

Godly Choice 331

Chapter 331: Saving a life is better than building a seven-level Buddha

"Option 1: Save a life and build a seven-level pontoon, open the security envelope, reward justice value +1000, blue gift bag*3.

Option 2: Find a way to save the security and reward the justice value +500.

Option 3: Open the envelope, hunt down Shi Taining, reward justice value +5000, all attributes +800, purple gift bag*2. "

Li Yun frowned, there was a problem with this envelope.

At the same time, his heart was also full of anger, and he wished to kill Shi Taining immediately!

This person's character has been distorted to a certain level, and if it is not as good as his own mind, he will immediately kill people with Gu worms, which is extremely cruel!

The security guard pushed the envelope to Li Yun again, and said helplessly: "Little brother, just accept the envelope. Maybe it's important. He also said that I must watch you open the envelope, otherwise..."

Otherwise there will be a disaster of blood and light?

There was a sneer at the corner of Li Yun's mouth, and he would accept the envelope.

But he will never open it on the spot, otherwise, next time he meets Shi Taining, Li Yun can only be threatened by him with innocent people and led by him!

This is something Li Yun absolutely cannot bear!

"I'll accept the envelope." Li Yun took the envelope and said indifferently: "But I will decide when I open it. Just tell him that."

"This... alright."

The security guard hesitated, took out his mobile phone and called Shi Taining to report the incident.

He charged Shi Taining for some benefits, so he reported.

"Yes?"

On the other side of the phone, Shi Taining smiled in satisfaction: "He just accepts the envelope. In addition, remember the following things, I will only say it once: Take three dollars of mallow seeds, develop them into powder, and take them at 12 o'clock in the evening. , Take it for seven consecutive days, and your illness will be healed."

After all, he hung up the phone directly.

"My illness?"

The security guard was stunned. He was strong, so how could he get sick?

Li Yun hasn't left yet. After learning the content of the phone call, he patted him on the shoulder and took out a small detoxification pill to him, saying, "If it doesn't work, you will take this pill. That person is very vicious!"

The security guard took the pill at a loss, but remained stunned for a long time.

Who are these two people?

Li Yun smiled, ignoring the doubt in the security's eyes, and left the hotel.

He has a lot of small detoxification pills, this thing is enough to remove ordinary Gu worms.

Hiring a taxi, Li Yun came to the train station, there happened to be a train, so in less than half an hour, he returned to Longyang County.

"Sister, Plucking, Caixia!"

When Li Yun returned home, it was just noon. The three sisters were having lunch. When they saw Li Yun, the three girls were all pleasantly surprised. The lively and cheerful Caixia even dropped her chopsticks and rushed over to hug him. Lived with Li Yun.

"Brother brother~~!"

Li Caixia played coquettishly in Li Yunqi, saying that she missed her elder brother very much in the past few days, as well as her elder sister Plucking Wei. She talked about it every morning, afternoon and evening.

"Caixia!!" Cai Wei flushed with shame, and wanted to come over and knock her sister on the head, but was hugged by Li Yun, and her elder brother kissed her smooth and delicate cheek.

"Woo~, brother~"

Caiwei was more shy, and it was the first time her brother kissed her on the cheek when she grew up.

Li Yun smiled: "Caiwei, have you missed your brother these days?"

"Yes~" Cai Wei blushed and nodded.

This is the first time that my elder brother has been away from home for so long, and he is used to the plucking of his existence. In fact, he has been missing him for a few days.

Chapter 332: go home

In the past few days after Li Yun left, the three sisters deeply realized that this family can no longer live without Li Yun.

Even the three sisters are inseparable from Li Yun, and they want to be with him for the rest of their lives.

After comforting his twin sister, Li Yun looked at the beautiful girl standing in front of him.

She has a tall figure and exquisite facial features, fair and smooth skin, tied with a playful single ponytail, and her eyes looking at Li Yun are very soft, containing a deep love and emotion, which makes Li Yun's heart full of touch.

"Sister, I'm back!"

"Well, my brother is back~!"

Tears overflowed from the corner of Li Feng's eyes, and finally couldn't help but rush into Li Yun's arms, hugged him tightly, and whimpered in his mouth: "Brother, I miss you very much these days!"

"I miss you too, sister!"

Li Yun patted her somewhat delicate back. Only then did he realize that his sister is not so strong all the time. She is a mature and stable sister, but at the same time a weak woman who needs someone to protect her.

After the four of them vented their excitement of reunion, they sat down to eat again, Caiwei obediently took the tableware for her brother, and served him the meal personally, saying that her brother must have been working hard these days.

In fact, Li Yun usually doesn't have to serve food at home, it's either Plucking Wei or Caixia helping him.

It can be said that I open my mouth when I eat, and I stretch out my hands when I eat. It is very enjoyable.

Moreover, Li Yun can also enjoy Li Feng's service.

Today is Tuesday, and the second mock test will begin on Thursday. However, Li Yun and Li Feng are not panicking at all. With the help of the system, Li Yun has already mastered all the knowledge of undergraduates.

However, Li Feng's grades were very good, and Li Yun gave her a lot of pills to regulate her body, her memory became better, her spirits were also very energetic, and a good grade in the exam was completely fine.

The only concern was that Fang Xue had also taken the pill that Li Yun gave her. Li Feng would need to spend a little effort to beat her.

However, these did not prevent the two reunited brothers and sisters from chatting until late at night.

As a result, Caixia got up at about two o'clock and went to the bathroom. When she passed her brother's door, she vaguely heard some strange noises.

She curiously wanted to come closer, but Plucking caught her in time.

"Pluck, you...well."

Cai Wei covered her small mouth, and did not speak to Caixia, Caixia could only follow her with her belly full of doubts.

...

When she woke up the next morning, Caixia saw her sister Li Feng walking out of her brother's room, her eyes sleepy, and a few strands of black hair faintly stuck together.

When Li Feng walked by her, Caixia still smelled a strange smell. Is it her brother's breakfast?

"I'll take a bath first, you can eat first."

Caiwei bit her lip. Sure enough, my sister had a long conversation with her brother last night, and there was still something left in her hair.

Caixia blinked as if she didn't understand, but she didn't say anything, she felt a little bit sour in her heart.

Li Yun walked out, put two breakfasts in front of them, and said meaningfully: "Caiwei, do you think our home is weird now?"

"It's not surprising, brother is very hard, sister is also very hard, you are my support and Caixia!"

Caiwei replied in a low voice and shyly, and she understood the meaning of her brother's words.

Li Yun's implicit meaning is that if her brother and sister become husband and wife, will it affect the atmosphere at home? Will she be surprised.

Caiwei's answer is that no matter what kind of relationship her brother and sister become, she will not care.

Chapter 333: Excited Fang Xue

Li Yun smiled and touched Caiwei's little head.

This little girl is introverted and shy, but in fact she is very attentive and sensible. She is indeed more like an older sister than Caixia.

But then, Cai Wei said something that surprised Li Yun.

"Brother~." Caiwei mustered up her courage, her cheeks were flushed, and she said shyly: "Caixia and I will not marry in the future. We will always be with you brother, just like my sister, brother can also be with us... .."

She was too embarrassed to say the following words, but Li Yun had already heard what she meant, only the innocent Caixia, until now she still didn't know what Caiwei said.

However, she agrees with her sister's words: "Okay, okay!"

Caixia clapped her small hand and said happily: "I and Caiwei are not married. The four of us have been living together. We will definitely be very happy and happy~!"

Li Yun couldn't laugh or cry, and gave the two sisters a brainstorm.

"Okay, you two little girls don't think so much now, study with peace of mind, go to college in the future, and talk about it later!"

Caiwei pursed her mouth in dissatisfaction. Her brother must have seen her as a child, but she is not young anymore, and she understands everything that should be understood.

After Li Yun bought her a mobile phone, Caiwei read the comics she liked and understood more.

Li Yun ignored her, and after breakfast, went to school with Li Feng.

It's a pity that I didn't meet Fang Xue at the school gate.

But I ran into many classmates who admired him.

"Look, who is the handsome guy with Li Feng holding his arm? It seems that Li Yun is back!"

"Damn, what Li Yun! I want to be called Brother Li, understand?!"

"Yes, yes, brother Li is back!"

"I'm Cao, it's really Brother Li!"

"Brilliant! Brother Li went to Zhonghai City and opened a company with a market value of one billion yuan, which scared the people in Zhonghai City, hahaha!"

"Ge Li is mighty, Ge Li is awesome! One person defeated hackers all over the world, no wonder Li Ge scored 749 in the test!"

Li Yun was warmly welcomed by the classmates of Zhicai High School, the junior high school plus the high school, the sixth grade students, as long as they are not the kind of people who study hard, all have heard of Li Ge's reputation!

Li Yun may be only slightly famous outside, but in Longyang County, at Zhicai High School, he is absolutely thunderous!

"younger brother."

Li Feng attached to his ear, and said softly: "You are very famous now, making my sister a little jealous."

"Jealous?"

"Yes." Li Feng said seriously: "My brother has become so good, but my sister is still standing still, just an ordinary high school girl, in the future you..."

"Li Yun!!!"

A clear and sweet voice interrupted Li Feng's words. In Li Yun's surprised eyes, a beautiful schoolgirl rushed over from a distance and happily plunged into Li Yun's embrace.

"You, you finally came back!" Fang Xue cried with joy.

She and Li Yun had just established a romantic relationship, just when it was like glue, but Li Yun suddenly left, which caused Fang Xue not to think about food for a few days, and even lost his mind in class, always thinking about going to Zhonghai City to find Li Yun.

Anyway, she is now doing very well in her studies, and now she is just reviewing, there will be no new courses, and it's okay to ask for a few days off.

Fortunately, Li Yun finally came back when her miss reached the limit.

"Li Yun, I miss you so much~!"

Excited Fang Xue, ignoring the crowd behind him and his classmates, hugged his neck, stood on tiptoe, and offered a kiss that belonged to his girlfriend.

Chapter 334: Lao Zhangren's Making Things Difficult (Part 1)

The girlfriend's kiss is not a kiss on the cheek, but a place that represents the lover——Feng.

Li Yun hugged her for three seconds, five seconds, and seven seconds, until an aggressive middle-aged man came to him, Li Yun released Fang Xue Yanhong's petals.

The students around were booing.

"Brother Li is awesome!"

"Brother Li is a role model for my generation!"

"Tsk tsk, in the entire Zhicai High School, only Brother Li can be worthy of our University Fang Hua!"

"College Fang is so beautiful when she is shy!"

"The two kissed so affectionately just now, I was moved to death!"

"Wait, the middle-aged man who came to Fang Dahuahua... is it Fang Huyu?!"

Li Yun had already seen this majestic-looking man, but did not let go of the left hand that was holding Fang Xue's slender waist. Instead, he smiled and greeted him in a humble but not confident manner: "Uncle, hello!"

Fang Xue blushed, she didn't expect that the father who sent her to the school happened to meet this scene.

What's more, she had been intimacy with her boyfriend for several seconds just now!

Her father must have seen the scene just now.

Fang Huyu's face was black, his daughter was held by a young man, and he looked at him with a provocative|provocative expression. No matter how good-tempered you are, you can't help it.

"Let go of my daughter first!"

Li Yun did it, Fang Xue was a little lost, wouldn't he dare?

"uncle."

In the next moment, Li Yun held her hand again, making Fang Xue both pleasantly surprised and very shy. Li Yun didn't dare, but wanted to prove the theory with his father!

Fang Huyu's face became darker.

"Fang Xue is my girlfriend!" Li Yun said in an unquestionable tone: "I like her very much, and she also likes me very much. Our grades have not declined due to dating. I also believe that I can give Fang in the future. Snow has a happy future!"

His words were extremely firm, revealing a man's sense of responsibility and self-confidence everywhere, Fang Xue's pretty face was very touched, and her small hand tightly held his generous and powerful hand, indirectly expressing her heart.

The people around him booed, and Li Yun said these words so well that they fully expressed their feelings—for girlfriends, they should be so spoiled.

"Humph!"

Fang Huyu has been in the market for a long time, how can it be so easy to persuade.

He snorted coldly, his gaze was condescending, and he faintly wanted to suppress Li Yun with his aura.

"Can you give my daughter a happy future?"

"Do you know how much our family spends a year?"

Fang Huyu pointed to the roadside, "The Bentley commercial car parked there was specially made by me from abroad. Do you know how much it cost me?"

Everyone was silent, until they saw the majesty and majesty of Fang Huyu's family head holding billions of assets, they realized that the man in front of them was a wealthy man with a wealth of tens of billions!

And Fang Xue, his only daughter, will inherit this tens of billions of property in the future and become a true Bai Fumei.

With them are totally two worlds!

Li Feng looked at her younger brother worriedly. She was worried that Li Yun would be frustrated because of this, and she would become inferior and dare not pursue Fang Xue.

"It's not very expensive."

Fang Xue whispered: "This Bentley is worth about 8 million. Dad, my boyfriend will start a company and will soon make this money~!"

Fang Huyu's face was stagnant, and his heart hurts.

Sure enough, the daughter turned to her husband when she was older, and she started to speak for Li Yun even before she cleared the door.

Chapter 335: Lao Zhangren's making things difficult (middle)

Fang Huyu thought of her daughter's performance in the past few days. After Li Yun left, she not only felt worse, eat less, and rarely even smiled. The whole look looked like she didn't want to eat. She couldn't wait after dinner at night. Online and video chat with Li Yun.

If Li Yun didn't have time to accompany her, she would be depressed all night.

But even though he knew in his heart that the matter between Fang Xue and Li Yun was irreversible, Fang Huyu still refused to let go.

He also knew that Li Yun had started a company and made a lot of noise.

However, it is not that simple to become the son-in-law of the Fang family!

"Fang Xue, don't talk first!"

Suppress his daughter first, Fang Huyu then concocted Li Yun: "You said you didn't lower your grades because of your relationship?"

"Yeah!" Fang Xue nodded quickly, "Last time I took the fifth place with 671 points, this time I think I can pass 710 or more!"

Fang Huyu ignored her, staring into a pair of bull's eyes and asked Li Yun: "Boy, how much did you score last time?"

"749." Li Yun's tone was flat, as if he was talking about an irrelevant thing, completely unaware that the students around him were envious of it.

749 points, this Nima is still uncomfortable?

"It's actually 750 points." Li Feng spoke for Li Yun euphemistically, "My brother's composition is enough to get full marks. Many people think so!"

"Huh! 749 is 749, don't talk about full marks!"

Fang Huyu already knew that Li Yun had taken the 749 exam, but after hearing it again, he was still shocked.

"Boy!" In order to conceal his inner surprise, Fang Huyu pretended to say calmly: "Since you said you won't fall in grades because of dating, that's just right. I heard that tomorrow is the second mock exam. You have to take another 749. Score or above, otherwise, I will not allow you to associate with my daughter until the junior year!"

"Dad!!" Fang Xue pursed her mouth in dissatisfaction.

She looked very beautiful in the first place, but she was a little cold. At this moment, she still showed a charming look in front of her classmates, making everyone around her look dumbfounded.

Fang Da's school flower, it is really a big school flower, amazingly beautiful!

As a daughter slave, Fang Huyu felt a bit softer, but when he saw Li Yun's smiling face, he became furious, "This is what your boyfriend said, and it has nothing to do with me."

Fang Huyu looked at Li Yun with piercing eyes: "As a man, don't you know how to speak but not count?"

Li Yun nodded calmly, "Of course, I have the confidence to get full marks in this mock test!"

There was a commotion around the classmates, but no one dared to taunt him anymore.

Through a series of things, Li Yun has proved his strength!

Fang Huyu was fairly satisfied with Li Yun's performance, and asked seemingly casually: "How is the company you and Wu Ke are doing now? You are a senior in high school, and it's really unreasonable to start a company!"

And also took him one hundred million.

Fang Xue was a little surprised. Is her father caring about Li Yun?

It is necessary for Fang Huyu to worry about being fooled when starting a company.

Li Yun was embarrassed and said: "I haven't asked, but it should be pretty good now. The valuation has probably doubled."

"How many times is it up?!"

Everyone around looked at him with weird faces.

Baiyun Technology is said to have invested one billion yuan, which has doubled several times. Wouldn't it be a market value of billions?

If this Nima's is more than doubled, it will almost catch up with all the assets of the upper family!

How old is Li Yun?

Chapter 336: Lao Zhangren's making things difficult (part 2)

At this moment, Li Yun received a prompt from the system.

"Ding, trigger the option event, please choose from the host:

Option 1: Show off your strength, get Fang Huyu's approval, reward free attribute points +100, random advanced business skills, random gift bags*3.

Option 2: Do nothing, no reward.

Option three: taunt Fang Huyu, make him so angry that he will smoke, reward evil value +100, and free attribute points +200. "

Li Yun lied, what broken options the system gave, was he embarrassed to show off in front of the future old man? Is he that kind of person? is it?

Yes, Li Yun really is!

"Ahem!"

Li Yun deliberately showed an awkward expression and took out his mobile phone and said, "Well, let me call Wu Ke to ask about the current situation of the company."

Fang Huyu has no objection, he also wants to hear, the high probability that this is his future son-in-law's current company situation.

Li Yun deliberately turned on the phone to talk to the outside world, straight to the point, and asked directly in the first sentence:

"Wu Ke, is our company valued at 10 billion now?"

The crowd gave him a roll of eyes.

Nima's desire to show off in front of the old man is understandable, but you can't show off like that either!

I just said that the valuation of billions of dollars, how come it has soared to 10 billion now?

You are a high school student, shouldn't you treat your money as a wind blowing, just 10 billion?

"Humph!"

Fang Huyu let out a cold snort of dissatisfaction. This kid is good and talented. He dares to act and does not evade responsibility.

But even running the train with a mouthful of words, everything seems to go through the head, which is a headache!

Fang Xue was a little embarrassed. She also felt that 10 billion was too much. Before, she told her parents that she would try to help Li Yun's assets reach 10 billion within three years of graduating from university, but now...

"Ten billion?"

On the phone, Wu Ke chuckled, as if saying, your goal is too low!

Really have a valuation of 10 billion?

The surrounding students' eyes widened, and Fang Huyu's eyes came out.

Li Yun smiled and said: "I'm just curious. I haven't had time to ask about the situation recently. I think the valuation should be 10 billion!"

Among other things, he fought against the Devil Army, the world's top hacker team, and this deed was equivalent to investing hundreds of millions in advertising expenses to promote pioneer strikes.

"My chairman." Wu Ke smiled helplessly. "You can be a little more confident. Now that our Baiyun Technology is soaring, it is no longer the small company it used to be."

"Stop talking nonsense, how much is the valuation?" Li Yun scolded with a smile.

Everyone pricked their ears to listen.

"I don't know the valuation."

cut!

Everyone secretly compared a ***** in their hearts.

"But the Xuanyuan Zhidun subsidiary that we established yesterday, together with the commercial bank of China Shipping City, holds 80% of the shares, plus some large companies, such as Baowutong Company, my old owner Nantian Technology Group, they account for 20% of the shares, etc. The investment amount is 10 billion."

In an instant, the commotion at the school gate turned into deathly silence.

After a while, Fang Huyu shouted out: "The investment of the subsidiary is only 10 billion yuan?!"

His Fang family does not say that they have inherited ten generations of famous aristocrats, but they are also considered to be rich in Longyang County.

From his grandfather's generation, the Fang family has been very generous.

Fang Huyu's father has been in shopping malls for 30 years, but he has built a large company with a market value of 10 billion yuan.

Coupled with some shops, Fangjia's assets are about 30 billion yuan.

Chapter 337: Father-in-law, I earn 300,000 yuan a day

Thirty billion yuan is an unimaginable huge sum of money for ordinary people, and a small amount of it is enough for ordinary people to live a carefree life.

But compared to Nantian Technology Group, Baowutong, a behemoth with a market value of 4 trillion, 30 billion is just a small fraction.

The students who were watching were all stunned by this terrifying amount.

"real or fake?"

"Nantian Technology also invested? My relationship between Cao, Brother Li and Su Tengyun will get better in the future. Can I be released from prison by the Yongfeng dungeon account?"

"Nima's a bit of pursuit, okay? Given the relationship between Brother Li and Nantian Group, you can have as many dungeon accounts as you want!"

"Baowutong and Nantian Group have always been rivals, now they actually invest in a company?"

"The commercial bank of China Shipping City is leading, I am afraid it is not simple behind it."

Some students who are sensitive to business have guessed the truth. Zhicai High School is a private middle school, and many rich second-generation students study here.

Fang Huyu quickly figured out that it was probably the commercial bank that saw the potential of Li Yun's hacker technology, so he made a bold investment.

The facts are also the same as they guessed, the program structure 'Xuanyuan's Shield' given by Li Yun is the real goal of that tens of billions of investment!

Li Yun said: "Let's not talk about the subsidiary, what is our current valuation of Baiyun Technology?"

Wu Ke vaguely guessed the current situation from the exclams of the people around him, and also knew Li Yun's mentality that he wanted to pretend to be in front of the old man.

"Hehe, the boss is a senior in high school, and it's normal to want to behave in front of his girlfriend."

"However, with so many beautiful girls around the boss, I don't know if the city gate will catch fire in the future?"

Little worried for Li Yun, Wu Ke deliberately said in a casual tone: "I haven't asked a third-party institution to evaluate it, but."

"But what?"

"Pioneer cracked down on global downloads reaching 300 million. The day before yesterday I tried to add an advertisement to the opening interface of the software and pay according to the exposure. The daily income can be about 1 million."

Wu Ke's words made everyone gasp.

One million a day, ten million ten days, thirty million a month? !

Is this money really coming from a strong wind?

At least for Li Yun, it is estimated that money is really earned casually, tens of billions of dollars is nothing at all.

Fang Huyu was speechless, patted Li Yun on the shoulder, said, "Be nice to my daughter," and left without looking back.

His cheap son-in-law has super talent, but he fell in love with his daughter while forbearing. In the future, the two will share joys and sorrows. Fang Huyu is not worried that Li Yun will abandon his daughter.

This kind of husband and wife relationship is the most stable. On the contrary, when a man marries a woman, he is most likely to change his mind.

"Yun, you are amazing!"

Fang Xue was excited and put a lip print on Li Yun's cheek, holding his hand with a smile, full of happiness and joy.

Her father had admitted her relationship with Li Yun in a disguised form. The two would do whatever they wanted. Even if Li Yun had something super intimate with her, Fang Xue could agree to it shyly without worrying about his parents objecting.

Li Feng's expression was complicated, her brother really became stronger and became an indomitable man.

So, where should she go?

If it is just an ordinary college student, I am afraid it is not worthy of the identity of Sister Li Yun.

Li Feng, once again had the idea of wanting to be better.

Chapter 338: Genius Song Yidao

"Ding, the host made a choice and was recognized by Fang Huyu, and the reward (free attribute points +100, acquired skills: advanced legal knowledge, random gift bag*3) has been distributed!"

Li Yun ticked the corner of his mouth. Although the rewards are not very good, he can pretend to be recognized by the future husband, and make his girlfriend feel happy. Who doesn't like this kind of unprofitable business?

But Li Yun quickly discovered Li Feng's abnormality, "Sister, what's wrong with you?"

Fang Xue also looked at her curiously. Now she and Li Feng's relationship is barely good, not only a competitor, but also a close friend of her boudoir. Together, the two deal with wild flowers that want to get close to Li Yun.

"Nothing, let's go, let's go in."

Li Feng suppressed the anxiety in her heart. She believed that no matter how rich Li Yun became, she would recognize her as an older sister. This was enough.

Li Yun shrugged and said that he could not understand the girl's psychology. Even Li Feng, who grew up with him, couldn't see her thoughts.

After arriving at the teaching building and bidding farewell to the two girls, Li Yun walked into the classroom of Class 14.

"Brother Li is here!"

Unsurprisingly, his classmates made another sensation. The crowd surrounded him and asked Li Yun to talk about hackers. It was not until the early reading that these restless guys returned to their seats.

After the two classes in the morning, everyone was chatting around Li Yun again. In addition to a large number of boys who admired Li Yun, there were also many girls around Li Yun, looking at Li Yun like a nympho, their eyes gleaming. The mind is almost written directly on the face.

"Brother Li!"

Wang Houliang held the phone in his hand and said with a weird expression: "Brother Li might have an opponent in this mock test!"

"Oh?" Li Yun's tone was flat, "Could it be Gong Qingyu?"

Gong Qingyu was not well-known before, but after the last mock test, most of the high school students in Zhonghai City have also heard her name.

A score of 748, which is close to full marks, ranks only behind Li Yun!

"No, it's not her."

Because of Li Yun's relationship, Wang Houliang has recently paid special attention to these talents with good academic performance.

He flashed his phone in front of Li Yun, pointed to a post and said, "Look, this Song Yidao is back!"

"Song Yidao!"

The surrounding students exclaimed.

Obviously, Song Yidao's fame was so great that all the students in this group of classmates were so familiar with his name.

"Who is he?" Li Yun asked curiously. He really didn't know who this person was. At the beginning, his family was very poor, he didn't have time to watch TV, and he used the Internet only to play games, which was normal.

"Damn it? Brother Li, don't you know him? He is the national champion of the Genius Challenge!"

In Wang Houliang's spitting narration, Li Yun learned the origin of Song Yidao.

A famous TV station once held a program called "Genius Challenge", which selected a large group of talented high school students from all over the country to answer questions on the show.

This program caused a huge sensation at the time, with a rating of 15%.

Because of the perverted memory and superb mental arithmetic ability of those geniuses, many viewers knelt and watched it.

To sum up in one sentence: these geniuses are so awesome!

In the end, it was this Song Yidao who defeated young talents from all over the country and won the title of "Genius Challenge"!

"What's more awesome!" Wang Houliang exaggerated: "In the finals, Song Yidao crushed the second place by a full three hundred points. At that time, I cursed Cao directly in my heart, and felt that it was impossible for me to rely on it in my life. Reading to stand up!"

Because this Song Yidao was so strong, Wang Houliang directly lost his confidence!

Chapter 339: First place in the Talent Challenge

"First place in the Genius Challenge?" Li Yun smiled and looked at the post, "Then, what does this genius want to do?"

This post was posted in Zhonghai No. 1 Middle School, and the title of the post is:

Song Yidao VS Li Yun, which one do you like?

There were as many as a thousand replies, and the discussion was very hot.

Li Yun clicked in and took a look. 87% of the people supported Song Yidao, and 5% of the people joined in the fun and chose to support Gong Qingyu. Only less than 8% supported Li Yun!

"I scored 749 points last time, stupid* netizens can't see it?"

Li Yun was extremely depressed. He thought he was very famous. He didn't expect that in the eyes of his classmates, he was still inferior to Song Yidao.

But think about it, this Song Yidao's experience is also amazing.

From elementary school to high school, it is the first in full score. Junior high school has started to get various gold medals in Mathematical Olympiad and physics competitions, and they are also the first in full score.

After that, the talent challenge was added, and it became famous all over the country. It succeeded in the role model of the good children in the minds of countless parents and became a legend.

It is said that Song Yidao went to a foreign royal aristocratic school as an exchange student in the second year of high school, where he was also a crushing victory, and his talent can be described as the world's top talent.

A genius with an IQ of 300?

"Brother Li!"

Wang Houliang asked with a worried look: "Are you sure to beat this guy this time?"

"Not sure."

"what?"

Everyone was stunned, Wang Houliang hurriedly laughed and said: "In fact, you are also very good at Brother Li. No one will understand if you don't pass the test, right? I believe Brother Li!"

"Yes, we all believe that Brother Li can defeat this guy!"

Li Yun couldn't laugh or cry, "I said I was not sure to beat him, but I didn't say that I couldn't be tied for first place with him." Li Yun shrugged, "He has a high probability of getting a perfect score. How can I beat him? Only tied for first place!"

It suddenly dawned on everyone that they could not be defeated, but they could tie!

Zhonghai City No. 1 Middle School, Class One.

In Zhonghai City, No. 1 Middle School, No. 3 Middle School and Experimental Middle School are all key high schools. In previous years, Zhonghai City's college entrance examination champion has a 98% probability of coming from these three high schools. The top one thousand college entrance examinations. These three middle schools can account for at least Seven hundred positions.

It can be said that the students in these three middle schools are top learning geniuses.

And the students in the first class are geniuses among geniuses.

Although their family background is not as good as the students in the experimental high school, thanks to their strong learning talent, they also booked the top universities at home and abroad early, and did not need to take the college entrance examination.

For example, some people who have won gold medals in high mathematics are directly qualified for admission to TOP2 universities. The college entrance examination is just a cutscene for them.

As for mock exams, these geniuses are not even more concerned.

This was the case in previous years, but this year is exceptionally different.

"Brother Song, are you sure to defeat Li Yun that arrogant guy?" a boy asked indignantly.

Surrounded by him and everyone else was a gentle-looking boy who was the winner of the first "Genius Challenge" and the most famous champion ever, Song Yidao!

"Li Yun?"

Song Yidao's expression was indifferent. Originally, he didn't want to take any mock exam. After all, he didn't need to take the college entrance examination. Why waste time?

However, someone spent half a million to ask him to take the exam, and Song Yidao recently returned to China for vacation, so he came to take part in it.

Otherwise, the so-called mock test is not in his eyes at all!

Chapter 340: 749 points

"It's the guy who took the 749 in the mock exam last time!" Another boy agreed to answer him angrily.

Song Yidao nodded lightly, "749 points, not bad."

There was a strange look on the faces of the classmates in class one.

It is estimated that there are only a few people in Zhonghai City who can say domineering and arrogant words like '749 points are OK.'

Li Yun, Gong Qingyu, Fang Hao, and Song Yidao in front of him!

A girl said with emotion: "Li Yun can get 749 points on the test because his strength is only 749 points, but Song Ge can get 750 points because the test paper only has 750 points!"

Everyone laughed, their hearts full of strong confidence in Song Yidao.

"Brother Song will be able to defeat the arrogant guy and give us a nasty breath!" a boy shouted passionately, waving his fist.

Everyone nodded again and again.

The first middle school is a key high school, but the last mock test was actually suppressed by a boy from a country school. Not only did the third year students lose face, the first and second year students also felt very embarrassed when they laughed at their seniors.

Fortunately, they have Song Yidao!

It is much better than the situation where there is no genius in the third middle school. This time Song Ge will be able to kill Li Yun!

"The arrogant guy?"

Song Yidao was unfamiliar with the situation in Zhonghai City, and asked casually: "What did he do?"

Everyone was silent for a while, and then babbled Li Yun's arrogant words.

"He said that next time he will get the highest score in the mock test, no one can stop it!"

"He also said that he has mastered all the knowledge points of an undergraduate course!"

"This guy also boasts that his painter is comparable to a master!"

"It seems that Li Yun's paintings are really amazing?"

"This **** also said that the first and third high schools are scum, a group of mentally handicapped children!"

Everyone added fuel and jealousy, Song Yidao couldn't help but couldn't help but said: "Okay, I know what happened, defeating him is just easy, just wait and see!"

With Song Yidao's IQ, he had already guessed that the person invited him back to take the mock test just to defeat Li Yun.

But even if he saw it, Song Yidao didn't bother to pay attention to it, his strength was enough to make him invincible in the world!

The calculations of those little people can only make people laugh in his eyes.

At the same moment, everyone in the Specialty Class of Experimental Middle School had similar conversations.

But Song Yidao was replaced by Gong Qingyu.

"Song Yidao?"

Gong Qingyuqing didn't have the slightest expression on her cold and beautiful face, and said faintly: "No matter who he is, I will definitely get full marks in this mock test!"

In other words, she must be first, even if it is tied for first!

If she knew Li Yun before she knew the genius Song Yidao, she might have some interest in him.

But after knowing Li Yun and knowing that his abilities were hidden behind him, Gong Qingyu had no interest in such an ordinary genius for a long time.

The best score? But so.

She has also watched the Genius Challenge, but the same is true.

As long as Gong Qingyu wanted to do it, she believed that she could do it no worse than Song Yidao.

But Li Yun is the goal she can only look up to. Perhaps only in learning can Gong Qingyu be able to defeat Li Yun once!

"Great, come on, Qingyu!"

The students in the experimental class were rejoicing, Song Yidao was very strong, Li Yun was also very strong, but Gong Qingyu was also terribly strong.

Some students who knew Gong Qingyu's details even looked at her with admiration.

Gong Qingyu not only has good academic performance, her martial arts cultivation is also amazing, the two go hand in hand, can be described as a genius level of enchanting!
