Chapter 571: Cannibal cave

Li Yun held a Silvin pistol and calmly walked up to the corner of the cave to take a look, his face suddenly showed a look of surprise.

"What, what's wrong?" Jin Liuli kept looking at him.

"People are gone!"

"What the **** are you repeating!"

Codiff was very angry. He took the submachine gun and walked a few steps forward. When he looked forward, he was shocked and cried out: "What?! People are really gone?!"

His subordinates were also surprised, and they squeezed forward to look.

I saw that the cave in front was to the end, and there was nothing in it.

There are no holes in the ground, no cracks in the walls, and no openings at the top of the cave.

When the flashlight is illuminated, everyone can see the bottom of the cave clearly at a glance. There is really nothing inside!

That black mercenary just disappeared like this!

"Wh, what's the situation?!"

Codiff has never seen such a weird thing. A big living man with a submachine gun entered the cave, and he didn't see it? !

His subordinates didn't even make a scream, and didn't hear a gunshot. They just disappeared! ?

Abel asked the mercenaries to move away. Alice stepped forward and looked down, with a weird look on her face. She turned to look at Li Yun: "I remember, there is no fork in the cave, and there is no burrow or something like this. Bar?"

Li Yun looked solemn and nodded.

"But why are people missing now?"

Alice felt an unusual breath of danger.

"Perhaps, there are agencies." Li Yun turned to look at them: "Who dares to go and check now?"

The mercenaries were taken aback, and Codiff was so frightened that he dared not step forward, holding a submachine gun and pointing at a person next to him: "Jardins, you go!"

He is 1.9 meters tall, fully armed, and weighing 120 kilograms. Now he is so scared that his legs are weak: "Old, boss, I look at the cave there is weird, maybe it is a giant monster. Mouth, there isn't a giant wolf Fenrir in the mythology of Bei, who can eat the gods in one bite, I..."

"You, you, you, what the **** are you!" Codiff slammed his head with a submachine gun, and said angrily: "I think you are **** timid, you are so strong at the expense of you!"

Jardines only promised, the man disappeared without a word before, and the fool came forward to send it.

Li Yun smiled and said: "What's the matter? No one dares to go up?"

"Hmph, just go up, what are you afraid of!"

Codiff let out cruel words, but did not move at his feet. Instead, he raised his submachine gun and swept the cave in front of him.

Bang bang bang!

The harsh gunshots echoed in the cave, which looked particularly harsh. Jin Liuli had to cover his ears and screamed, "Don't open it!"

Codiff turned a deaf ear.

"STOP!"

Li Yun called him to stop, and said in a light tone: "Don't pretend if you don't dare to go, stop, let me go and take a look!"

Codiff snorted coldly, took off the magazine of the submachine gun, and replaced it with another magazine across his chest, watching Li Yun's movements stubbornly.

He was going to shoot when the situation was bad, regardless of the life and death of this kid.

"correct."

Li Yun stopped, "If anyone dares to shoot at me, I will let him eat one of my bullets." After speaking, he lit up the white pistol in his hand.

Codiff sneered. He didn't bother to use this toy gun when he was thirteen!

Li Yun stepped forward slowly, with a high concentration of energy, and the real energy in his body was circulating quickly. Now he is sure to stop any attack!

When he reached the bottom of the cave, Li Yun reached out and touched the wall. It was very strong and not fake.

Chapter 572: Ah, there are zombies in front of you

Li Yun pushed **** the rock wall with both hands again, without moving.

I stretched out my index finger and poked the crater, and it was true that there was still warmth inside.

I checked the surrounding walls again, and still found nothing, but Li Yun vaguely felt that something was abnormal. Everything in front of him didn't feel real to him. Could it be because of the disappearance of a big living person?

"Nothing at all?"

Alice walked over under Abel's escort, did the same thing as Li Yun, and inspected the lower rock wall.

Of course, nothing was found!

"It's weird." Jin Liuli came to Li Yun and touched the crater like him. It was indeed warm inside.
"How did that guy disappear? Is there a mechanism in the middle of the cave?"

Codiff was relieved, and a few of his men also came forward to check, just as fruitless.

Because Codiff gave way, Guo Xun and Yang Jie also had to take a step forward and saw the bottom of the cave.

"Ah!!! Danger!!!"

Guo Xun didn't respond, but Yang Jie's expression changed and she let out a horrified cry.

Everyone was stunned, what's the danger?

"Get out of there, no, what are you doing!?" Yang Jie looked panicked, raised the powerful pistol in her hand and pointed at the people behind her, hurriedly shouted: "Come out, there are zombies!"

Are there zombies?

Jin Liuli felt that her cold hair was standing upright in an instant, but she looked around, where are the zombies? There is only a rock wall in front. Could it be that the people around are zombies?

Codiff cursed: "You woman is blind, right? There is nothing around, where's the vampire?!"

"You haven't seen it?" Yang Jie was extremely surprised, Guo Xun shook his head, "I didn't see it either. There is a rock face in front of it."

"No, there is a zombie in front of you!"

Yang Jie spoke quickly. In her eyes, the people in front seemed to be sleepwalking, touching a wall of air. The scene was very strange.

And just half a meter in front of them, a terrifying zombie with a mouth full of blood was hugging a dead black mercenary, biting his neck with a big mouth, and drinking the blood of a living person!

The scene is unspeakable evil, blood and horror. The blood-filled zombie can even grab Miss Alice as soon as he reaches out his hand. The distance between her and the zombie is never more than a slap!

Li Yun suddenly thought of something, holding Jin Liuli with one hand, holding Princess Alice with the other, and quickly moved away from this wall, and at the same time he shouted: "Quickly leave!"

Codiff couldn't help but laughed loudly: "I said you are too timid, so that you can also come to learn to robber the grave, so you won't be scared by the bile... uh, what the hell..."

Before he could finish a sentence, he suddenly felt that his neck was stuck with a cold hand. This hand was so cold that it was so powerful that Codiff could not resist at all, so he could only be dragged away by this hand. His face was flushed, and in a panic, his fingers pulled the trigger, a series of gunshots sounded, several of his men were immediately struck, and there were a few more bullet holes on his body.

But it was only limited to this. Everyone was horrified to see that the submachine gun in Codiff's hand was hung weakly, and then, the whole person was dragged into the wall by that cold hand abruptly!

"My God!!"

The few mercenaries who had been shot are now so scared that they are running away from the cannibal wall.

"Let go!"

Yang Jie moved immediately, she leaped forward and rushed into the rock wall. A flying kick kicked the owner of the cold hand away. Codiff rolled on the ground weakly, coughing a few times, and looked up. His face instantly paled.

"Suck, vampire!"

Chapter 573: Ohmygod

The moment Yang Jie rushed into the 'rock wall', the real scene inside the cave appeared in front of everyone.

The cave in front of the cave continued to extend for more than five meters, and a stone chamber appeared astonishingly. There were many daily necessities, bottles and cans. It can be seen that people usually live here.

In addition, there were two people lying down in front of the stone room. One of the necks had been bitten off and blood shed all over the ground. It was the black mercenary who had disappeared before!

The other one was kicked by Jie Fei Yang... a vampire!

"It's really a zombie!"

Everyone gasped, and saw that this guy was over 1.7 meters tall and was wearing a slightly larger armor. His whole body was stiff, his skin was as dry and yellow as a dead person, with green hair, sunken eyes, and black and sharp nails. , Sharp canine teeth grow out of his mouth, and flesh and blood still remain on the teeth, which is extremely hideous!

"Ohmygod!!"

Alice was so shocked that she blasted out English, her beautifully-shaped mouth widened, her eyes full of fear, but also excitement and excitement.

She really saw these miraculous things with her own eyes, those extraordinary things recorded in ancient books, they are not fake!

"F**K!!!"

Codiff rolled out and picked up the submachine gun on the ground. After he saw clearly what he was grabbing, his anger rose from his heart, and the evil grew to the courage. He immediately stopped hesitating and aimed at the standing man. Zombies are just a sweeping sweep.

"Ha ha ha ha, eat it a ** &! Sonofbitch! Give me death!"

"What are you doing in a daze, shoot him to death!!"

His subordinates reacted, raising their submachine guns and firing them indiscriminately, making Jin Liuli cover his ears and feel pain in the eardrums.

The zombie who was shot by countless bullets poured out a loud roar, not only did not fall down, but also stepped forward step by step with a stiff body against the bullet that told to fly.

The mercenaries were horrified and inexplicably shocked. After the bullets of the submachine gun were empty, they all retreated in a panic. This thing simply couldn't be killed!

Li Yun could see clearly that the bullet had actually penetrated into the zombie's body, but the zombie's skin was like a viscous liquid, which wrapped the bullet tightly, and could not harm the bones in it to support the action.

"What, what to do?" Alice asked Li Yun subconsciously. After speaking, she was shocked to realize that she was already relying on this guy unknowingly.

"Yang Jie, Guo Xun, go up and try its strength!"

Li Yun stopped Jin Liuli who wanted to step forward and asked the couple of innate ranks to besiege the zombie.

The two immediately stepped forward and drew out their daggers to fight with the zombies. For a while, the cave was filled with the terrifying roar of zombies.

After Alice calmed down, she took a closer look and found that although the zombie was very resistant, her actions were also very stiff. As long as she was flexible, she was not afraid of its attacks.

However, this zombie occasionally sprays a green venom, which seems to be called corpse poison. This attack requires attention.

Li Yun nodded secretly, then patted Jin Liuli on the shoulder, and smiled: "Little Liuli, you can go on, use the camphor sword!"

"clear!"

Jin Liuli already knew that Li Yun wanted to test the zombie's strength, so she didn't reserve it. Her golden silk soft blade whip had been rolled back to her waist and turned into a camphor sword that Li Yun gave her in her right hand. She was petite and flexible. Before flashing himself, he screamed, raising his sword and slashing it down fiercely.

"Bah Bah Bah!"

Chapter 574: Lightning strike sausage sword

The crowd saw with amazement that the seemingly weak wooden sword in the little girl's hand suddenly cut off one of the zombie's arms!

This wooden sword was like a red-hot soldering iron. The zombie's extremely strong body couldn't stop the wooden sword's attack, and the sword cut off his arm.

"Roar!!"

The blood-filled zombie roared in anger, and Jin Liuli seemed to smell the foul gas ejected from his mouth.

But she didn't feel sick, because the excitement in her heart made her feel that she was invincible in the world!

Xia Nu, the Xia Nu who defeated the zombies, she is set!

"Hehe, take another sword from Auntie!"

Jin Liuli's short body escaped the zombie's two-hand swing, and another sword swept away. With a sigh, the zombie was chopped off by the lazy waist, and the upper body thumped and fell to the ground. On the ground, it looks like two pillars.

But the zombie is not dead yet, it still has a left hand, it can still fight!

"Humph!"

Jin Liuli fluttered with another sword, cutting the zombie into a zombie. It looked terrifying, but when it came to the exaggerated combat power of the zombie, everyone thought it was funny.

"Be careful it sprays corpse poison."

Li Yun said, Jin Liuli, who was originally showing off his ass, ran back in fright and stood in front of Li Yun with joy, like a child waiting to be praised.

"Good job." Li Yun touched her little head, Jin Liuli smiled happily immediately, her cute little cheek flushed shyly, making people want to kiss her more and more. Look at this baby-fat cheek. What is it like.

"This wooden sword..."

Alice looked at the camphor sword in Jin Liuli's hand in surprise, and the mercenaries such as Codiff saw a vampire face.

With five or six submachine guns, they couldn't kill a zombie with crazy shooting. How could Jin Liuli get it done with a wooden sword? !

"Hehe~" Jin Liuli gave Alice a triumphant glance, and said braggingly: "This is called the Thunderstrike Camphor Sword. It's a magic weapon given to me by Brother Li, how about it? Amazing, isn't it?"

"Lightning strikes sausage? Sword, magic weapon..."

Princess Alice looked at her camphor sword, and then at the golden short spear in her hand, her face turned a little weird.

Li Yun almost laughed, camphor sword, sausage sword?

"In that case, I can see through the illusion, but also because of the mirror Li Yun gave me!"

Yang Jie smiled and took out a small mirror and showed it in front of everyone. Alice was surprised again, and there was a second magical piece of equipment? This Li Yun's luck is really good!

Li Yun's expression was indifferent, and he did not respond to the envy or doubts of the crowd, and said: "The matter is far from over, Xiao Liuli, kill this zombie, we have no time to look at it now."

"Oh."

Jin Liuli obeyed, and after a sword pierced its head, the zombie struggled a few times and finally stopped moving.

Li Yun turned his head and looked at the people behind him: "As you can see, it is very dangerous inside. If you are afraid of death, don't follow it. Wait outside!"

After speaking, he took the initiative to walk forward.

It's noon now. If you don't hurry up, it will come to night again.

"Of course I'm following you." Jin Liuli chased Li Yun with a smile, and Alice immediately followed: "I may also have a bit of fighting power...Well, now I admit, Li Yun, you may be really better than me!"

"Oh, it's okay to keep up, but don't act rashly later, you know?"

"I understand!"

Li Yun didn't take this sentence to heart, but Alice's servant Abel was very surprised.

In his impression, this was the first time that the noble Princess Alice proactively admitted that she was weaker than others!

Chapter 575: Stone room, formation

Growing up in the royal family, Abel's master, Princess Alice, enjoys endless glory, but at the same time, countless eyes are staring at her.

After all, modernity is different from ancient times. The royal family of Y country has been greatly weakened. If Princess Alice does not do well, she will surely become the laughing stock of the House of Commons.

Correspondingly, the majesty of the royal family will also be affected, becoming more and more disrespectful.

But Princess Alice did better than anyone else. The younger generation of country Y, and even the whole of Europe, there are very few people who can compare with the princess.

Her outstanding performance gave the imperial family, which had been declining, a slight rebound, and the public's recognition of the imperial family reached a new height.

All this is the result of Her Royal Highness Princess Alice!

Therefore, Alice is more proud than anyone, and she must be proud too!

But now, Princess Alice has taken the initiative to admit that she is inferior to Huang Xuan Junior High, a teenager younger than her?

Servant Abel's heart was as surprised as when he saw the zombies!

"I'll go over and take a look, you guys wait."

Li Yun's face was calm, and he walked slowly towards the innermost stone chamber of the cave.

It's very ordinary here, a stone bed, a table, and rows of pits have been cut out on the surrounding walls. There are some bottles and cans in it. Li Yun saw a lot of bugs soaked in yellow liquid, which seemed to be worms. Specimen of insects.

Sweeping around, there was nothing special in the bottles and cans. Li Yun turned his gaze to the table, on which there was a very beautiful decoration.

Rabbit, tiger, leopard, swallow, chicken, monkey, sheep, horse, deer...

The clay sculptures made of 28 clays are divided into four directions, east, west, south, and north, forming a circle. In the center of the circle are two transparent beads, one large and one small. They don't look like night pearls, nor are they pearls. It looks like a glass bead.

But one of the beads was red and the other was pure white. Li Yun immediately understood that these two beads represented the sun and the moon.

And this pattern symbolizes the tomb of the Emperor of Heaven who holds the sun, moon and stars!

"Strange, the house is here, but the people are gone?" Jin Liuli looked at a place that was blocked by a slate, "Did he escape into the grave of Wei Yueyan?"

Li Yun said: "Perhaps he thought he could stop us by illusion and zombies, so he didn't come back confidently."

If he hadn't accidentally obtained the soothing visor that could break the illusion, this cave would be really difficult to enter.

Alice finally couldn't restrain her curiosity, reached out her hand to grab the clay sculpture on the table, and said, "This man's craftsmanship is quite good, let me see...ah!"

Suddenly, she screamed, her hand retracted like an electric shock, her eyes looked at the sun, moon and stars on the table in horror.

Abel hurried forward to protect his master.

"Are you okay?" Li Yun took her hand and looked at it. Alice's white and tender fingers were slightly red, and there was nothing serious, so he let go of her again, with a very natural movement.

Li Yun, who turned his head, didn't see that Alice's noble and beautiful face was slightly red, but the blush quickly dissipated.

"What is this?" Alice asked quickly, who was ashamed of her heart.

"I don't know, maybe it's the so-called... formation?"

Li Yun watched the twenty-eight clay sculptures and beads alertly, and reached out his hand to shake the table, but the table did not move, especially the two beads, which were round and smooth, and it was logically impossible to stay on the table stably.

"Array... Method?"

Chapter 576: Shoot as fierce as a tiger, look at the damage

Alice has seen the introduction of the formation in the ancient culture of Huang Xuan country. It is said that this is a way of arranging troops. In addition, in some Zhiguai Xianxia novels, the formation is a powerful method that can mobilize the surrounding environment. Special method!

"Is this the formation?"

Alice once again looked at the pattern composed of two transparent beads and twenty-eight clay sculptures. When she touched it just now, she only felt a strong repulsive force, and she had to let go.

"It should be."

Li Yun took Jin Liuli's hand and walked back, and at the same time made Alice come back, everyone looked at him.

In the current situation, no one knows what to do except Li Yun!

In fact, Li Yun didn't know what to do.

"This stuff..." Li Yun rubbed his chin and smiled at the people behind him: "Do you think the owner here is a good person?"

Everyone shook their heads, Jin Liuli sneered her mouth, and muttered: "He is a good person, so he can't raise zombies, how disgusting zombies are!"

"Indeed, that would be easier! Miss Alice."

Li Yun stretched his finger forward, smiled at the corner of his mouth, and made a shooting gesture.

"clear!"

Alice knew, and said: "Abel, ask someone to bring a gun and shoot me the stone chamber in front!"

"Yes, miss!"

Jin Liuli snorted softly. This woman is really pretending. She doesn't talk to Codiff at all and always orders her servants. It can be seen that in her eyes there is no such group of mercenaries, and she doesn't bother to care about these people.

It is ridiculous to say that this group of mercenaries who can make the most vicious criminals in the world afraid of the wind, this time they do the most thing is to dig tunnels!

Codiff took the lead, with seven or eight gathered in two rows, squatted in front and stood behind, forming a standard platoon shooting position.

"Shoot!" Codiff squeezed the trigger fiercely and yelled: "Shoot me all in front, nothing is left! Damn F**K!"

He held his stomach for a while, and now he can finally vent!

"Da da da da da!"

The sound of bullets joined together, and accompanied by dazzling sparks, the bullets bombarded the stone chamber in front of them like a downpour.

The bottles and cans were broken immediately, and Li Yun estimated that even if there were Gu worms, they would be exploded by this powerful firepower!

The bullets raised countless dust, and in the thick smoke, everyone vaguely saw a light ball lit up, and Codiff and others unanimously pointed their guns at it.

One round of bullets went empty, replaced by another group of mercenaries to continue shooting.

The thick smoke dissipated a little, and everyone was amazed to see that the two beads of the sun and the moon, as well as the twenty-eight clay sculptures, all floated in the air. They emitted a glowing brilliance, blocking all the bullets of the submachine gun!

Even the stone slab glowed, preventing the stray bullet from destroying it!

"Stop it!" Li Yun reached out and stopped the mercenaries: "Don't waste bullets!"

The bullet stopped, everyone looked at each other, their faces showing amazement.

The light group in front of you is like an energy mask in a sci-fi movie, beautiful, mysterious, and extremely powerful!

The bullet fell to the ground in front of it, and the wall was riddled with holes, but no bullet could penetrate the protection of the light ball!

"Am I making a movie?" someone muttered to himself in shock.

Indeed, according to the usual movie routines, blacks, whites, and yellow people gather together, and it is often the blacks who die first.

It's just that black people in movies are usually good people, but in reality...

Chapter 577: Ancient fierce insect, black feather butterfly

"Let me do it!"

When everyone was shocked, Li Yun stood up with a gun.

Everyone looked at him with expectant eyes, and the only way now was this mysterious boy!

Codiff's face was very exciting, he had already realized that the gun in Li Yun's hand was unusual.

"Beep!"

But at this moment, Codiff suddenly saw a black, palm-sized object flying out of Li Yun. Accompanied by a scream of joy, the black object had already slammed into the energy shield. superior!

"what?"

Codiff was as dumbfounded as his men, and when he took a closer look, he opened his mouth in surprise.

What did they see?

A... Elf?

In a Western legend, an elf who dances with fairies, who is so beautiful and incarnate, who claims to be the incarnation of nature? !

"Fluttershy, come back soon!"n/ô/vel/b//jn dot c//om

Li Yun was also taken aback. The Nine-winged Black Feather Butterfly unexpectedly woke up at this moment and got out of his pocket. When he was not paying attention, it actually flew to the light cluster of the twenty-eight sun and moon formations. superior!

Wait, after the black feather butterfly transforms into a human form, isn't it impossible to fly?

The next scene completely shocked Li Yun and everyone.

I saw two pairs of black wings grow behind the black feather butterfly. With a light flick of the black wings, he swished into the shield that could not be broken by thousands of submachine gun bullets, and lay down on the fiery red transparent bead. superior.

"Baba, Baba, eat~!"

The Black Feather Butterfly was very excited and flew up with difficulty holding the 'sun' bead, but how could it be able to hold the bead and the twenty-eight stars to form a formation.

As a result, the angry Black Feather Butterfly opened its small mouth and bit on the bead with a click, and the entire formation shook violently.

Somewhere underground, an old man in black clothes with a shriveled body suddenly opened his eyes, and a look of anger appeared in his gloomy eyes.

Around him, there are thousands of soldiers.

"Boo, Bab, it's delicious~!"

The black feather butterfly took another bite, and the formation shook violently again. Li Yun was shocked to see that some cracks appeared in the clay sculpture of the twenty-eight stars.

"Oh, full, good!"

In the stunned gaze of everyone, the black feather butterfly swallowed the sun beads three times and five times two, then flew over and swallowed the moon beads. In an instant, the twenty-eight astrology clay sculpture shattered every inch, and the entire formation also collapsed.

But the greedy Black Feather Butterfly had not yet confiscated her hand. The black wings that grew stronger behind her shook. Twenty-eight clays were turned into fragments, and some light overflowed from it, all of which were absorbed by the Black Feather Butterfly!

"Boom!!!"

The whole mountain shook, and the people outside the cave didn't know what was going on, but they were so scared that they thought there was a big earthquake!

Click, boom!

The stone slab burst open, revealing the thief hole inside.

After the shaking subsided, everyone in the cave gradually calmed down, but still looked at the black feather butterfly happily in Li Yun's palm in shock.

The appearance of this elf refreshed their three views once again, making them wonder if they were dreaming!

"Baba Baba, here, where?"

Black Feather Butterfly was born for more than half a month, and now she is not afraid of birth, she has begun to become curious about the outside world, and she is looking at her surroundings with a pair of round eyes.

Jin Liuli leaned over to look, Black Feather Butterfly still looked at her for a long time before looking away.

Chapter 578: Ding, gold double-stranded fork

"What a beautiful fairy!" Alice looked at Black Feather with excitement. If she could, she would use all her money, even real estate to exchange for this little thing, the value would definitely not be less than 100 billion!

But without speaking, she knew that Li Yun would definitely not change.

This is an elf, the elf in myths and legends, the value is not measurable by money!

"Her name is Black Feather Butterfly, and she has a high IQ, similar to humans."

Seeing that the black feather butterfly was exposed, Li Yun couldn't hide it anymore, so he took the initiative to introduce it to two curious little girls before taking the black feather butterfly back into his pocket.

But the Black Feather Butterfly had just eaten enough, and now she didn't want to sleep, so she lay on the edge of her pocket and poked her head out to look around.

Li Yun didn't care about her. This little guy had an appetite beyond his expectations, and he was worthy of being one of the ten greatest evil insects in ancient times. He was born with a prodigy who swallowed. The formation just now couldn't stop her at all.

"Go, let's go into the ancient tomb!"

Li Yun held Sylvan in his hand and took the lead into the thief hole that was originally covered up.

"Ding, enter Dangerous Moon Yan, the reward (all attributes +1000, experience value +500,000, golden gift bag*1, extra purple equipment: golden double-strand fork) has been issued!"

"Golden Double Fork

Special effects: Extremely hard, attacks with flames, and attacks against evil monsters are greatly increased.

Description: In Western myths and legends, the Cyclops created a double-stranded fork artifact with the help of Vulcan in order to repay the favor of Hades. "

Li Yun's heart was fierce. Without mentioning the full attribute +1000, just this golden gift bag is already very cool!

It's just that he is puzzled. Before, they were all equipped with Taoism and Buddhism. Why are they now rewarding the weapons of Western legends and gods?

Is it because Alice is around?

The system is expressly indicating that he is sending this thing to this beautiful blonde princess, right?

but.....

Double-stranded fork, also known as pitchfork, is used to arrange thatch and wheat straw in rural areas.

Thinking of the picture of the beautiful Princess Alice fighting with a double-stranded fork, Li Yun couldn't help but feel amused. This is too horrible!

After hesitating, Li Yun still did not give her the weapon, not because it was not beautiful, but because Alice was very wary of him. Accordingly, Li Yun didn't trust her either.

"What's wrong? Did you find anything?" Alice asked.

"No." Li Yun shook his head and continued to walk forward.

The robbery cave leads to the supporting hall of Wei Yueyan's tomb. After Li Yun cautiously entered, he found that it was a tomb from the Tang Dynasty, but he has now basically inferred that the so-called style of the tomb is deceptive.[n/ô/vel/b//jn dot c//om](#)

In fact, the 28 ancient tombs should have been built during the Ming Dynasty, and they are probably the tombs of General Xu Tiande.

Nothing found in the companion hall, Li Yun walked into the corridor and walked towards the nave.

When he was about to walk out of the tunnel, suddenly, two black figures suddenly rushed forward, but Li Yun was already fully guarded, so how could he be hit?

Starting with the master-level misty footwork, Li Yun dodged and avoided the attack of the two men. At the same time, he no longer saved bullets and shot over.

"boom!"

The harsh gunfire echoed in the tomb, and Guo Xun and others behind him were taken aback and hurried forward.

"Hmph, take a whip from Grandma Auntie!" Jin Liuli reacted very quickly. After Li Yun shot and flew a person, he threw a whip forward, urging the true energy in his body to pull, but only heard the sour squeaking sound, the imaginary sound of bone breaking, was not heard.

Chapter 579: Man sitting on the coffin

"The opponent is also very strong!"

As soon as this thought flashed in his mind, Jin Liuli suddenly saw the people entangled in her whip rushing towards her desperately. The next moment, Jin Liuli only saw a pale, strange face appearing in front of her.

"Ah!!! Zombies!!!"

Jin Liuli let go in fright, her petite body resembling a slippery loach, silky, light, and soft, yet swiftly avoiding the attack of the zombies.

She was about to pull out the camphor sword, and Li Yun had already killed the zombie with one shot.

Everyone looked intently at them. They were two zombies. They couldn't think of being solved by Li Yun with two shots.

"Woo~" Jin Liuli rushed into Li Yunqi, rubbed hard to increase a sense of security, and said coquettishly: "I was scared to death just now. I thought it was a human being, so I used a whip to deal with him. Think of it as a zombie!"

Li Yun couldn't laugh or cry, "Why don't you just use thunder fencing early in the morning?"

"That won't work, this wooden sword looks so fragile, it will be gone if it breaks."

Li Yun understood, she must use lightning strike camphor sword to deal with zombies, and the rest of ordinary enemies will be solved with whips.

Unexpectedly, what Jin Liuli considered when fighting was pretty reliable.

"Li, Li Yun!" Alice whispered.

"what?"

The voice of Alice in front was trembling, "Inside, there is a person sitting!"

Jin Liuli felt his hair frightened again.

Although she knew from the stone room that there must be someone commanding these zombies, she could bear the thought of a weird and eerie guy hiding in an ancient tomb with a horrible jealous smile, as if plotting an evil conspiracy. I couldn't help but tremble with fear, and my body got closer to Li Yun.

"Don't be afraid."

Li Yun calmly stepped forward with a gun, and after going out of the tunnel, he looked forward. Sure enough, the scene before him made people shudder!

A black-clothed and black-haired weird man, with a wicked and terrifying aura revealed his whole body, sitting with his back to them, and sitting on the lipstick wooden coffin placed in the middle of the nave!

Everyone walked in lightly, and when they saw the black-clothed and black-haired weird sitting on the coffin, they felt that their hairs were standing upright. Even Guo Xun Codiff and others, who were on the battlefield, were crept at this moment and dare not dare. Take a breather.

"who?!"

The flashlights of the crowd gathered on the strange man in black. Li Yun gave a cold shout and pointed his pistol firmly at him: "No matter who you are, put your head in your hands and surrender! No other actions are allowed, otherwise I will shoot immediately! "

There was no response, and there was deathly silence in the tomb.

The strange man in black was in a meditation posture, as if suppressed on the lipstick wooden coffin, turning a deaf ear to Li Yun's threat.

Alice quietly clenched the golden short spear in her hand, prepared for something wrong, and threw the short spear out to kill him!

"Ding, trigger the option event, please choose from the host:

Option 1: Destroy the person in front of you, reward justice value +1000, all attributes +1000, experience value +700,000, golden gift bag*1, extra reward: a random martial arts skill upgrade.

Option 2: Turn around and escape, reward random master-level hidden skills.

Option 3: Kneel down to beg for mercy, and reward God-level crying and shirking skills. "

Li Yun was surprised. He only got a golden gift bag, another one?

Sure enough, messing up is the fastest way to trigger system selection events and get high rewards.

"No, destroy the person in front of you? Not to kill?! I understand!"

An enlightenment flashed in Li Yun's mind, and he made a decisive decision to disconnect the gun.

"boom!!"

Chapter 580: Venerable Black Eyebrow

A gunshot sounded and bullets shot out, and time seemed to freeze at this moment. Everyone present seemed to be in an ice cave, and the world perceived by the five senses became extremely slow.

At this extremely slow moment, the coffin of the strange man in black suddenly exploded, and a jet black liquid leaped out like a dragon.

Everyone opened their mouths, as if they could see their lips opened slightly, but the black dragon on the opposite side was extremely swift.

"Roar!!!"

The black flood dragon was majestic, with a huge mouth, biting down at the bullet and Li Yun, and the whole tomb seemed to be roaring.

But the next moment, carrying a bullet with a destructive effect, it slammed into the body of the black flood dragon.

In an instant, the Jiaolong was frozen, as if someone had performed a fixation technique, and the huge body disintegrated every inch.

"Rumble--!"

The black water dragon turned into flying ash, and Jin Liuli was surprised to find that the black water dragon was made of black water. No wonder it was exploded by Li Yun's pistol!

In other words, this strange man in black is the culprit behind controlling Heishui!

Li Yun looked indifferent, and when the dragon was extinguished, he fired a bullet again and slammed into the body of the unresisting black monster.

boom!

The surprisingly powerful bullet knocked the black man out of the coffin for several meters, then rolled on the ground and hit the wall before stopping.

From beginning to end, apart from manipulating two zombies and Black Water, this black-clothed monster didn't use the means to actively attack!

"Your conspiracy has been revealed!"

Li Yun snorted coldly, and slowly walked forward with the gun. Jin Liuli held a camphor sword and followed closely behind him. Alice thought for a while, then followed with the golden short spear.

Everyone tremblingly took a few steps forward, and shone with the lights, only to realize that the black-clothed weird had been closing his eyes tightly.

The weird thing is that this guy looks like he is fifty or sixty years old, but his hair is thick and jet black. What's more weird is that his two thick, jet-black eyebrows hang down to his chest, which are longer than the eyebrows of the White-browed Eagle King!

Seeing his weird appearance, San Ye was shocked.

This black-browed weird man has just the opposite physical condition!

"Is he dead?" Wu Maoping said from a distance. How dare he still pretend to be forced, Li Yun's performance has long made him afraid to say anything more bullshit.

Jin Liuli looked at Li Yun, and Alice also looked at Li Yun.

"Death? The methods of these practitioners are extremely weird, it is not easy to kill them."

Li Yun's expression was cold, and he shouted again: "Get out of me if you are not dead. I count three times. If you don't get up again, I will blow your body directly!"

For a long while.

"Jie Jie Jie, cough cough!" n/ô/vel/b//in dot c//om

Just when everyone thought he was dead, a weird laughter sounded, but a few coughs followed, which meant that the person had run out of oil.

"Your conspiracy has been exposed." Li Yun said indifferently: "You want to invade General Xu's tomb, but unfortunately, with us, you are not destined to succeed!"

Jin Liuli looked dazed, how did this villain know these things?

"Hahaha."

The black-browed stranger gave a weird smile. After spitting out black blood, he struggled to sit up and looked at Li Yun and others with his vicious eyes:

"You all are going to die!"

"Not only you are going to die, but your family, your relatives and friends are also going to die!!"

"My Venerable Black Eyebrow swears that when I seize this tomb of the Emperor of Heaven, I will kill you one by one, cramping, pulling bones, and blowing...ash!!!"

boom!

Li Yun exploded his head with a shot.
