

Godly Choice 3891

Chapter 3891: Cold hands

Everyone guessed that the monster hiding under the ground was probably a mummy.

I just don't understand why Alice's weapon pierced the ground, but a lot of blood came out from under the ground.

Is there a lot of blood stored in the mummy?

Or is there some kind of monster cooperating with the mummy's actions? A monster that resembles an earthworm, when it is stabbed into the skin, a large amount of blood bursts out.

"There is not enough information to judge."

Li Yun made a summary, looked forward and said: "Go ahead, since the other party doesn't want us to go in, then we have to go in!"

When everyone heard it, it made sense.

The more dangerous the place is, the more likely it is to hide treasures. This mummy may be the guardian of the pyramid, attacking all incoming enemies!

Rina thought of something and asked Amy, who was afraid to start her head behind her: "Is the smell you mentioned before the same as the smell of blood?"

Amy shook her head and said affirmatively: "It's not the same. This blood is very common. The blood that has been left for many days has some strange smells mixed in it, but none of it is the smell I smelled before!"

"Leave it for many days?"

Rina glanced at the ground thoughtfully, tried to manipulate the blood, and it succeeded, and there was nothing unusual.

Li Yun looked at Qin Tianmeng: "Aren't your noses also very good? Why don't you smell it?"

"Nonsense, I'm not a puppy." Qin Tianmeng wrinkled his nose, "I smell with my heart, not with my nose... Don't ask me what I smell with my heart, you don't know if you say it."

Directly blocked.

Li Yun was speechless for a while, and said, "Go ahead, I guess I won't be able to get out of this valley tonight, and I don't know what's going on inside, let's go in first."

Judging from what has happened just now, there are more dangers waiting for them in the mountains. Just now it was just an appetizer.

Just a few steps forward, Li Yun heard a huge commotion from behind, which made him have to stop and look back.

This mountain range is indeed a bit weird. His spirit is restricted by half, and he can only explore the distance of two to three hundred meters around him.

For example, now, he can only see with his eyes, but can't observe with his mind.

"What happened?"

Rina immediately asked her team members, and soon the crowd sent back a message:

"Those who wanted to leave were attacked by a group of huge black scorpions. They couldn't beat them, and they had to retreat and join the large forces."

After understanding what happened, the commotion of the crowd gradually subsided. They had long known that there was a huge scorpion monster in this mountain range, so it was no exception.

"Hehe, it's good to die, **** those cowardly moms!"

Wook gleefully said something, and many people agreed.

I just wanted to escape when I entered the mountains, so why not come to this place where birds don't shit?

"keep walking."

Li Yun calmly gave the order, and the team continued to set off. It was still him who took the lead, step by step, stepping on the ground made of sand and stones.

Every step Amy takes, she sits and looks to the right, trembling, for fear that she will be dragged down by her ankle again by a cold hand!

Fortunately, this incident did not happen. After a peaceful walk, Amy took the courage to walk-mainly because there was the strong-looking Huang Xuanguo man in front, a bunch of teammates beside him, and behind There are hundreds of abilities, what is he afraid of?

"what!!!"

Chapter 3892: Assault

There was another horrified cry. Everyone turned their heads in the direction of the sound. One person in the crowd sank quickly, waving his hands up and down in horror, with eyes full of fear.

The person next to him reacted quickly, and immediately two people came forward and hugged his hands, but in the end they still couldn't stop the terrifying force underground. In the blink of an eye, this person was submerged by the mud and left for everyone, only His hands.

"Damn!"

The two people who tried to save him threw away the severed hand in a panic. They already tried very hard, but the man's hand was snapped off abruptly, but the person was still gone!

Two severed hands were thrown on the ground, and the blood flowed out again, staining the dead earth red.

The team of four hundred people with supernatural powers fell into deathly silence.

"keep walking."

Li Yun said lightly, "This mountain range is very dangerous. You should be conscious before you come in. I remind you that you should be with your teammates and try to catch him when he is

attacked, even if you only keep your waist. The above parts can still be recovered with current technology."

Modern science can't restore a person's severed limbs, but because of the spiritual energy, there are many kinds of strange plants that can make people regenerate from severed limbs.

"Everyone pay attention."

A captain-type ability player who had been silent for a long time also said in a deep voice, not only to remind his teammates, but also to remind others.

"Can't we kill this monster before moving forward?"

Some people couldn't help asking questions, but no one answered them.

The mountains are full of dangers, and the monsters that are suspected of being mummy are hidden underground, coming and going without a trace. If you hide and seek with it, you may be able to play until when.

And there are more than 400 people with supernatural powers who came in. If anyone is attacked, they will admit that they are unlucky. Besides, the superpower who died in this kind of attack are too low in strength and will die if they die. .

—Alice rescued people with a single weapon, and they thought they could do it too.

However, they also noticed that there was a very rare space ability player beside Alice who could store weapons.

The team continued to advance, and three or four people were killed one after another, but they were all within everyone's expectations, but it caused many people to scold and start to think of ways to deal with this monster.

However, this mummified monster seemed to have caught up with them. Once everyone increased their vigilance, it disappeared, and once they relaxed a little bit, they began to attack again.

"F*ck!"

An irritable ability player couldn't bear this kind of suffocation that could only be beaten and couldn't beat people, and he slammed his hands in a place where he was rescued by cutting off his feet.

"Die to me!"

A scorching flame gushed out of his body, and his hands were burned red from the barbecue, like two soldering irons, and countless hot heat was injected into the ground.

If this is an ordinary underground, then this one is enough to create a lava lake five or six meters wide.

But in this increasingly weird mountain range, the fire system supernatural energy he injected was like sinking into the sea, only burning the ground into a bright red color, and it quickly dissipated.

"This ghost place is getting more and more wicked!"

Many people can't help but swallow. They realize that the power contained in this mountain is not something they can resist.

As a result, more people fled out in groups.

Chapter 3893: bet

Li Yun didn't care about those people, only Wu Ke cursed, trying to drive those who tried to escape back. This was what he wanted to do in the first place:

He felt that this ghost place wasn't too dangerous, but someone had to keep trial and error, and they had to use their lives to test, so as to figure out what the danger in this mountain range was and where it was hidden.

Li Yun did not speak, and Alice did not speak, silently holding a colorful double-stranded fork, followed him behind, to be precise, protecting Joanna and Abel, neither of them resisted the ground. With the ability of the mummy to attack, Alice needs to pierce the double-stranded fork into the ground at any time, forcing the monsters under the ground to give up the attack.

Of course, this weapon was given to her by Li Yun, and it was an upgraded version of the golden double-stranded fork that was given to her in the tomb of Princess Yongning. It should now be called Hades's spear.

According to Li Yun, this weapon is similar to its previous capabilities, except that it has an additional power called "Pluto Hades's Gaze", which can imprison killed ghosts into this weapon and release it when necessary. .

Alice is already familiar with this weapon, but she doesn't know how to release the soul inside, she is still groping.

But just now, when she pierced the spear into the ground, she vaguely felt a feeling of what her weapon had absorbed. It seemed that she could release the so-called soul for her own use when she recalled similar feelings several times. !

"Oops."

Qin Tianmeng suddenly yelled, causing everyone to look at her again.

"The big thing is not good!" Qin Tianmeng exclaimed, clapping his palms.

The corner of Li Yun's mouth twitched, "Something big is not good."

"I just remembered it now!" Qin Tianmeng looked at the place they came from, which is outside the valley. "The people who went out just now were driven back by Scorpions. It is probably because this valley didn't want them to leave, so they sent Scorpions. Stop, if I guess right, those who run away will definitely be driven back!"

Everyone is puzzled, what kind of reasoning is this?

Just because there are scorpion monsters blocking the road, this valley is intended to prevent them from escaping?

"This crazy lady."

A man sneered, "If you want to attract your man's attention to you, the best way is to take off your clothes instead of talking crazy here! Next time, I won't teach you a lesson!"

Almost everyone nodded.

This woman named Qin Tianmeng is really hateful, always interrupting everyone's thinking, making the situation chaotic.

"what."

Qin Tianmeng looked disgusted, "I don't want to see you guys being blocked in the valley, so I reminded you to be a donkey!"

"Shut up, bitch!"

Someone stood up and shouted angrily.

This word does not need to be translated, Qin Tianmeng can know what it means.

"Then... do you want to take a gamble?"

Qin Tianmeng showed her signature charming smile again. She smiled and said to these hundreds of supernaturalists, "Just bet... those who run away will definitely be driven back. If not, I apologize."

"Haha." Someone sneered: "Then if you win, are you going to fly to the sky?"

"How come, I'm not so arrogant."

Qin Tianmeng is very pitiful, "I just want to say, if those people are really driven back, that is, I won, then, I, will kill you all!!!"

Chapter 3894: Too arrogant

The murderous words fell, leaving many people... confused.

Yes, it is puzzled, not shocked and lost.

Because... the vast majority of people in the valley didn't understand what Qin Tianmeng was talking about!

The interpreter she brought was immediately stunned, and there would be no response for a while, and people around would naturally not understand what she was talking about.

"puff."

Alice couldn't help but laugh, causing Qin Tianmeng to stare fiercely.

Li Yun also laughed, "Concubine Wan Qing, so it's a good thing that I let you learn a foreign language, do you think you are making a joke now?"

"roll!"

Qin Tianmeng was about to scold his translator and ask him to translate the words quickly, but when the words came to his lips, a thunder flashed in his mind, which shocked her almost to expose her.

"Why Concubine Wanqing, are you talking to me?!"

Qin Tianmeng frowned and looked at this guy.

This guy-Li Yun, smiled without saying a word, with an expression that I had guessed a long time ago.

Qin Tianmeng dropped an inexplicable sentence, and then scolded his own translator.

Finally shouted out what she had said.

"Hold!"

"This woman is too arrogant!"

"Who does she think she is?"

"Kill her first!"

The hundreds of supernatural beings threatened by Qin Tianmeng suddenly scolded and threatened to slaughter the woman Qin Tianmeng before considering the next thing.

"A bunch of fools."

Qin Tianmeng lost his playful nature, and after dropping a cold sentence, he closed his mouth-she had made a big ugly just now, why did she even mean to tease them?

But the people around him quit, and many people yelled at her. If they weren't concerned about the unclear relationship between her and Li Yun, they would have used the sword a long time ago.

However, the arrogance of these people quickly subsided.

Because those who escaped are back.

And one by one, their faces were pale and panicked, and they fled quickly, as if there was something chasing them behind, and they wanted to run back into the large army if they wanted to.

"What happened?"

Everyone was shocked, and their faces were ugly.

Is it true that the mad woman said that the entrance to the valley was blocked? !

Li Yun looked up at the sky, and also had a bad feeling in his heart.

Soon, those who fled back brought bad news to these hundreds of supernaturalists.

Their retreat was cut off. The valley road they had walked through just now has been stopped by countless huge black scorpions, densely packed with no head at a glance, and when they saw people, they raised the scorpion's tail high and made a request. The attack situation.

Some people tried to attack, and instantly the black scorpions seemed to be detonated, and craziness rushed towards them.

Those who wanted to flee were so scared that they hurried to the large army.

"Really cut off and retreat?! That crazy woman was right!?"

There was a commotion, and everyone turned their eyes to Li Yun. Some people's eyes fell on Qin Tianmeng, as if to prove how she knew?

"Remember." Qin Tianmeng said lazily: "You lost the bet. Everyone here owes me a life. Well, of course, my husband is an exception~"

While speaking, Qin Tianmeng cast a wink at Li Yun again, causing Li Yun to get goosebumps. Is this woman Wan Qing concubine? !

In terms of character, he is inseparable from ten, but it is a bit worse, like letting go of himself.

"Humph!"

It was pleaded, stand up and stand tall: "My life is here, Bitch, have the strength to come away!"

"Not bad! Come get it if you have the ability!"

Chapter 3895: Shot

Many people clamored, they were anxious because of being trapped, and now Qin Tianmeng was just a catharsis for them to vent their dissatisfaction.

"Oh."

Without listening to the translation, Qin Tianmeng knew what he was talking about, but only a faint word and a dark red fireball were returned.

The fireball flew forward slowly, and was intercepted in mid-air by at least twenty-odd attacks in an instant, but what made the jaw drop was that the fireball actually destroyed all attacks.

Whether it was the ability of the water system or the ability of the wind system, they couldn't be extinguished or blown away. The dark red fireball was unscathed, and it fell straight on the person who stood up and provokes just now.

boom.

The explosion sounded, and the flame swallowed people. There was no diffusion and no strong heat. It could be called silently, and it swallowed and melted a person.

It turned into a pool of thick black corpse water, which was extremely conspicuous on the earthy yellow desert ground.

In an instant, all the scolding disappeared.

They are not fools, knowing the difficulty of Qin Tianmeng's ability to kill a person with a light weight, and a fluttering fireball to kill a person with an ability, which is far stronger than the metal ability of Wook before.

Offending the strong, or in this perilous valley, is looking for death!

"Does anyone dare to bb?"

Qin Tianmeng killed a person, but didn't show any strange expressions. It was like killing a chicken. No, it was an ant on the side of the road that was trampled to death. There was no wave in his heart.

"She has kept her hands."

When no one came forward, and the relationship between the two parties was very stiff and unwilling to lower their heads, Alice stood up: "This Miss Qin Tianmeng has reminded us twice. Although her actions are a bit extreme, she is actually out of control. For good intentions, now our goal is to find the pyramid, not infighting!"

Everyone was silent, Qin Tianmeng gave a cold snort, too lazy to speak.

Alice said again: "This is the case. Those who want to leave, please leave by themselves. Those who don't want to leave, don't attack each other again in the next time!"

This was a warning to Qin Tianmeng, after all, although she had a cause just now, she still took the initiative to kill someone.

Qin Tianmeng continued to snort coldly, still too lazy to speak.

It seems to her that except for Li Yun, other people and things are lacking in interest and occasionally speaking out of fun.

"Go ahead."

Li Yun also ignored the little farce just now. The people who appeared in this place were all supernatural beings or mercenaries. Even if they had never killed anyone, they would kill indirectly, and none of them were good people.

Of course, including Li Yun himself.

Although his justice value is very high, he released the aura of Penglai Island, causing the world to become chaotic. Can he really call it justice?

Not necessarily, I don't know, I'm not sure.

"what!!"

Not long after they walked out, someone was dragged into the ground by the mummified monster lurking underground, and the crowd was commotion again.

Within a few steps, another person was killed.

"Now you are going to die."

Seeing this scene, Qin Tianmeng couldn't help but say something.

Someone couldn't stand it anymore, and shouted sharply: "If you can't get through before and after, then let's go up!"

After he finished speaking, a gust of wind rushed out of his body, whizzing up like a big bird, and people around him rushed out of the valley and flew into the sky before the people around him even had time to stop him.

"Oops!"

Many people have such thoughts in their hearts, the valley has become like this, can people in the valley easily escape from the air?

Chapter 3896: Bloodthirsty Bat

Li Yun also raised his head, squinting his eyes to look at the fleeing wind type supernatural power in the sky. He also wanted to know what would happen if he flew to the sky.

"Hahaha! Sure enough, it should have been up to the sky long ago!"

The wind type superseder surrounds him with gusts of wind, floating in the sky like a helicopter, which is also one of the most powerful advantages of the wind type superseder.

If you can't fight, you can run away. The action is very flexible. After being able to fly freely, it makes the enemy a headache.

"Hey, xxx, you come up too!"

The man yelled happily, "The view above is much wider! Why are we wind-type supernatural beings with those stupid idiots? We should fly to the sky, fly directly into the mountains, find the pyramids, and go in to take the treasures. , Maybe even at night..."

"carefully!!"

The people underneath saw a dark cloud flying over the horizon, densely packed and didn't know what to do, but it was not easy to provoke at first sight, so they shouted.

"what?!"

The man also saw a large group of dark clouds flying up from somewhere in the mountains, and subconsciously flew in the other direction, cursing fuck.

However, another black cloud flew up in the other direction and collided with him exactly.

"Get out of here!!"

The wind type supernatural power screamed, and a cyan sharp-edged typhoon erupted from his body, which instantly blew the black dark cloud, and let everyone see what the dark cloud was.

"It's a bat!!"

Someone had sharp eyes, recognized what these gadgets were, and shouted in amazement.

Alice immediately looked at Li Yun, and Li Yun nodded: "It's a bat, but it seems to be smaller, only the size of a thumb, with sharp teeth. It is estimated that she eats meat for a living."

Many bats in nature eat fruits, and many eat frogs, mosquitoes and other insects. They directly feed on animal blood and meat. It seems that there are only a few species.

But it is obvious that these bats are not common bats in nature. They are only the size of a finger, but they are extremely bloodthirsty, and launched a fierce attack on the person who was suspended in the air.

Wow!

More ferocious little bats flew out from seven or eight directions, and rushed toward the person in a dense crowd. The poor wind power supernaturalist almost fought back a few times before being overwhelmed by the huge bat colony.

The screams before death echoed in and out of the valley.

Ten seconds later, the bats dispersed, and a black human figure appeared in the eyes of everyone, floating in the sky, like a person hanged in the sky, terrifying.

After another large group of bats flew out of this "person", everyone saw the wind-type supernatural power person just now: he had turned into a white bone, and was covered by thousands of bats just now. These bloodthirsty bats flew away when they sucked flesh and blood and brains, leaving only bones.

Ping pong.

The human bones in the sky fell, and they just fell back to the place where he flew just now, coincidentally...as if it was deliberate!

A chill rushed from everyone's tail vertebrae to Tianling Gai.

A hidden monster is using this method to demonstrate against them.

"Little handsome guy, are you scared?"

Qin Tianmeng licked his lips and said something to Li Yun with a smile.

"You are afraid."

Li Yun said lightly: "Otherwise you won't ask me, right?"

"Yes, I'm scared~" Qin Tianmeng leaned close to Li Yun again, and shook his arm around him, "husband, I'm so scared, shall we go out? No more treasure~!"

Chapter 3897: Punch

Alice bit her silver teeth and pulled the woman away. Before Qin Tianmeng got angry, she stood on her toes and gave her a condescending look.

No need to speak, the aura of the main palace is enough to shock Qin Tianmeng!

"keep going."

Li Yun took Aili's hand and continued to walk towards the valley.

Only now did Rina wake up to her senses, and quickly catch up with Li Yun's pace: "Mr. Li, shall we continue to move forward now? I feel... very bad! It's too dangerous inside."

Only halfway through the mountain range, so many people died without even seeing the so-called pyramids, and they were crushed as if they were killed. Although the real powerhouse did not take action, the hidden dangers in this valley, and it's scary enough.

I didn't see many abilities, but now they stopped in place, I don't know whether to keep going in, or to fight and turn around and run away.

Rina was a little undecided now, so she came to ask Li Yun.

"certainly."

Li Yun nodded calmly, "Aren't we here for the treasure? I'm not willing to leave without seeing the pyramid. However, if you're scared, organize people to retreat. I won't participate, nor affect your decision!"

"This....."

Rina hesitated even more, but there were already several teams of supernaturalists who chose to keep up with Li Yun's pace.

And Rina also recognized that the bosses of these teams are all strong, including the metal controller Wook, the wind type supernatural power West, and a few people who are not weak, and they all choose to continue inside!

Affected by them, many teams of supernaturalists have also made the decision to follow.

The strong go forward, the weak do not have the confidence to flee, so they can only move on.

"Eldest sister is big, why don't we continue to follow that person for now."

Amy made his own suggestion, "Anyway, if we encounter any danger, we can go to the sky." He pointed to the sky, "I would rather face bats than walk in this valley!"

Rina glanced at her teammates and saw that they had no objections, she nodded slowly, and said, "Okay, we will move on, but the road ahead will be very dangerous. Please cheer up, don't leave the team easily, understand?"

"clear!"

The huge team continued to advance into the valley. Compared with the spirited spirits before, the atmosphere of everyone is obviously depressed. They were crushed by this weird valley and killed so many people, so that they, those with supernatural powers, understand that they The power of is nothing at all in front of the ruins of ancient times.

At most, it is a few more struggles than ordinary people before they die.

"what!!"

Suddenly, someone screamed again, and everyone's hearts were stunned, and they immediately understood that the monster lurking under the ground had shot again.

"Li Yun!"

With a flower in front of Alice's eyes, Li Yun disappeared, and she yelled subconsciously.

The answer to her was an earth-shattering roar.

Li Yun flashed to the side of the assailant and hit the ground with a fist. The dark blue fist collided with a certain monster under the ground in a volley.

boom! !

All the people around were blown up, and a huge pit appeared on the ground, and blood in the sky burst out with the flames, forming a big pit with a radius of 20 to 30 meters!

In the bottom of the pit lay a tattered mummy, wrapped in white cloth, revealing two blood-red eyes, shriveled, weird, and mysterious.

Everyone was shocked.

Look at the mummy at the bottom of the pit, then look at Li Yun.

He took a few breaths.

Chapter 3898: Buy

I don't know whether it was shocked by the evil mummy or shocked by Li Yun's strength.

"Finally caught you."

Li Yun is very calm. As the temporary leader-although he has not been recognized, he has to do something to maintain his majesty. Besides, let this thing continue to be underground, maybe its next attack will come to Alice or On her maid.

After observing, Li Yun can figure out some of its rules, and it will always let the person grabbed by its ankle to pull down after screaming.

I don't know whether it was the people who were attacked yelling at the same time, or the thing was just to make these people's screams before they died, intimidating the remaining people.

But Li Yun grasped this law, and when someone yelled, he rushed out quickly, shot cleanly, and blasted the ground with one punch.

It can be said to be a force to drop ten meetings.

"This thing is really a mummy?!"

Alice jumped down and said, and looked at the big pit. There was a lot of blood scattered on the ground, which mixed with the sand to form a clot of blood, which was very scary.

The mummy lying at the bottom of the pit is true, at least from the outside, it is a characteristic species of the pharaoh country: mummies.

But how could the mummy have so much blood? The mummies in the pyramid have been baptized for at least three thousand years, not to mention the blood, even the hair has been dried.

"Let me see, what dared to attack us all the time!"

After seeing Monster Zhen, many people got bolder again, Wu Ke then jumped down, and when he looked at Li Yun or Alice, he no longer had the faint resentment he had before.

Li Yun's punch hit the ground, but he was completely convinced.

Wu Ke asked himself, even if he used his strongest protection ability, hiding himself in the steel plate ten meters later, and having the ability to strengthen, it is estimated that he would not be able to stop the punch.

It's too scary.

He came to the mummy and looked at it again. It was blown by a punch. Although the body was still wrapped with white cloth, his chest and abdomen had been collapsed by the power of Li Yun's

fist. There were only those hollow eye sockets without eyes. , And faintly exuding a blood-red light, proving that this thing is not dead yet and can move!

"This is the mummy?"

"It looks alike."

"Mutated mummies, now everything has been mutated by aura."

"Mummy three thousand years ago, no wonder it's so perverted."

Many people expressed their opinions one after another, and cast an admiring look at Li Yun's actions to catch the monster.

"Burn it."

Qin Tianmeng also went to the bottom of the pit, carefully standing beside the mummy, and after a few observations, he asked Li Yun to burn the thing.

She didn't see anything, Li Yun basically broke the magic power on the mummy with a fist, leaving only a mummy.

Li Yun nodded, he was about to use flames to burn the mummy.

"Mr. Li, wait!"

A man with a gloomy expression hurriedly stopped, "Mr. Li, please wait, this mummy is useful to me, I don't know if it can be transferred to me? I paid a high price to buy it... In fact, it is the most important thing for me to go into the pyramid to find the mummy the goal of!"

Li Yun glanced at him. There was nothing strange about this man, except that he was a little gloomy and his body was very heavy. Of course, he was still a human, but he often worked with corpses.

"My name is Haka." Before Li Yun asked, he took the initiative to introduce himself, "I am a beautiful countryman, and he awakened with a rather strange ability: manipulating corpses!"

Chapter 3899: Control

"Manipulate the corpse?"

Li Yun glanced at the two "people" next to him. They were all wearing thick, solid clothes, masks, hats, and gloves on their hands. There was almost nowhere to show the whole body.

But Li Yun could tell at a glance that they were not humans, but corpses.

"Yes!"

Hakkar's gloomy face squeezed a smile, "The ability I decided is to control a corpse. As long as it is a corpse, I can control it, whether it is a human or a monster. Of course, there are some restrictions."

He didn't say any restrictions, this was the secret of his ability, and would not easily tell others.

"I can give it to you, and I don't need money." Li Yun said.

"clear!"

Hakkar immediately nodded, "I will work hard later, and I will control a few more corpses among the dead and let them use them as waste, what do you think?"

Waste utilization? This is really straightforward!

Li Yun said silently: "Manipulating other people's corpses will be avoided, unless you get their permission during your lifetime, otherwise don't mess around."

"Of course, I will take care of it."

Only said to deal with, did not say not to use.

Li Yun was too lazy to persuade him, but just mentioned it casually, and then nodded to this Haka: "Okay, you come and try to manipulate it, be careful, the ancient mummies... it's probably different from the corpse you played with before. "

Instead of being afraid, Hakkar licked his lips very much expectantly, with a look of excitement and ecstasy: "I'm here to look forward to this moment! Mr. Li, don't you know, after obtaining the power from me, the mummies unearthed from the pyramid are all I tried it again, and after touching it for a long time, none of them had any response. They all died too hard to die!"

The people around looked at him with horror, dare you to touch the pharaoh country and the mummies that were snatched from other countries once? Still touched it for a long time?

Thinking of this guy sneaking into the museum in the middle of the night, opening the protective cabinet covered by the mummy, and touching the shriveled mummy...

Everyone felt goose bumps.

"Ahem!"

Li Yun shouldn't mention this topic in a humble mouth, and quickly urged: "Let's get started, we don't have time, it's dark."

It was already seven o'clock in the evening, the valley had completely entered the night, and the surroundings were dark and scary.

However, there are hundreds of abilities, even without any lighting equipment, the number of fire abilities alone is enough to illuminate the surroundings.

"At once, it's all right!"

Haka finally closed his mouth, stepped forward, and carefully stretched out his hand, leaning towards the mummy lying still at the bottom of the pit.

Everyone is also very curious, how does he manipulate the mummy?

Haka's hand touched the mummy, nothing happened. With the injection of some power, the red light in the mummy's eye sockets slowly weakened, as if Haka had seized control.

The right to control the mummy was transferred from one person's hands to him.

"Sure."

Haka showed a smile, "This mummy seems to have just died not long ago, it's still fresh and can be controlled!"

Just died, not long after?

What a metaphor!

Everyone murmured in their hearts. Of course, the mummy was dead. What Haka said should be that there was still some power remaining on its corpse, allowing his abilities to work.

"This is the end?"

Qin Tianmeng rolled his eyes, "Isn't it just letting out a bit of death to control it, I just glanced at..."

"Oh!!!"

Suddenly, there was another sharp cry from nowhere.

The mummy, who had calmed down, was full of red light in his eyes.

Chapter 3900: 100% sure

Hakkar was shocked suddenly, and quickly increased his control to fight the mysterious force from an unknown place!

The mummy lying on the bottom of the pit twisted, and her shriveled body took on a weird twisted shape. Suddenly the abdominal cavity was raised high, and suddenly the arms were bent, and finally opened the mouth filled with white cloth strips and let out a silent roar. Voice.

Everyone can see that this mummy has become a battlefield of two forces, which is changing drastically, and it is possible at any time...

"leave here!"

Li Yun pulled up Alice, took Qin Tianmeng again, and flew towards the top of the pit in one leap.

Haka was shocked again and hurriedly directed the two corpses to help him block his back, but he fled desperately.

"What?" Wu Ke hadn't reacted yet, subconsciously operating the ability to manipulate metal, making his skin extremely hard.

The next moment, a loud noise erupted.

With a bang, the mummy turned into fragments, and blood poured out from the sky again, and it fell in a patter, showering all the people around.

Everyone was stunned by the accident, and after reacting, they looked around with alert.

Wook scolded a few times at the bottom of the pit, and ran up hurriedly, not feeling too much in the pit.

"Now I can be sure."

Li Yun squinted his eyes and looked into the depths of the valley: "There is indeed someone inside who is rejecting the intrusion of outsiders, or in other words, has strong malice towards anyone who enters here."

Alice nodded silently, allowing the mummy to explode when being manipulated, proving that the other party has a certain amount of wisdom, so she made this decision.

"That's right." Li Yun looked at Qin Tianmeng, "Let me confirm, Concubine Wan Qing, do you know any spells or formations that can be equipped with a certain amount of intelligence in addition to automatic defense? Just like AI ."

"No!" Qin Tianmeng said angrily: "Do you think you wrote the hacking program? You also bring your own ai, the magic can do is to judge the enemy... Wait, why should I answer you? I'm not you What kind of concubine is in your mouth, I don't know her!"

"Oh."

Li Yun let out a loud voice and nodded meaningfully, "That's 70% to 80% certainty. There is indeed a person in the so-called pyramid?"

"One hundred percent." Qin Tianmeng interrupted, very contemptuous.

"Oh?" Li Yun used a questioning tone, which was different from the previous tone.

"Your eyes are blind, so you didn't see the instant that the mummy exploded. In fact, many modern things appeared." Qin Tianmeng gave Li Yun a blank look. "It's modern clothes, shoes, etc. You are blind. I didn't see it."

"real?"

"Humph!"

Qin Tianmeng disdain to answer again.

Seeing the two people bickering back and forth, Alice couldn't help feeling a little bit sorrowful, and proactively said, "If that mummy wears modern clothes, does it prove that the person who died here was made into a mummy? Did the people in that pyramid build it?"

Qin Tianmeng glanced at her, and lazily replied: "Who knows, in other words, who do you hear that there is a pyramid inside?"

Li Yun smiled and said, "Not all Pharaohs are pyramids...Yes, who told me? Alice, is there any definite evidence?"

Judging from the current dangers he encounters in this valley, the entry of the team of ordinary abilities is to die.
