

Godly Choice 3951

Chapter 3951: wrong again

In the face of everyone's doubts, Li Yun was still confident: "When you say you are a monster, you are a monster. Don't deny it. Normal people are so scared that they are screaming when they put their heads to their necks! monster?"

Everyone was a little bit convinced... blame it!

Alice didn't believe it!

The person who lighted the cigarette silently took a puff of cigarette, then slowly spit out a smoke ring, and suddenly smiled: "Mr. Li, do you think the monster will spit out a smoke ring like me?"

At the same time, his skin appeared a bright silver luster, everyone was shocked, but it was not because he suspected that he was a monster, but because he knew he was a dual-line superpower!

The fire system, and the metal manipulation ability, so he is not afraid that people can stretch his head to his neck and can bite off his neck in one bite, proving that the monster has the power to defeat him with one blow, and there is no need to cover it.

The smoke ring spit out by the cigarette lighter spread out in front of him, turning into a perfect smoke ring and slowly expanding. This hand can't be produced without a decade of smoke age.

Do monsters smoke? Do monsters spit out smoke rings?

No one believes Li Yun anymore!

"okay."

Li Yun touched his chin, "It seems that I was wrong again, and I have to apologize to you again."

The man who lighted the cigarette took another cigarette and spit it out helplessly: "I understand, after all, Mr. Li, you are now the captain. It is a good thing to be careful, and the pressure is normal."

Everyone was reluctantly persuaded by this reason, and temporarily trusted the captain for a while.

But Li Yun was not enough.

He stretched out his finger again, only thinking about behind the cigarette-lighting man: "You can spit out the smoke ring, but the person behind you certainly won't. He also covered his eyes just now, so it must be a monster!!"

Alice covered her forehead. She was completely confused. It turned out that Superman Li was doing business like this?

Serious and not serious.

strange.

The man who lighted the cigarette smiled: "First of all, my name is Brian. My ancestors are from the legendary ancient pharaoh country. I came back this time to see what's inside the pyramid. By the way, I will remember him. Then, Mr. Li, you refers to the certificate, isn't it too random?"

People from the ancient pharaoh country? The inherited nation?

Strictly speaking, everyone came to rob the tomb, and only Brian came to "archaeology."

Of course, archaeology is also tomb robbery in a sense, cough cough.

"It's a bit random, but it works."

With a faint smile on Li Yun's face, he looked behind Brian: "However, whatever I order, I will explain it. Others don't talk."

Um?

Everyone felt something was wrong, Mr. Li got serious?

Brian leaned over, looked at the man who had just stretched his head to his neck, and said, "Brother, Mr. Li said you are a monster, what do you say?"

The man was silent for a while, "No, I am not..."

Not far from him, there were four people standing, all seemed to cover their eyes.

"Really?" Li Yun asked again.

"no."

"really not?"

Li Yun asked again.

"no."

"no?"

Li Yun asked for the third time, his tone aggravated a lot, faintly already somewhat harsh.

"no."

What everyone got was still the man's low, hoarse, reply that seemed to be a little nervous.

But a deep suspicion arose in everyone's heart.

"You really are not a monster?!"

Alice seemed to have grasped what Li Yun was going to do, and asked as harshly as he did.

Chapter 3952: I am not a monster

"No, I am not, really not... a monster."

The hoarse voice sounded, seeming to be answering, but it made everyone's heart chill inexplicably.

This person...has a problem.

"Are you kidding?"

Brian said loudly: "Others have doubted you like this, and you are still like this... calm?!"

After realizing the word "calm", Brian himself trembled, the cigarette in his hand fell to the ground, and he took a step back subconsciously, his body was quickly covered by silver-white metal, becoming a monster more than a monster.

But at least he has human nature in him, can communicate, and is not a monster.

Calmness is the characteristic of those who cover their eyes!

"Who on earth are you...?!"

Alice raised her voice, she already understood what Li Yun did just now, and the purpose was very simple, just to distinguish monsters.

"Just now Li Yun identified three people in a row. They all reacted differently, either angry or calm, but they retorted with irrefutable words, or simply used smoke rings to prove themselves."

"But what about you?"

Alice held the golden spear tightly in her hand, and her azure blue eyes stared at them, "You are so calm, your reaction is too outrageous, say, who are you!?"

Everyone looked at those people closely, waiting for his answer.

"I'm... Virgil, I'm a human being, not a monster."

The man replied, almost everything others asked, he would answer whatever, his speech looked normal, and his tone was like an ordinary human being.

The words that can be said give people an extremely blunt feeling.

It's like the most stupid artificial intelligence, answering human questions mechanically in a certain format.

"You are a monster, aren't you!?"

Brian clenched his fists. He possessed metal and fire abilities, and with a punch, he could melt and collapse the load-bearing pillars of high-rise buildings, and ordinary monsters were not in his eyes at all.

However, when he came to the temple of the ancient pharaoh country, and entered the ruins built by his ancestors thousands of years ago, even tens of thousands of years ago, he was crippled everywhere, and his combat power was simply unable to show.

Or simply because the enemy is too strong, let him know that it's over without starting a fight.

"No, that's wrong, I'm not a monster, I'm a human, it's... Virgil."

The man replied again.

Brian wanted to ask something, but Li Yun interrupted: "Shut up, people and monsters are not the same, especially if you guys don't know what monsters are disguised and don't know whether they are monsters or human monsters."

An extremely slurred sentence, ordinary people can't help but understand, let alone these stiff people.

Virgil closed his mouth, the expression on his face was calm, pale and calm, revealing a trace of weirdness.

It's too quiet.

He, as well as the few people around him, exudes an inexplicable breath of death. He clearly stood there, but it gave people a kind of death that had been dead for a long time, but the corpse stood upright, using stiff movements and words. Answer their words!

"People are flexible and changeable, with all kinds of possibilities."

"Monsters are the opposite."

Li Yun said indifferently: "I pointed out the three of them specially before, just to see what kind of reaction normal people are suddenly accused of thinking of monsters."

The first man to be identified and Brian both showed embarrassed expressions, and they were the subjects of the experiment.

Chapter 3953: stiff

As for Joanna, as a rigorously trained woman, no, it was after a long, long time with the princess that she naturally learned various maid skills, but she still didn't have any expression on her face.

Calm, unrestrained and indifferent.

It's only a few silver knives to become a perfect and chic maid.

"It turned out to be... this way!"

Wook opened his mouth wide in surprise. Fortunately, he thought he had finally won once, but it turned out that Mr. Li acted in order to make the identified person react most naturally.

Then compare it with those who may be monsters, and immediately come to the conclusion who is the monster!

Nonsense, people are regarded as monsters. Who is not anxious for normal people?

If anyone is still calm and calm, he must be a monster!

Well, including the maid named Joanna, is also a "monster".

Everyone cast their admiring gazes at Li Yun, and then they held up their weapons and aimed at the five people who were extremely calm and were covering their eyes before.

Although they don't know why they are covering their eyes, it must be the monster that can't fake it!

"No, we are not monsters."

Some people also retorted, but the words still seemed very stiff.

Li Yun stared at their faces and slowly said: "If I just cover my eyes, I would doubt it, but I would never guess that monsters would get in, but you... your fingers are unusually stiff!"

stiff?

Everyone immediately looked at their fingers and couldn't see anything.

"That's right." Li Yun smiled slightly, "Monsters, try to do the action of covering your eyes just now, let us confirm whether you are monsters, okay?"

Alice almost doubted life.

Li Yun guessed that they were monsters, but still let them make the action of covering their eyes? Are they willing? It's all here...

But what makes Alice more suspicious of life is that these people really raised their hands at the same time, covering their faces and eyes, and replied in their mouths: "We are not monsters. It can be proved."

The chill in everyone's hearts grew a little bit more.

This Nima...what kind of person would do it like this?

"Look at their fingers!"

West pointed his finger over, staring at Virgil's finger.

Everyone saw that Virgil, who had always said that he was not a monster, was now covering his face and eyes stiffly with his stretched fingers.

Even if a normal person covers his eyes against the glare, he would subconsciously cover his eyes and eyelids with his palms. The fingers are soft and cover the eyelids. They are by no means stretched straight, just like the hands of zombies. ! !

"hiss."

There was a big sound of cold gas.

Li Yun said again: "Since you are not monsters, then follow up. Let's go slower, yes, don't go fast."

He winked, and everyone hurriedly followed him.

Then, after seeing Virgil standing in silence for a while, he stepped out stiffly and stepped on the floor.

Raise your left hand, then take your right foot, raise your right hand, and take your left foot again.

Step by step, rigid, rigid, and exuding a strong evil aura, the five people walking together in this way, like walking on a rigid corpse, make people feel creepy at first glance.

"You monsters, die!!!"

Wook was the first one who couldn't stand it. He took out a metal ball and slammed it at Virgil.

Chapter 3954: Mummy again

boom!

The metal ball blasted Virgil's head with the momentum of thunder. No accident happened, and all the parts above the neck disappeared.

But the strange thing is that the corpse stood upright on the spot with an inexplicable force, and there was no blood flowing out of the neck, as if Virgil had really become a mummy, and all the blood in the body was emptied.

"what happened?"

The alarm bells in the hearts of everyone, the scene before them did not exceed their expectations, but there were four people next to Virgil's corpse—not to mention human beings, from their stiff movements and unchanged expressions. Look, these four must have become monsters.

"Are these people monsters?"

The remaining less than twenty people were all chilling in their hearts. The people next to them, and the people who were walking hand in hand with them just now, were killed and occupied by monsters silently. This feeling is really creepy.

Especially Bryan, who was stretched out by the monster to reach his neck, now shrinks his head, massaging his palms on his neck, looking scared.

"Kill them!"

"should be!"

"Hi, when did you become a monster?"

"Kill them, there is no need to verify them one by one!"

"kill!"

After a while of confusion, the remaining people came to a unanimous conclusion: kill.

Li Yun also had no objection, standing by Alice's side, watching the group of people rise up and attack, and knocked the four people to the ground in a few strokes.

Of course, no one approached, they all used long-range attacks, but even so, the strength of these people was by no means weak, and the four people had no resistance, and they were knocked to the ground in a few strokes.

Strangely, there was still no blood flowing from the five corpses.

They were beaten with broken hands and feet, and their heads moved, but no blood splashed out.

"Mummy?"

"The blood has been sucked away and turned into a mummy."

"Disgusting."

"has it ended?"

"But the monster hasn't appeared yet!"

Li Yun didn't speak, everyone couldn't help but talk, but no one dared to go forward, they didn't even understand what monster it was, and most likely they didn't even know where the other party's body was!

"I went to see."

Li Yun nodded to Alice, and signaled her to stay where she is with the crowd, which can increase some safety. He is alone, holding the intercalary fire sword, and the flame is still emitting from his body, slowly Walked towards the five corpses.

Everyone didn't say a word, and waited patiently.

After experiencing the things just now, their trust in Li Yun has reached its peak, and even such weird things can be solved, the truth can be inferred from the details, and there are seemingly nonsensical ways to identify the monsters.

This is too strong.

Even Ruina couldn't help but sighed: "Mr. Li judged for the first time, separating the one who covered our eyes from the one who closed our eyes. At that time, he just wanted to make a preliminary judgment...Huh?"

Rina suddenly stopped talking, looked up at the dark sky, and frowned.

"what happened?"

Alice noticed her abnormality and asked.

In this large group of people, there are only a few people like Rena who are reliable, and the others are here to make up the number, they can only fight and cannot solve any problems at all.

"Something seems to have fallen from the sky."

Rina stretched out her hand and grabbed it towards the sky, as if she was about to grasp something, her expression a bit solemn.

Chapter 3955: verify

"Did you find anything?"

Alice waited for a while, and saw that Li Yun was still examining the corpses, so she asked Rena again.

"I am also not certain."

Rena shook her head and slowly explained: "There is a thin layer of water enchantment around me, which can turn into ice in an instant and help me withstand some sudden attacks. Later, my ability was upgraded. This layer of water enchantment has been evolved again, so that it can perceive the smallest movements, so that I can perceive the surrounding conditions anytime, anywhere."

"Aquatic powers are so powerful!"

Alice expressed amazement. This trick is almost the same as Li Yun's divine mind, but the two must be different. Divine mind is very sensitive to special existence, but it is very inconspicuous to things like small stones on the roadside There is no sensitivity, Rina's water attribute barrier is very

sensitive to everything, but it can only be a thin layer, and it can't be observed in 360 degrees without blind spots.

"Fortunately, it's nothing. Other powerful abilities have similar tricks."

Rina was not proud, her expression was a bit solemn: "My water-attribute barrier seems to have been touched, I'm not sure if it is, it was a very small reaction, I almost didn't feel it, it was just instinct... You probably understand. ?"

Alice nodded, knowing Rina's concerns: she didn't dare to say it to death, lest everyone would be frightened.

It is better to leave the decision-making to Li Yun, the temporary captain.

"You guys come here too, I can't find anything unusual, come and have a look together."

Li Yun summoned them, and everyone walked over and studied around the five corpses.

Alice didn't say anything about Rena for the time being, she used the pointed tip of the golden spear of her fingers to fiddle with the dead-or stiff corpses.

The corpse was not shriveled, but the golden spear pierced in, but no blood flowed out. Alice drew out the spear and looked at the tip of the spear carefully. Nothing was seen. She lowered her head and looked at the wound on the corpse. Nothing special was found.

The corpse seemed to be filled with a strange thing. It still maintained a human appearance, and was able to talk and walk. Aside from its movements and stiff expression, it was no different from a normal person.

"Can't see." Wu Ke shook his head. "These corpses are really evil."

"I can't see it either."

"We don't even know what a monster is..."

"I can only give up, shall we go on?"

The remaining eighteen or nine people shook their heads one after another. Li Yun could not see anything abnormal, even less.

"In this case, you can only move on."

Li Yun shook his head. He didn't consume too much time on the corpse. He also needed to go to the middle of the black pyramid to find Concubine Wan Qing.

There are no tools and no forensic doctors. It is difficult to find out the cause of the dead body. It is just a waste of time to stay here.

"Then go."

Alice spoke, but she remembered what had happened, and said to Li Yun: "Just now Rena told me that I suddenly felt something falling from the sky, but she was not sure if it was, Li Yun, you said it. ?"

"Oh?"

Li Yun looked at Rina, after knowing her water attribute barrier, thoughtfully, then looked towards the sky.

"You want to go up and see?" Alice asked, she was a little worried.

"Not for now."

Li Yun looked at the corpse on the ground, and suddenly thought of something that he needed to verify.

Chapter 3956: parasitic

"I've been thinking about it all the time," Li Yun touched his face, then touched the hair on the top of his head, messing up the hairstyle.

His haircut used to be casually cut, but after having Fang Xue, she was taken to the barbershop in the county seat to have a haircut. After that, he went to Zhonghai City and was arranged properly by Gong Lianyi, occasionally. Will go to get a haircut with Fang Xue and her daughters.

Li Yun actually didn't care, his current temperament and appearance, even if his hairstyle is messed up, he is still a handsome guy!

He wanted to make sure that there was nothing on his head.

Very good, indeed there is no, it should look at other people's.

"What do you think?"

Alice was about to ask, Li Yun's big hand was placed on her head, touched and rubbed.

"Hate~" Alice groaned, "What you want is to tease me? Go back and talk about it~"

Feeling shy about touching your head or something, okay?

"No, cough cough,"

Li Yun defended: "I was thinking about a question, how did the monster get in? How did it quietly kill the people around us?"

"Uh... how did you get in?"

Alice asked him, she actually had a few answers in her heart.

Perhaps the monster just touched the end of the team, killed a person, and then slowly went forward to kill.

"Maybe... we can do it like this."

Li Yun stretched out a finger, a ball of flame appeared on it, and then threw it around the corpse. The flame spread into a circle, covering the four corpses, and then slowly contracted.

Everyone couldn't figure out what he wanted to do, and thought he wanted to burn these puppets manipulated by monsters.

Therefore, they just watched the flames, shrinking a little bit, until they almost touched the corpses, and the hair of those corpses curled up one by one at close range, almost ignited.

Suddenly, a corpse moved.

Everyone was startled, their eyes looked over.

Li Yun squinted his eyes and manipulated the surrounding flames to directly pounce on the corpse that moved convulsively.

Crackling.

The mummy-like corpse made a violent sound of being grilled, and then trembled more severely, as if it were about to come alive.

"Fucked a corpse?"

"Not dead yet!"

"Ah, I see! The monster hasn't left yet?!"

"Hi! Get ready!"

Everyone understood Li Yun's thoughts, and they started fighting again.

"But I can't see any monsters." Li Yun said suddenly, meaning that they don't rush to do it, and wait for the real monsters to show up.

"Neither inside the corpse."

Rena had already checked the corpse with the water-attribute enchantment, and found nothing. The other abilities were not eaten up. They also searched for it, and indeed there was nothing.

But now the corpses moved like dancing, as if they were hitting their faces, making their faces fierce and painful.

The body is not dead, they are still being manipulated!

"I don't believe it!"

There was no breakthrough left or right, and so much time was wasted. Li Yun was also made very hot. He was cruel, and directly increased the intensity of the flames, causing the orange-red flames to suddenly turn into light blue ground evil spirits. fire.

boom!

The body burned violently, but at the same time, a creepy thing happened.

This flame-shrouded corpse squirmed frantically, twisting his hands and feet irregularly, his body bulged and shrank, and something terrifying seemed to be hidden under the skin, moving back and forth.

Li Yun's mind was full and he watched hard.

Chapter 3957: White tiny spider

Finally, the crazily squirming body exploded.

Countless things smaller than a strand of hair spread in all directions. It was too late for everyone to see exactly what it was. The remaining four corpses also exploded. Countless small things flew out of the corpses, scaring everyone to use the most comprehensive range. Defense, resist the flying attacks of these little things!

"court death!"

Li Yun screamed, and the flames on his body burst out, sweeping away the little monsters around him. Alice beside him was in shock, holding a golden spear and tremblingly asked: "What are these things?"

The scene just now really scared her to death!

Countless little monsters flew out of the corpse. In other words, these tens of thousands of little monsters remained on the five corpses all the time. They completely occupied everything in the corpse, and because they were too small, they could It is perfectly parasitic in the corpse, sucking most of the blood of the corpse, making them look like mummies.

"It's... a spider!!"

Brian stretched out his hand and grabbed a handful of little monsters flying all over the sky. Upon closer inspection, these little things were clearly silver-white, extremely tiny little spiders!

"Spider? Did the spider kill these five people?"

"Yes, I also caught a lot of them. It is indeed a spider, hiss! No, these things are drilling into the human body, be careful!"

A huge amount of small spiders were drilled out of the five corpses. They were too small and too small. They were small enough to float in the air and spread in all directions, attempting to intrude through various gaps in the human body.

Mouths, noses, ears, eye sockets, wounds, etc., are all invaded by these tiny spiders!

"Damn it!"

A big flame burst out of West's body, instantly burning to death the countless small spiders that had stuck to him and got into his nose.

The surrounding air was rustling, there were too many spiders being grilled by flames, and West's body was shaking. This spider was a bit scary.

It's just a small size, it can actually be parasitic in the human body, multiplying countless small spiders, even after the host died, giving birth to as many small spiders as viruses!

"Ah, save me, save me!"

Someone screamed, his beastization ability is very lethal, but in the face of countless tiny spiders, what is the use of beastization? In an instant, the body was covered by a white spider.

The body of a beast can not stop the invading millions of spiders!

"This....."

Everyone was shocked.

In just a few seconds, I don't know how many tens of thousands of small white spiders have penetrated into his body. It is estimated that they have begun to multiply crazily. Soon, his host will not be able to speak, and everything will be affected by this weird parasitic spider. Occupied!

"Open your mouth and eat this! This is your last chance!"

Li Yun took out a medium-sized detoxification pill and threw it into his mouth as a dead horse.

In an instant, countless white spiders crawled out of him again, but failed to fly again. Instead, they fell to the ground and died a bit; the remaining white spiders still attached to him, then it was scattered in a swarm, and seemed to be afraid of contacting him.

"So amazing?"

Everyone was dumbfounded. It turned out to be played by the white spider. As long as Mr. Li is still there, he can be saved!

"What is this? Boss, give me one!"

Wu Ke hurriedly opened his mouth, Li Yun really wanted to throw him off, and then curse.

Chapter 3958: Where's the monster

This guy has a metal ability and can easily transform his body, no matter how many spiders there are.

Li Yun estimated that he had calculated the pill for him, and Wu Ke was reluctant to take it, but stayed.

"Thank you, thank you, thank you Mr. Li Yun!"

The beastly capable person who escaped from the dead was grateful. He didn't actually feel any changes in his body just now, but the spiders were really madly burrowing into his body. He didn't know if he was going to be caught in the next second. The white spider gnawed his head light and turned into a puppet, just like the five people before, who didn't know how to die.

"No need, concentrate on defense."

Li Yun waved his hand to make him stay at ease.

The beasts are really embarrassed at this time. They can definitely kill the little white spiders. After transforming, they can kill hundreds of thousands with a bear paw, tiger paw, lion paw, and a random slap. Small spiders as thin as catkins.

But they can't achieve all-round defense. Even if they rush into the misty little spiders, even if they keep moving, as long as the airflow around them is directed towards them, the little spiders can attach themselves to them and get in. Reproduce in the body.

Horror and infiltrating.

Fortunately, now there is Li Yun's pill as the final guarantee, and everyone can work together to isolate all these spiders from the outside and not allow any one to come in.

These white spiders can only gather in the sky, floating like white clouds-their size is too small, so small that they can float in the sky, and even have the ability to fly.

"Since it's a spider..."

Li Yun looked up to the sky, "I probably understand where the spider came from."

"Top of your head?"

Everyone followed and looked at the sky. It was dark, a bit darker than the night without stars and moon, and there was no light at all!

Li Yun gradually increased the scope of the fire, but unfortunately, nothing happened.

Alice looked at Rina: "What you felt before was also a small spider?"

"No." Rina shook her head decisively, and said with certainty: "What I felt is not a small spider. I just compared it specifically. It is different. Although the small spider is very small, I can still feel it, very clearly. But the previous ones were very weak."

"Weak, not a spider...that is, spider silk?!"

Everyone opened their eyes, and the spider silk proved that there was a larger spider lurking all the time, and its silk could stretch very long.

"I will try to see if the bottom is very long!"

Li Yun raised the Leap Fire God Sword, a flame of sword light was excited, and it burst into the darkness above his head like fireworks.

This is definitely the most dazzling firework that everyone has ever seen, covering a full ten kilometers, the light shining brightly around it like daylight, a white scene.

Countless small spiders were stimulated and suddenly dispersed.

Then everything calmed down.

The darkness above is still there, the light that can illuminate a range of tens of kilometers just now, yes, it has not been able to shine on the edge of this dark world!

"This....."

Everyone was dumbfounded again.

There is nothing above the head, and the surroundings are empty. Except for the spider, which is the ground, there must be no third kind of Chinese and Western!

This is simply even more outrageous than the starry sky of the universe before. After all, they were in the universe and could still admire the galaxy in the distance, and their body and mind were purified.

Chapter 3959: wait

But this dark world, except for darkness, is a spider.

"Li Yun, we..."

Alice couldn't help it again. She knew that the more calm she was at this time, but things turned out to be like this, how should she calm down?

With Li Yun by her side, she would always involuntarily seek his help, or solve it, let him stand in the front.

If it was the independent Alice before, then she would definitely feel bad, but now, although she is still an independent princess, she already likes the feeling of being accompanied and supported.

"Darkness, roar, spider... Overlord."

Li Yun thought silently, "Here, it should be an illusion."

Before everyone could speak, he said again: "At the very beginning, the moment the door closed, we hadn't actually entered the realm of illusion. It was only because the door closed that the pyramid became dark."

"But then I turned on a little light, and the enemy deliberately made a scary roar, which made us feel flaws in our hearts, so that we were completely bewildered!"

Li Yun's words left everyone speechless. It turns out that Li Yun was right before. They shouldn't turn off the lights, otherwise things won't be like this.

"Then... how do we get out of trouble?" Wook became extremely humble at this time, and he was going crazy.

"Out of the illusion, the most important thing is to be calm."

Li Yun crossed his legs and said faintly; "The enemy was unable to find our flaws, or was unable to head-to-head with us, so he used illusions to confuse us. Generally speaking, our strength is stronger than it, so it Only use illusion to trap us!"

If Li Yun guessed correctly, this kind of illusion is based on the power of the black pyramid, otherwise it would not be possible to suppress his congenital womb and prevent him from getting out.

If Li Yun had to get away forcibly, there might be a way, but he would definitely not be able to take so many people away, and it would be impossible even to open the Qinglian Immortal Mansion and pack Alice Joanna in.

Because he was already in the illusion, the action of opening the Qinglian Immortal Mansion might also be false.

"Ah, I understand."

Alice has experienced a lot of things compared with Li Yun, and quickly understood his intentions: "Li Yun, you mean, we just waited in place, waiting for the enemy to reveal the flaws?"

"Yes." Li Yun nodded, "I can't be anxious. We have walked so much just now and haven't found an exit yet, and there has been no change at all. It proves that we want to explore the exit in the dark. Failed."

He took the initiative to explain, lest the group of people clamor again.

But to Li Yun's surprise, most of the less than twenty people sat down directly, and after a little hesitation for a while, they also sat down simply.

Only the man who lit the cigarette, Brian, took out another one, lit it, and spit out a puff of smoke. After seeing Li Yun looking over, Brian smiled: "Mr. Li, I agree with you very much, but I I'm too lazy to sit, just wait, and wait for the monster to attack me."

He also guessed Li Yun's thoughts, that he wanted the monsters to take the initiative to attack them.

Rina asked, "Can this work? I always feel...a bit worried."

"Don't worry, it will definitely appear."

Li Yun smiled slightly, "The monster can be stupid enough to manipulate the puppets and answer our questions, follow our instructions, and let the little spider appear until the end, proving that its intelligence is really worrying."

"What if you can't wait?" Alice sat beside Li Yun.

"Can't wait? Then treat it as a break!"

Chapter 3960: continue waiting

Everyone looked at each other, and only felt that it was too weird to sit down calmly in such a dangerous place?

But Li Yun's logic seemed impeccable.

The monster looked fierce and cold-blooded, but it was indeed a bit stupid. As can be seen from the puppets previously controlled, its IQ was not very high.

Moreover, even if the monster does not appear, it can be taken as a break and will be on the road later.

"Then sit down and rest."

Rina told her remaining five or six team members, a hint of sadness flashed in her eyes, a few fewer than when she entered the temple, but this is not bad, if there were no Li Yun, they would have been wiped out. here.

The crowd glanced at each other, they could only sit down and rest, and took out some food and water to fill their hunger and thirst.

In Li Yun's space ring, there were a lot of drinks and food prepared by Lian Yi for him, but he didn't take them out so as not to cause some unnecessary trouble.

"Alice, and the maid, sit down."

Li Yun greeted the two women to sit down. Alice heard the words and took a look at him before sitting next to him. Next to him, her hand got into him and almost fell on Li Yun.

Seeing the princess clinging to Li Yun like this, Joanna, the maid, did not move, and sat calmly behind the princess. However, the loyal maid said in a faint voice behind Li Yun. "Dear Mr. Li

Chaoren, you can call me Joanna, or the lady, you can also call me a maid, but please don't use that maid to call me."

"...Oh, this maid?" Li Yun smiled.

"Please call me Joanna, thank you."

Alice, who was holding Li Yun, couldn't help but laugh out loud, and hit Li Yun with her small fist, "Don't tease my maid? Although she doesn't have a boyfriend yet, there are enough people around you. Woman."

Li Yun quickly made a serious appearance.

Joanna glanced at her princess. What does the princess mean? I specifically told Li Yun that she didn't have a boyfriend, and also said that many women around Li Yun...

However, these things shouldn't have anything to do with her. She decided not to get married very early, and she followed Her Royal Highness all her life.

The voice of a person should not only be marriage, and family is not a necessity. In comparison, the princess is more important to her.

Time passed slowly, and after the crowd talked for a while, it gradually calmed down.

The restless mood slowly raised his head again.

This ghost place is so weird.

The endless darkness, if you can't see the end of the world, let's not talk about it. Now there are some weird little white spiders above their heads. These things can still float in the air, just like pale white clouds, which may fall down at any time. .

Li Yun closed his eyes, his divine consciousness expanded to its maximum, and at the same time, the flame on his body was slowly weakened.

There was a commotion, but soon understood what he meant: to lure the monsters lurking in the dark to attack them!

Alice had already left Li Yun's embrace, grasped the golden spear in her hand, concentrated, and looked around guardingly.

Finally, the firelight completely disappeared, and the surroundings plunged into darkness again.

The hearts of everyone mentioned the highest, and they could almost predict that those white little spiders would most likely fall on them in the next second, digging into the body through the holes of each human body.

Directly gnaw off the internal organs and drank the blood, producing a large group of small spiders.
