

Godly Choice 3911

Chapter 3911: Golden scarab

What Rina wants to express is one thing: even if there are no pyramids outside, they can escape this terrifying valley, instead of going inside the mountains, they suddenly realize that there are no pyramids at all, but more terrifying monsters waiting. them.

When many people think rationally, those who have long wanted to leave even agree with both hands and feet.

So Li Yun's proposal received most of the approval, and the team set off again, still maintaining the seven or eight railroad formations, relying on each other to resist the attack of the scarab army, and quickly walked towards the path of the past.

Countless scarabs squeaked and screamed, and everyone stepped on the corpses of the previously killed insects and returned the same way.

"Is it an illusion? My strength has hardly diminished!"

Alice waved the golden spear in her hand, and the more she killed her, although she was tired, her heart became more excited.

Hades' weapons can not only absorb souls, but also seem to provide her with a certain amount of power feedback. She didn't find out before because there were not many monsters and enemies killed with this weapon, and it has been fighting until now. Killing, Alice realized the problem.

"I thought your Royal Highness would say that the attack desire of these scarabs seems to have increased!"

Rina said with a smile, and handily imposed a water shield on her and Joanna and others, which made many people jealous with envy.

Under this kind of continuous combat and high-intensity killing, an auxiliary effect can be more reflected.

"Huh? Increased desire to attack?!"

Only then did Alice notice the incident, and after careful observation, these scarabs were indeed rushing towards the crowd at a more violent speed than before, and even if they were flooded, they would drown all the living people!

"I also found out, Your Royal Highness." Joanna is an almighty maid in combat and life. After realizing that bullets have limited effects on scarab swarms, she has long been replaced with cold weapons and is always paying attention to Alice's safety.

But she can rest assured this time. With Li Yun, spears and other defensive equipment, the princess has never encountered a danger!

"Li Yun, your judgment is correct?"

Alice said in surprise that Li Yun was questioned just now, and she was also uncomfortable. Now that he was proved to be right, Alice would naturally be happy.

"What? What!" Qin Tianmeng cried, "Obviously I found it by casting a spell. Whatever he judges, it's me!!!"

Alice chuckled and was attacked by a group of scarab beetles that rushed forward. With a wave of her golden spear, Alice instantly killed all the scarabs.

No, there is another fish that slipped through the net.

A golden scarab with mysterious lines on its carapace escaped the attack of a spear, screamed sharply, and rushed towards Alice's face.

"carefully!"

"Princess be careful!"

"Your Royal Highness is careful!"

Li Yun, Joanna, and Abel's bodyguards all yelled. Alice's wave just used her strength to defend against emptiness, and this scarab took advantage of this opportunity...

"cut."

Qin Tianmeng stretched out a finger, and with a flick of Biu, the golden scarab flew upside down, fell back into the black worm, and disappeared.

"Huh? I didn't die!" Qin Tianmeng was surprised, his eyes searched in the sea of black insects, but the densely packed scarabs were stacked on top of each other, surging repeatedly like waves, it was almost impossible to find it!

Chapter 3912: in all directions

"The leader of this golden beetle?!"

Alice was not afraid, instead she showed a surprised expression and turned her head to look at Li Yun.

Li Yun knew what she meant, and leaped to the place where the golden scarab had disappeared just now, like Shaoluo's soldering iron being thrown into the pool. The dark blue surrounding Li Yun's body instantly ignited hundreds of scarabs. But more insects seemed to be stimulated, and they rushed towards Li Yun frantically.

"boom!"

Li Yun slammed his sword forcefully, thousands of flames and sword aura swept in all directions, killing hundreds of thousands of scarab beetles in an instant, but more insects continued to flood in one after another, and even the dead insect corpses became alive. The scarab's food, while gnawing, attack.

The chaotic picture is unimaginable.

It is too difficult to find a three-finger-wide golden scarab among so many insects.

"It's a pity that it ran away."

Even Qin Tianmeng was a little annoyed, and he shouldn't have used his fingers to bounce the golden dung sheller away because of his nausea.

"It's okay, it will show up sooner or later."

Li Yun smiled confidently, "The appearance of the golden scarab proves that our path is right. Go, keep going, don't stop!"

He led the way, wielding the Leap Fire God Sword along the way, and smashed a red path in the sea of black scarabs, making the people behind him stunned.

As expected of the man I fancy to Alice.

A certain princess saw the light flashing in the blue eyes, and took the initiative to follow and fight side by side with her boyfriend.

Qin Tianmeng looked sourly, and mumbled: "I didn't say that I was right. Don't blame me if I'm wrong."

"Haha, how come the dignified saint is so unconfident?"

"How many times have I said it!! I don't know who Concubine Wan Qing is, I don't even know her!"

"I didn't say it was Concubine Wan Qing, I just said it was a saint."

"Go to hell!"

After arguing, Qin Tianmeng followed unconsciously, becoming Li Yun leading the two beauties all the way through thorns, cutting out a way in the sea of worms ahead.

Once again, the hundreds of abilities behind him were dumbfounded.

They were panicking behind, but Li Chaoren in the front hugged left and right. It seems that the rumors are true. This Superman is also the same as the one in the movie. He is surrounded by beautiful women.

"what!!"

Suddenly, someone in the crowd screamed again, and the figure quickly fell towards the ground and disappeared quickly.

"That thing again!"

"mummy!"

"Stay steady, don't mess!"

The crowd rioted, and the mummies that could lurch beneath the ground to kill people appeared again, and with the scarab beetles around, it was a lore.

"No, more than that!"

Someone looked to the sky in horror, and groups of bloodthirsty bats were circling.

"There is still ahead! It's a scorpion!"

Someone yelled again.

Until this moment, they completely believed Li Yun's previous judgment that the pyramid was near the valley, not inside the valley.

Or, a certain monster hidden in this valley just doesn't want them to leave here!

"There is only one way to go now!"

There were monsters in all directions, countless attacks came in, Li Yun shouted in a deep voice:

"Everyone uses your strongest power to make a blood path, leave the valley as soon as possible, or kill all the monsters here. Light!"

The sound mixed with the power of the Qinglong roar echoed on the battlefield, making the battlefield tense to the limit a bit stagnant.

"Kill all!!!"

Alice held up her spear and was the first to respond to Li Yun's words.

Chapter 3913: Kill out

"Kill all!!!"

The remaining 300 or so supernatural beings were aroused bloody, and roared in anger as well.

Then, they saw a surprising scene.

The imperial princess Alice from the empire that does not set sun and is the woman next to Li Chaoren, the golden spear in her hand was thrust into the ground fiercely, and she shouted a spell:

"In the name of Hades, the Hades, summon death. Your soul is fighting for me!"

On the battlefield, there was a whimper of wind, and the remnants of milky white souls gathered into her spear, making Alice's body suddenly become stalwart.

A jet-black phantom appeared above Alice. She was 100 meters tall and could not see her appearance, but her whole body exuded an unknown breath of death. With her dimly red eyes open, she glanced under the ground.

"Squeak!"

Thousands of scarab beetles' belly upturned, struggling to die. The bloodthirsty bats in the sky fell one by one, falling to the ground like rain.

Bang bang bang bang.

Five shriveled mummies emerged from the ground, all convulsed. After two steps uncontrollably, a white soul emerged from the body, which also rushed to the golden spear in Alice's hand.

Unimaginable power was gathering, Alice seemed to feel something, and slammed her spear.

Countless souls screamed and spread around. This was a cry from a ghost. The sound was not too loud, but it was full of chilling power.

Pieces of monsters fell, the scarab corpses covered the ground, and the black insect sea in the distance finally fell silent.

The hundreds of people in the entire mountain range were shocked.

What scarab beetle, what mummy, what bloodthirsty bat, were all killed by the princess of the Everlasting Empire with one move? !

Hades? !

Is it the name of a certain god? !

This... is terrible!

This is the power of the gods?

To ordinary people, countless monsters that were almost a dead end were killed by the gods.

Anyone who sees this scene will feel a sense of shock, powerlessness, and pessimism.

If the gods recover, how can human beings resist the power of gods? !

"This....."

Alice was also obviously shocked, her white palms tightly holding a golden spear, Hades, Hades, this **** she had never heard of many times, but she possessed such a strong power!

And what Li Yun said, how strong should the goddess of war, Athena, be?

"Hades!!!"

An angry roar sounded from the ground, this sound was extremely clear, much clearer than the previous hoarse shout, which proved that Alice's move made the people behind the scenes very angry, and she had not concealed her strength at all, and shot at this side. Come with an angry look.

"Got you!"

Qin Tianmeng said in a low voice, his eyes fell on a distant cliff.

However, before she could move anything, an unusual black light appeared there, and the cliff seemed to be torn apart, and countless yellow sand dust fell off, revealing two magnificent stone pillars.

Behind the stone pillar, a simple gate appeared in front of everyone.

The pyramid finally appeared.

No, to be precise, it is a temple!

The pyramids of the ancient pharaohs are so famous that they cover up another great building in this ancient civilization. In fact, the achievements of the temples of the ancient pharaohs are far more glorious than the pyramids.

For example, the famous Abu Simbel Temple, Luxor Temple and so on.

Chapter 3914: Temple

The pyramids of the ancient Pharaohs are magnificent and huge, but from a technical point of view, it seems that they can still be explained.

However, the Abu Simbel Temple not only has the magnificence no less than the pyramid, it also has special magical technology.

The innermost part of this temple contains a huge statue of a pharaoh. In normal times, the sun cannot penetrate the temple to shine inside, only on the birthday of the pharaoh (February 21) and the foundation day of the temple (October 21).), the sun will penetrate the temple and shine on the huge stone statue of the pharaoh.

More mysteriously, the left side of the statue of Pharaoh is the **** of death, which symbolizes darkness. This statue will never shine with sunlight, and the right side of the statue of Pharaoh is the **** of Ra, who symbolizes the sun. The sunlight will shine on this statue from left to right. Let it be bathed in sunlight like the statue of Pharaoh.

The symbol is very simple, that is, Pharaoh, like Ra, is the incarnation of the sun, and Pharaoh is the son of Ra, who can accept the sun.

And Osiris, the dark god, will only hide in the dark forever.

pity.

Such a miraculous temple of Abu Simbel, 30 years ago, because the modern pharaoh country wanted to build a dam, the temple was moved to the top of the mountain, and the miraculous scene of the miraculous sun shining on the idol was also caused by the restoration staff. I didn't understand the technology of the time, which caused the day when the sun to shine into the temple was advanced by one day.

If that pharaoh really came alive from a mummified state and saw the temple created by his painstaking efforts to direct his subjects to be messed up like this, he would probably be vomiting blood with anger.

"Finally, it appeared!"

Li Yun sighed from the bottom of his heart. This night was really not easy. It took so much effort to find the temple, and it was hard to imagine what problems would be encountered after entering.

"The treasure of the ancient gods is in the temple?!"

Everyone was aware of this problem and cast their eyes on it.

However, compared with the ecstasy and clamor before entering the valley, the abilities who experienced a battle with the scarab were obviously full of fear for the power of the gods, and did not dare to be frizzy.

Many people don't even want to go any further, they just want to leave here!

"Alice, are you okay?"

Li Yun looked at Alice, and after she walked over, he touched her forehead and found that everything was normal, except that she was slightly weakened.

"Li Yun, the trick I used just now, the one that summoned... Hades, the Hades?" Alice was a little nervous, but she believed in Athena, the goddess of war and wisdom, and then used Hades's power. , There will be nothing wrong, right?

"It should not be, just a phantom."

Li Yun comforted her. The huge phantom just now looked scary, but it was actually an empty shell without even a trace of the power of a god.

"Well, shall we go out now, or continue to explore the temple?"

Alice looked at the magnificent one, as if it led to the inside of the mountain, no, it led to the temple underground.

She had a hunch that this temple was huge, and the layout inside might be bigger than the sleeping place of Princess Yongning!

After all, the original Pharaoh country, but the power of the whole country, and built the temple with the help of priests, and Princess Yongning only fell asleep with the help of her father.

There seems to be another person's help...

Chapter 3915: Book of Wisdom

"Of course it is..."

Li Yun was about to answer Alice's question, and the system prompt finally sounded again.

"Ding, trigger the option event, please choose from the host:

Option 1: Enter the temple and explore the secrets inside. Reward: colorful gift bag*5, special treasure: fragment of the book of wisdom*1, all attributes +200,000.

Option 2: Turn around and leave, reward: golden gift bag*3.

Option 3: Provocation. Then escape. Reward: Golden gift bag*5, chased and killed by someone in the temple. "

Seeing these three options, Li Yun was a little surprised.

There are fewer and fewer systems now, but the rewards are very reliable. The colorful gift bags are directly given to five, which is very generous.

The Book of Wisdom...

Li Yun remembered that this was a treasure of the goddess of magic in the ancient pharaoh country. The name of the **** Ra was recorded in it. Because of the real name of the god, it is extremely powerful. From a mythological point of view, it is better than he was in the cherry blossom country before. The ten-fist sword obtained is even stronger.

Now Shiquan Sword is lying in his inventory and eating dirt, where he hasn't used it yet.

"Li Yun?"

Alice, Qin Tianmeng, Rena, Wook, and a large group of people are waiting for his decision.

Everyone could see that the temple suddenly appeared, not because Alice's moves forced it to show up, but for some purpose, the temple was deliberately revealed.

"Of course I choose... to enter!"

Li Yun calmed down and looked at the temple in the distance and said: "Since we are here to find it, there is no reason to escape before entering. However, the danger inside is definitely far beyond your imagination. I suggest you leave. Bar."

Many people nodded in agreement, they were already scared, and they didn't want to ask for any more treasures of the gods, so let's get out of it, they couldn't stay in this place.

If it hadn't been for Alice's sudden outbreak, the scarab swarm and various monsters just now would have been able to reduce their staff by more than half, leaving a hundred people to escape from the valley.

"That's good." A man stood up, "Since we are all here, of course we should go in and take a look. I wonder if the proposal Li Chaoren said before is still valid?"

"Of course." Li Yun nodded and glanced at him: "What I said before still works. Before you see... the so-called gods treasure, no one should attack each other. However, when distributing treasures, you need to follow Merit is assigned, and I and Alice are responsible for distributing the treasures. If you don't want to comply, you can act on your own. Or, when the time comes...

Each has its own ability, which is to show up and see who can persuade each other.

"I also agree with Li Chaoren's proposal." The man smiled, bowed slightly, and said: "Then, I will wait for West to enter the temple and follow your orders from Mr. Li. I hope you can take us. Find the treasure!"

Li Yun glanced at the black man unexpectedly, but he was quite simply.

It can even be said that it was a little unexpected and just obeyed the leadership?

"I just believe in Superman Li's personality." The black West shrugged and grinned with white teeth.

Li Yun nodded slightly, and looked at the other crowd: "You can gather together to fight out the valley if you don't want to enter the temple. It should not be far from the exit. In addition, if we enter the temple to attract the attention of the monsters, you are affected. The pressure will be much less."

There was a commotion in the group.

Chapter 3916: Decide, whoever stays

Li Yun waved his hand and said, "Decide as soon as possible and leave as soon as possible."

People who are not capable of entering the temple are looking for death.

Many people were aware of this and looked at each other one after another, and chose to take a few steps back, indicating that they would leave.

Subsequently, more and more people wanted to leave. Of the more than 300 people who survived, more than 250 people chose to form a team and left again toward the outside of the valley.

Li Yun didn't pay much attention to these people, and he didn't care about the spies of some countries among them, and no matter how they promoted after they went out, they would attract many people who were not afraid of death to explore the temple.

He doesn't care.

Because, when those people came in, he had turned the temple upside down long ago, and he must have taken away any treasures!

The crowd gradually left, and the rest of them looked at Li Yun one after another.

There are not many people left. Li Yun, Alice, and Qin Tianmeng, plus Qin Tianmeng, all the teams she brought have left, and even the translator walked away. Fortunately, Qin Tianmeng is Li The women around Superman didn't dare to do anything to the translator.

Others, the previous metal manipulator Wook, the corpse manipulator Haka, the black West, the water system supernatural power Rena, etc., these people and the more powerful members of their team have stayed.

The total number is about forty or fifty people. Li Yun believes that every one of them is at least a B-level or higher power level, and the leader is at least A+, and the strength is good.

"Very well, there are more confident people than I thought." Li Yun smiled and nodded in satisfaction.

"That's all because of Mr. Li, Princess Alice, and your strength, Miss Qin Tianmeng, let us see hope!"

The flatterer was the metal manipulator Wook. This guy was the most arrogant before, even after he was defeated, he looked arrogant, but after seeing the power of Li Yun and his party, this kind of person directly became the most humble. dog.

Li Yun smiled faintly, ignoring this guy's remarks, and said, "I think you are all people with teams. I don't arrange for you too much, and I can't arrange it. When we go in, we try our best to cover each other and save. Try to save the people who lay down, but if you can't save, you can only resign yourself to fate."

Everyone nodded, they knew the danger of this adventure.

But in order to gain the power of the gods, they gambled!

In their opinion, Li Chaoren is so desperate, doesn't it prove that the contents are worth the risk?

They also believed in Li Chaoren's character, thinking that he would at least not do things like murder and treasure.

After all, he is the world-renowned Superhero Li, the only superhero superstar.

"in addition."

Li Yun thought for a while, "Do not touch the contents of the temple, do not take it away, or destroy it before getting permission."

Everyone nodded again. The ancient tombs in the movie are full of various institutions, and the pyramids and temples are probably similar.

"Last point." Li Yun emphasized: "From now on, what we do belongs to everyone's common privacy. I don't want anyone to promote everyone's secret weapons or powers. I don't hope that one day in the future they will leave because of leaks. Chase you guys!"

secret?

Everyone's expressions stunned. It seems that this Li Chaoren still possesses special powers that he doesn't want to expose. If he made a move before, it is estimated that he would be able to destroy countless scarabs, just like Alice's move.

In fact, they misunderstood, Li Yun just wanted to conceal his Qinglian Immortal Mansion.

Chapter 3917: Huge statue

Several decisions were announced, and to Li Yun's surprise, these people agreed quickly.

Perhaps it is because they all know that they are auxiliary, and the main force is Li Yun. If they rely on them, they will definitely not be able to enter the temple or get the treasures inside.

"Very well, without further ado, we will set off right away!"

Li Yun finally smiled at them: "I hope I can find some treasure in the temple, otherwise you will all come in vain."

"Uh."

Everyone did not know what expressions.

"go!"

Li Yun continued to take the lead. The intercalary fire **** sword in his hand was already in its sheath, and Alice and Qin Tianmeng were once again followed by him. The three of them headed forward and walked towards the temple on the cliff.

At this time, it was ten o'clock in the evening, and the dim fog and sand was still shrouded above his head, the moonlight was bleak, and the surrounding atmosphere was miserable.

But after a battle, everyone has been able to accept this environment a lot.

The closer to the temple, the more people can feel its magnificence and magic.

The temple was hollowed out of the cliff and built on the mountain. In front of the door stood two huge stone pillars nearly 20 meters high, either obelisks or stone pillars.

"strangeness."

Alice can be considered to have some understanding of the temples of the ancient pharaoh country, and said suspiciously: "Should the stone pillars in front of the temple be obelisks? Why are they stone pillars?"

Obelisks and stone pillars are still very easy to distinguish. The stone pillars are just two circular or square pillars. However, the temple obelisks of the Pharaoh Kingdom have a relatively fixed shape, with a pointed and square pillar shape.

The top of the obelisk is shaped like a pyramid tip, and the spire is wrapped with gold, copper, or a mixture of gold and silver. When the sun rises to the top of the obelisk, it will shine like the sun and is very beautiful.

By the way, the reason why Alice knows so clearly is because there are two obelisks looted from the Pharaohs in her Royal Museum...

Ahem, to be precise, they are the obelisks of the Pharaoh Country. Most of them were dug away by Western invaders, and there are very few obelisks in the Pharaoh Country.

"Perhaps the early temple?" Rena was also familiar with the obelisk and expressed her own opinions.

When everyone came under the stone pillar, they found that the stone pillar was much larger than they saw. Ten people could hardly hold a pillar. After there was no obelisk hieroglyph on the pillar, everyone became more sure that it was not. The obelisk is just a stone pillar.

"Um?"

Li Yun seemed to have seen something. He jumped and flew to the top of the stone pillars, only to see that the two stone pillars had been cut off, and there were very clear breaks on them.

"Hey idiot." Qin Tianmeng also followed, poked him, and said, "Do you think these two pillars are part of something?"

"Something?"

Li Yun looked down and vaguely saw a trace in front of the stone pillar. He immediately dropped to the ground and stepped on his foot.

The rumbling, dusty, exposed under the ground, something was buried by the sand.

Two feet.

The two are huge enough to be matched with a stone pillar more than 20 meters long to form a huge statue!

"Hiss!" Wook exaggeratedly gasped, "So this is not a stone pillar, but two feet of a statue!"

Negro West is a wind power, he waved his hand to let the gust of wind blow away the yellow sand on the stone statue's feet, completely exposing the shape of his two feet.

It is indeed a complete pair of legs!

Chapter 3918: hall

A huge statue, after many years, was cut off from the legs, and the remaining two legs became two huge stone pillars, and even the soles of the feet were buried.

Alice couldn't help feeling: "In BC, I didn't know how majestic this statue was, but unfortunately there are only two legs left, Li Yun, whose statue do you think this is?"

This question is just a casual question, a small chat between lovers. Alice is actually not asking for an answer, but talking to Li Yun.

Qin Tianmeng answered first: "Isn't it just a certain pharaoh who is going to be resurrected? Knowing that these are useless, we will go straight in and lift his ashes to see how he will be resurrected!"

Alice was not angry, but instead smiled at her. The smile was full of teasing, which made Qin Tianmeng a little guilty.

"Am I wrong?"

"No, Miss Qin, what you said is very domineering, and I agree with it."

"Then go!"

Qin Tianmeng strode forward. After a fierce battle in a red dress, it was still as bright as ever. The bright red figure seemed out of place with the empty and silent temples that were surrounded by yellow sand.

Alice's smile did not fade, but instead took a step ahead of Li Yun, followed her pace, and chatted with her like a chat: "Miss Qin, are you from Huang Xuan country?"

"certainly!"

"Oh, have you known my boyfriend for a long time?"

"..."

Everyone was stunned together, even Li Yun couldn't understand why Alice was talking to Qin Tianmeng. Is it just that he just wanted to make a friend?

"Go, let's go in!"

Li Yun also followed the footsteps of the two beauties, and walked between the two stone pillars, to be precise, towards the middle of the crotch of the huge statue.

The entrance of the temple was opened under the crotch of the huge statue, which is a characteristic of the ancient pharaoh country.

In addition, the ancient pharaoh country has a special custom that no other ethnic group has, that is, men in the entire country are not allowed to wear beards!

From humble servants, commoners, nobles, to sacrifices, pharaohs, everyone has to shave their beards, and ruling classes such as nobles and pharaohs need to shave all their hair.

Including the hair, underarms, beard, underside and so on, all have to be shaved.

But during celebrations or some kind of sacrificial ceremony, the pharaohs and nobles would wear fake beards and long hair to symbolize their rights and status.

It's as if Li Yun pushed open the gate of the temple and saw the large stone sculptures arranged on both sides of the temple. As long as it was a human face, there would be a long stone representing a beard attached to the chin.

In the modern Western world, the wigs of the judges are actually influenced by the tradition of the ancient pharaohs.

It is a pity that the modern pharaoh country has long since been wrong, and the people of the ancient pharaoh country have long lost their culture and tradition.

"This is the inside of the temple?"

Qin Tianmeng, who entered the temple of the ancient pharaoh country for the first time, looked around with a hint of curiosity.

The inner space of the temple is very large, and unsurprisingly, there is a ten-meter-high stone sculpture at the end of the hall. The road continues to extend down, and the end is not visible at a glance.

"Boom!"

After Li Yun and his party entered the hall, the heavy stone gate of the temple suddenly closed, and then one after another pillars of fire burned, making everyone startled.

"Oops!"

Wook took out a discus and smashed it at the huge stone, but Shimen remained motionless except for a loud noise.

Chapter 3919: mural

Instead, a huge sound echoed in the temple hall, making everyone extremely uncomfortable.

"I don't believe that you can't break your bad door!"

Wu Ke was frightened and angry, and wanted to come a few more times to try the solidity of the stone gate.

Li Yun stopped him: "Since you have come in, don't leave in a hurry and move on. This door doesn't care about him!"

"Uh, well, listen to you, Mr. Li."

Wu Ke took up his hand in a slanderous manner, raised his hand, and took back the iron that fell on the ground, and turned it into a pair of armor and put it on his arm.

I have to say that sometimes the metal abilities are really strong.

"keep going."

Li Yun said in a deep voice, "Without my permission, don't disturb the things here, let's go directly in and see what's inside!"

"Yes!"

A group of people became energetic, and the Biyou Palace on Penglai Island was outrageous. When people approached, their legs would become weak, and it was impossible to even enter.

But the temple here, more than 5,000 years ago, seems to be just right, not too strong, not too weak, just enough to go in and explore!

"If you want me, it doesn't have to be so troublesome."

Qin Tianmeng looked around, and his eyes fell on the fire pillars of the small statues on both sides: "Just destroy this place. Even if the people inside can calm down, they will rush out without screaming, we don't have to. Go in and fight with them."

Everyone's eyes brightened, this method is not bad!

To be honest, although they are all supernatural beings and don't worry about being buried in the sand, anyway, walking down the stone steps into the ground will still give people a very uneasy feeling.

Li Yun smiled, "I have come here, how can anyone not even go in for a visit? Anyway, this is the crystallization of human wisdom, and it would be too vulgar to damage it."

A group of people were stunned on the spot. This explanation... the more you think about it, the more you think it seems right?

"Just you can talk!"

Qin Tianmeng gave Li Yun a white look and walked forward first.

The steps are not hurried or slow, but it seems to be for an outing.

"Wait for me, Miss Qin." Alice immediately followed, and her maid and bodyguard followed. Li Yun shrugged and followed.

The others are okay, just follow along and it's over.

The hall of the temple is over a thousand square meters. On both sides stands ten-meter-high statues of various gods. There are eagle-headed figures, sun discs and cobras on top of their heads. He is holding a scepter, and there are dog-headed figures. He has a big beard and his hands are on his knees, which is very distinctive.

Li Yun repeatedly checked these ten-meter-high statues with divine intent, but he couldn't see any difference.

However, he found that Qin Tianmeng was also observing the surroundings with divine consciousness, observing very vaguely, but he still caught him.

"What are you looking at?"

Qin Tianmeng gave Li Yun a white look and stepped into the stone steps leading to the underground.

Li Yun quickly followed.

Everyone behind him followed closely.

This stone step is at the end of the temple hall. Compared with the huge hall, this passage is a bit short, barely enough for Li Yun to jump gently, that is, less than 2.5 meters.

There are many wonderful but difficult to interpret frescoes on the walls of the passage. Some are gods spreading their beliefs, and some are pharaohs reprimanding his courtiers, or carvings of some great achievements and so on.

If you want to interpret it in detail, you have to draw a few years, and then contact other unearthed historical materials, and combine them to interpret it.

After all... these murals are simply more abstract than Picasso!

Chapter 3920: Endless tunnel

Li Yun was also interested in the murals at first, and wanted to verify what records some people in the ancient pharaoh country had about the gods, so as to corroborate some of the knowledge of the gods he acquired, but after studying it, I feel that these murals are about gods. The content...probably it's all Mongolian!

For example, Li Yun saw the pharaoh holding a scepter standing under the sun, raising his head toward the sun and saying something, and above the sun, there was a hazy phantom, which should represent the ***** Ra.

And the next mural, Rashem came to Pharaoh and bestowed him a crown and a fine sarcophagus.

That's right, it's the coffin. Rashem gave Pharaoh a coffin...

Li Yun didn't bother to vomit, and after retracting his gaze, he focused on observing the movement in front of him.

However, Alice was very interested in these murals. Using a professional video camera, she asked Joanna to take pictures of all the murals she saw along the way. Joanna became a battlefield for recording the whole process. No, it was a crypt reporter.

As time passed, everyone's pace was not fast, but it was not slow.

However, they walked a full ten minutes in the dark and deep underground tunnel with the lights on, but found nothing.

The temple corridors leading to the underground seem to have no end, and the murals are endless, but they don't seem to be repeated at all. It's incredible!

"Something is wrong, something is wrong!"

One person swallowed, "Mr. Li, do you think people in the past can make such a deep tunnel?!"

"can."

Li Yun shrugged, "I've seen it in another tomb before. People in ancient times have already mastered some magical spells. They can do more bizarre things. Go ahead."

Everyone had nothing to say and could only continue walking.

There was no pillar of fire in the corridors of the temple for a long time. Everyone could only walk forward with the flashlight that Li Yun took out of the space ring, or use some fire abilities to

illuminate, the dark and deep passages, the mysterious and primitive murals, and It seems that it can swallow the lights, and the endless roads all give people a strong sense of oppression!

"F*ck! How long is this passage?"

Someone couldn't stand it anymore and smashed the wall fiercely to vent the uncomfortable feeling in his heart.

Going deep into the ground, the heavy soil above your head, coupled with the unsafe environment and the enemies that may emerge at any time, are all frightening.

"This horrible place has no end?!"

"Yes, it's okay to say that the stone steps, the ability to manipulate the soil can also dig out, but these murals are endless, why on earth?"

"Are we going to the center of the earth?"

I haven't seen any changes in the surroundings, and everyone's discussion began to increase, and they all looked at Li Yun.

"Calm down."

Li Yun was calm and unmoved.

Seeing him like this, Alice closed her mouth and continued to move forward obediently.

I don't know how long it has been, Qin Tianmeng finally said: "Enough, basically we can be sure that we are caught in a certain formation, Li Yun, we need to break this cycle!"

"Oh?" Li Yun calmly looked at her: "How did you know?"

"look here."

Qin Tianmeng pointed to a mural, "The sun is in a round outline at seven o'clock."

Everyone took a closer look and found that the sun on the mural had a faint gap. It was so small that it was almost invisible. It is estimated that the painter's hands shook a little. The painting was not perfect, leaving a small flaw. .
