

Godly Choice 3401

Chapter 3401: Such a person, damn

After listening to Li Yun's words, Fan Linglong did not speak for a long time.

She was willing to believe Li Yun, thinking of what he said, there was a man behind the six doors.

It's just that Fan Linglong can't figure it out, why is it so?

"Before." Li Yun said: "When some strange incantation sticks appeared in Zhonghai City, as well as very strange ancient monster blood or something like a spiritual feast, I thought that the concubine Wan Qing said was behind the scenes. It is intended to stir up the global situation, and the grievances of people all over the world will turn into spiritual energy and become a resource for his cultivation."

"But thinking about it now, judging from the ancient ruins on Penglai Island." Li Yun sighed slightly: "This possible behind-the-scenes man, in fact, already knows the secret of the existence of the Hidden Sacred Valley and the Six Doors."

Li Yun looked at Fan Qing Sheng, who took out the saint jade pendant from the spatial ring.

That is, the good luck jade disc fragments as prompted by the system.

It is extremely powerful and useless. It can only be used to respond to the "keys" of the seven ancient creations.

Fan Linglong and Fan Qingsheng did not speak for a long time.

They have guessed something.

Someone, at least one person in the six doors, he already knew these ancient secrets, but he was not sure what it was.

Therefore, through various means, it was finally determined that there are ancient relics on Penglai Island.

So, he sent Ten Thousand Faxians, and then only the saints who held the keys from the Hidden Sacred Valley, went to Penglai Island to rescue millions of hostages.

He may not have thought of a step of success, as can be seen from the fact that the concubine Wan Qing, who is also a saint, did not appear.

However, the result was far beyond everyone's expectation. Li Yun single-handedly facilitated the key to open the ancient ruins, allowing Penglai Island buried under the water to see the sky again, and the Sage Dojo Biyou Palace also appeared.

Things went too smoothly, leaving the man behind the scenes silent for a while, maybe after he felt that it was enough, he took action to destroy the Six Doors and the Hidden Sacred Valley, so that the two sects could not be condensed into a single rope, so that he could continue to do something. Some things.

This kind of speculation and reasoning did not involve anyone, and it is possible for the people in the Hidden Sacred Valley and the Six Doors to achieve this.

Or simply the cooperation of the two parties, just as the thousand souls ancestors and the Baihe Taoist colluded together, and the two sides completed together.

"The basic situation...probably that's it."

Li Yun smiled slightly, "In fact, there have always been behind the scenes, and Wan Faxian is one of the insiders!"

After seeing the news of Wan Faxian for a long time, Li Yun almost forgot this number.

After all, although Wan Faxian was very powerful, he was very strange and easy to talk. He just wanted to achieve his own goals, and Wan Faxian ignored those who did not hinder him.

At this moment, he should be searching for the remaining six doors of life and death in the world, until he finds them again, I am afraid that they will not appear.

"Ten Thousand Faxian?"

Fan Linglong nodded, "He is indeed a very strange person. If he does not act as he pleases, he can actually join the Hidden Sacred Valley."

"Um."

"That will be easy!" Fan Linglong slapped the table, "I'll catch Ten Thousand Faxian, and interrogate him personally, did the black hand behind the six doors also rush to the Hidden Sacred Valley!"

She can tolerate the Holy Spirit leading people to leave the Hidden Sacred Valley, causing a split result.

But there is no way to tolerate it, all of this is a traitor who is making ghosts and deliberately creating divisions!

Such a person, **** it!

Chapter 3402: Goodbye Lord

Li Yun put this historical book back. All his previous guesses were extremely far-fetched. It was only when the system suggested that the returnees were related to the Holy Spirit, so he made such bold guesses.

Otherwise, he just gave ten heads and didn't dare to fantasize like that.

"now what?"

Fan Linglong looked at Li Yun. She understood her apprentice's feelings now. As long as Li Yun was there, she didn't seem to need to think anymore, just waiting for him to make a decision.

It is no wonder that in a family, men are the pillars of existence.

"...Go find the Holy Lord!"

Li Yun pondered for a long while, and looked at the mountain from the window, as if the holy lord Ji Yongnian living on the mountain, his eyes were already calmly looking at him.

"Okay, let's go!"

Fan Linglong didn't talk any more nonsense, and took the initiative to bring Li Yun to the mountain where the Holy Spirit was. The three of them soared into the sky and landed in front of a wooden house.

There are few luxurious houses in the Hidden Sacred Valley. The best buildings are probably the Library of Books, and some places for alchemy or storage of treasures.

Fan Linglong's residence is a small two-story building. The Holy Lord's wooden house has only one floor. There are two rows of fruit trees planted around it. There is no rockery garden and other decorations. There is only a pavilion behind the house. He used to meditate and practice or entertain guests.

This kind of life can be described as pure-hearted, and Li Yun can't even imagine what he would be like if he lived in this state for hundreds of years.

You know, the Hidden Sacred Valley has only been introduced to the Internet for 20 years at the most, and in the previous thousands of years, this group of cultivators stayed silently in the Hidden Sacred Valley to practice, except for a few occasions when they went out to confront the six doors. Never go out the rest of the time.

"Behind the house."

Fan Linglong said something plain, and took the lead and walked towards the back of the house.

Li Yun knew that she was in the forefront because she was afraid of a sudden attack by the Holy Lord.

However, Li Yun, who was most suspicious of the Holy Master before, noticed the environment in which the other party lived, and then contacted the previous Holy Master's calm performance, and couldn't help wondering if he had guessed wrong.

The system just gave a very vague reminder to the returnees and the holy master, and didn't say anything. Li Yun had to dig everything.

"Wait, don't be impulsive."

Li Yun saw that Fan Linglong looked like she was going to fight, and quickly reminded her.

Fan Linglong gave him a roll of eyes and pointed to his face, meaning that I usually have this expression.

Sage Fanqing still did not speak, as quiet as a fairy.

"Senior, meet again."

After arriving at the house, Li Yun saw the Holy Lord of the Hidden Sacred Valley on a stone table under a peach tree. He was raising his head and looking at the falling peach blossoms. The old man who is not far away from the crowd, but just enjoying a comfortable life, looks peaceful.

Li Yun doubted his inference again.

"Um."

The Holy Master didn't answer for a long time without pretending to be forced, and said softly: "Linglong, are you here? Sit down and accompany this old man with me. You won't see many days like this in the future."

Li Yun's three inexplicable hearts were stunned.

What does this sentence mean?

It means that in the future there will be a face-off between the two parties, so there will be no more days like this?

"Holy Lord, I don't quite understand what you mean."

Fan Linglong stood still, not far from him, and did not take a seat.

"what happened?"

The Holy Lord glanced at her strangely, "I just said, it is estimated that you will leave Linglong soon, and there will only be me, an old immortal fellow in the hidden holy valley in the future."

Chapter 3403: Drink tea

Was it just like this?

Fan Linglong breathed a sigh of relief inexplicably, and really wanted to fight the Holy Lord, everything was unknown.

But the result of the battle is still secondary. The damage to the Hidden Sacred Valley is the most irreparable place!

"It's weird you guys today."

The Holy Lord looked at Li Yun and the three with weird eyes, "Why do you all seem to be wary, what's the matter? Could it be that what happened to the six gates of the outside world?"

Before Li Yun could answer, the Holy Master shook his head again, "I don't think it is. The external power is not bad now. Even without the support of the Hidden Sacred Valley, the outside government can fight against the six gates. Moreover, now the spiritual energy is dissipated, the human beings once again Gained the strength of the ancient monster race, enough to fight against ordinary practitioners."

"Ancient Demon Race?!"

Li Yun was surprised, "Senior, what do you mean, those abilities are all from the power of the ancient monster race!?"

He had vaguely guessed before, but he didn't dare to confirm it. Now he heard it from the owner of the Hidden Sacred Valley, and it was another feeling.

"Who knows."

The Holy Lord shrugged freely, looked at the peach tree in full bloom, and said with a sad tone: "Everything in the world is so rushed. Living for thousands of years is like a flash of a finger. The power of the outside world changes very much. It's big, but it still hasn't gotten out of the shackles of ancient times."

"How did the Valley Master know?"

The Holy Lord at this moment seemed too mysterious and wise, and Li Yun couldn't help asking him more things.

"Isn't there a proof? You did it yourself." The owner of the valley smiled, "It's Penglai Island."

Li Yun looked embarrassed.

Indeed, the rise of Penglai Island was too shocking. Millions of trails appeared all over the Pacific Ocean. In addition, the Biyou Palace on Penglai Island, which is inaccessible to people today, is enough to prove that the practitioners of the ancient times were also very powerful, or just As the young lady said, they have already flown out of the earth, reaching the point where they live in outer space.

Are all the gods gone? Leave the earth? Leave only the legend?

"Sit down, why are you still standing?"

The Holy Lord smiled again, "Do you still want tea before you sit down? Sorry, I'm not so polite here, just feel free to order."

"Uh."

The three of Li Yun hurriedly sat down. Fortunately, there was still tea in his space ring. Although it was not hot, it could fill a cup of tea for the four of them.

"Not bad." The Holy Lord glanced at the space ring on Li Yun's finger, a little curious: "Is this the Sumi mustard seed you found in the Ancient Immortal Mansion?"

"Yes, if you want to study, Master Gu, I will find a way to get one for you!"

"No, it is not suitable for research. The ancient things are only suitable for the ancient times, and most of the materials are not found."

"so it is."

Li Yun used tea to hide his embarrassment.

He vaguely felt that this was the first time that he was so deflated. Even at that time on Penglai Island, Li Yun had not been so embarrassed when facing the threat of millions of people holding hostages by thousands of immortals.

The reason is also very simple, the Holy Lord has almost all the initiative in the conversation!

"Li Yun, why are you coming back this time?"

The holy lord cast his gaze on Fan Linglong and laughed teasingly: "Could it be that I just wanted to take away our former saint?"

Fan Linglong's pretty face blushed and did not refute, but just said defensively: "Good luck makes people."

It was God's will to make people, that's why she had such a relationship with Li Yun, and even voluntarily ate his fried dough sticks and soy milk in the morning.

Chapter 3404: Good luck

"What a good luck!"

The holy lord let out a hearty laugh, pointed at the peach tree and said: "It's just that sometimes good fortune can be changed, like this peach tree that I enlightened!"

Li Yun's thoughts were swept away, and he discovered that the peach tree with abnormally blooming flowers had a vaguely demon-like atmosphere, as if it had gained a certain degree of wisdom and became a demon.

In the Reiki era, this kind of weird thing happened occasionally.

"Does man conquer the sky?" Fan Linglong did not argue, just said.

"I don't know whether people can conquer the sky, but I'm not reconciled to it, nothing more."

The Holy Master shook his head, "I know Li Yun, you may come back for something. Indeed, any practitioner of the Six Doors and the Hidden Sacred Valley will cheer for the arrival of the Reiki Age, and I am no exception."

Li Yun looked at him quietly.

"It's just... it's too difficult!" The holy lord's voice was vague, "There were two sect inheritance rules before, and then there were the hiding and protection of ancient relics. In today's era of disappearance of heaven, I want to find something and discover Something is almost impossible. Li Yun, the senior young girl you found is actually a considerable breakthrough!"

The words of the Holy Lord are undoubtedly quite strange, and it can be seen that he is very interested.

"Yeah." Li Yun nodded, "It's just that Senior Young Girl hardly speaks."

"Yes, it's useless to speak!"

The Holy Lord smiled and said: "I can imagine the concerns of the young female senior. She may look at us like the people in the Hidden Sacred Valley and the Six Doors, and the ordinary people outside before, letting ordinary people toss them. , And it's hard to come into contact with a completely strange world."

Whether it's Penglai Island or aura, it doesn't matter to the ancient fairy mansion. For the young girl, these are all things she knows, and she also knows that Li Yun and others cannot do anything to those places, so she is very It's calm, every day besides watching TV is going online.

It is very possible that for the young girl, she is slowly waiting for the aura to dissipate. After she absorbs a certain amount of aura, she will fall asleep again, waiting for the next ancient ruins to be opened, and when the next aura dissipates, she will return Once appeared outside the fox temple, sitting on a pillar looking up at the moon.

Such a young girl is, in a sense, the loneliest person on earth...or a god.

"I will find out more about the secrets of ancient times!"

Li Yun aroused a strong desire.

Even if he understands the young girl, he will continue to pursue it when he sees the ancient ruins!

Finding the six doors of life and death is the first step!

"it is good."

The Holy Master sighed with his palm, "If you find all six doors of life and death in the future, I will definitely leave the Hidden Sacred Valley and go take a look!"

"Holy Lord, you!" Fan Linglong looked at him.

"At that time... Li Yun you will be the owner of the Hidden Sacred Valley, how about it?"

"Me? No, it's impossible!"

Li Yun waved his hand and declined, the Holy Lord smiled, did not say much, as if he had made up his mind.

After chatting for a while, the Holy Master said: "Okay, I will explain what should be explained. Go ahead. Apart from the deepest spiritual rift in the Hidden Sacred Valley, there is no other place that needs to be taboo."

Li Yun stopped when he stood up, "If you don't say anything, Master Gu, we might not have thought of it for a while."

"Oh? Do you really want to go in and see?"

The Holy Lord asked, it seemed that he had already prepared.

Chapter 3405: Aura Rift

"Correct!"

Li Yun nodded affirmatively. The biggest purpose of his coming to Hidden Sacred Valley was to find the so-called abnormality prompted by the system. Now that the selected event has not been completed, it is probably inevitable to go there and take a look!

"Why are you going there?"

Fan Linglong's tone was obviously unpleasant, she didn't want Li Yun to enter the rift in the aura.

Li Yun smiled, "There is something to do, besides... don't you think that the spiritual rift in the Hidden Sacred Valley seems to have a lot to do with ancient secrets?"

The external aura is exhausted, but the six gates and the hidden sacred valley are safe and sound. The barrier is divided into two different worlds, all relying on the deepest spiritual rift in the hidden sacred valley!

"Really going?"

The holy lord showed a smile but a smile, "I once entered the rift in the aura, but I didn't find anything. It was just a very deserted place, as if it led to a remote and mysterious world. I don't know if it was once. The cave mansion opened by the immortal is still a natural rift in a certain world.

But no matter what, the hidden sacred valley and the six gates all rely on the rift of spiritual energy to survive! "

He explained many things.

Li Yun nodded again: "Yes, I must enter and take a look!"

The stingy system did not prompt to select the event, but Li Yun has already made a decision.

"I'm with you." Fan Qingsheng said unquestionably and objectionably.

"...I'll go in and take a look."

Fan Linglong reluctantly agreed. In addition to being unable to stop Li Yun, the Holy Lord had also entered and came out unharmed, which was the reason why she felt that the aura within the rift was still safe.

"I have no objection." The Holy Master smiled: "I am really curious about the Reiki Rift in recent years, but unfortunately I still hold the position of the Valley Lord, and I can't find anything after entering, so I didn't enter again. Li Yun If you go in, you should pay attention to some things. After you come out, talk to me and the saint master about the situation in detail. Maybe you can find some differences."

The last time he entered was a hundred years ago, and now the aura of Penglai Island appears, which may cause a change in the aura rift.

"it is good!"

Gu Zhu's explanation was seamless, and Li Yun agreed.

Without further ado, Li Yun immediately asked the Valley Master to take him to the deepest part of the Hidden Sacred Valley.

"right here."

The Holy Lord pointed to the back of the mountain where he was, and smiled.

"Ah? Right here? Not the deepest part of the Hidden Sacred Valley...Oh! I understand."

Looking around, Li Yun suddenly reacted, the Hidden Sacred Valley is surrounded by a barrier, it doesn't matter inside or outside, only the strength of the barrier.

It is a very correct choice to make the place where the Valley Lord is to be a barrier to guard the rift in the spirit.

"so it is."

"It's okay to understand, okay, I'll call the holy master to come."

The Holy Master did not speak any more nonsense, and sent a paper crane to transmit a letter. Soon, the Holy Master who was still in the hidden holy valley arrived.

After hearing that Li Yun was about to enter the rift of spiritual energy, he did not object, but told him to proceed carefully.

It seems that both the Holy Master and the Holy Master are interested in the Reiki Rift.

"Let's go!"

The group of people are not weak, not to mention shrinking to an inch, but the speed is also extremely fast. In the blink of an eye, they came to the back mountain. On the edge of a cliff, Li Yun saw another stone house made of stones.

"Senior Huangyixian, Senior Yongnian visit!"

As the owner of the Hidden Sacred Valley, Ji Yongnian used a rather polite remark, as if this Huangyixian was not from the Hidden Sacred Valley, but another elder he respected.

Chapter 3406: Huang Yixian

Huang Yixian.

It's another rather strange name, Li Yun said inwardly.

Moreover, as the elder of the Hidden Sacred Valley and Fan Linglong, it seems that this Huangyixian is probably the survivor of the Holy Demon War, and is also a top powerhouse in the Soul and Bright Realm.

"come in."

There was a very peaceful voice in the stone house, which was completely different from the hoarse voice Li Yun had imagined before-living in seclusion here, barely talking to outsiders, the hoarse voice is normal, but the cultivator cannot use common sense. infer.

The five people entered the door, and the moment Li Yun stepped into the threshold, the world around him suddenly seemed to be stretched. At first glance, he could see that the walls in the house were stretched sharply, and the stone wall above his head became higher. The son has become broad.

"This is...space compression!"

Li Yun used modern abilities to describe what he saw in front of him, and everyone present gave him a glance.

"Space compression?"

The Holy Lord chuckled, "That's not bad to say, but in terms of magic practice, we call it the small world, or the heaven and the blessed land, the hidden sacred valley is actually something similar."

After the small world opened up by the cultivator becomes larger, it can become a cave dwelling that accommodates creatures, just like the Lotus Immortal Palace in Li Yun's hands.

"Uh, that's it."

Li Yun became a straw bag again.

Fortunately, no one laughed at him. Fan Linglong just gave him a look, and took the lead to walk forward and respectfully said: "Senior Huangyixian, Fan Linglong is here to trouble you and trouble you."

In this world, she can treat her with elders' courtesy, except for the Huang Yixian in front of her, Fan Linglong can't find anyone else-the demon of the six gates is not counted.

In other words, the fairy in front of him is the only elder of Fan Linglong!

Li Yun carefully looked at the old man who was sitting cross-legged on the futon and wearing a yellow and white coat. He seemed to be no different from many ordinary old people. His beard was gray and his hair became rough and sparse, and he was not like a cultivator. He is still a child at the age of.

It can be said that Li Yun could not see anything unusual except for the action of sitting cross-legged on the futon.

He is also not wearing yellow clothes.

"Well, it's Linglong."

Huang Yixian nodded faintly, "You came together, do you want to enter the rift of spiritual energy?"

He opened the door and asked directly the purpose of the three saints coming together.

It seems that I don't want people to stay here more.

"Yes, senior!" The holy lord also became very respectful. "Recently, there have been great changes in the outside world. Immortal islands have appeared overseas, and a lot of auras have flowed from the islands, transforming the world into a very unfamiliar world. After so many things, the two saints left with people, not knowing when...when they will come back."

In a disguised form, the holy gods and saints will no longer return to the sacred valley.

Li Yun became more and more strange.

It was enough for Fan Linglong and him to call this old man a senior, just as there was no relationship between them, Huang Yixian's seniority was too high, and Fan Linglong didn't know what he came from, and forgot. .

But Huang Yixian's status is obviously very high, and he is a person from the Hidden Sacred Valley, but the Holy Lord actually didn't report it to him about the split of the Hidden Sacred Valley?

What is the status of this fairy in the hidden sacred valley?

"Aura, recovery..."

He repeated the words of the Holy Master in a low voice, as if thinking about something, Huang Yixian shook his head lightly: "No matter how much the world changes, it has nothing to do with me. If you want to enter, just enter."

Chapter 3407: Reiki value, one hundred million

"Thanks senior!"

The holy master arched his hands, no longer disturbing Huang Yixian, and led Li Yun into the stone house, into the deepest part of the house, and the surroundings became extremely dim, like entering the innermost part of a cave, where there is no world.

Li Yun glanced back, but found that Huang Yixian, who seemed to be meditating on the futon in the middle of the stone house, seemed to be at least a hundred meters away from him at the moment.

"No wonder it is the deepest part of the Hidden Sacred Valley!"

Li Yun nodded, indeed it looked a bit like it.

Turning his head to see, Li Yun couldn't help being surprised: "Here is the spiritual rift?"

The so-called rift is actually a huge door!

Moreover, the reason Li Yun was surprised was that the door inlaid on the inner wall of the stone house was very similar to the door of life and death he saw on Penglai Island.

The same angel and devil, the same fairy heavenly soldier, and the same east and west gods blend on a stone wall, forming a strange image of a group of demons dancing, gods gathering, and fairies gathering together!

Li Yun was sure that the original maker of this door, whether it was imitated or built together, must not understand the myths and legends of the East and the West:

Even if you are an ancient ***** living on the earth, you can't change the God Jehovah to a female when you make it. You can also put the gods like the enemy in the myths and legends on a screen...carved in a slate!

If seen by believers, such murals will definitely be blown up!

"You know?" Fan Linglong looked at Li Yun.

"Yeah!" Li Yun took a deep breath, "Penglai Island last time, the gate of life and death was like this!"

The saint master smiled slightly, the saint master was slightly surprised, and the fairy Huang Yixian in the distance was indifferent.

Sage Fanqing still didn't speak, standing in front of the stone wall coldly.

It was also the first time for her to come to the Aura Rift, and she felt that there was much more aura than in the Hidden Sacred Valley.

"Oh?" The sage was very interested, and after a cursory questioning, he sighed with emotion: "The Hidden Sacred Valley does have a deep relationship with the ancient immortals. It is a pity that we have forgotten all these histories. We even found There is no related record, nor can I find any magical artifacts handed down."

"Where is that fairy?" Li Yun still remembered it.

"The fairy? It was only refined by the seniors of the Hidden Sacred Valley five thousand years ago. The effect is very strong, but it should not be comparable to the ancient times."

Li Yun looked embarrassed. He thought the legendary fairy artifact was very awesome, but it turned out to be a fake.

Maybe it's not as good as the few colorful treasures in his inventory!

"Does it need to be completely opened?"

Li Yun looked forward.

The stone wall is not a door, but there is a cracked gap in the middle. The spiritual energy is constantly dissipating, like a mist of water, to supply the practitioners of the Hidden Sacred Valley. For thousands of years, it has been this rift that has made the practitioners of the Hidden Sacred Valley. To survive and continue to practice.

It's just a pity that as the outside world also has aura, this place becomes insignificant.

"No need."

The Holy Master shook his head, "If you want to go in, touch the stone wall directly, and if there are no distracting thoughts in your mind, you can go in soon."

"? You can go in without distractions? So magical?"

Li Yun tentatively stretched out his hand.

"Ding, trigger the option event, please choose from the host:

Option 1: Direct contact with the stone wall, reward +10 million spiritual energy value.

Option 2: Reject, leave here, reward skill: take advantage of the situation.

Option 3: Run the power of the congenital Taoist tire, and then touch the stone wall, reward: Aura value + 100 million, gift bag of supreme treasure*1. "

Chapter 3408: choose

100 million Reiki! !

Li Yun was directly taken aback by this exaggerated aura reward, thinking that at the beginning, when the system just added aura value to the selection event, every time the system was rewarded with tens of thousands of auras, so Li Yun's pet and daughter, the Black Feather Butterfly, wants to evolve and grow more wings to ask his father pitifully for his opinion.

But now, Li Yun only needs to use the power of the innate Taoist womb, and then touch the crack in the door of this suspected ancient creation. There is no need to kill the Void Realm, no need to kill the Soul and Bright Realm, and no need to struggle to save a few hundred. Ten thousand people still let the world enter the age of aura.

Touch the door door, and you can get a hundred million spiritual value!

This method of earning aura is simply not too fast.

Li Yun slightly estimated that the total amount of aura in his Lotus Immortal Mansion is now between two or three million. If he can obtain one hundred million aura, he can instantly speed up the various spiritual plants and small spirit beasts in his fairy mansion. The speed of growth, in the future, Li Yun will eat chicken, duck and fish raised in his own fairy house for every meal at Li Yun's table, which is really great.

There are a lot of auras released by Penglai Island, the total amount is several billions-converted to the system reward value, but unfortunately, Li Yun can't absorb the aura of Penglai Island on a large scale, otherwise he would have developed a long time ago.

"what happened?"

Fan Linglong saw Li Yun's daze, and asked.

If it were an ordinary person, Fan Linglong would have dismissed it long ago, thinking that the other party was taken aback by this strange and strange door.

But she knew that although Li Yun likes to sleep together with her arms around her at night, he still held her head in the morning, tied her with a double ponytail, grabbed her in her hand and played with her long double ponytail hair, but this little villain The strength and the degree of weirdness is no less than that of the Hidden Sacred Valley. This guy has a strange power in his body, which is worth exploring.

Therefore, Li Yun was stunned, which often represented what he had discovered.

"No, nothing, it's normal!"

Li Yun nodded, one billion aura looks like a lot, but if he really wants to bring his confidantes to become immortals, a few billions of auras will not be enough.

Moreover, this one hundred million is not so easy to take, not to mention that the better the reward is, the more difficult the choice is, not to mention that there is a holy master beside him, just the Huangyixian sitting on the futon in the distance. , So that Li Yun will not act recklessly.

But how to put it, this one billion aura reward, plus a supreme treasure bag, is really tickling!

If he doesn't do anything, Li Yun feels that he will definitely regret it!

"Valley Lord."

Li Yun looked at the Holy Master tentatively, "This spiritual rift has been passed down since ancient times. Have you not investigated it?"

"Naturally, it's just a pity."

The Holy Master said with emotion: "Whether it is me, my father-in-law, and the countless seniors of the Hidden Sacred Valley, have investigated this door that can release a spiritual rift, but no matter how you do it, you can only guess. Come to any affirmative answers!"

"The only thing I'm sure of is," the holy master said humorously: "If we destroy the world in the rift of the spiritual energy, the six gates will be destroyed. Of course, including us!"

Although there is no very positive confirmation, the Hidden Sacred Valley and the Six Dao Sects have already guessed each other's hands, and there must also be a spiritual qi gap for the cultivation of the doormen.

Chapter 3409: guess

The two hidden immortal cultivators want to put each other to death. In addition to the general disputes between justice and evil, black and white, and righteousness and devildom, another

important reason is that they do not want to seize each other's spiritual rift and let their own Cultivation resources doubled.

Moreover, even if you can't kill the opponent, kill the people around you, and increase the resources for practice, it has never been a way.

All in all, in the thousands of years of lack of aura, the aura escaping from this ancient stone gate is the most important treasure outside the two gates!

"so it is."

Li Yun's eyes moved slightly, depressing the power of the innate Taoist tire, and then touched the crazy thought of the spiritual stone gate.

He has a feeling that if he does this, there will be a situation that neither he nor San Fan Linglong can control, or the Holy Lord suddenly turns his face, or some monsters rush out of the door, or... .. Huang Yixian!

If this choice of rewarding a hundred million spiritual energy was issued when Li Yun was alone, he might find an appropriate time to make a dead choice, touch it, and use the innate womb's faculty ability to escape.

But now there are Fan Linglong and Fan Qingsheng beside Li Yun, he can't take this risk.

"Little friend seems very touching?"

The Saint Master looked at Li Yun and asked with a smile.

"Correct."

Li Yun pretended to say with emotion: "This stone gate is engraved with many myths and legends about ancient times in human civilization. I don't know what happened in the ancient times. Secondly... Last time on Penglai Island, I decided to let Qing Sheng use it. The inheritance of the saint triggered the gate of life and death, and brought the world into the age of spiritual energy, so I was moved.

Master Fan Qingsheng, who had been silent all the time, glanced at him, and it was obvious that Li Yun was lying again.

But she didn't expose it.

"so it is."

The sage laughed, "However, the sages said that misfortunes depend on blessings, and blessings fall on misfortunes. Whether the future Aura era will be good or bad, it is still uncertain!"

Li Yun smiled and did not continue this topic, but asked: "I wonder if I can enter this spiritual stone gate now, kid?"

Compared to the Aura Rift, Li Yun prefers to call the Aura Shimen, because this is obviously a door that splits a gap, allowing the Aura inside to escape.

Even... the hidden sacred valley and the spiritual stone gate of the Liudaomen are one of the six symbols of the gods that appeared on Penglai Island before—that is, the gate of life and death!

"Can."

The holy master nodded, "The way to enter the rift of spiritual energy is not difficult, and it is not dangerous inside, but if you go in, you must be careful and don't mess around, especially you Li Yun, listen to seniors... ..No, it's good to listen to your daughter-in-law."

"Haha...uh."

As soon as Li Yun was about to laugh, Fan Linglong glared at him.

The wife of Li Yun in the Lord's mouth does not refer to Fan Qingsheng, but her Brahma Linglong!

As the Holy Master said, the way to enter the spiritual stone gate is very simple. Li Yun and Fan Linglong stood in front of the stone gate. The Holy Master and the Holy Master pushed the stone gate like a wall to the middle. Suddenly there was a suction force in the gap, and the three of Li Yun standing in the front were sucked into the door together, and disappeared without a trace!

"Oops, forgot to ask how the Lord came out!"

Before Li Yun had even had time to flash this thought, he had already gone to another world.

After the three of them disappeared, Huang Yixian kept closed, opened his eyes and looked at the wall with countless gods and immortals. Gujing Bubo's eyes revealed a somewhat complicated charm, but it faded quickly. , His eyes closed slowly again.

Chapter 3410: Enter the Aura Shimen

There was not much attention to the two holy masters and teachers who were still in the stone house, as if they did not exist.

"I wonder if Li Yun can find out something abnormal."

The saint master standing in front of the spiritual stone gate said with emotion.

The holy lord smiled and said: "Don't you say that you won't leave the customs in the next 100 years? You also said that whatever the outside world toss, just guard the three-acre of the hidden holy valley."

"Then, of course it is like this." Saint Master said helplessly: "If only you were supported by the Valley Master, the Hidden Sacred Valley would have been completely gone. I can see that the Valley Master, your heart is also not quiet, if you go out in the future If you walk away, leave me alone to guard here."

"Uh, of course." Noting the fairy queen in the stone house, the sage added: "Senior Huangyi fairy is also the last force to guard the hidden sacred valley!"

Huang Yixian, who was sitting cross-legged, did not respond to what the two said.

However, both of them are used to this predecessor.

Except for direct questions, Senior Huang Yixian hardly participated in such topics, and rarely walked out of the stone house.

If the Hidden Sacred Valley is an escape from the world, then Huangyixian Senior is an escape from the world. There are almost no people in the Hidden Sacred Valley who can fully tell his origins, and even his existence, there are only no more than ten people. Know.

The Holy Lord smiled and looked at the spiritual rift, "I hope Li Yun can bring us good news. I have a hunch that he will be the key to unlocking everything!"

The sage nodded in agreement. Although there are still some questionable points about Li Yun's origin, he still believes that the sage of Vatican and the sage of Vatican Linglong, the man whom the two sages are attracted to at the same time, must have something extraordinary!

"The key to everything..."

A thought flashed through Huang Yixian's mind, but he quickly denied that if the real key came here, it would trigger...

Unfortunately, it is not.

He still didn't wait for the key person.

...

"This is inside the Aura Shimen?"

Standing in a desolate and desolate world, the world was dark and gloomy, as if the end was coming, Li Yun couldn't help his voice louder.

It was different from any place he had been to before.

Li Yun has entered three illusions and several formations. For example, his daughter-in-law Fan Linglong personally set up the 28-star formation of the sun and the moon, and helped Princess Yongning set up the formation to test latecomers. "Select the formation of son-in-law."

In the formation of selecting son-in-law, Li Yun saw a group of dead people who could only react mechanically. In the fantasy world, only Princess Yongning was the only person who could react to him. In this formation, people can also feel it. The atmosphere of horror.

After all, the people coming and going inside seem to be very lively, but it has nothing to do with you.

When the formation of the son-in-law collapsed, Li Yun was shocked by the collapse of the surrounding world.

In addition, Li Yun also entered the illusory realm of the ancient gods of the post-life and death gate, facing countless still gods and immortals; in addition, Li Yun was pulled into the realm of time and space illusion by the system, and in the final stage, he walked alone in the dark and endless ghost gate. It took a long time before I finally saw Pan Suyi, and wandered around with her for more than half a month.

The combination of all the previous illusions has tempered Li Yun's mind to be as hard as steel, so that he can be completely proud to say that the Tai Huang landslide is before him, and his eyes are not blinking!

But now, when he saw the world inside the Shimen of Aura, Li Yun couldn't help but startled.
