

## Godly Choice 4011

Chapter 4011: Back to hotel

At the end of the battle in the hall, Li Yun and Alice had already entered the valley with Concubine Qing and others.

Without the secret control of the black-robed pharaoh, the valley returned to calm, and only some instinctive protection remained, such as the scarab army, vampire bat army, mummies, etc., all hidden in the dark, waiting for opportunities.

If outsiders enter here on a large scale, the scarab army will start again, devouring everything in the valley madly, unless someone controls them to stop.

In addition, the top priority of the valley is undoubtedly the temple.

The nine gods in the temple are still asleep. I don't know when they will really wake up. Maybe that day is not far away. As long as the spiritual energy continues to increase, the nine gods above the black pyramid will wake up one by one.

At that time, there will be another ups and downs.

"Let's go, go back."

Li Yun stretched out his hand, and Alice, Joanna, and Abel, the bodyguard who was very silent along the way, were all lifted up in the air.

Then Li Yun looked at Concubine Wan Qing.

"Why do you see me? I don't need you!"

Concubine Wan Qing flew up and flew towards the outside of the valley. Li Yun smiled, and followed him with Alice and others.

Joanna's eyes moved slightly, and she felt that she was a failure again. Not only did she fail to help Her Royal Highness in the temple, but also troubled Mr. Li Yun to take her off after she came out.

It would be great if her ability or strength could be stronger...

Out of the valley, there are still many people outside, at least four to five hundred.

Some are people who have left the valley before, but have not left, and are still waiting; some are officials of the Pharaoh Country, and some are also supernaturalists from all over the world.

After they saw Li Yun, they all looked like a ghost, and many people had a doubt: This is Li Chaoren?

Really young!

However, Li Yun did not land in front of them, but just passed by like a horror, came to the place where the off-road vehicle was parked before, landed, and got in the car. The maid Joanna started the car and left!

Li Yun sat in the back seat, with Alice on the left and Concubine Qing on the right, leaving the valley amid the roar of off-road vehicles.

"Li Chaoren is gone?"

"Is nothing found, or has the treasure been taken away?"

"You must have taken away the treasure! Didn't you see him without any nostalgia?"

"Fuck, he's stronger now!"

"If you don't accept it, you should also explore the ancient ruins. Don't be sour here."

"I can't \*\*\*\* just say it? Every time there is him in the ancient ruins, if he can become a \*\*\*\* in the future, he will definitely be the first one!"

"God?"

Li Yun didn't hear the crowd's various discussions. He sat comfortably on the sofa of the off-road vehicle, almost thinking that he had come to heaven.

That's so cool.

After an exciting and satisfying adventure, there are still two confidantes to accompany him. This feeling is far happier than having fun with them all the time.

Sure enough, people still have to move, and can't stay lazy.

The strange thing was that Li Yun didn't want to talk, and the two women beside him did not speak either. The three closed their eyes and let the maid drive the buggy back to the hotel.

"Two beauties, here you are!"

Li Yun opened his eyes, but found that the two women were leaning on his shoulders. Alice was vaguely asleep, breathing very smoothly.

As for Concubine Wan Qing, she is truly asleep!

Also snored.

No way, Li Yun could only hold them out of the car, took them to the top of the hotel, and placed them... in place.

Chapter 4012: What about the mask

Don't think about it crookedly, just put it in place.

Fortunately, Li Yun had previously opened a suite, a spacious hotel suite with two bedrooms and one living room, a large suite with a living room, dining room, living room and a study room. Li Yun placed Alice in her room.

After hesitating, she still didn't put Princess Wan Qing in Alice's room. After all, the two women had only met each other for a short time, but they would be very embarrassed when they woke up and found that they were in each other's bed.

Therefore, Li Yun simply took Concubine Wan Qing back to her room and let her lie on her bed.

"Concubine Wan Qing?"

Li Yun whispered to her, the beauty lying on the bed sleeping soundly, but there was no response.

Wearing a red dress, a voluptuous and beautiful mature woman, she lay in front of her. She was a man who would be tempted. As for whether she would do something, it depends on whether the man is Liu Xiahui or a gentleman. .

Of course Li Yun is a gentleman with justice worth tens of millions. Of course he has done nothing. Besides, the God of Crab doesn't allow it either!

only.....

Li Yun's pace of wanting to leave stopped again.

"Is it too bad to leave like this?"

He deliberately said to himself, just wanting to know whether Concubine Wan Qing is asleep or not, and he uses the words that excite Concubine Wan Qing the most to stimulate her.

For example: "Since I'm asleep, just...hehe!"

For another example, "I have saved her, and collecting some interest is not too much, right? Qing Concubine and I are still in such a good relationship, I kissed again, and there is nothing wrong with it again."

Li Yun deliberately said it. He had been observing the face of the beauty on the bed and found that she was still motionless and breathing very smoothly before confirming that Concubine Wan Qing was really asleep!

"Are you really asleep?" Li Yun approached Concubine Wan Qing again, looked at her face next to her, and couldn't help reaching out and touching the cheek that could be broken by a bomb.

Once you have a bad mind, people's desires and thoughts will not help but rise, just like now.

A beautiful and charming woman is lying in front of you, sleeping sweetly, and the other person is even close to the full value of your favorability. Li Yun can do something, after Concubine Wan Qing wakes up, or wakes up midway. , Even if she is angry, she will definitely cooperate with Li Yun.

The question now is whether Li Yun wants to be a gentleman or Liu Xiahui?

Although Liu Xiahui refers to the righteous gentleman, but how to say, the word Liu Xiahui has been infected with a little ambiguous breath, as if men and women are alone, if nothing happens, I am sorry for the current flow society.

"Speaking of..."

Li Yun thought of something, touched the fingers of Concubine Wan Qing's cheek, moved around her crystal clear and small ears, and fumbled.

Not finding anything, Li Yun put his finger behind her ear again and continued to fumble.

"...I haven't seen the real face of Concubine Wan Qing. This guy always uses various masks and makeup techniques to cover up his face."

"Could it be that you look terrible?"

"Huh? Why can't you touch it?"

Heh heh, don't get me wrong, Li Yun meant that he didn't find the so-called mask!

He had already fumbled almost the entire face of Concubine Wan Qing repeatedly. Although the movements were very gentle, he did not find any masks.

"strangeness."

Li Yun sat on the edge of the bed, touched his chin, and stared at Concubine Wan Qing's beautiful face. There was no doubt that it was very beautiful.

Chapter 4013: Fell asleep

The concubine Wan Qing when she was asleep had a completely different temperament from when she was awake, as if she suddenly transformed from a six-door demon into a saint in the Hidden Sacred Valley!

Concubine Wan Qing has become a sage of Fan Qing.

Oops.

But let's not say that after she fell asleep, she suddenly calmed down, her eyes closed, her eyelashes curled, her lips had a faintly satisfying smile, and her expression was soft and lazy.

This kind of concubine Wan Qing is really elegant and distinguished, and she is as noble as a princess.

"It's the afternoon? No wonder it's so tired."

Li Yun glanced out the window. He didn't pay attention to the time until now, because after coming out of the valley, he got on the off-road vehicle, and then spent the whole way with his eyes closed. Until now, he didn't notice that it was the afternoon.

Looking at the time again, it is already the third day...

In other words, they did not come out from the night when they entered the valley until almost noon on the third day.

I haven't slept in the middle, and most of the time is in a state of high concentration and alertness. No wonder Alice and Concubine Wan Qing fell asleep as soon as they got into the car.

Li Yun thought at the time, why Consort Wan Qing did not object to him sitting in the middle of the seat? It turned out that she was too tired and panicked at the time.

"Forget it, there will be time to see your true colors in the future!"

Li Yun scratched the sleeping Concubine Wan Qing's little nose, and was about to turn around and leave, but was grabbed by someone.

Then he fell on the bed.

To be more precise, collided with Concubine Wan Qing on the bed.

When the two rolled over, they became the posture of Concubine Wan Qing wrapped around him with her hands and feet, and her head leaning against him.

"???"

Li Yun couldn't laugh or cry, "So you haven't slept yet."

He must be cheeky now, otherwise Concubine Wan Qing heard those words just now, and when he woke up, she didn't know how to retaliate.

"Humph."

The woman in her arms groaned, as if she was too lazy to answer him, or maybe she didn't wake up at all, just looking for a pillow.

"Well, go to sleep, go to sleep."

Like coaxing a child, Li Yun put her arms around the beautifully figured woman in her arms and patted her back, making her fall asleep quickly.

Pat and pat, Li Yun fell asleep too...

...

When Li Yun woke up, the surroundings were all darkened, and the lights from the Cairo city outside the floor-to-ceiling windows spread to the hotel room, giving some light to the dark environment in the room.

Li Yun was lazy for a while. After hearing the cheerful laughter from the girl in the living room, he sat up and rubbed his temples, feeling that he was still tired.

However, after sleeping for so long, it is time to get up and go to bed at night.

"Alice, Consort Qing."

Li Yun walked out of the living room and greeted the two girls who were sitting on the sofa, "You woke up so early? I still slept!"

"It's not early, it's nine o'clock in the evening~. We woke up at five o'clock in the afternoon." Alice's tone was brisk and playful. "We will rest on the way, and Li Yun, you have to be on guard. Of course I slept late."

"No." Li Yun shook his head.

Concubine Wan Qing looked at his black eyes, "I think you are exhausted... Forget it, for your tiredness, I won't pursue the matter just now."

"What?"

Li Yun didn't react for a while, what happened just now? What is to be held accountable for?

"Um?"

Concubine Wan Qing narrowed her eyes, this guy forgot?

"Oh, remember it!"

Li Yun patted his head, "You mean you took the initiative to put your arms around me to sleep... Forget it, for your tiredness, this time I won't... Ouch."

"Go to hell! Learn how I speak!"

Chapter 4014: Leisure (on)

Li Yun smiled, and walked over to sit between the two women, but was rejected by the two of them and could only sit on the single sofa next to him.

"Too ruthless." Li Yun muttered.

"What did you say?"

Concubine Wan Qing glanced at him, Li Yun quickly said no, she snorted.

The TV is still showing a show. This is the first time the three people have left the temple to chat in a quiet and peaceful state. For a while, they didn't know what to talk about—it turned out that Concubine Wan Qing and Alice were still chatting, but Li Yun came. Later, he became a little embarrassed.

Li Yun quickly found a topic: "Qingfei, why are you here?"

Alice also looked at Concubine Wan Qing. She probably knew the origins of Concubine Wan Qing. She knew that she was originally a very powerful cultivator, and she was very powerful before her spiritual energy exploded.

"Can't I come?"

Concubine Wan Qing lay on the sofa, holding a sofa pillow in her arms, kicked off her slippers, revealing her two snow-white crystal feet, and she lay on the sofa. She looked very lazy.

"It's not that you can't come... Did you get any news?"

"Isn't it the news from that temple? Anything to ask, I'm here to relax, but you...lone men and widows, you don't come to take risks, but to open a hotel room!"

Concubine Wan Qing said straightforwardly. Li Yun's face blushed, because the facts are true. Part of the reason why he came to the pyramid with Alice was to deepen his feelings with her, and come to the hotel by the way... almost like that. .

Alice was very calm, bit her lip, and smiled at her: "It's not exactly... But now we are all in the same hotel suite with Li Yun? What will I do later, Qing Concubine, you will also follow... "

"Who wants to be with him!!!"

Concubine Wan Qing's voice became louder, Alice chuckled, Concubine Wan Qing pounced on her to tear her mouth, and the two women suddenly quarreled.

The saint of six gates, unexpectedly got along with the princess of the empire without setting sun.

"Okay, okay, am I okay?"

Alice raised her hand to surrender, and Concubine Wan Qing let go of her. In terms of strength, ten princesses could not beat her.

"Shall we go to eat? Eat first before talking."

Alice looked at Li Yun: "None of us had a meal in the temple, and now I think it's incredible."

"People are hungry for a day or two and can't die. When they are nervous, they can't eat, let alone still have cultivation skills."

Li Yun said briefly, stood up and decided to go to dinner.

Concubine Wan Qing was too lazy: "Isn't there a takeaway? I'm too lazy to go, order takeaway."

"Why are you so lazy? The takeaway food is much worse than the restaurant."

"You need to care...I won't go out anyway, you can go if you want, just bring me a copy."

Concubine Wan Qing has never been to university, but she marvelously got the essence of college students' eating: who is going to eat, who is responsible for packing back.

Li Yun looked at Alice, who nodded.

"Sure, then order takeaway, Alice, you asked your maid to order us one."

"Ok, what flavor do you want?"

"Hey? You really don't go out to eat?"

"Don't you want to accompany you?"

In the end, Concubine Wan Qing still didn't choose to come out. After the takeaway came, she got up lazily, sat at the table, and ate while looking at her phone.

"Open your mouth."

"what?"

Li Yun clamped a piece of meat to her mouth, and before Concubine Wan Qing could react, he stuffed the chopsticks into her mouth.

Chapter 4015: Leisure (Part 2)

"Bah, baah! It's so terrible!"

Concubine Wan Qing had a meal, furious, picked up a few dishes that she hated the most, and forced them to Li Yun.

Alice watched silently, feeling very jealous, but she also knew that these two people actually met earlier than her. If you can't accept a friend like Concubine Wan Qing who has a good relationship with her, Li Yun's other girlfriends will accept it even more. NS.

Moreover, after a disturbance, Concubine Wan Qing's mood was obviously much better. What was wrong with her laziness just now?

After eating, the three of them sat in the living room chatting again, enjoying a rare leisure time, especially after experiencing a strange and dangerous adventure, they can return to the modern metropolis and nest in the hotel room, which can make people relax greatly. Come down.

One piece and one relaxation is the kingly way.

After talking for a while, Alice said that she was going to call her grandmother on the same phone, went back to her own room, closed the door, and left the living room to Li Yun and Concubine Wan Qing.

Her grandmother, the current queen of the Everlasting Empire, had something so big. The queen was sure to care and ask for details. Alice did not talk to her grandmother before, but asked Joanna to talk to the queen to report the situation and wait for her. After the break, Li Yun woke up and discussed with him before he chose to report the situation to his grandmother.

Of course, she would not say everything on the phone. The Queen's phone calls were monitored by someone, and some of the content had to be kept until she returned to China before she could talk to her grandmother privately.

"Can you tell me now?"

Alice closed the door, and Li Yun hugged Concubine Wan Qing, and under her thump, he hugged her into his arms and hugged her tightly.

"What are you doing? Let go of me! Bastard!"

Concubine Wan Qing struggled and slapped Li Yun on the back, letting him let go!

"Something bastard, okay little handsome boy?"

"What little handsome guy?"

"You dare to say it!"

Li Yun said with a smile, "At the airport before, and when we first met, didn't a certain saint always call me a handsome boy? I want to be my girlfriend."

"Wrong, I want to wrap you up!"

"Then pack it. I refused before, but now I am."

"It's only now, it's too late."

The two were awkwardly together, talking nasty words, Concubine Wan Qing didn't know what she was talking about, but she was sure that her reddish cheeks were full of smiles, and she was amused by this bastard.

It seems that all the sorrows are insignificant because of his embrace.

"Qing concubine, you feel that you are not strong enough, so worry?"

Li Yun asked his own question.

The lazy appearance of Concubine Wan Qing just now is different from the enchanting and charming way she used to hold the winning ticket. Li Yun still clearly remembers that when she was in Zhonghai City, she was confronted with her almost every time. All at a disadvantage, watching the picture of Concubine Wan Qing leaving with a chuckle.

There was a huge difference between her at that time and her now.

"What do you mean?" Consort Wan Qing did not admit or deny, and threw the question back to him.

"I think it is."

"Why? Why?"

Concubine Wan Qing buried her head on his broad chest, circled her fingers on it, and her tone of voice was full of laziness.

This time it was really lazy, not in a state of decadence.

"Just because I am your boyfriend, so I know how you feel!" Li Yun said confidently.

Chapter 4016: Concubine Wan Qing (Part 1)

"shameless."

Concubine Wan Qing gave him a white look, and the powder fist hammered him.

Li Yun couldn't see what the expression on her face looked like now, but it didn't prevent him from lowering his head and kissing Concubine Wan Qing's ear, which made the demon girl quieter and moaned and stopped talking.

"I'm serious."

Li Yun continued: "Before, in my cognition, the holy concubine Qing consort of the six gates was a person with a thousand people and a thousand faces, who controlled everything and seemed very confident and very proud."

"She is not as good as you said!"

Concubine Wan Qing said angrily.

How can she be so good herself?

In the past, she was just a mascot and a puppet from the Six Doors. It was only after getting some pills given to her by Li Yun that she had the confidence to get rid of her control and the so-called saint status.

In the end, she was completely free by relying on the Heavenly Demon Cultivation Technique that Li Yun gave her.

"My saint is so good."

Li Yun hugged her, and said: "It's just that people who are proud of the things of the ancient gods will feel a depression in the face of their powerful power. This is a normal thing. I am also depressed, and I am also troubled. ."

".....Humph."

Concubine Wan Qing groaned again, and suddenly became jealous: "Isn't your saint the one who is called the Vatican? Go find her, I am a demon, not a saint!"

"You want a saint, and you want a demon."

This sentence Li Yun thought was wonderful. The saint can refer to the concubine Wan Qing, or the saint of the Brahma Qing, both can be used.

"Slick your tongue, this saint won't worry about those little things! Just worry about it by yourself."

Concubine Wan Qing denied Li Yun's statement, but Li Yun felt that she thought that way, but she just refused to say it.

"Qing concubine."

The two embraced silently for a while, Li Yun whispered.

"Why?" The tone was lazy, revealing a bit charming.

Li Yun was itchy, put his arms around her fragrant shoulders, let the glamorous saint face him, and kissed her again.

The magical thing is that Concubine Wan Qing did not evade or evade, just closed her eyes, kissed him lightly for a few times, and quickly separated.

"It's nothing, I just want to call you a special... Well, yes, and in the future, if I get something suitable for your cultivation or use, I will leave it to you, so that you can become stronger quickly, and become strong now and become capable. Stronger!"

Li Yun packed his ticket.

"Insane, I am very strong now."

Concubine Wan Qing lazily nestled in him, "Those who rely on foreign objects or believe in gods to gain power, I don't even bother to put them in my eyes."

"Including Alice?" Li Yun smiled.

"If she doesn't practice, do you think I can afford her?"

Concubine Wan Qing pointed to the country and said: "Her power is too weak for me to take a look. It depends on the golden spear you gave me and the spear of victory that I have obtained now. It is still reluctant to deal with those immovable enemies. The enemy of the virtual realm can only find a way to escape."

"That's right." She added, "Before today, I couldn't believe someone was beaten motionlessly. That black robe monster is so funny!"

"Alice is great." Li Yun didn't quite agree with her statement. "Alice is a bit weak now, but she doesn't rely solely on her strength to feed her. Her identity and ambition are the most important direction for her development."

"I know, I'm not a fool."

Chapter 4017: Concubine Wan Qing (Part 2)

Concubine Wan Qing said: "Alice is a good seedling. If she is willing to cultivate immortals, she will have a good achievement. Even if she does something about faith, I believe she will be very good in the future."

Li Yun smiled.

"Are you proud?" Hearing this laughter, Consort Wan Qing hit him with her head, "I don't know how you deceived so many girls, and all of them are so good...except for the little princess!"

When talking about the little princess, her voice was smiling, which was obviously just ridicule.

"You are insulting our Royal Highness Princess Yongning, the only existing princess 400 years ago, the historical research of court life is more authoritative than anyone else, I also intend to let her take care of the things she used to live in the palace in the future. Write it all out, when she gets better."

"Humph."

"Of course, not only the little princess is excellent, but our saint is also excellent!"

"Van Qing Sheng?"

"Concubine Wan Qing!"

"Coax me again, too lazy to talk to you, get out of the way, Alice is coming out soon."

After swiping her mind, she knew that Alice was not talking with her grandmother, but was waiting for her to finish talking with Li Yun.

She is a dignified saint, so naturally she can't do anything to occupy a man.

Shouting "Alice" into the room, Concubine Wan Qing turned over and left Li Yun's arms. She was like a beauty snake, twisted onto the couch, soft as a beauty snake. Lazily lying on his stomach, the snow-white calves were still upturned, shaking, especially cute, and revealing a bit of charming and enchanting.

When Alice came out, seeing her like this, she almost thought Li Yun did something to Concubine Wan Qing...

"Li Yun, are you finished talking?" Alice didn't add the words you, but asked him if he was finished talking.

"It's almost done. Come, Alice come over to me." Li Yun smiled and opened her hand to her, "A certain saint has taken over the entire sofa, so she doesn't want any face."

"Hmph, Alice, you sit on my side, I'm resting your thigh!"

"what?"

Alice really sat down, and Concubine Wan Qing also really raised her head, turned over again, put her head on Alice's slender thighs, and looked at Li Yun triumphantly.

Li Yun looked embarrassed.

"Pouch."

Alice laughed and stretched out her hand to caress Concubine Wan Qing's face: "I remember this seems to be called Pillow-Knee? Well, the saying from Sakura Country, by the way, Li Yun, do you and that witch, do you have Pillow-Knee? "

How could Li Yun say that Ise Jinying not only laid him on his knees, but also did more intimate things?

Of course it is impossible to say!

"Two beauties, the night is long, and they don't want to sleep."

Li Yun changed the subject and suggested to the two great beauties: "Should we do something happy?"

"Go to hell!" x2

The two big beauties were born laughing and cursing at the same time, and smashed the pillows over.

Li Yun smiled, "What I mean by happiness is that we will play some games together...it's not king games, video games, or cards!"

"Game of Kings?" Both women vaguely felt that the game was not right, but they dared not ask what the specific content was.

If they knew that the so-called game of kings was to order the other party to do something, would they agree?

"Then come to play cards."

Alice took out a deck of cards from the space ring and proposed.

Concubine Wan Qing also had no objection, and sat up on the sofa and started playing cards with the two.

Well, two people fight one.

Chapter 4018: Myth (Part 1)

"Right A!"

"Sorry."

"Grab the landlord."

"Don't grab it."

Li Yun and the two beauties nestled in the hotel room to play cards, while they were playing cards, while chatting, and by the way, they took their mobile phones to chat with some beauties in Zhonghai City and Beijing, and the life passed quite quickly.

"Li Yun, I think of something I want to ask you."

Alice took the card and thought of something.

"what?"

"It's the goddess I believe in, Athena!"

Alice bulged, "You made me believe in the goddess before, but I don't even understand her origin and power. After seeing the goddess Isis, I was embarrassed in front of her!"

As the ambassador of the goddess Athena, Alice felt it necessary to learn more about the goddess.

"But all I know are myths, which are almost certainly different from the real situation!"

Li Yun thought for a while, and said, "Look at the blonde loli who was incarnate from angel feathers. She actually has an intersection with the gods of the ancient pharaoh kingdom. I was shocked myself, and Isis The goddess and the goddess Athena are also friends, which is also something I didn't know before."

Concubine Wan Qing glanced at him, "It seems that you don't understand everything."

"Who can understand everything? Unless you ask the gods yourself!"

"You know you know it."

Concubine Wan Qing stopped talking, with a pair of slender feet lying on the sofa, lazily playing cards.

Alice smiled and said: "What does it matter? Even if it is a fairy tale, it is better than my current eyes. The age of gods is too far away from us. It is very difficult to find some legends now, Li Yun, can you know Some are amazing."

"Alice, don't compliment him!" Concubine Wan Qing complained, and Alice chuckled.

"Ok."

Li Yun also lay on the sofa, throwing his cards out two or three meters while playing cards, and landed on the table.

The three of them became lazy, enough to see how hard the experience in the past two days and nights was, so that they don't want to do anything now, and Alice doesn't want to be with Li Yun. I just want to nest, and chat to be very happy.

As for telling Gong Qingyu and Fang Xue about this journey, let's wait until we go back.

"it's said."

After Li Yun started telling the story, even Concubine Wan Qing listened carefully. After all, the knowledge about the gods is too important and too little now.

"When the heavens and the earth are not opened, well, if the records in the black pyramid are correct, then the myths and legends of all mankind start with the chaos of the heavens and the earth. I think this refers to the gods stepping down from the spaceship and starting to create Human time, right?"

There are many myths in the world, but for each myth, heaven and earth are born out of chaos and nothingness.

Huang Xuanguo's Pangu opened up the world by splitting the world with a sky-opening axe, allowing the clear ones to rise and the turbid ones to fall, thus forming the world.

The mythology of the ancient pharaoh kingdom is similar. Ra God created the \*\*\*\* of the sky and the earth, and only then has the sky and the earth.

The three Chaos Gods on the A Three Kingdoms side are also in a similar situation.

Including Greek mythology, also called Homer mythology, and so is it.

"perhaps."

"It's a pity that I didn't see those murals with my own eyes, Alice, have you photographed them?"

"Yes, I will show it to you."

While Concubine Wan Qing looked at the murals, Li Yun continued to tell the myth.

Chapter 4019: Myth (Part 2)

"According to a book called Homer's Epic, the name of the \*\*\*\* of creation is Kaos, a great \*\*\*\* who covers everything and fills every place."

"It gave birth to Gaia, the goddess of the earth. Gaia is the mother of all things and the symbol of the earth. She gave birth to the sky, the sea and the mountains."

"Ahem, mythology is that many close relatives get married, and Gaia is the same. She and her child, the \*\*\*\* of the sky, called Uranus, gave birth to twelve Titans, which represent the sun, moon, stars, and so on. ."

Listening to Li Yun's words, Alice's face was strange, "We ancestors' imagination of the gods was influenced by ourselves, or was the gods chaotic at the time? Fortunately, the goddess I believe in is a virgin god... Li Yun Did you say that?"

"Um."

In ancient times, human beings lived as tribes, and inconvenient transportation made it difficult to marry each other. Therefore, in ancient times, there must have been many marriages of close relatives. Therefore, many myths and stories of mankind contained the content of close relatives getting married.

This is not just a reflection of myths. Even five thousand years ago, in the early rise of many civilizations, there were also many imperial kings who married their own daughters, sisters, sisters, mothers, etc., to maintain the purity of blood.

This should also be the residual effect of the marriage of close relatives in ancient times. The emperor of the cherry blossom country grew so much because their family was close relatives, or intermarried cousins, and their genes were getting worse.

Of course, the above research is based on the fact that when there were no gods, did ghosts know that the gods at that time also had a lot of disregard for morals?

Criticize Zeus by name!

"Go on~" Alice was very interested, "Which \*\*\*\* is the descendant of the goddess?"

The goddess in her mouth refers to Athena by default.

"The goddess Athena is not so fast to reach your house."

Li Yun smiled and said: "Uranus, the son and husband of the Goddess of the Earth, is the first king of God in Homer's epic, but later, he was killed by his own son, the 12 Titan Gods that he and the Goddess of Earth gave birth to. Kronos used a sickle made by his mother and cut off... the symbol of a man."

"puff!"

The two women couldn't help laughing again, and they all looked at Li Yun's so-called symbol of men. Consort Wan Qing still had a smirk, and gestured with her hands, as if she wanted to cut it off, making Li Yun change. Become an eunuch!

"Ahem, this is a myth!"

Li Yun hurriedly said back: "Uranus is the \*\*\*\* of the sky. Of course, he can't die. Instead, he returned to the sky and never landed since then.

But before he left, he angrily cursed his son Kronos: You will pay for what you have done, and soon, you will be like me, to be overthrown by your son! "

The two women were a little surprised. They were overthrown by their sons, and their sons were overthrown by their sons?

Li Yun said: "This is the curse left by the first \*\*\*\* Uranus. The second \*\*\*\* king, who killed his son Kronos, was very afraid of his father's curse, so from then on, he and his wife were born. Every child under her will be swallowed by him on the day of their birth!"

"It's weird." Concubine Wan Qing couldn't help but vomit.

"It's really weird and cruel, eating his own children or something, no wonder he was also overthrown behind."

Li Yun nodded in agreement with Concubine Wan Qing's statement.

Chapter 4020: Continuation of the curse

"What about it? The goddess still hasn't appeared on the stage."

Alice asked again, and she listened with gusto about the gods, and added: "Say slowly, we are not in a hurry."

Now the three of them are in the hotel, lying on the sofa, watching TV, chatting, and playing cards. They have a lot of time-although it is said that the TV in the old country is incomprehensible and unacceptable.

"Later, Kronos became the second king of gods, but he was extremely afraid of the prophecies of his father's first king of gods, so every time his wife gave birth to a child, he asked his wife to give him the child. He swallowed his son again!"

"It's cruel!"

"If this is true, then gods and humans are actually similar...Of course, the goddess Athena I believe in, certainly not like this, right?"

"Don't worry, you haven't reached your goddess yet."

"Hate, what is my house, disrespect to the goddess!"

After interrupting the chat, Li Yun turned the topic back again: "Kronos swallowed five children in a row, which made his wife Rhea very sad. When he was about to give birth to the sixth child, Rhea finally made a decision. Determined to keep this child.

The specific method is to give birth by herself, and then secretly hand over the sixth child to an elf, or a creature called a fairy, a nymph. She will bring up the child, while Rhea wraps the stone with a piece of cloth. Let Kronos swallow it in one bite! "

"Can this be fooled? How stupid Cronos must be!" Concubine Wan Qing asked in surprise.

"Maybe that piece of cloth is not such a simple cloth, it has the ability to hide." Alice can only guess like this.

Li Yun shrugged, "Mythology, who knows what the original face looks like, unless he asks himself...Closer to home, Kronos was careless and allowed his sixth child to grow up smoothly, and then as predicted. With the cooperation of his wife, the sixth child designed to let him drink poisoned alcohol.

Kronos, who drank poisoned alcohol, kept vomiting and vomited all the five children he had swallowed before. They were separate:

Hestia, the goddess of the stove and the family, Demeter, the goddess of agriculture, Hera, the goddess of marriage and fertility, Hades, the goddess of the sea, and Poseidon. "

Alice widened her eyes: "It turns out that Hades, the Hades, came like this...Ah, then, the goddess Athena I believe in, is Hades's niece?"

"Guess it."

Li Yun smiled and said: "The sixth child was named Zeus. He and his five siblings drove his father Kronos out. Several of Zeus's brothers and sisters thanked him for releasing them from their father's belly, so they shared Respect him as the king, so Zeus is the third \*\*\*\*\* king!"

"The curse is still going on?"

Alice guessed the truth again, and guessed something deeper!

"Yes." Li Yun said: "Zeus' father is not dead, he also predicted one thing: Zeus and the goddess of wisdom Metis gave birth to a daughter, will give birth to a son who will overthrow his rule! Zeus! Fearing that the prediction would come true, so before Metis gave birth to her first child, he swallowed her whole in his stomach!"

"..."

"..."

"The King!"

Concubine Wan Qing lying on the sofa threw a piece of the king, vomiting: "If the real history of the gods tells you this way, then you really see a ghost... By the way, you can't talk nonsense, right?"

Li Yun stretched his hands: "Western myths are very bizarre, and our Eastern ones are not bad."
