

## Godly Choice 3421

Chapter 3421: Speculate

Seven doors, seven keys, seven different holders.

But the door of life and death guarded by everyone who holds the key is not the door corresponding to the key, but another door!

For example, the saint of the Hidden Sacred Valley holds the key to the Biyou Palace on Penglai Island, which is the jade disc fragment corresponding to the Eastern Famine Legend.

In this way, the concubine Wan Qing of the Six Doors, the key to the saint in her hand, is probably the key to Buddhism.

"Where is the resident of Liudaomen?"

Thinking of this, Li Yun asked, naturally looking at Fan Linglong, this former saint who had fought against the saint of Liudaomen, couldn't help but know the location of Liudaomen, right?

"In China... a hundred years ago in China, it seems to be a little muddy country now." Fan Linglong added, "But I haven't been to it myself."

Nibel? Perhaps it is more appropriate to call Lumbini. This is the ancient name. The Buddha got his way under a bodhi tree in Lumbini, but this is a myth and legend. What the real myth is still remains to be discussed.

"Footprints are gone again!"

I haven't thought about the key. The footprints in the front disappeared again. However, the sound that Li Yun was still in the air became clearer and clearer. He could even hear the gasping of the running man, which was enough to prove that he was nearby. , It may have been less than half an hour.

—This world has been changed by the ancient powerhouses, and everything has been stopped, and even the dissipation of sound has become impossible to judge by common sense.

"Spread it out and look for it."

Fan Linglong said, the three immediately separated and searched for the man's trace.

This is the advantage of strength. If Li Yun brought Fang Xue or Xiao Mingzhu with him, he would not dare to let them act alone. After all, although the world looked at nothing dangerous, it was always revealing weirdness everywhere. It's not surprising that a monster popped up somewhere.

"found it!"

The strength of the three of them is not low, and there is no vegetation in this barren world. The three figures swiftly passed in the air. Soon, Fan Linglong shouted again, and Li Yun and Fan Qingsheng gathered towards her. .

"Found someone? Where?!"

"It's not a person, but... an exit!"

Fan Linglong's gaze was faintly excited. He stretched out his fingers, and Li Yun looked in the direction of her fingers, and saw a semicircular fissure appearing on the ground, as if the earth opened a gray mouth, killing people. Swallowed it in one bite.

Li Yun landed, but did not touch the ground with his feet. Instead, he was next to the crack that was exactly the same as the one where he and the two daughters of Qingsheng entered. After carefully looking at it, he could vaguely find some shallow footprints before confirming. 'S nodded:

"It seems that he ran in here, but judging from the messy footsteps, this man should have gone through some ideological struggles before entering."

Regrettably, there is no voice left around. I don't know if it's because the other party didn't speak, or because it was close to the entrance and exit of the chaotic world, the rules of heaven and earth were changed again.

In fact, Li Yun will not be surprised if anything happens here. It is like a virtual world carefully constructed by people, but it is full of chaos, and things like bugs will happen at any time.

"We, also enter?" Fan Qingsheng asked Li Yun.

"Go in, but let's find something to explore the way."

Li Yun thought for a while, and tentatively took out something from the Lotus Immortal Mansion: a toad that has been shiny and looks very beautiful.

Chapter 3422: Pathfinder

Three-eyed toad, this thing can only be called something, because it is a pet mount of Li Yun's daughter Heiyudie. In the past, the favorite thing in the past was to be teased by the black feather butterfly. The biggest fun of this toad is to lie on the nine sons. The lotus pond was slumbering, or lying on the lotus leaf to sleep, wake up and croak a few times, let Nie Xiaoqian, who lives by the pond, feed it the spirit fruit, and live a very happy little day.

Regarding the origin of the three-eyed toad, Li Yun didn't want to say any more, but if he didn't remember, he turned over the previous chapters and reviewed it.

However, this toad is usually useless for the so-called raising soldiers for a thousand days. Now it's time to make a contribution!

"Goo... scratch!"

After the three-eyed toad suddenly appeared at this time, he subconsciously wanted to please the boss, croaked a few times to frighten the people around him, and seemed to have some strength, not just the eldest daughter's mount.

However, when it was halfway through the quack, its spirit sensed the world around it, and then noticed the sky above its head. In an instant, it scared it to shame—no, it was Toad that was shocked, and the second half of the sound was abrupt. He swallowed back, panic in his small eyes.

"Crack."

The three-eyed toad almost fell on the ground, wanting to cry without tears, it is now!

When he went out last time, he went to the overseas fairy island with his master. He inhaled happily and swallowed a lot. If it weren't for the face of the boss and the master, and for fear of offending some possible existence, it could do it. Swallow half of the aura from Penglai Island in one bite.

But this time?

As soon as it came out, it felt that the world had changed!

It actually entered a small world opened up by a super boss!

Life and death are completely controlled by the owner of this space, and there is no way to run.

"Crack."

The voice of the three-eyed toad revealed deep fear and grievance, and seemed to be complaining about its boss, why he brought it to such a dangerous place.

"...Stop talking nonsense."

Li Yun didn't know if this toad, which seemed to have survived from ancient times, could speak, but it didn't matter, as long as it understood the meaning.

"Give me in and find the way!" Li Yun pointed to the gray crack on the ground and motioned to the toad to go in and take a look.

"My son, Xiaodie is going out."

When Nie Xiaoqian's voice came, Li Yun was stunned. Then, a beautiful human-shaped butterfly jumped out and smashed Li Yun's face directly.

"Baba Baba~~~!"

Fan Linglong's face became very weird, and Li Yun had more secrets than she had imagined. Whether it was the toad or the butterfly wing monster behind, they all revealed a bit of mystery, unlike the monsters of this era.

Could it be that the Ancient Immortal Mansion in Li Yun's hands is home to many ancient things?

"Fluttershy, now is not the time to play!"

Li Yun couldn't laugh or cry and caught the black feather butterfly on his face. This little guy was a little bit bigger again. He could still sleep on his palm before, but now Li Yun is almost unable to hold her with one hand.

The nine-winged black feather butterfly is still in the third-winged state, but its height has become more than forty centimeters. When sitting on Li Yun's shoulders, it looks like a petite and cute doll.

"Hehe, Baba~, it seems interesting here?"

Black Feather Butterfly sat on Li Yun's shoulder again, looked left and right, and finally looked at the sky above her head, her eyes seemed a little confused, as if she saw something incomprehensible and fell into a state of thinking.

Chapter 3423: Heaven and earth can eat

The Black Feather Butterfly, which is almost half a meter tall, can already speak well, except for the name Li Yun still used when he was a child.

"interesting?"

Li Yun and Sage Fanqing glanced at each other, then looked at the trembling three-eyed toad on the ground.

Normal people don't find it interesting, right?

This world is chaotic and barren, and no life will like it here. I am afraid that it is the Chaos Demon God like Pan Gu who was born from the chaos, and is tired of this disorderly world.

The world without a trace of change is disgusting from the heart.

"Hmm, funny, super~super~~super interesting!"

Black Feather Butterfly sat on Li Yun's shoulders, gestured with little hands excitedly, and said three super in a row.

Needless to say, I must have learned it from Hu Xiaomeng.

When playing in the Tianxue Palace for a few days, Li Yun also took Zhao Tianfeng and Hu Xiaomeng into the Lotus Immortal Mansion to play for a few days. Hu Xiaomeng, who is naughty and foolish, is a perfect match with the innocent and cute Black Feather Butterfly. People almost didn't demolish the Lotus Immortal Mansion, so that when Hu Xiaomeng entered the Lotus Immortal Mansion for the second time, Nie Xiaoqian followed the two of them all the way, with an expression that you are not allowed to mess around.

"Where is it interesting?" Fan Linglong carefully observed that there was only a dazzling and beautiful human-shaped butterfly like a starry sky, ignoring her beautiful and strange appearance, just being able to speak, surpassed most monsters!

"Are you... one of the older sisters?"

Hei Yudie addressed the girl next to Li Yun as his sister, not his mother.

"Yeah." Fan Linglong nodded cheeky.

"Hehe, it's interesting, that means... there seems to be a lot of great things here!"

After remembering Fan Linglong's appearance, Black Feather Butterfly turned her attention back to the sky, and pointed her little finger at the chaotic sky: "There are many amazing and delicious things, but it's a pity that Fluttershy can't go now. It's dangerous and will eat her stomach. ~"

"..."

The three of Li Yun made a toad, almost speechless.

What is very dangerous to ordinary people, in the eyes of your little butterfly, is it just food?  
n/o/vel/b//in dot c//om

Li Yun convinced his daughter, really.

When he first saw Black Feather Butterfly, she just ate her own eggshell.

When she was shocked by her ability to eat for the second time, she bit the sun, moon and stars formation that imitated the exquisite Brahma.

It can be said that the "brutality" of Black Feather Butterfly is beyond the scope of ordinary people's understanding. Even the rules of heaven and earth created by the ancient power, she seems to be eager to try and want to devour it.

Of course, not now.

"Fluttershy, don't eat indiscriminately!"

Li Yun patted her little head. If this little guy rushes to eat here, I am afraid that something will happen. If the world is eaten up, Li Yun will have nowhere to run.

"Yeah, Fluttershy will not eat randomly~" Hei Yudie is getting smarter and smarter, even speaking with three points of cunning and coquetry, "I am a clever daughter, not the idiot of sister Xiaojiao, nor is it That little lady... hee hee."

Li Yun couldn't laugh or cry. He didn't know how Hei Yudie and Shan Xiaoxiao talked, and they all learned to hide things.

"Well, you go back first. It's not appropriate to stay here."

Li Yun told Black Feather Butterfly to go back quickly. Fortunately, her daughter was still very obedient when she grew up. She obediently disappeared and returned to the Lotus Immortal Mansion again.

The three-eyed toad lying on the ground hesitated for a while, and finally croaked and rushed into the gray crack on the ground as if he was dead.

Chapter 3424: Icy

Fortunately, everything is normal.

In less than half a minute, the three-eyed toad rushed back, croaking excitedly, as if saying, everything is normal outside, this entrance can enter and leave the world at will!

Li Yun nodded and took the Three-eyed Toad back. The latter was eager to leave the world created by the power soon. Even if it seems to be a world no one controls, it doesn't want to stay longer and whizzer. He disappeared and escaped into the Lotus Immortal Mansion.

Li Yun froze, it seemed that he hadn't accepted this toad before it could get into the fairy mansion.

It can be seen that for the Three-eyed Toad, the barrier of Lotus Immortal Mansion is not difficult to break through.

This is a hidden danger. It seems that the Lotus Immortal Mansion was really imitated by later generations, not made by the ancient Guanyin, but by later practitioners imitating the Nanhai Guanyin.

"It would be great if I could strengthen the Lotus Immortal Mansion."

An idea flashed in Li Yun's mind. The Lotus Immortal Mansion is of great significance to him. At present, it is also a place where Li Yun and his daughters can be called home, and it can even be said to belong to him and the girls around him. A paradise where Li Yun can play around with them as much as he and Nie Xiaoqian were tumbling around by the lotus pond before, no need to care about anyone's gaze.

Therefore, if possible, Li Yun intends to turn the Lotus Immortal Mansion into a golden paradise. In the future, wherever he goes, he will have a cave mansion with him, and Fang Xue and the others can enter it at any time.

Naturally, in order to strengthen the Lotus Immortal Mansion, which is already a colorful level, Li Yun must continue to explore ancient secrets before the system will give him rewards!

"Let's go, let's go out and have a look!"

Li Yun was the first to enter the rift, followed by the two women, and did not let him take the risk alone.

There was a suction, and Li Yun's eyes suddenly became blank, and then he felt cold and bitter, and a level seven or eight wind roared. It was so cold that a practitioner like Li Yun with spiritual fire felt a tremor. And know how cold it is here!

"Where is this?"

Li Yun looked around in surprise. When he was in Tianxue Palace, Xueshan Village was already in the north, and the temperature was as high as minus 20 degrees, but even in Tianxue Palace, he did not feel so cold.

But here, Li Yun felt like he was back when he was a child. The winter at that time was really unforgettable. He and Li Feng walked to school under the rain and snow. The journey of just over ten minutes could freeze their faces. a feeling of.

And now, Li Yun has this experience again!

"Indeed, it's cold."

Another very cold proof is that even the Sage Fan Qing who speaks very little said in a slightly trembling voice, which is enough to show that she is also cold.

"where is this place?!"

Li Yun, whose boyfriend was full of energy, immediately ran the fire, letting the power of the spirit fire dispel the surrounding cold.

Unexpectedly, even if the faint light of fire from his body illuminates the surrounding ice and snow, it could not dispel the terrifying chill. Before, the flames were almost unharmed, as if suppressed by the surrounding ice and snow, the tortoise shrank in Li. Around the cloud body.

Cold, except cold, still cold!

"This is an ice cave!"

Fan Linglong quickly reacted.

Li Yun looked over his head, and sure enough, there was a faint light on the top of his head, and a crack let in light.

#### Chapter 3425: Buried

Li Yun, who was in the ice cave, took a closer look at the surrounding area, and found that there were all pieces of ice, illuminated by the firelight, giving off a crystal-clear light, but on the contrary, it made people feel more and more icy.

There is almost no place to call it warm.

The roaring wind and snow screamed, and the ice cracks underneath were not bottomed, but judging from the cold wind above the head, the ice cave seemed to be connected to another exit.

But in this way, this ice cave has become a place where the upper and lower sides are connected, and the squally wind keeps blowing, making it increasingly cold.

"Where is that man?"

Li Yun increased the heat from the fire, but he could only dissipate some of the chill, but could not melt the surrounding ice.

The weird phenomenon naturally attracted Li Yun's attention, but now he can't take care of so much, first find the man who escaped.

Even practitioners like Li Yun and Fan Qingsheng feel cold. When ordinary people come to this ghost place, they may not be able to freeze into a popsicle in a second, but the man is nowhere to be seen. Li Yun can only speculate that he is also a supernatural person. , In order to resist one or two.

"I'll go down and look for his body, you go up and have a look!"

Fan Linglong made a decision quickly.

If the man who escaped fell into the ice cave, there is only one possibility: death.

Other than that, there is no other possibility.

This horrible place can freeze the Void Returning Realm not lightly, and the person with the supernatural power will have to die if it falls.

"Linglong, you..."

"Don't talk nonsense, I'm not such a weak person!"

Fan Linglong urged that she was not the women around Li Yun, she was a dignified soul-bright monk, a figure who had lived for hundreds of years, and now she returned to the outside world. She was afraid of a small cave?

"Okay, be careful, and come out if you see something wrong!"

Li Yun nodded, and flew away with Fanqing Shengwai cave.

Fan Linglong took a deep breath and drilled into the ice cave.

It was just inexplicable, she felt a palpitating heart, in a daze, she vaguely saw a bright light, and then, she entered...

"Li Yun, Qingsheng, don't...this...random space...wait for me to go back!!!"

Li Yun and Fan Qingsheng, who were on the ice, heard Fan's exquisite and vague shouts just as they stood still.

Before Li Yun could react, the ice and snow under his feet gave a violent tremor, and then rumblingly collapsed. Li Yun's pupils suddenly shrank, and he raised his hand to draw the Leap Fire God Sword, facing the ice and snow under the collapsed feet. Hit hard.

Rumbling.

Before the ice and snow collapsed, Li Yun could only watch the rumbling collapse of the ice layer under his feet.

Swallow Fan Linglong into it.

"Disappeared?"

"how is this possible?!"

"how so?!"

"No, it's impossible, Linglong, Linglong!!!"

For the first time, Li Yun felt the pain of losing the people around him. He has always been in a smooth sailing state since he acquired the system. Even the most dangerous Penglai Island was only threatened by the immortal. If you want to go, you can go anytime.

But now...

Fan Linglong clearly told him not long ago, let him stop talking nonsense, and quickly divide the troops into two roads.

But now, but... in a blink of an eye, it was buried in ice and snow.

Can the strong in the soul and light realm be in...

"Li Yun, Master is okay!"

Sage Fanqing grabbed him and said hurriedly: "Master sent me news, she's fine, don't be nervous, don't..."

Chapter 3426: calm

Seeing him so gaffe, the voice of Sage Fanqing couldn't help but anxious, and said these words in a hurry.

".....it is good!"

Li Yun calmed down. It was inevitable that he would be a little gaffe when he encountered such an urgent matter for the first time.

But the more flustered and angry at the moment, the more useless, Li Yun forced himself to calm down, and asked in a deep voice: "Qingsheng, you just said that Linglong can still contact you?!"

"Yes."

Fan Qingsheng nodded earnestly, "Master and I placed a share of the soul on each other, so that if I encounter any danger, the master will know me immediately, and she can use the soul clone to create a chance for me to escape in the hidden sacred valley. On the contrary, I can also know the situation of Master, she is still safe and sound, and there is no irresistible danger."

Most of Li Yun's heart was relieved. Qing Sheng is not a person who likes to joke. She can say with certainty that the master is fine, that is, it is fine.

"When I was in danger just now, Linglong also sent you a message?"

"Well, what Master encountered was spatial turbulence."

Fan Qingsheng explained to Li Yun that the so-called spatial turbulence was only after she saw it in ancient books.

Practitioners in the past were able to open up a cave, divided into small worlds to live alone. Of course, those caves were no better than the chaotic world that Li Yun and the three had entered, and could not modify the rules of heaven and earth.

But it is still an existence like heaven and earth.

Space turbulence refers to the phenomenon of time and space chaos caused by the collapse of the heaven and the blessed land. It is possible that people can cross several kilometers away with one step, and the ancient magic of shrinking the ground should be used. Famen.

Li Yun analyzed and said: "According to Qingsheng, the chaotic crack below collapsed, and the space turbulence involved Master. Is she now in an unknown space, or is she still in the earth?"

"No." Fan Qingsheng shook his head, "Master encountered danger under the ice cave. It was not the spiritual qi rift that collapsed, but another thing."

Another thing? In addition to the entrance and exit of the Chaos World, is there another place? !

"If I can go down... wait, I'm stupid!"

Li Yun patted his head, holding the Leap Fire God Sword, wishing to give it to himself, he was really concerned and confused, and even forgot that he had the ability to get in easily.

"Qingsheng, wait for me here, I'll go down and take a look!"

"it is good."

Sage Fanqing nodded, and then he saw Li Yun's figure transform into nothingness, escaping into the ice.

This is the ability brought about by his innate physique. Sage Fan Qing already knows it, but he didn't remind him just now, because he was afraid that Li Yun would rush down recklessly and encounter the turbulence of space like Master.

"Master, it's okay."

Sage Fanqing once again checked her master's share of the soul in her own knowledge. What she didn't tell Li Yun was that even if the master's body dies, the master can be reborn with this segment of the soul, but it needs to be nourished. It's a long, long time.

Moreover, this part of the separation of souls was left by the previous master, and after rebirth, she may not remember Li Yun anymore.

So it's better not to die if you can't die.

five minutes later.

"No, I can't find it!"

Li Yun drilled out of the ground and shook his head: "The ice below has completely turned into a collapsed layer of ice. The entrance to the chaotic world and the turbulence in the unknown space below have all disappeared!"

Chapter 3427: To Antarctica

Even the entrances and exits of the chaos space where the three of Li Yun came out are gone, showing how wide the scope of the chaos affected just now.

But the point is that Li Yun still doesn't know whether the entrance and exit of the world of chaos collapsed, or a gap in the space below the ice cave that I don't know what it is!

It can only be certain that there are more than one weird phenomena in this ice and snow world. Of course, it may also be the existence of a certain ancient relic, which has a large impact on the surrounding world.

"Um."

Sage Fanqing nodded again, seeing Li Yun frowning, and said: "Don't worry, Master is okay, she is fine."

Now I can only comfort myself like this.

Li Yun didn't say this, and took a deep breath: "No matter what, we must find Master as soon as possible!"

"Um."

"The first question is to determine where we are now."

Li Yun and Fan Qingsheng have obviously returned to the earth. You don't have to look at any other evidence, and Li Yun can see from the signal of only two bars on the satellite phone by taking out the mobile phone.

"This is... Antarctica!"

Li Yun clicked on BDS, which is a Beidou satellite navigation system independently developed in China. Similar to GPS, Li Yun's identity is already quite special. Therefore, in order to prevent the penetration of foreign forces, foreign products have never been used, including global positioning. The system is the same.

On his satellite mobile phone map, he and Fan Qingsheng were already in the middle of the Antarctic. No wonder it was so cold.

"No, even Antarctica can't be so cold!"

Li Yun quickly concluded, "Just now because of the entrance under the ice cave caused the abnormal cold, Qingsheng, what do you think?"

The lowest temperature in the Antarctic continent can reach minus seventy or eighty degrees. After entering the Aura Age, the violent snowstorms on the Antarctic continent have become more intense, and even the temperature has dropped a lot. According to the news that Li Yun occasionally saw, because of the influence of the Aura, The lowest temperature detected on the Antarctic scientific research station has reached a negative one hundred degrees. The extremely extreme weather has forced many research stations in the middle of the Antarctic continent to retreat and give up staying in the middle of the continent.

Even if you dare to stay in the middle of the Antarctic continent, you will definitely need to reinforce the fortifications. It is best to equip a number of powerful abilities to deal with emergencies.

The current Antarctic continent has become the same extreme environment as the Amazon rainforest, the Sahara Desert, and the Arctic. It is extremely dangerous and ordinary people will never come here.

"The aura that escaped caused an abnormal cold."

Sage Fanqing expressed his opinion, "I just don't know whether it is the entrance and exit of the spiritual world or the turbulence under the ice cave."

Li Yun nodded. The trouble now is that there are two abnormal things in the place where he came out just now. One is the entrance to the small world of chaos. This entrance is very similar to the spiritual rift between the Hidden Sacred Valley and Liudaomen; the other is In the space below the ice cave, Fan Linglong was the space turbulence encountered only after entering the ice cave.

"Look for it." Fan Qingsheng took the initiative to make a suggestion. "Space turbulence is often not a single occurrence. It is the result of the collapse of a cave. Master may be inside."

"Do you think it will be another gate of life and death? Or something else, similar to the ancient ruins where the young girl is?" Li Yun asked her again.

"Both, possible."

Li Yun finally felt relieved and figured out the cause and effect of the incident.

Chapter 3428: Complete in and out beads

To put it simply, an ancient ruins entrance or another gate of life and death also appeared on the Antarctic continent. Coincidentally, the entrance to the small world of chaos and the entrance to the ancient ruins appeared together in one place. When he came out, Fan Linglong chose to enter the ice cave, perhaps breaking the entrance of the ancient ruins, which caused a turbulence in the space and involved Fan Linglong into an unknown space.

There was no accident in the separation of the soul of Fan Linglong in the sacred consciousness of Fanqing, which can prove that her body did not encounter any disasters, but was trapped in a certain space and could not get out for the time being.

"What I am worried about is," Fan Qingsheng looked at Li Yun, "Even if we find another rift in space, we will not be able to bring Master out."

The ancient cultivators were extremely powerful, and if the things they left behind were a powerful cave mansion barrier, Fan Linglong might not be able to break it.

"Don't worry, there will be a way!"

Li Yun confidently said: "My innate womb can ignore most of the barriers. As long as we find another rift that leads to the space of the master, we can enter it. No matter what, it's a big deal. I will personally invite the young girl. She should have a way!"

The strength of the young girl does not need to be said.

After thinking about it, Li Yun called her directly, but the system prompt just sounded.

"Ding, the host makes a choice to find the most unusual place in the Hidden Sacred Valley, completion: 80%, reward: all attributes +80,000, purple gift bag \*80, the entrance and exit of the cave can be upgraded to the full version (after touching

Li Yun's spirit was lifted. This selection event was quite early, and now it has finally been completed. It represents one of the most unusual places in the Hidden Sacred Valley. It is indeed the entrance to the Chaos World, that is, the Hidden Sacred Valley and the Six Gates can last for thousands of years. The secret of the world: the energy in the chaotic world continuously releases aura, and it may even be the source of the aura on Penglai Island. The seven gates of life and death around the world are all leading to the chaos world!

He was rewarded with 80 purple gift bags in one breath, which made Li Yun a sigh of relief. He hadn't seen a gift bag below purple for two or three months. He didn't think it before, but once the thing was gone, Li Yun found out that the gift bag was opened. The various small and medium-sized elixirs of Li Yun are too effective. If the source is cut off, Li Yun, who is accustomed to knocking off elixirs, really can't get used to it.

Fortunately, after he once again embarked on the path chosen by the system, which was also the goal that Li Yun was pursuing, the gift bag was distributed normally.

"Dongfu in and out of beads (complete)

Special effect: set door for Lotus Fairy House

Skills: sturdy (passive), consumes aura (you must consume aura to enter and exit the cave, and the consumption increases depending on the distance from the entrance of the fairy palace) 1000 kilometers = 1000 aura.

Note: It can be set as the entrance and exit of Xianfu.

Another surprise is that the pearls that can only choose to enter and exit from the cave are now upgraded to the function that allows them to enter and exit at will. This means that Li Yun can completely upgrade the beads in Zhonghai City and Jingcheng, and let Gong Qingyu and Fang Xue and others, or Hu Xiaomeng and Zhao Tianfeng in the capital, can enter the Immortal Mansion at any time and wander around in the Lotus Immortal Mansion with him... No, it's not the time to think about this!

Li Yun forced himself to calm down. These things will be discussed later. What he wants to solve now is to find Fan Linglong and rescue her safely!

"Qingsheng, let's look around, first..."

"Ding."Nôv(el)B\\jnn

The system prompt sounded again.

Chapter 3429: Research station

"Ding, trigger the option event, please choose from the host:

Option 1: Find Van Linglong within three days. The shorter the time, the more generous the reward.  
Reward: To be determined.

Option 2: Turn around and leave, reward cold-blooded and ruthless, the host evolves into the ultimate cold-blooded person. "

Seeing the prompt from the system, Li Yun couldn't help but smile. Choice two is to make up the number. The one that really works is choice one!

Moreover, the system also reminded him indirectly that in the next three days, Fan Linglong will not encounter anything, but not necessarily after three days.

Therefore, the time given to Li Yun is three days!

"What's the matter?" Fan Qingsheng looked at him.

"No, nothing, but I got... some hints!"

Li Yun flew up into the sky, and Sage Fan Qing followed him. The two figures looked like a pair of gods over the white Antarctic continent, looking down on the ice and snow land below.

"Go, let's find it!" Li Yun said: "According to the abnormal situation before, it is very likely that the area around the fissure in another space will also be very cold. Let's search for the cold surrounding places first."

"it is good."

Sage Fanqing agreed, and she didn't know how to find the master, so she could only try her luck. Now in the Antarctic continent, even if she was looking for someone, she didn't know how long it had been before someone came.

The two flew quickly over the Antarctic, looking for all possible traces.

Li Yun had thought of the man who had escaped before, but unfortunately he didn't find any traces, and didn't have time to find out if there were any remaining footprints, so he could only give up temporarily.

...

night.

"Take a rest, Li Yun!"

Fan Qingsheng shouted at Li Yun floating in the air in the distance, and searched for nearly ten hours. The two saw at least seven or eight scientific research stations, but they only landed and asked if there was any abnormal coldness. After getting the answer, Li Yun and Fan Qingsheng quickly took off and left, leaving a group of scientific workers staring at each other.

Powerful people have spread all over the world from Penglai Island, and even the Antarctic continent has powerful power people. They can fly fast over the mainland without fear of wind and snow, withstand the bitter cold, and don't know what to search for in the Antarctic continent.

The staff of these scientific research stations from all over the world don't know the identity of Li Yun and Fan Qingsheng. They only know that they are Asian. After all, Li Yun speaks authentic English and can't tell what country they are from.

But they all know that there seems to be some treasures that are worthy of the interest of powerful abilities in the Antarctic continent, or ancient relics, or monsters, or ice and snow spirit plants that can increase the amount of supernatural powers after eating, etc. , It's possible!

Because of this, the news of the appearance of treasures on the Antarctic Continent soon spread in various countries and was known by some people connected with the research station.

"it is good."

Li Yun glanced at a camp not far away and landed.

There was no abnormal expression on his face, neither anxious nor relaxed.

Within three days, he had to find Fan Linglong, there was no other possibility, and it was useless to rush.

"who?!"

When Li Yun and Fan Linglong approached this scientific research investigation base shining in the snow, they were greeted by a loud English shout, and then several submachine guns were aimed at him.

"Um?"

Li Yun's mind swept away. In addition to the four or five sturdy men with submachine guns on the surface, there are also several rocket launchers and heavy machine guns from the hidden place of the inspection station, aiming the sights at him and Fan Qing. Saint.

Chapter 3430: stranger

This is a research station?

There was a playful expression on Li Yun's face.

As the two poles of the earth, the north and south poles are covered with thick ice and snow all year round and are not suitable for human habitation.

Therefore, the Antarctic and Arctic are unanimously recognized by all countries as a permanent peace zone. No country may declare possession of the Antarctic and Arctic. Any nuclear leak or missile explosion on the Antarctic and Arctic is also prohibited to prevent the thick ice layer from being broken and drifting away with ocean currents. In the sea, the tragedy of the Titanic happened again.

Therefore, most of the more than 100 scientific research stations in Antarctica are equipped with simple weapons. After all, no one will go to the North and South Pole to rob, and guns will prevent some polar bears, Antarctic bears and the like.

"who are you?!"

A burly man stood in the building, which was suspected to be a scientific research station, wearing a simple leather jacket, carrying a one-meter-long medium-sized machine gun in his hand, with strong muscles exposed in his chest, especially eye-catching in the snow and ice environment.

This dress is exactly the same as some muscular men in the game!

"I... and my girlfriend are from Huang Xuan country!"

Li Yun reported his history and simply compiled a name called Li Si-the nickname of the famous Li Shimin.

"Huang Xuan countryman?"

The sturdy man shook his heavy machine gun a few times. The muzzle was always pointed at Li Yun and Fan Qing Sheng. He looked up and down a few times. After seeing the beauty of Fan Qing Sheng, his eyes flashed with amazing and greedy colors, but it was very Hurry up.

"Yes." Li Yun nodded lightly.

Now he is begging others, and he is also an accidental visitor. It is normal to be pointed at by the muzzle. He can't say that he will jump into thunder when he is pointed at by the muzzle, saying that Li Chaoren should not be insulted.

"Are you supernaturalists?"

The big man asked again in English.

Being able to walk on the Antarctic continent in the middle of the night, even if it is not the center of the continent, can show that they are not ordinary people.

In addition, Li Yun and Fan Qingsheng also rarely wore them. They simply put on a coat, their cheeks were not wrapped, but they were not red from the cold, which can already explain the problem.

"Yes, just like you."n/o/vel/b//in dot c//om

Li Yun still nodded faintly. This big man can wear a simple leather jacket in the snow, open his chest, and hold a heavy machine gun, which proves that he is also a superpower.

And the level is not low, there may be B level or higher, according to Li Yun's previous classification of the ability.

"Alike me? What are you, dare to say that you are like me, F\*ck!"

The brutal man casually came out with a sentence of "f\*ck". For foreigners, this word appears too frequently, especially some black people. Eight words out of ten sentences are f\*ck.

Li Yun smiled, "If your mouth is still so dirty, then I will indeed be different from you. Then I will be a living person and you will be a dead person."

".....what?"

The sturdy man was circumvented by Li Yun's curse, and he couldn't react for a while.

"Nothing." Li Yun said lightly, "By the way, we want to spend the night here tonight, after all, you see." Li Yun pointed to the starry sky above his head. Walking in the wind and snow is also very difficult, so my girlfriend and I want to stay overnight..."

"Borrowing? No way!"

The big man interrupted Li Yun and waved his hand in disgust, "This is not a hotel, no other people will be taken in!"
