Chapter 3251: Share

At noon, Li Yun and Liu Xianxian, who had finished their morning exercises, got up to eat, but the fairy bun, who had just become a woman today, didn't want to go out, so Li Yun went outside to buy lunch and came back, and lay in the living room for dinner while watching TV.

After eating, I didn't get up lazily until I took a nap at 3 in the afternoon. Liu Xianxian finally said that he could walk, so he took Li Yun to go shopping, walked around the small town of Zhenbei, and said to wait for Qingyu and the others. After you come, go shopping again.

When Li Yun heard her say this, he reacted in surprise: "Qingyu and the others are coming?"

Liu Xianxian glanced at him: "Otherwise, how could you deal with your bull?"

Li Yun looked embarrassed and made Liu Xianxian smile.

"Xianxian, are Qingyu and the others okay?"

"Why do you have the same problem as them? Don't worry, I'm fine, besides, more people can play better...not at night, but during the day and during the day!"

Liu Xianxian especially emphasized that she definitely didn't mean to play around at night.

"You can play during the day." Li Yun said he was looking forward to it. Liu Xianxian gave him a roll of eyes and turned to enter a restaurant.

The two ate in this simple and quaint restaurant, then went to the sparsely populated desert area for a stroll, and then went to the film and television city to have a supper barbecue before Liu Xianxian returned contentedly.

"Well, no more."

At night, Liu Xianxian begged for mercy. Li Yun's ability as a big bad guy was beyond her tolerance. She was tireless and had so many methods that she didn't know how to respond, so she could only cry and lay on the bed with her mobile phone. , Let Gong Qingyu, Su Muxin and the others come quickly.

In the end, she will arrive before the gymnastics exercise tomorrow morning, otherwise her waist will be broken from exhaustion.

fortunately.

Su Muxin really arrived before noon the next day, and brought Gong Qingyu, Xia Feiyao, and the three daughters to the Zhenbei Castle, which finally eased Liu Xianxian's tolerance.

Five people played crazy for a day.

For the first time, Liu Xianxian felt the joy of a lot of people messing around together. As Xiao Mingzhu said before, I was really afraid that they would be addicted to this kind of gentle homeland and couldn't help themselves.

After all, Liu Xianxian also found out, she didn't seem to feel the passage of time all day.

The five people were nestled in the single-family house of the Huangsha Hotel. After Su Muxin went to Gong Qingyu, Gong Qingyu went to Xia Feiyao, and then she, or the two of them accompanied Li Yun, and the three of them. Often, there is no problem with four people.

Many of the plots that happened in the movies that Liu Xianxian has seen before have happened.

So on the fourth day, Liu Xianxian insisted on pulling Qingyu to get up, and decided to go out to play during the day, absolutely not to accompany Li Yun to mess around!

"Yeah, I also want to play in the film and television city."

Xia Feiyao was a little shy. She flew back from Penglai Island and originally wanted to visit the film and television city. But the day after she came, she didn't go out for a whole day, so she accompanied her husband and three sisters into chaos.

Although playing in the hotel is also very good, I still can't be too addicted to it, I still have to go out and play.

"Yup!"

Su Muxin also plausibly waved her little hand and said: "We should go out and play instead of staying in the hotel all day, otherwise it would be too shameful, Qingyu, it's all to you! I won't let go."

"Sue first for disgusting?"

Gong Qingyu glanced at her, "Before you say this, let's put on your clothes first. We are all dressed, but you are still naked."

"Huh? Has everyone decided to go out to play?"

Su Muxin blushed and quickly got up to get dressed, ready to go out for a stroll.

Chapter 3252: Leave

After four days of playing in Zhenbei Castle, the five Li Yun finally left contentedly.

Li Yun and Liu Xianxian returned to Hengzhen Film and Television City to make up some later footage, while Gong Qingyu and the others returned to Zhonghai City.

"too crazy."

Leaving this desert city in the car driven by the life assistant, Liu Xianxian looked at the desert town drifting away with some wonder, and muttered.

She couldn't imagine how erosive her life this week was!

In addition to eating, drinking, and having fun, the four of her and Gong Qingyu accompanied Li Yun to play around for a whole week. During the period, they did nothing and played around, rested in the morning, went to the desert in the afternoon, and returned to the Huangsha Hotel in the evening. I've been playing around all night.

Liu Xianxian didn't know how many times she lost her mind. At night, the chaos in the hotel was extremely chaotic. Liu Xianxian didn't dare to think about it, because every time she thought of it, her head would faint.

She tried all the messy things at night.

No, not all.

At least in many places, she didn't dare to let Li Yun come here. Liu Xianxian firmly disagreed. She just watched Li Yun and Su Muxin mess around. She definitely couldn't agree to that.

It's not dirty or anything. They have been treated with Li Yun's pill to make their bodies clean and dirt-free. In addition, they are already initially possessing magical powers. The dirt left on the bodies of ordinary people does not exist for them.

But Liu Xianxian still felt ashamed, and said nothing to allow Li Yun to mess around. Every time he wanted to mess around, Liu Xianxian would roll to the corner of the bed and cover himself with a quilt, resolutely not to give that big villain a chance to do anything!

Helpless, Li Yun had to give up.

In fact, except for Su Muxin, Hu Xiaomeng, and Zhao Tianfeng who are willing to try a variety of fun ways with him, most of the other girls are pure and shy. Even though the big cups sleep together at night, they can't let go.

"Bad guy, what are you thinking about?"

Sitting in the first-class cabin, Liu Xianxian glanced at Li Yun with a look full of feminine charm. She knew this guy well now. Once he was in a daze, he knew what he was thinking now.

"No, I definitely didn't think of anything like chrysanthemums all over the floor."

"Go to hell!!"

The two dared not fight, after all, it was the first class cabin. Liu Xianxian quickly calmed down, put the seat down, and lay on it comfortably and waited back to Hengzhen.

Seeing her lying down, Li Yun couldn't help but think of the day before yesterday.

At that time, he, Qingyu and the four of them all played Zhenbei Castle. After all, it was on the edge of the desert. The area of Zhenbei Castle was much smaller than Hengzhen Film and Television City. There was nothing fun.

So, Li Yun, at Su Muxin's instigation, took them to the desert for a day, and found an oasis, camped in the desert oasis for the night, and played around for a whole night, making Fang Xue who didn't follow him envious. Call.

The only pity is that desert oasis is usually not the kind of green and clear lake in the movie. The lake in the oasis does not flow, and it is impossible to be clear even if you think about it.

Moreover, the desert oasis also carries the function of providing water for nearby animals and plants. Countless animals will rush to the oasis to drink water, and the lake is so dirty that it is impossible to see.

However, Li Yun also saw that the desert oasis has changed because of the Aura era, at least there are many strange plants around the desert, which makes the water supply function of the desert oasis much weaker.

Chapter 3253: Finale

However, even if the lake in the desert oasis is not very good, the five of Li Yun still did not have a great time in the desert oasis. After all, with his strong strength, Li Yun took his four daughters into the desert, and the surroundings were extremely desolate. No one will notice if you don't wear it or do something shy.

Therefore, Li Yun and Gong Qingyu, Liu Xianxian, Su Muxin, Xia Feiyao, five people incarnate primitive people in the desert oasis, all kinds of play, there was an open-air barbecue meeting in the evening, it was past nine o'clock, tired of playing The four women who had fallen off did not want to spend the night in the desert, saying that the dark desert was not interesting, and they slept unsteadily.

In the end, the four girls still pestered Li Yun, let him take them into the Lotus Immortal Mansion, and spend the night in Nie Xiaoqian, the bamboo building built by Pan Suyi.

Nie Xiaoqian was ashamed and surprised when she saw the four women entering the fairy mansion without wearing them, but she was soon pulled together by Su Muxin.

A total of five people and one ghost, tumbling and playing on the grass by the lotus pond, played in the middle of the night, and then fell asleep contentedly.

When they woke up the next day, the five women blushed at each other and looked for clothes to wear.

To use Nie Xiaoqian's bitterly resentful words: "My son, I think the bamboo building I have worked so hard to build for several months is useless at all!"

There is no sun in Lotus Immortal Mansion, but it can simulate sunset and sunrise. There will also be a huge moon hanging above the head at night, but the moonlight it emits is not too cold. The temperature is more than 20 degrees throughout the year. It will not change much at night.

Therefore, six people sleeping on the grass by the lotus pond is completely okay. Take out a few blankets and spread them on the grass, and put a few pillows on them. It's okay to sleep on them in large fonts.

That's how Su Muxin fell asleep. She was the first to fall asleep last night.

Xia Feiyao was a little shy, covered with a thin blanket, and after unable to sleep, she went into Li Yunqi again, and then fell asleep comfortably.

As a result, Li Yun woke up in the morning and found that his body was covered with girls, and even Gong Qingyu, who had always been cold, was wrapped around him.

After playing in Zhenbei Castle for almost a week, Li Yun and Liu Xianxian finally flew back to Hengzhen Film and Television City.

If you don't show up anymore, you will travel to Hengzhen for the sake of Liu Xianxian's tourists to overthrow Hengzhen.

...

A week later, the film was successfully completed.

It took less than a month to shoot before and after, and the addition of Li Yun saved a lot of time for the props group, and the tacit cooperation between him and Liu Xianxian—referring to the state when kissing quickly, and also saved a lot of time for running in. .

"cheers!"

"Cheers, I wish our movies are selling well!"

Everyone was at the finale banquet at a hotel in Hengzhen, and everyone's faces were full of smiles.

This shooting can be said to be the easiest time since they joined the work.

First of all, most of the scenes are concentrated on the two protagonists, Li Yun and Liu Xianxian, and their acting skills are both online, and many scenes are done at once.

Secondly, the crew was not short of money, and an extra month of bonus was given after the early disbandment.

Coupled with a one-week holiday to Zhenbei Castle, it is perfect to enjoy!

Finally, if the movie sells very hot, there will be bonuses in the follow-up!

Almost no one doubts whether the last one can be realized.

This "Mr. Killer and Miss Sheriff", with Liu Xianxian's participation, has already received a huge amount of attention, and since this month, movie-related topics have dominated Weibo hot searches and discussion points in major forums all the year round.

Chapter 3254: Wish the movie sell well

It can be said that this movie is a pile of shit, which is also a pile of **** that can sell for at least 300 million.

Don't you see that some unbelievably trash "Big Times" movies can sell for 200 million?

Therefore, the "Hitman and the Sheriff" starring Li Yun and Liu Xianxian, it is not a problem to sell hundreds of millions. Even if it cannot be a classic, it is definitely a good movie above the qualified level.

At the finale banquet, everyone looked at Li Yun with different eyes.

In the past, I used to look at the eyes of a young and promising young man who just debuted, but now, Li Yun already has a reputation as a first-line celebrity, plus he completely embraces Liu Xianxian's thigh, even if he breaks up with Liu Xianxian in the future, That also has the rising capital.

It can be said that becoming a second-tier star and earning tens of millions a year is not a problem at all!

"Thank you for helping me as a newcomer, and I toast everyone."

Therefore, when Li Yun raised his wine glass to toast, a group of puppets hurriedly raised the wine glass and clinked glasses with him.

In the interest field of the entertainment industry, although there will be no real friends, even the superficial friends are quite important.

"What about me, what about me!?"

Liu Xianxian pointed at himself, "Why don't you toast me as Sister Liu?"

Everyone in the crew laughed.

The relationship between her and Li Yun is almost semi-public, especially after the return of Zhenbei Old Castle, Liu Xianxian's temperament changed from a pure girl to a pure and slightly charming woman, although the change was not It's huge, but it's enough to let people in the crew know that she and Li Yun were playing together that week to guess what would happen during that time.

Therefore, Liu Xianxian's words are to act like a baby with his boyfriend.

"Sister Liu, drink!"

Li Yun had no choice but to have a drink with Liu Xianxian who was grinning, which satisfied her playful heart.

In the end, Li Yun and Song Lini had a drink, and neither of them said anything.

Song Lini dared not pursue Li Yun anymore. The events that shook the entertainment circle that day made her realize that Li Yun's background is not simple. It is no wonder that while interacting with Liu Xianxian, she can also interact with several other women. The child maintains an unclear relationship.

If she continues to pester Li Yun, what is waiting for her will be Thunder's punishment, not to mention the forces behind Li Yun, just Liu Xianxian, or those girls with extraordinary backgrounds, she can't bear it.

The gap between her and Li Yun, Liu Xianxian and others is too great.

Fortunately, she didn't react too slowly. If Liu Xianxian is really annoyed, the international star only needs to let out a bit of wind, and she can only quit the entertainment circle.

"I wish the movie a big seller!"

In the end, Director Zhang stood up and raised his glasses, and everyone also raised their glasses: "I wish the movie a big hit!"

The finale banquet came to an end.

...

Li Yun and Liu Xianxian returned to Zhonghai City together, but Liu Xianxian was ashamed to say that he could not go to the mansion for the time being, and went home alone, saying that he would go later.

Li Yun had no choice but to return to Qingyu's house alone.

Liu Xianxian probably knew that if she went to the mansion now, she would have promised to sleep on Qingyu's bed of tens of square meters at night, and accompany Li Yun with Gong Lianyi and others.

Although Liu Xianxian was with Gong Qingyu and others when he was in Zhenbei Old Fort, she was still a little shy if she really wanted to go to the big bed.

Back at the mansion, Li Yun shouted towards the living room: "I'm back!"

Chapter 3255: Laziness

After returning home, Li Yun fell into a state of laziness again.

There are only five days to go to the final exam, but Li Yun has already acquired all the knowledge of the university, and there is no competitive psychology. Even Gong Qingyu asks for leave every day, saying that he doesn't care about the first or the second.

Li Yun didn't have and didn't have the first thought. He now has an unclear relationship with Liu Xianxian, Gong Qingyu and others, which has been spread throughout the university.

As long as he appears, it will inevitably arouse a lot of curious eyes.

Fortunately, Li Yun's image passed the test, he should be handsome and handsome, he should be outstanding, and he should have strength and strength. One person can occupy Liu Xianxian and Gong Qingyu, as well as Xiao Mingzhu and other big beauties. No one really said. The problem of his unworthiness is at most scolding him for a scumbag.

This time Li Yun didn't plan to take the first place, as he was almost in the top ten.

Therefore, Li Yun went to school in the morning in the morning, and after two random classes, he used the excuse of something to do with the Supernaturalists Association, or went to practice, and went straight to the office of the president of his Supervisor Association.

Drink tea, play mobile phones, watch movies, or chat with Li Xiaoyu, care about the progress of artificial intelligence, or talk with Hu Xiaomeng in the capital, chat with Fan Linglong in the Hidden Sacred Valley, and so on.

Life is comfortable and cozy.

And this is definitely not a question of his lack of fighting spirit, but really nothing happened recently.

The concentration of aura is still rising, and countries have gradually established teams of superpowers and superpowers. Various research institutes have sprung up like bamboo shoots after a rain. Various evil organizations and forces are also about to move, but the Fairy Society is still on Penglai Island. A big power, many abilities are willing to join.

Moreover, with the slow increase in aura, the major countries in the world have not collapsed, and the social order that should have been maintained.

Even if there are some abilities who make trouble, use the acquired abilities to do bad things, rob and kill people, etc.

But the power of justice always prevailed, and the society as a whole was still developing in a very healthy and orderly manner. As if human beings had received a purifying agent, the entire ethnic group was changing with each passing day.

No one knows what will happen in the future.

"Hello, President."

Li Yun is sitting in the office of the president. Recently, there have been dozens of more people in the Supernaturalists Association. They are all people who have spent money to fly to Penglai Island to bear the aura wash and obtain supernatural powers after seeing Li Yun and others perform supernatural power .

For example, the little beauty in front of me, Zhao Panpan, a freshman from the business school, is in the same major as Su Muxin. She has some money in her family, and she also took a boat trip to Penglai Island with her parents. Although the process was a bit twists and turns, she was on the sea. Encountered a big whale cruising, but in the end it went to Penglai Island smoothly and gained the ability to enhance eyesight.

Although this kind of power seems useless, more and more research on the power has proved that the closer to the abnormal changes in the brain, the stronger the type of power that people get.

For example, hand strengthening may just make your hands extremely hard and able to penetrate water and fire.

However, the enhancement of the eyes will be able to perform strange and unpredictable mental attacks in the future. Those with weaker physical enhancement abilities will be directly killed by a single move, and there is no resistance.

All of these have precedents. Including the organization of supernatural beings stationed on Penglai Island, it is recognized that mutations near the brain are the evolution that truly enables humans to gain strength.

Chapter 3256: stranger

It is said that there is a special ability person who has evolved in the cerebral cortex. She can flip through a book within a second and memorize all the contents of a whole page into her mind.

Not the exaggerated effect of variety shows, but what happened in reality!

This is only the first stage of strengthening. After her brain is strengthened again in the future, she still doesn't know what it will become.

Li Yun didn't have much interest in this kind of ability. Even the legendary space ability, or time ability, Li Yun didn't really appreciate it.

The reason is simple. The power of all supernatural beings is based on their own strength.

Even if an ordinary person acquires the space power, at most it can make a pen disappear out of thin air and reappear after a few seconds. It is impossible for an ordinary person to instantly move and disappear to more than ten meters away, and then suddenly appear as in the movie. .

In fact, those with supernatural powers also pay attention to the conservation of energy. The stronger the person, the stronger the supernatural power.

Their abilities are not obtained out of thin air, but after absorbing the aura, the aura provides them with the power of supernatural powers, so they show all kinds of abilities, such as manipulating flames, playing with waves, walking on water, etc. A series of things similar to those of practitioners.

Obviously, supernatural beings are also a kind of practice, but they turn practice into instinct and strengthen their own organs.

Li Yun felt more and more that the sentence of the young girl was right: the supernatural being is the monster's natural power.

In ancient times, monsters and humans...

Heh heh, thinking too much, Li Yun currently doesn't want to guess what happened to the ancient monster race and humans, so it is temporarily over.

"Panpan, what's the matter?"

Li Yun sits on the chair of the president of the large abilities association. This Panpan is one of his president's secretaries, and he is usually complicated to pass things to him through QQ.

Although Li Yun is the president of the supernatural being, he is actually a teacher or some prestigious students. Li Yun estimates that he is a mascot.

"One thing, I don't know... should I say it."

Zhao Panpan said hesitantly.

Li Yun smiled and said, "Panpan, what's wrong with you? Didn't you do things in the past? Why are you so hesitant today? Even though I can solve anything, if I can't solve it, I will find a way to solve it! "

It's not that he brags, there are really few things within the scope of China Overseas University that he can't solve.

Zhao Panpan whispered: "It's your classmate, Huang Guanying's, he seems to..."

"Oh? Huang Guanying?"

Li Yun searched in his memory before remembering who he was.

When school started, this guy clashed with him in a restaurant off campus, and then he became honest after being taught a lesson.

For the sake of his classmates, Li Yun did not kill him. As long as the other party was not very arrogant, Li Yun did not see him. Anyway, he did not participate in many class group activities, and he did not sit with him in class. Quan When I didn't see it.

"What's wrong with him?" Li Yun smiled slightly, "It's okay, let's go, although he is my classmate, but he has a bad relationship with me, and even if the relationship is good, he has to deal with it if

he commits a crime!"

One of the more important tasks of the Association of Supernatural Powers is to prevent those with supernatural powers from committing crimes on campus with abilities different from ordinary people.

For example, a miracle similar to Zhao Panpan can see the bathroom mirror in the male dormitory one kilometer away from the female dormitory, and the reflection of the mirror can see the boy in the shower.

Chapter 3257: Huang Guanying's actions

There are countless similar abilities.

Originally, these things were under the control of the dispatch. However, due to the Aura era, the manpower was insufficient. China Overseas University established its own crime prevention team, and the main force was the Association of Supervisors, which are also supernaturalists.

The assisting force is the school security office, plus teachers as guidance.

Although it is a guide, the supernaturalists' association led by Li Yun also has great rights. It can let the security department cooperate and join the student union as an excuse to check the student's internal affairs and search for something.

In short, the status of the Association of Supernaturalists is getting higher and higher, and the rights are getting heavier, so that Li Yun's identity as the president of the association has been spied by many people. If it were not for the full support of the school leaders, plus the Education Bureau, It seems that the Association of Supernaturalists in Zhonghai City is intended to become the chairman of a joint association that leads all Zhonghai City's primary and secondary schools, as well as college, undergraduate, and master's students, so that people know that Li Yun's background is not young. Was ousted.

Fortunately, Li Yun has no intention of developing in the Supernaturalists' Association, so many people who are greedy for the position of the chairman have no idea of seizing power for the time being, so they should control their own one-third of the land.

Therefore, Li Yun thinks Huang Guanying intends to express his position.

"Ah, that's good."

Zhao Panpan breathed a sigh of relief, leaned over, covered his mouth with his hand, and whispered: "President, I have received news that Huang Guanying seems to be in close contact with some supernatural organizations in the society, and intends to Develop superpowers in our school and join an organization outside the school!"

Li Yun pondered for a moment and asked, "That's it?"

"what?"

"Ah for what!"

Li Yun smiled and said: "What organization does he join? It's their business. We can't control it, as long as we don't break the law... But listening to your tone, it seems that he really intends to break the law?"

"It seems to be, I'm just guessing." Zhao Panpan waved his hand quickly, "I also heard a friend of mine say that Huang Guanying planned to organize people to eat black and eat another organization that is not a supernatural person, but it turned out to be on a mixed road. Those people!"

Li Yun raised his eyebrows, which was really unexpected.

The little rascals on the gangsters were basically so angry when they saw the students, but now the Reiki Age has turned it around and turned into students to find trouble with those gangster groups.

However, it can attract the attention of Huang Guanying and others, and it is estimated that the gangster group and the black and white take-all gang, quite a bit of power and money.

"Black eat black..."

Li Yun sighed and looked at Zhao Panpan: "Do you think we should take care of it?"

Zhao Panpan nodded.

"Oh why?"

"Because the president is great!"

"Go, don't slap me up!"

Li Yun scolded with a smile, Zhao Panpan looks pretty, but Li Yun doesn't have that thought at all. Gong Qingyu and the others are enough, and there is no need to increase the number of girls around him.

"Hee hee." Zhao Panpan stuck his tongue out, "Chairman, my suggestion is to close it. The reason is simple. Huang Guanying pulls the students around to do bad things. If we don't remind the members of the association, even They succeeded, but isn't everyone in our association eager to move around and want to go outside to do a so-called career?"

I don't know if it's affected by the movie. Almost half of the power users want to join an organization or become a mountain of their own. In short, after obtaining the power, you must do something to be worthy of obtaining it. Ability!

Chapter 3258: Ability Association

".....you're right!"

After Li Yun pondered for a while, he felt that what Zhao Panpan said was somewhat reasonable, so he nodded to her and said, "You can help me find the ministers of several departments, and I will discuss with them."

"Yes!"

Zhao Panpan obediently agreed.

Although President Li Yun used a polite tone and said kind words like helping him, but I don't know why, Zhao Panpan always feels that the president's majesty is too strong, just sitting on the chair of the president, leisurely With Erlang's legs upright, she can feel a strong sense of oppression. This made Zhao Panpan even think that the guild leader's ability level may have reached level 8 or above, close to the highest level 9 in the world!

The world is divided into power level, spiritual plant level, monster level is 1-9, 1 is the weakest and 9 is the strongest, but these divisions are not fixed abilities, but are divided in proportions.

The strongest 9th level will always have only a few people. If there are stronger ones, these 9th levels can only be divided into 8th level. This also prompts every ability player to find a way to improve his ability level. , Otherwise, after half a year, the original 8th-level ability can only be divided into 3rd-level ability.

Traveling against the current, if you do not advance, you will retreat.

Zhao Panpan is quite satisfied with the current progress. Although the president doesn't care, the few... admirers beside him!

Admirers, they are talking about Gong Qingyu, Xiao Mingzhu and others. These girls have no positions in the Supernaturalists Association, but they are very popular because they will bring out some monster meat from Penglai Island from time to time. Or Lingzhi, etc., as the welfare of the association, distributed to members who have contributed.

They are the ones who truly support the president and are truly energetic. This is the consensus of the people of the Supernaturalists Association. As long as they still support Li Yun and the principal's full support, then Li Yun's position as president will be as stable as a mountain.

"President."

"President Li Yun."

"President, I am here."

Several department heads only arrived at noon. After all, they were still students, and it was impossible to come to meetings during class.

"Well, sit down, let's discuss one thing."

Li Yun smiled and nodded at them. Among these people, there were three men and three women, who were the ministers of the Ability Exchange and Discussion Department, Ability Actual Combat Department, Propaganda Department, Discipline Department, and Logistics Department.

Although it is far less than the student union in terms of the number of departments, the psychic association exists independently of the student union, and from the distribution of the activity room and school funding support, the psychic association is far more valued than the student union.

Apart from other things, just from the point of view that the president of the Abnormal Association can assist and command the school security department, you know how important the Abnormal Association is.

Undoubtedly, the director of the Supernaturalists Association, who has grown stronger and has a much broader future development prospects than the Student Union, has certain means and abilities. They will have no problem running for the president of the Student Union. Even with the prestige brought by his own abilities, the candidate for the president of the student council is almost guaranteed.

"President, what's the matter?" Luo Danzhen from the logistics department is a sophomore and a senior. She has wind powers and looks petite and lively, but she is fair and fair. She is the class leader in the class. She used to work in the Finance Department of the Student Union. minister.

However, after joining the Supernaturalists' Association, she resigned the head of the Finance Department of the Student Union and focused on the development of the Supernaturalists' Association.

Chapter 3259: Huang Guanying

At present, there is no financial department in the Supernaturalists' Association. After all, she is only a hundred people, and most of the things do not involve finances. Instead, she does the most work on the allocation of training resources.

"Huang Guanying, do you know?"

Li Yun asked straightforwardly, he was not in the mood to stay longer in the Supernaturalists' Association, at most one or two years, and then he would choose a suitable human-to-human position, or let the school choose the president of the Supernaturalists' Association.

When he graduates from university, it is estimated that the leaders of Zhonghai City will assign him a vacant position, which is also a position related to the Supervisors Association, and manages all supernaturalists in Zhonghai City, and Li Yun will also be the shopkeeper by then.

Just like those calligraphy associations, network literature associations, etc.

"He."

"knowledge."

"He is your classmate of the president, right? The Tiger King's ability!"

Several ministers expressed their opinions one after another. Li Yun understood now, and smiled: "It turns out that what Huang Guanying did has been paid attention to by you. That's it. Let us all express our opinions, how to warn, or deal with this matter. To be honest, when I was the president, I was to catch the ducks on the shelves. In the future sophomores and juniors, I may resign, and then you or the school leaders will appoint the next president, so please behave well!"

Several ministers glanced at each other, surprised, but reasonable.

The president of Li Yun is indeed incompetent, but he can't stand his reputation, strength, and connections. He has the support of a few super white and rich and beautiful, and the school leaders have no objection. Therefore, he is properly appointed as the president and will not be shaken. too much.

In addition, President Li Yun recently went to make a movie with Liu Xianxian. It seems that he intends to develop into the entertainment industry. The president of a university's supernaturalists association is probably not in his eyes.

"President, I'm sorry."

Sun Yong from the Disciplinary Department is a tall man. He smiled honestly and scratched his head and said: "A classmate had already reported to me about half a month ago, saying that Huang Guanying had drawn people in the association. I arranged for a classmate to go in. After inquiring, I learned later that Huang Guanying was going to do something, eat black, get rid of some unclean entertainment venues, and coerce the boss to give out a little money and so on.

Firstly, I think he hasn't started yet, secondly, this matter is not qualitative, plus we have other jobs, so I didn't report it to you. "

The Disciplinary Department is actually similar to the Disciplinary Department of the Student Union, except that it does not care about the discipline of ordinary students, but it takes care of some possible illegal and criminal behaviors of supernaturalists. For example, during exams, some supernatural students want to cheat by means of supernatural powers. , Or students in the school, please ask outsiders to cheat outside the field.

Sun Yong's body-enhanced ability is currently speculated to be able to withstand the bullets of ordinary pistols. As long as the bullets hit him, they will be blown by firecrackers like ordinary people as long as they are not focused on the eyes, throat, mouth and other parts.

It is painful, and it may be injured, but the effect is not significant.

In addition, he was also tested on the training ground. Some ordinary students slashed him with sharp swords, and Sun Yong was unscathed.

His strength is not the strongest in the Supernaturalists Association, but it is definitely the most comprehensive.

Li Yun nodded, "From what I know, Huang Guanying is ambitious and has an arrogant personality. We were not in charge of what he did outside of school, but he wanted to get the school students to engage in illicit activities. , This is absolutely impossible, let's find a way to check his details!"

"Yes, President!"

Chapter 3260: The power of the fairies

Dominate Penglai Island, known as the "Haowei Island" three major civil forces organizations, how strong will the fairies with tens of thousands of powerful abilities?

It is estimated that it is difficult for outsiders to know, even some ordinary people at the bottom of Penglai Island, as well as ordinary abilities.

Anyone who has dealt with the Fairy Society, or has cooperated with the Fairy Society of various countries, has clearly felt the power of the Fairy Society!

Li Yun also did not pay attention to this association originally created by Jin Liuli, which was a joke and used to gather the ancient martial artists of Huang Xuan country's martial arts, such as the

palace family, Tiandanmen, Qingleigu and other sect family children. What is it currently developing? To the point.

I only vaguely know that the fairy will be supported by think tanks such as Xiao Mingzhu, Gong Qingyu, Hu Xiaomeng, Xia Feiyao, Jin Liuli, Zhao Tianfeng, and the recently joined Fanqingzhu and other powerful thugs. It has become a huge force that monopolizes the resources of Penglai Island. Every day, it only organizes abilities to transport Penglai Island's resources to various countries and sell them to the rich, so that they can regain their youth, obtain a longer life, or treat some hidden diseases, etc.

The Fairy Club received a huge amount of money in return.

According to the four beautiful maids of Gong Qingyu in the Fairy Society, Gong Xiaochun and Gong Xiaoqiu accidentally revealed that they have joined the Fairy Society for less than two months and have each received a dividend of 10 billion yuan, giving the four beautiful maids Become a billionaire directly.

Fortunately, they have no intention of resigning, let alone leaving Li Yun. They still live a life of serving Gong Qingyu every day-they say that they are serving, but in fact they are secretaries. All housework is done by servants. They joked, The equivalent of a concubine.

In addition, the Fang Xue family only took over some Fairy Club's business in Huang Xuanguo, which was a kind of middleman, and they sold a small portion of things, but they had doubled the assets of the Fang family in Longyang County by several times, earning one by one. Full of pots, Fang Xue said that they would just wait for Li Yun to return to Longyang County, and give him a good welcome.

So Li Yun didn't want to go back even more, and won't go back to Longyang County for at least a few years.

Li Yun didn't know how powerful a fairy with tens of thousands of supernatural powers would be.

But with an association of hundreds of students with supernatural powers, Li Yun has a deep understanding of the abnormal abilities of these emerging powerful humans.

From his order to investigate Huang Guanying, to the six ministers arranging capable officers to monitor Huang Guanying, to collecting intelligence, and finally getting the results.

Li Yun issued an order at noon. When school was over in the afternoon, Zhao Panpan, the secretary of the chairman, walked in with a stack of documents.

"so fast?"

Li Yun was surprised.

"Well, it's so fast!" Zhao Panpan hid his mouth and smirked, holding his fingers to count: "We have invisible abilities, and there are auditory enhancement abilities who can hear other people's voices over the wall, and the wind It's the lightning system--oh, the lightning system is useless. In short, everyone is very good. After working together, I found what Huang Guanying was doing!"

Li Yun's face was strange.

If this is the previous society, even if these students have high-tech assistance to achieve the effect of monitoring, they would definitely not dare to do so.

But now, these abilities originate from themselves, not from foreign objects such as high-tech, so that the confidence of the supernaturalists is extraordinarily strong, and some moral and legal concepts are blurred or despised.

This is the invisible influence after they have the power, not their own desire to commit crimes.
