Chapter 551: I cut my coffin

Jin Liuli was so scared that she screamed again, Li Yun helplessly patted her head, "Didn't I tell you? Be calm! Besides, I am here!"

Jin Liuli froze for a moment, then suddenly lowered her head shyly, hummed in an insignificantly delicate voice, and actively let go of Li Yun.

The battle is coming soon, and she can no longer hold Li Yun's hind legs!

With the previous series of things, everyone was prepared for the zombies. No one screamed anymore. They clenched their weapons and stared at the coffin that was placed in the middle of the nave without blinking.

What's amazing is that Li Yun just shot and exploded the violent wind brought by the black water, but it did not affect the coffin in the slightest.

It seems to be embedded in the ground, unaffected by the outside world!

"Wow!"

There was another sound, and finally, the lid of the coffin was pushed open by something and fell to the ground with a harsh thumping sound.

Toothpick swallowed. He has been with his father since he was sixteen and went to the tomb with his father, but the number of times he actually encountered zombies... is zero.

Yes, he never encountered a zombie!

After the toothpick became an adult, he had already sneered at the so-called zombies. After twenty years, it was smooth and smooth. He even dared to reach out for the funerary in the coffin-if the tomb was picked up first, he would get nothing. .

But he often walked by the river, so how could he not wet his shoes? Five days ago, he almost died!

"come yet?"

Jin Liuli held her golden whip tightly and muttered to herself, staring at the...monster stiffly jumping out of the black water!

A monster wearing the armor of a general of the Ming Dynasty, one meter eighth tall, holding a shimmering geese sword, with yellow skin and empty eye sockets, looks very terrifying!

It's really a zombie!

At the first sight of it, everyone immediately recognized its identity. It was the owner of this tomb, General Xu Tiande!

Unexpectedly, it will turn into a zombie activity after five hundred years.

At the moment when the zombie general appeared, the air in the tomb became extremely cold. This was a real cold, not a psychological effect.

It's just strange that when everyone saw it, they were relieved.

The unknown is scary, but seeing a real monster makes people less scared.

Just like people watching horror movies, the most feared thing is that the sound effects will suddenly frighten you. At that time, people are the most afraid, but they feel relieved when they see zombies.

From Jin Liuli's point of view, if the general's body was soaked in black water, she would be too scared to approach, because she would be worried that it would suddenly violent, but the general's body turned into a zombie and walked out, thinking: hey, It seems that it's just so, I seem to be able to fight it.

Although it may be an illusion!

"Roar!!"

General Xu shouted at Li Yun, his voice was very loud, but unexpectedly ordinary, still within everyone's expectations.

Li Yun changed his pistol, held a long sword, and smiled at Jin Liuli, "I will test the strength of this zombie first, Xiao Liuli, don't be impulsive!"

Jin Liuli pursed her mouth. She didn't act, so Li Yun called her to a halt.

But the next move of the zombie general was surprising.

It raised the Yan Ling knife in his hand high, and Li Yun could see that its fingers were also dry, but the strength was amazing.

With only a bang, General Xu actually smashed its coffin! !

"???"

Everyone was dumbfounded, and everyone was completely dumbfounded.

Chapter 552: General Xu who escaped

A zombie, or a zombie who was a brave and mighty general before his death, after jumping out of the coffin, the first thing he did was not to jump over and bite someone's neck, but to chop off his coffin. Do you dare to believe it? !

This weird scene made everyone look dumbfounded.

Li Yun twitched the corners of his mouth. Looking at the zombie standing among the sawdust, he even thought that General Xu had been sleeping for a long time, and his brain might not be good.

Zombies are all mindless.

"What's the situation?" Wu Maoping looked dumbfounded, "This zombie demolished his home?"

If it weren't for its extremely dry face, unlike a living person, everyone even thought it was some performance artists, such as zombie enthusiasts, hiding in the coffin and making pranks and scary people.

But think about it, which madman would hide in the coffin of the old forest deep in the mountains and play pranks?

unless.....

Li Yun thought of a possibility, six magic doors!

Perhaps, only if you are exhausted from the dean's abnormalities, will you hide in the ground and practice for decades without moving!

But obviously, General Xu Zombie has no IQ, and it should not be a person of the Six Demon Gates.

A magical scene happened again, slashing the General Xu zombies of his own home, and holding the Yan Ling knife crazily slashing the black water on the ground, and using his hands with sharp nails, he madly grabbed the black water.

Crazy posture, as if Heishui was the enemy who killed it.

"??"

Everyone continued to be confused, staring blankly as the zombie cut the black water on the ground into fly ash and disappeared, and then saw it completely blow the coffin with a single blow.

Finally, the zombies of General Xu jumped into the ground of the coffin and disappeared.

"???"

Li Yun was stunned, "There is still a passage under the coffin?! What did it do? Why did it attack the black water? Isn't the black water coming out of it? What's the matter?"

For a time, countless questions flooded everyone's minds.

Jin Liuli forgot to be afraid, because seeing the zombie's attack just now, even if she couldn't resist, she could still fight.

"Bad boy, shall we chase it?" Jin Liuli became curious, and asked Li Yun's hand coquettishly.

"Ding, because the corpse is turned into a zombie, the host is too late to investigate. Reward all attributes +1000, purple gift bag*1, extra bonus skill: master-level ancient writing knowledge."

Li Yun scolded a mother in his heart. He had known that he would investigate the corpse sooner, and perhaps complete the selection event of the system. As a result, the reward is now half cut, the rare golden gift bag is gone!

"Ding, trigger the option event, please choose from the host:

Option 1: Continue tracking, reward experience value +500,000, golden gift bag*1.

Option 2: Give up and leave the tomb quickly. Reward skill: Run away.

Option 3: Meet Princess Alice and track down the zombies together, reward experience value + 1 million, all attributes + 3000, golden gift bag*2, purple gift bag*5.

Choice 4: Kill Princess Alice and others, reward experience value + 2 million, all attributes + 3000, golden gift bag * 1, a small probability to cause Y country to anger. "

The corner of Li Yun's mouth twitched. It was a pity that there was no golden gift bag. The system once again launched a rewarding golden gift bag selection event.

Moreover, the super reward of two golden gift bags is enough to prove that this tomb is perilous and dangerous!

But, what's the situation with Alice?

at this time.

Chapter 553: Someone is inside the wall

"Boom!"

When Li Yun was thinking, he vaguely heard a series of dense bullets, like dull bullets across several walls.

"I heard someone shooting?" Rong Liang was not sure.

"I heard it too!"

"It came from behind the wall!"

"It's really a gunman, so to speak, it's the black and white team!"

Everyone quickly came to a judgment, Li Yun immediately remembered, and quickly said: "When I used a lighter to light a candle, the explosion sound was made by Alice's gang!"

Before Guo Xun saw Alice and others camping on the other side of the mountain, they did not think that they did not camp, but found the target, and went underground, and met Li Yun underground!

Jin Liuli was surprised, "Did they also encounter zombies? Oh no, is there a cemetery on the other side?!"

"It's estimated to be." Li Yun guessed: "They should have used bombs to open the walls of the tomb. There were gunshots, indicating that there was a battle. If it wasn't infighting, they had encountered zombies!"

After speaking, Li Yun asked Guo Xun's opinion with his eyes.

"Infighting is possible." Guo Xun nodded. "I observe that group of people. At least 20 people are members of foreign mercenary organizations. These people do everything for money, maybe seeing the cemetery. There are a lot of funeral goods, and it is not impossible to betray the employer!"

"No, it's impossible." San Ye shook his head, and said proficiently: "Don't look at the many funeral items here, it looks like they can sell for hundreds of millions, right?"

"Isn't it?" Jin Liuli looked at him and stopped calling him Grandpa San.

"Do not."

San Ye said with certainty: "Even if all the things here are shipped out and sold out, the value will not exceed 50 million!"

Everyone expressed their disbelief, and the toothpicks smiled awkwardly, and explained: "The things dug out from the cemetery are not visible. They need to be resold before they can be seen at legal auctions. So in fact, the money we make It's really not a lot. Those who buy antiques and have a way to make money are the most profitable businessmen and bosses!"

Li Yun understood.

Every time these antiques are dealt with, those who deal with it will make a fortune.

Just like the factory wholesale goods, the price is 1 yuan, but when it comes to the supermarket, it may be 5 or 10 yuan.

"But it's also possible that the mercenaries don't know this, and they think it's easy to sell." Yang Jie put forward his own opinion, but San Ye did not deny it. The layman always thinks that the antiques obtained from the tombs are very expensive. In fact, they are not. Not much, it also damages the yin virtue.

"Anyway, let's dig over and see!"

Li Yun made the decision. Although everyone was puzzled, they did not raise any objections. After all, there are too many mysteries now, and it is necessary to meet Alice to understand the situation.

Therefore, Li Yun monitored the hole where the General Xu zombie jumped to prevent it from coming out again. Guo Xun waited for the three innate in charge of digging the hole and digging in the direction where the gunman had just sounded.

Strangely, the gunfire only sounded a few times, but now it has stopped.

"Are they all killed by zombies? It shouldn't be so fast!" Guo Xun was a little puzzled. He digging faster, and the iron pick in his hand swung fast.

Suddenly, San Ye and Toothpick knelt down towards Li Yun, kowtowed their heads together, and said, "Mr. Li, it's us that is wrong, please punish you!"

"Uh?"

Li Yun was stunned for a moment, and then he realized that the two men had a ghost in their hearts, and the purpose of coming to the tomb of General Xu was not simple.

Chapter 554: Curse of Blackwater

The system also gave him a choice event, but Li Yun actually forgot it!

There were too many things in a series, and Sanye and Toothpick had no fighting power. They were insignificant little people, not to mention Li Yun, other people, including Wu Maoping, did not pay attention to these two people.

After taking a deep breath, Li Yun asked in a deep voice, "While you have time, tell me all the things you conceal!"

"Yes, yes, Mr. Li, we must know everything!"

Toothpick glanced at the gun in Li Yun's hand fearfully before opening his mouth to explain what happened.

It turned out that Toothpick also heard about this ancient tomb by accident, and asked his former colleagues to robber the tomb.

After entering, everything went as usual, and the candlelight that went out at the entrance of the cave was ignored by them. This thing was just a habitual point, and they actually didn't care at all.

Then, black water emerged from the coffin, causing them to almost disappear.

"Actually, I..." Toothpick hesitated, "I didn't escape at all, but was spattered by Black Water, but strangely, Black Water took the initiative to retreat, as if he had deliberately left me and Heizhuang."
"

Deliberately keep them alive?

Li Yun frowned and asked calmly: "What then? Have you guessed the reason?"

The toothpick nodded, "I have been awake for a while. I learned from the hospital doctor that when I was unconscious, I kept talking about the tomb of General Xu and said that there are treasures here and I must get them. And... ...When I was in a coma, there was a voice in my head that kept talking to me, saying..."

"say what?"

An expression of shame appeared on the toothpick's face, "Say let me bring someone here for burial, I, I... I am not a human being!"

Everyone looked at each other, Wu Maoping was very annoyed and punched him again.

Li Yun knew roughly that Heishui would deliberately leave some people escaped from the ancient tomb and let them spread the news of the ancient tomb, so that more people would come here to die.

But this is very unusual. The general tombs are as hidden as possible, or they can be repaired in the open and let special people guard the tombs.

I have never heard of a tomb owner who would like to be sacrificed, unless there is only one possibility.

Six magic doors.

Li Yun looked at San Ye, San Ye didn't dare to conceal, and he told the original story.

After he escaped that year, he was unconscious for more than half a year. During this period, many people learned from him about the tomb of General Xu and went to investigate, but most of them died here.

After the curse weakened a little, San Ye was very frightened. This General Xu's tomb was a cannibalistic place. He felt that he could not go on like this anymore, so he went crazy and generally looked up in ancient books, and finally found a way out of the way. After tossing for a long time, Finally got rid of the curse.

Since then, he has been tight-lipped about the tomb of General Xu.

Many people died back then, but unfortunately, there is still some information about the tomb of General Xu.

After listening, Li Yun smiled and said, "San Ye, what else are you hiding from us?"

San Ye's old face was extremely embarrassing, but he could only admit: "I'm getting old and I'm getting weaker and weaker recently. Because of the curse, I'm worried that the ghost will suffer torture after I die, so I want to come to this ancient tomb and take it. Coming out of the anti-corrosion beads in General Xu's mouth, I heard that this thing can keep the corpse in the same state as before, deceived the bullhead and horse noodles of the Yin Cao Jifu, so that I can reincarnate anytime.

After everyone heard this, they couldn't help but wonder to themselves, is there really a Yin Cao Netherworld in the world?

"Still wrong."

Chapter 555: Ding, lightning strikes camphor sword

Li Yun's eyes turned cold, "You said that the anti-corrosion beads can prevent the corpse from decay and shriveled and keep the same as before, but the body of General Xu we saw is clearly shriveled!"

"I didn't lie, Mr. Li, I really didn't lie!" San Ye quickly defended, "I opened the coffin of General Xu more than 20 years ago. At that time, he did keep the same as before. I was surprised by this, thinking. It took a long time before I remembered the anti-corrosion beads recorded in the book!"

Jin Liuli was surprised, "It was still good 20 years ago, but it has dried up after 20 years? Why?"

"I don't know why!" San Ye was helpless. Everything here is very strange to him, which is fundamentally different from ordinary ancient tombs!

Li Yun pondered for a moment, and then asked, "When you opened General Xu's coffin, was there any black water in it?"

"Yes, but very few. I thought it was stagnant water. Then I felt something was wrong when the black water poured out."

Li Yun nodded, he understood the whole story.

"Ding, the host makes a choice, and the reward (experience value + 500,000, all attributes + 500, purple gift bag*1, additional reward purple equipment: camphor sword) has been issued!"

"Lightning strikes camphor sword:

Special effect: The attack comes with the power of thunder.

Explanation: The camphor tree that survived the attack of the sky thunder, after re-growth, contains the power of thunder. Although it is not as good as the peach wood sword of thunder strike, it still has good lethal power against ghosts and evils! "

Li Yun was greedy, this weapon was used to deal with black water, I am afraid it can be cleaned with a few swords.

The only pity is that it is only of purple grade, and the Silver pistol in Li Yun's hand is the top-notch colorful grade equipment. The camphor sword is tasteless to him, and it is not very useful.

"Little Liuli." Li Yun smiled at Jin Liuli, revealing the smile of an uncle tempting the little girl with candy: "Do you want something good?"

"You big bad guy, don't call me a little... Liuli, eh?"

The expression on Jin Liuli's small face changed from shame to surprise, opening her small mouth, and subconsciously took the wooden sword Li Yun handed her, "This is...?"

"Thunderstrike camphor sword is also a magic weapon!" Li Yun pressed her little nose narrowly, "Give it to you, so that you won't be helpless when facing a weird monster."

Everyone looked at it enviously. Although they were puzzled as to where Li Yun took out the wooden sword, he heard that it was a magic weapon, and they could understand it again.

"Really, really give it to me?"

"certainly!"

Jin Liuli was holding the wooden sword, her cute little face was full of shameful blushes. After a long time of tweaking, she whispered, "Thank you...you, Li, Li Yun."

"Ding, the host made the choice to open the harem, Jin Liuli favorability degree +15."

Li Yun couldn't laugh or cry, what was his choice to open the harem?

However, Jin Liuli's favorability increased by 15, directly from 79 to 94.

A favorable impression of 90 or more means that Li Yun is kissing her now, and Jin Liuli will not be angry.

Thinking of this, Li Yun glanced at Jin Liuli's blushing face, the girl's blushing and small lips, if she kissed her, Jin Liuli might be even more shy, and maybe she would call him a silly face. Embryo Yunyun.

Of course, Jin Liuli's affection for him will not decrease, perhaps even higher.

"pass!"

Rong Liang in front of him yelled and interrupted Li Yun's Qi Nian. He hurriedly stepped forward and said, "Don't dig through it thoroughly, and confirm your intention with the other party!"

Chapter 556: The princess with blond hair and blue eyes

Behind him, Jin Liuli had a complicated expression, her little face was hot and hot, and she felt that the camphor sword in his hand was also very hot. This sword was like... a token of love, which made her ashamed.

When Li Yun gave her the rosary before, Jin Liuli didn't think there was anything, but now Li Yun gave her the camphor sword again, making her think about it, is this big ghost interesting to her?

But this big-eyed demon already has a girlfriend, and there is more than one. She played a game with Li Yun last night, and the teammates who formed the team seemed to have a close relationship with Li Yun!

Thinking of this, Jin Liuli was a little angry. She felt that Li Yun must have a passion for her, so she gave so many things, the purpose is to kiss her!

Mom said, when a man treats her very well, you must be careful of the other's actions and don't let the man kiss yourself, otherwise she must marry him!

But now, Jin Liuli seems to feel that if Li Yun kissed her when she was shy just now, she would probably not react in time, and could not escape the attack of this nasty embryo...

"Boom boom!"

When Jin Liuli was thinking about it, Li Yun confirmed each other's existence by knocking on the wall.

This step must be carried out, otherwise, suddenly, when someone sees the wall being hollowed out, it will be miserable if the opponent shoots indiscriminately with a submachine gun.

Fortunately, the other party estimated that he had heard the noise in the wall a long time ago, so he quickly replied three percussions.

"Okay, I'm advanced."

After speaking, Li Yun picked up the shovel and slapped it forward, and with a bang, he completely pierced the blue brick wall of the other tomb.

Huh huh!

More than a dozen lights in front of him were pointed at him, and there were more than 20 black hole submachine gun muzzles. The owners of the guns also had a grinning expression, as if Li Yun was already a turtle in their urn.

"Miss Alice." Li Yun calmly jumped out of the wall, fell into their encirclement, and smiled slightly: "It's nice to meet you special people at this moment and in this place!"

Whites and blacks, plus yellow men, these mercenaries were all confused by Li Yun's calm and calm attitude. They had never seen a person pointed at so many guns and could remain calm!

"Whee."

The noble princess with golden blue eyes, who was protected by everyone, smiled lightly, waved her hand, and said in authentic English with a British flavor: "Take away your weapons."

Li Yun saw that seven or eight people put away their weapons directly, but some people with stout physiques and grim expressions hesitated to put them away.

It can be seen from this that those who hesitate are probably mercenaries, and they don't trust Li Yun who suddenly appeared from the other end of the cemetery.

"Hello, my name is Alice."

Alice Windsor, this beautiful princess with some golden wavy hair, with a smile on her noble face, took the initiative to step forward and stretch out her hand to Li Yun, and she spoke Chinese with a fairly standard pronunciation.

"Hello, my name is Li Yun."

Neither party reported more information. Alice did not say her surname, but Li Yun already knew it from the system. From the surname, it can be inferred that Alice is the princess of country Y.

Guo Xun and others also jumped down from the passage one after another, and the two sides completed their first meeting in an underground tomb.

Very weird, very weird, everyone in the room felt that this way of meeting was unheard of, but that's how it happened!

"Miss Alice, are you here to robber the tomb too?"

Li Yun asked with a smile, watching the surroundings from the corner of his eye.

Chapter 557: Zombies, vampires?

This tomb is not very similar to the tomb of General Xu. It seems to be a tomb from the Han Dynasty. Now it is in the middle hall. There is a coffin not far away, but the coffin cover has been opened and there is nothing inside.

In addition, except for the pottery figurines, the burial objects are all missing. It is preliminarily inferred that the tomb has been stolen.

"probably is."

Alice used an ambiguous statement and asked, "What about you?"

"Approximately." Li Yun also used a similar statement. He did not come to robber the tomb, but he did the same thing.

"Then your purpose is the same as mine?"

Alice blinked at Li Yun mischievously, and both of them were guessing the true purpose and origin of each other.

"Miss Alice!"

Wu Maoping came to talk to her, proactively extended a hand to her, and said enthusiastically: "Hello, beautiful Miss Alice, my name is Wu Maoping, I am the big disciple of Mr. Jin Yazhai Zhou, I am very happy to meet you!"

Jin Liuli seemed a little bit sour in her heart.

Alice in front of her is taller and better than her, with a devil figure of 1.75 meters, exquisite features, long golden hair, and a noble temperament on her body. No wonder Wu Maoping and Li Yun are so passionate about her. !

When I think that Li Yun is a big color embryo, Jin Liuli is very sure that the big color ghost will definitely show her courtesy!

"Please go away."

Before Alice could reply, Adam, the bodyguard standing next to her, waved his hand to refuse Wu Maoping's approach in cold Chinese, with a very cold attitude, as if Wu Maoping was a pariah and was not worthy of contact with the noble Princess Alice.

"Adam, it must not be so!"

Alice drew back her bodyguard, stretched out her hand to Wu Maoping, and smiled: "I am also very happy to meet you. I didn't expect to come to Huang Xuanguo to play this time, but I met so many interesting things and people!"

This blonde beauty showed a bright smile in front of him. Wu Maoping looked straight. He really likes Alice's mature, protruding and back-curved beauty!

If it weren't for Jin Liuli's special status, he wouldn't bother to try his best to please her, Wu Maoping could see that even if Jin Liuli grew up, her figure would not be so good, the whole Princess Taiping.

The blond chick in front of him is his food!

Alice saw his performance in her eyes, chuckled, pretending to be curious, and asked: "By the way, I heard the gunshots and explosions on your side before, what's the matter?"

Before Li Yun had time to stop, Wu Maoping said impatiently: "Oh, that's when we met a zombie!"

"Zombie?!"

An inexplicable light flashed in Alice's blue eyes, pretending to be surprised: "Are you talking about zombies, vampires, etc.?"

The zombies of Huang Xuanguo (Hua|Xianguo) correspond to western vampires. The zombies are modern gadgets, slightly different.

Several of the mercenaries also understood Chinese. After explaining the conversation between the two, a group of mercenaries burst into laughter.

"Where is there a vampire in the world?"

"I think this yellow-skinned monkey was scared by the grave!"

"Hmph, even if there are zombie vampires, we have so many guns, one bullet can blow them up!"

"This tomb has no burial objects. If you want me to see it, why don't you go to their tomb and get something?"

"This proposal is good, as it is an extra bonus for our tomb robbers!"

Hearing this group of mercenaries' comments, Li Yun frowned slightly. The people who are living on the edge of the knife are really arrogant, so be careful with them.

Chapter 558: Exchange information

Alice was also planning to get news from Wu Maoping's set, but Li Yun was worried about the zombie who jumped out of the hole, so she interrupted her:

"Miss Alice, let's talk frankly, how about?"

"Oh?"

Alice looked at Li Yun with blue eyes, waiting for his words.

Guo Xun and the others were very surprised by this look of not impatient or impatient, holding the winning ticket. From her aura, it can be seen that the woman who leads the team to the deep mountains and old forests and excavates the grave is not easy!

At this moment, Wu Maoping actually felt a little inferior.

Li Yun took a deep breath, looked directly at Alice, and said: "I'm telling the truth, I came here to investigate zombies, and I did encounter some weird things, and I saw the existence of zombies!"

"impossible!"

Adam categorically denied it in cold Chinese, "I don't know what your purpose is, but there are no vampires and no zombies in this world! Miss, don't believe him..."

"Adam, shut up."

Adam closed his mouth obediently, but still warned Li Yun with his eyes, don't try to deceive the noble princess he protects!

"Anna." Alice called out, and immediately behind her, a royal sister with short flax hair took a folding chair and placed it respectfully behind Alice.

Under the stunned gaze of everyone, Miss Yu with short hair opened another table, took out a delicate cup, and poured a cup of black tea for Alice.

"Anna, pour a glass for the guests too." Alice ordered with a smile.

"Yes, miss."

Toothpick looked dumbfounded. He had robbed the tomb for many years, but he had never imagined that someone came to the tomb with a folding chair and a table, and a pot of black tea, slowly drinking tea and chatting.

This Nima, chatting in the tomb, no, is this a place to pretend? !

Li Yun's eyelids jumped, and decisively refused: "No, Miss Alice, let's make a long story short."

"Also."

Facing everyone's weird eyes, Alice was unmoved, nodded and said: "We exchange information, it's good for you and me, then I'll talk about it first."

Li Yun nodded, this woman is really not easy, she advances by retreating, and she is quite clever, she deserves to be a princess.

"Actually, I came here to investigate the zombies!"

Li Yun nodded slightly. She invited a group of mercenaries here. It is estimated that the money for the tomb robbers is not enough to hire mercenaries. Unless they come for excitement, they have no other purpose.

"But unfortunately, I didn't find anything." Alice made a regretful gesture.

"I can ask, how did you know that there are zombies here?" Li Yun asked, "Isn't it always looking for an ancient tomb?"

Alice looked back, Adam immediately understood, and shouted: "Huang Si!"

"Uh, I'm here."

I saw a thin man in his fifties, walking out from behind a group of tall mercenaries with a smirk on his face, his eyes seemingly evasive.

"It's you, Huang Lao Si!" The third master immediately recognized this person as soon as he saw it. He also wanted to understand why these people came here, and his face was immediately frightened and angry: "Huang Lao Si, you actually brought a foreigner Come to the tomb of General Xu!"

Huang Laosi was very embarrassed, and said with a smile: "San Ye, I don't know if you are here, it's really..."

"Go away, you don't deserve to talk to me!"

San Ye was furious, and his toothpick also showed a contemptuous expression, seeming to disdain Huang Laosi's act of taking Alice to the tomb.

Chapter 559: Which one is the tomb of General Xu

After asking them, Li Yun understood the whole story.

Huang Laosi was familiar with San Ye back then. After learning about his accident, he also knew about the tomb of General Xu from San Ye who was delirious, but he only knew the location, not the specific location.

For various reasons, he didn't come to robbery that year.

But recently the toothpick encountering a zombie in the tomb of General Xu has spread widely in the circle. In addition, Huang Laosi knows what happened 20 years ago, so he brags that he knows that there are rice dumplings in the tomb of General Xu. Black water and so on.

As a result, Alice's servant Adam found him, and the two were locked in the room for a while to discuss. Huang Laosi finally lost in front of a 'large sum of money' and agreed to bring them here.

"Although we tomb robbers are doing despicable things, we don't want to see Huang Xuanguo's antiques go abroad. Therefore, if tomb robbers collude with foreigners to robber the tomb, or if someone sells unearthed antiques to foreigners, they will be caught in the circle. Despised by everyone here!"

This is what the toothpick told Li Yun quietly. When he said this, his expression was resentful, not like a fake.

Huang Laosi seemed to feel that his face was dull, and smiled again: "San Ye, I really deserve to die. No, God can't stand it anymore. The ancient tomb I found was not General Xu's tomb. It was also ascended first. I almost He was beaten to death by his employer!"

"Huh, that's what you deserve!"

"Yes, what the third master taught!"

Li Yun understood what happened, and was not in the mood to pursue it. He was still thinking about the General Xu zombie. It was a super cool event that rewarded two golden gift bags!

"Miss Alice, we said as we walked, if you want to see zombies."

"Of course!" Alice's eyes lit up and she stood up and prepared to act with Li Yun.

"Ding, trigger the option event, please choose from the host:

Option 1: Return to the original tomb to track the zombies, no reward.

Option 2: Investigate this ancient tomb, reward experience value +200,000, spirit and wisdom +800, purple gift bag*1. "

Li Yun was taken aback, frowned deeply.

The prompt of the system makes things even more weird.

"What's the matter?" Alice looked at Li Yun curiously.

"Miss Alice, leave him alone, this guy always looks thoughtful!" Wu Maoping said with a smile, "I also saw the zombie. It must be the General Xu you are looking for, and it has turned into a zombie to escape. Let's chase it quickly, maybe we'll catch it soon!"

Guo Xun and others also agreed.

But Li Yun waved his hand and looked around this ancient tomb of the Han Dynasty, "San Ye, which of these two tombs do you think is the tomb of General Xu?"

"what?"

"Which one is the tomb of General Xu?"

"Li Yun, do you think this is the tomb of General Xu? No, right?"

Everyone was very surprised. San Ye frowned deeply, carefully observed the style of the tomb here, and said uncertainly: "This should be a tomb from the Han Dynasty. The overall structure should be a bucket-like tomb. This is not the case. Would be wrong."

Wu Maoping said impatiently: "No matter where it is the tomb of General Xu, it is important for us to catch up with the zombie now!"

Li Yun ignored him, looked at the coffin placed in the middle, and whispered: "The Han Dynasty and the Ming Dynasty are separated by a thousand years. Theoretically speaking, the Han Dynasty's coffin should be more corrupted nowadays, but this The coffin..."

"The age will not exceed a thousand years."

Alice is very sure, "I have seen many coffins, and I have been inside the pyramid. If there is no special anti-corrosion method, this coffin should be 500-800 years ago, and it will never be more than a thousand years!"

Chapter 560: Xiao Liuli, you are my lucky star

Li Yun looked at this woman, no, this princess took a look, the dignified royal princess of Y country, actually keen to go to the tomb to explore and explore, it was unexpected.

"Is it because later generations like the tomb style of the Han Dynasty, which is specially imitated?" Jin Liuli's curiosity was aroused again. There are many people around, plus she has a camphor sword in her hand, and Li Yun is by her side again. Jin Liuli is now Not afraid at all.

"Just look at it and you'll find out!"

As he said, Li Yun walked around in the tomb to check, Jin Liuli quickly followed, and Alice followed Li Yun to see what he found.

Wu Maoping was indignant. What he said was always ignored, but he did not dare to say it. The gun in Li Yun's hand had too much psychological shadow on him!

A group of mercenaries glanced at each other, did not keep up, and chose to wait in place.

Li Yun wandered around. This tomb is also the structure of the front, middle and apse. There is a robbery hole above the front hall.

In addition, the funerary objects in the side hall and apse were swept away, leaving only some large-scale funerary objects such as pottery figurines.

Wu Maoping said impatiently, "Isn't this that I haven't found anything? I think I should go back quickly!"

"There is really nothing to find, a very ordinary tomb." Alice also made a judgment.

Li Yun was surprised that the system has not yet prompted the completion of the selection event, what else did he miss?

Jin Liuli said suddenly: "Li Yun, do you think there is a hole in the coffin here?"

In an instant, a flash of lightning flashed in Li Yun's mind!

Yes, there is no inspection under the coffin!

"Xiao Liuli, you are really my lucky star!"

Li Yun squeezed Jin Liuli's cute little face, and walked to the coffin with a smile on his face, leaving Jin Liuli in a daze, with a moving shy blush on his small face.

"Sure enough, this big girl wants to treat me..."

Li Yun came to the coffin and looked inside. It was covered with a layer of decayed red cloth, and the owner of the tomb was nowhere to be seen.

He tried to push hard, but the coffin didn't move.

Pushing it again, Li Yun's five fingers were all trapped in the mahogany coffin, but they remained motionless.

"Sure enough, it's weird!"

With Li Yun's current strength, let alone a wooden coffin, he can carry it even if it is an iron coffin!

But now the coffin seems to be embedded in the ground and cannot be moved at all!

Alice was also a little surprised, and said: "As far as I know, burial coffins in various countries in the world are rarely fixed on the ground. Unless they are some special coffins made of directly excavated stones, they are originally one and cannot be moved. ."

Li Yun stood up straight and patted his hands to shake off the sawdust. "Now this situation has to be offended."

After speaking, he looked at San Ye, who was very knowledgeable, and before Li Yun asked questions, he took out a candle from his bag and lit it, and handed it to him respectfully.

"San Ye, thank you."

"It should be, it's okay for the old to do something for Mr. Li!" The smile of San Ye made Huang Laosi look very happy.

Unexpectedly, San Ye, a famous tomb robber in Jiandong Province and even the whole country, was so respectful to Li Yun!

This time the candles and incense did not show any moths. Li Yun inserted them in front of the coffin, held three incense sticks, and bowed to them. He said something apologetic, please forgive me, and then moved his hands to remove the coffin.

Although you don't believe me, you still have to have the respect that you should have, just like the worship of Qingming, not for the dead, but for the living.
