

Godly Choice 3901

Chapter 3901: Damn it

So the question is, who saw the pyramid? And the news came out? Did someone actually get inside?

Li Yun also suddenly thought of this problem, so he changed his mind.

Some people around, Rena, Wooker, Haka and others, also frowned. They had a temporary translator beside them, and they could understand what Li Yun used to communicate.

Alice thought for a while, and shook her head: "No one has clearly said that they have seen the pyramids, but I think, the rumors are not unreasonable. Isn't the Pharaoh Kingdom many pyramids? Besides, this mountain is not too high. It's normal for the pyramid to be hidden underground."

"gab."

Qin Tianmeng gave Alice another roll of eyes, and said to her, but this time Alice felt that this woman was not so aggressive anymore and could barely get along?

"No nonsense, we will know when we go in!"

Li Yun looked into the valley once again, "Whether the other party wants to prevent the intruder from entering, or wants to set a trap deliberately, or simply wants to kill the intruder, we will know soon."

"You're hitting the big tail wolf again, what are you talking about, just walk away."

Qin Tianmeng couldn't bear to see Li Yun pretending to be a ghost now, and spit on him again.

Li Yun opened his mouth. He didn't know what to say for a while, and then suddenly he said: "I held your hand just now and you didn't refuse. Can you prove that you are Concubine Wan Qing?"

Qin Tianmeng's eyes widened. When she was held by Li Yun just now, she did not have any resistance. If she and Li Yun were strangers, she would definitely refuse or not adapt.

But after all, she was "Qin Tianmeng", and she reacted quickly and said with a smile: "What's the matter? Little handsome guy, do you want it? Come on, come on, sister Yili~!"

"Cough cough cough."

Li Yun quickly took Alice's hand, led her across the big pit, and continued to walk towards the valley.

"Asshole, you haven't answered my question yet!" Qin Tianmeng easily followed Li Yun's pace and stepped through the big pit. The red dress and the blood clots scattered at the bottom of the pit formed a strange evil beauty, making The group of men behind looked straight.

"Seeing a ghost."

Wu Ke murmured, "How come the strong are from Huang Xuan country? This is the foundation of one of the four ancient civilizations? From this point of view, the pyramid is really crisis-ridden. I have to hug my thighs!"

He is a bit cruel, but which powerful supernatural player was not killed from the sea of blood on the mountain?

He can bend and stretch, hug his thigh, what's wrong!

Thinking of this, he chuckled, his burly body flew across the big pit and followed.

Hakkar, who was manipulating the corpse, took a pity at the bottom of the pit, but he did not know where to summon two corpses and let them fly over.

Next, hundreds of supernaturalists each showed their magical powers, using various abilities to cross the pit, and continue to march inside.

Until now, they can only go one way to the dark.

A huge team of hundreds of people, taking advantage of the night, slowly marching in the desert Gobi, this picture is extremely bizarre no matter how you look at it.

If this scene was photographed on the Internet before the aura broke out, it would definitely attract countless people's onlookers.

With the passage of time, everyone went deeper and deeper in the valley, and the cliffs on both sides of the cliff dropped more and more, covering the moonlight above everyone's heads, and the surroundings became extremely dim.

Chapter 3902: what

Everyone was originally not afraid of the darkness, after all, they were also supernatural beings no matter what, their physical fitness was strong, and their perception was also abnormal.

But after experiencing a series of things before, these supernatural beings who were not afraid of fear suddenly discovered one thing:

In the face of the unknown, there is actually no difference between a supernatural person and an ordinary person.

Facing the unknown ahead, they will be afraid, nervous, and frightened.

Again, if Li Yun wasn't leading the way, if there were not so many people around, they would have already figured out a way to leave this ghost place!

"Li Yun."

Alice yelled in a low voice. She didn't know why she called him. Perhaps it was because the surroundings were getting darker and darker and more and more weird, which reminded her of the last time she was in the ancient tomb.

At that time, she hadn't become boyfriend and girlfriend with Li Yun, but she kept looking at Li Yun, as if only by seeing him, could she settle down and not be scared by the oppressive environment in the tomb passage.

Facts have proved that looking at Li Yun is very useful. It used to be and it is now.

"what happened?"

Li Yun slowed down, reached out and held her small hand, slightly cold, after using a ray of mana to disperse, Alice's face improved a lot.

"No, nothing."

Alice smiled, and said a little coquettishly: "I'm just a little scared, but Li Yun is not afraid of you by your side."

The voice is very quiet and sweet. It belongs to the words that couples communicate with each other privately, and they don't say it until the feelings are strong.

And this extremely crooked remark was now heard by another one.

"Humph!!"

Qin Tianmeng snorted heavily, did not say that his bad mood was because Li Yun and other women were showing affection, nor did he say that it was not, but he was very angry.

Alice was in a good mood and smiled at Qin Tianmeng: "Miss Qin, do you want to play coquettishly with my boyfriend? If you feel scared, I can lend my boyfriend to you temporarily~"

Joanna, who followed behind her, felt bad when she heard what the princess said.

"Whoever wants to act like a baby, don't look at how old you are, you still act like a baby, don't be ashamed!"

Qin Tianmeng's face was inexplicable, and even he couldn't speak.

Perhaps, now that Li Yun stepped forward, he could hug her directly?

"What's the shy thing, don't girls always want to act like a baby with their boyfriend?" Alice seems to have the magic weapon to win, "Didn't you say that you are my boyfriend's wife? What about acting like a baby now? NS?"

"you!"

Qin Tianmeng was so anxious that he actually lifted a rock and hit him in the foot!

"Come on~"

Alice's eyes were smiling, and she was about to tease her again, but suddenly she saw several figures in the corner of her eyes, appearing in the darkness, and she was so scared that she was so excited that she subconsciously summoned a weapon.

"what!?"

Li Yun and Qin Tianmeng also reacted quickly, their spiritual thoughts swept the front, and nothing was achieved.

However, the eyes of the two men saw a quite scary picture.

On the road ahead, five mummies suddenly appeared, standing upright, their bodies shriveled, their legs, hands, chest, abdomen, and head were all wrapped in white cloth. There was no trace of skin on the whole body. They were covered with white cloth. The strips are entwined.

Only a pair of hollow eye sockets were exposed, with a weird red light shining inside.

Chapter 3903: The mummy is coming

"mummy!!"

Li Yun shouted with a hint of suspicion, causing the people following him to focus on the road ahead.

Taking a look, they all gasped.

These five mummies stood in the middle of the valley road, surrounded by the color of death, their shriveled bodies wrapped in white cloth, standing in the dark, staring at everyone with blood-colored eyes, as if they came from the most terrifying evil spirit in hell. , Full of extremely vicious evil thoughts towards living people!

This seems to be taken for granted again.

According to the unearthed historical relics, the mummies are all mummies made by dead pharaohs. The pharaohs hope that they can be resurrected after death. From another perspective, all the mummies that survived are failures. If they mutate, they will be born. Have great resentment towards living people!

"Be careful!"

Li Yun only had time to say a word, and the five mummies stepped back. As soon as their stiff legs stepped on the ground, the bandaged body flew up and disappeared into the darkness again.

Until they left, five pairs of blood-red eyes have been looking at these living people—not eyes to be exact, but the deep sunken eye sockets formed by the white cloth wrapped around the head, and the blood formed in the eyes is the same as blood. Red appearance.

Li Yun hesitated, glanced at Qin Tianmeng, and did not choose to catch up.

He is the guarantee of the team now, and cannot leave the team easily, let alone keep Alice away from him.

If Qin Tianmeng is Concubine Wan Qing, he can leave. Although Concubine Wan Qing has a strange personality, she is definitely strong enough to protect Alice's safety.

"This ghost..." Qin Tianmeng was obviously also wondering why these five mummies suddenly appeared and disappeared.

Simply want to be scary? ?

"Get out of the ground!?"

Alice suddenly thought of this, causing the group of supernaturalists behind to commotion again, and looked around more vigilantly.

Li Yun closed his eyes, expanded his spiritual thoughts, and checked the surrounding abnormalities.

Entering this depth of the valley, his divine consciousness was greatly suppressed, and he didn't even notice the mummy just now, let alone check the entire crowd.

"There are more ills than good luck."

Li Yun calmly took out his weapon: the Leap Fire God Sword, but the alarm bells in his heart.

Divine consciousness can be said to be the most important means of exploration for practitioners. Without divine consciousness, his perception is reduced by at least 80%.

And the suppression of divine consciousness proves that the things inside are by no means simple!

"Alice, don't leave me later."

As soon as Li Yun's voice fell, from nowhere, the sharp, hoarse, and weird cry came out again.

The horrible screams echoed in the valley, arousing the commotion of hundreds of supernatural beings. Many people paled with fright, but many people were aroused by blood and began to swear.

"Quiet!"

Li Yun stopped the group of people, "The enemy is in the dark, it's useless to scold you, please calm down!"

To be honest, Li Yun didn't bother to care about the life and death of these people at first. He just happened to be on the way with them. However, after seeing people like Rena Haka and not completely brainless, Li Yun felt that he could still communicate. a bit.

Not to mention being as direct as cannon fodder, just keep them, maybe you can find some other clues?

After all, there is a lot of people and power.

The commotion of the crowd soon stopped a lot, but another hissing sound passed into the ears of everyone in the valley.

Chapter 3904: Scarab

"Is it a snake?"

"No, it's not like. Snakes are not small in size and need to eat a lot. Can this ghost place keep so many snakes?"

"Then how to explain the bat just now? There are also a lot of bats!"

"Is the hiss a bat?"

"Bats don't call like that, they squeak, just like mice."

"Bats are rats."

While arguing about what is going to attack them, the crowd quickly set up a formation, divided into dozens of large and small teams based on the previous team, separated long distances, leaning against each other and guarding each other, waiting. The appearance of the enemy.

Li Yun was holding the Leap Fire God Sword, and he did not hesitate to turn on the flame that came with it, and the blue light radiated out, forming a very unique landscape.

"The earth is fierce?" Qin Tianmeng pointed out the origin of Li Yun's flame, but ignored the look in Li Yun's stealing eyes, still with a careless expression.

However, she leaned a little bit on Li Yun and Alice.

As for her team, they were closely surrounding her and behind her, the translator had turned pale with fright, and the enemy hadn't appeared yet.

"this is....."

Rena was not far away from Li Yun. After seeing the sword in his hand, she suddenly understood, and in the very blunt Huang Xuan country language, she said tremblingly: "You, you are that...Li Chaoren!?"

As soon as the three words Li Chaoren came out, they instantly attracted the attention of everyone present.

Most of them don't understand Huang Xuan's language, but the way to pronounce these three words is not only engraved in their minds. I'm afraid that 80% of the people in the world know how to pronounce the three words "Li Chaoren" in Huang Xuan's Mandarin. !

"coming."

Li Yun didn't answer their questions, just said a little.

It was also admitted in disguise.

Joanna breathed a sigh of relief behind her. The identity of the princess and her boyfriend can't be concealed. However, if the princess's boyfriend is Li Chaoren, I believe many people who don't set sun will understand and accept it. !

"coming."

Qin Tianmeng followed Li Yun's words and said with a smile, "I don't know how many people will survive this attack?"

Without waiting for her to finish this sentence, the attack had already arrived.

The hissing sound turned into a very real noise of flying insects. Everyone looked around in fright. The sharp-eyed people immediately saw that a black sea surged in the distance!

The black waves rolled forward, rushing towards them in all directions, constantly making hissing and slurping sounds.

"What the **** is this?!"

Someone couldn't help screaming.

No one can answer.

It wasn't until the black waves slowly spread to the surroundings, little by little, that they were dazzled by the fire light of the supernatural beings, that they could see exactly what it was!

"Shit shell man!?"

A girl screamed, because what is used like a wave is an insect similar to a shit.

No, take a closer look, this thing is not a **** shell man!

Their bodies actually showed a dark golden color. After being illuminated by the fire, their whole bodies reflected bright colorful light, which was a kind of... colorful black, so dazzling and evil.

What is different from Shikelang is that these insects have a huge mouth, and the sides of the body can spread out to form a kind of butterfly-like wings instead of the wings of Shikelang!

"It's not shit-shell man, but... scarab."

Chapter 3905: The power of scarabs

Li Yun pointed out the origin of these things, leaving everyone unclear.

Scarab? Isn't it a monster?

"The scarab is said to be regarded as the morning sun in the ancient pharaoh kingdom. It is another godhead of Ra, symbolizing sunrise and rebirth. When the ancient pharaohs died, the corpse was made into a mummy. The beetle is placed in the coffin to prevent theft. Once the outsider opens the coffin, the scarab will pop out and swallow the robbers. Another reason is that the scarab's **** status symbolizes sunrise and regeneration. It was placed in the coffin of the pharaohs."

Li Yun explained to Alice and Qin Tianmeng what he knew about scarabs. Strictly speaking, scarabs are really dung beetles...

Because the action of pushing the dung ball and holding the egg by the dung shell is related to the rising and setting of the sun, the dung shelling is the prototype of the scarab.

But it's just a prototype. The scarabs of the ancient pharaohs must have mutated and were cultivated into another kind of guardian of the pyramids. They are said to be able to eat or drink for tens of thousands of years, and they will even be embedded on the walls of the pyramids. Once it senses that someone has entered the pyramid without authorization, the scarab will fall off, quickly recover its mobility, swallow the uninvited guests, and replenish some energy, the scarab will return to the wall, silently waiting for the next tomb thief.

If the legend is true, then scarabs are really pets of the gods of the nobles: because they are no longer afraid of being robbed after death!

"That's the case, the archaeological circles in the past thought that the scarab beetle was a dung beetle..."

Alice held back her smile, but looked at the scarab army that was getting closer and closer, and suddenly couldn't laugh.

"How come these bugs are so many?!"

Alice couldn't help screaming, the girls were very afraid of insects.

At least 90% of the crowd agreed with her opinion: What kind of scarab, how come there are so many? !

The overwhelming space is considered good. The black waves are stacked at least two or three meters high, and at a glance there are at least a million.

And looking at the surrounding mountains and Gobi, they are all covered with such disgusting bugs, squeaking and screaming, no place is not occupied by them!

"Go! Go away!"

"Get away, you **** bugs!"

"All scarab beetles, die to me!"

After tens of millions of scarabs approached at a slow speed, the team of supernaturalists began to resist.

Countless flames, frost, mud, swords, submachine guns, and a mess of attacks came out.

The flames burned hundreds of scarab beetles squeaking, but more scarab beetles dressed in black armor rushed out all kinds of attacks without fear of death, and went straight to the closest superpower. Team.

"what!!"

The screams sounded, and no one tried to save.

Because they were all surrounded by scarabs on all sides, and even the gaps between the teams were crawling all over the floor with squeaking screams against the sky.

"What is this calling?"

Alice had a bad premonition, and sure enough, another dark cloud flew in the sky, it was the finger-sized bats before!

The sky and the ground are all dominated by unimaginable terror!

The crowd killed a group, causing the scarab to die like an ant, a large part of it.

But more scarabs are like crawling out of hell, almost filling the entire valley!

"It won't work anymore." Qin Tianmeng looked over.

Li Yun took a deep breath and yelled loudly towards the front.

Chapter 3906: Organize the formation

"hold head high!"

The majestic roar spread throughout the valley, the sound was not too loud, and it did not burst into people's ears like thunder, but there was a sense of shock that shook the soul. There were more than 400 supernatural beings and millions of pitch-black scarabs. All freeze for a moment.

The whole battlefield was quiet as if dead still.

However, the next moment, the scarab squeaked like a okay bug, and rushed at the supernatural person again!

Everyone hurriedly fought back again.

Li Yun's face is not very good.

His move, Azure Dragon Roar, has been acquired for a long time. It was born out of a sonic skill, and later it was integrated and upgraded again to become a brand-new Azure Dragon Roar.

This move is not too powerful, but it has an extremely powerful effect. Li Yun once stopped the Nanhua Shangxian in the Void Return Realm. He also used it to fight against the thousand souls ancestor and directly attacked his soul. Magical skills.

However, this time, Qinglong's roar encountered a difficult thing. These scarabs seem to be completely immune to sonic skills, and their dark armor is extremely strong and unaffected at all!

"Li Yun, we!?" Alice clenched the Hades spear in her hand, and the overwhelming scarabs gave her a strong sense of oppression, as if the world was occupied by these insects.

"fine!"

Li Yun took a deep breath, his body floated, and the Fire God Sword in his hand was slowly raised.

Everyone looked at him. With so many scarabs, if only relying on more than 400 abilities, I am afraid that even if they can kill them, they will be half tired and unable to cope with subsequent attacks.

"Sun Huo Burning Mountain!"

Li Yun used the skills of the Leap Fire God Sword, and a faint blue flame was ignited from the tip of the sword and fell into the dense group of scarabs that resembled a black ocean in the distance.

Boom!

The faint blue earth fire broke out, swept countless black scarabs, ignited countless bugs, sharp squeaks chaotically, countless bugs scurrying around, some penetrated into the ground, some flew into the sky, some Pounced at the crowd.

But more is being ignited, turning into a scorched pile of ashes.

The fire illuminates half of the sky, and the entire valley seems to have been lit. Li Yun glanced at the black ocean still surging in the distance, twitched the corners of his mouth, turned his head and shouted:

"Don't stand up, keep moving forward, keep the formation in order to avoid chaos! I have to withstand the attack of the insect swarm from the outside, if I can't support it, I will retreat and let the people inside get on top!"

Alice understood what he meant, but this group of supernatural beings are all arrogant guys, can they follow the command?

"Fools." Qin Tianmeng suddenly said, shouting: "You have no chance to make a mistake. You must gather in formation. Did you hear that?!"

Her words were translated and spread by some people. Although many people were upset, they still obeyed.

As she said, now there is no chance for trial and error. Li Chaoren is willing to lead them to move forward. It is already a great blessing. It is impossible to expect him to pick up the sword and rush into the scarab swarm to kill the Quartet.

The previous terrorist attack, killing millions of insects nearby, has relieved them too much pressure.

"Immediately arrange the formation!"

"Don't mess, it's him. Damn, don't mess!"

"Don't just hide, you can't escape if the people outside die!"

A group of people organized the formation in a mess, from dozens of superpower teams, merged into seven or eight formations, followed behind Li Yun and the others at the front, and went to the depths of the valley together to kill.

Chapter 3907: Break through

The scarab swarms came again, and these pitch-black things seemed endless, and there was no sign of reduction at all!

Fire, frost, bullets, and venom are all effective against them, but they are not absolutely effective.

These sacred bugs, which are said to be placed in the coffin of the mummies, can help the pharaohs to resurrect, and symbolize the sun and the new birth. They seem to have some special attributes, and have a certain immune effect against most attacks. The venom is basically ineffective. The weaker frost and flames can't harm them either.

If it were not for the team of only four hundred people, so that these tens of millions of scarabs could not attack them together, I am afraid that the crowd would have died when the first round came.

"The defensive circle must be shrunk!"

Everyone quickly came to the unanimous conclusion that so many bugs could gnaw the entire Pharaoh country! I don't know how it was cultivated, and who released it?

"Ah!" "Ah!" "No, there are too many bugs!"

"Leave right away, let's find a place with our back against the cliff!"

"No, no, there will be bugs in the cliff!"

"Are we going to die here?"

The crowd was in chaos and riots, and insects pounced on people almost every moment, either gnawing a piece of meat fiercely, or digging into the skin of the human body, moving inside the human body like a mouse, light Just seeing it makes people chill.

Especially seeing a person being drilled into the forehead by seven or eight scarabs, and then drilled out of his mouth, eye sockets and ears, bringing out the spewing blood, the scene can be vomited directly.

"Ahhhhh, die for me!!!"

Someone could not bear the pain when the scarab was pierced into the body, so they directly let the flame power envelop themselves and burn them with a bang.

The worm died, and the human was half-cooked. Fortunately, it was a fire supernatural person, who had certain fire attribute resistance, otherwise ordinary people would have died early.

"Li Yun, we can't go on like this, we will be consumed alive!"

Alice can kill a large number of bugs with a single shot, and then facing the overwhelming bugs, she has no hope of killing them all!

"I know... but there is no way."

A faint blue flame was burning on Li Yun's body, and there was no scarab beetle in front of him that could pounce. It was a safe backing for the people behind him, otherwise they would be even more miserable.

Alice opened her eyes wide, "Then we...can only die together?"

"What are you thinking about." Li Yun's voice lowered, "I can't do anything about these bugs, but I can still save you. It's just these people..."

There are many messy things in his space ring, from all kinds of bombs to a large amount of gasoline, but these are not enough to kill the scarab beetle in the valley that is endless, and there is no end in sight.

According to Li Yun's speculation, if you want to kill these bugs, you must use a new type of bomb similar to the last time that bombed the Ado Mountain volcano, and drop explosives weighing more than one ton, or simply use a helicopter to drop several nuclear bombs. The mountains were flattened by a few sounds.

A nuclear bomb is definitely not enough. The shock wave can only kill people a few kilometers in radius. It seems to be very big. But for these scarabs with super anti-strike ability, the effective lethality range of nuclear bombs is estimated to be reduced by more than half. .

The real power of nuclear bombs is the spreading nuclear pollution, which can greatly increase the lethality of human beings. But for scarabs, nuclear pollution... is it effective?

Chapter 3908: Incantation

"I understand."

Alice nodded slightly. Li Yun couldn't save so many people. After all, there were four hundred people who entered the valley. There were too many and too many bugs.

"Then... try your best." Alice is not a Virgin, she also lowered her voice when she understood this truth.

But she didn't stop immediately, she blocked it again, and swung her spear to harvest slices of scarabs.

Vaguely, she felt the spear of Hades, the Hades, absorbing more and more strange energy.

Li Yun said that Hades' weapons can absorb the soul of the dead?

Do these scarabs also have souls?

"Roar!!"

In the valley, the inexplicable sharp cry sounded again, this time it seemed a little more annoying than before.

Qin Tianmeng suddenly looked in one direction, seeming to find the place where the roar was emitted.

Li Yun was still burning with flames, protecting her, and Qin Tianmeng was probably the only one who didn't make a move, and kept silently observing the surroundings.

I have to say that sometimes she is quite reliable.

"Have you found anything?" Li Yun didn't call her Concubine Wan Qing, and tried to avoid irritating her, lest this guy would talk insanely.

"Yes. But not sure yet."

Qin Tianmeng ignored the life and death of those people in the sea of scarab beetles. He stretched out his hand and caught the scarab in the air. He wanted to put it in the palm of his hand and observe it carefully. After seeing that this thing is very similar to the **** shell man, it made her feel sick. , She fixed the sacred **** shell man in midair again.

Li Yun looked funny, and the girl really didn't want to come into contact with this kind of...the **** guy who played with **** balls!

"What do you want to do?" Li Yun asked her again, these words didn't make much sense, just to get closer to Qin Tianmeng.

After all, Li Yun was not sure whether she was Concubine Wan Qing.

"Why do you ask so much? You just don't understand anything like an idiot, and don't know how you cultivate."

Qin Tianmeng gave him a blank look.

This sentence is almost equivalent to admitting that she herself is Concubine Wan Qing!

After all, only if I knew Li Yun before, would I know that he seems to be very strong, but in fact he knows very little spells, and he used them inexplicably, making "Qin Tianmeng" doubt life.

How did he release those spells?

Of course, Li Yun relies on the system, which is also a major feature of him: his strength is very strong, but his theoretical knowledge is messed up, and he relies purely on the system to advance.

"Idiots also have the right to know the truth. It's alright, it's mine, Miss Qin, please!"

Li Yun made a gesture of asking. After losing the large-scale destructive technique of sonic wave and the flame could not kill so many insects, he really felt a little helpless.

Li Yun is now certain that there is indeed an ancient relic in this valley, and only the power of gods or ancient monsters can create, multiply, and maintain such a large number of scarabs!

There are too many TMs, too many to despair.

Li Yun could hide in the Qinglian Immortal Mansion, but he absolutely didn't want to bring in the more than 400 people present. It was impossible. He didn't raise his eyelids even when these people died.

Moreover, the Qinglian Immortal Mansion cannot be omnipotent. Although it can evade detection, it still has no mobility. Once inside, it can only come out from here.

"Hmph, just watch it if you don't, and don't bother me!"

Qin Tianmeng grunted, stretched out a finger and placed it on the hanging scarab, without touching its dark armor.

Chapter 3909: Search for traces

The scarab levitating in front of Qin Tianmeng seemed to realize that he was trapped, and kept making sharp squeaking noises. The biggest difference between it and Shiguchilang was its mouth.

Ordinary **** shell man, the mouth is just a simple mouthparts, there is no special place.

But the scarab's mouth has two sharp teeth, which seems to be a terrifying weapon used to penetrate into the human body and dig crawling in the flesh and blood!

However, the power of a single scarab was still too small. After being held in the air by Qin Tianmeng, he couldn't escape no matter how hard he struggled.

"Hell... nether... power, for my use... see."

Qin Tianmeng murmured a spell. Li Yun didn't hear it very well. He only saw a drop of red blood leaking out of her white fingers, which slowly flowed onto the scarab, following its pitch black. The armor flows all over the body.

The screaming scarab fell silent.

Li Yun's Spiritual Mind glanced, and found that a faint black aura began to spread from its body, invading all over its body.

"This is the method of the animal life?"

Li Yun knew that there was a branch of the Six Dao Sects called the Beast Dao, and all of the magic repairs in it were cultivating evil spells related to gu worms and witchcraft. Once he and Gong Qingyu Gong Lianyi entered into an abandoned mental illness together. In the courtyard, there was a battle with a certain demon repair who had raised Gu worms for more than 20 years.

"What do you think?"

Qin Tianmeng smiled triumphantly: "How can I learn those messy things? This is a kind of incantation that can track the dead fish, insects and beasts. It can barely be used to track it. There may be some traces of manipulation on this thing."

Li Yun smiled and said, "In other words, you don't know where this spell is applicable, right?"

Qin Tianmeng's smile froze suddenly.

What Li Yun said was correct. There were too many spells handed down in ancient times in the six gates. She just learned it briefly, of course, it is impossible to study in depth what is the use.

It just feels useful. A dead horse is a real doctor, but Li Yun, a bastard, came to expose her!

"Too lazy to explain to an idiot like you...Huh?"

Qin Tianmeng suddenly sensed something, and turned his head to look outside the valley—that is, where she and Li Yun had walked before, outside the valley when they came in.

"What's wrong? What did you find?" Li Yun felt that his perception was not weak, but it was estimated to be worse than that of the Six Dao Sect Saints.

"Hey that woman!"

Qin Tianmeng cried out to Alice, who was still fighting, and Joanna who was protecting her: "You really saw the so-called pyramid, right in the valley?"

Li Yun took action to block the scarab beetles that were still coming in crazily for the two women, so that they could answer Qin Tianmeng's questions.

"Uh, why do you ask this question again? I think about it."

Alice took a breath and put her spear on the ground to rest before she said, "I didn't get the exact news, but I can help you ask."

After speaking, she shouted to the people around and said that this was what Li Chaoren meant.

The question was answered quickly, and no one has heard that the so-called pyramid is inside!

"interesting."

Li Yun raised his eyebrows, understood what she meant, looked at Qin Tianmeng and asked, "You mean, the pyramid is outside the valley. We were misled?"

Chapter 3910: Decided to return

Qin Tianmeng now hesitated instead. She looked inside the valley, then at the scarab beetle in front of her, and then outside the valley, and suddenly cursed: "Those ancient monsters left abnormal spells. Not sure which one is right!"

She is rarely unconfident in her own strength, Li Yun is one, and so is the ancient ruins.

"Simple." Li Yun said confidently.

"simple!?"

Qin Tianmeng came up suddenly, and it took him a long time to find the hidden monster. It seemed to be there, but this ***** said it was simple?

"Yes, it's simple."

Li Yun patted her on the shoulder and smiled at her: "Just trust your own judgment, the other party is outside, then we will go outside!"

"Trust me?" Qin Tianmeng was stunned again, the fire in his heart disappeared, and he almost subconsciously asked, "Do you believe me?"

"Of course, aren't we teammates...and friends now?"

"..."

Qin Tianmeng took a deep breath, "You are really...very loyal."

She found a very distant adjective "meaningful enough", so she didn't have too many words to describe her mood at the moment.

"Of course it's loyal."

Li Yun dealt with her, turning his head and shouting to everyone: "Everyone, we were fooled. The other party is probably outside, so now we have to go back to the outside of the valley!"

"what?!"

Everyone was stunned. The people on the periphery were almost overwhelmed by bugs. After confirming that Li Yun was not joking, they were all stunned.

They finally got into the valley. It seemed that the pyramid was not far in front of them. Why did they suddenly turn their heads? !

"Fuck!"

The hot-tempered person immediately scolded: "Aren't you **** kidding us? You finally got here, but you said that the pyramid is outside! Did we go outside and you said..."

"Shut up."

Li Yun said lightly, his expression was distorted for a while, but he didn't dare to get angry.

"Would you like to follow, whatever you want, I didn't take you into the valley when I first came in."

Li Yun explained: "Now I judge that the pyramid is outside, not deeper in the mountains. You can believe it and continue to act with me, or you can not believe it and lead your team to go inward!!!"

Everyone was silent for a while, feeling very cheating, but they couldn't get angry.

Li Yun was right, they decided to enter the valley themselves, and they couldn't blame anyone.

"Now I say it again, whoever believes in me, turn around and go back! If you don't believe me, keep going."

Li Yun took the Leap Fire God Sword into the sky, and walked towards the back of the team, followed by Alice and others, with Qin Tianmeng next to him.

Until he fell to the ground and faced the surging scarab swarm again, no one stood up from the crowd.

"It seems that many people believe me."

Li Yun smiled faintly, "But I emphasize again, this is just my judgment, you believe it, after you go out with me, if you don't see the pyramid, then don't blame me, if anyone complains too much, just get out of here! "

There must be voices of opposition, but no one has come forward.

They are also helpless.

"It's okay to go back." Rena walked over, looking a little tired: "The level of horror in this place is far beyond our ability to bear. Maybe it needs more powerful abilities to stand up here."
