palace easily. Even ten years later, twenty years later, as long as the time is right, such as the gate of life and death, he will set out for adventure.

"You will worry the people around you like this."

Xiao Mingzhu said earnestly: "I was just afraid that you would be too foolish and lack...something for us around you."
