

Godly Choice 3971

Chapter 3971: God's origin

Li Yun shook his head, "I didn't say...even though I have some alien technology."

"what!"

Everyone looked at him even more surprised, and suddenly thought of many things in their minds:

The gods, that is, those ancient gods, indeed came from other planets. After they came here, they bid farewell to their companions on the spacecraft, stayed and thrived. After hundreds of millions of years, they finally transformed the earth into Livable planet, and then the gods fall asleep again.

It is precisely because gods are closely related to alien high-tech that Mr. Li obtained high-tech from the spacecraft, and then Baiyun Technology, and then the global technology company's share price plummeted, which finally led to the birth of powerful artificial intelligence. .

This series of things is all because Li Yun obtained alien technology, and it may even be obtained from the flying saucer on the mural!

"Gods really have something to do with high technology?!"

Rina had a weird face. The reason she couldn't believe the content of the mural before was because...these things like gods, religions, fanatics, and modern technology are in two worlds? Why did a mural suddenly tell her that the gods actually came down from the flying saucer...

But thinking about it carefully, it is clear that Mr. Li's Baiyun Technology Company is still constantly producing high-tech things, and at the same time there are things about the Reiki Age and ancient relics.

Thinking together, doesn't it prove that those epoch-making black technologies have a great relationship with gods, auras, and relics?

It's just that they...really, really, didn't dare to link the two together!

In fact, Li Yun never linked the two together.

He knows himself, his black technology comes from the system, and the black technology has nothing to do with the gods.

But now, Li Yun has seen the relationship between the gods and technology in a mural of an ancient pharaoh country unknown how many years ago, and even saw the source of the gods very directly!

Gods all come from the stars of the universe.

If he hadn't seen this mural before, Li Yun would definitely have thought that if one day he knew the incomparable mystery of the origin of the gods, he would definitely be fighting countless gods after experiencing untold hardships. After getting in touch with more things, he learned from the mouth of the last big boss, the biggest secret of the origin of the gods.

The results of it?

Li Yun saw it directly from the mural. The gods walked down from the flying saucer of black technology. They thrived on the earth, and they also taught or created humans, taught, made humans... and so on.

It's as simple as getting up in the morning to make a few bowls of noodles, and when my wives wake up, let them eat the noodles. There is no ups and downs in the process, and it is so simple that people doubt life.

"Um....."

Li Yun pondered for a long time, watching the scenes of the gods looking up at the flying saucers, "Are those gods? Unfortunately, the characteristics of gods are a little bit missing, and I can't see what kind of gods they are."

In the mural, there are many people under the flying saucer, and there are dozens of them. Li Yun couldn't help but which **** he was. If it weren't for the proof of the content of other murals, Li Yun couldn't believe that they were gods.

"amazing!"

Alice admired the mural, her blue eyes gleaming: "Li Yun, do you think God is in it? Did God create us humans?"

"No." Li Yun said with a smile: "God only created a part, and the other part... was created by Empress Nuwa!"

Chapter 3972: Mural of Gods (Part 1)

"Nv Wa Empress?"

Alice looked at Li Yun curiously. Those blue eyes were really beautiful. After blinking flexibly, Alice said, "Li Yun, the Nuwa Empress in your mouth is the God of Huang Xuanguo? Your God. Isn't it called the Jade Emperor?"

"This... Empress Nuwa is the creator. The Jade Emperor is the **** king who manages the immortals. You can understand it this way."

Li Yun really didn't know how to explain it, so Alice had to understand this knowledge by herself.

"Oh~~ I'll look at the myths of various countries again when I have time." Alice smiled, "Now this knowledge is more and more important, right?"

"Unfortunately, most of the myths circulating now are incomplete. If you want to understand, you might as well ask me."

"Then go back to the hotel... ask again?"

Alice's face blushed.

Back to the hotel, I don't know what will happen.

She and Li Yun experienced these things again. After returning to the hotel, she felt that she could not help but hug Li Yun, lying lazily on the sofa, doing nothing, watching TV and chatting with him, even if she ate Any takeaway is better than it is now.

"Okay. But let's not talk about it yet, let's continue watching." Li Yun paused, "Go up early, and see Concubine Wan Qing earlier."

Flirting with Alice in this environment, if "Qin Tianmeng" were there, they would definitely be jealous and would have interrupted them a long time ago.

"Um."

Alice's thoughts were reduced, she carefully observed the content of the mural, and once again appreciated the "people" under the flying saucer, or the suspected gods, and said with emotion: "Li Yun, you said Athena, God and yours Mother Nuwa, or the **** Ra of the ancient Pharaoh kingdom, Hades, the Hades, and so on, are all these gods among these people?"

"Perhaps." Li Yun smiled and glanced at her. Alice was surprised by this look, and asked: "Why are you looking at me?"

"Because you always put God in your mouth before, and rarely put the goddess Athena you believe in first, so I look at you."

Li Yun explained seriously.

Alice's face blushed, and she quickly defended: "This is...I don't know much about the goddess? You don't tell me a lot about the goddess. Go back and talk about it?"

She turned her head and looked over with those beautiful blue eyes. Li Yun's heart shook, but she immediately calmed down: "Okay, but we will talk about it when we go back. Now we still look at the mural!"

"Puff~ hee hee, good."

Alice held back a smile. She just told Li Yun to be serious, but immediately said something unrelated to the current situation, which was like an intimate chat between lovers.

She didn't know why the teacher digressed. Maybe it was because she had just stepped out of the dangerous environment, so she relied on it so she wanted to chat with Duoduo.

Looking back and taking a quiet look, everyone next to her was seriously looking at the mural, and only the maid, Joanna, was still paying attention to her.

Fortunately, no one noticed. Keep watching the mural!

Alice forced herself to calm down, first looking at the second mural on the left.

The content of the mural is the people who followed the previous UFO mural, that is, the gods. They were divided into several groups, arguing and discussing with each other, and the parties refused to give up, as if they were about to fight.

The next one, the second mural on the left, contains a few people alone, following a man who is as dazzling as the sun, to the edge of a river basin.

Chapter 3973: Gods murals (middle)

In the next picture, the gods stand in front of a large group of mortals who are kneeling on the ground. They seem to welcome their faith and worship, and they seem to be teaching something to

them. Some of these gods are holding a book in their hands. The book, some holding a balance, some holding a scepter, bestowed on those people underneath, and taught them many things.

After seeing this mural before, Alice inferred that the people under the flying saucer were gods.

The next mural is that the mortals built a luxurious palace for the gods, showing the appearance of a pyramid. Several gods are aloft, guiding mortals in their production and life, fighting against wild beasts and evil spirits. The gods also fight against foreign invaders and shelter these people.

Security.

Several murals are connected in series, and the general content is:

The gods of the ancient Pharaohs stepped down from a flying saucer-like flying machine, and after bidding farewell to the flying saucer, they stayed on the earth, ready to bring wisdom to this planet.

But afterwards, the gods who flew across from the starry sky of the universe quarreled because of something. They split into several teams and parted ways.

The gods of the ancient pharaoh kingdom (suspected there is Ra, and what Li Yun said, the gods of the underworld, the **** of death, the goddess of magic, etc., nine gods), they came to a river and taught here— Or create humans, gods live with mortals and spend many, many years.

until...

"what happened?"

Alice looked at the picture directly opposite the first picture, that is, the last picture counted from the left (adjacent to the last picture counted from the right). In this picture, the gods Has become very tired, as if to sleep aside, entered a tall temple.

That is in the temple where she and Li Yun are at this moment!

Alice even saw the two huge stone pillars in front of the temple. It was the two feet of a huge stone statue. A door was opened from between the feet. It was also the place where she and Li Yun and others entered the temple. Door!

The gods held the last ceremony. Hundreds of mortals knelt in front of the temple and watched the gods enter the temple.

This is the last painting on the left.

"You have to see what happened, you have to start from the right side of the first painting just now."

Li Yun happened to be the opposite of her, looking from the right side, but he looked quickly, so he knew the original state of the matter.

"it is good!"

Alice ran back to the first painting, when the gods just got off the flying saucer, this time she started looking from the right.

The first picture on the right records the quarreling process of the gods more clearly, and there are gods and a group of other ignorant mortals of all kinds!

"In other words, the gods actually created our humanity together?"

Alice said in surprise.

It turned out that when ordinary mortals were created, the gods who walked down from the flying saucer had not yet separated. In other words, did all the gods on the earth create mankind together, not individually?

Of course, this is only the content of a mural, even if the mural is real, it still undergoes a lot of artistic processing.

If you want to get the real answer, you have to investigate further!

"I don't know yet." Li Yun stood beside her, shook his head and said.

Alice looks at the second painting on the right. This one should be connected to the next few paintings as a whole.

Chapter 3974: Mural of Gods (Part 2)

These paintings recorded other gods at the time, and brought some mortals to other places, and they also settled down. The sixth painting presents a beautiful, warm and welcoming scene from all over the world.

However, starting from the seventh painting, things have changed a bit.

There are more and more mortals, and the things they create are becoming more and more beautiful and generous, winning the appreciation of the gods.

Therefore, mortals are becoming more and more important to the gods. They not only serve the gods, but also provide them with a variety of delicacies and delicacies. The gods teach mortals to live and hunt, and give them flames, words, and history. It seems that even the gods are amazed by the things that mortal people have created.

Then, there were more and more mortals, and the occupied territories became larger and larger, and the mortals ruled by the gods inevitably came into contact.

From mutual trading, to conflicts, and finally to fight and kill each other.

The enmity between mortals was passed to the gods.

And the gods who came down from the flying saucer have multiplied and created many gods, or they were descended from the gods.

When the hatred between mortals is passed to the level of the gods, it triggers a war between the gods!

The murals hardly show the process of the war, and there is no result of the war. Only the gods of the ancient pharaoh country gave orders to attack other gods to the mortal army.

The murals that followed were all exaggerating how stalwart, righteous, and powerful the people and gods of the ancient Pharaohs were. To Alice, the content was too false.

In the last mural, Alice saw different content.

"The gods are gathered together again?"

Alice did not see the result of the battle of gods, and did not know who won and who lost, but the last picture on the right is countless gods, angels, monsters, sea monsters, etc., the sky and the sky, it seems that all on the earth at that time The powerful living creatures all gathered together to discuss what they were discussing.

"I have actually seen the content of this painting."

Looking at the mural, Li Yun said with emotion.

Alice immediately looked at him, "Where did you see it? What's behind it?"

"It was on Penglai Island, and I saw it on the gate of life and death...Huh!?"

Li Yun suddenly woke up, "The same content has appeared again, is this really another gate of life and death!?"

"The gate of life and death?" This Alice has heard Li Yun say, and even many leaders around the world have heard it. They are also searching for the gate that Li Yun said can release a huge aura.

"It turns out that the gate of life and death recorded the gathering of gods and monsters. They gathered for a meeting to create seven gates of life and death?"

Alice quickly thought of this matter. The gods at the time must have encountered something that had to be resolved, so they put aside the dispute and sat down with the monsters to discuss what happened.

"Probably." Li Yun could only answer her with an approximate.

"Then you think, why did the gods sit down and discuss it? Is it for sleep?" Alice asked again.

Li Yun smiled, "It's probably because God feels that he can't live anymore, so he must fall asleep."

He had even guessed the reason why the **** was sleeping, but it was just a guess, so he didn't say it at all and let Alice think about it.

"Hmph, you certainly don't understand, you still sell it!"

Alice stood up proudly and looked at the last painting.

There is a place where the left and right sides converge, but the top is blank, and there is no mural content engraved.

Chapter 3975: Sudden change

"Did you find anything?"

Li Yun asked the others.

"have!"

Wu Ke immediately replied: "Mr. Li, I found that my worldview has been greatly impacted. We human beings were created by God!"

"Nonsense." Black West gave him a straight look, "We humans have always had a legend that we were created by gods, wait, don't you believe that biologist Darwin? Please, his theory is flawed. There are so many things that cannot be explained. For example, monkeys, even if they are given 100 million years, it is impossible to evolve our human intelligence!"

Rhea also agrees with his statement: "Darwin's theory of evolution cannot explain the eye problems of humans and other creatures. We are the top creatures in evolution, but there is no difference between the eyes and the lower creatures. It is equivalent to saying that within hundreds of millions of years, the eyes It's strange that this organ has not undergone any evolution."

The eye is the most important organ, but it hasn't evolved in hundreds of millions of years, which is really strange.

Of course, some people also use that since the eyes are the most important organ, it is of course that they have evolved and reached a perfect state during the time of the lower creatures. Therefore, the structure of the eyes of the lower creatures and humans is exactly the same.

However, according to Darwin's theory of evolution, biological mutations exist at any time. Are the naturally evolved eyes perfect?

Even if the evolution is perfect, according to the principle of micro-evolution, the eyes should get some changes!

In fact, human eyes are almost the same as fish eyes.

Li Yun also knows another thing that the theory of evolution cannot explain, that is, the Cambrian explosion, which roughly means that, according to archaeological findings, life on the earth underwent a drastic change during the Cambrian period.

A series of life such as arthropods, brachiopods, creeps, sponges, chordates, etc., have greatly increased in less than a few million years, and basically constitute the colorful life types on the earth now.

According to the theory of evolution, it is impossible for ordinary organisms to evolve so many species so quickly...

"Just these discoveries?"

Li Yun asked them again, but he couldn't draw any conclusions.

The people present were all indifferent. They didn't care about how they came. Unlike the movies, they struggle to pursue the origin of human beings when they are rich.

Unless God can bring them immortality or powerful power, otherwise ordinary people will go to the so-called gods when they are full.

"Let's go, let's keep going up!"

Li Yun quickly decided to abandon these murals and chose to continue upwards. I don't know who the things portrayed in this hall were shown to, but were specifically for later generations? Or did

the **** predict that he didn't know if he could survive, so he recorded history for later generations?

Isn't the biggest role of murals to fight against weathering and preserve history?

Everyone had no opinion, and continued to follow Li Yun to the pyramid.

However, there were a lot more discussions, and the atmosphere improved a lot.

Although ordinary people are not interested in gods and dare not to be interested in their own origins, they still recorded the content of the murals, and maybe they can show off after they go out.

At least prove that you didn't come to the pyramid in vain, right?

Li Yun thought about something, walked to the exit of the hall, took a step, and wanted to go up the steps.

Sudden.

"Boom!"

The gate closed again.

Chapter 3976: Sphinx

Everyone was taken aback, Qi Qi fell into panic.

They have tried all the walls on all sides, and they are so strong that they are desperately strong. If they close the two exits, they will really become turtles in the urn.

"We go out from the entrance..."

Before Alice had finished speaking, the entrance was also closed, and in an instant, the hall fell into darkness again.

And people who have gone through the dark world have a complex feeling of dumbfounding and powerlessness. They are now getting more and more accustomed to this darkness.

"Turn on the light!"

Rina shouted, and soon one of her team members ignited the surroundings with fire-type abilities. What made everyone breathe a sigh of relief was that they did not go to a strange illusion world again, but remained in the hall.

"What the **** is going on?!" Wu Ke is very irritable, even if he does not go to the new illusion world, he will definitely encounter strange dangers next!

Then, the danger really appeared.

A huge monster covered with golden brilliance appeared at the exit of the hall just now, making everyone startled, and the guy looked at it vigilantly.

Surprisingly, they all know this monster!

I haven't seen it before, but this monster is so famous that they all recognize it at a glance.

This monster is the sphinx monster of the ancient Pharaoh legend: Sphinx.

In the modern Pharaoh Kingdom, beside the pyramids, there is a super huge sphinx more than 70 meters long, 21 meters high, and more than five meters wide.

The Sphinx is also the unique symbol of the monster Sphinx.

"you."

But to everyone's surprise, the huge golden monster that appeared in front of them actually lowered his head, and opened a pair of majestic eyes with questions that everyone could understand, and said to everyone: "Answer I have a question."

While maintaining their vigilance, everyone looked at each other and was very surprised.

According to legend, the Sphinx of the Sphinx is a monster that will stop passers-by and ask passers-by questions.

Only when the Sphinx's question is answered and the answer is correct, this sphinx monster will let passers-by pass, otherwise, the Sphinx will swallow passers-by as punishment!

Unexpectedly, the monsters in the myth really appeared in front of them, and they asked everyone questions just like the myth.

"Could it be that..." Brian was completely excited. "The Sphinx, the Sphinx, will ask us questions about people?"

According to the legend, the Sphinx asked only one question to passers-by: What animal has four legs in the morning, two legs at noon, and three legs at night?

This is the question he got from the Muse of Beauty. The correct answer is also very simple, it is human.

In the morning, when a person is just born, he can't walk but can only crawl, so he has four legs.

Noon is an adult, walking on two legs.

The three legs at night are the elderly walking on crutches, so they have three legs.

If the Sphinx really asks this question, then they are really lucky, answer it directly, and pass it directly!

It's perfect, it's cheating!

"Excuse me....."

Just about to speak, Rina suddenly realized something, and immediately closed her mouth and glanced at Li Yun.

Almost everyone looked at him subconsciously.

Chapter 3977: Monster problem

There was no expression on Li Yun's face, calm and steady, his eyes were looking directly at the sphinx sphinx of the huge golden monster in front of him, waiting for its question.

I am also waiting for some people to rashly take action to test some of the characteristics of this monster.

It's not that Li Yun is cold-blooded, because as long as it is a person who can hold his breath, he will not directly attack him recklessly.

The good and evil attributes of the gods are not different from those of human beings. There are evil gods, such as the monster Yaqi Orochi, and good gods, such as the son Xiaosu...These gods are good.

So when you encounter monsters, especially talking monsters, as long as you can be steady, you should not attack directly, but wait.

Of course, some people who can't help it may say that this pyramid is already dangerous, and can't it prove that the gods here are all evil gods? Can't kill decisively?

However.

It was Li Yun and the others who broke into the cemetery first, not others.

But even if he thinks so, if Li Yun sees someone who recklessly attacks the monster Sphinx, he will not refuse. After all, foreign daoists are not dead, so let the uncomfortable ones try it out. Li Yunneng Save it.

I don't know if it's a pity, or it's time to be grateful, but fortunately, no one shot.

Sphinx's voice sounded again: "What kind of ending should I draw on that blank mural?"

Wen Jianjian's words fell into not the original sound of the Sphinx, but the meaning that Li Yun naturally felt from the magic of the dialogue with the monster based on what he heard.

This made Li Yun a little envious. Mastering this magical technique meant that he would have no problem with people from any country, and he spoke Chinese while others spoke English, but they could understand each other.

This is wonderful.

"ending?"

If you understand it, it doesn't mean you will do it. When you write the test paper with the scum, you seem to understand it. Once you write it, you will know nothing.

Everyone showed a surprised look.

This sphinx is not worthy of a person's face, so it's just a matter of blocking his exit, and he still asks such a philosophical question!

There is no doubt that on the last mural that should have portrayed the ending, the blank space was left for the Sphinx to act as an interrogator for passers-by.

Once someone makes him dissatisfied with an answer, the Sphinx will swallow the answerer in one bite!

As for the ending, there are thousands of standard answers in Chinese, not to mention the lofty question of "God Ending".

"Excuse me."

Li Yun finally spoke: "Do we want all of us to answer a question, or does someone stand up and talk to you personally?"

The former is the test of the Sphinx monster on everyone in the hall. If there is a problem, everyone should do it together. Apart from not being able to check the information online, it is basically an open-book question.

However, open-book exams are often the most difficult...

"You." The Sphinx sphinx said in a low voice, "Answer me a question."

"Excuse me again, if you answer it," Li Yun looked at the monster and clenched a seal in his hand: "If we can't answer, will there be punishment?"

Unfortunately, this monster no longer answers!

He even squatted on the ground, closed his eyes, waiting for the answer to the question.

It looked so bad that he really wanted to let his mother be dragged out and whip the corpse-anyway, the mother of the monster was still a monster.

Li Yun immediately asked: "If we answer it, will you be rewarded?"

Chapter 3978: Answer

The huge golden monster Sphinx still turned a deaf ear, turning a blind eye to the gazes of Li Yun and others. The Sphinx chose to lie in the position where it had just exited, and blocked the exit with its huge body.

Still the appearance of under-beaten.

Li Yun revealed the newly obtained seal, which is the legendary innate treasure.

Even if it's a damaged Fantian Seal, how can you smash a foreign monster to the ground?

Everyone suddenly became nervous, and they were all ready. If Li Yun attacked, they would have to go together even if they were unwilling to do so!

"this....."

West bit the bullet and said: "Mr. Li, I think we should find a way to answer his questions first. If he doesn't let us go, or if he wants to play some tricks, we will kill him again!"

Li Yun glanced at the people lightly, and found that many people agreed with West's proposal. It seemed that casually fighting a monster in myths and legends would still make them feel guilty.

Even though they all watched the previous live broadcast of Sakura Country, they knew that the power of the gods had faded a lot, and they seemed to be able to overcome them.

"Alright, let's find the answer first."

Hearing these words, the sphinx monster opened his eyes and looked at him again, but immediately closed his eyes again, looking like he was waiting for an answer.

"The answer... what's the problem with this monster?"

Alice asked tentatively, she wanted to know if there would be any consequences for angering this monster, after all, West had just said something offensive.

Unexpectedly, the Sphinx didn't open his eyes, but the voice came faintly: "My question is, what kind of ending should I draw on that blank mural?"

Everyone glanced at it, then turned their heads together, looking at the top of the entrance, where is a blank wall, waiting for them to draw the ending?

Moreover, the monster Sphinx only answers questions related to the question, and it does not answer any questions that try to find hints.

Alice thoughtfully: "Is the ending? Step down from the gods to the flying saucer, and use two lines to write the various plots of the gods' experiences. In the final ending, the gods inexplicably chose to fall asleep... Now you are asking our gods again. What kind of ending should I draw in the end, I can only guess that the gods will eventually wake up... after all, if there is a deep sleep, there will be a wake up."

The matter of the awakening of the gods has been verified. There are two gods in Li Yun's family, and one of the Sakura Kingdom has awakened. Coupled with the ancient monster Sphinx in front of him, the ending of the awakening of the gods is just a matter of course!

"I think so too."

"Roughly the same."

"The **** wakes up, ha ha ha, no one can stop it, maybe Mr. Li can?"

Everyone talked for a while, except for a small part of the evil saying that most of the gods are dead, and only a small part of them can wake up this ending, most people agree with Alice's answer.

Only Li Yun frowned.

"Your answer, is this?"

The sphinx's dull voice sounded again, and this time, it opened its eyes again, staring at everyone with a pair of huge eyes.

It seems that the next moment, it will come straight forward and swallow the people who answered wrong in one bite!

Alice looked at Li Yun, saw that he was still frowning and did not speak, and she spoke to the sphinx monster Sphinx again: "There is no standard answer to this question, right?"

Chapter 3979: Gods Resurrection

Everyone naturally nodded their heads again and again.

The question asked by the Sphinx was to ask them their views on the outcome of the gods. It stands to reason that there is no standard answer to this question. After all, it is them, not the monster.

However, this sphinx monster still did not speak, just waiting for them to confirm the answer.

There is no fluctuation in the expression on its face, no killing intent or goodwill can be seen.

Its performance made everyone guilty.

The resurrection of the gods, the ending is too simple, and everyone can guess it.

What exactly is this monster asking?

"You guys." Sphinx's low voice sounded again, "Are you unanimously agreeing to give this answer?"

"...No, let's discuss it again!"

Alice took a step back and shook her head quickly. In the end, she did not dare to make a decision by herself, but looked at Li Yun and let him decide.

Everyone looked at Li Yun in unison.

There is no need to say more about this kind of look.

"Have you come up with other answers?"

Li Yun asked flatly, and Alice's eyes lit up. Does this expression mean that he has come to an affirmative answer?

"no."

"Probably it is the ending of the god's resurrection, the god's death, the god's departure, and the god's sleeping again, what else?"

"Mr. Li, you decide!"

"Mysterious recovery!"

The basic conclusion reached by everyone was for Li Yun to decide, but most of them decided to choose the answer of the revival of the gods, believing that the ending of these murals was this.

Sphinx turned his huge eyes and looked at Li Yun. Gu Jing did not wave on the huge face, "You, have you decided?"

The deep voice echoed in the hall, shocking people's eardrums.

The crowd trembled and looked at Li Yun together.

"Decided, my answer is—"

Li Yun pointed to himself.

The hall was quiet.

"Just kidding?"

"The ending is Mr. Li you?"

"This... Brother, don't treat our lives as a trifle!"

"Play, this monster is going to be angry!"

"Ready to do it!"

Everyone fucked, because the huge sphinx had already stood up, opened its mouth on the huge face, and uttered the words: "Answer... wrong! You all have to enter me." Inside his mouth!"

"Fuck, kill it!"

"and many more!"

Li Yun stopped the crowd, so he took his time, and said slowly: "You didn't listen to me why, why do you say that my answer is wrong? If my answer is wrong, who is the provider of the correct answer? Let him come out and confront me face to face!"

"ridiculous."

The human face of Sphinx finally showed a humane expression, but it was only a sneer, not a kindness.

"How can you draw it as the ending? Humans, you have some power, but it doesn't mean you can defeat the gods!"

Sphinx's words were deafening.

Alice couldn't help but glance at Li Yun. She didn't know why Li Yun said that the answer was himself. Isn't this an obvious mistake?

"Who said the answer I gave was myself?"

Li Yun smashed his hands, and he was able to test it out. This legendary mythical monster Sphinx has actually awakened, and possesses a high level of wisdom, no worse than humans.

Before, it didn't say a word, and asked questions mechanically, just to prevent the possibility of revealing the answer to the question.

Now that Li Yun gave the answer, it became active.

Chapter 3980: the answer is

"Not you?"

Sphinx coldly said, "Then you human being, why are you still pointing at yourself? Do you want to play with the gods? Hmph, you humans have not changed at all for tens of millions of years, you will only be smart!"

All human beings: "..."

Are they going to vomit blood?

Being scolded by the map gun for no reason, whoever is a human is uncomfortable.

However, this monster actually claims to be a god? Was it a "translation" error, or was it shameless?

"I just pointed out my answer. You are too stupid to misunderstand what I mean, don't blame me."

Li Yun smiled faintly and said.

"it is good!"

His words made the humans present applaud, and everyone frowned.

"Very cunning."

Sphinx sneered again, but in the end he did not continue to move forward. Instead, he chose to squat down again, staring at Li Yun with a pair of huge eyes: "Human, tell your real answer, if you can't let it I am satisfied, you must enter my mouth!"

Li Yun smiled faintly: "Before I tell my answer, I want to know what your answer is? Don't worry, I guarantee that my answer is definitely different from yours, because you didn't guess my answer just now! "

"Haha." After Li Yun broke his "defense", Sphinx spoke more and said arrogantly: "The answer to this question must be related to the gods. If you know a lot of the secrets of the gods , You can answer it. On the contrary, you can only enter my mouth if you are ignorant."

It means that they can't enter the pyramid at the beginning, but go to other places to find the remains of other gods, find more ancient secrets, and then infer what the answer is.

Otherwise, there is only a dead end.

"Oh." Li Yun said indifferently: "It seems that your arrogance has reached a certain level. You actually said that the ending of the gods in the murals is related to gods!"

There was a sound of grinding teeth.

The Sphinx glared at Li Yun.

It was originally a **** who symbolized wisdom, but as a result...

As a result, it was ousted from the throne of the God of Wisdom, and could only run into the desert to ask some questions from the passing travelers. If the answers were available, he would show his grace and release those people to leave. Those who couldn't answer were swallowed. Lose.

But now Li Yun actually said it was an ignorant god? !

"My answer is simple."

Without waiting for it to continue speaking, Li Yun said his answer: "People!"

"people?"

Everyone, including the sphinx sphinx, spoke in unison.

"Yes, the best ending to the content on the mural is to draw a person alone!"

Li Yun didn't expect the stupid monster to understand why this answer was, so he took the initiative to explain: "I have several reasons. First of all, look at the mural."

Everyone, including the sphinx, looked at the mural again.

"Since the gods created mankind, the importance of mankind has increased step by step."

"From only following the teachings of the gods, to the beginning of hunting, planting, and offering tribute to the gods, to the construction of huge cities, the creation of exquisite porcelain, the

cultivation of large tracts of farmland, the cultivation of canals, and so on. It proves that human beings are a race with huge development potential!"

Sphinx was shocked, unbelievable, and somewhat shocked.

"Later, humans built huge pyramids, the Tower of Babylon, and wise monarchs such as the Three Emperors and Five Emperors appeared."
