

## Godly Choice 441

Chapter 441: Mo Liang is here too

"Hehehe!"

An unidentified male and female yin laughter sounded, which was chilling in the middle of the night. Zhou Guangfu could no longer pretend. He screamed and ran away. Halfway through, he kicked a big rock, but Zhou Guangfu could not get up. Using both hands and feet in this way, he crawled around, crying and fleeing the mental hospital.

Li Yun, who was hiding, smiled faintly and chased after him.

But Zhou Guangfu didn't go far, so he rode an electric car on the side of the road not far away and drove to a village with lights on.

Li Yun also vaguely heard that Zhou Guangfu yelled like crazy, "Don't come to me, it's not that I killed you, it's none of my business..."

"Ding, the host has made a choice, and the reward (experience value + 200,000, wisdom and agility + 500, green gift bag\*3) has been issued!"

Hearing the prompt from the system, Li Yun nodded secretly, did not return to the mental hospital, and went straight back to the hotel.

On the way, Li Yun thought about it, and deduced from the information just now that there were people in the mental hospital, and there was more than one.

In addition, Zhou Guangfu had never seen a ghost or a ghost, it seemed that he was simply delivering food, but unfortunately he didn't have time to interrogate him.

"Li Yun!"

Seeing him coming back, Gong Qingyu's eyes lit up, immediately let go of holding Aunt Lian's hand, stood up to meet him, his eyes were full of questioning meanings: "How?"

"good."

Li Yun nodded, but didn't say much.

There were a lot of people here, not a place for chatting, Gong Qingyu had to pout his mouth and sit down with him.

There was nothing for a while. After the table full of food came up, everyone ate and chatted normally, but everyone did not drink, which made the boss feel a little strange.

The rich second generation who played so wild, didn't actually drink?

When the time came to 7:50, a temporary bodyguard whom Gong Qingyu called Uncle Zuo said, "Miss, he is here."

Everyone didn't speak, the person Uncle Zuo pointed at was Mo Liang.

After a while, Uncle Zuo looked at the phone and said with a weird face: "He just came to us, and there was no indication on the phone where to meet!"

Gong Lianyi and Gong Qingyu both looked at Li Yun, waiting for his decision.

Li Yun leisurely took a piece of fish with his chopsticks, and slowly chewed it in his mouth, "Don't worry, I already know where he is going. There are not many people, there are only two or three people. Wait."

"Good!" x2

The four Uncle Zuo saw this situation in their eyes, and when they looked at each other, they could see the helplessness in each other's eyes.

It was not long before Li Yun came to the palace, and he was still a guest, but he took away the leadership position that belonged to Gong Lianyi or Gong Qingyu, occupied absolute command power, and fascinated the two golden flowers of the palace. Seems like two waitresses and one husband.

But what made Uncle Zuo and others uncomfortable was that they could not find a reason to oppose it.

After all, it was Li Yun who cured Gong Lianyi, and he also explained the knowledge of Gu worms and zombies, leading them to fight against the mysterious people who manipulated Gu worms.

"I hope everything Li Yun said is true, otherwise!"

Uncle Zuo still didn't quite believe him in his heart, and Gu worms were fine, they were just certain insects, but isn't it nonsense about zombies?

They would never believe it before they saw it in person!

"boss!"

Soon, Mo Liang's figure appeared at the door of the hotel. He did not come in, but stood at the door and shouted into the store: "Who is the boss?"

Li Yun picked up the cup, took a sip of the drink, and took a look at Mo Liang through this action.

Chapter 442: Horrified Mor Liang

Mo Liang's look was very bad, his eyes were bloodshot, and his expression was tired. It seemed that he hadn't eaten well and couldn't sleep well these days.

"I, I am!" The boss greeted him enthusiastically, "Guest, do you want to order food?"

"Don't order!"

Mo Liang was a little impatient, and drew out a hundred-yuan bill and threw it to him, "My car is in front of the door first, and I will come back later, please take care of me first!"

"Huh? Oh!"

The boss glanced at him suspiciously, moved in his heart, and asked, "Do you want to visit the mental hospital as a guest?!"

broken!

Li Yun's expression changed. Didn't the boss's words just reveal that they also want to go to the mental hospital?

Gong Lianyi seemed to have thought of this problem too, and her expression became a little anxious.

Fortunately, Mo Liang is now in a mess. He didn't hear the problem. He cursed irritably, "There is a mental hospital here? Who the \*\*\*\* is going to the mental hospital in the middle of the night?"

Mo Liang went out to call, Li Yun beckoned to the boss to come over, and said implicitly that the boss should not tell Mo Liang about them.

Although the boss was puzzled, the customer was a god. Besides, Li Yun ordered a meal for a thousand yuan, so he wisely agreed.

"What?! Mental hospital?!"

Mo Liang who was standing outside the door yelled, and everyone in the hotel was looking at him.

"Are you sure it's a mental hospital?"

"Most of the night... this, okay."

When he hung up the phone, Mo Liang was so angry that he cursed again. Li Yun looked at his expression and it seemed that if it weren't for the phone to be useful, he might have thrown the phone with anger.

"boss!"

Mo Liang walked in again and asked very upset: "Is there a mental hospital here? How do I get there?"

The boss's expression is very wonderful.

He has faintly guessed the purpose of Li Yun and others. It is estimated that the target is not the mental hospital, but Mo Liang.

But Mo Liang, why did he go to a mental hospital?

For a while, the boss felt an invisible dark cloud covering his small hotel.

At the same time, there was another invisible strange dark cloud covering the mental hospital where more than 100 people died.

At the same time, an invisible crisis is approaching quietly. What is the truth of the matter? Look forward to 7 o'clock tonight...

"boss!!!"

Mo Liang impatiently interrupted the boss's cranky thinking, and shouted, "What shall I ask you? How do I get to the mental hospital?!"

"Mental hospital?" The boss recovered, and subconsciously said: "It has been abandoned for twenty years, why are you going there?"

"It's been abandoned for twenty years!?"

Mo Liang took a breath, only to feel that there was a chill in his spine, from head to toe in an instant.

"you sure?"

"Correct!"

The boss began to tell the history of the mental hospital again. As he talked, Mo Liang stopped him drinking, his lips trembled and said, "Don't, don't talk nonsense. Hundreds of people have died? The college students are also dead? You, you? Am I a fool?"

After finishing speaking, he picked up the phone and called, and said in a pleasing tone: "Yu, Yu adults, you are sure you want me to go to the mental hospital..."

"Stop talking nonsense!"

Li Yun vaguely heard the adult's voice coming from the microphone of his mobile phone, but it was not very real, "Come...the antidote...to live, not to come, only to die!"

When the other party hung up the phone, Mo Liang's entire face became darkened to the bottom of the pot, as if he wanted to cry without tears.

This night, a person went to a mental hospital alone, not to mention that this hospital has been abandoned for a long time and still alive, and ordinary people would never go to a mental hospital at night.

A place like a mental hospital is too evil!

Chapter 443: Came to the mental hospital again

In the same way, there are cemeteries, crematoriums, hospital morgues, etc. These places are very evil both day and night!

But Mo Liang had to go. He took out the flashlight from the car with a bitter face, and walked towards the mental hospital one by one.

"Boss, let's leave for now!"

Li Yun stood up immediately, and several people also stood up and walked out of the door.

"Hey, wait, are you going there too?" The boss hurried to catch up, but saw Li Yun pull out a small blue book and show it in front of him.

"Hold, hold a gun license?"

After the boss saw it clearly, he immediately closed his mouth obediently and said with a smile: "Please, please, I won't bother you, hehe!"

Li Yun smiled and wanted to take the credentials back, but Gong Qingyu snatched it away.

"Ah? Is this true?" Gong Qingyu looked at it repeatedly and asked curiously.

"Yes, really!"

This certificate was legally processed by Li Yun, with the help of Liao Hua, a big leader, and the care of various leaders of Zhonghai City. The certificate was processed smoothly.

Although it is not a big deal, at least it can now prove Li Yun's 'official' identity, saving a lot of trouble.

Li Yun withdrew his credentials, Gong Lianyi asked Zuo Shu and several others to take the prepared bags, and the seven took advantage of the night and quietly followed behind Mo Liang.

Because there were too many people, Li Yun asked Zuo Shu and the four others to follow far behind, as a mobile force, and didn't show up for the first time.

Not long after, Li Yun once again came to the door of the burned mental hospital.

"This... is the hospital where more than a hundred people died?"

Gong Qingyu leaned against Li Yun nervously, and the few dark buildings in front of her were a bit scary to her.

She felt a panic when she thought that so many people had died here, and they were all burned to death.

If Li Yun and Aunt Lian were not by their side, she would definitely not dare to come here at night!

Ahead, Mo Liang took a flashlight at the mental hospital and took photos from the left to the right. He plucked up the courage and walked forward several times, but he did not dare to go inside!

"Li Yun." Gong Lianyi, like Qingyu, leaned half of her body on Li Yun, and asked quietly, "Will there be ghosts in the hospital...?"

"Ghost...ooh!"

Gong Qingyu put his mouth on her mouth nervously, for fear that she would startle Mo Liang with an exclamation.

Li Yun smiled and whispered: "It's normal to have ghosts, but didn't I give you something to deal with ghosts? Don't worry, we are not afraid of ghosts no matter how strong they are!"

"Then...will there be zombies?" Gong Qingyu's big clear eyes flashed with inexplicable brilliance.

It's like a person is afraid of watching ghost movies, but can't help but want to watch it.

There is a saying that the more people who are afraid of ghosts, the more they like to watch ghost movies.

"Perhaps."

"Where is the female ghost?"

"there must be!"

"Huh? What about the zombies?"

After asking Li Yun a few questions in a low voice, Gong Qingyu finally showed a smile on her face, her beautiful eyes filled with smiles, and she began to look forward to tonight's action.

Gong Lianyi took a few deep breaths and calmed down. In fact, she was quite curious about these unreasonable things.

Of course, the prerequisite for all this is that Li Yun is by his side, otherwise the two of them would definitely not dare to come to a place like a mental hospital at night.

"Mo Liang is going in."

Li Yun and the two girls hid in the messy weeds and watched Mo Liang wandering at the door for a long time before finally plucking up the courage to step into the gate of the mental hospital.

"Damn, you die, I don't believe there are ghosts in this world!"

Mo Liang cursed loudly, emboldened himself, and strode forward.

Chapter 444: the vast horizon is my love

After thinking about it, he stopped again and played a song with his mobile phone.

"The vast horizon is my love, the flowers are blooming at the foot of the green hills, what kind of rhythm is the most swaying..."

The cheerful tune of singing echoed in this dilapidated mental hospital, and in an instant, the dark atmosphere all around was dispelled a lot.

"Puff puff puff~!" Gong Qingyu suffocated a smile. She felt that this song could at least be called a 'sacred song'—the chanting hymn that could dispel demons and ghosts.

"Let's go in too." Li Yun whispered, and followed Mo Liang with his waist.

All three of them were dressed in black, and their faces were covered with black masks. In addition, their whereabouts were hidden, making it extremely difficult to be spotted in the dark night.

After entering the gate of the mental hospital, Li Yun glanced at the guard room.

The walls were already covered with vines, the doorman's room was messy and dirty, all kinds of debris were piled up, and the peculiar smell of decay came over.

The guard room is probably the only place in the entire mental hospital that has not been burned.

Entering the mental hospital, there is a playground in front. The basketball hoop has collapsed. The original concrete floor has cracked many lines, like spider webs, covered with moss and weeds. Fortunately, there is a stone road. Make some noise.

"Grass, what the \*\*\*\* is this!"

Mo Liang's heart was beating wildly in front of him, swallowed, stretched his feet and kicked a scorched basketball with only half left, cursed in his mouth, pretending to be calm, but his eyes looked around and looked around.

The basketball made a trajectory in mid-air and hit the wall of a building with a bang. In the silent night, in this deserted mental hospital, it seemed extremely harsh.

"Wow, ah!!!"

Suddenly, a hoarse cry sounded, and a black figure suddenly rushed out of the blackened building in front, and rushed towards the basketball quickly.

Mo Liang was so frightened that he screamed, turned around and fled. Judging from the performance of his mobile phone falling to the ground, Li Yun estimated that this guy's pants were already wet.

But his arms were also held tightly by Gong Qingyu's two women. Judging from the strength, these two beauties were also very scared.

"Li, Li Yun, what is this?"

"Don't be afraid, this is a human, not a monster!"

Li Yun held one arm in one hand, and the two women were graceful with slender waists and soft posture, plus the delicate bodies that trembled slightly when they were scared, they were really wonderful, which made Li Yun enjoy it.

No wonder boys like to take their girlfriends to horror movies.

"people?"

"Yes, it is a person, it should be a nearby resident, or a person in a mental hospital twenty years ago."

Li Yun whispered to them about Zhou Guangfu's delivery of food to the three fools. At the same time, Mo Liang in front had also reflected that this shadow was not a monster, but a mental patient.

"It's miserable." Gong Lianyi looked at the dirty three fools holding the basketball, a little unbearable.

"Hastily!"

Mo Liang became irritated, and a speeding run kicked the three fools fiercely, and kicked him to the ground, "Damn, where did you get this crazy? Damn it, hiding in a mental hospital in the middle of the night, looking for death. !?"

The three fools were kicked and rolled on the ground, but clung to the basketball tightly, babbling and talking, as if this basketball was very important to him.

Li Yun said in a cold voice: "Another person who commits sins and cannot live!"

Chapter 445: Early Warning Mahogany Sword

Li Yun sentenced Mo Liang to death in his heart, and only waited until it was over before fixing him, let him be arrogant for now!

"Ding, trigger the option event, please choose from the host:

Option 1: Investigate the origin and life experience of the three fools, figure out the hidden secrets behind them, properly place him, reward justice value +1000, free attribute points +1000, purple gift\*1, additional reward recovery Dan\*1.

Option 2: Ignore, no reward. "

Trigger the selection event again?

Li Yun frowned. These three fools should have something to do with the mental hospital, and also have some connection with Master Yu who is hiding here.

But now he is very entangled, whether to investigate the three fools first, or follow Mo Liang, and then come back later?

While he was thinking, Mo Liang picked up the phone on the ground and called the mysterious Master Yu again.

"Beep--beep--!"

The phone rang for a long time, but no one answered him, causing Mo Liang's stomach to become irritated, and cursing but dared not leave here.

He took the poison of that adult, and if he couldn't find him tonight, his life would not be guaranteed.

Therefore, he ignored these three fools and chose to walk around in the mental hospital, shouting while walking.

Although the three fools were stupid, they were human after all, which made Mo Liang bolder.

Gong Qingyu wanted to stand up, but saw Li Yun motionless, he couldn't help but squat down again, and asked in a low voice, "Li Yun, shall we not follow?"

"No hurry." Li Yun smiled slightly, "The other party wants to hide and seek with us, then we will play with him!"

"Um?"

Gong Qingyu didn't quite understand Li Yun's meaning, but Gong Lianyi was a little thoughtful.

Mo Liang came to meet with the mysterious person, but the other party did not show up now. Did he notice them?

"We follow him!"

The three fools held the basketball and put it back on the playground. A man walked back to the building dementia. Li Yun chose to follow. The two women naturally had no objection and followed him.

On the way, Li Yun took a look, and this basketball was burned in half, which looked very strange.

Because it is difficult to ignite a basketball, and once it is ignited, it cannot be extinguished naturally. There is half of the basketball left, which means that it was rescued.

The three fools didn't go upstairs, but got into the dark first floor, as if it was his residence.

Without the light, Li Yun couldn't see what was going on inside. He was about to get closer, but the peach wood sword in Gong Lianyi's hand trembled.

"Buzzing~!"

A humming sound came from the peach wood sword, Gong Lian pulled it out subconsciously, and then, her eyes became extremely sharp, and she looked at the flower bed in front of the corridor.

"Who is watching?!"

Gong Lianyi was very determined, swinging the peach wood sword, sending out a white sword air, and hitting the weeds in the flower bed.

With a scream, the weeds were swept away, and the swift sword aura hit a two-finger-sized bug. The bug couldn't even make a sound and was cut into two pieces on the spot!

"Gu worm!" Gong Qingyu immediately panicked. Li Yun patted her delicate shoulders to show comfort, and calmly walked to the worm to observe.

Li Yun could not recognize this gu worm—in fact, he only recognized two or three kinds of gu worms. This worm was \*\*\*\* wide, had a large mouth, and had a hole in the abdomen. It had wings like a bee. what is the usage.

I fiddled with the corpse with a stick, and there was no poisonous gas overflowing. After a comprehensive judgment, Li Yun probably understood the purpose of the bug.

"Qingyu, Lianyi, let's hide it first!"

Chapter 446: Play yin

The three of them immediately hid, and the three fools were indifferent to what happened just now, and they didn't move even after entering his dark residence.

Li Yun asked Gong Qingyu to notify Zuo Shu and others to suspend the operation and wait for news.

The three jumped to the second floor of the floor where the three fools were, and squatted down behind the fence, condescendingly monitoring the movement of the ground.

This building has been burnt to black, and the three of them were smeared with stains when they approached. Of course, it is not the time to struggle with this. Concealment is the most important thing.

Waited for a long time.

There was not the slightest movement in the mental hospital, except for a crescent moon and a few stars, and the abandoned hospital was silent.

"no one?"

Gong Qingyu mentioned her throat with a heart, but she didn't worry too much, because the Baifu Peach Wood Sword given to Aunt Lian by Li Yun was able to warn them, which meant that they could find the trace of the enemy, but they became dark, the enemy ...Is also dark!

Both sides will see who can hold their breath.

"Om!"

The Baifu Peach Wood Sword shook again, Gong Lianyi seemed to feel something, looked at a path, and whispered, "Li Yun, there!"

The warning range of the mahogany sword is quite large.

"Well, don't worry, see who he is."

Li Yun held the Silvin pistol in his hand, and he was also a little surprised why the Baifu Peach Wood Sword could warn, but his colorful pistol could not.

In the end, it can only be attributed to the fact that the Silvin pistol specializes in attack, while the peach wood sword needs to cooperate with the innate master to have combat effectiveness.

Strictly speaking, the characteristics of Silvin Infinite Bullets are indeed very strong!

—Although it takes 1 hour to charge the bullet.

"coming."

With his keen eyes, Li Yun was the first to see a vague black shadow slowly drifting over. He couldn't see if he was flying or was it because the black robe was too big and covered his feet.

But in the dark night, the appearance of this shadow can be described as scary as a ghost.

Gong Qingyu's breathing suddenly became a lot quicker. Li Yun noticed this, so he held her little hand tightly. Gong Qingyu glanced at him with a touched look, and then slowly calmed down.

Gong Lian tightly held the Baifu Peach Wood Sword that buzzed as a warning. Fortunately, the sound was very soft, even softer than a cricket's cry, and could not be transmitted below.

And it shook for a while, and Taomu Jian seemed to feel the master's heart, and soon quieted down.

The black shadow was hidden in the distance, and after observing the three fools' door for less than two seconds, he quickly disappeared into the dark night.

"He also hid." Li Yun twitched his mouth, revealing a playful smile.

Things are getting more and more interesting. Both sides know that the other party has come, and both hide themselves. Now it's up to whoever reveals his feet first.

In other words, one party was the first to escape this mental hospital!

Gong Lian thoughtfully said, "The bug was placed in front of the three fools' door for warning... So, the person I sent to follow Mo Liang has already been known to them, and it was specially brought us tonight.!"

Gong Qingyu bit her lip, and she also thought about it.

As long as you enter the mental hospital, you can quickly discover the existence of the three fools. Based on this psychology, the other party planted Gu worms in front of his door and waited for an opportunity to sneak attack.

It's a pity that Li Yun has a Baifu Peach Wood Sword for early warning, and the other party's conspiracy is useless!

"It's okay, don't worry."

Li Yun smiled and said confidently: "If you want to play Yin, they can't play with us, and they don't have the capital to play with us. Let's go downstairs!"

"Downstairs?"

Chapter 447: Three fool's notebook

Gong Qingyu felt safe on the condescending second floor, perhaps because the first floor was overgrown with weeds and did not know when a disgusting Gu worm sprang out.

Although there was a warning from the Mahogany Sword, the psychological nausea and disgust lingered.

"Let's go see the three fools."

Li Yun took the two women down the stairs without directly jumping downstairs with light effort.

A strange fire in twenty years has burned all the combustibles in the mental hospital. Fortunately, the overall structure of the floor is still there, and it seems that some rooms have not been burned.

For example, the room where the three fools live now.

The three of them entered the door of the three fools' room on the first floor in the dark. Gong Qingyu immediately smelled a stinking stench, which was like a garbage dump that had been placed for more than 20 years, with all kinds of rotten food and The accumulation of domestic garbage is simply challenging the endurance limit of human sense of smell!

"vomit!"

Gong Qingyu retched a few times, she only felt that her eyes were crying with the pungent smell, which can already be called a biochemical weapon!

Li Yun said softly: "You are waiting outside, I'll go in and take a look."

"No, I can bear it, let's go in together!"

The two girls are not squeamish girls. Although they are disgusting, they persisted, at most they can't wait to see the things on the ground. They are sure that the room of the three fools is similar to the pigsty.

Li Yun shook his head with a wry smile. He also felt sick, but he still had to do what he had to do.

Walking into the room, Li Yun lowered the brightness of the phone and took a picture of the room.

The walls here have not been burnt, but they are also extremely dirty. Gong Lianyi glanced at it accidentally and almost couldn't help turning around and ran out. Even she couldn't stand it, showing the degree of dirtiness.

"Three fools?"

Li Yun yelled softly, and the three fools sat on a rusty chair, and didn't know what to say.

There is a medical bed next to it. Looking at the messy layout of the room, Li Yun speculated that it was the original consultation room of the hospital.

Walking in front of the three idiots, Li Yun wanted to find something on the table to prove the origin of the three idiots, but the three idiots suddenly became excited, and pointed his finger at the other chair placed in front of him. Hehehe said something in his mouth.

"what?"

Gong Qingyu looked at Li Yun and only looked at the three fools from the corner of his eye. After seeing him like this, he said: "Is the three fools used to be a doctor here, and want Li Yun to sit in front of him to see you? "

"maybe."

Li Yun ignored the three idiots and let him scream with He He He. Anyway, he is neurotic, so it doesn't matter if he makes a noise.

Taking out a dust-free diary on the table, Li Yun opened it and took a look.

Compared with the facilities in the room, the laptop looks very new and clean. Usually three fools estimate that it is well protected.

What was written in the note was the medical record of a doctor named Su Houde, but the font was very scribbled, and the three of Li Yun struggled to read it.

"On October 12, 1999, I was seeing a patient Zhang Hua who had an attack. The patient had only a mild mental disorder, but after taking the medicine for a week, his condition became serious."

"October 18th, record: Zhang Hua completely lost the ability to communicate, his eyes were dull, and his expression was in a trance. He did not respond to all external stimuli, just like a vegetable."

"On November 23, Dean Yu asked me to issue a diagnosis certificate and let me sign it, but I didn't agree."

"..."

"In 2019, on October 12, more and more people fell into sluggishness, and the situation gradually got out of control."

"October 12, 2020, I have a hunch that something will happen."

Chapter 448: Doubt, decrypt

"There is a problem with this record!" Gong Qingyu said angrily while holding her little nose.

"Um."

Li Yun nodded and read it back and forth several times, remembering all the contents inside.

This condition record book reveals several information.

First, Su Houde had already noticed something wrong before the fire started.

Second, the head of this mental hospital, Yu Li Sheng, was probably the Lord Yu that Mo Liang said. If it was, the fire would inevitably have nothing to do with him!

Third, a fire broke out on October 12.

Finally, it is basically confirmed that the name of the three fools is Su Houde!

Because this notebook is not the original record, but the three fools wrote it down a few years ago, the date is very messy, and it is even written to 2020.

But on the 10th and 12th, he repeatedly recorded it, which shows that it is very important.

Gong Lianyi whispered: "Unfortunately, it has been too long, and now I know these things are of no avail, three silly... Su Houde, shall we arrange for him to enter the mental hospital later?"

Li Yun nodded, but he was surprised, why didn't the system prompt to complete the selection event? Is there anything else that needs to be understood?

After looking around the room, Li Yun didn't find anything, because he was so disgusting that he didn't dare to carefully search through the messy rubbish.

"Strange, what is missing?"

Li Yun put his eyes on the system prompt again, and when he saw the final reward, he suddenly realized, "It turned out to be like this!"

Resolutely took out a small recovery pill, Li Yun forcibly gave it to the three fools, who couldn't resist, and everything in his mouth was swallowed instinctively.

After eating, the sound of Hehe Ho from the mouth of the three fools stopped.

Li Yun frowned, isn't the small recovery pill not enough?

The small recovery pills are already very strong and can treat most diseases, including cancer and AIDS.

A medium-sized recovery pill, capable of surviving flesh and bones, and regenerating broken limbs, is too strong!

As for the real recovery pill, Li Yun didn't have it on his body, showing how precious it was.

Fortunately, a small recovery pill is enough.

"Uh, hem, hem, hem!"

The eyes of the three fools gradually returned to clarity. After a few coughs, he turned his head to look at Li Yun sluggishly, but couldn't say something in his mouth.

"Are you Su Houde?"

The three fools nodded subconsciously.

"Okay, we are the police|Inspector, don't worry, don't be afraid, let's go out first, wait a while!"

Li Yun took the lead to go out, the three fools, no, Su Houde followed tremblingly, the expression on his face was no longer stupid, it became extremely complicated.

As for the two girls, Gong Qingyu, they ran outside the door to breathe, and the girls really couldn't stand the dirty environment for too long!

"Ding, the host made a choice, and the rewards (justice value +1000, free attribute points +1000, purple gift\*1, extra reward recovery pill\*1) have been issued!"

Li Yun was taken aback, the system really asked him to save the three fools, but fortunately he realized it.

All the free attribute points are spiritually, and the gift bag is not kept, just open it.

"Ding, congratulations to the host for obtaining purple-grade equipment from the purple gift bag: ghost-binding rope!"

"I... Cao?"

Li Yun shouted out in surprise, Gong Qingyu quickly asked: "What's wrong? Did you find anything?"

"Haha, yes! Qingyu, I'll give you a good thing!"

"good stuff?"

Li Yun smiled and took the ghost-binding rope out and handed it to Gong Qingyu.

Chapter 449: Send jade bound ghost rope

Both women looked very strange, Li Yun just reached out his hand to his back, but was able to draw out a long black rope?

"What is this rope?"

Although puzzled, Gong Qingyu still trusted Li Yun and held this weird rope in his hand.

The rope is not short, about two and a half meters long, and it's black all over, and it feels a little cold to the touch. Gong Qingyu can't recognize the texture of the rope, but can feel its extraordinary!

"Is this... to deal with a ghost?!"

Gong Qingyu looked at him in surprise, and her voice became a little louder. Fortunately, she woke up quickly and quickly lowered her voice.

"good."

Li Yun nodded with a smile, and told her about the purpose of the ghost rope.

"Ghost Rope

Special effects: flogging evil spirits and evil spirits, warding off evil spirits and removing demons.

Explanation: This rope is made of 300-year ling vine. It is hard and flexible. It can withstand the force of the innate late stage torn, whipping ghosts, and can make the other party fearful and dare not to offend again! "

Li Yun has recently made up some knowledge of Taoism, knowing that Taoism has a magic weapon called Dharma rope, which is actually a whip. The famous immortal rope tied in myths and legends is this type of magic weapon.

The ghost-binding rope is indeed a whip, with a wooden handle on one end, and a snake-head-like pattern carved on the wooden handle, which can be used to grasp and whipping evil spirits.

Underground, grass, big trees, canteen, playground...

Li Yun glanced around calmly. There were too many insects, and it was impossible to see where so many insects came from.

Cockroaches, ants, venomous snakes, cicadas, spiders, centipedes, scorpions, geckos, all kinds of insects that you can't think of, all come out in swarms, and some are natural enemies, but the insects are all ignored and frantically moved around. spread.

"This this this!"

As soon as Su Houde was sober, he encountered such a weird picture, and he was so frightened that he almost turned into a fool again, and his entire face became... well, his face was black, all muddy.

"Li Yun, what shall we do?!" Gong Lianyi's heart was beating, this kind of weird scene completely disrupted her thoughts.

The only thing she and Qingyu can rely on now is Li Yun!

"Let's go upstairs!"

A cold light flashed in Li Yun's eyes, and he said quickly and calmly: "Ordinary insects are useless to us. The enemy just wants to force us to show up. The next step is the real killer move!"

I have to say that this trick is very useful to force the appearance, and no one can stay hidden among the swarms of insects all over the mountains.

"A killer move? What is it?"

Gong Qingyu took her sword in one hand, wrapped the ghost-binding rope around her waist, and quickly followed Li Yun upstairs.

Su Houde was terrified, and he didn't have time to think so much, so naturally he followed.

"I don't know yet, but," Li Yun smiled when he came to the top of the building. "The enemy used this crude method to persecute us. It can be seen that his strength is not very good. Later, be careful, we can defeat him. !"

"Um."

Before the war started, the morale was boosted. Gong Lianyi knew what Li Yun meant, but still relaxed in his heart, believing Li Yun's words very much.

The entire mental hospital is full of insects, and there is no need to hide them. Li Yun directly took out three lighting lamps that he wore on his head, gave them to the two women, and put one on himself.

The three headlights shone down, and Li Yun could see the underground scene clearly.

I saw countless insects occupying the ground. Many flying insects spread their wings and flew around in the sky. The calls of countless insects were connected together, making a huge roar, which can upset even the toughest people. .

"Am I dreaming?" Su Houde looked dazed, and sat on the ground, "If it is a dream, this is probably the most terrifying and bizarre dream I have ever had!"

"The locust natural disaster is probably like this."

Li Yun smiled faintly, and didn't care too much about the insects this time. This is the fifth floor, and there are not many that can fly up. Besides, the two girls are both innate and not afraid of these insects at all.

Li Yun estimated that these are insects used by people who practice Gu. They have not yet formed Gu insects. They are just ordinary insects, and they can't make it into any climate.

Although the purpose of forcing them to come out is achieved.

Gong Lianyi looked at the densely packed insects underneath, with an expression of fear on her face. Fortunately, these insects did not fly high. Fortunately, Uncle Zuo and the others did not enter the mental hospital. They were still watching from a distance, and they should have seen this group of insects. .

But the next moment, the chaotic bugs began to change.

I saw countless insects began to gather towards the playground, thousands, no, tens of millions of insects gathered together, trembling, crying, biting, fighting, mating, reproduction, and-death.

"wrong!"
