Chapter 3871: breakfast

"so it is."

Alice nodded, and smiled at Qin Tianmeng and the table of people, and said, "Then let's meet in the depths of the desert to see who can reach the cemetery first. It is said that the pharaoh's tomb is very special and dangerous. ."

There was a lot of discussion around, and Li Yun listened to some casually, and found that many of them actually went to the tomb, and I don't know how widely the so-called dangerous pharaoh's tomb has spread!

To say that these people don't want to die, they dare to steal the Pharaoh's pyramid tomb when they know that there may be gods!

"Dangerous? Really? The pyramid is dangerous?" Qin Tianmeng asked.

Alice did not understand what she was asking, so she nodded slightly, "Yes, as far as I know, that pyramid is very dangerous. If you are not sure, you'd better not go."

"Wow, so terrible?"

Qin Tianmeng made a frightened look, and then suggested to Alice: "Or else, let's act together. Then I will send some of my people to die, help you find the way, and everyone can cooperate to save you. Got through difficulties."

Alice was taken aback and looked at her teammates subconsciously, only to realize that they didn't understand Huang Xuan's Mandarin, and they didn't know if they were sold.

When she looked over, several of these men even gave her a squinting smile, and one of them even whistled, but didn't know that their other teammate had planned to sell them.

But it's not surprising that most of these ability players are teaming up on Penglai Island. After hearing that there may be treasures on the Pharaoh country, they came in swarms.

I don't know what people say, the reason why that Li Chaoren is so powerful is because he has gained the power of ancient ruins!

Although this matter is not certain, the shrine maiden of Sakura Country, the little girl with a big fart, has indeed gained unimaginable power through the gods.

The Pharaoh's pyramid itself has received great attention. After the Reiki incident, the pyramids that had been excavated near the Nile River had long been turned upside down. This time it suddenly broke out that a pyramid possesses mysterious power. No wonder the whole world All of the supernaturalists and mercenaries came in a swarm.

Among them, of course, the teams sent by some powerful countries to inquire about are indispensable.

Even the army.

"Miss Qin, don't be kidding."

Alice spoke to her sternly, and then took Li Yun to sit in a vacant seat and asked the waiter to bring breakfast.

"What a joke, I'm telling the truth." Qin Tianmeng shrugged and said indifferently: "The surrounding pyramid buried under the yellow sand has become a very dangerous place. If you want to go in, you have to rely on people to explore. Doesn't it mean to die? It's just a matter of who is lucky and who is bad."

Li Yun said lightly: "Do you think you are lucky?"

"I'm lucky, but." Qin Tianmeng gave him a wink, "Don't I still have a handsome boy? Are you willing to let me be such a beautiful woman to die?"

"Wait."

"Hahaha!"

Qin Tianmeng's expression froze, Alice laughed, and the restaurant was suddenly full of joy.

Well, I don't know if I'm happy, but Princess Alice Windsor is smiling happily, just seeing it is pleasing to the eye.

"Little handsome guy is too ruthless and too boring."

Qin Tianmeng murmured, sipped the breakfast, his eyes rolled, and he didn't know what he was making.

Chapter 3872: acquaintance

But before Qin Tianmeng finished his breakfast, the accident happened.

"Handsup,! Otherwise you will be shot!"

A group of regular troops from the Pharaohs in yellow and white army uniforms rushed in. At least seventeen or eight people were holding a submachine gun at the guests who were eating breakfast in the restaurant.

But what makes this group of Pharaoh fighters weird is that most of this group of people were pointed at by the black hole of gunpoint, but most of their expressions were calm, and even their expressions did not change a bit!

Only a few guests at the table were so scared that they raised their hands and made a general posture of no resistance.

As for the rest... just do what they should.

That's right, including Li Yun and Alice, as well as Joanna's maid, a few bodyguards, plus Qin Tianmeng and others, all calm and calm, and didn't take this group of people who suddenly rushed in seriously.

"F*ck!"

Several of Qin Tianmeng's teammates even directly raised their middle fingers to the group of Pharaoh fighters, let alone take it seriously, this is a direct humiliation to each other.

The chief sergeant who led the team finally realized that this group of people was fundamentally different from the people who had come to the pyramid to make trouble before.

He didn't dare to directly order the arrest.

I also abruptly ignored the middle finger.

"you!"

The sergeant was frightened and angry, but never dared to order.

He could see that these people seemed to be all supernatural beings!

"From where to go!"

A person from Huang Xuanguo directly cursed, regardless of whether these people understand or not, but everyone must understand.

"F*CKYOU!"

Another black mercenary also extended his **** and told the group to get out.

For various reasons and coincidences, a large number of supernaturalists and mercenaries have gathered in this restaurant, all of whom are not afraid of death, let alone muzzle fanatics.

"Sir, what's the matter?"

Alice, who had been watching quietly, took the initiative to ask the sergeant chief after seeing that Li Yun had not spoken.

The sergeant saw a person who could communicate, his ugly expression eased a bit. After seeing Alice's outstanding beauty and tall posture, his expression relaxed directly, but his mouth was still very hard: "Do you know what this is? Pharaoh country? You even discussed the tomb-robbing pyramid in public. Does it really mean that our Pharaoh country does not exist?!"

A group of soldiers were encouraged and shouted.

"boom!!"

Suddenly, there was a loud noise that shocked everyone. They turned to look at the woman in the red dress, very surprised.

"Youareso bold."

Qin Tianmeng said something weird to everyone present, only Li Yun vaguely heard her... Huang Xuanguo's unique English!

"Big guts..."

But he didn't react right away, and repeated it subconsciously. After a while, goose bumps came out of his arm, and the whole person fell into an embarrassment of wanting to get to the ground.

Shame breaks through the sky!

However, Qin Tianmeng looked arrogant and didn't feel embarrassed. Instead, he said in Huang Xuan's national dialect: "Do you know who we are?"

Immediately, Qin Tianmeng said to one of her teammates: "Translation."

Li Yun: "..."

She also brought an interpreter?

The man was also a yellow man, wearing a pair of glasses, pushed back, and translated it in standard English.

The crowd began to watch the play.

Chapter 3873: Qin Tianmeng's tricks

"Who is it?" The sergeant asked in a deep voice, but couldn't help looking at Alice.

In any case, among all the people present, there is no doubt that this beautiful blonde girl is the most conspicuous!

"This beautiful blond chick!"

Qin Tianmeng gestured to Alice with the palm of his hand, and when she said one sentence, her translation would just say one sentence, which was completely homophonic.

"and then?"

"She is my teammate, do you know who she is?"

Qin Tianmeng asked.

A bad premonition surged in Alice's heart, and she quickly said, "Don't talk nonsense, who is your teammate."

This sentence is spoken in Huang Xuan's national dialect.

"You have repeated it twice, you guys, who the hell?!"

The sergeant suppressed his anger, and everyone in the restaurant turned their attention to Alice.

"Hmph." Qin Tianmeng smiled triumphantly: "She is the princess of the kingdom of never setting sun, Alice Windsor!"

"what!?"

A word stirred up a thousand waves, and Alice was watched by everyone present.

"It's really her!"

"It's her, that's right, I browsed the Internet, it's really Princess Windsor!"

"God, why is the princess here?"

"Then it will be more exciting. Hahaha, the princess of the Kingdom of Not Setting Sun actually came to steal the Pharaoh's pyramid?"

"OH! Big news!!"

Everyone's discussion became more enthusiastic. Regardless of their country or what they think of the country of sunset, a living princess like lovely Lisi sits in front of them and eats breakfast with them in a restaurant.

Just eating with such a distinguished woman can excite many men.

Alice Windsor had a calm expression and warned Qin Tianmeng with her eyes, and said to the sergeant: "This time I came to Pharaoh's country. It is a personal intention and has nothing to do with anyone else. Please, please."

The Chief Sergeant had a strange expression, but in the end he didn't say anything, and soon left with someone.

After they left, the atmosphere in the restaurant became a bit weird. The presence of a princess like Alice always made people wonder if she came with a powerful army?

"Everyone, please don't get me wrong."

As if seeing the thoughts of these people, Alice looked around at the people for a week, and said lightly: "I came to Pharaoh this time just to relax with my boyfriend, have fun, do one thing by the way, as for other things, I don't want too much. Tube."

What things do not want to worry about? Alice didn't say, just let you guess.

Everyone ate their breakfast silently, not knowing how much they heard this sentence.

Qin Tianmeng smiled and said: "I'm very willing to believe in the princess, but... will the people of the Pharaoh country believe it? Even if they believe it, they will be willing to let a princess with a powerful weapon go into the desert. Where?"

Under the homophonic translation, everyone understood her, and many people became agitated.

Li Yun finally spoke: "What do you want to say?"

"I mean very simple."

Qin Tianmeng raised his hand and said loudly to everyone: "Since many of you have the same purpose, let's just join hands. What pharaoh country, fighters and soldiers, everything will be broken! Those who dare to stand in front of us with supernatural powers People, all killed!"

The person who did the homophonic translation was very calm, and translated this sentence to everyone, making them dumbfounded, wondering if the translation was wrong?

Alice snorted and said in English: "So you made this idea! Let us clear the way for you!"

Chapter 3874: attack

"What opens a way, it's too ugly."

Qin Tianmeng smirked and turned his head to look at the crowd: "Do you think you people with supernatural powers came to the Pharaoh country and can hide from people here? Don't think about it, there will be a battle later, and want to enter the desert Yes, you have to work together to make a **** road together!"

"it is good!"

Someone started to applaud loudly.

Some people agreed, but more of them just sneered. I don't know if they disdain to participate in Qin Tianmeng's proposal, or simply have confidence in their own strength, and feel that the soldiers of the Pharaoh country can't stop them at all.

A breakfast was overwhelming, and Li Yun was also very upset. After eating, he got off the hotel, got on the off-road vehicle driven by Joanna, and drove out of the city with a roar.

Qin Tianmeng and the superhuman mercenaries from all over the world are all similar. Two or three vehicles in a team, all of which are powerful off-road vehicles, followed Li Yun's body and headed outside the city. Drive away.

Along the way, it attracted the attention of countless passers-by.

There are at least hundreds of people in this group, all driving off-road vehicles, and the roar is constant along the way. Everyone in the car is sturdy and sturdy, which is obviously not easy to provoke.

However, the locals seem to be surprised. The pyramid has been visited by countless people recently, and it is too weak to protect it.

After half an hour, the car drove out of the city, and after a short distance of oasis, there was an endless desert in front of it.

Pharaoh's farmland is not nearby. Almost all outside the city is desert. The endless yellow sand and the Gobi exposed to the sun and wind reveal a strong sense of desolation, ancient, and death.

However, there is no trace of life at first glance, but a closer look reveals that there are still many strange plants on the Gobi, which are not green, but almost integrated with the Gobi.

These are special plants that grow in the desert under the aura of aura!

Originally, plants on the earth rarely have yellow leaves, unless they are fallen leaves, but these plants that grow on the Gobi not only have yellow leaves, but also lively, covering a large cliff.

"It's amazing." Alice, who was sitting in the back seat with Li Yun, couldn't help feeling. At first she couldn't see the yellow plants, but she found out after Li Yun reminded her.

This is the first time she has come to the desert since her rejuvenation.

Of course, it is also the first time for Li Yun to come. Not counting the one who was in that chaotic world last time, no life in that ghost place could be seen, it was all chaos!

"Here." Li Yun whispered.

"What's coming?"

As soon as Alice asked her question, she suddenly heard a tiger roar from a distance. She subconsciously summoned a weapon made of gold, and was about to jump through the window to attack, but Joanna, the maid driving in front, said: "Princess, Please sit down."

When she was talking, the rocket launcher had already hit, and the off-road vehicle twisted lightly and escaped the rocket launched from the cliff.

With a bang, the cannonball fell on the stone road, exploding a huge crater, and the more than 20 off-road vehicles that followed immediately broke out with a burst of curse.

Immediately afterwards, the loud sound of one cannon after another exploded in the front, back, left, and right of the crowd one after another.

Alice glanced up from the window, and on the cliff above, there were at least hundreds of soldiers from the Pharaoh country attacking them.

Behind the rocket launch was a round of bullets, which rained on the windows of the off-road vehicle.

Chapter 3875: Win over

The scene was chaotic, and countless smoke and dust were blown up by the shells, making the road under the cliff extremely chaotic.

The sound of anger, the sizzling of bullets, and the wanton bombardment of artillery shells made the following vehicles almost advancing under gunfire.

"Tsk."

Li Yun laughed, "I don't know what the abilities are. By the way, Alice, your bodyguard..."

"rest assured."

Alice slackened her hands on the golden double-stranded fork and said confidently: "Georges are brave knights. Even if they are hit by a cannonball, they can hold on for a few minutes. Moreover, our cars are all After modification, this level of shells can't be exploded yet!"

When she was attacked just now, she just subconsciously recruited a weapon, and she quickly realized that this attack was tickling to her now, let alone Li Yun still by her side.

"The dog* raises it to die!!!"

Following the scolding of a superpower, a huge fireball blasted from the valley towards the top of the mountain more than 20 meters high. The fireball did not directly attack the group of soldiers, but exploded from their wounds, countless flames. It spread in an instant, and fell like a rain of fire.

Suddenly, the screams became one piece.

Immediately after that, another supernatural player took action, and the wind suddenly blew up. The dust and yellow sand formed a tornado, which swept away countless smoke and dust. The shells falling from the top of the mountain were affected, and they all hit the cliffs!

Then, a vocalist poked his head out of the car window, opened his mouth and yelled into the sky: "F*uck! You! sonofb*tch!"

He was full of air, and the curse was loud.

Not to mention the soldiers of the Pharaohs on the top of the mountain, even the hundreds of supernatural beings and mercenaries in the valley, the ears are buzzing.

"It's amazing." Seeing the sight of the people on the top of the mountain turning their horses back and the attack stopped, Alice expressed surprise: "The ability of the voice ability player is so destructive to ordinary people, Li Yun, I remember that you can also use voice spells. ?"

"To be precise, it is the roar of the Azure Dragon."

Li Yun sat calmly in the back seat of the off-road vehicle, with his arms around Alice's waist, "Don't look at those, in front of the supernatural person, this attack is not enough... how did you get the modified car? Into someone else's country?"

"...Why are your concerns so strange?"

Alice was speechless, and she took the gold double-stranded fork back into the space ring, and said, "Why can't the modified car come in? As long as you have money, you can be affiliated with a company and ship it in by ship. Tariffs and other things are natural. The company's people do it, legally and compliant."

"That's OK?"

"Why not, many countries... are very corrupt!"

Alice was not embarrassed to start talking, because there are many similar imaginations in her country.

Rich people can easily get a lot of enjoyment that is impossible for ordinary people, let alone a modified car, she can get even big things.

It's just that she doesn't want to use the influence that belongs to the princess.

"It's really over?" Alice, like many people, is the first time to see the real battle of the supernatural player. To be precise, it is the battle of the supernatural player vs. ordinary people.

The situation is almost gone.

Except for the soldiers from the Pharaohs who carried rockets and fired at them for a round, after exploding a few off-road vehicles, all the subsequent stages were all supernaturalists.

Chapter 3876: End of the battle

"It's over."

Li Yun glanced back. The off-road vehicles rushed out of the smoke and dust. No one dared to stand on the top of the mountain anymore. The soldiers from the Pharaoh country did not know whether they fled or died.

The supernatural player won the victory easily.

Seeing this scene, the driving maid, Joanna, couldn't help but said: "As long as you are a stronger superpower and have some combat power, you can easily ignore most of the hand-held weapons. The only thing that is fortunate now is that the superpower still Not enough, otherwise... it is a huge threat to the security of any country."

Li Yun said: "I don't agree. There are also a large part of the powers who are righteous. They are not willing to use the power to do evil, but what you said is correct. The power is always a big problem."

"I can't even imagine what the future war will be like!"

Alice sighed: "The current technology can't keep up with the development of the supernatural beings. It is in urgent need of updating. Uh, I don't want to ask you Baiyun Technology's technology for free, don't get me wrong."

"It's not free, then want to be paid?"

".....Feel sorry."

Talking with Li Yun about the epoch-making technology of Baiyun Technology was also one of the purposes of Alice meeting him this time. However, she didn't want this to disturb the feelings between her and Li Yun, so she didn't talk about it until now.

Li Yun shook his head, "I can't be the master, besides, if you take the technology I gave, it is estimated that it can only be used by others, not to bring you benefits. When will you have absolute control in your country? The right to speak, plus that your media is no longer black, let's talk about it. You have been the little brothers of a beautiful country for too long. It is estimated that most of you have forgotten that you were once the hegemon of the world.

Alice's country was once called the empire of the sun never set, or the empire of never setting sun, but after the second war, the current state of the sun has been set at dusk, and the domestic environment is lifeless. To be polite, it is a permanent director. You're welcome, it's completely a follower of the beautiful country.

".....Feel sorry."

Alice apologized again, "I shouldn't have said this."

"Nothing." Li Yun smiled slightly, "I know you said it unintentionally, but Alice, I suggest you don't think so much now. You have no power, and everything you say is empty talk. What you have to do is control power, and Not thinking about anything else."

"Yes, I understand."

Alice whispered, her eyes full of determination.

Li Yun didn't dwell on this topic much. By his side, apart from her, it is impossible for any girl to easily control power. Only Alice was born in the royal family and was extremely sensitive to politics.

As long as Li Yun supports her, Alice will soar into the sky like a nirvana phoenix.

"How about this."

Li Yun thought for a while, "I don't help you. Actually, I am very lazy and I am not interested in these."

"Um?"

"You can ask for help in the Fairy Club. They are very good. Some people are also very leisurely. For example, the Gong Qingyu, Hu Xiaomeng in the capital, Jin Liuli, oh, and Shan Xiaoxiao. , Is also a great help."

Li Yun clicked on the girls' names, and couldn't help but laugh, and said, "In fact, every girl in it has quite a lot of methods. You can understand it when you touch it. Really, don't lie. you."

Chapter 3877: Fairy will be too strong

Alice's face became very strange.

She never expected that the first thing she would join Li Yun's "big family" was not to compete with other girls and be jealous.

But... accept their help?

"For example...?" Alice put her chin on Li Yun's shoulder, pressed her very intimately, exhaled like blue, and said, "I know that Miss Gong Qingyu is very powerful, Shangguan Lingxian She is a doctor who treats diseases and saves people, and seems to be able to refine pills. Needless to say, Liu Xianxian, Xiao Mingzhu is also very strong, she is the daughter of a rich man, and she has outstanding abilities. I can't compare her in business."

Joanna, who drove an off-road vehicle, had some surprises, and the princess could take the initiative to admit that it was not as good as Xiao Mingzhu.

"But." Alice changed the subject again. "That Miss Jin Liuli and Little Sister Hu Xiaomeng, are they also very good?"

"Hu Xiaomeng is one of the think tanks of the Fairy Club. He Qingyu and Xiao Mingzhu have guided the development of the Fairy Club."

"Uh, I want to ask a question..."

Alice asked cautiously: "Is Huang Xuan who doesn't speak Chinese well? When I was studying before, I didn't seem to notice the word "fairy". Does it often appear?"

Li Yun's face was strange, "The Fairy Club is the Fairy Club, what other words are there? Wait, don't you know that the Fairy Club is theirs?"

"The fairies will be them..." Alice was shocked at first, but soon stopped, and tried to verify again: "The fairies you said refer to the fairies on Penglai Island?!"

"Yes, otherwise?"

"Uh, uh, uh, ahhhhhh!"

Alice screamed, almost hitting the roof of the car with her head, shocked even the maid who was driving.

That monster-like organization of supernatural beings on Penglai Island was actually established by the women of Li Yun? !

Alice had heard similar rumors before, but she didn't believe it, because in her opinion, Li Yun didn't like to do these things at all. The very cold woman near him, Fan Qingsheng, didn't seem to be able to establish this People organized by supernaturalists.

Therefore, she always thought that the Fairy Society was a semi-official organization of Huang Xuanguo, because the Fairy Society and Huang Xuanguo's garrison also had a lot of cooperation.

Until last night, when Alice entered the Fairy Club, she thought that "Fairy Club" was a certain word of Huang Xuanguo, and she didn't go to verify it.

Li Yun smiled and said, "Is there such an exaggeration? Your boyfriend and I are both Li Superman, and I don't see you jumping up!"

"...Because the fairies are too strong."

Alice couldn't help but smile. The most obvious data is that the Fairy Society monopolized half of Penglai Island's foreign transactions, and half a year's flow can make the Rainforest Group, which has a annual turnover of 10 trillion yuan, ashamed.

How much money did the Fairy Society make?

According to a certain authoritative magazine, the Fairy Society contributed at least 5 percent of the total GDP to Huang Xuanguo, which can be said to be against the sky.

"That's it." Li Yun shrugged, "Now we can't spend enough money, and we have enough power. The Fairy Club is what they play casually. Tell them, I guess they are all eager for you to ask for help. , So they have something to do."

Alice thought for a while, "Will it affect the development of the Fairy Club? After all, things on my side are more troublesome."

"The Fairy Society is strong enough, what else can it develop? Even if it is suppressed and split into a hundred parts, as long as they are still there, the Fairy Society can be formed again."

Chapter 3878: Valley of the Kings

After these words, Alice deeply felt the difference in thinking between herself and Li Yun's extended family.

She is just a princess, even if she has just formed her own power, she is still an immature politician, worried about many things.

But in Li Yun's eyes, many things are just casual things. Baiyun Technology, Fairy Society, and even the conflict between Ise Shrine and Sakura Country's theocracy and parliament is nothing to him.

But in Alice's eyes, these are...unimaginable forces, or events capable of shaking the whole world.

"Okay, don't think about it."

Li Yun smiled and said: "Let's talk about these things after you go back. Don't worry, they are willing to help. When they are done, they will return to the hotel to talk."

Back to the hotel?

Alice's face flushed, and she gave a hmm, she didn't speak any more.

The off-road vehicle drove out of the valley completely, and there was no people in front of it. Both sides of the road were full of bare Gobi, desert, or some strange plants that appeared because of aura.

"The Valley of the Kings is coming soon." Alice took out her phone, looked at the map, and said.

"I see it."

Li Yun's eyes were very good. At a glance, he saw a peculiar valley in front of him, suddenly appearing above the desert.

The off-road vehicle got closer, and the general appearance of the valley appeared in front of people.

Many temples have been excavated from the Gobi, with huge colonnades and innumerable stone statues, full of the style of the Pharaoh's pyramid tombs, mysterious and magnificent.

According to the information, 62 pharaohs were buried in the Valley of the Kings. The temples built by descendants here are even more numerous. The number of statues carved out is staggering.

The reason for this magnificence is also very simple. As I said before, the people of the Pharaohs have only lived in the Nile River basin since ancient times. They have built tombs on both banks of the river since six to seven thousand years. To be more precise, , The vast majority are in the West Bank.

Including the pyramids of the pharaohs, the mausoleums of nobles, the magic of some priests, the tombs built by wealthy civilians, etc., all concentrated in a swarm on the west side of the Nile, so densely packed.

It lasted from the fourth millennium BC to the fifth century AD, close to five thousand years. The people of the Pharaoh Kingdom lived in the Nile River basin and built a large number of tombs.

In other words, if the ancestors of Huang Xuan Kingdom lived only on the banks of the Mother River during the five thousand years of history, then the tombs built by the emperors would become very crowded and leave behind a spectacular sight similar to the Valley of the Kings. .

"Imperial Valley, tusk, the scenery is good." Li Yun looked at the temples passing by the window, and couldn't help sighing, "Wait for some time and come here to have fun with them again."

Alice glanced at him and pointed to herself.

"You too? Am I playing with you now?"

"What? Are we out to play now? We are going to... the tomb!"

Alice got stuck when talking about the word robbery, but she still had to say it.

Because she and Li Yun are really going to the tomb!

The stolen one is still the most luxurious, extravagant, most frantic, and manpower-consuming...Pyramid in the world!

Yes, none of them is the pyramid.

Alice couldn't help but said: "The national customs of the ancient pharaoh country really surprised us in modern times. These pharaohs actually began to prepare their tombs from the moment they succeeded to the throne."

Chapter 3879: The origin of the pyramid

Li Yun agreed with Alice's statement.

Because of certain myths and legends, the pharaohs believe that they can be resurrected again after death, so they are not afraid of death, only that they cannot be resurrected smoothly after death.

Once they are resurrected, their bodies and souls will reach a perfect state and will live in this world forever.

Therefore, the pharaohs are not afraid of death. When they are alive, apart from ruling the country, their greatest "hobby" and "interest" is to build a tomb for themselves, that is, a pyramid!

The pyramids were built by them in order to be able to resurrect after death. The temporary residence, including after death, the pharaohs let the living people make themselves into corpses, but also to prevent the corruption of the flesh and lead to the failure of the resurrection.

According to the study of modern archaeology, the pyramids were literally prepared by the pharaohs for the resurrection.

All this led to the fact that the pharaohs built pyramids for themselves as soon as they became pharaohs. The repairs lasted 20 to 30 years. Some built more than one, and tens of thousands of people were used every year to build the pyramids.

The mausoleum built by tens of thousands of people for decades is the only mausoleum of Qin Shihuang in the world, which may be barely comparable.

As for the Taj Mahal in the Three Kingdoms, it is amazing. It was built in the 16th century, and it is incomparable to the Mausoleum of the First Emperor Qin Shihuang two thousand years ago.

The exaggeration is that the Mausoleum of the First Emperor Qin died in 210 BC, and the largest of the pyramids, the Pyramid of Khufu, was completed in 2600 BC. The time width between the two is larger than the Mausoleum of the First Emperor Qin and the Taj Mahal. !

The achievements of the ancient pharaohs are truly breathtaking.

In the past, Li Yun could not figure out where the profound knowledge of astronomy and the superb architectural knowledge of the Pharaoh Kingdom came from, but now it seems that 80% of the people at that time obtained it under the guidance of the prophets, sons, and incarnations of gods. Knowledge that transcends the times.

"I am looking forward to entering that pyramid more and more!"

Li Yun couldn't help but said to Alice.

He is not very interested in ordinary pyramids. To put it bluntly, it is a lot of rocks, but if it is a place where gods sleep... it is worth digging!

"Not so fast, it's quite far away."

Alice said something against the map. Then, the off-road vehicle drove in the desert for four full hours, rested for a while, and checked the position with the other off-road vehicles that were catching up, before starting again.

It wasn't until after four o'clock in the afternoon that after the off-road vehicle changed its oil twice, everyone saw a large group of people gathered in front.

"Arrived?"

Li Yun looked around. In this bird spot, the birds really didn't stop to poop.

Too desolate!

Even aura seems to be repulsed from coming to such a place, a weed is not long, all around are big stone gravel, weathered stones, and yellow sand blowing from an unknown place.

Mrs. Desolate!

"It's really a ghost that someone can build a pyramid in this place."

Li Yun couldn't help but cursed, such a bad place, I really don't want to come once I come.

It's good to come once in a while. For example, last time in Zhenbei Old Fort, Li Yun and Gong Qingyu Liu Xianxian and the others were messing around in the desert oasis. Although they didn't spend the night in the oasis, they also enjoyed being in the vast world and in the desert. The pleasure of tumbling in the yellow sand.

But here?

Chapter 3880: Tease

Not to mention that this horrible place made Li Yun and Liu Xianxian roam and play here. Just breathing the air here made me feel uncomfortable.

It is no wonder that the Pharaoh Congress was repeatedly conquered by other countries and finally annihilated in history.

Their land is really not good. There is only one fertile Nile River. Most of the others are deserts. The population cannot develop, and it is only a matter of time before they are destroyed. It is a miracle that they can last for more than four thousand years.

In fact, the Pharaoh country, like Huang Xuan country, was often harassed by the nomads in the north or enemies from the Mediterranean. The country was divided into two countries many times in history because the Nile was too long and narrow.

"Those people in front seem to have been here for a long time."

Alice squinted her eyes to look forward, her expression that had previously been a little cautious because she asked Li Yun for help disappeared, and she became full of fighting spirit, much like a Valkyrie about to enter the battlefield.

That is, a follower of the goddess of war Athena, the Valkyrie!

"At least a day or two."

Li Yun judged it from a corpse.

Under a cliff in front, there were at least two hundred people gathered. There were fifty or sixty vehicles of various types, most of which were off-road vehicles, but there were also a small number of Pharaoh's military tanks. Coming.

The soldiers of the Pharaohs suffered a loss, but did not dare to enter the desert, so they could only let these people wait here unscrupulously.

Li Yun saw a corpse that had been air-dried on a large rock. Judging from the plaques on the corpse and the traces of air-drying, it took about a day or two to die.

Ordinary corpses began to decay after being left in the house for a few hours, but due to the drought and low rainfall, the corpses took on a very peculiar appearance.

"WTF, how come there are so many people?"

There were a lot of people following Li Yun's off-road vehicle. After someone got off the car and saw so many people gathered in front of him, they couldn't help but burst out a foul language.

Many people agreed.

They thought that what they had obtained was secret information, and as a result, all the supernatural powers from all over the world came, and they didn't know how many official people came.

It's probably difficult to get something for this trip.

"Who put a corpse here?"

Someone approached the corpse on the big rock and slapped it cursively, trying to blow the corpse away with the wind power.

Unexpectedly, the corpse moved suddenly, leaped up in an unreasonable way, and rushed to the person.

"Oh my God!!!"

Accompanied by the screams, the man was so frightened that he urinated his pants, and the violent wind on his body blew the corpse to a height of tens of meters, and then fell heavily, turning into a mass of... !

—The corpse has been completely blown dry, and the body is so hard that it shatters as soon as it is dropped.

"F*ck!!!"

The wind-powered person who was scared to pee his pants reacted and yelled at the two hundred people in front of him: "Which dog is teasing me? Stand up and see Laozi if I don't beat him to call him mother!"

"I think you were scared to pee on your pants first," someone said immediately.

"Hahaha."

A group of people, whether they were newcomers or the original two hundred people, all burst into laughter, and the desert was full of joy.

Countless people were whistling, and countless people were ridiculing loudly. There were even more weird calls, anger, and all kinds of chaotic scenes, which were really eye-opening.
