

## Godly Choice 3961

Chapter 3961: burn

"Ready to burn!"

Li Yun only noticed once, and urged the mana in his body to cooperate with the fire, and suddenly a large burst of flame burst out, illuminating the surroundings with a crash.

Alice squinted her eyes, and she saw that the small white spiders in the sky had almost fallen on top of their heads, but the flames fired by Li Yun and some fire-type supernatural powers burned completely and the sky was no longer White, only boundless darkness.

Everyone breathed a sigh of relief. It seemed that Mr. Li had already calculated the speed of these little spiders, so he let the flame disappear and lure the white spiders down.

Although people can fly into the sky to hunt them down, these spiders are too small. Once dispersed, it is difficult to catch them. It is better to let them gather together, then lure the spiders to float down, and then burn them in one fell swoop!

"has it ended?"

Seeing that the little spider was completely burned to death, someone heaved a sigh of relief and asked.

"How could it be that simple, there must be a monster hidden behind it!"

"Then how do we find it?"

"It's dark all around, it's difficult."

"I now feel that the previous cosmic starry sky is actually enjoyable!"

The crowd began to discuss again, Li Yun did not express his opinion, but extinguished the flames again.

His actions made many people stunned. Some people hadn't reacted yet. Li Yun could only remind them: "Put out the fire and make the surroundings dark!"

Everyone looked at each other.

"Mr. Li, are you kidding me?"

Wu Ke said what everyone was saying, and he said anxiously: "These little spider monsters are going to attack us from the dark. Now there is no light. Mr. Li, aren't we about to be attacked right away?"

"Just let it attack!"

"This....."

The crowd rioted again, they understood Li Yun's meaning, and they still used people as bait.

Familiar routines, but they have a different taste.

There are no little spiders this time, so what is coming to attack them is the monster's body? !

In the darkness, everyone's hearts also sink, and there is no trace of light around, and terrifying and strange attacks may strike at any time.

In such an environment, staying for a minute will make people collapse.

"Snapped!"

Someone took out a lighter and slowly lit a cigarette. The only light made everyone turn their heads and look at it. It was that Brian again!

"Mr. Li, how about...Shall we make a little bit of light?"

West suggested in a low voice, not seeing anything made him panic.

"no."

Li Yun rejected him, but added: "You can only emit some light from time to time to check whether everyone is attacked by monsters. You must gather together and check the movements of people around you at any time. Once he appears stiff or doesn't answer, Just remind everyone!"

"It turned out to be so."

Everyone finally understands. If you check it from time to time to prevent them from dying silently, that's okay.

"Ok, I see."

Rena, Vesta, Wook, and several captains ordered to go down. Alice was already ready and turned her head to let the maid execute it.

The team calmed down again, silently waiting for the monsters to come.

After an interval of one or two minutes, they hurriedly turned on the lights once to check whether each other was attacked by monsters, and then checked the surroundings for any traces of monsters.

More than an hour passed, when everyone's nerves reached the limit.

"Roar!"

Suddenly, there was another roar in the distance, making everyone's expressions change.

Chapter 3962: Where is the monster

"Is it finally here!"

Li Yun raised his eyebrows and slowly said to everyone: "Don't move, these monsters are what I want! Let it come closer, I want to see what kind of monster it is!"

Everyone was surprised at first, this monster is what Mr. Li wants?

But on second thoughts, after they entered this dark world, the first monster they "meeted" was the roar from a distance, but they were scared, so they drove in the dark. Now the light is faintly visible, this one— -Or this group of monsters finally appeared again!

Alice understood Li Yun's meaning and whispered: "We are now in need of an enemy, instead of staying in place and doing nothing, or advancing in the dark, which is not acceptable."

Just need an enemy!

Everyone chewed this sentence, and many people nodded one after another.

Rather than waiting for an unknown monster to appear, it is better to face off against those monsters who roar!

"Turn on the lights."

Li Yun commanded, and then a flame ignited on his own body, illuminating the surroundings, just covering a team of less than twenty people.

The warm light dispelled the darkness and coldness, making the world seem to have temperature.

Everyone cheered up, took up their weapons, and waited for the roaring monster to arrive.

"Roar!"

There was another roar, rolling in from a distance.

The roar was low and terrifying, exuding a strong smell of killing. If it was normal, their expressions had changed in shock, either turning around and fleeing, or hiding aside to observe the situation before talking.

But right now, everyone's expressions turned savage, holding their weapons tightly and waiting.

"F\*ck! I don't believe that monster can eat us!"

"Damn monster, get out of here! Fight if you want, faster!"

Roar! !

As if responding to the violent voices of the crowd, the roar of the monster in the distance became louder and louder. According to the range and size of the sound, the monster was almost roaring less than a kilometer away.

"Stop calling, come!"

Li Yun shouted in a low voice, calming down the confidence of this group of people, lest they get confused again.

They probably really planned to fight to the death, but there was no chaos, but some people couldn't help standing up, ready to attack and defend.

"Roar!!"

The monster's roar came closer, it was exactly like a drink at them from less than a hundred meters away.

Li Yun snorted coldly, and the flames on his body suddenly appeared, all within a kilometer radius was illuminated by the fire.

Unfortunately, nothing was found.

The surroundings were empty, only the black ground exuding an unknown aura, and there was nothing in the distance.

"Where is the monster?"

Wu Ke couldn't help asking, he was holding five or six iron \*\*\*\*\* in his hand, and he waited for the monster to appear and threw it directly.

"Is it under the ground?"

Someone asked questions, and immediately several swords were inserted under the black ground and stirred a few times.

Nothing happened either.

There is nothing under the ground.

Li Yun pondered, "Where did the roar come from? Logically speaking, the monsters are all around us, are they all hallucinations?"

Alice said, "Could the monster be so small that we can't see it? Just like the spider just now, as for the roar... For example, when they gather together, they have the ability to make a loud noise! "

"Not too possible."

Li Yun shook his head, "The surroundings are empty, even the smallest creatures can't hide, and there are no corpses around for monsters to hide, making them invisible... etc."

Chapter 3963: Monster must die

Li Yun suddenly thought of something.

"Invisible?"

He looked towards the sky, the sky shone by the fire, hidden by a dark curtain, with no end in sight.

If there is something that can be invisible, it is probably...

"Uh? What's the matter?"

Alice saw Li Yun summon more than a dozen flames, which rose in the sky and floated above everyone's heads.

Then, Li Yun controlled these flames, and then threw in some metal, let the flame burn the metal, thereby transforming various flame colors, from pure fiery red to various colors, just like The large rainbow lamp flashed with colorful light in an instant.

"what!!!"

Before everyone could sigh Li Yun's ability to control flames, they screamed suddenly, and stood up in amazement, looking up at the sky.

What did they see?

A huge fluffy spider covered the entire sky, covering a terrifying range of seven or eight kilometers long.

The bulging abdomen of the spider hangs on top of their heads, and strange hairs grow on the abdomen, which can change color with the surrounding environment.

However, Li Yun used various metals to emit colorful rays of light, shining in the sky, this huge spider finally had no time to change color and was forced to emerge! !

"OMG!!!"

A woman so calm as Rina screamed now.

What did she see?

A huge spider? This is undoubtedly correct.

A monster with countless little spiders? This is also right!

A spider monster whose belly can transform into colorful colors? This is still right!

A spider in mythology that can simulate the roar of a monster, can move silently, is huge, but can hide its body, and has incredible power. This is still right!

The crowd was shocked and looked around. The spider monster had eight legs on the black ground and followed them. Wherever they went, the spider followed.

No wonder they have been harassed by the roar of the monsters, and no wonder their teammates were silently killed. Dare to believe that this spider monster can not only change the color of body hair like a chameleon, but also is so concealed that even Li Yun can't find it!

"kill!!!"

After the frightened people reacted, the first thing was to \*\*\*\*\* the guy and kill this huge spider.

"and many more."

Li Yun stopped them, and in their eyes of dissatisfaction and doubt, he quickly said: "Don't you think it is weird? The spider still didn't attack us!"

"Um?"

Everyone was stunned, and looked up at the sky again.

Indeed, this huge spider seemed silly, just facing them with its abdomen.

If they were cruel and killed the spider directly, the abdomen of this monster spider should not be able to withstand it, and could only be broken.

But now Li Yun has irradiated the spider with colorful flames, making the spider's invisibility invisible, but it still doesn't respond, and still maintains its stilt-leg standing posture blankly.

"What's the matter?" The golden spear in Alice's hand almost swung up, but now the huge spider was silent, which made her feel uncomfortable.

She is ready to fight the huge spider monster, why is she still motionless now?

"This spider monster seems to be dead."

Li Yun looked towards the sky. The huge spider was seven or eight kilometers wide with its abdomen alone. After being illuminated by the lights of colorful flames, the spider's abdomen showed a psychedelic color.

Chapter 3964: Crack

This huge spider's abdominal fluff instinctively mimics the surrounding light and colors. Anyone looking at it from different angles will mimic a transparent posture.

But what's weird is that a spider that occupies a small part of the sky, is the size of a train with just one leg, and has all kinds of magical powers, but does nothing, stays in place as if dead, and does not move.

"what happened?"

"died?"

"No, definitely not dead, this thing gave birth to so many spiders just now, it must be alive!"

"But why doesn't it move?"

"Know you can't beat us?"

"It's weird, what should I do?"

A group of people started talking again, and finally they all looked at Li Yun and waited for his decision.

"...Let's go." Li Yun said.

"go?"

"Where to go?"

"Are you able to leave?"

A group of people were puzzled, but the next scene completely subverted their cognition.

Li Yun rushed up, rose into the sky, and slammed into the abdomen of the huge spider. In an instant, everything disappeared.

Everyone just felt the ups and downs, and they all sat down on the ground. The next moment, they saw the real picture.

A hall appeared in front of them.

Everyone was stunned.

"What about the spider?"

"Are we out of trouble?"

"What's the matter? Mr. Li killed the spider?"

"It's incredible! How did this happen?"

Everyone was so excited that they cheered one by one.

Even Joanna couldn't help but glanced at Li Yun. This man created a miracle again and escaped from that dark world.

You know, she is almost ready to despair, and she doesn't know how many times she has complained about Li Yun, because he put her Royal Highness in such a dangerous environment.

But the result?

Li Yun brought out the Princess and her intact, and once again got rid of the danger!

"Li Yun!"

Alice threw herself into Li Yun's arms, raised her head and asked in surprise, "We came out?"

"No." Li Yun smiled, "Strictly speaking, we are still in the black pyramid. More accurately, we are still in the temple."

The black pyramid is part of the temple, and the dark world just now is part of the pyramid. It is equivalent to saying that Li Yun and them repeatedly entered the illusion and were repeatedly confused. Until now, it is not certain that what they see must be true. of.

"Just now, where was that huge spider?"

Alice is very smart, staring into Li Yun's eyes: "The spider is fake?"

The reason for her speculation is also very simple. Even if such a huge spider is weak, there will be some earth-shattering noises when killed, but it ended inexplicably just now. Li Yun flew into the spider and they left the dark world.

It can be seen that the spider is fake, and the illusion is also fake.

"Probably so."

Li Yun answered their doubts: "After we entered the black pyramid, we fell into a kind of bewilderment, or was drawn into a small world. From the perspective of the breadth of the world and the size of the spider, I We are more inclined to be confused and enter the illusion."

"Then, in the realm of fantasy, all we encounter are things that stem from our inner fears."

"I turned on the lights in the dark, and there was a roar in the distance."

"We were scared by the roar, put out the fire, fumbled forward in the dark, and then we were attacked by monsters."

Chapter 3965: Inner fear

Li Yun continued: "These monsters quietly invaded our team members with the most terrifying means, causing them to die unconsciously. After being discovered by us, the puppets were killed by us, but the corpses showed The state of no bleeding arouses us to explore the corpse."

"But no matter how we check, we can't find any abnormalities on the corpse. The corpse was sucked up with blood, but it didn't dry out."

Li Yun paused, and Alice said to him: "Then, Li Yun, you think it's weird that you burn the corpse with flames, but a lot of tiny monsters pop out from the corpse inexplicably, explaining the loss of blood in a disguised form. Dispel our suspicions."

"Correct."

Everyone was dumbfounded. Was that the case?

In other words, in the dark world, their inner fear is magnified, and all bad things will happen instinctively. Monsters come when they think of monsters. If they don't want to be killed, they will be killed silently by small spiders. die.

This is similar to the illusion of the previous cosmic starry sky, except that the cosmic starry sky is the realization of every word spoken by people that can lead to destruction, while the dark space just now amplifies the fear in people's hearts.

The words spoken in the cosmic starry sky must never be changed, only a way to decipher.

But in the dark space just now, Li Yun could break through somehow.

"Li Yun." Alice looked at him again, her eyes full of admiration: "You realized that our fear became real and then flew to hit the big spider?"

"almost."

Li Yun nodded and smiled slightly: "I'm using colorful flames. I was just trying to make fun of it, but it really shined a huge spider monster. It's not weird.

Because in theory, our perception ability is by no means low, but such a big monster is above our heads, but we haven't noticed anything.

If there is a spider monster, it can kill us directly. With its concealment ability and huge size, it can kill most of us directly, without the need for those fancy things! "

"...Ah, I want to understand." Alice said: "Including Li Yun, your use of colorful flames to illuminate monsters is also a manifestation of your inner fear, right?"

"Uh... almost."

Li Yun wanted to say that he had no fear at all, but Alice was so eloquent that he could only admit it.

Maybe he really has some concerns?

After entering the temple, including the pyramid, his power was limited a lot, especially the power of the congenital Taoist womb, which was almost slashed by the balance of the version, and it was uncomfortable to death.

Not only Alice, but everyone else completely figured it out.

The spider monster is their inner fear, as long as someone faces the horror, they can crack the illusion of that dark world.

only.....

There is a saying that it is easy to say but difficult to do.

At that time, before they encountered the giant spider, there were already "people were silently killed and manipulated by monsters", "small spider monsters can invade the human body" and so on. These things have already happened. After encountering the giant spider, they all believed that the giant spider was real, and who would dare to attack the giant spider?

"At that time, if we attacked the giant spider, we must have activated it?"

Someone said thankfully, but fortunately they did not attack.

Chapter 3966: hall

In summary, Li Yun and the others were already in the illusion from the moment they entered the dark world, and many seemingly reasonable and many unreasonable things they encountered afterwards were the result of the combination of illusion and their inner fear.

In fact, thinking about it, you can understand that such a big spider has been on top of their heads. If Li Yun still can't detect it, it really doesn't need to be messed up, so quickly turn around and go back.

—Although I was confused by the illusion, it was almost the same, cough cough.

Rina also thought of something, and thoughtfully said: "So, the slight changes that my water enchantment feels from falling from the sky are actually an illusion. It is precisely because of this illusion that it leads to the later A giant spider appears."

Alice laughed and said, "It is precisely because of the appearance of the big spider that we can leave that illusion. There are gains and losses."

"Okay, don't think so much." Li Yun walked forward, "In illusion, many things are impossible to answer, and there are many things that cannot be answered in the chassis of other people's pyramids and temples, so, Thinking too much won't help, let's keep going!"

"That's right~."

Alice agreed with Li Yun's opinion. Just thinking about those things just felt outrageous. All sorts of messy things happened all the time since entering the temple, as if all of a sudden from modern society to the age of gods, Full of mystery and unknown.

Everyone nodded, gave up thinking, and followed Li Yun carefully to the front hall.

Looking back at the road behind, they realized that they seemed to have just walked through the passage of the pyramid and came to the first hall inside.

I don't know how many areas the entire pyramid is divided into. Is the hall at the bottom the largest? Everyone does not know, they can only explore step by step.

"here....."

Alice looked around, and the hall seemed to be no different from the halls of ordinary Pharaoh temples. Except for the absence of huge idols, there were several huge pillars standing in the hall, supporting a huge place nearly thirty meters long.

There was nothing in the hall. There were white walls on all sides. Except for a few pillars, it was empty and very quiet. Even dust did not float here, and the years did not leave any trace here, but Li Yun and the others glanced at it. Looking at it, this hall gives people a sense of desolation and simplicity, and it still stands here after countless years.

It's amazing.

"It seems that someone has lived here."

Alice said, she didn't know why she felt this way. She obviously didn't see any remnants of daily necessities and furniture here, but she felt this way inexplicably.

Li Yun didn't agree or disagree. He patiently observed every corner here, without letting go of any details.

Except for an exit to the upper floor, the only thing worth paying attention to is the surrounding walls.

Li Yun placed his gaze on the wall, and the others didn't dare to stay too far away, they all searched around for the difference.

"What do you see?"

Alice followed Li Yun, the surrounding walls were smeared with white paint, and the floor of the hall was a big ocher stone, which seemed to have nothing special.

Without answering her right away, Li Yun stretched out his hand and touched the material on the wall. With a slight force, his finger smeared a layer of white paint on the wall.

Chapter 3967: hidden

"what?"

Alice was a little surprised.

She also touched the pillar just now, but didn't dig out any white paint from it. Isn't the material of the two different?

It seems to be taken for granted. The stone used to support the pillars is definitely better than the wall used, and the pillars are stronger.

However, here is the weird and mysterious ancient temple of the Pharaoh. Everything here should be full of mystery. It should not be, and it is impossible to dig out the paint on the wall with your hands...

"Tofu residue project?"

Li Yun said to himself, stretched out his hand and grasped hard, on the wall of the hall inside the black pyramid, he wanted to make a hole in it.

If it is feasible, then he can completely demolish the entire wall, saving a lot of trouble!

He also wanted to quickly go up to the middle level of the pyramid to find Concubine Wan Qing, who didn't know what was going on now. Although the power of the Saintess of the Six Dao Sects should not be underestimated, after all, this place is in the mysterious ancient relics, and she may be caught if she is not careful.

However.

Li Yun's ideas fell through.

His fingers could not sink into the wall, and he still grabbed a touch of white paint, exposing the inner wall with color inside.

"Be careful!"

Alice warned that she felt that destroying the building in the pyramid would definitely be known by the so-called black robe corpse, and perhaps what mechanism would be triggered.

"Um?"

Li Yun said in surprise, "Alice, the ancient Western architecture will apply white paint to the already... Wait, I probably understand."

Unexpectedly, Li Yun stretched out his palm and swiped towards the wall in front of him.

In an instant, he wiped off the white paint, revealing the paint painting inside the wall!

"This is... those wall paintings in the ancient pharaoh country?"

The crowd gathered around, and after Li Yun waved his hands continuously to remove the white paint on the wall, the paintings on the wall that should have appeared in front of everyone.

This is a man with a normal style of painting.

The painting style is somewhat realistic, and mixed with some post-modern exaggerated colors, but it is very different from the ordinary murals in the ancient pharaoh country.

The man was wearing a metal armor, with an eagle sitting on his shoulders, a black wolf dog crawling under his feet, and a monster-shaped weapon in his hand. His eyes were looking in a certain direction, full of anger.

"This is what the wall is like?!"

Alice screamed, looking at the white paint on Li Yun's hand, and thinking about it for a moment, she probably guessed the whole story: "Someone later on the wall covered these murals with white paint!"

"Correct."

Li Yun clapped his hands, shaking off the paint on his hands, turning his head and saying to the people behind him: "Everyone will restore the paintings on the walls together. Since people later covered up these murals, it must have some effect. "

"Okay, just do what you say, Mr. Li!"

Wook was the first flatterer again. He stepped forward, and there was a lot of iron sand on his palm. It pressed against the wall like a brush. With a stroke, the white paint was wiped off and a large area was swept away.

Wu Ke exclaimed: "Sure enough, there are a lot of murals in it, which are probably very valuable! If you didn't find Mr. Li, we wouldn't find any problems with the walls if we killed them!"

The corners of Li Yun's mouth twitched, which was really numb, but this flattering was really comfortable.

Chapter 3968: Solid mural

"These paints...?"

Alice stretched out her white finger, wiped it on the wall, and brought her finger to her eyes, carefully observed: "Li Yun, when do you think the latecomer applied the paint?"

Then he added: "No wonder I felt that some people lived here before. I originally felt that people used white paint to paint the walls on a large scale here! Hehe, it seems that my sixth sense is still OK~"

Li Yun shook his head, "I can't tell, but it must be more than ten years old, combined with the weathering traces of the items here, it may be thousands of years old."

Alice laughed and said, "That's the paint left by the pharaohs in the early days of the Pharaoh country. I don't know how they found it. It's amazing."

Li Yun said that it was different. It might be done by later generations. The purpose is unknown. Maybe it was to hide some secrets.

It just so happened that Li Yun came to Pharaoh's country to find secrets!

"These walls seem okay?"

Everyone worked in full swing and used various means to clean the white paint on the walls. They quickly confirmed that these walls are very magical. The white paint applied by later generations can be removed with any effort, and they can be washed directly with water, which is mixed with various things. , Even directly hitting the wall with great force, no matter what kind of cleaning method, it has no effect on the original mural on the wall.

The mural was preserved intact, without any damage.

The firmness is staggering.

No wonder West and others smiled bitterly and said that if a mechanism is set up here, and the door is simply closed, the hall will immediately become a prison, a wall that can't be penetrated by the wall!

This black pyramid does not need to use other means at all, just relying on the sturdiness of the tower body can trap them as intruders.

This makes many people wonder. Since the black pyramid is so strong, just close the door directly, and the latecomers will not be able to get in directly?

Or, use this hall to replace the three array illusions you encountered before, and set up organs directly at the door. When people enter, the door will fall, which can also trap the intruder.

No other means are needed at all, this temple has enough magic to deal with some invaders!

"Unless one is possible."

Wook touched his chin, "The black pyramid, and the first half of the magic that we entered before. The agencies in these places don't want to kill the invaders, but want to set a test for us. Whoever passes the test will do it. Can get treasures!"

Everyone agreed, and Li Yun also smiled, "It's rare that you have time to think."

"Hey, Mr. Li, do you think my speculation is correct?"

"But you still missed someone and some things."

Li Yun pointed to the white paint that had fallen to the root of the wall after being cleaned up:

"Since someone has come here first, and there is another living person on the black pyramid, then, is it possible to guess..."

"The other party controls the mechanism here?!"

Big Han Wook learned to answer, and Li Yun nodded, "It's just a guess."

"F\*ck!!!"

Li Yun was just guessing, but Wu Ke and the others had already cursed his mother directly. They completely pushed all the hardships and hardships they encountered along the way to the black-robed weird man on the black pyramid.

Chapter 3969: Clean up

Although Li Yun had only seen the black-robed mummy monster, it did not prevent Wook and others from pushing all their sins onto the black-robed mummy.

"Speaking..."

Before lighting a cigarette in the black world, Brian, who claimed to be a descendant of the ancient pharaoh country, hesitated and asked: "Mr. Li, is the black robe corpse you mentioned, is it the pharaoh who has successfully resurrected sleeping in the black pyramid??"

Everyone was shocked.

The main function of the pyramid is not to give the pharaohs a resting place, but to give the dead pharaohs a place for resurrection.

Although there has never been any record that mummies can really be resurrected, but according to the content of a book called "Book of the Dead" unearthed in the ancient pharaoh country, the pyramid is to resurrect the mummies, and nothing else is done.

"I'm not sure, let's watch it then."

Li Yun glanced at him lightly: "Even if the person above is a resurrected pharaoh mummy, I will not give this place to the ancient pharaoh country, nor will I give it to you, because strictly speaking, there are no more things here. Master, unless the mummy is really resurrected!"

"Of course!" Brian said quickly, "I can't understand the Pharaoh Country. Even my family has intermarried with people from other places many times, and I am not qualified to inherit the things here. I just said casually."

It seems that the more treasures are in front of them, the more people care about these treasures.

Li Yun nodded, "If I really find any treasure, I will distribute it according to the credit."

With these words, Li Yun played a careful eye, because he, Alice, and Concubine Wan Qing contributed the most throughout the whole process. As for the others... it's not bad to add a layer of credit together.

Many of the credits for this layer are written off by washing off these white pigments.

"Mr. Li, it's all cleaned up!"

Then the last wall was swept clean, and the whole hall was finally restored to its original appearance in ancient times.

Of course, everything in the hall is gone. There must have been some things placed here before, but I don't know if it was destroyed or stolen by someone later, and now I don't see anything.

"A lot of murals."

Alice turned her attention to the wall and couldn't help but exclaimed after seeing the exquisite and firm murals that were still brightly colored.

The hall was huge, as big as two or three football fields, and it was more than 30 meters high. Everyone didn't clean the wall completely, only about seven or eight meters from the ground. There were no more murals on it.

Fortunately, the people present are all supernatural beings. Fortunately, the murals on the walls are strong enough. Otherwise, just carefully erasing the hidden white paint on the murals, this amount of work can be cleaned for a year or two.

It's not a joke. With such a large amount of work, the cost of archaeology in one or two years is very low.

"What do these murals record? How do they feel weird."

Someone spoke out the doubts in everyone's hearts.

Indeed, the total number of murals on the surrounding walls is as many as seven or eighty, each of them is lifelike, showing what the characters wear, hold, wear, facial expressions, tiny movements, etc. It's so vivid and vivid.

If it were excavated and remodeled, the entrance fee alone would have to sell for thousands of yuan. In terms of cost and history, this place is much better than Yongning Princess City.

Chapter 3970: Ding, hide

"Where is the beginning of the mural?"

Some people asked questions because they could see that these murals seemed to be telling something. It was precisely because the story was too bizarre or the hidden secret was too deep, so it was covered up with white paint by later people. .

"The door is directly opposite."

Li Yun's eyesight is very good. He glanced at all the murals in the hall and compared them slightly to find the source of the things described in the paintings.

However, when Li Yun just took the first step, the system prompt sounded unexpectedly.

"Ding, congratulations to the host for making the hidden choice and finding the Pyramid Inheritance Mural. Reward: experience value + 100 million, all attributes + 100,000, colorful gift bag\*3, aura value + 5 million, get a special reward: ??? (please Talk to the son Xiaosu)."

Li Yun's raised footsteps just did not fall, and everyone around them looked at him in surprise, and Li Yun's footsteps slowly fell, and stepped firmly on the ground.

Hide selection events! !

Li Yun was shocked himself, but he didn't expect that just looking for the content on the mural, he directly opened the hidden selection event.

And the reward is really rich enough, up to 5 million aura value, and also comes with three colorful gift bags.

More importantly, is the special reward actually going to be handed over to the blond son Loli?

She tells Li Yun something that will count as a reward given by the system?

Li Yun is getting more and more unclear about what exactly the system is selling!

"What's the matter?" Alice asked again, feeling very strange. Li Yun seemed to stop suddenly sometimes, as if thinking about some major events in life. It was both tangled and pleasantly surprised.

"fine!"

Li Yun shook his head, raised his steps again, and walked towards the mural facing the door.

Everyone also gathered around, their expressions were quite relaxed.

That's right, even though it's still in the temple, whether it's compared to the dark world, the starry sky in the universe, or the temple corridors before, this hall appears to be much safer, and it gives them a kind of the feeling of home!

"Is this the first mural?"

The mural is so big that Alice has to look up to get a panoramic view of the first mural.

But to be honest, if it weren't for the murals that couldn't be removed, Alice would definitely think that these murals were painted by some modern person.

Because, the first mural recorded a rather sensational thing:

The gods came down from the spaceship.

That's right, those who look like gods are standing in a spaceship floating in the air-round, like a flying saucer, just like the alien flying saucer in the standard modern imagination. It's exactly the same, without any changes.

These gods stood under the spaceship, looking up at the spaceship that seemed to be leaving, and their eyes revealed a bit of sadness and reluctance.

"This....."

Brian twitched his mouth and looked at Li Yun: "Mr. Li, shouldn't these murals be painted by modern people? Why are there spaceships!"

"Is it modern if there is a spacecraft?" Li Yun did not immediately draw a conclusion. "I heard that the flying saucer was based on reports from some witnesses, and the media re-rendered it, and then slowly evolved into this way."

"You mean..." Alice was surprised: "The so-called aliens, the flying saucers of the gods, are still on earth!?"
