

Godly Choice 3931

Chapter 3931: Speak up

"Blam me?"

Qin Tianmeng became angry from embarrassment, she just said a word, why did she blame her? It wasn't her intention! It's this ghost place, not her!

"I didn't blame you, I just wanted to find out the reason." Li Yun defended.

It is difficult to talk to a woman, especially a woman in shame.

"Humph!"

Qin Tianmeng snorted heavily, and she did not continue to maintain the state of flying, allowing herself to fall with Li Yun and the others.

Anyway, this horrible place has no bottom, no top, and can't fall anywhere... However, after leaving the door where you came in, don't wait to go back?

"Farther and farther!"

Qin Tianmeng looked up and saw that the only place in the starry sky that could be identified, that is, the door they came in, was already as small as an ant. If it is not resolved as soon as possible, it will be troublesome to go back there later.

"Concubine Wan Qing," Li Yun said quickly: "Try to use your words to make us stop!"

"Does it work?"

Qin Tianmeng is not a fool, and he immediately understood what he meant. Although he was puzzled, he immediately said: "This place has ground, and we will soon touch the ground!"

As long as there is ground, she and Li Yun have many ways to stop everyone.

However, nothing happened.

The surroundings are quiet, only people have been falling into places that they can't see.

"I blame you woman!"

Someone couldn't help it anymore, and cursed at Qin Tianmeng: "It's okay to say that we are going to fall? Now it's okay, we really fell, what should I do? You hold us?"

"Shut up!"

"court death!"

Li Yun and Qin Tianmeng said at the same time, Li Yun shut up, and Qin Tianmeng showed murderous intent, gritted his teeth with hatred-not because of the person's words, but because of the person who let her be in front of Li Yun and Alice Shame.

"You really should shut up."

Alice said something unexpected to Qin Tianmeng, and she continued: "Miss Qin Tianmeng did nothing wrong just now. She just assumed a situation. We don't know if there is any connection between what we fell and what she said. You But I blamed it for no reason. I didn't expect Miss Qin Tianmeng to bring you out when she defeated the monster with us just now!"

The man's face became ugly, but he stubbornly said: "Who knows if it is related to her? Besides, we must be right here when we came here? Maybe this is a dead end!"

Several people agreed that they would run away in the event of a crisis, blame each other, and did not talk about teammates at all.

Li Yun frowned. If it weren't for many people saying notarization, he would be annoyed by Qin Tianmeng's side with him.

"Humph."

Qin Tianmeng showed a sneer: "Since you said you didn't know if it was my fault, let's just verify it!"

"You, what do you want to do?"

"I didn't want to do anything, I just want to test whether this ghost place can actually show my words."

Qin Tianmeng stretched out his hand and pointed at him, and said coldly: "A mummy appears, kill him!"

Everyone was taken aback, because a mummy wrapped in a white cloth really appeared around the man out of thin air and rushed towards him.

The man was terrified, and he was so anxious that he yelled, "Let me fall faster!"

The moment the mummy's hand caught him, his falling speed allowed him to avoid this mortal blow.

Chapter 3932: Quarrel less

Everyone was taken aback, it was really okay?

"Kill her!"

The man was also surprised, and pointed at Qin Tianmeng from below: "Kill this woman! Quick, kill her!"

The mummy did not listen to him, nor did he come to chase him. Instead, he swooped at a person who was close, making him yell in fright.

"Huh, interesting."

Qin Tianmeng took action to break up the mummy, turning it into a bandage and dissipating in the starry sky. He didn't know if it couldn't be resurrected, or it took too long to resurrect and was thrown behind by the speed of the people falling.

"Falling speed slowed down!" Qin Tianmeng shouted again, but nothing happened. Qin Tianmeng did not believe in evil, and pointed at the person before and shouted: "A sword appears, kill him!"

Whoosh!

A flying sword really appeared out of thin air and stabbed at the person at a swift speed. This time he finally did not escape, and a sword pierced his head.

Afterwards, his body was quickly abandoned by the fallen people behind him, making it impossible for people around him to check it.

"Hmph, dare to offend me, this is the end!"

Qin Tianmeng glanced at Li Yun, as if watching his reaction.

Li Yun didn't say anything, just said: "This matter ends here, I hope everyone complains less, and argues less."

Alice was still waiting for his next words, but didn't expect that there will be no more, so it ends like this?

Qin Tianmeng snorted and reluctantly agreed.

She knew that Li Yun couldn't understand these people, so she didn't bother to say so much.

Everyone vaguely grasped some laws of this weird cosmic starry sky. Some people, as they couldn't bear the idea of experimenting, followed Qin Tianmeng and shouted out loudly.

"Let us fall to the ground!"

"The rate of descent slows down!"

"Make a chicken leg!"

"Let's meet the exit!"

"God is here to save us!!"

A group of people shouted in a mess, but none of the words could be fulfilled. Li Yun listened to all these shouts in an attempt to find a pattern.

Alice looked at Qin Tianmeng and asked softly, "What do you think?"

She now feels that her next sentence will be fulfilled, and she doesn't dare to speak loudly.

"Isn't it simple?" Qin Tianmeng said confidently: "In this ghost place, bad things will become true when you say them. If you say something unbelievable, hehe, all of them will die."

Wooker, West and others immediately shut their mouths obediently.

"Bad things will become true, what about good things? Indifferent?"

Li Yun said to himself, "This world is too unreasonable, so good, I also come to make a wish, ah, no, it's not a wish, it's a crow's mouth!"

"puff."

Qin Tianmeng laughed out loud. Alice didn't understand what the crow's mouth meant at first, but she didn't understand until Qin Tianmeng explained it.

"Crow's mouth? Ah wait, there won't be any crows..."

"Crack quack!"

Alice spoke out subconsciously, but in the end a group of crows were really attracted, and the speed was so fast that they swooped at the crowd.

After finally killing the crow, everyone didn't even dare to express their anger this time, and they couldn't wait to seal everyone's mouth.

Alice stuck out her tongue and stopped talking.

Everyone looked at Li Yun again. The weird setting of this ghost place can make the bad things that people say become true, but they don't respond to the good things. It's purely for killing people!

Everyone looked at Li Yun again. Except for him, it seemed that everyone else had nothing to do.

"Then let me talk about it."

Chapter 3933: experiment

Now only Li Yun is speaking, and everyone is waiting for him.

It's just that everyone's state is very weird. They are doing free fall in the cosmic starry sky. If someone sees it from above and has a reference, he will see Li Yun, Alice, Qin Tianmeng and others, who are fast. 'S fell towards "below".

Below, it refers to the direction in which it falls. There is no clear regulation at all about where it is up and down!

"..."

Li Yun closed his eyes and carefully felt the surrounding area. Even if he had a plug-in like the congenital tyre, he could not find a direct way to crack it. He could enter the quiet state, but he was still falling continuously, giving him the feeling around him. It's just chaos, and you can't see the direction.

"Hurry up, our current speed...ah!"

Someone couldn't help but say another sentence, and as a result, everyone weighed heavily and accelerated a bit faster, and the falling speed was terrifying.

If there is air around, they are estimated to have become dozens of flames, falling like meteors.

"Shut up!" xN

More than a dozen voices scolded together, and the man shut up obediently.

Everyone looked at Li Yun again.

"I,"

Li Yun pondered for a long time, took out a detoxification pill and placed it in his hand, and motioned to Alice to look at him before finally speaking slowly: "I will die in ten seconds!"

"what!?"

Everyone looked at him in shock, Alice was even more nervous, and she also took out the pill that Li Yun gave her, ready to give him everything from the Detoxification Pill and Restoration Pill at any time.

Qin Tianmeng frowned and wanted to speak, but he was afraid of touching some strange taboo, so he could only bear it down without saying the two words in a low voice.

After Li Yun's voice fell, time passed, and an invisible evil force descended on him.

Tick, tick.

Everyone heard a voice ringing on him, and they looked at him in shock, only to see that before they knew it, Mr. Li's face had become sweaty, his fists clenched, as if he was fighting against something.

After a long while, he slowly breathed a sigh of relief.

"Can't you kill me in ten seconds?"

Li Yun said to himself, his confidence greatly increased. He knew that his congenital womb had played a role and weakened more than half of the curse power. If other people said this, they would have died and been cursed to the end.

"Li Yun!"

Rina finally spoke, without saying anything, just pointing at everyone.

The speed of the fall was getting faster and faster, and the terrifying acceleration made everyone feel extremely uncomfortable. Even Qin Tianmeng didn't expect that he would just say something casually, but let everyone fall into such a situation.

However, even without her, everyone will trigger a certain taboo sooner or later. For example, someone yells for the gods to appear. If there is a god, then it is really a dead end!

At least now they can resist.

"I will get a long sword!"

Li Yun spoke again, tentatively exploring the secrets of the cosmic starry sky that can tell the truth.

There is no doubt that nothing happened, and the starry sky did not respond to his words.

Li Yun spoke again: "I will get a long sword to...sever my hand!"

The faces of everyone were weird. They thought that Li Yun wanted to kill himself with a long sword, but just cut off his hand?

"is that useful?"

A question sounded in everyone's mind, but at the next moment, they saw a long sword in Li Yun's hand.

"Oh?"

Qin Tianmeng's eyes lit up. Is he trying to hide his true purpose in a sentence?

Chapter 3934: Disaster offerings

Of course Li Yun did not commit suicide with a long sword, but the curse came again. Of course, the curse that killed him in ten seconds failed to overthrow him, and the curse this time didn't work either.

That is to say, Li Yun obtained a sword out of thin air!

"I'm going to choke to death after eating chicken thighs!"

When Li Yun spoke again, a roast chicken appeared out of thin air again, which opened everyone's eyes.

"What do you want to do?"

Qin Tianmeng didn't say it, only asked with his eyes. Alice also had the same question. She probably guessed Li Yun's thoughts, but she didn't know what words he used to hide her intentions.

Li Yun took a bite of the chicken, swallowed it, and then choked successfully.

Qin Tianmeng was not polite, and flew over and slapped him on the back.

"Cough cough cough cough!"

This time Li Yun really coughed and spit out a big mouthful of chicken, and was abandoned behind him in the next second: the speed of the chicken could not be better than the speed of their falling!

"and then?"

Qin Tianmeng asked, she can't make any mistakes in this sentence, right?

"Don't worry, I don't think the next sentence will work, it needs a little test."

Li Yun thought for a while, stretched out his hand to point at someone at random, and said: "He will meet the exit of this place, and then he will be chased and killed by a mummy at the exit."

That person was Wook, he was stunned, why should he be hunted down?

No response.

Li Yun's words failed, and many people who understood and understood their hearts sank. Isn't there no exit from this place?

"When I meet the exit, I will die!"

Li Yun was cruel, and once again used his death as a "sacrifice", a disaster sacrifice in language.

This weird place only responds to people's bad things, Li Yun just wants to treat his death as a bad thing, and then let the world realize his last sentence.

Unfortunately, this sentence still failed, and nothing happened!

"When I finally found the exit, I encountered a million scarabs!"

Li Yun was cruel again and used one million scarabs as disaster sacrifices in an attempt to make the world realize this sentence.

In the end, nothing happened, everything was quiet.

"To put it another way."

Qin Tianmeng spoke and said slowly: "When we found the most important thing here, one million scarabs, one hundred mummies, and one hundred thousand cannibal bats appeared. Most of them are devoured."

Everyone... is silent.

If it were normal and Qin Tianmeng cursed them to death, they would have jumped and cursed.

But now, they are incomparably hopeful that Qin Tianmeng's words will become true!

Killing most people is not killing all of them. As long as they are strong enough, they can resist the past.

Isn't it just one million scarabs? Fight!

but.

One million scarabs should be given to them too, instead of falling down all the time now, people's hearts will also be sinking all the time.

Too scary, too desperate.

"Still invalid? Come again!" Qin Tianmeng was about to speak, but Alice suddenly called out, "Look below!"

Everyone looked down, and saw that in the originally dark world, a piece of earthy yellow ground appeared, and it was rushing towards them!

To be precise, they are falling towards the ground.

"Ah! It's finally about to land!"

"carefully!"

"Oh, we are so fast, we are dying!"

"Calm down, when you are about to hit the ground...no, no, too soon, Mr. Li save me!"

Chapter 3935: arrive

A group of people screamed in fright. Fortunately, Li Yun reached out in time and slowed their speed with powerful mana before they landed safely.

"Saved! Damn!"

No matter how hard the ground is with their feet, everyone has an unbelievable expression. They actually found a place where they could land and landed safely in such a weird starry sky fall!

This probability is no less than the probability of surviving after jumping off a crashed plane.

"Don't be proud, there will be bugs soon!"

Alice reminded them, observing the surroundings.

She discovered that this was an island suspended in the starry sky of the universe. There was a dark pyramid in the middle of the island, which seemed to blend with the starry sky in the background, exuding a mysterious atmosphere.

At the foot, there is a piece of yellow sand and gravel, almost no different from an ordinary desert.

But the magic is that from here, on both sides of the road leading to the Black Pyramid, olive trees are planted, and occasionally some green bushes are dotted in the desert, and there is a clear desert not far away. The lake is exactly like an oasis.

"Here...what the **** is it?"

The sudden beautiful environment makes people's hearts more uneasy.

"It doesn't matter where it is, let's deal with one million scarabs and one hundred mummies."

Li Yun looked into the distance, the overwhelming sea of black insects had already flooded.

Everyone fell silent. They knew that this was the suffering that they had to endure to get to this place, otherwise, this weird place would not send them here!

...

After a battle, the crowd killed a hundred mummies that were constantly resurrected by Alice's weapons. Then Alice released the power of Hades, the king of Hades, and killed a large number of scarabs and bats. This battle was only Announced the end.

But I don't know if it's because what Qin Tianmeng said before became true, or because the scarabs and mummies created by this world are particularly powerful. After the battle, only a little more than half of the people can stand up. It was twenty-five or six. The others all slept underground, becoming the companions of this deep starry sky.

"Oh, it's not bad to die here, at least this place is good."

Someone sighed and dug a simple tomb for the dead companion, buried the body in it, and accompanied the black pyramid in the distance.

After a brief prayer, the crowd continued to set off toward the black pyramid.

There is only this goal now, and they have not left this starry universe yet. In other words, what they said just now will actually cause a reaction.

However, I don't know if it's because of approaching the Black Pyramid, the effect of utterance is greatly diminished, and it disappears soon. After everyone's repeated confirmations, I can finally speak boldly!

"Huh, suffocate me!" Wook yelled, his voice strangely loud.

"Shhh, do you really dare to say that you are dead?"

"What are you afraid of, I don't believe it's so unlucky this time!"

It's really not that bad, because they came to the most terrifying and mysterious place, in front of the black pyramid.

"Here, is the most important place in this space?"

Qin Tianmeng's previous words were to let this space transfer them here. If there is nothing wrong, this is the key to leaving the temple.

Chapter 3936: Black pyramid

Standing under the black pyramid, everyone felt a mysterious and ancient aura, as if this pyramid has been through tens of millions of years, and it has stood here before human beings was born. Only the stars of the universe are the companions around, and the stars are shining. , The stars are shining, there are countless stars in the universe, but only this black pyramid shows the traces of intelligent creation.

Just like the earth, it is a very inconspicuous planet in the universe. There are 300 billion similar planets in the Milky Way alone.

But the earth is unique. It has given birth to countless lives and is the common mother of hundreds of billions of gods.

The same is true for the black pyramid. Compared to the starry sky of the universe, it is inconspicuous, but in this inconspicuous, it contains the crystallization created by intelligent life!

"Let's go."

Everyone stood under the black pyramid with emotion for a while, Li Yun said first.

The Black Pyramid is about two to three hundred meters tall, which is not too high, but it is definitely a bit higher than the 142 meters outside the Pyramid of Khufu.

What's more, the pyramid was built with no stone material. Pieces of black stones were neatly stacked, and the middle was tightly stitched. Only white unknown paints glued the stones together.

At the end of the road that Li Yun had just walked over, under the black pyramid, there was an arched round gate. Two gates were carved with mysterious patterns. The gate opened slightly to accommodate one person entering sideways.

"Don't worry."

Qin Tianmeng stopped him and looked up at the spire of the pyramid: "Don't you think you should go up and take a look?"

"Definitely not going up!"

"Bet?" Qin Tianmeng squinted at him.

"Then bet if you lose, admit that you are Concubine Wan Qing!"

"Humph!"

Qin Tianmeng snorted heavily, feeling uncomfortable, and snorted again, making Alice stare at her all the time: She still doesn't know who Concubine Wan Qing is, only that she must be in love and murder with Li Yun Woman.

And it must be a very beautiful woman.

"I didn't say what Concubine Wanqing I am... But what if you lose?" Qin Tianmeng intends to take this bet, anyway, she won't lose if she loses.

"Then just make a non-willful request." Li Yun smiled and said: "Remember, it is a non-willful request. I don't agree to any request."

"Shameless man...I took this bet."

Qin Tianmeng murmured, stepped on the stone road ground under his foot, jumped up from the desert oasis, and flew towards the spire of the black pyramid.

If nothing else, she can climb to the spire of the black pyramid more than two hundred meters high in only three seconds.

But everyone seems to have guessed that this black pyramid must not be so simple to let people go up.

really.

After Qin Tianmeng reached a height of more than 30 meters, the speed became slower and slower, as if it became a slow motion. The strong pressure from the top of the tower forced Qin Tianmeng to fall on the tower of the pyramid. Wanting to take advantage, suddenly, a door appeared from the spire of the pyramid, and it swallowed her in.

"what!"

"Concubine Wan Qing!"

Everyone screamed, and Li Yun jumped up without hesitation, but only had time to meet Qin Tianmeng who had entered the door of the pyramid more than 30 meters high, and then looked at each other, and then she disappeared.

The black pyramid once again returned to its tightly closed state.

Chapter 3937: Up

Li Yun immediately lowered his head and shouted at Alice and the others: "I'll give it a try first, don't move around for now!"

After finishing speaking, Li Yun did not hesitate, and stretched out one foot, kicking hard at the place where Concubine Wan Qing had stepped.

No accident, a door appeared again on the tower of the black pyramid, and a suction force came from inside the door, causing Li Yun's face to change slightly, and he had to resist the suction force.

He wasn't sure if Concubine Wan Qing entered this door, because she had disappeared. If not, he would not be able to save Concubine Wan Qing after entering, but made Alice at the bottom of the pyramid unprotected. In crisis.

Li Yun resisted the suction, and then the door closed again, and the black pyramid resumed its tight fit.

"This stuff..."

Li Yun was uncertain, but without hesitation, he flew towards the spire of the pyramid again.

After flying less than ten meters, he felt an unimaginable pressure. From the black pyramid tower, a majestic and vast coercion came from the body of the black pyramid, which pressed against his body, causing Li Yun to move forward almost every centimeter. , You have to pay a great price, and the mana in the body is quickly drained.

Just when Li Yun clenched his teeth, sweating, and wanted to give up, the system prompt sounded.

"Ding, trigger the hidden option event, please choose from the host:

Option 1: Go up as much as possible, reward: to be determined.

Option 2: Don't challenge this pyramid again, no reward.

Option 3: Turn around and leave, throw Qin Tianmeng in the pyramid, reward: Concubine Wan Qing's favorability degree is -50. "

Hide selection event?

Li Yun was very pleasantly surprised. If it weren't for Concubine Wan Qing, he would not have been able to trigger this event!

Moreover, he estimates that the reward for the first choice will be very generous, and the system will not give him a choice for no reason. It is estimated that there will be a good reward for reaching the top of the tower.

However, the system used to cheat him, but now Concubine Wan Qing has finally been pitted-if you don't save Qin Tianmeng, Concubine Wan Qing's favorability will decrease. Doesn't it mean that these two people have a great relationship?

"Falling fire, burn me!"

Li Yun decisively chose to summon all the dark blue flames in his dantian. In an instant, his whole person was enveloped in the flames. Against the backdrop of the black pyramid, the people underneath looked like a brave who challenged the gods. The stars are cheering for his courage.

"rise!!"

As soon as Li Yun stepped on the tower of the black pyramid again, before the door was opened, his body was already like an arrow from the string, rushing straight up.

Concubine Wan Qing's strength must be more than 30 meters before, but she was careless, and because she encountered this situation for the first time, she was sucked into the pyramid.

However, Li Yun is already prepared to fight against this kind of power for the time being.

Forty meters, fifty meters, sixty meters...

Li Yun flew up to an altitude of nearly 80 meters, and his rapid ascent slowed down.

But he no longer dared to step on the pyramid to take advantage. It seemed that he didn't need to experiment. He knew that the higher the place, the stronger the suction of the opened door.

Finally, he stopped his figure at an altitude of ninety meters, and the faint blue flame on his body was pressed by the invisible pressure to stick to his body, forming a layer similar to a protective film.

Li Yun gritted his teeth to resist this pressure, but still felt that he had reached the limit.

Using only one's own power, there is no way to move forward.

However, he still has a plug-in.

Guards' plug-in.

Chapter 3938: Tongyou confrontation

"Congenital Dao fetus, Tongyou!"

Li Yun's plug-in is not a system, this cheating thing cannot temporarily give him power, but an innate body rewarded by the system.

Regarding the congenital Taoist fetus, it is definitely the most perverted reward Li Yun has received, not one of them.

It was so horrible that the ordinary formation was like a thin layer of paper in front of Li Yun, and it was broken with a poke. The ordinary curse was even more ineffective against him. For example, he was cursed and killed before, and Li Yungsi was unscathed.

Now, he once again used the ability to communicate with the dark to resist the incomparable oppressive power of the Black Pyramid.

The reason why he didn't use Tongyou at the beginning was simply that Li Yun wanted to know how many meters his current strength could reach the pyramid...

"Li Yun!!!"

Standing at the bottom of the pyramid, Alice yelled. They saw Li Yun who was nearly a hundred meters above the ground. His figure gradually became illusory, then became transparent and completely disappeared.

Wu Ke's eyes widened directly: "Should we not be killed?"

"Shut up!!" Alice glared at him fiercely. Someone said these shit-like words?

Wu Ke quietly shut his mouth.

The black West said quietly: "Mr. Li is dead, I am afraid we can't live either. The remains of the gods are far beyond our imagination."

Before they entered the temple, they must have been mentally prepared to encounter extremely dangerous things.

But after they really entered the temple, the various magical traps from the age of ancient gods still left them stunned, and there was no way to resist them.

For example, the hallway that I encountered as soon as I entered. Without Li Yun, Alice and Qin Tianmeng, they would not even be able to get through the hall of the gods and die directly in the hallway.

After entering this starry sky, it was Li Yun that finally made everyone come to the black pyramid at the cost of his own death prediction.

The relics of the ancient gods are far more horrible than they imagined. Without Mr. Li, they would undoubtedly die, and they would not be able to get out at all, let alone treasures.

"No, look, Mr. Li has appeared again!"

Someone yelled and pointed to the top of the black pyramid, and he saw an illusory figure gradually consolidating. With a slow but firm pace, his feet were stepping on the top of the pyramid and moving towards the top of the pyramid.

"Come on! Husband~~~!"

Alice recognized Li Yun and clenched her fist to cheer him up.

She could see that Li Yun is now using his physical strength to move forward. The terrifying pressure must have pressed his internal organs and bones to the limit. Not only can he not fly, but it is impossible to straighten his waist. He can only use it. With hands and feet, climbers go up!

The fact is indeed as Alice imagined.

After flying to an altitude of two hundred meters, Li Yun was shocked to find that his congenital Taoist fetus's ability to communicate with the ghost was not completely immune to the pressure given by the black pyramid.

The higher he goes up, the more solid his figure is, as if being forced out of the virtual space by a black pyramid, he can no longer approach the spire in a transparent posture.

In the end, Li Yun couldn't bear the pressure, so he could only step on the pyramid with one foot, planning to experiment one last time to see if there was a door open to **** him in.

Surprisingly, he was in a semi-secret state without triggering the door door of the pyramid, allowing him to step on the tower of the black pyramid that was not too smooth with his feet, step by step.

210 meters, 220 meters, and 230 meters. Finally, Li Yun's body was completely revealed.

Chapter 3939: Man in black robes

And he is less than five meters away from the spire of the tower.

The height of the entire pyramid is probably between 238 meters and 240 meters, and the error will never be too large.

Li Yun crawled all over the black pyramid, like a gecko crawling slowly. He felt that as long as he reached the top of the tower successfully, not only would the system reward rich things, but the black pyramid was also very likely. Something happened.

However, the power of his innate Taoist fetus could not withstand the powerful oppression of the black pyramid in the end. The ability to communicate with the dark was ruthlessly broken, allowing him to appear and lay down on the pyramid.

Sudden.

When Li Yun wanted to continue climbing, the black pyramid he leaned over opened a door again, frightening Li Yun. When he was about to resist the suction force, he saw a door behind the door. The skinny corpse in a black robe was looking at him from inside the pyramid with a bitter expression on his face.

"Ajs!!!"

With an inexplicable sharp roar, Li Yun was kicked down the pyramid by the man in black robe like a mummy.

But Li Yun is not a vegetarian. When his foot struck, he abruptly took out a feather and threw it at the black-robed man at the moment when he left the pyramid and the pressure suddenly decreased.

The white feathers bloomed with dazzling light, and the black robe corpse man slammed into the pyramid. Li Yun only heard another angry roar from him, the door closed, and the pyramid became tightly closed again.

"..."

Li Yun fell back to the ground, and everyone hurriedly gathered around, watching the surroundings vigilantly, fearing that Mr. Li would be attacked by the enemy after he lost his strength.

They had seen the battle at the spire of the tower in their eyes. Although they couldn't see who the enemy in the pyramid was, they saw the white light blooming from the open door of the black pyramid, and they knew that Li Yun had something with him. fighting.

The Black Pyramid was originally mysterious and abnormal, and living near the spire of the tower, that enemy is likely to be... a god!

"hiss!"

Wu Ke gasped, looked at Li Yun in disbelief, and stammered: "Li, Mr. Li, you just fought with a **** just now?!"

Everyone also looked horrified, which was terrible.

However, when I thought about it, Li Chaoren had already had a close relationship with the gods when he was in the Kingdom of Sakura, and he was also an envoy of a certain **** in Huang Xuan Kingdom. It was not incomprehensible that he fought with other gods.

Divine envoys are also incarnations of gods in a sense.

"I don't know if it's a god."

Li Yun took a breath and evaporated the sweat from her body with her force. Alice took out a handkerchief intimately, wiped the sweat marks on his face carefully, and asked with a distressed look on her face. What's there?"

"It's just a black robe monster, similar to a mummy. If it's not a god, it's probably a certain pharaoh or a sacrifice."

Not many people are qualified to enter the pyramid, except for the Pharaoh who is a sacrifice, which is easy to guess.

It's just that Li Yun didn't know which pharaoh he was or which ***** he was.

"However." Li Yun paused, "If the opponent is a god, then his power must be greatly weakened. Maybe we can kill the gods within today if we work hard!"

Killing God!

While everyone was shocked inexplicably, there was also an indescribable excitement and excitement.

Just saying this word can make people excited, challenge the majesty of the gods with the body of a mortal, and finally nail the gods to the throne. How can such a thing not make people excited?

Chapter 3940: Natural feathers

"Is the enemy in the black pyramid really a god?"

Alice couldn't help asking, "Is it Anubis, the ***** of death, or Osiris, the king of Hades? Or the supreme ***** of the ancient pharaohs, Ra? I heard that there is another rebel who killed Osiris. God, his name is Getter?"

"I don't know yet."

Li Yun shrugged, glanced at the spire of the black pyramid again, and the feeling of de-strength still remained. Only when he has actually gone up can he feel... how powerful the pressure of the gods is!

Li Yun felt that it was the power of gods, nothing else, at least this black pyramid and this weird universe and starry sky illusion were all made by gods.

"What about Miss Wanqing?"

Alice also changed her name to Qin Tianmeng and directly called her Concubine Wan Qing.

"She should be fine."

Li Yun judged and said: "There is more than one door to the Black Pyramid. As long as the person who breaks in is strong enough, he can enter the tower from the mountainside of the pyramid. Concubine Wan Qing was sucked in. She may be inside the pyramid now. In a certain area, moving towards the spire, we will also go in and catch up with her!"

Li Yun was not sure if Concubine Wan Qing was the opponent of the black robe corpse. He had seen a figure standing behind the door close to the top of the tower, and subconsciously gave him

the saint son Xiaosu, which is said to be the feather of the sacred archangel. He threw it onto the dark corpse figure.

The effect was also surprisingly good. When Li Yun held the sacred archangel feather that was silent, not only did it accurately hit the black robe corpse, but also smashed him.

Judging from the light blooming from the feathers of the sacred archangel, the black robe corpse should have received a huge attack, as for whether it was injured or not, it is unknown.

"I hope the little blonde loli son will not blame me."

Li Yun said to himself in his heart, but didn't know that when he took out his feathers, the saint Xiaosu, who was far away in Zhonghai City, had already felt what was happening here through vague power.

"That's right." Li Yun thought of something: "The black robe corpse just now should be the inexplicable roar we heard when we were in the valley."

"In other words, it was he who made trouble?" Rena guessed.

"should be."

"That's good news for us."

Alice's eyes lit up: "Since the black robe corpse at the top of the pyramid, he attacked us, and indiscriminately attacked people entering the valley. There was no idea of communication at all. I think it should be able to prove that he is not a god, maybe Just a pharaoh trying to resurrect! Right?"

She solicited Li Yun's opinion, and also solicited the opinions of everyone.

Many people agreed and felt that these things were too low for the gods to do. There is a high probability that the black robe corpse is not a god.

"I don't know yet. Besides, the pharaoh is not necessarily weaker than the gods. The gods today have not recovered their power, and they are not necessarily strong."

Everyone remembered Li Yun's words in their hearts. These were all intelligence from Li Chaoren, and it was not a problem to put it in the outside world with a value of 100 million. Many countries and forces wanted intelligence about the gods.

With more and more ancient relics appearing, things about the gods are too important.

"Let's go, go in and talk." Li Yun didn't want to struggle too much, it was important to find Concubine Wan Qing first.

"Shall we go up from the bottom?" Alice asked, "Should we all figure out a way to go in from the middle?"
