

Godly Choice 3261

Chapter 3261: Princess Prince

Confucianism uses literature to disrupt law, while knights use martial arts to ban them.

This sentence is also very appropriate for the supernatural person.

Supernatural beings have powers that are different from ordinary people. Even if they say that they are thinking about a life of honesty and discipline, in their hearts, they inevitably still feel that they are different from ordinary people, and they have a sense of superiority. Born naturally, and become confident, or arrogant.

From the fact that most of the supernaturalists in China Overseas University have joined the supernaturalists association, in fact, we can see that some eyebrows are coming.

Joining the association is not forced, but a voluntary principle.

But most of the supernaturalists at this stage have a kind of arrogance, and they feel that they should deal with people who are supernaturalists, people who belong to this circle.

If you change to a student with no ability, or a student with a too low ability level to become the president, I am afraid that the association's ability person will have a trouble.

At present, it is true that Li Yun's "wind" + "fire" ability can hold the scene and suppress all dissatisfaction.

"Okay, let's go."

Li Yun didn't talk too much nonsense. It didn't take any preparation to solve Huang Guanying. Put on his secretary Zhao Panpan, and then go to the ability training room and call for four or five students who are training ability. Sun Yong also came after hearing the news. , Everyone rushed to the "location of the crime" in a shared battery car.

It is a large entertainment KTV with a very popular name, called Princess Prince Entertainment KTV.

According to preliminary investigations, this princess and prince ktv boss has a good background. There are many "mothers" in the entertainment venues—that is, the old bastards who sell the chrysanthemums. They are available at major universities. In addition, it is said that there are high school students, which can be described as a chaotic place where dirt is hidden.

In addition, in addition to four or five mothers having accidents here, this ktv also tacitly agrees, or deliberately indulges some fans to trade here, and collect some benefits secretly. Although it has been engaged many times, every time this All of the bosses have a way to get out.

Li Yun was not surprised by this information. Although most of the entertainment KTV is good, there will be many hidden chains of interest that are not known to ordinary people.

For example, in some small alleys, women who wear black socks and stand outside the store to solicit customers. The residents living nearby know what they do, but no one reports it. Li Yun had passed a street before. There are many footwash shops that are open at one or two late at night.

If it is an ordinary footwashing shop, how could it not close at one or two o'clock?

Therefore, the vast majority of people know what this means, but no one cares about it. This kind of default industry is undoubtedly illegal, but it is endless.

"KTV entertainment venue?"

A male classmate laughed ambiguously, and Zhao Panpan glared at it, and several male classmates immediately reduced their hippie smiles.

Although this is an industry that both men and women understand, you still have to respect your classmates.

Even Zhao Panpan knows what these ktv entertainment venues do. It's no wonder she didn't respond to Huang Guanying's actions before. Most people don't want to care about it. If Huang Guanying is not for attracting students from China Overseas University, that is As for the members of the Supernaturalists Association, Zhao Panpan and Sun Yong did not even care about what Huang Guanying was doing outside.

Chapter 3262: Boss du

"Let's go, go in."

Li Yun led the team in. As a superpower and a superpower from China Overseas University, Sun Yong and others had their own arrogance. Some security guards saw that their aura was wrong and wanted to come over and question it, but a fire-type stranger turned out The capable person beckoned directly, and a ball of flames appeared in an instant, shocking the security guards and the attendants.

"What are you doing?"

Li Yun gave a soft drink, and the male classmate dissipated the flames with an expression on his face. He glanced at the scared people around him, and then nodded in satisfaction.

Didn't they come out just to show off their abilities and show off in front of ordinary people?

Normally, there are associations and schools under pressure. They don't dare to show off for fear of causing trouble, but now the president Li Yun personally tells them, they can show off their abilities to their fullest and win the awe of ordinary people.

This feeling is so cool!

"cough."

Li Yun coughed, awakened the security guard and the waiter, and said to a few of them: "I am Li Yun, the president of China Overseas University, and these are my classmates, because I suspect that one of our classmates will be with you ktv. Is there any connection, so I want to ask, is your boss here?"

Sun Yong Dama Jindao stood at the forefront, so that even if there was a cold gun, it would hurt him for a while. As long as he reacted, a few people could kill the nightclub.

I have to say that after entering the Aura Era, the chaotic period frequently occurs. Except for half of the chaos caused by monsters, people with supernatural powers cause the most trouble.

"I want to ask you something!" Zhao Panpan said coldly. She glanced around with her ability just now, there should be no guns hidden.

"Uh, uh, here! The boss is here!"

A manager ran out and hurriedly led Li Yun in.

When they disappeared, the security and waiter at the door secretly relieved, the pressure on them by the supernatural beings was stronger than that of the police.

Li Yun followed all the way in, and soon met the owner of this nightclub, a fat man named Du. After seeing Li Yun, he immediately compensated for his smile, and asked what was said, so that Sun Yong and the others went smoothly. Was wondering if he was playing a conspiracy.

"Where is Huang Guanying?"

Li Yun sat on the sofa and asked faintly: "Did he come to you? Are there any classmates from China Overseas University beside him? What did he say to you?"

"this....."

Boss Du became embarrassed.

"Speak up!" another male student shouted.

In the past, the boss who runs a large ktv is also a part of the party, and he dare not offend him in any way.

But in the age of Reiki, personal force has become very important, what about the ktv boss? It's really anxious, an invisible ability can kill him without knowing it!

Moreover, the modern monitoring equipment is completely useless. The wind power can really use the full speed, which can be blown like a wind. The ordinary surveillance camera has no time to shoot, and the power is already killing people and running away.

It is precisely because of this that the supernaturalists have the arrogant capital, and their power is too strong for ordinary people.

Boss Du showed an awkward expression. Anyone with a net worth of several hundred million was threatened by a young man. He felt ashamed to say it.

But he really can't help it.

I don't know what happened recently. His KTV was found one after another by these supernatural beings, and he was asked to pay protection fees straight away, and he said that he had some evidence of his crimes.

Chapter 3263: What's the meaning

Boss Du's hands and feet are indeed dirty, and in desperation, he can only choose to pay a sum of money to save money and avoid disaster.

But in the end, it was like stabbing the den of supernatural powers all at once, and all supernatural powers with weird methods came to him to fight the autumn wind.

Today is the invisible ability, tomorrow is the wind ability, the day after tomorrow is the flying ability, fuck!

Boss Du almost wanted to lift the table, secretly contacted some channels, and wanted to find a few ability people to protect, but the asking price was all starting at millions, and the ability level was still quite low. Can you resist these blackmailers? The attack is not yet understood.

Helplessly, Boss Du can only continue to pay money, or hide in certain places, these ability players dare not mess around in KTV, alarm the police station. Special ability persons will be sent to deal with these things.

Originally, those with supernatural powers only came to fight the autumn wind, they did not dare to make a big deal, because after all, this was an act of extortion and it was also illegal.

But a few days ago, another one came, asking for a direct price of 50 million, so that boss Du directly wanted to close KTV!

Today, he was going to discuss with the management of KTV about how to deal with it, and as a result, people like Li Yun were found.

"It turned out to be so."

Li Yun nodded and looked at Boss Du: "In other words, what shameful things do you have?"

Boss Du didn't answer immediately. He glanced at Zhao Panpan, then at Sun Yong and the others, then turned his head to signal his secretary.

Soon, a bank card was taken out by the secretary, and Boss Du handed it to Li Yun with respectful hands.

"What do you mean?" Li Yun asked blankly.

"Haha, it's meaningless, just meaning, I can't let President Li Yun and you guys help me in vain, right? It's five million, please accept it!"

Boss Du asked tentatively.

His meaning is very obvious. In addition to thanking Li Yun and others for solving Huang Guanying, he also recruited, hired, or paid a "protection fee" to the Association of Supernaturalists of China Overseas University, asking them to help deal with these supernaturalists to blackmail in the future. Trouble.

Otherwise, from time to time, someone with supernatural powers will come to play Qiufeng, and he won't have to do business.

Li Yun pondered for a moment, then took the card and threw it to Zhao Panpan next to him.

Upon seeing this, boss Du secretly breathed a sigh of relief, with a joyful expression on his face.

"President?" Zhao Panpan hesitated.

"fine."

Li Yun smiled faintly: "We have helped Boss Du, and we should be paid, but we don't care about your business in the future, especially since it is said that you still have crimes here. We are elite students of key universities. , It is even more impossible to help you solve any troubles in vain!"

Boss Du was taken aback for a moment, but quickly realized that he quickly nodded and said yes. It is impossible to help solve any troubles in vain, but it is still possible to solve the troubles if the conditions are paid.

The premise is that this ktv matter should not affect the image of the supernaturalists association too much.

Sun Yong wanted to understand, his face became weird. Does the president want to increase some funds for the association, or do he want to add some practical experience to the members of the supernaturalists association?

It's a common understanding that people with supernatural powers need to fight monster beasts that are catalyzed by spiritual energy. If you don't have this awareness, you can simply not join the association and practice supernatural powers yourself.

Now Li Yun has given them a task to solve the trouble. In the future, it is very likely that Li Yun will lead the members of the association to go to the field to truly participate in actual combat.

Chapter 3264: What a coincidence

At eight o'clock in the evening, Huang Guanying "arrived as promised", with a few so-called subordinates around him, one by one with arrogant expressions, entered the ktv, not at all the guests coming and going, and the security guards surrounded by wolves. Keep it in the eye.

But this kind of arrogance stopped abruptly after entering Boss Du's office and seeing Li Yun, Zhao Panpan, Sun Yong and others sitting on the sofa in the small living room.

"Li Wei!"

"Zhou Gan!"

"Wu Jungu!"

Zhao Panpan looked Ling Ran, and pointed out the names of these people one by one.

All are students of China Overseas University!

And it's also a member of the Supernaturalists' Association.

"Meeting, president, minister!"

Several people were shocked, the original domineering arrogance turned into a guilty conscience, all standing with hands and feet tied, no longer the arrogant appearance before.

For them, the four people in front of them are not only their "head bosses", but also extremely powerful supernatural beings, possessing the ability to easily subdue them!

This kind of awe in the face of high-level abilities is hard to imagine if ordinary people have not seen it, but for their members of the abilities association, they have seen Sun Yong perform abilities with their own eyes. The defensive power that can be called horror is a deep despair for them!

Sun Yong was still like this, and a small flame burned Sun Yong so loudly. He was basically indifferent on weekdays, and the mysterious President Li Yun made them deeply in awe.

"It's a coincidence, I didn't expect to see my classmates here."

Li Yun showed a meaningful smile, Li Wei and the others all bowed their heads blushing, not daring to look at the chairman.

"What are you doing here?!"

Li Yun stopped talking. As his secretary, Zhao Panpan spoke in place of the chairman. He stretched out his fingers aggressively and pointed on their heads: "One by one is so arrogant, do you want to threaten to blackmail? Haha, okay, you guys usually All of them behaved very well, and they said that they would never do bad things with abilities, but the result!?"

No one dared to answer her.

The atmosphere was very embarrassing. Several people in Zhou Qian moved their lips, and could vaguely hear what I was wrong.

"Humph!"

Huang Guanying became irritated, and shouted directly: "What do I want you to do? Do you think you are the lord*? You want to control everything! Why is he here? You can't control matters outside the school!"

Zhao Panpan was choked. Indeed, they were just the cadres of the Supernaturalists Association of China Overseas University, not the police cha.

The student union can only take care of the affairs of the students in the school, not to mention their association of supernatural beings.

Sun Yong was also bluffed for a while, not knowing what to say.

Li Yun asked faintly: "You guys, do you think I can take care of you as the president? If you can, just walk by and leave Huang Guanying. If you can't, please feel free. You will not be a member of the Association of Supernaturalists in the future. There is nothing to say to you."

This sentence seems to just let them choose whether to stay in the Supernaturalists' Association, but in fact...

Li Wei and Zhou Gan glanced at each other, and all bowed their heads in shame: "President, you are naturally our president. We are wrong. You shouldn't come out and do these things!"

"you!"

Huang Guanying was very angry, panting and staring at these people. If his abilities were wind or fire, he might have already tried to teach them.

"very good."

Li Yun nodded in satisfaction and motioned them to stay away from Huang Guanying, standing in the corner waiting for follow-up treatment.

"What about you?" Li Yun finally looked at Huang Guanying.

Chapter 3265: You are stupid

"If you remember correctly, this is the third time we have met."

Li Yun said indifferently.

He and Huang Guanying are in the same class, so naturally it is impossible to only meet three times.

What Li Yun was talking about was the entanglement between him and Huang Guanying, which was the third time.

Huang Guanying hasn't done anything out of the ordinary in the first two times, just jumped and arrogant.

But this time, he has violated Li Yun's bottom line. It is time to take action to clean up him and completely defeat this arrogant and ignorant guy!

"Humph!"

Huang Guanying put her arms around her chest, "I think what you can do with me!"

Li Yun stared at him and suddenly laughed.

"why are you laughing?!"

"I didn't laugh, I just thought you were stupid."

Li Yun pointed at Boss Du and said lightly: "Do you know that this boss who was blackmailed by you has recorded all the scenes of your blackmailing him last time."

Li Wei and the others looked at Boss Du together. The latter's fat shivered and was watched by a few supernaturalists. Others don't understand this pressure, but he understands!

It was these people who performed their own abilities last time, which broke his defenses and was forced to agree to give them money.

The abilities possessed by supernatural beings are much more terrifying than guns. After all, no matter how powerful a bullet is, it cannot strengthen the human body. It can be said that being attacked by a gun can be said to hide.

But a person with a supernatural power can easily find his location. He dashes far faster than him. There is nowhere to hide if he wants to hide. Unless he really doesn't show up for a lifetime, he will never escape the chase of the superb man!

"US!"

Several people from Zhou Gan wanted to speak, but Li Yun waved to them, motioning not to speak out.

"Huang Guanying, do you know what this behavior means?" Li Yun asked him.

"What does it mean? You are not bluffing me!"

Huang Guanying sneered and looked at Boss Du and said: "This dead fat man hides dirt and makes money from black heart. With so many chickens in KTV, he doesn't know? You don't catch Boss Du, but you come to me for trouble. Are you still reasonable?!"

Sun Yong was a little embarrassed, and even Zhao Panpan felt that he had caught the wrong person?

"Do you have any chickens?" Li Yun looked at Boss Du, who shook his head and denied: "Why? I am a formal place. Even if some people do illegal things, it is just mismanagement. It is those guests who take the initiative to violate the law. , It has nothing to do with me!"

Can the ktv be developed into a chain group, how easy is the boss Du?

He had already made a clear line with the old bastards. Even if he was inspected by the industrial and commercial side, or the police station came to sweep up the ***** and caught all the old bastards, his boss Du could easily get away.

Because those things were done by his subordinates and had nothing to do with him. Even if those subordinates slandered him against the water, Boss Du has a way to solve them properly.

In fact, no one of his subordinates would do this, because they are not the main force in organizing female college students and high school students to recruit guests. At most, they provide a place. The old bastards are the real behind-the-scenes.

Of course, these old bastards are so slippery that it is not easy to catch them.

Through layered "outsourcing", even if Boss Du's subordinates are sentenced, they will stay for a few years at most. After they come out, Boss Du will naturally compensate them.

If you confess and identify the boss, even if you miss one or two years, what about after you come out?

Lost their jobs and betrayed their bosses. They don't want to get mixed up in this business. Their reputations are stinking, unless they go abroad to develop.

Chapter 3266: You do not understand

Weighing the pros and cons is something everyone will do. So Boss Du has relied on this balance over the years to expand his career smoothly and profitably. Even if something happens occasionally, he can easily get away.

Except for this ability.

These ***** are simply human beings. They have extraordinary abilities that cannot be treated by normal processing methods. If you pay, you have to pay. If you say a little more, it is a fireball serving, that terrifying temperature, I am afraid that it will not burn the whole person, and there will be no evidence left!

When the cost of crime and the probability of being discovered are low, more people are ready to move.

"That's why!" Li Yun looked at Huang Guanying and said blankly: "If you don't have evidence, don't slander others. The judge wants to tell the case, but you don't have any evidence. I say this, do you understand? "

Most of the people present didn't understand, but Boss Du must understand, he understood thoroughly!

The intention of the president of the Association of Supernaturalists is nothing more than to say that you are too high-profile, you are directly caught by others, and you are not smooth at all.

Even if Boss Du has something dark about him, he never does it in the open. On the surface, he is still a big boss with a net worth of hundreds of millions, and he is a glorious taxpayer every year.

The Huatuanjin tribe is actually the way to survive in such a world. Anyone who disrupts social order will be severely punished and cast aside by the public.

This world can't be all bright, but dark things must be hidden in corners where people don't pay attention. If it is too high-profile, go under the sun, it is certain that something will happen.

For example, the JM comics incident on Weibo before, the heavy-tasting cartoonist has illegally drawn comics for five years, but no one cares what he does.

But later, the cartoonist published books for sale, accepted interviews, opened a Twitter account, and had hundreds of thousands of fans.

Such high-profile behavior naturally caused heavy blows from the relevant agencies and arrested the cartoonist in one fell swoop.

In fact, he didn't earn much, five hundred thousand yuan in five years, and an annual salary of one hundred thousand yuan. It was purely by love to generate electricity, but because he was in the sun, he was seen by the boxer on Weibo and attacked. Suddenly suffered.

The same goes for Boss Du.

There is no doubt that there is a problem, otherwise he would not dare to report to the police, but he has learned the way of survival over the years and has always been low-key, preferring to make less money rather than revealing himself.

But Huang Guanying didn't learn this truth, nor did those with supernatural powers who had just gained power.

"Yes, if there is no evidence, don't slander people!"

Boss Du has become bolder again. He is now backed by several supernaturalists, as well as a mysterious figure, the president of the association. Of course Huang Guanying will not be afraid anymore.

"Embarrassed." Huang Guanying sneered, unaffected by the current situation, "I think you are the same as me, but just made a high-sounding excuse. If I were the president of the Ability Association, I would be able to collect protection fees in a fair manner. !"

"No, you and I are different, you don't understand."

Li Yun no longer tells him that this person doesn't know how to do things. The adult world needs a high-sounding excuse. From ancient wars, there is a word called "Master is famous." Even in modern times, the cherry blossom country has to invade. Looking for an excuse for the disappearance of the soldier, the beautiful country went to beat others, and also disguised it with washing powder, saying that the other party had biological and chemical weapons.

Chapter 3267: Teach

Countries in the world, with billions of people, do they believe that a small packet of powder taken out by a beautiful country is a biological weapon?

No, people all over the world are not that stupid.

But the beautiful country is strong, and it's useless to oppose it!

But even if it is as powerful as a beautiful country, if it wants to beat others, it has to use an excuse to conceal itself, disguise itself as an army of justice, and make a famous guise for its division, just like the peninsula war fifty years ago.

From this we can see how hypocritical the adult world is, but even this hypocrisy is needed for humans, and no one wants to tear the skin and describe the dark as bright.

But Huang Guanying didn't understand. He thought he was the same as Li Yun, but he was not at all.

"I don't understand, you understand?"

Huang Guanying sneered strangely with yin and yang, disapproving at all.

"I don't know much, but I know that our country has a complete set of criminal laws. Article 274 stipulates that any act of intimidating or threatening others for the purpose of illegal possession to steal finances."

Every time Li Yun uttered a word, Li Wei, Zhougan and others' bodies shuddered. When Li Yun said that "all were called extortion," these people were already completely panicked and completely panicked.

They are abilities, but their abilities are very low, and the arrival of the Aura era did not make the Aura collapse. The diploma of Zhonghai University is still very popular.

If they are classified as extortion, they will undoubtedly be expelled from the school, and they can only go to the dark one by one.

You can be put in jail, let alone four or five years, but for one year. In this fast-changing era of aura + artificial intelligence, you will miss too many things!

"Now, do you know Huang Guanying was wrong?" Li Yun shouted in a deep voice.

This sentence ignited some hope for Li Wei and the others. Before President Li Yun asked them to admit that they are members of the China Overseas University Supernaturalists Association, should they just want to protect them?

fortunately! Fortunately, they were not affected by what Huang Guanying said. If they were really taken down by the president, they would definitely not be able to escape!

"Wrong you*!"

Huang Guanying turned around and fled. Before Li Yun could give orders, his younger brothers who had been with him had already rushed forward like wolves, performing their own abilities, knocking Huang Guanying to the ground.

Needless to say the process, anyway, after subduing this guy, half of the floor of KTV was alarmed, and many people witnessed the battle between supernaturalists for the first time.

Flame, wind, frost, transformation, infinite power...

And so on, just like making a movie, there is not much difference between fighting with those supernatural beings uploaded on the Internet.

The powerful force shook the ordinary people present. Boss Du was trembling with excitement or fear. He recovered after a long time. He quickly cooperated with Li Yun to call the police and escorted Huang Guanying into the car.

As for Li Wei, Zhou Gan and others, they did not dare to breathe. Huang Guanying was dying and accused them of being accomplices, but Boss Du resolutely denied it, and Li Yun, the president of the China Overseas University Association of Supernaturalists. "Being testified," Huang Guanying's accusation was directly escorted to the car as a result of insanity.

Li Yun looked at the leaving police car, shook his head and sighed: "I hope he will understand what society is like when he comes out in a few years."

Huang Guanying is completely gone. Going in for a few years and then coming out, God doesn't know what this world immersed in spiritual energy will be like. It's not bad that he can continue to practice abilities in prison. It is estimated that the abilities level is still evaluated. Not up to level 3.

Chapter 3268: This is my husband

However, Huang Guanying is gone, but according to Li Wei, Zhou Gan and others, there is a hidden power behind him.

Three days later.

When Li Yun saw Tang Anxi again, she was sitting on a female president's chair. In front of her stood several people with at least seven power levels. There were males and females, all of them waiting respectfully.

"Zhou Kai, how did the things I asked you to do? That big poison king still refuses to obey us?"

"Sister Tang, he seems to have found an amazing supernatural person, openly confronting us, and promised to see you at Zhangpu Wharf at 8 o'clock tomorrow night!"

"Hehe, a very powerful person? They are all stinky fish and shrimps, so you can send a message to... let him take someone to kill him."

"Yes!"

Li Yun didn't listen any more, appeared, stood beside Tang Anxi abruptly, with her right hand pointed, and in her shocked look, her fingers flicked her forehead.

"Ouch."

"Who!"

"Who are you?!"

"No good, invisible ability person!"

"Protect Big Sister!"

Several people in the office were suddenly shocked, and they showed their abilities to fight the intruder.

But Li Yun just waved his hand, and the powerful mana didn't use any moves. With this majestic power alone, all these high-level abilities were blown away, and one by one fell into a haze.

"You all stop!"

Tang Anxi turned around and threw himself into Li Yun's arms after drinking his own hands. She held him tightly with her hands, her tone was very disturbed and surprised: "Li, Li Yun, why are you, why are you here?"

"I won't come again, are you going to become the underground emperor of Zhonghai City?" Li Yun knocked this guy's head again, and Tang Anxi pursed her mouth and smiled shyly: "Yes, nothing, I just do it. Play."

She is embarrassed to say that because she has no power or background, she still needs a lot of hard work if she wants to walk into Li Yun's home and stand with those outstanding girls.

In particular, she formed this gang. After having a certain strength, she secretly investigated the background and origins of Xia Gong Qingyu, Xiao Mingzhu and others, and felt that she was not worthy to stand beside Li Yun.

After that, she knew Li Yun's confidante and formed an organization called Fairy Club...

"Shut up for me." Li Yun twisted her cheek, and Tang Anxi obediently didn't dare to resist.

And her subordinates were stunned.

Even though Sister Tang is still very young, she is a genuine ninth-level ability person. The flames she controls can burn a house in an instant. The powerful power has long been famous in the underground ability circle of Zhonghai City, and she is honored as Sister Tang.

What's more mysterious is that she still has something to speed up the cultivation of supernatural powers, coupled with the mysterious origins and a steady stream of monster meat, through various

relationships and interests to control her subordinates, and quickly developed into A huge power of up to five hundred people with double-digit seven-level abilities!

But Sister Tang's real body is only known by a few of them who followed early. In many cases, outsiders don't even know who Sister Tang is. They only see a powerful woman shrouded in flames when she appears. .

But now this **** of war has been pinched by a man...

"You all go out!"

Tang Anxi told her opponent, but the corner of her mouth was filled with joy that could not be concealed. She couldn't help but introduce Li Yun to her men: "This is my...husband."

Chapter 3269: Level 11

husband!

While several subordinates were surprised, they felt that it was only natural for Sister Tang's husband to pinch her face like this.

"at the same time!"

Tang Anxi's tone was full of pride: "He is also the only eleventh-level supernatural power in the world, and his strength is the highest in the world!"

Several people were stunned.

Eleventh-level ability? !

According to the recognized situation of the supernatural powers on Penglai Island, there are only a few level ten powers at present, which are the most powerful people in several big countries, and the mysterious leaders of several big forces on Penglai Island.

For example, the Liuli Fairy, Yaoguang Fairy, and Lingyi Fairy of the Fairy Society, they are all the followers and wives of that Li Chaoren. No one has seen them take action, but they are recognized as strong—after all, they are Li Chaoren's wife.

But even they are only rated as the tenth-level abilities.

In the world, no one has ever dared to say that he can surpass the ability person by a large amount, and can be divided into eleventh level alone!

The ninth-level ability person can already defeat one hundred against one hundred. Just like Sister Tang, the flames follow during the action, and the sea of fire during the wave is overwhelming. The physical quality has greatly surpassed human beings, and it is difficult to kill Sister Tang by the number of people.

It is said that a tenth-level ability person can burn up the water of a whole lake, step on the ground, shake the mountain, and hit the load-bearing pillar that supports a fifty-story high-rise building.

According to a previous video of a powerful ability player fighting the army, traditional rocket launchers, tanks, heavy machine guns, etc., the ninth-level ability players who have been

strengthened with these bodies have no choice but to use more powerful missiles to attack intensively. .

Or use the ninth-level ability to besiege to block the tenth-level ability.

But Sister Tang's husband was called an eleventh-level supernatural power by her...

"The bragging is too big." Li Yun flicked her forehead again, "This is what you use to win your subordinates?"

Tang Anxi immediately showed a nervous expression, "No, I have never under the banner of your husband, I am all alone..."

"All right."

Holding her mouth with his hand, Li Yun said to the subordinates: "You go out, you are not allowed to tell what happened today, and no matter what you are doing, stop and wait until I have a chat with your boss!"

"Yes!"

Several supernaturalists did not dare to disagree, their sister Tang was still held by this "eleventh-level" supernaturalist. How could they dare to disagree?

After they left, Li Yun slapped Tang Anxi's back.

"Husband~"

Tang Anxi's cheeks became rosy, and there were more soft drops of water in his eyes, as if he was covered with a layer of mist, and looked at Li Yun wet.

"Do you know what's wrong?"

"I know my husband~"

"What's wrong?"

"The fault... the fault was not telling your husband the truth?"

Tang Anxi is now more and more accustomed to being called Li Yun's husband, perhaps because he feels that he still has some abilities, but because his background is too bad, so his achievements are too low.

Give her more time for Tang Anxi, she may not be called the queen of the underground world!

"This is just one of them, what else?"

Li Yun hit her again.

Tang Anxi bit her lip and leaned in front of him, her eyes were like silk and said: "The fault is... Didn't you distrust her husband? Huh."

Li Yun resisted the anger, he found that Tang Anxi was really a white lotus, white on the outside, but with bad water inside.

"follow me!"

"Huh? Husband, where are we going?"

"Go to the hotel!"

Chapter 3270: Repeat

Tang Anxi was given a severe lesson.

When she woke up the next day, her brows were full of happiness.

Li Yun slept next to her. After waking up, he was in a daze, but the quilt moved.

"Wake up... hiss, Tang Anxi!!"

"Hehe, does my husband like it?"

Tang Anxi was lying on Li Yun's chest, her smile was full of charming. It was already difficult for Li Yun to find a gloomy and world-weary expression on her face. Perhaps Tang Anxi would only show this when she was not with him. look.

"I haven't been taught enough? Did you remember what I said last night?" Li Yun raised his eyebrows. Tang Anxi really didn't have enough lessons at all.

"Yes, remember!"

"Retell it to me!"

"Yeah, that's what my husband said last night."

Tang Anxi sat up, tucked her shawl and her hair, and after Li Yun smiled charmingly underneath, she babbled and began to repeat what she said last night: "My husband said, I can't do anything wrong, but I think I'm here. It's not nonsense, I just want to help my husband, and those sisters... Actually, do you know my husband? I have already contacted the sisters of the Fairy Society and they are very supportive of my work."

"Impossible, Gong Qingyu cannot promise you to mess around with these secret gangs." Li Yun flatly denied, "Xiao Mingzhu and Hu Xiaomeng are also impossible."

These three are the think tank of the Fairy Society. If they disagree, it is impossible for Tang Anxi to get the support of President Jin Liuli.

As far as Li Yun's manners to Xiao Mingzhu are concerned, she would not agree to such a thing.

"Well... well, I can't hide it from my husband."

Tang Anxi bit her lip: "In fact, I just want to do something...do something that the sisters on Penglai Island don't want, ah, husband, listen to me, since the underground dark world has always existed, from ancient times to the present Both, so why can't I control them? And, with the support of my husband.

Ah, I, I can definitely control the world below, just like Du Yuesheng in the Republic of China era!

"

Before Li Yun could speak, Tang Anxi said again: "I know my husband, you would say that this is not the era of war, but in the Republic of China, there is no aura! Sister Xiaomeng and I analyzed the world afterwards and said, um, say After that, the world will become a group of knights, that is, there will be many uncontrolled and unscrupulous 'knights' among the people!

Ah, uh, husband, you know? Regardless of the purpose of these knights, they all have very powerful powers. When the time comes, the country will definitely not be able to control all aspects. There will be more crimes and crimes. In layman's terms, it is the strong folk customs. "

Tang Anxi breathed out while analyzing.

Li Yun frowned and thought for a long time before sighing: "Are you sure you won't be exposed? If you are exposed, you can only hide in my lotus fairy house for decades."

"Yeah, that's fine~" Tang Anxi got used to the ups and downs of her life, she said seriously: "At that time, I will be with Sister Xiaoqian and stay with her husband! And, ah , My husband is really nice, my husband is worried about whether I will be exposed, not whether I will do something illegal, hehe."

She leaned against Li Yun's chest full of happiness, but still restless.

Li Yun said: "If you do something that hurts the world, I will be the first to clean up you."

"Yes~~~! Promise not! Husband, how am I doing?"

She was referring to another thing she was doing now.
