

Godly Choice 3431

Chapter 3431: Camp

Li Yun was surprised: "In Antarctica, are there other places besides scientific research stations? Shouldn't the research stations be eager to help others?"

This is true. In extremely cold places like the North and South Poles, the staff of the research station will lend a hand when they encounter injured penguins, let alone meet people.

"You control us!"

The sturdy man used his muzzle instead of words, "Stop talking nonsense, get out of here, and let you see the power of supernatural beings and modern weapons!"

The ability person is very powerful, but no one will think that he is more powerful, so many ability persons will find a way to get a gun, and with strong physical ability, they will often play the effect of one plus one greater than two.

Li Yun nodded slowly, "In other words, you are not a scientific research station here, right?"

"Humph!"

The sturdy man didn't answer any more, he snorted coldly, and his subordinates closed up unkindly.

"Give you a choice, go away, or stay!"

"Then I'll go."

Li Yun did not choose to break in directly. Although he and Fan Qingsheng are strong enough to run rampant in any power organization and destroy all their resistance, it is still unclear how to say it. In addition to Fan Linglong's affairs, it is not worth doing directly. .

"and many more!"

It was just that Li Yun and Fan Qingsheng turned around, and when they wanted to leave here, the sturdy man stopped him again.

"Um?"

Li Yun even wondered if this big man wanted the woman to stay, he was just getting out of the way.

"Bring me back!"

The sturdy man moved his muzzle, his eyes faintly guarded: "Until you know who you are, you are not allowed to leave here! Come in and wait for me to report to the boss."

He still used his gun to signal Li Yun to enter the house.

Li Yun and Fan Qingsheng glanced at each other, neither of them spoke, and walked directly in.

When I stepped into the gate, the wind and snow disappeared, and warmth came to my face. If Li Yun were an ordinary person, he would already be so warm that he didn't want to move.

After walking for so long in the wind and snow in Antarctica, it is not easy to find a place to cover the wind and snow.

"You are so courageous, are you very powerful abilities?"

A beautiful blond woman with an enchanting figure and a snake tattoo on her neck yelled to Li Yun. Obviously, Li Yun and Fan Qingsheng dared to enter the gate, which proved that they were not afraid of these guns and rockets.

"generally."

Li Yun replied faintly, and said to the blonde and tattooed beauty.

"I don't think it's normal." The blonde beauty analyzed, "You can walk on a snowy night, and you are not disappointed when you are refused entry. It proves that your ability allows you to spend the night in Antarctica easily, right?"

Even with a tent and a thick sleeping bag, it is difficult for ordinary people to spend the night in the icy Antarctic, because the body is not warm at all and it is deadly cold.

"Correct."

Li Yun answered her again.

A group of people didn't know what to say. When faced with two potentially powerful people with supernatural powers, they knew how powerful these people were. Once they started their hands, the number advantage and gun advantage simply didn't exist.

"I'll take you to find a room. My name is Lisa. Hello."

The blonde beauty winked at the sturdy man and told him to find someone quickly. She would hold Li Yun first before speaking.

"Hello."

Li Yun smiled again.

His spiritual mind has already figured out this camp. It is very new. It may not have been built for more than two months, and there are no scientific instruments. They are all rooms for people to live in, or storage rooms for storing food.

Chapter 3432: I am Li Chaoren

Under Lisa's leadership, Li Yun and Fanqing Sheng entered this camp.

Although Li Yun has seen something wrong here, and the people here have also seen that Li Yun and the two are not good at coming, the two sides still did not do anything. They were wary of each other, which looked quite interesting.

Li Yun was very calm, and the Sage Fanqing didn't even lift his eyelids--the Lord Saint was originally Gu Jing Bubo's expression, and there were few waves.

"Mr. Li, please take a break here. If you want to take a hot bath, I will make arrangements for you."

The blonde beauty is very enthusiastic, at least on the surface, "By the way, I will send you hot food again, I hope I don't dislike it!"

"No, no, thank you too late."

Li Yun knows that this is not normal, but in any case, you should express some gratitude for helping you before others offend you.

"Yes, it should be." The blonde girl is obviously not comfortable with this kind of dialogue. Both sides know that the other party's background is abnormal, but they can't turn their faces right away. They have to make a friendly dialogue, which is unspeakable.

"Ding, trigger the option event, please choose from the host:

Option 1: Leave after eating, continue to look for clues, reward purple gift bag*2, experience value + 5 million.

Option 2: Leave immediately, stay shortly, and reward a white gift bag*5.

Choice 3: Stay here, find out why the group built a camp in Antarctica, reward golden gift bag*3, all attributes +1 million, experience value +30 million. "

Seeing the system prompt, Li Yun felt nostalgic again. The white and purple gift bags had not been seen for a long time.

However, he does not intend to choose purple and white, but gold!

"Miss Lisa, don't rush to eat in advance."

Li Yun smiled at the blonde beauty, "May I ask you a question?"

"Wh, what's the problem?"

Lisa became wary, this is Li Er, or is Li Si's guy an 8th-level ability? Even if you are not afraid of entering their camp, you must have some certainty, even someone sent by a hostile force!

"That's right." Li Yun paused, staring at her eyes tightly: "What I want to ask is, is there a very cold area near here that makes it difficult for the supernaturalists to resist?"

Lisa's pupils shrank suddenly, and although she recovered quickly, Li Yun still caught the change in her expression.

"You know that, right?"

With a majestic low voice sounded, Lisa felt her chills stand upright, and looked at the man sitting in the chair in front of her in disbelief.

He seemed to have grown from a harmless, sunny boy. He suddenly turned into a crawling, roaring tiger after hearing some ice-cold area nearby, and he was about to rush to bite him at any time.

"I, I don't know what you are talking about!"

After regaining her consciousness, Lisa firmly denied it.

Li Yun calmed down and said to her indifferently: "I don't care whether you know it or not. I will give you half an hour. If you take me to that very cold place, I will give you some rewards. Otherwise, I will Use your own means to find out the whereabouts of that place!"

After speaking, Li Yun took out several plates of steaming food from the space ring, including chicken, duck, fish, and fragrant rice.

Lisa was frightened again, and blurted out: "Are you a space supernatural person?!"

Li Yun smiled, "No, I am...Li Chaoren!"

"what!?"

Chapter 3433: Smith

Camp center.

The boss of the Doorn Club, a mulatto voice supernatural person, Dan Smith, and the other members did not change his face after hearing Lisa's hurried report.

"Lee...Superman?!"

A curly-haired black girl was full of stunned expressions, "Lisa, are you sure it is him?! Isn't he called Li San? Why suddenly became Li Chaoren again?!"

Li Chaoren's status no longer needs more words to describe. The world's strongest person is also the only person who has been rated as a level 10 superpower. With one person, he protected a cruise ship from a large number of ocean monsters. Entering Haowei Island, breaking through the heavy fog, saving millions of people, and opening up the age of gods-foreigners also call the age of spirits the age of gods, thinking that ocean monsters and Biyou Palace are from ancient times The gods, including gods and gods like Satan, are about to return.

Because of this, foreign churches that believe in **** God, including the Eastern Orthodox, Rome, the New Church, and Ess, have seen a surge in their number of believers, and a certain papal country has once again had a tendency to disturb the world situation. Tens of millions of followers followed, and many became fanatics, believing that the end of the world is coming, the gods will return, and only by faith in God can we avoid disasters and so on.

Of course, none of this has anything to do with Huang Xuanguo. Huang Xuanguo's beliefs are about utilitarianism. You give me benefits, and you bless me, and I believe in you. Otherwise, I will get rid of him.

Huang Xuan's Buddhism and Taoism-related beliefs have even merged together. When the old people in rural areas die, there will even be weird pictures of people wearing robes but chanting Taoist scriptures. Taoist priests and people wearing robes come to do things for the elderly at the same time. People in the countryside are not surprised.

"He said, he, he is Superman Li..."

Lisa's voice stammered. In the Menn Club, too many people were trapped in Haowei Island by the fog at the time. The picture of Li Chaoren using the flames and swords to bloom in the thick fog is still deeply reflected in their minds. It didn't dissipate for a long time.

Therefore, when Lisa heard that the man was Superman Li, she was shocked for a long time before she stumbled to find Smith.

"Lisa, calm down!"

The mulatto Smith spoke in a deep voice. Before being the boss of a superhuman organization, Smith was an executive of a large company. That day, Weiyi Island changed drastically, and he was also on vacation on the island. Similarly, he was also the No. 1. A group of people with abilities.

"What kind of evidence does he have?" a big man with a metallic shiny skin, like an iron man poured from gold and iron, yelled, "Furthermore, what about Superman Li? I, Bart, is also a world leader. There are a few eighth-level, almost ninth-level abilities, what that guy was able to do at the time, I can do it now!"

"Shut up." Smith yelled coldly: "Li Chaoren was enough to be rated as an eighth-level abilities a few months ago, and his current strength must be even more unfathomable. If you talk more, get out of here!"

Sound abilities are one of the few abilities that can restrain metal abilities to death, because the transmission of sound cannot be blocked by entities at all. No matter how strong Bart's metal body is, Smith can directly give his internal organs through the vibration of the sound. Shattered!

Therefore, Bart, the lawless eighth-level ability, was willing to be the second person in the Menn Club.

Chapter 3434: Doorn Club

After drinking Bart, Smith looked at Lisa again: "Tell me the whole story, from his performance after he came in, to how he suddenly said he was Superman Li!"

"Yes, BOSS!"

Lisa carefully described what happened after the Li Chaoren came in. When he said that he suddenly asked where the cold area was, the expressions of everyone in the camp meeting room changed.

"Damn it, SHIT, I knew it!"

Bart stood up abruptly, gritted his teeth and stared out, "This guy is not Superman Li, but someone has leaked secrets. This must be someone from another supersonic organization. I will punch him. Head shattered!"

"Sit down for me!!"

Smith stopped Bart again, and asked Lisa: "He has space power?"

"Yes."

"Fuck! What space power, I think it is illusion, Lisa, you must have read it wrong!"

"Shut up!"

Smith asked again: "Is there a woman beside him?"

"Yes, yes." Lisa said nervously, "Is a very beautiful and beautiful woman with a cold temperament, just like a goddess, no, no, not the British queen Alice, but another kind of high Cold goddess!"

There was silence in the conference room, and even Bart was silent for a moment.

Smith knocked on the table, and after a long while, he said: "According to some information obtained, when the palace of the gods on Penglai Island appeared on the same day, Li Chaoren was also surrounded by a very cold, barely speaking beauty. Say....."

Everyone in the meeting room was even more silent.

"FU*K!" Bart stood up abruptly, "What about Superman Li? We Menn will have more than a hundred supernatural powers. Even facing an army of ten thousand people, we can easily win. They directly attacked the beautiful country's base camp on Haowei Island. They didn't dare to put one fart. They could only find a level 8 and ninth level ability to deal with me. Would I still be afraid of him?!"

The tense atmosphere in the meeting room has only eased a little.

The abilities of the boss of the Menn Club, Smith, perfectly restrained Bart, but it is by no means that the strongest combat power of their Menn Club is the president.

In fact, Bart, who has the ability to metalize his whole body, could not fall into the wind even in the face of ninth-level elemental abilities. The woman known as the phoenix could only run away for her life, and she did not dare to get close to Bart. The distance of meters.

Otherwise, the derived ability of Bart's metal ability: Gravity, can draw the ninth-level ability alive, and if one possesses it, he can use his hands to hoop her alive!

"Shut up."

Smith stood up, "No matter who the other person is, we have to figure out why the other person is here! Bart, you will not speak later, let's find out for ourselves."

Bart sneered, not knowing what he planned to do.

The group left the conference room and came to the door of two uninvited guests from Huang Xuanguo. Lisa personally went forward and knocked on the door.

"Come in."

Li Yun said calmly, looking over Lisa and looking at Smith, the temperament of being the boss is always different from others, and people can recognize it at a glance.

"Are you the owner of this camp?" Li Yun smiled faintly, "My name is Li Yun, maybe you don't know who I am, but believe me, I came with a sincere intention of cooperation. If you choose to tell me, that Where is the cold land, I am willing to provide you with what you want!"

Chapter 3435: Metal Man, Bart

It is naturally best to not fight.

Otherwise, if you encounter a hard-core person and refuse to tell the whereabouts of that place, Li Yun's rude behavior will only bring irreparable consequences.

"Uh."

Smith and others were obviously taken aback by his straightforward behavior.

"You are Superman Li?!"

Bart twisted his fist and walked slowly. Almost every step he took, his body would turn into a silvery white direction. When he entered the room and stood less than two meters away from Li Yun, Bart's whole body was already Completely transformed into silver-white metal, the bright material makes him look like a Terminator who has traveled back from the future science fiction world, and the entire room exudes unimaginable pressure!

"This is the nickname given to me by others." Li Yun smiled faintly, "I personally don't like the foreigner's Superman nickname. Of course, it's done, and I don't bother to change it. Just call me Li Yun."

"in addition."

Li Yun slowly stretched out a finger, facing the silver-white Bart, calmly said: "I know you may be very unconvinced, but I came with a friendly belief and don't want to fight, but since you If you want to learn from each other, then I will satisfy you too!"

"you think?"

Patna's eyes, which had turned into metal balls, stared a bit wider, and he vaguely guessed Li Yun's intentions, this guy...

"Correct."

Li Yun smiled, "I see how powerful you are, then come and compare your strength with me. If you can pull me up from my seat, I will leave immediately without saying a word, and openly admit, Li Chaoren Lost to... what is your name?"

"Bart! Metal man, Bart!" the silver-white burly man shouted in an arrogant tone, as if he had seen the picture of Li Chaoren surrendering.

At that time, he will replace Superman Li and become Superman Bart!

"...Admit that Superman Li lost to Bart, the metal man."

To be honest, Li Yun didn't want to waste time on these ***** things at all, he just rushed to Linglong.

But he is not a psychic, and there is no guarantee that these people will speak out, so for insurance, I still move my fingers to let them know what the difference in strength is.

"Okay, very good!" Bart laughed, and after a while, suddenly asked: "What did you just say? How do you beat you?"

"Let me get up from the chair."

"Oh, let you get out of the chair...FCUK!!!"

Bart finally reacted, his anger almost overturned the camp, his voice rumbling loudly: "You say it again?!"

"that's it."

Li Yun stretched out an index finger and smiled faintly: "No matter how many people you come, no matter what methods you use, any powers or abilities, as long as you can make me stand up or make me move, even if you win!"

He actually wanted to stretch out a middle finger, but considering that this action was rather inelegant, and it wasn't at night to mess around with Fan Linglong, the **** was fine.

Sage Fanqing was still holding chopsticks in her hand. She hadn't spoken, and she didn't know if she should continue the meal or if they could finish the fight.

Everyone in the Menn Church was frightened by Li Yun's arrogant tone.

".....good very good!"

Bart clenched his fist tightly, his eyes were fierce, and he turned his head and said to Smith: "Boss, you have also seen it. This guy is looking for death by himself. This can't blame me. Today, no one can stop me!"

Chapter 3436: beat

Those familiar with Bart knew that he was angry.

And it is necessary to vent the monstrous anger of anger.

The last time Bart got angry, he was in the station of the beautiful country, in front of soldiers from various countries, thousands of soldiers armed with heavy firearms, including more than a thousand SEALs, forced the beautiful country on the island of Haowei. The resident location was abruptly smashed, and the reputation of the metal man Bart spread all over the world in an instant.

Because of this, the Menen Society was forced to leave Penglai Island to search for treasures in the Antarctic continent.

But now, the big boy in front of him, who is very weak compared to Bart, said that blocking him with a finger would make him stand up and move even if Bart, the metal man, loses?

"Go to hell!!!"

Bart ran the metal abilities crazily, and the room became extremely violent in an instant, and countless metal twists and deforms, like water droplets, gathered and flew on his fist, forming a huge black iron fist.

After that, he punched it hard!

The Menn Congregation had already dispersed, letting Bart make his best effort, they even prepared half of the camp to be blown to the ground.

Unexpectedly, he punched out, but there was no sound.

Covered by countless black metal like flowing water, the Bart Iron Fist, which is the size of a basketball, is like a patient fighting, soft and powerless in the air.

Can't be surprised by half the waves.

There was no sound explosion, no sound, no sound, no dust at all.

"not bad."

With a flick of Li Yun's finger, Bart, with a dull expression, flew upside down like a cannonball, hitting layers of metal walls before he fell heavily to the ground.

Shocked the jaws of more than a hundred supernaturalists.

"Unfortunately, there is still a long way to go before defeating me." Li Yun drank the juice from the cup in one sip and looked at the wide-opened Smith: "Are you the boss of the Menn Club?"

After a while, Smith nodded.

"Then I want to ask you some questions, do you agree or not?"

Nodded again.

Smith still dare to say half a word?

Bart, the strongest player in Mennhui's combat power, is no different from a kid in front of this Superman Li. Before Superman Li used his signature Flame Flying Sword, he flicked Bart the Metal Man with just one finger. Let him fail miserably.

This kind of power has completely surpassed the tenth level, no, the eleventh level, the twelfth level, no, no, no, the level of the supernatural person can no longer summarize the strength of Li Chaoren, he... is completely Superman!

"very good!"

Li Yun took out a medium recovery pill he had prepared, and threw it directly to him: "Next."

"Oh oh."

Smith didn't even dare to refuse, even if Li Chaoren threw a nuclear bomb, he had to honestly follow it.

Besides, if Li Chaoren wanted to kill them, a single finger would be enough to wipe out more than a hundred supernaturalists in the entire camp and crush them to death in the wind and snow of the Antarctic continent, right?

"This is a pill I refined." Li Yun explained to him, "Theoretically, this pill can treat all traumatic injuries, even if your head is chopped off, as long as you put the pill into your body in time, then Put your head around your neck and you will be healed!"

hiss!

No, there was no air-conditioning, because they had been so shocked that they had forgotten to speak.

This kind of pill has an effect that has completely surpassed all the treasures in the world. If it were sold to those local tyrants at a price of 10 billion U.S. dollars, I am afraid that all the top rich with assets of more than 100 billion would come up with half of the money to bid wildly.

Chapter 3437: Another relic of a god

"Why, isn't it enough?"

Li Yun held the chopsticks and smiled calmly.

"No no no no!"

Smith hurriedly said: "Li Chaoren, your pill is more powerful than the ice cold treasure we are looking for. Moreover, we are just finding it. It will be very difficult to enter that scary cold area. We don't have a strong fire. Those with supernatural powers can't go in deeply, so they can only stare at it staringly."

Li Yun nodded, "Sure enough, there is a cold area."

He looked at each other with Sage Fanqing and basically confirmed that there is also an ancient fairy house, ruins, etc., on the Antarctic continent, just like the Biyou Palace on Penglai Island.

It's just that this ancient relic is already on the verge of collapse, causing the entrance to move around, forming a spatial turbulence phenomenon, which happens to involve Fan Linglong again.

In addition, it seems that all the entrances and exits of the Chaos World (the place where the aura is released) will have an ancient relic, just like the gate of life and death opened by the Biyou Palace in the Sanctuary of the Vatican and the Qing Dynasty with a jade disc.

"Li Chaoren, you seem to know where it is?"

Smith asked tentatively.

Bart had been helped up, his body was bruised and swollen, but he didn't dare to go for treatment, he didn't even dare to take a big breath, and stood on the side with his hands down.

The flick of Li Chaoren's finger just now left a huge psychological shadow on him.

"I know, it should be a place similar to Penglai Island."

"Penglai Island? How Weiyi Island? That palace of gods?!"

Smith lowered his voice, very excited, and a little bit worried.

People who have experienced Penglai Island last time are in awe of the earth-shattering changes, but the rise of the palace of the gods on Penglai Island will bring many benefits and make them reluctant to give up.

Maybe they can get another power when they can rise again in the palace of the gods in the Antarctic continent?

This is hard to say, really hard to say.

There is too little information about the palace of the gods, I am afraid that only Li Chaoren will know the inside story.

"Your Excellency Superman Li!"

Smith bowed deeply, "If you don't dislike it, the Menn Club will be your most loyal followers up and down. As long as you tell us, we will do it all!"

Everyone was stunned, but they didn't say anything.

"Oh?" Li Yun was a little surprised, "You just take refuge in me like this?"

He doesn't have any system rewards such as "dominant spirit" in his body. Why did he take in a group of younger brothers when he shook his body?

In other words, Li Yun's several subordinates collected in Longyang County, Qian Hu and Boss Zhu, have not paid attention to him for a long time, and he does not know whether Boss Zhu has been born or not. As for Qian Hu, he will become the deputy chief of the security department. , I haven't seen him for a long time.

"Your Excellency Superman Li." Smith said respectfully: "You just said that not only there are palaces of gods on Weiyi Island, but also on the Antarctic continent. I heard that there are several places, but some countries have strictly blocked the news!

This is enough to show that the earth is getting more and more strange, and there will be more and more gods in the future? It is true that monsters appear, and supernatural beings are stronger than ordinary people. But in front of these ancient gods, we have no chance of winning. We can only get through the difficulties by relying on real strong like Li Chaoren! "

Or, to believe in those churches.

But Smith didn't believe in religion at all. Even if there were people in the Menn Church, there were many who didn't want to worship the pope. The old pope has become more and more arrogant recently, and the ancient Holy Crusaders have revived.

Chapter 3438: No nonsense

"Do not."

Li Yun rejected them and scanned the faces of these people: "I need information about the treasures you have unearthed here, but I won't accept any followers. I don't want to care about it. Secondly, I find it troublesome, because The Fairy Club was founded by people around me. If you want to follow, you can join the Fairy Club!"

Fairy will have many branches. The headquarters is led by Jin Liuli personally, and only a small number of people can join the gang. Among them, the QQ group "Fairy Club" only has an unspeakable relationship with Li Yun and gets sisters. After admitting, you can enter.

It can be said that the "Fairy Club" group in the QQ group is the real Headquarters of the Fairy Club. Everything about the development, layout, recruitment, etc. of the Fairy Club is discussed in the group.

The discussion in the group was based on Hu Xiaomeng, Xiao Mingzhu and other girls with super high IQs, and the rest of them assisted. After discussing with each other, they were introduced to the following branch of the Fairy Club for implementation.

"It turns out that the Fairy Club is really Li Chaoren's property!"

Smith said a word suddenly, without saying anything to follow.

If you select which organization is the biggest power on Penglai Island, many people will give different answers, but if you select which organization is the most desired to join, there is no doubt that the fairy will be the first choice of most people!

The Fairy Club is not only backed by Huang Xuanguo's Li Chaoren, but also has a complete set of training skills and martial arts tutorials in the gang, which makes many ability players greedy. In addition, the Fairy Club somehow occupy the largest gang station on Penglai Island. The area, just collecting rent, is several billions per month.

In the past, Smith and the others did not understand why fairies could occupy such a large territory.

"My girlfriends did it."

Li Yun smiled, "But don't worry, I don't want your information for nothing. As long as that place is what I'm looking for, I'll give you some pills. Besides, if there is any benefit in the ruins, you too It can be given priority to others. How about this sale?"

Smith naturally agreed, and even Bart nodded in agreement-the form is stronger than human beings, this Superman Li is already strong enough to crush them, and he spoke in a deliberate tone, which was completely to give them face.

"Okay, no more nonsense."

Li Yun said to Smith: "I need all the information you have obtained after investigating here, show me, let me understand the situation first, wait for me to rest, eat, and then set out to explore!"

"Yes!"

Smith immediately sent someone to sort out the files, but he himself stood at the door, hesitating and stopping, and wanting to stop, and Li Yun's tangled appearance made Li Yun feel worried.

"Just say anything!"

Li Yun said calmly.

Smith became more embarrassed, and after a while, he asked cautiously: "Your Excellency Superman, do you already know what treasure is inside the cold place? Just now, you said it was a place similar to an ancient temple..."

"I don't like nonsense."

"I want to follow in!"

Smith immediately stated his purpose, his eyes beaming towards Li Yun, his eyes full of expectation.

Li Yun let out a cry and laughed: "Do you know how cold that icy land is? I don't think even a fire type supernatural power can get close there.

Chapter 3439: trade

"The boundless cold invades your body every moment, making your soul stiff." Li Yun looked at Smith, "Are you really not afraid of death, want to enter the ancient ruins together?"

Smith gritted his teeth: "Yes!"

"Oh?"

"As long as you can protect me, Mr. Li, I think I can hold on for a long time, at least go in with my own eyes and see what the legendary ancient place is like!"

Smith said enthusiastically, as if he had become an archaeological expert and couldn't wait to learn the secrets of the ancients.

It seems that he spared no time and money to stay in the Antarctic continent for two months, with more than a hundred supernatural beings stationed here, just for this purpose!

"You want to learn about ancient ruins, why not go to Biyou Palace?" Li Yun asked calmly.

The name Biyou Palace has spread all over the world. As the most powerful ancient relic, it is suspected to be the root of the Earth's Aura Age, Biyou Palace has become a dream place in everyone's hearts, for better or for worse.

"Biyou Palace...seems like there is nothing to look at anymore." Smith replied weakly.

"So that's it, you just want to enter the ancient ruins and get some benefits, right?"

Li Yun broke the purpose of Smith's turning around, and the latter was suddenly embarrassed.

It is extremely difficult for Biyou Palace to be close to the mountain gate, let alone enter.

Although Smith didn't know what benefit Li Chaoren gained when he opened the Biyou Palace to float Penglai Island.

But the power that Superman Li showed at the moment had already convinced him.

In Smith's view, only by constantly contacting the secrets of the ancient temple or gaining the power of the gods can it be possible to become a real strong!

Otherwise, the supernatural beings can only slowly increase with the increase of aura, and it is estimated that it will be difficult to surpass the animals and plants within a few decades-because humans are becoming stronger, and the demonized animals and plants are also becoming stronger, many people say , It's not that human beings are strong, but that they are strong.

Because the degree of strengthening of animals and plants is not inferior to the top abilities of human beings!

Some terrifying ocean monsters have grown to the extent of covering the sky and the sun. Every time the huge monsters visit Penglai Island, they come to draw aura at close range, and almost no human dares to stop them.

The supernaturalists and armies of various countries on Penglai Island are afraid to provoke these behemoths, and a single collision can kill hundreds of thousands of people on Penglai Island.

A monster like an island can set off a huge wave with just a single move!

"I understand."

Li Yun nodded, "I can try to take you in, but maybe you will be disappointed. I don't know more about the ancient ruins than you. I entered the ruins just to save people."

"Save people?!"

A single word caused the people of the Menn Church to shake.

Your Excellency Li Chaoren is going to save people in the ancient palace? Who to save? Who has entered the temple? Is he also a super strong?

Or... Your Excellency Li Chaoren is going to save a god? !

A... a **** who has slept for a long time!

Smith was shocked.

In his eyes and many people, there are undoubtedly gods in the ancient times, and the many palace ruins left are evidence!

The power of the gods is so great, can they not die?

If the gods are not dead, they must be hidden in these buried and underground ruins, waiting for something to awaken the gods again!

Chapter 3440: Icy land

Moreover, judging from some information that has been circulated, there are a total of seven huge relics of gods in the world, and each of them is related to the current civilization legend of mankind.

God, Taoism Sanqing, Buddhism, Odin, Shiva...

There are few myths and legends in this world, but among the most famous myths and legends, the gods who rule many gods are still well known by ordinary people.

Now that His Excellency Li Chaoren said to save people, many unrestrained thoughts suddenly appeared in Smith's mind.

Your Excellency Li Chaoren, is he also a god? !

"What are you thinking about!"

Li Yun put down his chopsticks, finished the dinner, wiped his mouth with a napkin, and said to him: "I am an ordinary person, and the person who went to save is also an ordinary person. Do you know what is the cause of the abnormal cold? Actually, it is because... ..Forget it, if you want to go, then take you for a ride, but if you are in danger, don't blame me for leaving you."

"Yes!"

Smith gritted his teeth and agreed.

In any case, he can't sit still and wait for death. The world has become too dangerous. If he doesn't gain strong power in the future, it would be better to die here in Antarctica. At least a few hundred years later, he can still keep the appearance of a corpse, no loss.

"I, I want to go too!" Metallic Bart raised a hand, and seeing Li Yun looked over in surprise, Bart apologized quickly and said everything nicely when he was embarrassed.

"whatever."

Li Yun is not a stingy person. He has seen too many people with bad tempers. Barthes is a typical type who is not convinced and can be honest after a beat.

After the lesson, he was better than a rabbit.

"Thank you, Superman Li!"

"You go and prepare."

Li Yun waved his hand, took the information sent by Lisa, and read it with Qing Sheng.

In fact, there is nothing to see.

Menn would know that there was an abnormal weather condition on the Antarctic continent two months ago, that is, randomly refreshing the ice-cold weather on the Antarctic continent, even the supernatural person could not resist.

After preliminary investigations and avoiding some enemies on Penglai Island, Smith and Bart took their men to the Antarctic continent, planning to research while collecting some spiritual fruits- every time the icy weather shifts, they will always stay Many treasures, including spiritual plants, icy minerals, and some ice cubes that have been frozen to sparkle.

Although I don't know how much it can sell for the time being, these icy ores can be used as bombs to move an entire building. The value is definitely not low!

Therefore, Smith took the Menn Club and settled down to collect these things.

Half a month ago, Smith suddenly found a stable, constantly exuding cold area, located under the cliffs of a valley. The icy breath was condensed and not dispersed. You need to get close to discover it.

It's just that Menn will be depressed. This cold place, which has not been transferred for half a month, has become colder than other flowing cold places because of its concentration in the valley. They only collected the outer cold place. Some ice minerals can only stare at the many natural treasures inside.

With more and more ice crystal minerals in it, Smith became more and more irritable, which was as uncomfortable as guarding a gold mine but unable to dig it, and unable to tell others to dig together!

"I still said that, I don't like nonsense, I want to go with me, go!"

Li Yun threw down the information, got up and made a decision.
