

## Godly Choice 351

Chapter 351: Being mocked (Part 1)

On Weibo.

"Hahahaha, no more, I'm going to die of laughter!"

"A certain genius who preached full marks before the exam, but as soon as the math exam was over, his test paper was rated 145 points by the teacher!"

"It is said that the arrogant arrogant was deducted five points for the multiple-choice questions. I, Cao, can make the wrong multiple-choice questions. This is also called a master?"

"If you don't understand, just ask, is 5 points a lot?"

"Hehe, 5 points are not many for the scumbag, but for the scumbag, there is only one possible deduction for a math problem, and that is because of carelessness, the steps are not clearly written, and the step points are deducted!"

"Five points are deducted for multiple-choice questions, which is too careless, so say, don't be too arrogant!"

After learning about Li Yun's mathematics scores, countless people tweeted and laughed at him, and it was only ten minutes before the end of the English test.

So Li Yun didn't react at all. He still wanted to go to the teacher to give feedback after the exam. He didn't expect his test paper to be exposed so quickly.

"Forget it, just right!"

A smile appeared at the corner of Li Yun's mouth, and the person who exposed it might help him. He only needs to watch the show.

"However, will the teacher change it?"

Special class of Zhonghai Experimental Middle School.

The news about Li Yun's math test was only 145, which was obtained by Fang Hao, the leader of the high school math group. After he knew the information, he immediately smiled and posted it on the Internet without much thought.

Sure enough, a single stone caused a thousand waves of waves. Some netizens who could not understand Li Yun laughed at him. All kinds of malicious language were posted by the irritable netizens. If you change to another blogger, it is estimated that Weibo will be closed long ago. Comment to avoid the limelight.

But who is Li Yun? He already doesn't care about the ups and downs on the Internet, he doesn't bother to care so much, let him go.

Fang Hao didn't find Li Yun's response, but it didn't matter, as long as Gong Qingyu's perception of him declined.

"Qingyu, have you seen it?!"

Fang Hao couldn't wait to find Gong Qingyu, who hadn't left school, and said excitedly: "Li Yun only scored 145 points on the math test. It can be seen that he is completely bragging, and he is not trustworthy at all!"

It's not worth relying on!

And Fang Hao, the pre-admission student of Plinton University, and the future famous mathematician, is the reliable guarantee for Gong Qingyu's happy life in the second half of his life!

Everyone secretly said that it was a pity that some students who went to the press conference to watch Li Yun play against the Demon Legion, and felt sorry for the students who had a good impression of Li Yun.

Mathematics is difficult this time, but in the experimental class, there are many students with a score of 145 or more. They only get an imperfect answer on the last question. The full score of multiple-choice questions is certain.

Gong Qingyu's expression was indifferent, her small, blushing lips pressed tightly, and she didn't say a word, fully expressing the restraint and high coldness of the ladies.

"Qingyu, don't you think Li Yun is very unreliable?!" A trace of resentment flashed in Fang Hao's eyes.

Why is Gong Qingyu still lifeless after Li Yun blew such a big cowhide?

"You are really annoying."

Gong Qingyu, who was impatiently quarreled, finally spoke, looking at him with a cold look, saying every word: "Fang Hao, I ask you, the fifth question of your math multiple-choice question, what answer did you choose?"

Question 5?

The students in the specialty class were taken aback, and then immediately remembered that it was a question for finding the area of a cone.

"Choose B, isn't it a matter of course?" Fang Hao replied affirmatively, "The fifth question is not difficult at all. You also chose B?"

Chapter 352: Being ridiculed (part 2)

Fang Hao turned to look at the students, and sure enough, everyone nodded.

"Mine is also B." Gong Qingyu said lightly, "but the correct answer to this question is actually C!"

"The answer is C?"

The students in the specialty class were stunned, and then immediately rejected the answer in their minds.

Impossible, absolutely impossible!

It is understandable to say that a person did the fifth question wrong, but it is impossible to say that all the top students in the experimental middle school special class have done one wrong question!

Don't talk about the fifth question, just talk about the last question that is the most difficult to solve. It is absolutely impossible for everyone to make a mistake. Someone will be able to answer it.

Therefore, the fifth question is definitely B!

But Gong Qingyu didn't explain much. He packed his things and left the school gate, and walked onto the luxury car, the BMW M960, which was parked on the side of the road waiting for her.

"hateful!"

"What the \*\*\*\* is going on!"

Fang Hao gritted his teeth with hatred, took out his mobile phone and contacted the math group leader of Zhicai High School.

Unexpectedly, the other party sent him a picture, and Fang Hao clicked it to take a look. The whole person was stupid.

"Did you choose B and C for the \*\*\*\* math single-choice question?"

Fang Hao's words made the students in the special class stunned again. Li Yun chose two answers to his math question?

"Hehe, really stupid, I think the answer is stupid, right?"

Fang Hao reacted, with a mocking and gloating smile on his face, turning his head and smiling at everyone: "This silly ratio is really amusing, no, I have to post it online to let the majority of netizens see how silly he is! "

After finishing speaking, I directly posted the picture on Weibo, without considering the question of where the sample of the test paper has not been unsealed now.

"It's really stupid."

"I'm afraid Li Yun is crazy, right?"

Some students in the specialty class followed to mock Li Yun, but most of them were very calm, and some had already begun to recalculate what was going on with the fifth question.

"wrong!"

Soon, a male student with super mental arithmetic ability discovered the pitfall of this question. He said with a dazed expression: "I, Cao, it seems...it seems, probably the answer to this question is really C? "

Other students also screamed.

"This Nima...The answer is approximate??!"

"If one more significant digit is retained during the calculation process, the answer... is 113!"

"That's it, this question is a ghost!"

After repeated calculations by this group of geniuses, they finally got the same conclusion as Li Yun before, which is also a shocking conclusion.

According to the textbook example, the answer to the fifth question is 112.

But according to the examination institute's rules on taking approximate numbers, the answer to this question is 113!

After the conclusion came out, the classmates who had mocked Li Yun before even became red with shame.

"Fang Hao, it seems...eh?"

Everyone wanted to tell Fang Hao the news, but unexpectedly, he had already left the school.

What's more unfortunate is that Fang Hao has posted the breakthrough of Li Yun's math test papers online...

Post it in Zhonghai No.1 Middle School.

A bar friend named 'Tomatoes Stir-fried Green Onions' posted a post.

"Awesome, admire, mathematics single-choice question, someone actually chose two answers. [Picture]"

Many students from No. 1 Middle School curiously clicked on the picture and looked at it. At a glance, they saw the two English letters B and C in the brackets in the fifth question.

"Who is so stupid, that there are two answers to the math multiple-choice questions? [Laughs]"

Chapter 353: Low-level and stupid mistake

"I, Cao, I have only seen you in my life!"

"6666, this IQ is better to go back to herding cattle, learning is not suitable for him!"

"Wait, I'm Cao, the name of this test paper is Li Yun?!"

"I slowly typed a "?"

"Really? That arrogant guy got five points here?"

"It's true, it's crazy now on Weibo!"

Just how famous Li Yun is among the sub-groups of a middle school can be seen from the number of replies to this post.

Post it followed by 100,000 people. The number of replies to this post was abruptly piled up to two thousand, and it was within half an hour. This shows that the last time Li Yun defeated a middle school student, how much pressure was placed on them!

Now Li Yun finally made a mistake, and it was still a very low-level and stupid mistake, which gave them a sense of carnival excitement.

Driven by this kind of emotion, this group of middle school students frantically spread the news to various deduction groups, forums, and chat tribes, allowing more people to take a look at Li Yun's ugly attitude.

On Weibo, after Fang Hao posted Li Yun's test paper, the popularity about him skyrocketed again.

It can even be said that this is a stormy wave. Discussions on the topic of #李云 单选变多选# have forcibly overwhelmed the love enthusiasm of a traffic star official with a certain hundred million fans, which made many people who eat melons very much. Surprised, who is this Li Yun?

As a result, the newly joined melon-eating crowd laughed when they saw that someone had chosen multiple answers to a math question, and they all laughed and responded with a 'silly ratio' and 'mentally retarded', and they enjoyed watching the show.

When Li Yun and his sister went to the vegetable market to buy food and returned home, they even asked the uncle who was in the community: "Li Yun, you kid didn't do a good job in the exam. Now, are you making a joke? Don't do it next time. That's it! You have to take a good exam, and a good university in the future, so that you won't be sorry for your grandpa's cultivation!"

Li Yun couldn't laugh or cry, "Uncle, I...well, forget it, what the uncle taught."

I can't tell the uncle, I can only follow the uncle's meaning.

After another verbose warning, the uncle janitor waved his hand to signal Li Yun to leave.

"In fact, the uncle is very good." Li Feng said with emotion, and then looked at Li Yun tightly: "My dear brother, what's the matter with your question?"

"Both answers are correct."

"what?"

"I'll explain to you later, let's go back and cook first."

"Okay." Li Feng nodded helplessly. Her brother became more and more assertive, and she was almost unable to hold him down as an older sister.

When the twin sisters Caiwei and Caixia came back, it was not surprising that the sisters also heard about Li Yun. With Li Yun's popularity, it spread throughout the middle and high schools of Zhonghai City, even elementary schools. .

While making dinner, Li Yun successively received calls from his girlfriend Fang Xue, his prospective girlfriend Xiao Jiao Su Muxin, and the little fox Xiao Meng. They all asked about the math test papers. Li Yun was very moved.

"Okay, okay, I'm fine, don't worry."

After comforting his girlfriend, Li Yun received another call.

"Wu Ke?"

"Boss, do you want me to help?"

"what?"

"Mathematics test papers." Wu Ke smiled, "Although I don't know what the boss is doing, public opinion is not good for the boss now. I can ask some people for public relations to let the heat down."

Chapter 354: The anger of the old principal

Li Yun couldn't laugh or cry. He didn't expect Wu Ke, his most contemptuous navy, to use it.

Of course, public relations is not necessarily to invite the navy, but to settle some influential big V, or simply withdraw the hot search.

"No, the mere rumors on the Internet still can't affect me." Li Yun said lightly.

"Well, the boss is different!"

Wu Ke gave a little flattering, and then said: "We have a large job fair on Wednesday, and we will hire more people by then. Are you coming?"

"Wednesday? All right!"

Li Yun agreed, thought for a while, and called the math teacher.

Unexpectedly, as soon as the call passed, the teacher immediately assured that the principal was already dealing with it.

Zhikai High School, seven o'clock in the evening.

Many leaders did not take time to eat dinner, and they all waited. The mathematics teachers of the whole school, other groups, teachers who participated in marking the papers, and the directors and leaders were all called to the meeting by the principal.

"All talk about it, what the \*\*\*\* is going on!"

The old principal projected the picture of Li Yun's test paper on the projector, but it was not necessary at all. Everyone had already seen this picture.

There was silence, and everyone did not dare to breathe.

"Tell me, what the \*\*\*\* is going on!"

The old principal slapped the table severely, and many school leaders and the teachers standing around were taken aback, but quickly bowed their heads.

In this case, it was caused by their negligence in management, and they had to admit punishment!

"Teaching director, tell me, how did this picture spread on the Internet?!"

The old principal's old face sank, and he said very solemnly: "If you don't figure it out this time, you don't want to change your papers, but you must summarize your results on Sunday morning. In other words, you can change your papers as soon as possible. So I can work less overtime!"

The dean is newly appointed and is also the person in charge of this mock exam. After receiving instructions, he immediately turned his head and said to the group of teachers who approved the papers: "Who among you saw someone taking pictures quietly?"

Everyone shook their heads, the math group leader was sweating coldly, and his body couldn't help shaking.

The dean of teaching noticed his anomaly at a glance, and immediately turned his head and shouted: "As the leader of the math group, you must know who is good at opening the seal of the test paper, and who did it?!"

"Yes, yes, it's me..." The math group leader couldn't help but confessed directly.

The faces of everyone are weird, he is completely guarding and stealing!

The old principal's face became more gloomy: "What the \*\*\*\* is going on?!"

"Yes, it was a student who asked me to do this, saying that he wanted to know Li Yun's grades earlier, so I just..."

The math group leader also regretted it. Originally, even if the results were leaked in advance for this mock exam, it was not a big deal. It was not the college entrance examination, but each school approved the papers by itself.

As the team leader, he knew in advance that a student's grades were nothing.

Unexpectedly, Fang Hao's cheating guy posted pictures of Li Yun's test papers on the Internet, and it just so happened that Li Yun's current popularity was so amazing that it suddenly became popular all over the Internet!

As a result, the mathematics team leader had a tragedy.

"You have to be thankful that this is not the college entrance examination!"

The old principal severely criticized: "There is no organization and discipline. Don't sit in the position of the math group leader."

The former math group leader paled.

"In addition, this matter must be reported to the Jiaoyu Bureau, and how to deal with it is up to the leadership to decide!"

Still the same sentence. Fortunately, it is not the college entrance examination. Otherwise, the person who leaked the question will definitely be detained and await trial by the court!

Chapter 355: Great

After dealing with the black sheep, the old principal asked seriously: "What is going on with Li Yun's test paper? Why did he write two answers? Did someone change it secretly!"

In an instant, all the math teachers shook their heads quickly.

"No, it's not me, the principal, it's really not me!" The former math group leader almost cried and waved his hand to indicate him.

If you just leak your results in advance, it's just a matter of punishment within the school, but if you secretly modify the test paper, it is slander, an illegal and criminal act, and you must be taken away by the police for interrogation!

"Humph!"

The old principal snorted coldly, "I personally called Li Yun to ask."

Obviously, he no longer believed in the math group leader.

"Li Yun, don't worry, I just want to ask a few questions when I call."

"You really wrote the two answers B and C? But how could you..."

Not only was the principal surprised, but the other teachers also had weird faces, and they couldn't figure out why someone would choose two answers.

"Both answers are correct?"

The old principal showed a look of astonishment, and many leaders and teachers who heard these words were also dumbfounded.

But after another thought, Li Yun was not a fool, but a genius who had scored 749 points on the test. It was impossible for him to make such a low-level mistake.

then.

"All math teachers, please verify what you are saying!" After the old principal hung up the phone, he was shaking with excitement, and exclaimed in excitement: "Temporarily put aside other tasks in his hands, and verify the number of math test papers for me on the spot. Five questions!"

"Me, I'm coming too!"

The former math group leader wanted to redeem his merits and quickly took out paper and pen to calculate.

But after counting this simple question, the answer was still 112. It was not until a deputy principal who was familiar with the rules of the examination institute reminded that the math teacher changed his mind and came up with another answer:

113!

"This....."

"It turns out that Li Yun didn't have the problem."

"This question is a bit oolong, let's see how to deal with it."

The mathematics teachers came to the same conclusion, but they couldn't deal with it. They could only say that the problem was cheating.

"Are you sure?" the old principal asked repeatedly.

"confirmed!"

A senior mathematics teacher nodded, "I just checked the regulations of the Lower Examination House, and the answer is indeed 113 in the case of approximate values, but 112 cannot be said to be wrong, so..."

"Good! Great!"

The old principal slapped his thigh and exclaimed excitedly: "Both answers are correct, this is the best!"

Everyone was puzzled, and the old principal explained with a smile: "Although everyone else got it right, Li Yun is the only one who wrote both answers! In this way, our school's reputation will not be even greater. ?"

so it is!

Everyone suddenly realized that, indeed, in the entire Zhonghai City, Li Yun was definitely the only one who had chosen two answers!

"Immediately call our school's official Weibo to send a message, saying that there may be two answers to the fifth question of the math test paper, which is awaiting debate."

The old principal urged: "As well as you, you can also post on Weibo, or wherever you are. We will spread this news as soon as possible, so as not to let the outstanding students of our school suffer unwarranted disasters in vain!"

Everyone acted immediately, but mocking Li Yun on the Internet has become a trend. Many people have made up jokes and spread faster.

Because Li Yun posted another Weibo, it aroused greater indignation and ridicule among netizens.

"The truth is in my hands."

Chapter 356: The truth is in my hands

When Fang Hao saw Li Yun's Weibo, his lungs almost exploded.

Even now, this guy is so arrogant, so shameless to the extreme!

"Okay, very good, make you crazy, see how you die!"

Fang Hao sneered. Li Yun's Weibo was reposted 100,000 times in a blink of an eye, and the comments below were even more unsightly. All kinds of ridicules were overwhelming, and people admired the creativity and hilariousness of netizens.

Fang Hao was holding the winning ticket, and then forwarded it a little taunting.

Everyone who followed Li Yun was startled by this Weibo, and then smiled bitterly. This Weibo really fits Li Yun's character.

Introverted, yet unassuming, confident, but not arrogant.

Regarding the doubts from the outside world, Li Yun would only use facts to tell everyone: you are wrong, not me!

"Crazy crazy, blogger, you are the most arrogant high school senior I have ever seen!"

"Lenin only said that the truth is in the hands of a few people, but you are so \*\*\*\* crazy that the truth is in your hands?!"

"Zhouyou fans came to report, the truth is not as good as Brother Jie!"

"I think the truth, and never repent, this is the saddest."

"The truth is that you make multiple multiple choice questions???"

Amidst the ridicule of netizens, a topic quietly appeared on the hot search list and quickly aroused discussion.

#上海市 Mock 5th question correct answer#

Many netizens who didn't know why they saw this topic were all stunned. Isn't the fifth question the question that Li Yun chose B and C?

I clicked in with curiosity and came to the official Weibo of Zhicai Middle School in Zhonghai City and saw the explanation of the fifth question by all the math teachers in Zhicai Middle School.

"... My Cao?"

All the people who read it were dumbfounded, what's the matter?

Post it in Zhonghai No.1 Middle School.

Post: "Awesome, admire, mathematics single-choice questions can really be made into multiple items!"

The post was still posted by the bar-mate of 'Tomatoes and Green Onions', with almost the same title, but this time, his tone was extremely humble.

"I admit, I was wrong, Brother Li or you Brother Li! Single multiple choice question? No, in the hands of Brother Li, you are a single multiple choice question, and you have to turn it into multiple choices for me!!"

Stir-fried with tomatoes and green onions wrote in an admiring tone: "I deliberately went to the second year math book and found the same example [picture]. According to this calculation method, the answer is 112. But according to the regulations of the examination institute, the answer is approximate. It's 113! [Picture]."

"First floor: High school students don't understand, so what is the answer?"

Second floor: I'm so \*\*\*\* stupid, Li Yun really has two troubles with this B!

Third floor: It is said that all the senior high school students in the school chose B. As long as a small part of them can't do it, they choose C..."

"Original: Back to LS, the answer is obvious. Both are correct. Whether it is 112 or 113, it meets the regulations. That's why I said Brother Li is awesome, he wrote the most correct answer!"

"Fourth floor: The classmates in my group are crazy. They came to the same conclusion as LZ. Both B and C are correct answers, but C is more in line with the regulations.

Fifth floor: All crazy +1, this time the first middle school, no, there are also third middle schools, the senior middle school students of the experimental middle school, and all the candidates in Zhonghai City are stupid, only Li Yun is right.

Sixth floor: It is said that the math teacher in our school checked the calculations overnight, trying to find out where the answer C did not meet the requirements, but unfortunately, I couldn't find it..."

## Chapter 357: Public opinion reversal

"I'm blind, is this true?"

"My Cao!?"

"Do you want to slap your face so fast?"

"Li Yun is not a human being, he is a monster!"

"No, I'm only happy, so you tell me that it is really B and C two answers?"

The replies at the bottom of the post were either shocked or unbelievable, but more people expressed admiration.

As time progressed, more and more people posted to confirm that the answers they verified were exactly the same as those written by Li Yun.

Both options B and C are correct, and the answer C, which is ignored by most people, is the more accurate answer!

In less than half an hour, the wind direction of the post bar in No. 1 Middle School changed a lot. Many people posted messages saying: I take it, big boss, niubility (niubility) and so on.

The same is true for Weibo.

More and more people posted all kinds of evidence and calculations, leaving the netizens dumbfounded and frightened.

As the person in No. 1 said, Li Yun made the single-choice questions into multiple-choice questions. This is incredible!

"Brother, I was wrong, you are really strong!"

"Before I even scolded the blogger for saying that you are Silly, but now I know that I was Silly!"

"Xiu, Tianxiu, the show of the flowers!"

"Great brother, the entire Zhonghai City has 100,000 candidates, you are doing it right!"

"It is strongly recommended that the examination institute resign and apologize. What the \*\*\*\* is this!?! [Annoyed]"

"The truth is in the hands of the blogger, I am convinced, really."

"Yes? Can you tell me why you are so awesome?"

"Come on, say with me: I'm sorry, Brother Li, Brother Li is awesome! [狗头]"

Under Li Yun's last Weibo, netizens sent apologies. The facts have proved that it was not Li Yun that was wrong, but the examination institute.

The wind on the Internet changed in an instant, and netizens were ashamed and pointed the finger at the first person who broke the news.

That is, Fang Hao, who released Li Yun's math test papers in advance!

"Blogger, you are very good. The official results are not available. Where did you get the test paper?"

"Oh! This kind of person looks like a person with a small belly and chicken intestines. If they can't understand the excellence of others, they try to make tricks, which is disgusting!"

"Published in advance, and the test papers have not been published specially by others. It is recommended that the examination institute of Zhonghai City conduct a thorough investigation, so that the college entrance examination will not be out of the question!"

"Where is the teacher from Zhonghai Experimental Middle School? Can't explain it? Why do you have such a spicy student in your school!"

Fang Hao actually went to chat with a female classmate after seeing Li Yun being pointed out by Wanfu, and a classmate who was flattering him was reported to him about the change in the Internet's trend.

"What? Li Yun is right?!"

Fang Hao hurriedly searched the Internet for news, the more he looked at his face, the uglier he was.

Finally, when he saw his Weibo comments made by netizens who were ashamed and angry, he yelled out of anger and almost fainted.

"Jingle Bell."

Fang Hao's cell phone rang, and his face paled a bit when he saw the phone. After trembling and connecting, the headmaster's inquiries came from the phone.

"How do you know other people's test papers in advance?"

"Yes, I got it by accident!"

The principal was silent for a while and shook his head: "Oh, I was only here to confirm whether there was any wrongdoing. In fact, the math group leader of Zhicai High School has already admitted."

"What?! This..."

"Fang Hao, do it for yourself. Recently, you can take time off to review at home and wait until the limelight has passed."

After speaking, the principal hung up the phone, leaving Fang Hao completely stupid.

Chapter 358: Li Yun is the winner

At ten o'clock in the evening, the Zhonghai Municipal Examination Institute issued an announcement regarding the handling of the fifth question of the mock exam and the multiple-choice question of mathematics.

"...Finally, after the question group and invited experts and professors, it is decided after research that there are two answers to the fifth question of mathematics: B and C.

In this exam, choose B, or choose C, or both, can be regarded as the correct answer!

Thanks to all sectors of the society for their supervision and support of this mock test, and also to classmate Li Yun, who pointed out the shortcomings of the test paper in a silent manner. We must carefully review and learn from the lessons in the future work to ensure that we do not Will make the same mistake again.

Another: Attached is the letter of apology from the high school mathematics textbook editing team of Zhonghai City. "

In the letter of apology, the textbook editor also stated that he made a mistake when he wrote it and that he should not make such a mistake, which caused the approximate value to be inconsistent with the standard.

After the announcement of the Examination Institute was issued, it was officially announced that the matter had settled. In the event of single-choice changing to multiple-choice events, which caused a lot of noise, it was Li Yun who was on the winning side in the end.

He defeated 100,000 examinees in Zhonghai City, thousands of mathematics teachers in Zhonghai City, hundreds of experts and professors, and tens of millions of netizens across the country who sprayed people without thinking.

Li Yun is the winner!

"The truth is in my hands."

Sitting on his sofa, Song Yidao holding a teacup in his hand, fixed his eyes on the notice of the examination institute, and chanted what Li Yun had said, but he could not return to his mind for a long time.

During the whole farce, Li Yun didn't say much, but just responded to everything with an extraordinary attitude.

But justice and truth stood by his side from the very beginning. How can other people crush him even if they have thousands of troops?

"A soldier who has fallen without a fight."

Song Yidao, the top learning genius, finally showed a wry smile for the first time.

There is no doubt that even if he gets full marks in this mock exam, it is meaningless.

From the time he wrote answer B on that multiple-choice question, he lost this competition.

"Li Yun...I remember you!"

A touch of determination flashed in Song Yidao's eyes. He was not so easy to defeat. Next time, he must beat Li Yun!

The next test is not the third mock test. It is too simple. Only the college entrance examination is the stage to verify which of the two is stronger!

...

"Big brother is amazing~, it's really big brother, you are right~!"

"Little Meng?"

"Well, it's me. Big brother really hates me. I only recognize him now!"

Hu Xiaomeng's petite figure shrank on a soft sofa, wearing only a pair of hot pants and short sleeves, her delicate skin as white as jade exposed to the air, and her little melon seeds were overflowing. With a smile, he looked extremely lively.

She has been following Li Yun's news on the Internet. Like everyone else, Hu Xiaomeng used common sense to infer that Li Yun was stupid, but she quickly overturned this conclusion.

Because in her cognition, Li Yun, no, big brother is not a stupid person.

Sure enough, things took a huge turnaround, and the big brother finally won!

After this incident, Hu Xiaomeng, a girl who was innocent and innocent, but who was almost like a little devil with a rebellious thought in her heart, finally recognized Li Yun and sincerely wanted Li Yun to become her elder brother.

Chapter 359: Hu Xiaomeng's heart

If Li Yun knew that this girl Hu Xiaomeng was full of bad water, he was not innocent at all, and would even do damage from time to time, he would definitely spank her ass!

Obviously, I had barbecued for her several times, but Hu Xiaomeng didn't approve of her, so it was time to fight.

"Hehe, big brother, I will go back to Longyang County to see my grandfather next week. Then I will find you, and the two of us will find my grandfather together, okay?"

Hu Xiaomeng's delicate little face was stained with a thin layer of blush, and the appearance of the young girl's spring heart was really pitiful.

It is a pity that she now lives in the luxurious apartment of the noble school, with three bedrooms and one living room, plus a study room, shower room, and dressing room. Apart from the aunts who will do the cleaning in the morning, afternoon and evening, the rest of the time is by Hu Xiaomeng alone.

Naturally, no one can see the beautiful appearance of the young girl's spring heart.

"I miss my elder brother... the food he cooked."

Hu Xiaomeng wanted to say that he missed Li Yun, but he felt too shy and quickly changed his words.

Li Yun smiled, "Xiaomeng, you have said this sentence twice, and I have promised it twice. Let's talk about it when you come back."

"I hate it, this time, this time...Anyway, I want to see Big Brother soon!"

Hu Xiaomeng acted like a baby for a while before she hung up the phone reluctantly.

Putting the phone on the table, Hu Xiaomeng hugged the pillow on the sofa, his eyes drifting a bit, as if thinking about something.

After thinking about it, she quickly picked up the phone and called up Li Yun's photo. After seeing the handsome and confident elder brother, the girl couldn't help but twitch a sweet smile on her mouth.

"Big brother~~ what to do, what to do!" Hu Xiaomeng hugged the pillow and rolled back and forth on the sofa, whispering in his mouth: "Xiaomeng found out that he likes you, big brother, what do you think I should do? ~~!"

Her innocent and cute appearance, coupled with the long-lasting blush on her cheeks, made the girl's beauty more and more attractive.

...

Two days in the weekend, Li Yun was asked to go out again by his girlfriend Fang Xue. The two spent a whole day shopping in Longyang County on Saturday. Fang Xue was happy to buy a bunch of things and clothes that she actually didn't need at all. Small accessories, cosmetics, etc.

As a result, she finally gave all these things to Li Yun and asked him to take them back to Caixia and Caiwei.

On Sunday, Fang Xue came to Li Yun's house again and said that he wanted to go to the movies, but the jealous Li Feng also joined in.

Li Yun suspected that Fang Xue's intention was to let Li Feng go with him, but after two days of shopping, Li Yun was almost exhausted on Monday.

"Girls' energy when shopping is really limitless."

"Should I not give Fang Xue and her sister a small-sized jidan? Their stamina is too good!"

Thinking of his girlfriend, Li Yun could only shook his head and smiled bitterly. Fortunately, this weekend to make up classes, and I can't even go shopping if I want to. This week, I will make up for her.

"Li Yun, are you up?"

When I got up on Monday, I thought of Fang Xue. As soon as Li Yun got up, he heard her voice. Then, the door of the room was opened, and a light and beautiful figure walked in.

"Ahem, Xiaoxue, why did you come to my house?"

Li Yun was quite embarrassed, and quickly covered him with a sheet.

A man turns into Optimus Prime when he gets up in the morning, and he can't help it.

Unexpectedly, Fang Xue's eyes looked straight at him. After a long time, she suddenly said: "You didn't do... homework with Li Feng last night, huh!"

At the end, she hurriedly covered her mouth, her beautiful face blushing.

Chapter 360: Fang Xue's determination

Li Yun was stunned for a while, did his sister really tell Fang Xue these secret things?

In this way, the relationship between the two is actually very good, and they are willing to accompany Li Yun together?

Thinking of this, Li Yun's heart was hot, and almost couldn't help but want to hug Fang Xue who was standing at the door, and let her experience Li Feng's feelings last night.

Of course, that's just thinking about it.

"Ahem, Fang Xue, you go out first, and I'll change my clothes." Li Yun is not embarrassed, he is afraid that Fang Xue will be embarrassed.

But his girlfriend seemed to have made up his mind and kept looking at him with straight eyes.

That being the case, Li Yun didn't feel awkward. He just got up and changed his clothes. It was not easy to press the gun, causing Fang Xue to keep his eyes on him.

"How is it?" Li Yun smiled at her after getting dressed.

"Huh, big \*\*\*\* ghost, it's ugly!"

After satisfying her curiosity, Fang Xue turned her head proudly, but her white face was blushing.

She was just trying to do her responsibilities as a girlfriend. After all, Li Feng had quietly told her that Li Yun, a bad guy, would have a bowel movement anytime and anywhere, but only Li Feng was the only one to suppress his subordinates.

Therefore, since Fang Xue is his girlfriend, and the relationship between the two is very good again, she thought, after the college entrance examination is over, or at some appropriate time, she will...

Entrust yourself completely to him.

All this is to prepare for that day.

"real?"

Li Yun's expression was very wrong and innocent. Fang Xue hit him shyly with a small fist, and then said quietly and quietly: "Very handsome, I, I don't hate it."

Before seeing Li Yun, Fang Xue had never imagined what her boyfriend was like, but after meeting Li Yun, she felt that it would be a very happy thing to grow up with him.

Li Yun hugged her tenderly, and the two hugged each other, the scene was very warm.

"Ah, brother... Sister Fang!"

Caiwei's surprised voice caused the two to separate quickly. Fang Xue's cheeks became more and more rosy, but Li Yun cheeky and said hello to Caiwei, and turned to wash.

"Picking, plucking Wei." Fang Xue's face blushed and found a topic, "Do you like the drawing board I bought you yesterday?"

"Well, I like it very much, thank Sister Fang!"

Caiwei's obedient answer made Fang Xue happy. She felt that this weekend was a good time, and she was able to go shopping with Li Yun, and bought a bunch of things for the future sister-in-law.

More importantly, it was not her money that was spent, but Li Yun's payment.

After Li Feng got up, Fang Xue took a special look at her mouth and neck, and she saw a strange stain on her white and slender neck.

Then, Li Feng took a bath, which further confirmed Fang Xue's conjecture.

"Li Feng, the stealer, and Li Yun, the big villain!"

Fang Xue stared at the two with anger, is she going to be like this in the future?

After breakfast, the three of them walked to the school gate side by side. After Li Yun asked, she realized that Fang Xue had specifically asked the driver to drive to his house today, with the purpose of going to school with him.

"It's because our high school career hasn't been much, so you want to walk to school with your boyfriend?"

Li Feng could see through Fang Xue's inner thoughts at a glance.

"It's not!" After falling in love with Li Yun, Fang Xue became extraordinarily arrogant and naturally refused to admit it easily.

However, Li Feng has a way to subdue her, "Fang Xue, do you want me to let you a few days?"
