

Godly Choice 4001

Chapter 4001: Isis

Although these two goddesses look very unlike gods.

A short stature and a personality similar to that of Lori.

The other was simply sitting on the ground, and he didn't even have the strength to stand up, and a hole was bitten out by a black robe corpse on his neck, and he couldn't bear to look directly at it.

But still no one dared to underestimate them.

The goddess Isis sitting on the ground has already proved her power with a finger. If the gods do not move, they will destroy the world!

"You are too confident."

Isis just faintly responded to her, and then fell silent, as if thinking about something.

The son Xiaosu asked himself to be boring. He straightened up and looked around, as if he was explaining to Li Yun. He chuckled and said, "This is the place to sleep, right? It looks like a big awl, with a touch of beauty. nor!"

Big awl?

The corners of everyone's mouth twitched, this is a pyramid!

However, Westwood and others secretly raised their heads and glanced at her: This blonde loli could comment on the creation of the nine pillars of the ancient pharaoh country with a downward tone. The goddess of Isis has not yet refuted. Nothing to rush people.

Enough to see the power of the blonde loli, not under Isis, or even under the eight gods.

"Ah, it's on it!"

The son Xiaosu raised his head, finally saw the "corpses" of the eight gods floating in the sky, sighed, and then found the nine silk threads used by the black robe pharaoh before, picked it up and looked at it:

"Isis, isn't this something you wove? Who used it to tie you down?"

She saw the purpose of these threads at a glance.

Everyone was shocked. It turned out that these nine silk threads were woven by the gods themselves. No wonder they could drag the gods down towards the ground.

If Li Yun and others hadn't come, then the black robe pharaoh had almost succeeded. He could absorb the blood of the gods, and perhaps would be able to take away most of their power before the gods awakened.

At that time, the power of the black robe pharaoh will be extremely powerful.

Unfortunately, everything is gone now.

"It's nothing more than a rebellious pharaoh."

Isis's tone was still flat, she seemed to have had enough rest, and finally stood up on her weak body.

The momentum is not too strong, but the height is quite astonishing, a full 1.8 meters, standing in front of the son Xiaosu, the two goddesses can not be compared at all, the height difference is too large.

"Oh."

Saint son Xiaosu threw away the silk thread, stepped on two more feet, and said: "Bah, bah, bad luck, no wonder it smells so bad!"

In front of the goddess Isis, step on the silk thread she spun out.

As for the smell...I don't know if it's the black-robed pharaoh or Isis...

Everyone is very greedy.

The things spun by the gods are amazing when you look at them!

It's actually quite powerful.

Isis remained silent. After a while, he said, "Since you have recovered, I should wake up again."

"Oh?" Shengzi Xiaosu was not tall, but raised his head and stared at her arrogantly: "Want to fight again?"

Isis did not answer, looked at Alice, and said: "I can feel Athena's power from you, but you are holding Pluto's weapon..."

Alice was a little embarrassed, and whispered: "I...I just have no weapons!"

Nonsense, getting a weapon is already great, you still want to use the weapon of the goddess Athena?

"Um."

Isis spoke softly and raised his hand again, making everyone pale with fright.

Chapter 4002: The Spear of Victory (Part 1)

But this time, Isis pointed to the space ring that Alice was wearing on the white **** of Alice's left hand. The ring trembled, and a short golden spear was spit out from it.

"This is... Alice you bought something?"

Li Yun recalled that when she saw her for the first time, Alice was holding this golden short spear.

According to her, this short golden spear was excavated from a tomb temple of someone, and she bought it again after it went to the auction house.

After buying this short golden spear, Alice began to be interested in "Tomb Robber", and later went to Huang Xuanguo and met Li Yun in the vast forest.

Now, this golden short spear was taken out of the space ring by the fertility goddess Isis, which is obviously the origin of the goddess knowing this short spear.

"this is.....?"

Alice asked the goddess Isis softly, and she could feel that after the golden short spear fell into the goddess' hands, there seemed to be a different change.

"This is the thing of Athena."

The voice of the goddess Isis was indifferent, with vague memories: "Named: The Spear of Victory."

It really belonged to Athena.

In fact, Li Yun had guessed before, how exactly he had forgotten, but because he guessed that it might be Athena, the goddess of wisdom, Li Yun asked Alice to convert to Athena instead of continuing to believe in God.

"In your body, you have the power of Athena's faith."

The voice of the goddess Isis became illusory, soft as if it were divine light falling from the sky, full of incredible feeling.

Wookerwest, Rena and others were so fascinated to hear that they couldn't help but think in their hearts that this is the real goddess!

Even if Isis was sitting on the ground and was bitten by a black robe corpse before, but even so, it did not damage the goddess's majesty.

But at this moment, after the goddess spoke, this illusory, soft and majestic voice truly interprets the power of the gods to the fullest!

The mighty sea.

"You believe in Athena?" Isis held the golden short spear in one hand, and slowly stroked it with the other hand.

The golden short spear began to emit colorful rays of light, and beautiful patterns bloomed on the originally dim spear. In the end, the light gathered on the tip of the spear, and then suddenly disappeared.

When the change stopped, everyone looked at the short spear again, and saw that it had become extremely gorgeous, but the sharp point on the spear's tip gave people a sense of strength without being broken.

Alice was dumbfounded, until Concubine Wan Qing who was standing next to her poked her, and then hurriedly replied: "Yes, I have already believed in the goddess Athena."

"So that's it." Isis held the short spear in his hand and slowly handed it back to her: "Athena and I are old friends, and the spear of victory is her former weapon."

"Garbage." The son Xiaosu spit out two words, clearly speaking Huang Xuanguo's words!

I don't know if Isis understands...well, I guess I understand, because everyone present can understand what she says, and she can understand what everyone says.

Alice glanced at Saint Xiaosu.

Blonde loli said quickly: "I didn't mean that this weapon was rubbish, I mean Athena was **** too...cough cough cough."

Everyone shed a cold sweat.

It's okay to say that other people's weapons are garbage, but how do you say that the goddess of other people's beliefs is garbage?

On the other hand, Li Yun glanced at Saint Xiaosu with a weird expression. Did this little loli still learn his cough?

have a future!

Chapter 4003: The Spear of Victory (Part 2)

The goddess Isis ignored the blond Lolita's madness, and said in a flat tone: "This triumphant spear symbolizes Athena's power and godly virtue. Since you believe in her, you must not lose courage. "

"Yes!"

"You did a good job before, and the Spear of Victory is temporarily handed over to you for safekeeping."

"Yes!"

"Besides, I remember that the sleeping place of Athena was..."

The goddess Isis paused, her lips moved slightly, and she said a word that only Alice could hear. Everyone turned their ears to listen, but they couldn't understand or hear what they were saying.

"Do you have any questions?" The goddess Isis asked Alice, and handed the short spear into her hand.

"there is none left!"

"Okay, remember what I just said, hold this spear of victory."

"Yes!"

Alice knelt on one knee, raised her hands high, and held the short spear respectfully in her hand.

But the goddess Isis did not immediately let go, but exhorted again, glanced at Saint Xiaosu, and when she saw her boringly looking around, she suddenly asked: "Alice, who did you believe in before? Gods?"

Suddenly, the saint son Xiaosu became vigilant and looked over with screaming eyes.

Alice replied respectfully: "I used to believe in **** Christ, which belongs to God..."

"Oh, it turned out to be Jesus!"

Isis's beautiful face suddenly burst into a smile, "From believing in God to Athena, that's good, Alice, you will surely become Athena's messenger in the future and spread..."

"Wow!"

The son Xiaosu screamed. Isisli ignored her and continued, and said in a very quick tone: "I will talk about the future in the future, Alice, I will give you one thing, and you will do it for me. Find a suitable person who is willing to believe in me and let him spread my reputation. This matter... just like that, see you next time."

After finishing speaking, before the son Xiaosu became angry, Isis, the goddess of fertility and magic, dropped a wooden patterned scepter, and his figure fluttered up suddenly, just avoiding the attack of the son Xiaosu.

"See you next time, the arrogant goddess of evil... Oh, I should call you now... Jesus?"

A triumphant smile appeared on Isis's face, as if the forbearance and indifference just now turned into a triumphant smile.

"I'm furious!"

The blonde loli refused to let her go, and she took out an angel feather from somewhere and threw it at Isis in the sky.

The angel's feather was fluttering, but the face of the goddess of magic and fertility changed. She hurriedly avoided, but was still swept in the heel by the angel's feather.

Boom!

The entire black pyramid shook, and things around it shook.

Everyone turned pale with fright. Is this a ***** war?

Anything that looks like an ordinary girl's squabbling, but a random movement will make the world vibrate together.

It was terrifying.

What's more scary is...

Isis, the goddess of magic who killed the black-robed pharaoh with a finger before, was smashed by something thrown by a blond little loli, and flew towards the bright stars in the sky, with an inverted face, amazed and inexplicable. , Ten fingers are still holding some weird posture, floating above the stars.

It's like... after she got up to the starry sky, she couldn't help being shackled, maintaining the posture of being knocked over by the angel's feathers.

There are also expressions.

Chapter 4004: Hahaha

"Hahaha is booming in a trance!!!"

After seeing the embarrassed look of the goddess Isis in the sky, the little blonde loli of the saint son Xiaosu clutched her belly and laughed. She laughed so much that tears flowed out, and she kept asking Li Yun to watch it together. , Pointed at the sky with her slender fingers, her fingers trembling with a smile.

Except for Li Yun's faint smile, everyone not only dared not laugh, but also bowed their heads, and did not dare to look at the embarrassed look of the goddess Isis.

If they can, they even want to delete from their minds the picture of the goddess Isis floating upside down above the stars!

It's too scary.

If the goddess Isis takes revenge and wakes up again and asks what happened just now, they will all be miserable.

The goddess was embarrassed at the moment, but just like she was sitting on the ground before, she could easily stab the black-robed pharaoh with one finger, the goddess is the goddess, with incomparable power.

Mortals can never resist the gods, at least not now!

"It's so pleasant~"

The saint son Xiao Su smiled triumphantly at Li Yun, with a look of "I am happy now".

Looking up, Li Yun said helplessly: "Xiao Su, does that goddess Isis do not matter?"

"What's the matter?"

Blond Lolita said indifferently: "The above is a stagnant area of time and space, what kind of person goes in, what kind of person comes out, since the goddess of fertility goes in like this, of course she will come out like that, haha~"

"Ah, that's right." The blond sage pulled Li Yun's wrist and urged, "You take out your phone and take a picture of the sky now. In the future, she will still dare to oppose me, so I will show this picture to me. She see!"

Li Yun glanced at Alice, only to see the princess entrusted by the goddess Isis with a surprised expression on her face, and there was a trace of pleading.

Li Yun knew what Alice meant without guessing.

After all, she is a goddess who is friendly to Alice and has a good relationship with Athena. It is impossible for others to take pictures of the embarrassing look of Goddess Isis.

"My mobile phone broke."

Li Yun lied calmly, and the son Xiaosu was furious, and rushed to bite him.

It's a pity that she now relies on angel feathers as an incarnation, and her strength is weak enough that Li Yun imprisoned her with one hand.

"I'm furious!"

Saint Son Lori hit him with her head and said angrily: "When you come back, I will make you look good again! Hmph, I actually look at someone else, and I will never take you lightly!"

"Okay, okay, my fault, I will ask you to eat ice cream cream cake when I go back."

"I want five!"

"No, people who eat bad stomachs, at most two, no, one and a half."

"..."

After a lot of coaxing, she finally coaxed her away temporarily, and the saint son Loli turned into an angel feather and fell into Li Yun's hand.

Together with the angel feather she took out earlier, Li Yun now has two in his palm. The soft angel feathers glowed with little rays of light. They quickly changed back to their normal appearance and were taken back into the Qinglian Immortal Mansion by him.

Li Yun decided to store all the important things in the Qinglian Immortal Mansion in the future instead of putting them in the space ring.

The reason is also very simple. After seeing the goddess Isis raised his hand and took out the contents of the Alice Space Ring, how could Li Yun still trust this thing?

If it weren't for the scene just now, Li Yun estimated that he still thought the space ring was safe and would not be discovered by anyone.

Chapter 4005: ended

However, the fact is that the strong can see through the things in the ring of borrowing space at a glance.

However, the Qinglian Immortal Mansion is absolutely impossible to be seen by outsiders, this thing is a treasure that even the son Xiaosu is surprised!

"ended."

Li Yun turned around and looked at them.

However, after seeing this group of people bowing their heads, they couldn't help but smile: "Why are they so scared? The power of the gods is very strong, but compared to those who are hungry and have no moral values. As far as monsters are concerned, the gods are trustworthy, just like the previous pharaoh, who was ambitiously trying to meddle with the power of the gods, and he didn't know how many years he had planned in this black pyramid."

"Who is scared?"

Concubine Wan Qing was the first to object, "I'm not afraid. The gods in the west are very different from the immortals in the east. There is no need to be afraid of them!"

Alice laughed out loud.

"Why? Not convinced?" Consort Wan Qing stared at her.

"No, I'm not convinced."

Alice waved her hand quickly and complimented her: "The Biyou Palace on Penglai Island, as well as your two cultivating sects, all prove that the power of the East is very strong... However, I think there is no East and West in the age of gods. , Miss Wan, what do you think?"

She wants to be close now, it doesn't matter if the gods of the west are immortals of the east, anyway, she will rely on Li Yun of the east anyway.

"Roughly the same."

Consort Wan Qing is not an aggressive person, she just vented her aggrieved aggrieved just now—even if she looked down on the Western gods, her strength was still much worse after all, and she needed more practice.

"All right."

Li Yun smiled and said: "Let's talk about these things. This time we came to the ancient pharaoh country, and we had a good relationship with a god, and we also learned a lot of ancient secrets. It is a perfect achievement of the goal. Now... ah wait Wait, Alice, did you get a way to leave from Goddess Isis?"

Everyone recovered from the shock just now, and they all looked at Alice, their eyes full of envy.

They came to the inside of this temple with great pains, and then got into the black pyramid. As a result, they found nothing, and they were almost killed by an old monster thousands of years ago.

Almost all the rewards and benefits were taken away by Alice.

No, it should be that everything here has an owner. Alice is the only one who got something from the owner, and the others just got a soy sauce and didn't get anything.

".....have."

Alice nodded, and found a way to control it a little from the memory passed to her by the goddess Isis.

She is not really in control of this place, she is only allowed to enter some unimportant areas, or control some corners and corners, and more, the secrets hidden in some corners, Alice is completely impossible to touch.

"That's great." Li Yun smiled, "Clean up, and we will leave here... By the way, the black-robed Pharaoh's spoils are ours, right?"

He asked Alice, and everyone looked at the many things left by the black-robed pharaoh:

Right next to the place where everyone was fighting before, there were many things left, mummies, and various equipment. Although they didn't see any use yet, it was definitely not easy to be brought by a strong person.

More importantly, there are nine silk threads woven by the goddess of Isis!

Chapter 4006: distribute

Alice was dumbfounded when she heard Li Yun's question.

Because the goddess Isis did not give her instructions on the black-robed pharaoh's related issues, and did not even mention a single bit, as if I was bitten by the black-robed pharaoh just now, it was nothing to the goddess, and I didn't even bother to mention it.

"this....."

Alice hesitated.

Say no, all of her teammates looked at her eagerly. If there were no trophies, it would definitely be heartbreaking, and so many people died in vain.

Of course, no one can be blamed. After all, this temple was originally the sleeping place of the nine pillar gods such as Goddess Isis and Ra, who came in without authorization.

Well, if they take these spoils, they may upset the goddess Isis, and offend the gods at that time, it's not a joke.

"How about this."

Li Yun thought for a while, "We will take the spoils. If the goddess Isis asks about it, you will say it was taken by the son Xiao Su."

"Huh? This... alright."

Alice stuck her tongue out and agreed, but she wouldn't say that the little loli took it away, after all, the other party is also a god!

If the goddess Isis falls to the ground again in the future and asks about this matter, Alice will honestly believe that with the kindness of the goddess Isis, she will definitely understand them.

"But don't take too many things!"

Alice hurriedly said: "And can only take away the foreign objects, that is, the things belonging to the black-robed pharaoh!"

"Of course."

Li Yun nodded with a smile, and everyone cheered immediately, and finally did not go in vain.

"correct."

Li Yun pointed to the nine silver-white silk threads on the ground, "These things woven by the goddess are considered trophies, but with the credit of me and Alice, these nine things should be allocated to us. You have Opinion?"

Alice looked at him in surprise, and Li Yun smiled at her.

Everyone hesitated for less than three seconds, and they all agreed happily.

The silver thread is very powerful and should belong to the trophies, but they were woven by the goddess Isis himself. They were originally the goddess' things, and they were assigned to Alice who had a relationship with the goddess.

"Ok!"

Li Yun nodded, "Joanna, go and collect these silk threads. We want this silk thread. If the black robe pharaoh has other silk threads, as long as the quantity is not very large, you will distribute them all!"

Everyone's expressions improved a lot.

In fact, they didn't do anything except to explore the way for Li Yun. Now even if Li Yun, Alice, and Concubine Wan Qing swallow these things, they can't beat the three of them.

"I don't want anything."

At this moment, Brian said suddenly, pointed his finger at the wooden scepter in Alice's hand, took a step forward, and said firmly: "I want it!"

"Scepter?"

Everyone was stunned, they all heard the words of the goddess Isis before.

Taking this scepter represents the need to believe in the goddess of Isis from now on, and it also represents the interests of maintaining the majesty of the ancient pharaoh kingdom.

To put it more bluntly, in the future, we must be tough with the modern pharaoh country!

Why be tough?

Because in the modern pharaoh country, people who believed in were no longer the gods of the ancient pharaoh country, and the belief in the **** Ra, Seth, and Isis was almost completely wiped out.

Bryan takes over the scepter, which means that he will spread the faith for the goddess Isis and become a goddess.

Chapter 4007: Scepter handover

Becoming an envoy is an honorable and difficult task.

For example, the country of Sakura, the country still maintains the belief in the goddess of Amaterasu, and the Sakura Shrine has always been the leader of thousands of shrines in the country of Sakura.

But even so, Ise Jinzakura wants to ascend to the heights and let people re-believe in Amaterasu, which is still full of difficulties.

Modern people do not have any firm belief in gods at all. Asking them to pray every day is like killing them.

This is true for the Sakura country, let alone the Pharaoh country that almost died out of the belief in Ra.

After taking over the scepter, Bryan will inevitably embark on a very difficult road!

"you?"

Alice looked at him carefully.

"it's me!"

Brian patted his chest, "I have a few people in the ancient Pharaohs who still maintain their belief in ancient times. It should be said that an ethnic group of more than 100,000 people!"

Li Yun was a little surprised. Does the ancient Pharaoh country still have inheritance?

However, it is not surprising.

The civilization of the ancient pharaoh country is very developed, and it also has a huge influence on the development of civilization in the Western world. Although it was invaded by desert countries covered with turbans, it was not slaughtered and there will always be some traces left.

It should be said that only a hundred thousand people are too few.

"So..."

Alice squinted her eyes, as if she saw many things that would happen in the future, and she wanted to find the biggest one that suits her interests among these things!

The geographic location of the Pharaoh country is very important. The Sunless Empire once colonized here, and even the canal was controlled by her country, and later suffered defeat here.

The empire that does not set sun has a special feeling for the pharaoh country. If you can control it again...no no, this is too evil and does not conform to the mainstream of the times.

"I can give it to you."

Alice retracted her politician thinking and started from a person entrusted by the goddess, and said to Brian: "But you have to assure me, Li Yun, and the people present that after you get the scepter, you must believe in Isis. Goddess, consider her and the eight gods above as your future gods of faith, and offer your loyal faith!"

"certainly!"

Brian said in a deep voice, "The purpose of my coming here is to regain the faith in Rashem. Now that I see the power of the gods in my heart, my faith has become much stronger. Please believe me, and I will work hard to spread it in the future. The goddess, and the beliefs of eight gods, let this land rekindle the fire of faith!"

Kindling the fire of faith.

This statement is a bit subtle. It doesn't say to overthrow the current Pharaoh country, nor does it say not to.

However, igniting the fire of faith in the goddess Isis will surely arouse the attention of countless people, and the difficulties Brian encountered can be imagined.

"it is good."

Alice quickly handed him the scepter, Brian knelt down on both knees, and after seriously knocking his head against the goddess Isis in the sky, he held the scepter in both hands.

Alice had a weird face, kowtow to the goddess Isis, expressing her heart of faith, which was passed on to her by the goddess to receive the power of the scepter.

As a result, Brian unintentionally completed it directly.

So, what happens when the scepter is handed over to him?

Carrying the mischief here, Alice put the scepter in his hand, "Hold it, this scepter will... temporarily leave it to you for safekeeping. If you don't follow the will of the goddess Isis, I will come personally. Take it back."

"Yes!"

Holding the scepter in hand, Brian stood up.

A sacred radiance bloomed on the body.

Chapter 4008: For Concubine Wan Qing

Brian has changed a lot, but nothing seems to have changed.

But what is certain is that his temperament, or the spirit of spirit, has become different because of the arrival of this scepter, more stable and tougher.

Li Yun did not intend to get involved in the future belief dispute between the modern pharaoh country and the ancient pharaoh country, so she did not express any opinions. Although Alice also had a lot to say, she decided to consider Brian's pharaoh country after all. If you don't say anything to him, let's see if he can develop.

The scepter that the goddess Isis gave her, she was able to send it out smoothly.

Bryan has the strength and the belief in the goddess Isis, plus the performance along the way is not bad, and he is a member of the Pharaoh country. Alice thinks that giving the scepter to him is definitely not a perfect choice, but at least it is not. The worst choice.

"Pack the spoils."

Li Yun ordered everyone to tidy up the messy things in the hall. He took the nine silk threads in Joanna's hands and checked it a little bit. They found that these nine threads were not only unusually tough, but also had very strong ductility. I'm afraid Extending several kilometers at a time is not a problem.

As long as the divine sense covers the place, these threads can quickly wind around, and with the insignificant slenderness, it is almost equivalent to fighting with others with nine more hands!

"This stuff..."

Li Yun pondered for a moment, and smiled at the two women: "It reminds me of the immortal ropes in Eastern myths and legends. It's almost the same effect."

Concubine Wan Qing glanced at the nine silver silk threads as thin as cicada wings, her lips moved, and she glanced at Li Yun again, without saying anything.

Without looking at Alice, she turned to look to the other side.

"Pouch."

Alice couldn't help laughing, and took the silk thread from Li Yun's hand and stuffed it into Concubine Wan Qing's hand.

"Why? I don't want this thing!" Consort Wan Qing refused directly, and refused very firmly.

But sometimes, when the rejection is very firm, it can explain some problems.

"Take it!"

Alice shook her hand and said with a smile: "I saw Miss Wan you use a strange red cloth as a weapon. I think these nine silk threads are right for you. Neither I nor Li Yun need it. If you don't use it well, it's better to leave it to you."

"Anyway, I have obtained the goddess' victory spear!" Alice lit up the golden short spear in her hand. Not to mention, her two weapons are golden spears, but the victory spear is obviously better than the so-called Pluto before. Hades' weapons are much stronger, this is a real artifact, not a textile!

When she finds the sleeping place of the goddess again, she may still see the goddess of faith Athena after she finds it.

By then, her strength will be stronger!

Maybe it could be comparable to the shrine maiden of the Ise Shrine in the Sakura Kingdom, and could borrow the power of the goddess Athena. At that time, she didn't even need the silver thread woven by the goddess of Isis.

"..."

Concubine Wan Qing wanted to speak but stopped.

"Take it!" Alice persuaded again.

"You really don't want it?"

"No!" x2

"Say it first, I don't believe in any goddess, nor is it possible for a male god!"

"Don't worry." Alice winked at her, "Even if the goddess Isis comes to you for these silk threads, don't you still have Li Yun by your side? I will definitely help you by then!"

Li Yun smiled at Concubine Wan Qing. The latter's face was red, and he took the silver thread and turned around: "Who wants him to help!"

"Hahaha."

Chapter 4009: See your girlfriend go

Everyone had finished searching for the trophies, let alone, there was speculation before if there were still silver threads, but there were four, Li Yun, these were quite generous, except for one of them to hand to Brian, the other three goddess weaving All the threads will be distributed by the remaining people.

Wook obviously wanted one, but it was a pity that he was a metal supernatural player, and it didn't match the silver thread, so he could only let it out.

As a female water system supernatural person, Rina decisively asked for one, and the rest was distributed to others.

The black-robed pharaoh left behind a lot of treasures, and everyone didn't know the use of these things, and could only ask for the spoils based on feelings.

Li Yun took two at random, and gave the rest to Alice and Concubine Wan Qing, and the rest only got 30%.

They contribute too little, and 30% is pretty good.

"Ding, the host makes a choice, enters the temple, and explores the secrets inside. Reward: colorful gift bag*5, special treasure: fragment of the book of wisdom*1, all attributes +200,000."

After the trophies were distributed, Li Yun also received a reward for the completion of the selection event.

However, he looked through it and found that the so-called special treasure was of no use to him. This was a treasure that recorded various magics. It was suspected to be related to Athena, the goddess of wisdom. He had no idea of keeping it, and he would send it away when he returned. To Alice.

The only pity is that he and the two confidantes around him came out this time, but they only gave Alice a lot of benefits. Concubine Wan Qing received nothing but nine silk threads.

"Why are you looking at me? See your girlfriend!"

Concubine Wan Qing gave Li Yun a white look. Although she still had the appearance of "Qin Tianmeng", the expression between the corners of Liu's brows and lips was exactly the same as the concubine Wan Qing in Li Yun's impression.

"You are my girlfriend too."

Li Yun whispered, Concubine Wan Qing flushed with embarrassment. After pushing him, he ran to Alice to talk to her.

After a common adventure, and after the gift of the Isis goddess weaving thread just now, the relationship between the two women has heated up rapidly and they have begun to get along with each other as friends.

"Alice, can you go out?"

When the spoils were distributed, Concubine Wan Qing couldn't wait to ask her.

"Concubine Qing, you really want to go out?"

"Almost, why are you staying here." Concubine Wan Qing looked around, there was nothing, everything was emptied by this group of people, except for the bright starry sky in the sky and nine sleeping gods, there was nothing in this place. A place to play, boring to death.

Moreover, there are many organs here, and you won't know what trap you fall into if you don't pay attention.

"Besides, there is another nasty guy here!"-Concubine Wan Qing almost pointed to Li Yun and said.

Alice teasingly smiled at Li Yun, but didn't say anything to him, turned her head and shouted to everyone: "All are gathered, we are going out!!"

In an instant, everyone became excited, and more than half of them even burst into tears.

God knows what kind of miraculous things they have experienced, and what kind of crises.

From the endless underground corridor, to the hall of the gods, to the falling starry sky of the universe, and then into the black pyramid.

Everything else is far more exciting and exciting than fighting monsters on Penglai Island.

"Are you all assembled? The captains check your team members... I'm sorry, the dead partners can only sleep here forever, and it's hard to find the dead body again."

Chapter 4010: go out

Before leaving, Alice said comforting words: "But the advantage is that this is a sleeping place for the gods, you can sleep with the gods, I believe their souls will also be redeemed, may the goddess, and the goddess Isis, Protect their souls!"

Alice created a prayer ritual to the goddess Athena, which is similar to painting a cross to God Jesus, or putting the hands of a Buddhist school together, which are all ceremonial things.

Most of the other people are people who have no faith, but follow the stream and believe in **** Christ, so they are all painting crosses.

Brian, who obtained the scepter handed down by the goddess Isis, did not know what the prayer ceremony of the goddess he believed in was. He could only kneel on the ground respectfully and worship the goddess Isis floating on the starry sky three times. bye.

Since then, this expedition has come to an end.

Alice used the method taught to her by Isis and quickly left the place with everyone.

...

"Finally come out?"

Less than twenty figures appeared in the hall of the temple. Wuke could see the tall statues of gods in the hall at a glance. Among them, nine of them were exactly the appearances of the nine gods seen above the black pyramid. .

He was so overjoyed that he shed tears, it was not easy!

However.

In the hall of the temple, besides them, there are four or five waves of people who don't know where they come from or what their origins are.

When they saw Li Yun and others appear, they all froze in place.

Subsequently.

"stop!"

"All raise their hands!"

"All get down."

This group of people took out various weapons and threatened them.

Why don't people like Li Yun understand what it means?

It is estimated that these guys are also supernatural beings who came from all over the world. They failed to catch up with the first wave of people who entered the valley, so they came in later. After finding this temple, they did not dare to enter, but just wandered here. Going to eat black.

"F*ck! Fuck!"

Wook, who followed Li Yun's buttocks with his tail tucked in his life, learned a Chinese language and stretched out a **** directly at the one hundred people.

The meaning is self-evident.

The result is self-evident.

The two sides fought together, in the hall of the temple, under more than a dozen huge statues of gods, fighting endlessly.

Li Yun didn't make a move, neither did Alice, and Concubine Wan Qing was watching the scene with a smile. Seeing who dared to attack, she raised her hand, and a barely visible silver thread flew out silently.

No one saw how the silk thread moved. Only when she raised her hand three times, at least three heads fell on the ground gruntingly, and the wound on her neck was smooth and flat-her throat was lively strangled by the silver thread. !

This sudden battle ended quickly.

In less than three minutes, Wook cleaned up the last enemy, stepped him on the floor, and grinned cruelly: "I have gone through countless trials of life and death when I entered the temple. Had it not been for Mr. Li's protection, it would be early I just died, I don't know how many times! After I finally came out, just when I was holding a stomach, you idiots took the initiative to run into it! Really reluctant to live and die! Go to **** and confess!"

Wook crushed the person under his foot with one foot, and he was no less hit by a train head-on under the feet of a metal power person.

"Comfortable!"

Wook laughed refreshingly and turned his head to look: "Mr. Li, first please...er, Mr. Li? Why did you just leave? I also plan to treat...okok, next time, next time!"
