

Godly Choice 3441

Chapter 3441: The magical effect of recovery pill

Linglong is still waiting for him to save, which is why Li Yun doesn't talk nonsense.

Smith didn't say much, and neatly called a few flame type supernatural powers, who were also the main force of "digging ice crystal mines" before. After instructing those who stayed to guard the camp, he and Smith followed Li Yun and set off.

Coincidentally, the Lisa that Li Yun met before, she was also a fire-type supernatural power, and went to the icy land with her.

"Ding, the host made a choice, stay here, and find out why the group built a camp in Antarctica. Reward: Golden gift bag*3, all attributes are +1 thousand, experience value + 30 million, extra reward: golden gift bag *3 (Reward for the host's clean performance

When Li Yun and Fanqingsheng stepped out of the camp, they received the reward reminder from the system, and the system also gave a special reminder because he quickly made a choice, and after completing it perfectly, he was rewarded with three more golden gift bags.

It's right to think about it. In order to find Fan Linglong faster, Li Yun didn't think much about it. Instead, he directly used the fastest and safest method to let Smith and others voluntarily tell the story about the cold place, which ended in less than an hour. this matter.

In this way, Li Yun gave Smith a few small and medium-sized pill, but because of this he received three more golden gift bags, not only did not lose, but also made a lot!

Yes, Li Yun intends to give them a small recovery pill to solve the problem of not being able to enter the icy land!

"Take it."

Before arriving in the valley where the Frozen Land was located, Li Yun distributed a few small recovery pills to the five people, two for each, not too much or too little, enough for them to recover their frozen bodies.

"Remember, don't take the pill before you can't walk!" Li Yun warned them, lest they think that there are a lot of these pill. "My pill, even if your hands and feet are frozen, you will even have a slight power. You can't use it anymore. After taking the pill, you can quickly recover. If you break your hand or foot, you can regenerate, and your supernatural ability can quickly recover. Therefore, you are not allowed to take the pill until the most critical moment. !"

Li Yun has a lot of small recovery pills, two to three hundred, but it is impossible to give these people casually.

"Yes! Your Excellency Li Yun!" The five Smiths immediately replied respectfully.

At Li Yun's request, Li Chaoren's name like this was naturally avoided. It is still a bit strange for a member of Huang Xuan country to be called Superman, and Li Dashen is almost the same.

After one person got two pills, the group of people admired Li Yun's eyes even more.

This kind of pill is absolutely priceless in the market, and there is nowhere to buy it. However, Li Chaoren gave out ten pieces casually, just to repay a promise.

It's so serious about love and righteousness, it's really...

"I still don't talk nonsense!"

Standing in front of the valley, Li Yun issued an order: "After I go in, I can help you, and I will help as much as possible, but I won't do anything. Don't blame me. If you die in it, don't blame me. If you feel that you can't hold it anymore, just eat a recovery pill, and run out as soon as possible! You are all supernatural beings, I believe you can run out of this small valley in one minute, do you understand?"

"Yes! Your Excellency Li Yun!"

The five people answered in unison, and Li Yun nodded in satisfaction, turned around, and looked at this icy land.

As recorded in the previous archives, this valley is very hidden. Not only is it hidden in the mountains, but there are also high mountains around the valley. Very few people can enter the valley, and even fewer people are willing to go in and search. NS.

Chapter 3442: Hunch

The Antarctic Continent has already had a lot of people with supernatural powers coming to explore, but there are still very few people who are willing to come into the mountains. It is even more difficult to find a specific valley in a continent.

Li Yun watched the foggy cold air in the valley, and the faintly sparkling ice attribute ore was generated, scattered on the rocks and ice, he couldn't help but feel a little grateful.

If it weren't for this fixed space gap, he would look for those mobile ones, I am afraid it would be nice to find a place within three days.

According to Smith's archives, it took them almost a week to find a cold place.

"Your Excellency Li Yun!"

Smith said respectfully: "Here is the cold place, but I'm not sure if it is the one you are looking for..."

"Well, it shouldn't be too late." Li Yun looked at Fan Qingsheng, "Qingsheng, let's go in and see if there is an entrance caused by the turbulent flow of space inside!"

"Um."

Sage Fanqing nodded slightly, "I have a hunch, Master is inside."

"This is a good premonition!" Li Yun raised his eyebrows, "but I don't like the vague premonition. I only believe in what I see, and I only want to see what I want to see!"

This means that only to rescue Fan Linglong is the only thing to do right now.

Sage Fanqing nodded slightly again and looked at Li Yun striding into the valley. He couldn't help but think that if she was caught in the turbulence of space, Li Yun would rescue her desperately, right?

Thinking about it this way, Fanqing Sheng could understand Master's state of mind at the moment: waiting is painful, but if it is waiting full of expectations, it will make people feel happy.

"Let's go in too!"

Realizing that Superman Li couldn't wait for a minute or a second, the five Smiths followed closely behind.

After the seven stepped into the foggy, densely foggy ice crystal land, a bitter and familiar chill hit their faces, pierced into the human bone marrow, and the cold caused a group of supernaturalists to shiver.

In fact, since they became supernaturalists a few months ago, they have not felt the heat and cold for a long time. Reiki has transformed their bodies, and third- and fourth-level supernaturalists can reach the ordinary high temperature of several hundred degrees. In the flame, at minus 20 or 30 degrees, they can easily resist the drop, just wearing a few simple coats is enough.

Therefore, the Antarctic continent, which is very dangerous for ordinary people, has to worry about freezing the stiff human body, worrying about the ice layer underfoot falling into the ice water, and worrying about the snowstorm that blows from time to time, and so on. For those with supernatural powers, it's nothing.

As long as they are supplemented with food and spiritual energy, they can survive comfortably in the harsh Antarctic continent.

Except for this icy land!

Smith and the others don't know why it's so cold here. Even those with the flame element can't use the flame abilities to dispel the chill, making people tremble. They guessed at first, maybe it was because of some kind of treasure. Existence makes it so cold here.

Later, I gradually realized that these anomalies were caused by some ancient relics in the center of the Antarctic continent.

"Is it cold? Qingsheng?"

As he entered the valley more and more, and the chill became stronger, Li Yun had to run the flames, letting his body be shrouded in the flames, and at the same time, approached the Sage Fanqing, reaching out to hold her cold little hand.

"Well, it's a bit cold." Fan Qingsheng is a very honest person to questions, unless she is unwilling to answer you.

Chapter 3443: Treasures of the Valley

"But it doesn't get in the way." Fan Qingsheng shook his head, "I can still hold on."

Li Yun smiled, running violently, emitting a faint blue flame light all over his body, making Smith and the others who followed him look surprised.

This is the first time they have seen flames that can resist the icy land!

An ordinary lighter can't even be turned on when you get it here, and the flame type supernatural ability can only barely run it. It is very difficult to warm up and want to send a fireball.

However, your Excellency Superman Li Yun could easily wrap the entire team with flames, blocking most of the severe cold weather for them.

"Don't be too happy!"

Li Yun warned the people of the Menn Congregation who became excited and began to look at the surrounding ice crystal minerals and sparkling spirit plants with their eyes shining. , Even I can't resist it for too long. You may be frozen before you even take the pill after you wait!"

The five people's expressions froze.

"I, I stay here?" Lisa raised her hand and said cautiously: "Your Excellency Superman, I will stay here to collect some things. After you come out, I will let you distribute the collected things. How about? "

"it is good."

Li Yun nodded. It's best for this group of people not to go in. If it weren't for the sake of repaying before, Li Yun didn't want this group of dragging oil bottles to follow.

Seeing that he did intend to let them stay, the other two flame type supernatural powers also moved in their hearts one after another, and proposed to keep the treasures around them.

They have now reached deep into the valley, because of some wonderful factors, many wonderful treasures will be born in the cold place with abnormally low temperature.

Just like now, Li Yun casually glanced at it, and he could see the ice crystal treasures that were flat on the ground, or that grew like mushrooms, shiny and beautiful, with large areas growing.

What's amazing is that these ice crystal treasures don't emit much cold air. They are restrained and can be held up directly with their hands, but after smashing them out and breaking these ice crystal stones, they will instantly release a lot of cold air. , Freeze everything around.

These wonderful ice crystals seem to be used by the heavens and the earth to suppress this abnormally cold thing, otherwise, this icy land can freeze everything!

"Okay, then you can collect it here."

Li Yun nodded his head and agreed. He couldn't help it. "But you have to be careful and leave as soon as possible if you can't hold it."

He didn't want to see these people freezing to death here because of greed.

"Yes!"

The three of them immediately agreed with excitement that this large piece of ice crystal was sold for at least a few billion yuan, all of which were sold to those with ice attributes or some people in need.

In fact, most of the transactions between abilities have developed into bartering, which seems to be able to sell for billions. In fact, it is the exchange of treasures in the hands of other abilities to help oneself become stronger.

All the resources are to make oneself strong, against the possibility that the future may come to the end of the world, or the return of the gods.

"Your Excellency Li Yun, can I follow you in again?"

Smith pleaded.

Since everything is to become strong, these treasures are actually not that good. If he can enter the deepest part of the valley and gain more powerful power, he can ignore this whole piece of ice crystal or other things!

"Mr. Li Yun, I, I also choose to continue..."

Chapter 3444: insist

Bart gritted his teeth and insisted that the metal man is not more resistant to frostbite, but can be more resistant to frostbite. Ordinary people may be so cold that their muscles and hamstrings are broken, but he has no such troubles. After the amount of supernatural power, he can still continue to walk.

This made Li Yun a little surprised. It seems that everyone who can reach the 8th level and 9th level is not easy.

"continue."

Leaving Lisa and the others here, Li Yun shrank the flames that came out of his body and instead, he took the little hand of Sage Fan Qing with one hand, and gave her the most appropriate heating care. He followed them closely, as if He is the same as Fan Qingsheng's bodyguard.

The four of them walked into the valley step by step, Lisa watched the boss and His Excellency Li Chaoren disappear into the white mist, as if swallowed.

"As expected of Li Chaoren, I can continue to walk in!"

"I don't know how these ice mists are generated. Is it the same as the previous Haowei Island?"

"It must be leaked from the ancient ruins, maybe it is the barrier of the ice goddess!"

"How do you know that the goddess of ice and snow lives on earth?"

After seeing Li Yun and their boss walking into the valley, it seemed that they were about to unearth some shocking secret, the people of the Menn Club were arguing in full swing.

After all, it is easy to imagine that as long as Your Excellency Li Chaoren opens an ancient relic, then as a participant-a certain degree of participant, they will definitely get a little bit of benefit. By then, maybe Menn will be able to Become a force similar to the Fairy Club, with tens of thousands of powerful abilities!

The people outside were looking forward to it, but Li Yun, who led the team inside, did not dare to relax.

"carefully!"

As you get closer to the valley, the icy breath becomes stronger. Too cold to drop the icy **** is already a very gentle way of describing it, so cold that even the sound falls in the air, just like in a chaotic world!

Li Yun had to add some mana while speaking, otherwise the breath exhaled from his mouth would freeze directly around his lips and nostrils as soon as he opened his mouth.

There was no violent wind in the valley, and there were no sparkling ice crystals on the ground, but Li Yun could feel that there was a terrifying danger inside!

The feeling of being peeped is creepy.

"Lee, Li Li-Yangge, Your Excellency!"

Metallic Bart hugged his arms and spoke tremblingly. He was already fully mobilizing his supernatural powers, but his body still seemed to be cut by a small knife, and the air-conditioning continued to drill into his body. Drilling into the bone marrow made his soul feel as if frozen.

If it hadn't been for Li Yun that the pill could restore his body in an instant before, how could Bart dare not continue to walk in under such severe frostbite conditions.

"Your Excellency Li, Li Yun, what's the matter?" Smith is also very cold, but his supernatural power is actually higher than Bart, because he can resist one or two. "Is it here?"

He is now looking forward to seeing the ruins as soon as possible. It is best if the temple is warm, otherwise he can only take a pill given by His Excellency Li Yun, and then quickly escape.

Staying for these three minutes, he felt that he was going to freeze completely!

But Smith clenched his teeth and persisted.

Since there is something that can give off such a terrifying air-conditioning, it proves that there must be some treasure, or it is an ancient temple. In short, the things inside are extraordinary, otherwise it will not be unbearable for him who is close to the 9th-level ability.

Chapter 3445: explore

This is still the case when Superman Li runs the flames to block most of the cold for them!

One can imagine how amazing the treasures or things inside are!

"I, I feel..."

Li Yun didn't speak very sharply. The center of this valley was terribly cold. If he hadn't just collected a spiritual fire, that is, the top fierce fire, he would really not dare to say that he could enter here with the Sage Fan Qing. !

Because even the Vanquish Saint of Return to Void Realm couldn't stand it, Li Yun felt a little cold while holding her hand.

"Qing Sheng!"

Li Yun looked at her. The lady of the saint was very cold, but her expression remained calm, without the slightest frown. He nodded and said, "This valley seems to have come back to life."

"Alive?"

The two Bart had no spiritual minds, and couldn't feel the changes in their surroundings. They could only stare at the surroundings in amazement, guessing what terrible things were.

But in Li Yun's perception, the white ice mist that pervaded the valley began to gather bit by bit in front. No, in other words, the ice mist itself has an inexplicable power. At this moment, it is only because of Li Yun's four people. Suddenly breaking in, these ice fog began to change!

The specific manifestation is that Li Yun perceives that a piece of ice fog is condensing ahead.

"Bee."

Sage Fanqing suddenly said.

The two of Bart still didn't understand what the beautiful Huang Xuanguo beauty was talking about.

But Li Yun knew.

"Qingsheng, you mean... these ice mists are a special kind of life?"

Li Yun was a little shocked. He stretched out his hand and grabbed a hand on the ice mist in front of him. It was useless to wrap his palms with flames. For a moment, Li Yun felt like an ordinary person when he poked his fingers into the flames, that kind of tingling. The burning sensation spread all over the body instantly!

If the heat and cold are too extreme and beyond the human body's ability to withstand it, they will only feel tingling, not cold or warm.

"hiss!"

Before, it was Li Yun that made others gasp, but this time it was his turn.

Before this ice mist, he used the ground and fire to separate it, but once it directly touched Li Yun's palm, the ice mist was like a sharp knife, madly destroying human flesh and skin, like a bug, drilled into the flesh. .

Bing Mist may be alive, or it may not be malicious.

But they themselves are biting and cold, bringing unimaginable destructive power to human beings who are warm-blooded animals. After getting into the flesh and blood, everything is destroyed and frozen along the way. In an instant, Li Yun felt that half of his arm was frozen. The ice lolly, scared him to run quickly, swept across his arm with a bang.

boom!

Li Yun's hand burst in an instant, and the ice collided with the heat. Two powerful forces faced each other in the blood vessels of his arm, causing his frozen arm to break on the spot.

"Ah! F*ck"

Bart and Smith were very frightened, Fan Qingsheng also lost consciousness for a while, and subconsciously stretched out his hand to help Li Yun stop the wound.

"do not."

Li Yun stopped her, ran into the flames, removed and burned all the ice mist remaining in the broken arm, and then took out a recovery pill and threw it into his mouth.

Accompanied by the crackling sound, his broken arm grew out again. Although it was not so strong because of the new life, it took a while, but it was already normal in appearance.

"hiss!"

This time it was Bart and Smith who took a cold breath. They were willing to believe Li Chaoren's words that this pill has a surprisingly powerful effect.

Chapter 3446: ice crystals

It can be heard ten thousand times, so it's better to see it with your own eyes.

When they really saw Li Chaoren's broken arm, it took less than ten seconds from the fracture to the completeness, and the two of them were still frightened.

"This ice mist does have some signs of life!"

Li Yun took a deep breath and moved the newborn's right hand. After confirming that there was no ice mist in the flesh and blood, he was relieved.

In fact, he does not need to recover the pill to grow a broken arm. Li Yun's innate ability of the fetus has not yet been fully tapped. The rebirth of a broken limb is only the most superficial effect. Li Yun suspects that even with only a drop of blood, he can do it again Reshape the flesh.

Of course, he would not be so stupid to experiment like this.

"life?!"

Bart trembled all over, and his silver-white pupils looked around in disbelief. This filled the valley, like a thin mist. Are they creatures like insects?

Doesn't that mean that there are hundreds of millions of these little bugs, flooding the valley, and any one of these little bugs can directly freeze a super power like Li Chaoren into an arm? !

This Nima... can humans continue to mix?

Smith felt dizzy and dizzy. This ice fog is a few kilometers wide, and hundreds of millions of bugs live here, and each one can kill a level 10 supernatural power (Roughly speaking, Superman Li counts as level 12. , A short calculation).

That is to say, all human beings with supernatural powers are gathered, and even if all the nuclear, bomb, hydrogen, and bombs are thrown here, they may not be able to kill all the bugs here!

"Yes." Li Yun nodded, staring solemnly at the surroundings, like the light gauze worn by the most beautiful Jiangnan woman, and the skirts dancing in the wind, hazy and ethereal, as if it was not the real ice. fog.

"These should all be special lives."

Li Yun explained: "The bees mentioned by Qingsheng before, mean that they exist in a way similar to bees, but more than bees... Then what, I can't describe it, that is, bees have individuals, but they live their lives throughout their lives. Living as a group, an entire bee colony is like a whole."

"These ice mists are also the same." Li Yun said again: "They should have no intelligence. Although they have very strong power, they will not flutter around and naturally repel some very weak flames!"

Bart was stunned, and subconsciously asked: "Mr. Li, how did you know?"

Li Yun glanced at him and said helplessly: "Didn't you enter here before but weren't killed? You definitely didn't have any protective measures at the time. You relied on fire-type supernatural powers to resist the ice fog. Therefore, these ice If the fog has a head, or if it is sane, they will kill you in an instant!

Moreover, if it is an ordinary life with a trace of sanity, it will reject what it hates and instinctively extinguish the flames instead of fleeing. "

So Li Yun didn't know whether to call these ice mists life.

Smith was an eye-opener. After knowing that the ice mist seemed to be afraid of all flames, he calmed down a lot and began to eager to try: "I don't know what it would look like to grab some ice mist and use it as a weapon? Fog only appears in this valley, which is very rare."

"If you are not afraid of death, go."

Li Yun shrugged and said that he would not stop or mix up.

Chapter 3447: go ahead

Smith smiled wryly, "Of course, not now...well, even now, we will be fully prepared and there will be no accidents!"

Knowing that this ice fog life form is not simple, but the more Smith thinks about it, the more he feels that these ice fog have research value.

The more difficult it is, the more expensive it is that they were born, and they are probably the pets of the goddess of ice and snow? barrier? arms? Such things are inherently stronger than mortals.

If the goddess hasn't awakened (he thinks so), if he takes the opportunity to steal some of this power, and can control it by himself, his strength will surely rise several steps!

"Do you still follow up?"

Li Yun glanced at the front. The ice mist that was vaguely condensing before, now disappears, as if deliberately frightened Li Yun and the others. After seeing that they were not afraid, these ice mist lifeforms dispersed again.

It's amazing.

"want!"

Smith made a decision immediately, Bart swallowed, hesitated for a while, and finally shook his head: "I, I won't go in, boss, and Mr. Li, Miss Fan, you can go in."

The dense ice mist still frightened him.

He is not afraid of death, otherwise he would not rush into the base of the beautiful country and **** away the treasures that were collected on Penglai Island.

But this kind of ice fog is too weird and terrifying. Even the soul is frozen here after death. Once there is something abnormal in the valley, it is impossible to escape, for sure!

The feeling of having to wait for death is too aggrieved.

"Okay, can you go out?"

Li Yun glanced at him. These ice mists repel the temperature of the flame, but they may not dare to penetrate into the human body. After all, the temperature of human beings is only 37 degrees, and they have been frozen for more than ten minutes. , Maybe these ice mist lifeforms will unconsciously penetrate into the flesh...

It was miserable then.

"Yes, it's okay."

Bart took out a round bead, squeezed it, and a ball of flame surrounded him.

Li Yun nodded, and both he and Fan Qing Sheng could tell at a glance that this was a fire-type spirit beast's demon pill, and it could release the force of the demon beast's life when it was broken.

"I'm leaving now!" Bart didn't dare to wait any longer. He rushed out of the valley with the Fire Element Demon Pill, and didn't dare to stay for a while.

"Let's go in too!"

After Li Yun had just eaten the Recovery Pill, his body was full of mana, and the earth evil was blessed, he wanted to take advantage of this power to enter the valley as soon as possible.

Smith didn't dare to object, and followed the two of them, rushing into the valley together.

The more you go inward, the greater the concentration of ice fog, and it is almost densely covered in the back, like a thousand-meter thick fog covering the valley.

Li Yun couldn't see exactly what was around him at all, and even the divine consciousness probe was severely weakened, and he could only perceive things four or five meters away.

However, fortunately, there were no other life forms in the ancient times except the ice mist. If a monster beast suddenly rushed out at this time, the three of Li Yun would not be able to stop it.

Fortunately, the ice mist life form is indeed quite domineering, completely occupying all the space in the valley.

"found it!"

With unremitting efforts, Sage Fanqing first discovered a different place and looked in a certain direction.

Li Yun immediately reacted, holding her little hand and walking slowly in the direction she was looking at.

At this moment, Smith was more dedicated than the bodyguard. He followed Li Yun closely, his eyebrows and nose were covered with frost.

Chapter 3448: Wuling people

What the Sage Fanqing found was a clearing.

There is no ice and fog here, and there is a clear sky within four to five meters, which makes Li Yun, who is used to the misty environment, still a little uncomfortable.

In the middle of the open space, is a gray-white twisted light ball, constantly struggling and twisting, as if some monster is being held in it, constantly roaring to get rid of the shackles!

"this is.....?"

Smith looked terrified, this thing is beyond life...Uh, this piece of ice is weird enough, since the age of the gods, he should have known it a long time ago? : In this world, nothing will be strange!

"A rift in space."

Li Yun answered him, still holding Fan Qingsheng's small hand, behind him was a thick ice mist, and a twisted space in front of him.

Fan Qingsheng did not speak, waiting for Li Yun to make a decision.

After being with him for so long, Fan Qingsheng seemed to be aware of Li Yun's way of doing things. Once he encountered something, he would wait in such a strange way. After waiting for a period of time, it seemed that he was talking to someone or getting some enlightenment. Willing to make a decision!

"Then we..." Smith didn't know what the space rift was, and he could vaguely heard from the English words, it was a portal to other worlds!

"hiss!"

After thinking about it, Smith gasped again.

Because, there are similar things in science fiction, which can be transmitted to the world tens of thousands of light years away in an instant, which is very powerful.

But something that is only in science fiction, actually appeared in front of him?

"This is teleported to... the ruins of the gods?"

Smith asked tremblingly. As the mixed-race black boss of the Menn Club, he thought he was calm enough, but since he knew Li Chaoren, he felt how ignorant he was before.

"probably is!"

Li Yun did not receive the system prompt, but he was not disappointed. No matter what options the system gave him, for the sake of Fan Linglong, he had to choose to enter this distorted space and see what was inside.

Choosing to wait is just to get some benefits.

"Qingsheng, hold on to me!"

After confirming that Sage Fanqing had caught him, Li Yun strode forward, and without hesitation, picked up the ability of the congenital Taoist fetus, and plunged one hand into the gap in this gray-white space.

A repulsive force came, and Li Yun hesitated for a second, released the power of the innate Taoist womb, avoiding the conflict between these two forces, causing the spatial fissure to be abruptly broken up.

With the disappearance of the power of the congenital Taoist fetus, Li Yun's hand became an extremely ordinary hand, and the power of the spatial fissure occupies the upper part, and the suction force came, sucking him and Fan Qingsheng into it together.

"I'll go in too!"

Smith gritted his teeth and followed in.

After a while of dizziness, Smith came back to his senses and immediately overjoyed, he is still alive!

"Sure enough, you are right with Mr. Li, I have nothing to do, hahahaha...Uh?!"

Smith, who was laughing, was stunned when he saw the sight in front of him.

In front of his eyes, there is a beautiful peach blossom forest, spread over the river bank for two weeks, and under the peach blossom not far away, standing four or five little boys and girls, holding half-eaten peaches, staring dumbfounded. them.

Along the river and behind Taoyuan, there is a rural look like a house, with good fields, beautiful ponds, mulberry trees and bamboos.

The gray-haired old man, the cute child, the rooster, the hen and the dog... everything was beautifully displayed in front of him.

Chapter 3449: Peach Blossom Spring

Li Yun was shocked.

This picture, this scene, this world... Properly reminded him of a piece of text he learned in junior high school.

Yes, it's the piece of Tao Yuanming's Peach Blossom Spring that was recited and written silently in full.

Li Yun still clearly remembers the description in the text: in the Jin Taiyuan, the Wuling people fished for a career...walking by the river, forgetting the distance of the road. Suddenly there is a

peach blossom forest, hundreds of steps across the bank, there are no miscellaneous trees in the middle, and the fragrant grass is delicious.

Further down, it is to describe the world in the Peach Blossom Spring: the land is flat, the house is just like, there are good fields, beautiful ponds, and mulberry bamboo.

Isn't this description the same as what Li Yun saw in the village at this moment? !

Could it be said that when Li Yun asked them next, he would get a similar answer: Since Yun's first generation to avoid the chaos of the Qin Dynasty, he led his wife to come to this desperate situation, and will not come back, so he will be separated from outsiders.

This means that the people here avoided wars during the Qin Dynasty, so they came here and never went out, so they have been separated from the outside world for hundreds of years...No, since the Qin Dynasty, a full two have passed. millennium!

If, if!

Li Yun's mood was very agitated. If these people were really the Wuling people described by Tao Yuanming, who accidentally entered the world in the Peach Blossom Spring as a fishing industry, it would be really...absolutely a sensation!

Think about it, an isolated world that has been preserved for thousands of years has great research value for archaeology, journalism, collections, social science research, etc.

If this is not an illusion, but a real existence, then Li Yun is sure that his trip is definitely worth it!

"you....."

Several little boys and girls standing under the peach tree stammered their mouths. Then, a big boy screamed and threw the peach away and fled. While running, he screamed loudly in ancient Chinese that Li Yun didn't understand. Scream:

"It's not good, it's not good, there are outsiders coming in!"

"Ama, Ah Ba, ah... Come on! Come on, someone who is not human is coming in!"

"Ah, run away too, the people outside are very scary, go!"

Under the peach tree, a few children finally reacted. One little boy ran away panicked, while the other little girl turned to watch Li Yun run while eating peaches, but hit the peach tree with a patter and fell. After a big somersault, I cried.

"..."

Li Yun couldn't laugh or cry, and his jaw dropped in shock.

He thought for a while, after letting go of Fan Qingsheng's hand, he walked to the little girl who was swollen on his forehead, and under the tearful gaze of the little girl, he reached out and touched her forehead.

"feel better now?"

Li Yun doesn't know how to heal, but mana itself has the ability to heal, just as true energy can heal internal injuries.

Therefore, he touched the little girl's forehead, and the little girl no longer hurts immediately. He touched the forehead and felt no pain at all. Then a smiling face bloomed on her little cheek: "Brother, thank you~!"

Brother?

Li Yun is really embarrassed about this kind of address, and I don't know what it is like in ancient Chinese, but fortunately he can barely understand it.

"You're welcome, you're welcome, by the way, little sister, do you know where this is?"

"Don't worry, I'm not a bad person, I'm just a person who got lost by accident."

Li Yun felt that he was like a big bad wolf who coaxed a little girl.

Chapter 3450: Fairy sister eats peaches

In any case, the little girl who had eaten half of the peach finally stopped crying, looked at Li Yun timidly, and asked tremblingly: "Ah, brother, are you not a bad person?"

"certainly!"

Li Yun thought for a while, pulled Saint Fanqing over, pointed at her beautiful face, and said to the little girl: "Look, little sister, how beautiful this elder sister is. Such a beautiful and beautiful elder sister, shouldn't be a bad person? ?"

Fan Qingsheng glanced at him again, and Li Yun smiled. Every time Qingsheng had something to say in his heart, but didn't want to say it, he would always look at him with this look.

Of course, Li Yun is already immune. Qing Sheng sees him, and he kisses her-this is the case at night. It's like in the days and nights in Tianxue Palace, Li Yun didn't know how to kiss Qing Sheng...No, now It's not that when Li Yun wanted to find Linglong on those beautiful days, let's talk about it!

After seeing this elder sister's appearance and holy and dirty temperament, the little girl obviously stayed for a while, looked at her elder sister stupidly for a long time, and then said: "Sister, are you a fairy?"

Fan Qingsheng shook his head and stretched out his hand to her: "Hello."

Li Yun looked embarrassed, this is the way of greeting the saint.

But the person she wanted to shake hands with was an ancient person who seemed to have lived in Taohuayuan for thousands of years!

"what?"

Sure enough, the little girl didn't know why the fairy sister reached out to her, thinking that she was going to help her up, she immediately grabbed the hand of Sage Fan Qing happily, stood up with a sweet smile on her small face: "Thank you sister~ , Sister, I invite you to eat peaches!"

With that, the little girl hopped up on a peach tree that was both flowering and fruiting, plucked two peaches, glanced at the person underneath, and picked one more.

Then, the little girl jumped down, and handed the first, biggest and reddest peach to Fan Qing Sheng: "Sister Fairy, I'll eat it for you~!"

Sheng Fanqing took it silently, held it with both hands, and put the peach between his nose and sniffed.

Li Yun knew that she was suspicious of the authenticity of this world, and that the peach in her hand was real!

"Brother, here you are!"

The little girl gave another peach to Li Yun, and then gave the third peach to...

"It's so dark!"

The little girl was holding the peach, afraid to walk in front of Smith, her little face was curious and fearful.

Smith touched his face, embarrassed.

It's also fortunate that he is a mulatto, otherwise, the pure black face can't scare the little girl to death?

"Ahem, this is... from the west!"

Li Yun explained vaguely that in ancient times, Huang Xuanguo referred to black people as Kunlun slaves, but Li Yun could not tell them directly. For one thing, she was not sure if the little girl knew about Kunlun slaves, so she called others slaves. Not good.

Although Smith couldn't understand their conversation.

"Oh? Oh~!"

The little girl didn't struggle too much. She timidly gave the peaches to Smith, and hurriedly walked aside. To be precise, she walked to the fairy sister and looked at her expectantly: "Sister fairy, eat it, it's delicious. I eat this peach every day, but it is delicious~"

Fan Qingsheng didn't know how to explain that she suspected something wrong in this world, so she could only turn her eyes on Li Yun for help.

"Ahem!" Li Yun continued to make up a lie: "Little sister, elder sister, she is not hungry, besides, you have to wash peaches before you eat them!"
