

Godly Choice 3601

Chapter 3601: Figured out

"What's this."

Li Yun shrugged and turned to ask Xiao Mingzhu, "Mingzhu, do you know Amaterasu?"

"knowledge!"

"Do you know Caixia?"

Fan Linglong and her daughter are now in the study. They are tired of reading or practicing together during the day, but they rarely come to the living room during the day and are very diligent.

"knowledge!"

The twins Caixia and Caiwei raised their hands obediently. They are of course very dissatisfied with their brothers going out on holiday during the New Year. However, considering that they have made great progress in their relationship with their brothers this year, they are also the pearls they admire. My sister went with me, and I only went to Sakura Country for four or five days, so I reluctantly agreed.

Shan Xiaoxiao also raised his hand.

"Let's see." Li Yun smiled and said to the son Lori, causing the latter to frown.

"But." Li Yun asked curiously: "How did you determine which goddess's site was on the Sakura Country? Didn't you say that the ancient gods were all mixed together?"

Moreover, the ancient terrain is different from ours now! "

Regardless of whether you are myth or not, the earth's topography is absolutely different from the present one hundred million years ago. Even the Antarctic continent drifted past, so Li Yun has no objection to the setting of the place where the son Xiaosu slept in the Antarctic continent.

Li Yun felt that Xiaosu fell asleep long, long ago, and became the "Antarctic continent" with the drift of the continental plate.

"You are so stupid!"

The blonde loli rolled her eyes, feeling speechless at Li Yun's stupidity.

"Huh?" Li Yun stretched out his finger towards her and made a gesture of pinching her cheek.

"Don't pinch me!"

During this period of time, she was pinched too hard by Li Yun. Little Lolita hurriedly clutched her cheeks and ran behind Cai Wei, and said angrily: "You villain divine envoy, if you say you are stupid, you still refuse to recognize it, of course who is it now I don't know where the believers are and where is someone's territory!?"

"what?!"

Li Yun thought of a lot in an instant.

the reason is simple.

According to Shengzi Xiaosu, the Kingdom of Sakura is indeed the territory of Amaterasu, and the landforms of the ancient times are not the same as the present. Doesn't this mean that these gods occasionally wake up and do missionary actions?

Before 2021 AD, that is, the first year of AD, if **** died, was it true that God was reincarnated and reincarnated on earth, preaching as the Son of Jesus?

That's why **** didn't have much power, so he was killed by ordinary people and was nailed to the cross!

But the reincarnated Son Jesus, after all, has a part of God's power. He later resurrected as he predicted before, showing miraculous power, and thus gained a large number of believers.

With that said, Li Yun thought of more.

Also more than two thousand years ago, that is, in the era of contention of a hundred schools of thought, did Lao Tzu, the legendary Lao Jun, reincarnated as Li Er, like the Son of Jesus, and wrote it down in the Spring and Autumn Period. "Tao De Jing", to teach the world?

In this way, it can explain why Li Er really exists in the Hidden Sacred Valley!

Laozi, one of the three Qings, was reincarnated and became Li Er. He turned Hu into a Buddha at Hangu Pass, leaving behind the Tao Te Ching, and then escaped into the hidden sacred valley and disappeared again.

Besides!

Earlier, the myths and legends circulated in this era of mankind, including Fuxi's gossip pictures, etc., were also the reincarnations of ancient gods and reincarnations?

Chapter 3602: History

All of the above, Li Yunguang thought, felt incredible, and felt...very convincing!

The recorded history of mankind is only 5,000 to 10,000 years, but why can he suddenly have wisdom from the ignorant evolutionary years of several million years? They began to live together, creating a prosperous city, and gradually transitioned from a primitive society to a slave society.

And, the pyramids, Easter Island, Atlantis, Loulan...

Many modern humans have unearthed them but are puzzling. Ancient relics far beyond the level of human civilization at that time seem to have been explained!

These things that transcend the times are all magical creations created by the people at that time, under the guidance of the reincarnated prophets.

There are even many great buildings that rely on the power of magic to be completed.

For example, the pyramid.

There are too many secrets about the pyramid, because according to the modern technological level, it is very difficult to build a pyramid. How did people build a 146-meter-high pyramid at that time?

At 146 meters, there are few such high-rise buildings in modern cities, but they were built five thousand years ago!

Moreover, the pyramid stones are as many as 2.3 million pieces, with an average weight of 2.3 tons. This is an astonishing amount of engineering in modern times, but it was completed in ancient times.

Although Li Yun is a native of Huang Xuan, he has to admit that the Pyramid is far more majestic than the Great Wall.

One is that the pyramids were built five thousand years ago. People at that time were not able to make ironware. They used bronze. Moreover, the pyramids are still towering high, but most of the Great Wall has been reduced to ruins.

There is no denying the grandeur of the Great Wall, which stretches for more than 2,000 kilometers, but the pyramids...

Anyway, Li Yun thinks this thing is outrageous. The amount of work of 2.3 million huge stones is simply made by aliens!

But now it seems...could it be that the pyramids were really created by the reincarnation of gods?

"What do you think?"

Saint Son Xiaosu grinned and said: "Is my divine envoy scared? No need. If you meet that sassy and pretentious woman, just call out my name!"

"What is your name?" Li Yun asked with a weird face.

He is now a little suspicious that the son Xiaosu is actually the son Xiaosu...Jesus.

No, no, she seems to have said before, father?

Is it the daughter of ***** and Fan?

Qingnv also glanced at the little loli, but in fact, she had already mostly guessed the identity of this loli.

"Humph!! I won't tell you!"

The son Xiaosu crouched on his hips and said arrogantly: "If you encounter something that cannot be solved, you will shout: My lord is coming! I will fly to you right away and help you fix it!"

"..."

I believe you to blame!

Li Yun waved his hand, "Okay, got it, then I'm leaving now?"

"Let's go, let's go, wait!"

Saint Son Lori hesitated, touched it from her pocket, took out a golden arrow, threw it in front of Li Yun, and said disgustingly: "Take it, this thing is for you as a spare."

The young girl smiled and seemed to recognize this thing again.

"what is this?"

Li Yun caught the gray arrow, and it could be vaguely seen that it was golden, but it was very old, as if it had been buried underground for thousands of years.

"Unknown arrow.

Attribute: Perceive where the owner is.

Description: Unknown. "

The system faithfully gave the attributes of this arrow, perception?

Chapter 3603: Riddler

Li Yun faintly felt a wave of fluctuations from the arrow, but it was too far, and only vaguely felt a direction, which seemed to guide him to the cherry blossom country.

"This is my trophy, I won a bet with a very smart woman!"

Shengzi was very proud, and then the thief smiled and said: "If you use this arrow to do something on the side of the cherry blossom country-not to kill, I mean, find a certain door and open it. When you come and come back, I will give you something!"

"..."

Li Yun and Xiao Mingzhu are speechless. There are a thousand puzzles hidden in one sentence. What kind of thing, what kind of thing, what kind of thing, can they be more riddler than this?

"Ding, trigger a single option event, the host does not have to choose:

Option 1: Successfully solve the puzzle, get the next hint from the hand of the son Xiaosu, reward: the next hint, uncover the next mystery. "

Good guys.

Li Yun can only be a good fellow.

The cheating system gives a single-choice question, so he doesn't need to choose?

Moreover, these puzzles are still set one by one, played as an RPG game? !

"Also."

The young girl also nodded and said to Li Yun: "If you find something in Sakura Country, and you get something from her when you come back, and then find her thing, then you will come to me again, and I will give you something else. A thing."

Li Yun: "..."

Xiao Mingzhu: "..."

Women: "..."

Good guy, this is really a good guy, these ancient bosses, one is hidden deeper than one, and the puzzles are wrapped one by one!

"No!!!"

It was Shengzi Xiaosu who shouted the objection.

She was so angry that she stared at the young girl: "You silly fox, don't follow me!"

"Hmph." Qingnv ignored her.

"Ahhhh, you are not allowed to be behind me anyway, why?!"

Little Lori meant that what you gave to Li Yun should not be given after I gave it to him. Otherwise, doesn't it seem that yours is more important, mine is just a part of the process?

"Just because I'm older than you!" The young girl was justified.

Suddenly, little Lori vented her anger.

She seems to be unable to refute that this fellow has always been an old body, but she has chosen to reincarnate as a little girl, she is indeed older after all.

"Hmph, old woman! Do whatever you want!"

Xiao Su decides that the adults don't remember the villains—this is what she's new to learn.

"What are you talking about!? Old woman? You...you are the old woman! You are immortal!"

The two began to quarrel again, so Li Yun arranged the room for the two to be far away so that they would not quarrel every day when they met.

Not too lazy to listen, Li Yun put away the golden arrow and took Xiao Mingzhu downstairs.

"Brother, come back soon!"

The sisters chased outside the living room and shouted together.

"Dad came back earlier, Xiaoxiao is waiting to take a bath with Dad again~~"

Shan Xiaoxiao also waved her hand. These days, she has been so comfortable that she doesn't have to go to school. She wakes up every day to find Caixia's sisters to play with. When she gets tired, she eats the dishes made by her father. Are with her.

In the evening, she can also take a bath with her parents, a very large bath, and they can also swim in the hot hot spring pool.

It's a pity that Dad can't stay with her all the time, he always wants to go out!

Shan Xiaoxiao made the decision to cultivate in the morning, and practice again in the afternoon after taking a nap.

She wants to practice very hard early and help her father solve the enemies and troubles!

It was so decided.

Chapter 3604: Ready to board

Li Yun and Xiao Mingzhu went downstairs. The beautiful woman Dahe Shuxia was already waiting in the living room. After seeing Li Yun, she barely smiled.

In the past few days, she probably learned about Li Yun's identity from various parties. She was almost not frightened at the time, and once doubted life and the world.

But everyone up and down Huangting Mountain told her that the owner of Villa 36 is the chairman of Baiyun Technology Company, who is famous all over the world and caused the stock price of global technology companies to plummet.

The youngest man in the world!

After learning about this, Dahe Shuxia didn't eat well for three days. She didn't even dare to tell her husband, she only dared to suggest to him that this Li Yun was much more powerful than she thought!

"Let's go."

Li Yun said casually, and walked out of the villa with Xiao Mingzhu.

There were already two cars parked in front of the door. Li Yun and Xiao Mingzhu got on one of them, and the driver from his villa drove him to the airport.

As for Dahe Shuxia, she only dared to follow from a distance.

...

Without a word all the way, I arrived at the airport of Zhonghai City smoothly. As an international metropolis, the throughput of Zhonghai City Airport during the Chinese New Year is also quite amazing. However, Dahe Shuxia reserved him in business class and can enter the VIP lounge to wait.

"Li Yun."

Taking a sip of the coffee brought by the waiter, Xiao Mingzhu sat beside Li Yun, the two of them on the same sofa, very close.

"what?"

Li Yun put his hand on Xiao Mingzhu's fragrant shoulder, and hugged her, which is exactly the performance of a boyfriend and girlfriend.

The magic is—no, of course, Xiao Mingzhu didn't object, and put his hand on Li Yun's thigh mischievously.

"do not."

Li Yun quickly let go of his hand. If Xiao Mingzhu is a little messy, he will have to bend over when he walks!

What's really amazing is that Xiao Mingzhu has never been close to Li Yun, at most, sitting on the side of the track and field, covering his head with his coat and intimacy together.

"Humph."

Xiao Mingzhu didn't let go, watching the people coming and going outside the window happily, feeling very satisfied.

This is what she wants, the feeling that Li Yun is completely by her side, it's best to last for a lifetime.

Of course, she also knows that Li Yun can't be the only one by her, but Xiao Mingzhu has become indifferent. As long as she can enjoy this state with him occasionally, she usually shares with those girls and makes friends with them. A girlfriend is better than the exclusive Li Yun.

"I think you are very happy now?"

Li Yun saw Xiao Mingzhu's mood and took the initiative to hold her little hand.

"So-so~."

Xiao Mingzhu would not say that when waiting for departure at the airport, his mood was the same as Friday night. He was most excited and looking forward to it.

Friday is often more worthy of joy than the weekend.

Just the same as now.

Xiao Mingzhu doesn't know what will happen on the next journey, but she can be sure that Li Yun will protect her and take her together. The two will face each other for four or five days.

At that time... what will happen?

Do you want to share a room with this guy?

Will he suddenly become a big hungry wolf at night?

When Xiao Mingzhu came out, she asked Liu Xianxian specifically, and only after she learned that she didn't need to prepare for 001, she felt relieved.

It seems that Li Yun has indeed become a kind of longevity. It is difficult for girls to give birth to offspring, so there is no need for much preparation.

"Just so-so? I thought you would smile at Mingzhu, humming all the way along, and when you sit with me, you will show a bright and lovely smile."

Chapter 3605: What's the future

Xiao Mingzhu's face blushed. Li Yun said, isn't it just her performance along the way?

"Too lazy to care about you!"

After looking around, Xiao Mingzhu boldly put his brain chin on Li Yun's shoulder after seeing a couple also making intimate behaviors, and asked with an urn voice, "Bad Li Yun!"

"Li Yun has it, but the bad guy doesn't."

"What did you mean by Xiao Su's words just now?"

Xiao Mingzhu ignored him, and the bad guy's name was confirmed, it was just as if he understood her suggestion.

——Since he is a bad guy, he will definitely do bad things. Will Li Yun do it?

"What are you talking about?"

Li Yun thought that Xiao Mingzhu wanted to talk about business, but he couldn't even think of this bad guy. In fact, it was an implicit reward...

"Just... don't you think she has been resurrected many times?"

Xiao Mingzhu asked seriously.

Li Yun nodded slightly without hesitation.

In fact, he should have thought about it long ago. The Taohua Village of the son Xiaosu is very hidden. The entrance is in the Antarctic continent. She also knows some things happening outside. It can be inferred that she must have some means of knowing outside information. I just can't know a lot.

Even if you don't talk about Xiaosu, Li Yun is now more and more sure that many of the sages who had returned before the Hidden Sacred Valley were reincarnated by gods!

No wonder it is called the Hidden Sacred Valley.

No wonder it is called Six Doors.

Li Yun even had a bolder guess about Six Daomen, but it was too surprising and meaningless.

He still has no way to confirm his guess, neither the saint son Xiaosu nor the young girl can speak out.

"Resurrected many times..."

Xiao Mingzhu suddenly became fascinated, "You say... if we sleep together when we are very old and very old, we will wake up again in the next few million years and see what the world has become. It is bombed by a nuclear bomb. , The humanity on the earth is all extinct, or human beings have entered the universe and entered the galactic era; or, human beings can't break through in science and technology, they can only stay in the earth for millions of years, desperately waiting for the sun to expand, bringing mankind and the earth Swallow it together?"

There are too many possibilities that Xiao Mingzhu is not listed.

Time is ruthless and full of unknowns.

Li Yun believes that many people have the idea of eternal life, or want to see what the world will look like a hundred years from now.

Modern technology is advancing by leaps and bounds. Maybe a hundred years later, humans will be able to travel to the moon freely?

Or open up a virtual world, play more fun games, see better movies, or even the kind of immersive, super-real 8D surround movies, and so on!

"I have thought about it." Li Yun said with a smile: "However, what I care more about is the present, as for the future...it's up to fate."

He seemed to understand what the young girl said before.

People need to have the idea of living in order to continue to survive and see the world millions of years from now.

Uh, maybe he and Xiao Mingzhu's thoughts were too long, so that neither of them talked about this issue anymore.

It seems that he and Xiao Mingzhu can really live that long, but the future they have to face is not only full of expectations, but also the helplessness of their loved ones passing away.

It's just that this kind of helplessness has not yet been manifested, Xiao Mingzhu still has parents and relatives, and none of the girls around Li Yun have any thoughts of not wanting to live.

Everyone is happy.

The future is also full of light.

At least for now.

Chapter 3606: Edo

For some reason, Li Yun and Xiao Mingzhu fell silent again. After a while, they looked at each other and smiled.

Both of them understood what the other side was thinking.

This kind of wonderful heart has a sharp feeling, which is really fascinating.

In fact, the conversation between Li Yun and Xiao Mingzhu just now was meaningless, just because there were too many recent things, so when the two were alone, they occasionally felt it.

After all, what Li Yun and them have recently come into contact with are all about ancient things. If you see a lot of them, you will inevitably think, if Li Yun also lived with them for several million, what would it be like?

It's just for Li Yun and Xiao Mingzhu, as well as Caixia Palace Qingyu and so on. For all the girls around Li Yun, they and Li Yun are still mortals after all, and their eyes only saw Caixia and the others after graduating from college. Pay attention to the high school entrance examination that is close at hand and the college entrance examination three years later.

They didn't think too far, they were very vague about the future.

Even Li Yun thought at most whether they would be very sad when their relatives died one by one in a hundred years.

However, the arrival of the Reiki Age has greatly delayed the arrival of this point in time, and Li Yun still has plenty of time to enjoy his current life.

"Dear passengers and friends, the plane to Sakura Country...Please take your luggage and board the plane in an orderly manner."

"Let's go."

When the radio sounded, Li Yun pulled Xiao Mingzhu up, and the two boarded the plane with the Dahe mother and son.

After flying thousands of miles across the ocean, Li Yun and Xiao Mingzhu finally arrived in the world's largest city: Edo (formerly known as).

Before landing, the passengers on the plane looked down at the super metropolis from the windows of the plane, and were shocked by the prosperity here.

Stretching for thousands of miles, with a population of nearly 40 million, it is undoubtedly the number one in the world!

It can be said that one-third of the population of the entire Sakura Country is concentrated here, forming the largest city in human history.

"How about it?"

Seeing Li Yun admiring the city underneath, Wang Shuxia couldn't help but say: "I'm kindly persuading you. Although you have an extraordinary background, this is Edo after all, the largest city in the world! It's also the capital of the cherry blossom country. If you are It's messy, maybe it's dragged away by the street rioters, and you don't know if you die by the side of the road!"

She only knew that Li Yun was the chairman of Baiyun Technology, but she did not know that Li Yun was Li Chaoren.

"Cousin, you said another thing wrong." Xiao Mingzhu smiled at her.

"Wh, what? Isn't I right? Edo is much bigger than Zhongkai City!"

Wang Shuxia's face was a little embarrassed. After getting along for the past two days, she can be regarded as an experience of the niece's methods. It can be described as thunderous and difficult to resist.

The Xiao family has her in charge, so other people don't want to get the slightest extra benefits in her hands, they have to work hard for her to get everything they want!

"Indeed, I admit it is bigger than Zhonghai City."

Xiao Mingzhu was in good time and said, "However, there is only one Edo country in the entire cherry blossom country, while Huang Xuan country has four or even seven super metropolises!"

Wang Shuxia's face was a little embarrassed.

"In addition." Xiao Mingzhu said again: "You have been in the Sakura Country for so long, and you don't know that there is no capital in this country?"

Edo is not the capital of the Sakura Country. The Sakura Country is also one of the few countries in the world that does not stipulate what the capital is in the constitution, even though all its ministries and commissions are in Edo.

".....I do not believe!"

Wang Shuxia didn't believe in evil, so she took out her mobile phone and searched, the expression on her face was a bit more exciting.

Chapter 3607: Airport

Xiao Mingzhu won again.

However, there is no way for someone like Face Slap to make her and Li Yun feel the joy of winning. The two just glanced at each other, then smiled and prepared to get up and get off the plane.

"Ding, the host made a choice, went to Edo with Xiao Mingzhu, rewarded attribute points of 10,000, and a golden gift bag*2."

When Li Yun and Xiao Mingzhu walked off the plane with their luggage, he received a prompt from the system and the reward arrived.

Speaking of it, the bags in Li Yun's inventory are already empty. In order to make the Lotus Immortal Mansion God-level Qinglian Immortal Mansion, he has exhausted all his bags. According to Li Yun's estimation, he has to store it for a long time. In exchange for a special choice of the system.

Although the system is a little pitted, Li Yun is still happy to exchange golden gift bags and colorful gift bags for powerful and useful equipment.

Now Qinglian Immortal Mansion has replaced the Innate Dao Tire, becoming the strongest guarantee for Li Yun's strength. Even the Innate Dao Tire cannot be compared for the time being, and the other equipment is even more memorable.

Li Yun didn't dare to use the former Lotus Immortal Mansion before returning to the Void Realm. Otherwise, he would escape into the Lotus Immortal Mansion, leaving a bead outside. After being captured by the enemy, Li Yun would become a turtle in the urn.

But in the current Qinglian Immortal Mansion, even if Li Yun used it in front of a Soul Light Realm like Fan Linglong, and disappeared in front of her directly, Fan Linglong couldn't detect where he had gone.

With this ability alone, Qinglian Immortal Mansion is enough to become Li Yun's life-saving skills at the bottom of his box. Even in the future, when facing ancient gods like Qingnv and Saint Xiaosu, Li Yun can't beat them, there is A chance to escape into the Qinglian Immortal Mansion!

The Chaos Treasure-level Qinglian Immortal Mansion, or the ancient gods and immortals, who is stronger?

Li Yun also didn't know.

"Here."

In a cold tone, Wang Shuxia led Li Yun out of the airport and walked towards the waiting area.

The airport in Edo is no different from Zhonghai City, not bigger, and even looks a bit old.

However, the script of the Sakura Kingdom is mixed with Chinese characters and fake texts, just like ghost painting symbols, so that the orthodox suzerain, that is, Li Yun, made the corners of his mouth twitch.

There is no need to say much about the modern history of the Sakura Country. This inferiority and arrogant country has crazily worshipped the West in modern times, has been completely

Westernized, and after gaining development, it has pretended to be higher than the sky, counterattacking the sovereign nation, and committing numerous crimes.

Of course, the current cherry blossom country has been punished, and the country is directly controlled by the beautiful country, becoming a semi-colonial and civil land.

Li Yun didn't bother to care about what this inferiority and arrogant country was like, and was not interested in going to a shrine where war criminals were placed, unless the people here provoke him.

If Li Yun takes action now and destroys the shrine, it is certainly possible, but it will inevitably arouse a lot of international criticism. Unless Li Yun chooses to leave Huang Xuanguo or turn off Baiyun Technology and become a lonely man, it is impossible for him to do it. What a crazy move.

The social morality is actually a kind of restraining force that restricts the strong like Li Yun, so that the strong must consider what others think of him before doing anything.

Li Yun admitted that he didn't have the kind of decisive character, and he was too rational in doing things.

It is an advantage, but also a disadvantage.

"What do you want? Let's go!"

Xiao Mingzhu happily took Li Yun's hand. In this unfamiliar city, she could release her heart to the fullest, without worrying that someone would recognize her.

Chapter 3608: Accident

Xiao Mingzhu was only accompanied by Li Yun now, and there was no half of anyone he knew around, at most, the small, wretched men of the Sakura Country, who saw her beautiful and frequently looked over.

"Hey, miss, are you alone?"

Xiao Mingzhu and Li Yun stood in the airport waiting room for less than three minutes. At least five groups of people came to inquire about Xiao Mingzhu's line number. After learning that she was a member of Huang Xuan country, these men got even more energetic.

Li Yun was too lazy to make trouble, thinking about this unfamiliar place, but seeing the unscrupulous appearance of these men, he had to stretch out his fist.

boom!

The flames lit up, and the hair of the people around was fluttering with a flame. A group of people paled with fright and hurriedly fled.

The airport rioted in an instant. Several security guards from the Sakura Country rushed out, as if they wanted to inquire, but after knowing that Li Yun and Xiao Mingzhu were from Huang Xuan Country, they immediately pulled out their guns and ordered Li Yun and Xiao Mingzhu in Japanese. Put down all weapons and raise your hands.

The people around were all standing onlookers, one by one waiting for a good show.

Especially knowing that Li Yun is a supernatural person from Huang Xuanguo, but after making trouble here, he showed contemptuous eyes.

"The discrimination here is very serious."

Li Yun said lightly, Xiao Mingzhu said.

"um, yes."

Xiao Mingzhu didn't panic at all. He stretched out his hand and fluffed up her hair, ignoring the eyes of people around him, and said to Li Yun: "Our country has a large scale and does not care about their intrusive behavior. It also promotes the friendship between the two countries. It is a pity," , Fengyue Tongtian' is destined to be just our wishful thinking.

Here, most people look down on us! ! "

Xiao Mingzhu's voice grew louder, and she swept around these people coldly: "Before you harassed me, but no one stood up. Now my boyfriend drove you away, you immediately came out to maintain law and order! What do you want? ?!"

Although Xiao Mingzhu came this time because he wanted to spend a pleasant date with Li Yun.

However, her beauty finally attracted peeping. The people here invited her and Li Yun to come, but they didn't want her to have a good vacation at all!

"Ding, trigger the option event, please choose from the host:

Option 1: Join Xiao Mingzhu to kill at the airport, reward evil value +100,000, colorful gift bag*1.

Option 2: Join Xiao Mingzhu in the unscrupulous killing in the cherry blossom country, revenge with blood, reward evil value +1, peerless treasure gift bag*1.

Option 3: Find a solution and reward the purple gift bag*2, which is good for something. "

Li Yun glanced at the system prompts, and it was strange to say that the second choice was to kill more people, but the evil value was less.

Could it be that the people of Sakura country have surrendered to him because they killed too many?

There is a saying that killing one is a sin, and Tu Wan is a male.

Nine million slaughtered, that is, the male Zhongxiong.

"Let me do it."

Li Yun stretched out his hand to stop Xiao Mingzhu, faintly glanced at the crowd of people watching the lively cherry blossoms, and took a step forward.

boom.

The ground was cracked inch by inch, and the scorching atmosphere burned the ground into magma, and billowing smoke emitted, shocking the people around, thinking that the airport had become a hell, revealing a boundless atmosphere of terror.

As for Wang Shuxia, she was completely frightened.

What is going on? ! Why did it suddenly become like this? !

"Ten seconds to you." Li Yun said lightly: "Whether you understand or don't understand, if this matter does not satisfy me, the price will not be affordable for you!"

Chapter 3609: solve

"Mr. Li, Mr. Li!"

A few people in black rushed out of the crowd, trying to stop them, but they didn't dare to get close to Li Yun, all of them sweaty in a hurry.

"You guys are from Yamaguchi?"

Li Yun got an affirmative answer.

"Give me a solution!"

"Yes, yes! We will definitely satisfy you, Mr. Li!"

With that said, several people in black caught the man who had harassed Xiao Mingzhu before, and slapped them a few times, making these people full of faces.

The crowd of Sakura people did not dare to approach, instead they moved farther away, even the security guard who wanted to show Li Yun's color before retreating.

They dare not offend the Yamaguchi family!

"This this this!"

Wang Shuxia was completely frightened.

"Okay, let's go, take me to see your group leader!"

Li Yun waved his hand and let the group of people roll away.

There is no end to this matter.

From the moment he and Xiao Mingzhu got off the plane, Li Yun actually felt that someone was spying on him secretly, including the men who came to harass, and the security guards who rushed out. They were all arranged.

For the purpose, Li Yun doesn't have to guess, but he also knows that it is probably to try his strength. If Li Yun is not capable, he will be killed at the airport, either being repatriated, caught, or simply being dragged away by someone who doesn't know. Throw it into the custom shop in Mihuacho, where there are not only custom shops for men, but also Cowherd shops for women.

In terms of the looks and temperament of Li Yun and Xiao Mingzhu, Fengsu Store will not refuse.

"Li Yun?"

Leaving the airport, Xiao Mingzhu and him got into a car sent by the Yamaguchi family, and asked him what he meant with their eyes, just like this?

"Don't you want excitement?" Li Yun held her hand and felt the excitement in Xiao Mingzhu's pulse. The indifferent expression on his face turned into a joke: "Didn't you feel excitement just now? Or else you can come later? Take action and shock these little Japanese people!"

The driver who drove, and Yamaguchi Ken, who had accepted the task while sitting in the passenger seat, both showed embarrassed expressions.

This Mr. Li, who was invited from Huang Xuanguo, knew that they could understand Huang Xuan's national dialect, but he still used words to despise their country!

It was as if he had made it clear that he looked down on their cherry blossom country!

But who made their Yamaguchi family use this method to test Mr. Li's strength first?

"Hai!! Mr. Li, please forgive me!"

Yamaguchi was in the position of the co-pilot and bowed his head to apologize. It is estimated that if he were not in the car, he would come to take a seat and respectfully apologize to Li Yun.

Li Yun also believed that he definitely apologized sincerely.

After all, in terms of the characteristics of the Sakura people worshipping the strong, Li Yun's shot at the airport just now has shocked them, at least for the moment, this Yamaguchi Ken is really surrendering to him.

However, the ambition of the Sakura people is not dead, and they are very restless. The temporary surrender now does not mean eternal surrender.

At this moment, Yamaguchi Ken, who sincerely apologized, waited after he got down to the chassis of Yamaguchi's family, if Li Yun showed a little timidity, it is estimated that he would be arrogant again.

Just like in history.

During the Tang Dynasty, the Sakura Country sent many people to study the culture and system of the Tang Dynasty, and they also studied with humility. But after learning, the emperor of the Sakura Country at that time uttered nonsense, saying that he was the emperor of the Sunrise Country, and Huang Xuanguo is the country of sunset.

Ambition and arrogance can be seen, Li Yun really has no good feelings for such a country.

Chapter 3610: Mingzhu, leave it to you

In addition, it was the same seven or eighty years ago.

After learning Western scientific knowledge, the Sakura Country became arrogant again, attempting to counterattack the Xiong Country and the Beautiful Country, but was supported by Huang Xuanguo, who was the weakest at the time, and was finally beaten up violently.

Li Yun didn't want to recall all these kinds of things.

This island country had a humble and easy-to-learn heart when it was backward, but after learning a little bit, I felt that I could do it again.

OK, then hit it again!

Including now, too!

"Me, me?"

Hearing Li Yun scolding Sakura Country as Xiaori, Xiao Mingzhu laughed happily, but was a little nervous: "Although I am now in the master state, I have also learned a little bit of ice spells, and have a little bit of it. Super power, but it seems to be a lot worse!"

Xiao Mingzhu obtained several things from Li Yun, the ice sword, purple amulet, space ring, and a guardian jade pendant.

Among them, the guardian jade pendant and the Bingling Sword are both golden equipment. Before, she had used the Bingling Sword to kill monsters at sea stations.

Originally, Xiao Mingzhu was still complacent, thinking that she could walk sideways on Penglai Island with such a powerful weapon in her hand, but after that, after she followed the Master Saint to study the method systematically, Xiao Mingzhu suffered a huge blow.

Compared to the miraculous power possessed by the Lord Saint, she holding the Bingling Sword in her hand is as ridiculous as a child wielding a big knife.

The gap is too big.

"Didn't I give you a practice secret book? How is your practice?"

Li Yun asked.

All the girls around him have already handed a copy of the cheats that he opened out of the golden gift bag, or the gift bag with full favorability. The progress of the girls is different. The fastest should be Gong Qingyu, Xiao Mingzhu, and Zhao Tianfeng. NS.

Of course, the Lord of the Holy Woman is not counted as the Sage.

"Um."

Xiao Mingzhu nodded, Li Yun gave her two cheats, a "Han Yu Jue" for practicing mana, which can transform the true essence of the Grandmaster Realm into ice mana, so now Xiao Mingzhu can barely perform some small spells. .

The other is "The Bingqing Jade Heart Method", which allows her to temper her spiritual thoughts and make her mind more pure, so that she will not get upset and become confused after practicing for a while.

But still the same sentence, she has just practiced, and she is far from the traditional practitioners. Can she deal with the Yamaguchi family?

"It's okay, didn't I give you a blast!"

Li Yun confidently said: "When the time comes, you will be brave and heroic. You are a female general and I am a pawn. Let's go to Yamaguchi's house together and see what they dare to invite us to do!"

"Pouch."

Li Yun's exaggeration made Xiao Mingzhu couldn't help but laugh, and the panic in his heart was much better.

That's right, isn't it just a black mixed society family from a cherry blossom country? Is it better than the monsters on Penglai Island before?

Later, she will hold the ice-ling sword and lead Li Yun, a small attendant, into the so-called Yamaguchi family!

The reputation of Yamaguchi's family is stronger than its strength.

"...This, uh."

Yamaguchi wiped the cold sweat on his forehead, and suddenly began to wonder if the family members invited Li Yun to deal with the sword master Tozhao, was it a big mistake? !

And he hasn't personally greeted him at the airport. Obviously, this Mr. Li can defeat the sword master Tosho, and his strength is definitely a great samurai. It is definitely not simple, I am afraid the family will suffer.
