

## Godly Choice 541

Chapter 541: Door closed

People light candles, ghosts blow lamps, and look for star peaks.

It is said that if the candle is extinguished during the digging of the robbery hole, it means that there is a big dumpling in the ancient tomb, that is, the owner of the tomb does not want to be disturbed. If you force it in, the corpse will inevitably change!

Li Yun didn't know whether this statement was accurate, but the candle flame did slowly go out-as the crowd dug the thief hole, it went out little by little.

After Jin Liuli heard about this rumor, she was obviously taken aback. He looked at the extinguished candle many times and asked why it went out.

"Huh, I saw that the candlelight is over 80%!"

Wu Maoping didn't believe in evil, so he picked up the lighter and lit it again.

With a bang, the candlelight ignited instantly, and a large group of flames appeared. Wu Maoping was so shocked that he sat on the ground and watched the candlelight slowly go out again. He didn't recover for a long time!

"Young man, lighting a candle is not like that."

San Ye's face was also ugly, and he bowed to the tomb again, seeming to be saying that he was here to return his belongings, not to robber the tomb.

After explaining clearly, San Ye respectfully lit the candle.

Strangely, this time the candle fire did not emit a large group of flames, nor did it go out.

"Yes, fortunately, it's not angry." The toothpick tremblingly said, and wiped the cold sweat from his forehead with his hands full of mud.

As the robbery cave expanded, he only felt a chilly breath, blowing out from the tomb chamber, making him cold, his limbs trembling, and he wanted to kneel on the ground and beg the owner of the tomb for forgiveness.

Under the excavation of two innate masters and two acquired martial artists, the thief caved deep into the ground. Not long after, Li Yun saw a semi-circular doorway arched by a semi-circular blue brick with engraved on the door. With the mighty leopard, the gloomy breath was diminished a lot.

But when Toothpick saw this Shimen, his face changed drastically. After a few steps backwards, he shouted in panic, "The door is closed!"

Is the door closed?

The two bodyguards held shovel in their hands and subconsciously looked at the closed stone gate.

Wu Maoping looked ugly, "You mean, when you came out last time, you didn't close the door?"

After Jin Liuli came, she was frightened by the gloomy environment in the cave. As soon as she came in, she followed Li Yun closely, and did not dare to leave for half a step.

"Yes, it is!"

Toothpick now ignored Wu Maoping's argument. He stammered and explained: "Last time I was chased by a weird thing with Hei Zhuang and hurriedly escaped. There was no time to close the door!"

Everyone was taken aback, Wu Maoping reacted, and sternly asked, "Didn't you say that there is only black water in the tomb? What is the weird thing?!"

Everyone looked at Wu Maoping, their eyes were a little wrong.

This guy still hides it, what is the purpose behind it?

"Go out first."

As the team leader, Li Yun naturally couldn't let them fight infighting, and made a decisive decision: "Take a half-hour rest, eat something, and then go to the tomb!"

"Then this tomb door?" Rong Liang's expression was solemn, and he could vaguely feel something wrong in the door.

"Open it first to let the air circulate!"

Li Yun said in a deep voice, and calmly stepped forward, with his hands slightly hard, slowly pushing open the door with the carved leopard.

"Boom!"

With the dull sound of the opening of the stone door, the scene in the tomb of General Xu slowly appeared in front of everyone.

Everyone opened their eyes wide and stared at the dark corridor (passage) of the ancient tomb without blinking. The next moment, an abnormality appeared.

"what!!"

Jin Liuli screamed, her face pale instantly.

Chapter 542: Spontaneous candlelight

I saw candlelights on both sides of the corridor ignited out of thin air. In less than thirty seconds, the originally dark and unusually dark corridor of the cemetery was actually illuminated by these candlelights that extended far away!

"This, this, this!" Wu Maoping was so scared that his lips trembled, and he backed away several steps, before turning around and fleeing.

These candles embedded on the wall of the passage actually burned by themselves? !

Such a weird scene makes everyone who meets for the first time cold all over.

"calm."

Li Yun's expression was flat, holding a white Hilvin pistol in his hand, and said: "No matter what the enemy is, keeping calm is the number one priority. Besides, these candles ignite spontaneously. There is actually nothing mysterious. There is scientific explanation!"

Jin Liuli's half of the soft girl's body is close to Li Yun, holding her golden silk soft blade whip in her hand, her small face is close to him, and a big eye is exposed, looking at the candles tremblingly.

"Wh, what scientific explanation?"

Li Yun smiled and said, "Xiao Liuli, have you studied physics knowledge in junior high school?"

"Huh?" Jin Liuli hadn't reacted yet.

"In our common sense, what are the conditions for combustion? The so-called three elements of combustion."

"...Combustibles, oxygen, reached the point of ignition?"

"Yes." Li Yun pointed to the door, "After we opened the door, the candle burned, which means that we triggered the conditions for burning. So what is it?"

"oxygen!"

Under Li Yun's insidious guidance, Jin Liuli finally came to the conclusion. She looked at these candles with wide and round eyes, her small cherry lips opened unconsciously, "You mean, the wicks of these candles, yes Will spontaneously ignite when exposed to oxygen?"

"good!"

Li Yun didn't talk nonsense, and took off a candle light with a leap, and after covering it with his hand, let go again.

With a bang, the candle flame spontaneously ignited again.

"Wow, that's amazing!!"

Jin Liuli took Li Yun's hand and looked at the candle over and over in surprise. He wanted to try it too, but felt that the candle was too dirty, so she didn't do it herself.

"Mr. Li is really knowledgeable!"

Toothpick said with emotion that he and San Ye had no accident before seeing the candle flame spontaneously ignite, because they had seen such a thing several times.

This kind of spontaneously combustible wick is very troublesome to make. In ancient times, only the royal family and nobles would use it, and it was secretive, and ordinary people didn't even know that it had anything.

The reason for keeping secrets is to use this method to scare away ordinary tomb robbers. After all, they are guilty of conscience. After entering the ancient tomb, they see a candle light next to the coffin. They will definitely be scared to death.

"Huh, but that's it!" Wu Maoping walked out with a sullen face.

Jin Liuli glanced at him, and someone said to protect her, but she was scared to hide in the end, she was not reliable at all!

Still this big bad guy is reliable.

Jin Liuli, who was holding Li Yun's arm, thought shyly.

"Go out and rest, leave these lights alone."

When Li Yun went out, everyone naturally didn't dare to stay. The corridor of General Xu's tomb was so long that he couldn't see the end at a glance. It was quite terrifying to stay inside.

Outside, Yang Jie had already boiled the water. To Li Yun's surprise, Guo Xun was also back!

"Are you okay?" Li Yun patted him on the shoulder and asked with a smile.

Guo Xun shook his head and shrugged helplessly: "I've been hiding in hiding and haven't met him at all, so how can something be wrong?"

"Hahaha, aren't we busy now?"

"No, at least I saw their camp!"

"Oh?"

Chapter 543: There is black water in the coffin, and the black water changes

When everyone looked at Guo Xun, they were all curious about what the group did.

Unfortunately, Guo Xun didn't know. He only saw from a distance that the group of people camped by the river. Coincidentally, they were on the other side of the mountain, less than two kilometers away from here, and separated by a mountain.

Li Yun pondered, and said, "Anyway, we will eat something to rest and enter the ancient tomb. Even if their purpose is the same as ours, we are faster than them. We will leave after the investigation tonight. There is no need to run into them. !"

The crowd had no opinion, so they sat down to eat and rest.

"Hey, what on earth did you hide? Tell me soon!" Wu Maoping remembered what the toothpick had said before.

Faced with the cross-examination of the eyes, the toothpick was helpless and had to say: "The last time I went in with four people, it was very smooth at first, but my cousin said that this is the last time he came to do this, so I wanted to get more. , He was the first to enter the apse-the place where the burial objects were placed, but after a while, he screamed and staggered out, covered with blood."

Everyone felt groggy, Guo Xun asked, "Could it be the organ in the cemetery?"

Toothpick shook his head, with a heavy tone: "Most of the institutions in the cemetery are crossbow arrows, falling rocks, quicksands, etc. My uncle sees many of these things, and it is not difficult for him. Besides, his whole body is covered with festering wounds, like... I guess it was corroded by the black water!"

"What exactly is Black Water?"

"Black Water...in the coffin." The toothpick showed a frightened expression, unwilling to think about it.

"I can't even speak, what is the weird thing you are talking about?" Wu Maoping asked again.

The toothpick held his head and shook it vigorously, his expression extremely painful.

"Zhuzi!"

San Ye knocked him on the head with a dry smoking gun, and the toothpick calmed down.

"It seems that the situation you encountered Zhuzi is similar to what I had more than 20 years ago." The third master was silent for a while, and sighed: "There is black water in the coffin, the black water changes, the candle goes out, and then the monster appears. We can only Fleeing in embarrassment in the dark."

After he finished speaking, he carefully glanced at everyone's expressions, which was very bad.

Especially Wu Maoping, he didn't want to take risks. Now that he heard that it seemed to be really dangerous, he wanted to leave more and more.

"Li Yun, don't you forget it?" Wu Maoping proposed.

Everyone also looked at Li Yun. Of course Sanye and Toothpick didn't want to leave like that. A Xing didn't want Miss to take risks. Rong Liang was a comrade-in-arms of Guo Xun, but he had justice in mind, but now he is a bodyguard, and everything must be a lady. Your safety is the top priority!

Li Yun smiled slightly when he was about to speak.

"Ding, trigger the option event, please choose from the host:

Option one: leave, reward skill: walking is the best plan.

Option 2: Enter the ancient tomb, and investigate the corpse inside, reward all attributes +2000, golden gift bag\*1, extra bonus skill: Doctor-level ancient text knowledge.

Option 3: Find Alice's team, investigate their origins, reward all attributes +1000, experience value +500,000, purple gift bag\*1, extra bonus skill: Eight English. "

Golden gift bag!

Li Yun's heart suddenly became hot, this thing is a good thing properly!

Of course, the danger inside is also extraordinary, you need to be careful!

"What's the matter?" Jin Liuli looked at him.

"Nothing, I want to hear your opinions. Go or stay?"

Li Yun watched them calmly, and he would not let them enter the tomb if they wanted to leave.

Chapter 544: Enter the ancient tomb

"I....."

Jin Liuli tilted his head to look at him, suddenly laughed again, and shook Li Yun's arm: "Of course I am following you, Brother Li Yun~, hehe!"

She stayed, Rong Liang and Wu Maoping naturally stayed too, and finally everyone reached a consensus.

Enter the tomb of General Xu!

"It's not too late, let's go!"

Li Yun stood up and moved his body, and asked them to check their backpacks. Wu Maoping still had some opinions. Yin and Yang said strangely: "Captain, let's all enter like this? What if the enemy comes or the entrance is accidentally blocked?"

"Bring in the shovel and digging tools. In addition, we also brought a small compressed oxygen cylinder, which is enough." Li Yun glanced at him, "If you don't want to go in, just stay outside as a vigilant force!"

Wu Maoping's expression stagnated, "Sister Liuli will go in, of course I will go in too!"

"Then don't talk too much nonsense."

Li Yun warned him and walked into the dug hole first.

Jin Liuli hurriedly followed, staying close to Li Yun, ignoring Wu Maoping.

At this time, she doesn't want to follow an unreliable man!

The crowd entered in file, Guo Xun and the two bodyguards behind, Yang Jie followed Li Yun, and the two worked together to protect everyone with their outstanding experience.

Of course, they are not the only ones who have experience. Toothpick and Sanye's understanding of the tomb far exceeds that of Guo Xun and the two.

"Color embryo."

Following Li Yun's side, Jin Liuli held her golden silk soft blade whip in her hand, and asked in a low voice, "What should we do if we encounter zombies?"

"I still said that, don't panic, zombies are not invincible!"

Li Yun's confident look calmed everyone.

Guo Xun couldn't help but nodded secretly. His boss was really extraordinary. He was a decent captain, even better than what he did.

After all, what Li Yun is facing is an unknown terrifying monster!

Everyone walked on the corridor of the cemetery, and the cemetery road paved with blue bricks showed a sloping downward trend. Everyone actually went underground.

Li Yun looked up at the ceiling, and under the illumination of his headlamp, he saw colorful paintings on the wall.

The city wall, Miyagi, the palace, the guard of honor, the maid and so on.

These should be all paintings that represent the life of the tomb owner, but it is a long time, and the colorful paintings have fallen off a lot.

Yang Jie took the photo with a camera, and said unfortunately: "We just came in without permission. In fact, we should bring a professional archaeological team!"

Li Yun understood what she meant.

If it were not for the purpose of tracing the Six Demon Gates, Yang Jie and Guo Xun would not agree to enter the tomb.

It's just weird.

Li Yun frowned slightly, pointed at the painting with a long sword in his hand, and said, "The owner of this tomb is really General Xu? Why are there palaces and buildings in the paintings of his tomb? A building of this level shouldn't be a general. It's the emperor's relatives and the relatives."

In ancient times, the hierarchy was strict. Houses, clothing, and decorations were strictly regulated. If they are more strict, they will immediately quarrel and ask. The emperor may be merciful when he kills corrupt people, but for rebellion, he would always kill mistakes rather than let go!

As he walked into the tomb, San Ye's face became paler, and he said: "I don't know why it is called the tomb of General Xu. I just found this tomb in a diary handed down by my predecessors."

Li Yun nodded and continued to walk forward. Candlelights were lit on both sides of the corridor, demonstrating the amazing financial resources of the Lord before his life.

Perhaps he was crowned king during his lifetime, so he has a cemetery of extraordinary specifications.

Chapter 545: Ghastly, horrible

After passing a passage of about a hundred meters long, the front suddenly opened up, and Li Yun knew that this was the front hall of the tomb.

The tombs of Huang Xuanguo for thousands of years are derived from Fuxi's five-element and eight-trigram feng shui layout.

Feng Shui need not go into detail, the structure in the tomb is actually mostly similar.

The tomb is in the structure of the word 'earth' and is divided into front, middle and back halls. Li Yun is now at the top of the word 'earth', which is the front hall.

The front hall is also called the Hall of the Underworld. This is the furnishings of the main room before the tomb owner's life. Li Yun took a flashlight and found all kinds of decaying furniture. These furniture are also called underworld objects.

Strangely, there is no candlelight in the front hall.

"Huh~~!"

After arriving in the wide area, Jin Liuli slowly let out a sigh, clinging to Li Yun, and looking around uneasy.

The front hall is very large, five meters high, with a dome, about thirty meters long, and a variety of furniture, but they are all rotten.

There are colorful murals on the four walls, which are the scenes of maids serving their masters. These maids are full of body, different expressions, and lifelike, which can be called precious works of art!

Yang Jie said, "Let's not move these things, and go carefully!"

Li Yun nodded, "Our purpose here is not to steal the tomb. If it goes well, we will leave with a glance."

Mindful of the systematic investigation mission, Li Yun walked around the front hall and found no abnormalities.

Jin Liuli didn't dare to run around, there was a vague echo in the tomb, and it was pitch black. If it weren't for Li Yun, she would have left when the cave was robbed.

Now she is sticking to Li Yun the whole time, watching around with him, just as she satisfies her curiosity, she doesn't dare to walk around.

"Let's go, let's enter the nave!"

Li Yun walked toward the passage ahead, followed by a follower all the time.

The nave, also known as the sleeping hall, is the place where the coffin (the large coffin outside the coffin, also referred to as the coffin) is placed.

The two halls were only five meters away, and Li Yun quickly walked through the passage and formally entered the nave.

As soon as the light shone, a dark red coffin suddenly appeared in front of him.

"Ah~~~!"

Jin Liuli let out a scream, she felt her whole body stand upright, her shoulders shrunk, her teeth trembled, her legs were soft, and she would be frightened and fall to the ground if she wasn't close to Li Yun.

In the dark and deep crypt, I suddenly saw a red coffin, and the eerie and terrifying aura rushing over my face was enough to make bold people tremble!

What is even more frightening is that in the nave where the coffin is stored, the surrounding walls are leaning against many human-shaped pottery figurines. When the light does not shine on them, these pottery figurines are almost like a person, and they look terrifying in the tomb.

"It's okay." Li Yun reached out and patted Jin Liuli's small head, but unexpectedly, she grabbed Li Yun's hand abruptly, pressed her cheek against it, and rubbed it hard.

Li Yun was strange, but seeing Jin Liuli's face improved, he thought to himself, is it because her mother often comforts her like this?

"thump!"

Jin Liuli only slowed down, but San Ye didn't hold on, his legs softened and knelt directly on the ground, shaking and saying: "Little, villain is here to apologize to the general!"

The toothpicks also knelt on the ground, and the two of them knocked their heads on the red coffin together, their bodies trembling, they knocked their heads several times, and then uttered an apology. After a long time, they dared to stand up.

Chapter 546: Extinguished candlelight

Li Yun stood not far from the coffin, staring at the red wooden coffin with cold eyes, listening to all directions, watching six directions, holding a pistol in his hand, ready to deal with the next situation.

But it seems that everything is normal.

The red coffin wood grain remained silent, and when no one spoke, the tomb was as silent as death.

"General, please forgive the villain!"

San Ye stood up tremblingly, and took out the thing he took away from the bag he was carrying, which was actually a pottery teapot, which he took away from the apse in a hurry. Now he took it back and returned it to the owner of the tomb.

But instead of going to the apse immediately, he took out a candle again and tried to light it with a trembling hand.

"despair."

"Tap."

San Ye lit the lighter several times in a row, but his trembling hand was unable to light the candle. Li Yun saw that he was already panicked, so he walked over and said, "I'll do it."

San Ye's lips trembled, and he couldn't say anything to thank him.

"Da." Li Yun pressed his thumb, and a bright yellow flame emerged. Then, he moved the flame to the wick and lit the candle.

The fire light illuminates the surroundings slightly, and the magic is that even though everyone has the light of flashlights, they still feel that this flame has dispelled a lot of dark atmosphere.

but.

"Huhuhu—"

Suddenly, everyone faintly heard the sound of the wind whistling, and then a creepy wind blew by, and the candle swayed a few times and then went out instantly.

"what!"

Jin Liuli was frightened again, pressed tightly against Li Yun's back, and hurriedly looked around, but found nothing.

Everyone's heartbeat speeded up, and they only felt dry and dry. Where did the wind come from this catacomb?

"People light candles, ghosts blow lamps, people light candles, ghosts blow lamps, ghosts blow lamps, people light candles..." The toothpick trembled all over, and his lips were white, muttering to himself.

The ghost blowing of the lamp means that the owner of the tomb does not want to be disturbed, and the snort of the visitor leaves immediately!

Guo Xun shook the gun tightly, glanced at Yang Jie, and quietly took out the visor in her hands, put it in her hand, and motioned for her to put it on.

"Again."

Li Yun looked calm and lit the candle again with a lighter.

One second, two seconds, three seconds.

San Ye fixedly looked at the candle, and his old face gradually showed a smile, but the next moment, his smile froze, and his stiff smile looked very permeating.

The candle slowly went out again.

As the fire disappeared, everyone felt that the surrounding air instantly became gloomy and cold, as if there was an invisible cold air spreading in the tomb, but when I felt it carefully, there was nothing.

Li Yun twitched, "I don't believe in evil anymore, can't I really light it?!"

He turned on the lighter again, but this time—

Boom! !

There was a dull thunder sound, as if the lighter in Li Yun's hand was like igniting the fuse of explosives. Everyone only felt that the ground was shaking, the lipstick wood coffin made a click, and the coffin lid moved, as if there was something. Something is going to come out of it!

"Damn!!!"

Wu Maoping gave a strange cry and turned around to escape. When he fled to the tunnel, he suddenly found that Li Yun and others had not followed him. In this case, wouldn't he have to walk through the long tunnel alone?

As a result, Wu Maoping had to come back obediently, and now he was in the depths of the tomb, and the mahogany coffin was placed in front of him. Acting alone can scare people to death!

"Calm down!" Li Yun yelled at the crowd and looked at the coffin alertly. He couldn't help but mutter in his heart, is it really impossible to make a fire here?

Chapter 547: search

But the strange thing is that after the rumbling, nothing happened.

Li Yun wrinkled, and calmly walked to the mahogany coffin placed in the middle of the nave. Jin Liuli didn't want to get close to the coffin, but she was afraid of being alone, so she had to bite the bullet to keep up.

"It seems that there is nothing unusual?"

Li Yun stood one meter away, squinting a lot of the coffin.

It is about twice the size of an ordinary coffin. It is about three meters long and one meter high. The lid of the coffin has been opened by one corner. Li Yun used a light to shine a light inside. The dark inside seems to be the black water mentioned by the toothpicks?

"Well, Li Yun." Jin Liuli looked around nervously, "Did you hear anything?"  
sound?

The people who were on guard were taken aback, all quieted down, listening carefully to the surrounding movement.

It seemed that there was a sound coming out, and I couldn't tell where it came from, only a faint noise.

It's like a monster sleeping deep underground, about to slowly open its blood-red eyes!

"Don't be afraid."

Li Yun remained calm, looked at the coffin in front of him, and asked, "Toothpicks, have you ever opened the coffin?"

"No, no." The toothpick swallowed, "The tombs are stored in the apse. Generally, only when nothing is found, they will take the risk to open the coffin."

"Oh?" Li Yun smiled slightly, "I haven't opened the coffin, but how do you know that there is black water in the coffin?"

The toothpick expression froze, "I, I saw the black water overflowing from the coffin, so..."

Li Yun was noncommittal, with a calm expression on his face, but a thought was left in his heart.

Unexpectedly, the system prompted him.

"Ding, trigger the option event, please choose from the host:

Option 1: Find out the true purpose of the toothpick and Sanye, reward experience value +500,000, all attributes +500, purple gift bag\*1, and an additional random piece of purple grade equipment.

Option 2: Kill two directly, reward +50 for justice.

Option 3: Ignore, no reward. "

The corner of Li Yun's mouth curled out, revealing a faint smile. The two people came here for another purpose!

"Mr. Li." San Ye asked from a distance, "Do you want to open the coffin?"

"No, let's finish looking at this tomb first!"

Li Yun walked towards the side hall next to him, and Jin Liuli naturally followed, but the others were on guard outside and did not follow.

The so-called side halls are the rooms on both sides of the nave. Like the apse, they store funeral objects.

Li Yun walked into the supporting hall and saw that it was a 50-square-meter room with three-color figurines and ordinary noble burial objects such as pottery, porcelain, and jade.

"Li, Li Yun, are you not afraid?"

There were only two people in the dark side hall full of funerary objects, but the magical thing was that Jin Liuli didn't feel scared. Li Yun alone was worth the high sense of security that many people outside gave her.

"Didn't I give you a rosary?" Li Yun smiled slightly, "This thing can protect your safety, don't worry, you don't have to be afraid of any zombies!"

"real?"

"You don't believe me?"

"I believe, of course I believe!" Jin Liuli held Li Yun's clothes in one hand, and hid her mouth in the other. Her crescent-like beautiful eyes made her look charming.

"Look, what are you looking at, big spooky ghost!" Jin Liuli was a little shy, but still refused to let go of Li Yun's clothes, and shyly avoided his gaze.

Li Yun smiled, "It's nothing, let's go, let's go out."

Chapter 549: Black water overflow

If it were normal, Li Yun would probably tease this cute little girl, but now is really not the time, so I have to give it up.

The two returned to the nave, everything was normal, and then Li Yun went to the side hall on the right to check, there was still no abnormality.

Back to the nave, Li Yun walked towards the apse.

"and many more!"

The third master stopped him and said anxiously: "Mr. Li, it is said that there is black water in the apse, and the cousin of the toothpick was killed there. Should we take a look at the coffin first?"

Li Yun asked in surprise: "Aren't you here to return the things? Why don't you follow along and return the funeral goods back by the way?"

He questioned the two people twice, and finally made Jin Liuli react, and asked in confusion, "Didn't you say that three people died here with the toothpick? Why didn't we see the corpse?"

"This..." The toothpick wiped the cold sweat from his forehead. The next moment, he was embarrassed and furious, Wu Maoping grabbed the collar, "I've seen you two have a bad heart, grass! What are you doing here? What? The so-called zombies and Heishui lied to us, right?!"

He was terribly scared along the way, and his mind was blank after entering the tomb, and he didn't even notice the flaws in the toothpick words!

Both Rong Liang and A Xing looked at the toothpicks indifferently, and Guo Xun also looked at them with serious eyes.

"Say it."

"Say, say what?"

"Tell your true purpose." Li Yun's tone was flat, "How much of what you said is true?"

If the zombies and Heishui are both fakes, then the two can sneak away with the funerary objects, enough to allow them to live a prosperous life for the rest of their lives, without worrying about the fear of tomb robbery.

Unless, the purpose of the two is not to be funeral goods, but something that they can only obtain if they must attract outsiders to the tomb of General Xu!

San Ye and Toothpick fell silent, Wu Maoping slapped his hand, and the toothpick's face quickly swelled up.

"You are paralyzed, if you can't tell what is good or bad today, I will let you stay here with the owner of the tomb!"

Hearing Wu Maoping's threatening words, the two of them instantly opened their pupils, showing frightened expressions.

Li Yun could see that their panic along the way was not fake, and the toothpicks were indeed poisoned or cursed.

"Grumbling."

A strange sound faintly sounded in the tomb.

"what sound?"

Li Yun suspected that he had heard it wrong, but San Ye and Toothpick backed back in horror, looking at the mahogany coffin that was placed in the middle.

"Gooooo!"

Everyone heard clearly now, it was like a sound of bubbles pouring out of water, like clear spring water, the sound was very crisp.

But here, there is no spring!

"The black and black water changed, the candlelight went out, the monster, the monster, the monster came out!" The toothpick yelled, unable to hold on any longer, and ran away frantically.

But Wu Maoping grabbed his collar, stretched out his hand, and slammed his toothpick to the ground.

"Humph." Wu Maoping snorted disdainfully, "A monster has come out, and he will bring you to the palace!"

The toothpick was smashed, but he still struggled to escape. He kept shouting: "Go, go, it's too late!"

"It's too late!"

Li Yun looked at the coffin with a stern look, only to see a stream of black liquid pouring out of it, and the top of the coffin clicked.

The strange thing is that the black water did not penetrate into the ground, but slowly flowed like magma, spreading on the ground.

Chapter 550: A bullet, corpse

An enlightenment flashed in Li Yun's heart, and he quickly said: "It seems that this black water is very corrosive. Use True Qi to resist it. Be careful not to touch it!"

There are a total of five innates present, and Heishui will not be overwhelmed by them for a while, and it is not impossible to even rush out.

But if you rush out, Toothpick and San Ye will probably have to explain here, they are so corroded by the black water that there is no ashes left!

"Li Yun, can you solve this black water completely?" Guo Xun asked hurriedly.

If the black water continues to flow, even if a hundred congenitals come, they will die, so it is still to cut off the emergence of black water!

"Maybe."

Li Yun smiled faintly, raised his pistol, aimed at the coffin that was still emitting black water, and whispered: "Offended, General Xu!"

After all, pull the trigger decisively.

boom--!

A bullet carrying the power of destruction hit the lipstick wooden coffin with unparalleled precision, pierced the coffin, penetrated into it, and collided fiercely with the black water.

Boom!

A violent wave of air exploded swiftly, and Jin Liuli was caught off guard, screaming and hugging Li Yun tightly.

The third master behind her was miserable. He was directly blown by the gust of wind. If Guo Xun hadn't caught him directly, the third master would take a tragic bath in the black water behind her.

In an instant, the black water in the nave was swept away, and all the pottery figurines and funerary objects were destroyed. The air wave hit the two side halls and the apse on the left and right, and all the funerary objects inside were involved.

It is conservatively estimated that all antiques worth one billion are scrapped!

"This this this!"

Toothpick was so scared that he sat on the ground, looking at Li Yun in amazement, and then at his white pistol, the expression on his face was extremely complicated.

Rong Liang thoughtfully: "Squad Captain, ah no, Captain, your pistol, isn't it an ordinary gun?"

"Of course." Li Yun smiled, "Without a few catties, how dare I take you to explore this weird cemetery?"

Hearing these words, everyone in the team suddenly became excited, only Wu Maoping's expression was extremely unhappy, but he did not dare to provoke Li Yun any more.

This gun is too scary!

"So, my consecrated rosary can really resist the Li ghost?" Jin Liuli thought about it and asked quickly, her little hand tightly covering her pocket, inside was the consecrated rosary that Li Yun gave her.

Li Yun couldn't laugh or cry, and said helplessly: "I've said it three times, if I don't believe it, I can't help it."

"I believe it, I believe it, I really believe it this time~"

Jin Liuli was so happy that she took Li Yun's arm and kept acting like a coquettish, trying to pass the test.

Yang Jie gave Guo Xun a look full of love, and the breastplate he gave was also given by Li Yun, but Guo Xun gave it to her immediately.

Li Yun shot another black water behind him. He didn't know what it was. It seemed to be a whole. One shot could kill all connected black water.

"The captain is amazing!!"

"It seems that the zombie curse is completely useless in front of you, the villain!"

"The boss is really brave!"

"It's much more comfortable now."

Everyone praised Li Yun, and even Sister Yang smiled and said that with Li Yun, they were playing soy sauce this time.

San Ye and Toothpick looked at each other, and the two exchanged glances, and both showed expressions of relief, as if they had made some determination.

At this time.

"Wow!"

There was another noise in the coffin, like the sound of someone coming out of the swimming pool. When everyone contacted Blackwater, zombies, coffin and other key words, they immediately reacted.

"No, you cheated the corpse!"

"Zongzi is going to get up!"

"Zombie, zombie?!"
